(b) During dynamometer operation, a fixed speed cooling fan shall be positioned so as to direct cooling air to the vehicle in an appropriate manner with the engine compartment cover open. The fan capacity shall normally not exceed 5,300 c.f.m. If, however, the manufacturer can show that during field operation the vehicle received additional cooling, the fan capacity may be increased or additional fans used if approved in advance by the Administrator. In the case of vehicles with front engine compartments, the fan(s) shall be squarely positioned between 8 and 12 inches in front of the cooling air inlets (grill). In the case of vehicles with rear engine compartments (or if special designs make the above impractical), the cooling fan(s) shall be placed in a position to provide sufficient air to maintain engine cooling.

(c) The vehicle shall be nearly level when tested in order to prevent abnormal fuel distribution.

(d) Flywheels, electrical or other means of simulating inertia shall be used. If the equivalent inertia specified in the following table is not available on the dynamometer being used, the next higher equivalent inertia (not to exceed 250 lbs.) available shall be used.

Loaded vehicle weight, pounds	Equivalent inertia weight, pounds	Road load power at 50 m.p.h. horsepower
Up to 1,125	1,000	5.9
1,126 to 1,375	1,000	6.5
1,376 to 1,625	1,500	7.1
1,626 to 1,875	1,750	7.7
1,876 to 2,125	2,000	8.3
2,126 to 2,375	2,250	8.8
2,376 to 2,625	2,500	9.4
2,626 to 2,875	2,750	9.9
2,876 to 3,250	3,000	10.3
3,251 to 3,750	3,500	11.2
3,751 to 4,250	4,000	12.0
4,251 to 4,750	4,500	12.7
4,751 to 5,250	5,000	13.4
5,251 to 5,750	5,500	13.9
5,751 to above	5,500	14.4

(e) Power absorption unit adjustment:

(1) The power absorption unit shall be adjusted to reproduce road load power at 50 m.p.h. true speed. The indicated road load power setting shall take into account the dynamometer friction. The relationship between road load (absorbed) power and indicated road load power for a particular dynamometer shall be determined by the procedure outlined in Appendix II to this part or other suitable means.

(2) The road load power listed in the table above shall be used or the vehicle manufacturer may determine the road load power by the following procedure and request its use:

(i) Measuring the fuel flow rate of a representative vehicle of the same equivalent inertia weight class, when operated on a level road under balanced wind conditions at a true speed of 50 m.p.h., and

(ii) Noting the dynamometer indicated road load horsepower setting required to reproduce that fuel flow rate when the same vehicle is operated on the dynamometer at a true speed of 50 m.p.h. The tests on the road and on the dynamometer shall be performed with the same vehicle ambient absolute pressure (usually barometric), i.e. within ±5 mm. Hg.

V 38 151 AUG 7 73 XUM

(iii) The road load power shall be determined according to the procedure outlined in Appendix II to this part and adjusted according to the following if applicable.

(3) Where it is expected that more than 33 percent of the vehicles in an engine family will be equipped with air-conditioning, the road load power listed above or as determined in subparagraph (2) of this paragraph shall be increased by 10 percent for testing all test vehicles representing such engine family.

(f) The vehicle speed (m.p.h.) as measured from the dynamometer rolls shall be used for all conditions. A speed vs. time recording, as evidence of dynamometer test validity, shall be supplied on request of the Administrator.

(g) Practice runs over the prescribed driving schedule may be performed to find the minimum accelerator pedal action to maintain the proper speed-time relationship.

NOTE: When using two-roll dynamometers a truer speed-time trace may be obtained by minimizing the rocking of the vehicle in the rolls. The rocking of the vehicle changes the tire rolling radius on each roll. The rocking may be minimized by restraining the vehicle horizontally (or nearly so) by using a cable and winch.

(h) The drive wheel tires may be inflated up to 45 p.s.i.g. in order to prevent tire damage. The drive wheel tire pressure shall be reported with the test results.

(i) If the dynamometer has not been operated during the 2-hour period immediately preceding the test it shall be warmed up for 15 minutes by operating it at 30 m.p.h. using a nontest vehicle.

(j) Changes to dynamometer horsepower settings, if required, shall be made prior to the beginning of the exhaust emission measurement test phase. If a vehicle is needed to make this adjustment a nontest vehicle shall be used.

§ 85.175–14 Three-speed manual transmissions.

(a) All test conditions except as noted shall be run in highest gear.

(b) Cars equipped with free wheeling or overdrive units shall be tested with this unit (free wheeling or overdrive) locked out of operation.

(c) Idle shall be run with transmission in gear and with clutch disengaged (except first idle; see § 85.175–17).

(d) The vehicle shall be driven with minimum accelerator pedal movement to maintain the desired speed.

(e) Acceleration modes shall be driven smoothly with the shift speeds as recommended by the manufacturer. If the manufacturer does not recommend shift speeds, the vehicle shall be shifted from first to second gear at 15 m.p.h. and from second to third gear at 25 m.p.h. The operator shall release the accelerator pedal during the shift, and accomplish the shift with minimum time. If the vehicle cannot accelerate at the specified rates, the vehicle shall be accelerated at maximum available power until the vehicle speed reaches the speed at which it should be at that time during the test.

(f) The deceleration modes shall be run with clutch engaged and without shifting gears from the previous mode, using brakes or accelerator pedal as necessary to maintain the desired speed. For those modes which decelerate to zero, the clutch shall be depressed when the speed drops below 15 m.p.h. when engine roughness is evident, or when engine stalling is imminent.

(g) Downshifting is allowed at the beginning of or during a power mode if recommended by the manufacturer or if the engine obviously is lugging.

§ 85.175–15 Four-speed and five-speed manual transmissions.

(a) Use the same procedure as for three-speed manual transmissions for shifting from first to second gear and from second to third gear. If the manufacturer does not recommend shift speeds, the vehicle shall be shifted from third to fourth gear at 40 m.p.h. Fifth gear may be used at the manufacturer's option.

(b) If transmission ratio in first gear exceeds 3:1, follow the procedure for three- or four-speed manual transmission vehicles as if the first gear did not exist.

§ 85.175–16 Automatic transmissions.

(a) All test conditions shall be run with the transmission in "Drive" (highest gear). Automatic stick-shift transmissions may be shifted as manual transmissions at the option of the manufacturer.

(b) Idle modes shall be run with the transmission in "Drive" and the wheels braked (except first idle; see § 85.175–17).

(c) The vehicle shall be driven with minimum accelerator pedal movement to maintain the desired speed.

(d) Acceleration modes shall be driven smoothly allowing the transmission to shift automatically through the normal sequence of gears. If the vehicle cannot accelerate at the specified rates, the vehicle shall be accelerated at maximum available power until the vehicle speed reaches the speed at which it should be at that time during the driving schedule.

(e) The deceleration modes shall be run in gear using brakes or accelerator pedal as necessary to maintain the desired speed.

§ 85.175–17 Engine starting and restarting.

(a) The engine shall be started according to the manufacturer's recommended starting procedures. The initial 20-second idle period shall begin when the engine starts. The transmission shall be placed in gear 15 seconds after the engine is started. If necessary, braking may be employed to keep the drive wheels from turning.

(b) If the vehicle does not start after 10 seconds of cranking, cranking shall cease and the reason for failure to start shall be determined. The revolution counter on the constant volume sampler and the hydrocarbon integrator (see § 85.175–21 *Dynamometer test runs*) shall be turned off and the sample solenoid valves placed in the "dump" position during this diagnostic period. In addition, either the positive displacement pump should be turned off or the exhaust tube disconnected from the tailpipe during the diagnostic period. If failure to start is an operational error, the vehicle shall be rescheduled for testing from a cold start. If failure to start is caused by vehicle malfunction, corrective action of less than 30 minutes duration may be taken and the test continued. The sampling system shall be reactivated at the same time cranking is started. When the engine starts, the driving schedule timing sequence shall begin. If failure to start is caused by vehicle malfunction and the vehicle cannot be started, the test shall be voided, the vehicle removed from the dynamometer, corrective action taken, and the vehicle rescheduled for test. The reason for the malfunction (if determined) and the corrective action taken shall be reported.

(c) If the engine "false starts", the operator shall repeat the recommended starting procedure.

(d) Stalling:

(1) If the engine stalls during an idle period, the engine shall be restarted immediately and the test continued. If the engine cannot be started soon enough to allow the vehicle to follow the next acceleration as prescribed, the driving schedule indicator shall be stopped. When the vehicle restarts the driving schedule indicator shall be reactivated.

(2) If the engine stalls during some operating mode other than idle, the driving schedule indicator shall be stopped, the vehicle restarted, accelerated to the speed required at that point in the driving schedule and the test continued.

(3) If the vehicle will not restart within 1 minute, the test shall be voided, the vehicle removed from the dynamometer, corrective action taken, and the vehicle rescheduled for test. The reason for the malfunction (if determined) and the corrective action taken shall be reported.

§ 85.175–18 Sampling and analytical system (exhaust emissions).

(a) *Schematic drawings.* The following figures (Fig. B 175–1, B 175–2, and B 175–3) are schematic drawings of the exhaust gas sampling and analytical systems which will be used for testing under the regulations in this part. Additional components such as instruments, valves, solenoids, pumps, and switches may be used to provide additional information and coordinate the functions of the component systems.

(b) *Component description (exhaust gas sampling system).* The following components will be used in the exhaust gas sampling system for testing under the regulations in this part. See Figure B 175–1. Other types of constant volume samplers may be used if shown to yield equivalent results, and if approved in advance by the Administrator.

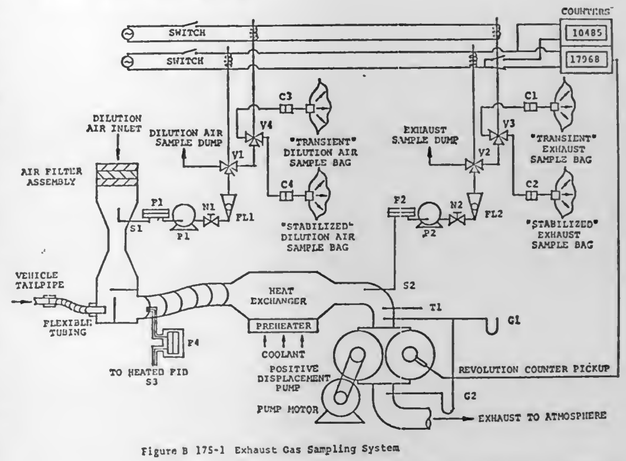

Figure B 175-1 Exhaust Gas Sampling System

(1) A dilution air filter assembly consisting of a particulate (paper) filter to remove solid matter from the dilution air and thus increase the life of the charcoal filter; a charcoal filter to reduce and stabilize the background hydrocarbon level; and a second particulate filter to remove charcoal particles from the air stream. The filters shall be of sufficient capacity and the duct which carries the dilution air to the point where the exhaust gas is added shall be of sufficient size so that the pressure at the mixing point is less than 1 inch of water pressure below ambient when the constant volume sampler is operating at its maximum flow rate.

(2) A leak-tight conector and tube to the vehicle tailpipe. The flexible tubing shall be sized and connected in such a manner that the static pressure variations in the vehicle tailpipe(s) remain within ±5 inches of water of the static pressure variations measured during a dynamometer driving cycle with no connection to the tailpipe(s). Sampling systems capable of tolerances to ±1 inch of water will be used by the Administration upon written request by the manufacturer.

(3) A heating system to preheat the heat exchanger to within ±10° F. of its operating temperature before the test begins.

(4) A heat exchanger capable of limiting the gas mixture temperature variation during the entire test to ±10° F. as measured at a point immediately ahead of the positive displacement pump.

(5) A positive displacement pump to pump dilute exhaust mixture. The pump capacity (300 to 350 c.f.m. is sufficient for testing most vehicles) shall be large enough to virtually eliminate water condensation in the system. See Appendix III to this part for one flow calibration technique. Other suitable calibration techniques may be used if approved in advance by the Administrator.

(6) Temperature sensor (T1) with an accuracy of ±2° F. to allow continuous recording of the temperature of the dilute exhaust mixture entering the positive displacement pump. (See § 85.175–19(k)).

(7) Gage (G1) with an accuracy of ±3 mm. Hg to measure the pressure depression of the dilute exhaust mixture entering the positive displacement pump, relative to atmospheric pressure.

(8) Gage (G2) with an accuracy of ±3 mm. Hg to measure the pressure increase across the positive displacement pump.

(9) Sample probes (S1, S2, and S3) pointed upstream to collect samples from the dilution air stream and the dilute exhaust mixture. Additional sample probes may be used, for example, to obtain continuous concentration traces of the dilute exhaust stream. In such case the sample flow rate, in standard cubic feet per test phase, must be added to the calculated dilute exhaust volume. The position of the sample probes in Figure B 175–1 is pictorial only. The heated sample line (S3) between the sampling point and the analyzer shall be as short as possible.

(10) Filters (F1 and F2) to remove particulate matter from dilution air and dilute exhaust samples.

(11) Pumps (P1 and P2) to pump the dilution air and dilute exhaust into their respective sample collection bags.

(12) Flow control valves (N1 and N2) to regulate flows to sample collecton bags, at constant flow rates. The minimum sample flow rate shall be 10 c.f.h.

(13) Flowmeters (FL1 and FL2) to insure, by visual observation, that constant flow rates are maintained throughout the test.

(14) Three-way solenoid valves (V1, V2, V3, and V4) to direct sample streams to either their respective bags or overboard.

(15) Quick-connect, leak-tight fittings (C1, C2, C3, and C4) with automatic shut-off on bag side to attach sample bags to sample system.

(16) Sample collection bags for dilution air and exhaust samples of sufficient capacity so as not to impede sample flow.

(17) Revolution counters to count the revolutions of the positive displacement pump while each test phase is in progress and samples are being collected.

(c) *Component description (exhaust gas batch analytical system).* The following components will be used in the exhaust gas batch analytical system for testing under the regulations in this part. The analytical system provides for the determination of carbon monoxide and carbon dioxide concentrations by nondispersive infrared (NDIR) analysis and the determination of oxides of nitrogen concentrations by chemiluminescence (CL) analysis in dilute exhaust samples. The chemiluminescence method of analysis requires that the nitrogen dioxide present in the sample be converted to nitric oxide before analysis. Other types of analyzers may be used if shown to yield equivalent results and if approved in advance by the Administrator. See Figure B 175–2.

(1) Quick-connect, leak-tight fitting (C5) to attach sample bags to analytical system.

(2) Filter (F3) to remove any residual particulate matter from the collected sample.

(3) Pump (P3) to transfer samples from the sample bags to the analyzers.

(4) Selector valves (V5, V6, V7, V8, and V9) for directing samples, span gases or zeroing gases to the analyzers.

(5) Flow control valves (N3, N4, N5, N6, N7, N8, N9, N10, N11, and N12) to regulate the gas flow rates.

(6) Flowmeters (FL3, FL4, and FL5) to indicate gas flow rates.

(7) Manifold (M1) to collect the expelled gases from the analyzers.

(8) Pump (P4) to transfer expelled gases from the collection manifold to a vent external to the test room (optional).

(9) Analyzers to determine carbon monoxide, carbon dioxide, and oxides of nitrogen concentrations.

(10) An oxides of nitrogen converter to convert any NO_2 present in the samples to NO before analysis.

(11) Selector valves (V10 and V11) to allow the sample, span, calibrating or zeroing gases to bypass the converter.

V 38-151 AUG 7 73 XUM

(12) Water trap (T1) to partially remove water and a valve (V12) to allow the trap to be drained.

(13) Sample conditioning columns to remove remainder of water (WR1 and WR2 containing indicating calcium sulfate or indicating silica gel), and carbon dioxide (CDR1 and CDR2 containing ascarite) from the CO analysis stream.

NOTE: If CO instruments which are essentially free of CO_2 and water vapor interference are used, the use of the water trap (T1) and these conditioning columns is unnecessary and the trap and columns may be deleted. See § 85.175–19(m) and § 85.175–23(c). A CO instrument will be considered to be essentially free of CO_2 and water vapor interference if its response to a mixture of 3 percent CO_2 and 3 percent water vapor in N_2 produces 3 p.p.m. or less equivalent CO response.

(14) Selector valves (V13 and V14) to permit switching from exhausted absorbing columns to fresh columns.

(15) Water bubbler (W1) to allow saturation of the CO_2 span gas to check efficiency of absorbing columns.

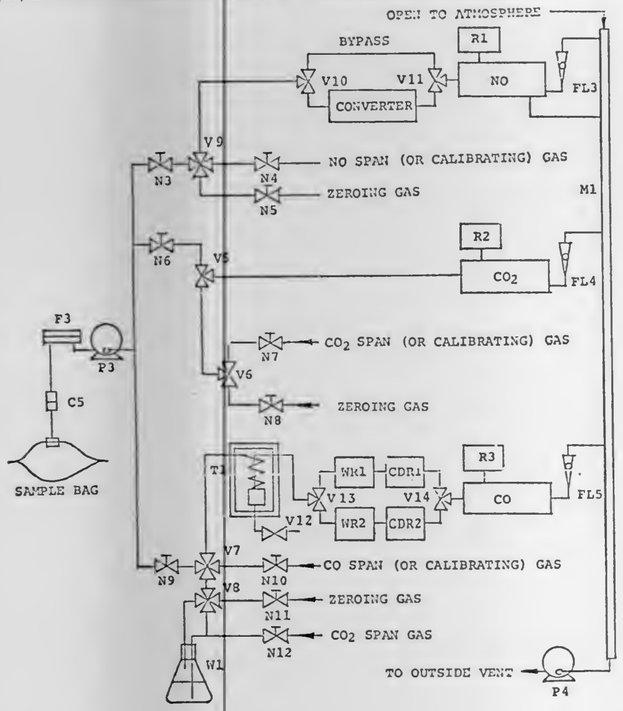

Figure B 175-2 Exhaust Gas Batch Analytical System

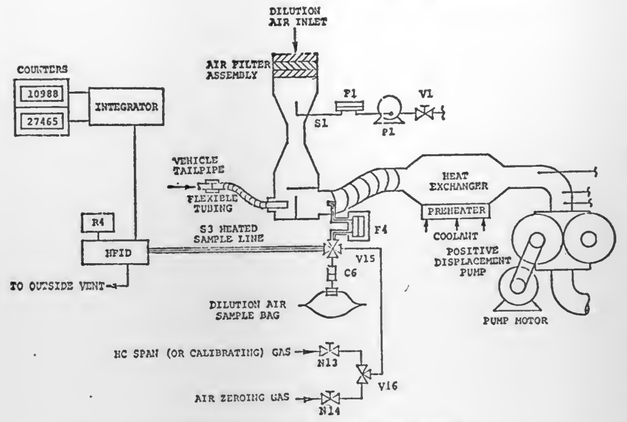

Figure B 175-3 Diesel Hydrocarbon Continuous Analysis System

(16) Recorders (R1, R2, and R3) or digital printers to provide permanent records of calibration, spanning and sample measurements; or in those facilities where computerized data acquisition systems are incorporated, the computer facility printout may be used.

(d) *Component description (exhaust gas continuous analytical system).* The following components will be used in the exhaust gas continuous analytical system for testing under the regulations in this part. This analytical system provides for the continuous determination of exhaust hydrocarbon concentration by heated flame ionization detector (HFID) analysis. Other types of analyzers may be used if shown to yield equivalent results and if approved in advance by the Administrator. See Figure B175–3.

(1) Heated continuous sampling line (S3).

(2) Heated filter (F4) to remove particulate matter from heated hydrocarbon sample.

(3) Selector valves (V15, and V16) for directing the continuous dilute exhaust sample, dilution air bag sample, span or zeroing gases to the analyzers.

(4) Quick-connect, leak-tight fitting (C6) to attach dilution air sample bag to analytical system.

(5) Heated hydrocarbon analyzer (HFID) complete with heated pump, filter, and flow control system. The response time of this instrument shall be less than 1 second for 90 percent of full scale response. Sample transport time from sampling point to inlet of instrument shall be less than 4 seconds.

(6) Chart recorder (R4), chart recorder (R4) and analog integrator with two readouts, or chart recorder (R4) and on-line digital computer for manual or electronic integration of analyzer output signal during the three operating phases of the test.

(7) Flow control valves (N13 and N14) to regulate the gas flow rates.

§ 85.175–19 Information to be recorded.

The following information shall be recorded with respect to each test:

(a) Test number.

(b) System or device tested (brief description).

(c) Date and time of day for each part of the test schedule.

(d) Instrument operator.

(e) Driver or operator.

(f) Vehicle: Make—Vehicle identification number—Model year—Transmission type—Odometer reading—Engin displacement—Engine family—Idle r.p.m.—Inertia loading—Estimated curb weight—Actual road load HP at 50 m.p.h. and drive wheel tire pressure.

(g) Dynamometer serial number and indicated road load power absorption at 50 m.p.h.

(h) All pertinent instrument information such as tuning—gain—serial numbers—detector numbers—range. As an alternative, a reference to a vehicle test cell number may be used with the advance approval of the Administrator, provided test cell calibration records show the pertinent instrument information.

(i) Recorder charts: Identify zero, span, exhaust gas, and dilution air sample traces.

(j) Test cell barometric pressure, ambient temperature and humidity.

(k) Pressure of the mixture of exhaust and dilution air entering the postive displacement pump, the pressure increase across the pump, and the temperature set point of the temperature control system. The sample temperature at the inlet to the pump may be measured if desired, to verify that the temperature variations are within ±5° F. of the set point.

(l) The number of revolutions of the positive displacement pump accumulated while the test is in progress and exhaust flow samples are being collected.

(m) The humidity of the dilution air (necessary only if trap T1 and conditioning columns WR1, WR2, CD1, and CD2 are used for CO measurements). See § 85.175–18(c) (13).

(n) Temperature set point of the heated sample line and heated hydrocarbon detector temperature control system.

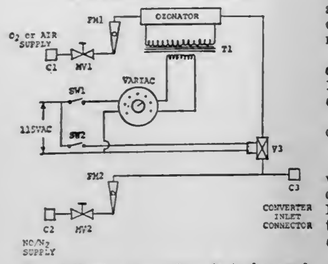
§ 85.175–20 Analytical system calibration and sample handling.

(a) Calibrate the analytical assembly at least once every 30 days. Use the same flow rate as when analyzing samples.

(1) Adjust analyzers to optimize performance. Operate heated hydrocarbon analyzer, sampling line, and filter at 375°±10° F.

(2) Zero the hydrocarbon analyzer with zero grade air and the carbon monoxide, carbon dioxide, and oxides of nitrogen analyzers with zero grade nitrogen. The allowable zero gas impurity concentrations should not exceed 1 p.p.m. equivalent carbon response, 1 p.p.m. carbon monoxide, 300 p.p.m. (0.03 mole percent) carbon dioxide, and 0.1 p.p.m. nitric oxide.

(3) Set the CO and CO_2 analyzer gains to give the desired ranges. Select the desired attenuation scale of the HC analyzer, set the sample capillary flow rate by adjusting the back pressure regulator, and adjust the electronic gain control, if provided, to give the desired range. Select the desired scale of the NO_x analyzer and adjust the phototube high voltage supply or amplifier gain to give the desired range.



(4) Calibrate the HC analyzer with propane (air diluent) gases having nominal concentrations equal to 50 and 100 percent of full scale. Calibrate the CO analyzer with carbon monoxide (nitrogen diluent) gases and the CO_2 analyzer with carbon dioxide (nitrogen diluent) gases having nominal concentrations equal to 10, 25, 40, 50, 60, 70, 85, and 100 percent of full scale. Calibrate the NO_x analyzer with nitric oxide (nitrogen diluent) gases having nominal concentrations equal to 50 and 100 percent of full scale. The actual concentrations should be known to with ±2 percent of the true values.

(5) Compare values obtained on the CO and CO_2 analyzers with previous calibration curves. Any significant change reflects some problem in the system. Locate and correct problem, and recalibrate. Use best judgment in selecting curves for data reduction.

(6) NO_x converter efficiency determination. The apparatus described and illustrated in Figure B 175–7 is to be used to determine the conversion efficiency of devices that convert NO_x to NO.

V 38 - 151 AUG 7 73 XUM

FIG. B 175–7—NO_x CONVERTER EFFICIENCY DETECTOR

The following procedure is to be used for determining the values to be used in Equation (A).

(i) Attach the NO/N_2 supply (150–250 p.p.m.) at C2, the O_2 supply at C1 and the analyzer inlet connection to the efficiency detector at C3. If lower concentrations of NO are used, air may be used in place of O_2 to facilitate better control of the NO_x generated during step (iv).

(ii) With the efficiency detector variac off, place the NO_x converter in bypass mode and close valve V3. Open valve MV2 until sufficient flow and stable readings are obtained at the analyzer. Zero and span the analyzer output to indicate the value of the NO concentration being used. Record this concentration.

(iii) Open valve V3 (on/off flow control solenoid valve for O_2) and adjust valve MV1 (O_2 supply metering valve) to blend enough O_2 to lower the NO concentration (ii) about 10 percent. Record this concentration.

(iv) Turn on the ozonator and increase its supply voltage until the NO concentration of (iii) is reduced to about 20 percent of (ii). NO_2 is now being formed from the NO+N_2 reaction. There must always be at least 10 percent unreacted NO at this point. Record this concentration.

(v) When a stable reading has been obtained from (iv), place the NO_x converter in the convert mode. The analyzer will now indicate the total NO_x concentration. Record this concentration.

(vi) Turn off the ozonator and allow the analyzer reading to stabilize. The mixture NO+O_2 is still passing through the converter. This reading is the total NO_x concentration of the dilute NO span gas used at step (iii). Record this concentration.

(vii) Close valve V3. The NO concentration should be equal to or greater than the reading of (ii) indicating whether the NO contains any NO_2.

Calculate the efficiency of the NO_x converter by substituting the concentrations obtained during the test into Equation (A).

EQUATION A

$$\%\text{Eff.} = \frac{(v)-(iv)}{(vi)-(iv)} \times 100\%$$

The efficiency of the converter should be greater than 90 percent. Adjustment of the converter temperature may be needed to maximize the efficiency. Efficiency checks should be made on each analyzer range using an NO span gas concentration appropriate to the instrument range.

(7) Check the efficiency of the sample conditioning system, if used (see § 85.-175–18(c)(13)), by the following procedure:

(i) Zero and span the CO instrument on its most sensitive scale.

(ii) Recheck zero.

(iii) Bubble CO_2 span gas through water and then through the sample conditioning system into the CO instrument. If the CO instrument shows no response to the wet CO_2, the columns are in good condition.

(iv) If the CO instrument responds to wet CO_2, replace columns as necessary to bring response back to zero.

(v) The conditioning system efficiency should be checked daily.

(b) HC, CO, CO_2, and NO_x measurement: Allow HC analyzer sample line and filter to heat to set point (375°±10° F.), and allow a minimum of 20 minutes warmup for the HC analyzer electronics and 2 hours for the CO, CO_2 and NO_x analyzers. (Power is normally left on infrared and chemiluminescence analyzers; but when not in use, the chopper motors of the infrared analyzers are turned off and the phototube high voltage supply of the chemiluminescence analyzer is placed in the standby position.) The following sequence of operations should be performed in conjunction with each series of measurements:

(1) Zero the analyzers. Obtain a stable zero on each amplifier meter and recorder. Recheck after tests.

(2) Introduce span gases and set the CO and CO_2 analyzer gains, the HC analyzer sample capillary flow rate and electronic gain control, if provided, and the NO_x analyzer high voltage supply or amplifier gain to match the calibration curves. In order to avoid corrections, span and calibrate at the same flow rates used to analyze the test samples. Span gases should have concentrations equal to approximately 80 percent of full scale. If gain has shifted significantly on the CO or CO_2 analyzers, check tuning. If necessary, check calibration. Recheck after test. Show actual concentrations on chart.

(3) Check zeros; repeat the procedure in subparagraphs (1) and (2) of this paragraph if required.

(4) Check flow rates and pressures.

(5) Continuously record (and integrate electronically, if desired) dilute hydrocarbon emission levels during test.

(6) Measure CO, CO_2, and NO_x concentrations of samples. Care should be exercised to prevent moisture from condensing in the sample collection bag.

(7) Check zero and span points.

(c) For the purposes of this section, the term "zero grade air" includes artificial "air" consisting of a blend of nitrogen and oxygen with oxygen concentrations between 18 and 21 mole percent.

§ 85.175–21 Dynamometer test runs.

(a) The vehicle shall be allowed to stand with the engine turned off for a period of not less than 12 hours before the cold start exhaust emission test. The vehicle shall be stored prior to the emission tests in such a manner that precipitation (e.g. rain or dew) does not occur on the vehicle. The complete dynamometer test consists of a cold start drive of 7.5 miles and simulates a hot start drive of 7.5 miles. The vehicle is allowed to stand on the dynamometer during the 10-minute time period between the cold and hot start tests. The cold start test is divided into two periods. The first period, representing the cold start "transient" phase, terminates at the end of the deceleration which is scheduled to occur at 505 seconds of the driving schedule. The second period, representing the "stabilized" phase, consists of the remainder of the driving schedule including engine shutdown. The hot start test similarly consists of two periods. The first period, representing the hot start "transient" phase, terminates at the same point in the driving schedule as the first phase of the cold start test. The second period of the hot start test, "stabilized" phase is assumed to be identical to the second period of the cold start test. Therefore, the hot start test terminates after the first period (505 seconds) is run.

(b) The following steps shall be taken for each test:

(1) Place drive wheels of vehicle on dynamometer without starting engine.

(2) Open the vehicle engine compartment cover and start the cooling fan.

(3) With the sample solenoid valves in the "dump" position connect evacuated sample collection bags to the two dilute exhaust sample connectors and to the two dilution air sample line connectors.

(4) Start the positive displacement pump, the sample pumps, the temperature recorder, and the heated hydrocarbon analysis recorder. (The constant volume sampler heat exchanger, the hydrocarbon analyzer continuous sample line and filter should be preheated to their respective operating temperatures before the test begins.)

(5) Adjust the sample flow rates to the desired flow rate (minimum of 10 c.f.h.). Set the hydrocarbon integrator counters and pump revolution counters to zero.

(6) Attach the flexible exhaust tube to the vehicle tailpipe(s).

(7) Simultaneously start the revolution counter for the positive displacement pump, position the sample solenoid valves to direct the sample flows into the "transient" exhaust sample bag and the "transient" dilution air sample bag, turn on the hydrocarbon analyzer system integrator and mark recorder chart, and start cranking engine.

(8) Fifteen seconds after the engine starts, place the transmission in gear.

(9) Twenty seconds after the engine starts, begin the initial vehicle acceleration of the driving schedule.

(10) Operate the vehicle according to the dynamometer driving schedule.

(11) At the end of the deceleration which is scheduled to occur at 505 seconds, simultaneously switch the sample flows from the "transient" bags to the "stabilized" bags, switch off revolution counter No. 1 and hydrocarbon integrator No. 1, mark hydrocarbon recorder chart and start counter No. 2 and hydrocarbon integrator No. 2. As soon as possible and in no case longer than 20 minutes after the end of this portion of the test disconnect the "transient" exhaust and dilution air sample bags, transfer them to the analytical system and process the samples according to § 85.175–20.

(12) Turn the engine off 2 seconds after the end of the last deceleration (at 1,369 seconds).

(13) Five seconds after the engine stops running, simultaneously turn off revolution counter No. 2 and hydrocarbon integrator No. 2, mark hydrocarbon recorder chart and position the sample solenoid valves to the "dump" position. As soon as possible and in no case longer than 20 minutes after the end of this portion of the test disconnect the "stabilized" exhaust and dilution air sample bags, transfer them to the analytical system and process the samples according to § 85.175–20.

(14) Immediately after the end of the sample period disconnect the exhaust tube from the tailpipe(s), turn off the cooling fan and close the engine compartment cover.

(15) Turn off the positive displacement pump.

(16) Repeat the steps in subparagraphs (2) through (10) of this paragraph for the hot start test except only one evacuated sample bag is required for sampling exhaust gas and one for dilution air. The step in subparagraph (7) of this paragraph shall begin between 9 and 11 minutes after the end of the sample period for the cold start test.

(17) At the end of the deceleration which is scheduled to occur at 505 seconds, simultaneously turn off the No. 1 revolution counter and hydrocarbon integrator No. 1, mark hydrocarbon recorder chart and position the sample solenoid valve to the "dump" position. (Engine shutdown is not part of the hot start sample period.)

(18) As soon as possible and in no case longer than 20 minutes after the end of this portion of the test disconnect the hot start "transient" exhaust and dilution air sample bags, transfer them to the analytical system and process the samples according to § 85.175–20.

(19) Disconnect the exhaust tube from the vehicle tailpipe(s) and remove vehicle from dynamometer.

(20) The positive displacement pump may be turned off, if desired.

§ 85.175–22 Chart reading.

(a) Determine the HC, CO, CO_2, and NO_x concentrations of the dilution air and the CO, CO_2, and NO_x concentration of the dilute exhaust sample bags from the instrument deflection, computer printout, or recordings making use of appropriate calibration charts.

(b) Record integrated HC results, or manually integrate continuous chart. This chart provides a permanent record and can be graphically integrated if verification of the results of electronic integration is required.

(c) Determine the average dilute exhaust mixture temperatures from the temperature recorder trace if a recorder is used.

§ 85.175–23 Calculations (exhaust emissions).

The final reported test results shall be computed by use of the following formulae:

(a) For light duty vehicles:

$$Y_{wm} = (0.43\ Y_{ct} + 0.57\ Y_{ht} + Y_s)/7.5$$

Where:
Y_{wm} = Weighted mass emissions of each pollutant, i.e. HC, CO, or NO_x, in grams per vehicle mile.
Y_{ct} = Mass emissions as calculated from the "transient" phase of the cold start test, in grams per test phase.
Y_{ht} = Mass emissions as calculated from the "transient" phase of the hot start test, in grams per test phase.
Y_s = Mass emissions as calculated from the "stabilized" phase of the cold start test, in grams per test phase.

(b) The mass of each pollutant for each phase of both the cold start test and the hot start test is determined from the following:

(1) Hydrocarbon Mass:

$$HC_{mass} = V_{mix} \times \text{Density}_{HC} \times \frac{HC_{conc}}{1{,}000{,}000}$$

(2) Oxides of nitrogen Mass:

$$NO_{x_{mass}} = V_{mix} \times \text{Density}_{NO_2} \times \frac{NO_{x_{conc}}}{1{,}000{,}000} \times K_H$$

(3) Carbon monoxide Mass:

$$CO_{mass} = V_{mix} \times \text{Density}_{CO} \times \frac{CO_{conc}}{1{,}000{,}000}$$

(c) Meaning of symbols:

HC_{mass} = Hydrocarbon emissions, in grams per test phase.

Density_{HC} = Density of hydrocarbons in the exhaust gas, assuming an average carbon to hydrogen ratio of 1:1.85, in grams per cubic foot at 68° F. and 760 mm. hg. pressure (16.33 gm./cu. ft.).

HC_{conc} = Hydrocarbon concentration of the dilute exhaust sample corrected for background, in p.p.m. carbon equivalent, i.e. equivalent propane×3.

$$HC_{conc} = HC_s - HC_d(1-1/\overline{DF})$$

Where:
HC_s = Average hydrocarbon concentrations of the dilute exhaust sample as calculated from the integrated HC traces, in p.p.m. carbon equivalent.
HC_d = Hydrocarbon concentration of the dilution air as measured in p.p.m. carbon equivalent.

$NO_{x_{mass}}$ = Oxides of nitrogen emissions, in grams per test phase.

Density_{NO_2} = Density of oxides of nitrogen in the exhaust gas, assuming they are in the form of nitrogen dioxide, in grams per cubic foot at 68° F. and 760 mm. Hg pressure (54.16 gm./cu. ft.).

$NO_{x_{conc}}$ = Oxides of nitrogen concentration of the dilute exhaust sample corrected for background, in p.p.m.

$$NO_{x_{conc}} = NO_{x_s} - NO_{x_d}(1-1/DF)$$

Where:
NO_{x_s} = Oxides of nitrogen concentration of the dilute exhaust sample as measured, in p.p.m.
NO_{x_d} = Oxides of nitrogen concentration of the dilution air as measured, in p.p.m.

CO_{mass} = Carbon monoxide emissions, in grams per test phase.
Density_{CO} = Density of carbon monoxide in grams per cubic foot at 68° F. and 760 mm. Hg pressure (32.97 gm./cu. ft.).
CO_{conc} = Carbon monoxide concentration of the dilute exhaust sample corrected for background, water vapor and CO_2 extraction, in p.p.m.

$$Co_{conc} = CO_s - CO_d\ (1-1/DF)$$

Where:
CO_s = Carbon monoxide concentration of the dilute exhaust sample volume corrected for water vapor and carbon dioxide extraction, in p.p.m. The calculation assumes the carbon to hydrogen ratio of the fuel is 1:1.85.

$$CO_s = (1-0.01925\ CO_{sm} - 0.000323\ R)\ CO_{sm}$$

Where:
CO_{sm} = Carbon monoxide concentration of the dilute exhaust sample as measured in p.p.m.
CO_{2s} = Carbon dioxide concentration of the dilute exhaust sample, in mole percent.
R = Relative humidity of the dilution air, in percent.
CO_d = Carbon monoxide concentration of the dilution air corrected for water vapor extraction, in p.p.m.

$$CO_d = (1-0.000323\ R)\ CO_{dm}$$

Where:
CO_{dm} = Carbon monoxide concentration of the dilution air sample as measured, in p.p.m.

NOTE: If a CO instrument free of CO_2 and water vapor interference is used (§ 85.175–18(c)(13)) and the water trap and conditioning columns are not, CO_{sm} can be substituted directly for CO_s and CO_{dm} can be substituted directly for CO_d.

$$DF = \frac{13.4}{CO_{2s} + (HC_s + CO_s) \times 10^{-4}}$$

V_{mix} = Total dilute exhaust volume in cubic feet per test phase corrected to standard conditions (528° R and 760 mm. Hg).

$$V_{mix} = V_0 \times N \frac{(P_B - P_1)\ (528°\ R)}{(760\ \text{mm. Hg})(T_p)}.$$

Where:
V_0 = Volume of gas pumped by the positive displacement pump, in cubic feet per revolution. This volume is dependent on the pressure differential across the positive displacement pump.
N = Number of revolutions of the positive displacement pump during the test phase while samples are being collected.
P_B = Barometric pressure in mm. Hg.
P_1 = Pressure depression below atmospheric measured at the inlet to the positive displacement pump.
T_p = Average temperature of dilute exhaust entering positive displacement pump during test while samples are being collected, in degrees Rankine.
K_H = Humidity correction factor.

$$K_H = \frac{1}{1-0.0047\ (H-75)}$$

NOTE: The constant 0.0047 will be updated to reflect any data which becomes available on Light-Duty diesel engine tests.

Where:
H = Abolute humidity in grains of water per pound of dry air.

$$H = \frac{(43.478)\ R_s \times P_d}{P_B - (P_d \times R_s/100)}$$

R_s = Relative humidity of the ambient air, in percent.
P_d = Saturated vapor pressure, in mm. Hg at the ambient dry bulb temperature.

V 3 8 - 1 5 1 A UG 7 7 3 XUM

(d) Example calculation of mass emissions values:

(1) For the "transient" phase of the cold start test assume V_0=0.29344 cu. ft. per revolution; N=10,485; R=48.0 percent; R_a=48.2 percent; P_B=762 mm. Hg; P_d=22.225 mm. Hg; P_1=70 mm. Hg; T_p=570° R; HC_e=105.8 p.p.m. carbon equivalent; NO_{xe}=11.2 p.p.m.; CO_{em}=306.6 p.p.m.; CO_{2e}=1.43 percent; HC_d=12.1 p.p.m.; NO_{xd}=0.8 p.p.m.; CO_{dm}=15.3 p.p.m. Then:

$$V_{m,t}=\frac{(0.29341)\ (10,485)\ (762-70)\ (528)}{(760)\ (570)}=2595.0 \text{ cu. ft. per test phase.}$$

$$H=\frac{(43.478)\ (48.2)\ (22.225)}{762-(22.225\times 18.2\ 100)}$$

$$K_H=\frac{1}{1-0.0047(62-75)}=0.9424.$$

$$CO_e=(1-0.01925(1.43)-0.000323(48))306.0=293.4 \text{ p.p.m.}$$

$$CO_d=(1-0.0323(48))15.3=15.1 \text{ p.p.m.}$$

$$DF=\frac{13.4}{1.43+(105.8+293.4)\times 10^{-4}}=9.116.$$

$HC_{conc}=105.8-12.1(1-1/9.116)=95.03.$
$HC_{mass}=(2595)(16.33)(95.03\ 1,000,000)=1.027$ grams per test phase.
$NO_{x_{conc}}=11.2-0.8(1-1/9.116)=10.49.$
$NO_{x_{mass}}=(2595)(54.16)(10.49\ 1,000,000)(0.9424)=1.389$ grams per test phase.
$CO_{conc}=293.4-15.1(1-1/9.116)=280.$
$CO_{mass}=(2595)(32.97)(280\ 1,000,000)=23.96$ grams per test phase.

(2) For the "stabilized" portion of the cold start test assume that similar calculations resulted in HC_{mass}=0.62 grams per test phase; NO_{xmass}=1.27 grams per test phase; and CO_{mass}=5.98 grams per test phase.

(3) For the "transient" portion of the hot start test assume that similar calculations resulted in HC_{mass}=0.51 grams per test phase; NO_{xmass}=1.38 grams per test phase; and CO_{mass}=5.01 grams per test phase.

(4) For a 1975 light-duty vehicle:

$HC_{vm}=((0.43)(4.027)+(0.57)(0.51)+0.62)7.5=0.352$ grams per vehicle mile.
$NO_{xvm}=((0.43)(1.389)+(0.57)(1.38)+1.27)\ 7.5=0.354$ grams per vehicle mile.
$CO_{vm}=((0.43)(23.96)+(0.57)(5.01)+5.98)7.5=2.55$ grams per vehicle mile.

§§ 85.175–24—85.175–27 [Reserved]

§ 85.175–28 Compliance with emission standards.

(a) The exhaust emission standards in § 85.175–1 apply to the emissions of vehicles for their useful life.

(b) Since it is expected that emission control efficiency will change with mileage accumulation on the vehicle, the emission level of a vehicle which has accumulated 50,000 miles will be used as the basis for determining compliance with the standards.

(c) The procedure for determining compliance of a new light duty motor vehicle with exhaust emission standards is as follows:

(1) Separate emission deterioration factors shall be determined from the emissions results of the durability data vehicles for each engine-system combination. A separate factor shall be established for exhaust HC, exhaust CO, and exhaust NO_x.

(i) The applicable results to be used in determining the deterioration factors for each combination shall be:

(*a*) All valid emission data from the tests required under § 85.175–7(b), except the zero mile tests. This shall include the official test results as determined in § 85.175–29 for all tests conducted on all durability vehicles of the combination selected under § 85.175–5(c) (including all vehicles elected to be operated by the manufacturer under § 85.175–5(c)(3)).

(*b*) All emission data from the tests conducted before and after the maintenance provided in § 85.175–6(a)(1)(i).

(*c*) All emission data from tests required by maintenance approved under § 85.175–6(a)(1)(vi) in those cases where the Administrator conditioned his approval for the performance of such maintenance on the inclusion of such data in the deterioration factor calculation.

(ii) All applicable results shall be plotted as a function of the mileage on the system, rounded to the nearest mile, and the best fit straight lines, fitted by the method of least squares, shall be drawn through these data points. The interpolated 5,000 and 50,000 mile points on this line must be within the standards provided in § 85.175–1 or the data will not be acceptable for use in calculation of a deterioration factor.

(iii) An exhaust emission deterioration factor shall be calculated for each combination as follows:

$$\text{factor}=\frac{\text{exhaust emissions interpolated to 50,000 miles}}{\text{exhaust emissions interpolated to 5,000 miles.}}$$

These interpolated values shall be carried out to a minimum of four decimal points to the right before dividing one by the other to determine the deterioration factor. The results shall be rounded to three places to the right of the decimal point in accordance with ASTM E 29–67.

(2) The exhaust emission test results for each emission data vehicle shall be multiplied by the appropriate deterioration factor: *Provided*, That if a deterioration factor as compared in subparagraph (1)(iii) of this paragraph is less than one, that deterioration factor shall be one for the purposes of this subparagraph.

(3) The emissions to compare with the standard shall be the adjusted emissions of paragraph (c)(2) for each emission data vehicle.

Before any emission value is compared to the standard, it shall be rounded, in accordance with ASTM E 29–67, to two significant figures. The rounded emission values shall not exceed the standard.

(4) Every test vehicle of an engine family must comply with all applicable standards, as determined in paragraph (c)(3), before any vehicle of that family may be certified.

§ 85.175–29 Testing by the Administrator.

(a) The Administrator may require that any one or more of the test vehicles be submitted to him, at such place or places as he may designate, for the purpose of conducting emissions tests. The Administrator may specify that he will conduct such testing at the manufacturer's facility, in which case instrumentation and equipment specified by the Administrator shall be made available by the manufacturer for test operations. Any testing conducted at a manufacturer's facility pursuant to this paragraph shall be scheduled by the manufacturer as promptly as possible.

(b)(1) Whenever the Administrator conducts a test on a test vehicle, the results of that test shall comprise the official data for the vehicle at that prescribed test point and the manufacturer's data for that prescribed test point shall not be used in determining compliance with emission standards.

(2) Whenever the Administrator does not conduct a test on a test vehicle at a test point, the manufacturer's test data will be accepted as the official data for that test point: *Provided*, That if the Administrator makes a determination based on testing under paragraph (a) of this section, that there is a lack of correlation between the manufacturer's test equipment and the test equipment used by the Administrator, no manufacturer's test data will be accepted for purposes of certification until the reasons for the lack of correlation are determined and the validity of the data is established by the manufacturer.

(3)(i) The emission data vehicle presented to the Administrator for testing shall be calibrated within the production tolerances applicable to the manufacturer's specifications to be shown on the vehicle label (see § 85.175–35(a)(4)(iv)) as specified in the application for certification. If the Administrator determines that a vehicle is not within such tolerances, the vehicle shall be adjusted, at the facility designated by the Administrator, prior to the test and an engineering report shall be submitted to the Administrator describing the corrective action taken. Based on the engineering report, the Administrator will determine if the vehicle shall be used as an emission data vehicle.

(ii) If the Administrator determines that the test data developed under paragraph (b)(3)(i) would cause an emission data vehicle to fail due to excessive 4,000 mile emissions or by application of the appropriate deterioration factor, then the following procedure shall be observed:

(*a*) The manufacturer may request a retest. Before the retest, the vehicle may be readjusted to manufacturer's specifications, if these adjustments were made

incorrectly prior to the first test, and parts may be replaced in accordance with § 85.175–6. All work on the vehicle shall be done at such location and under such conditions as the Administrator may prescribe.

(*b*) The vehicle will be retested by the Administrator and the results of this test shall comprise the official data for that prescribed test point.

(4) If sufficient durability data are not available, at the time of any emission test conducted under paragraph (a) of this section, to enable the Administrator to determine whether an emission data vehicle would fail, the manufacturer may request a retest in accordance with the provisions of paragraph (c)(3)(i)(*a*) and (*b*) of this paragraph. If the manufacturer does not promptly make such request, he shall be deemed to have waived the right to a retest. A request for retest must be made before the manufacturer removes the vehicle from the test premises.

§ 85.175–30 Certification.

(a)(1) If, after a review of the test reports and data submitted by the manufacturer and data derived from any additional testing conducted pursuant to § 85.175–29, the Administrator determines that a test vehicle(s) conforms to the regulations of this subpart, he will issue a certificate of conformity with respect to such vehicle(s).

(2) Such certificate will be issued for such period not more than 1 year as the Administrator may determine and upon such terms as he may deem necessary to assure that any new motor vehicle covered by the certificate will meet the requirements of the Act and this subpart.

(b)(1) The Administrator will determine whether a vehicle covered by the application complies with applicable standards by observing the following relationships:

(i) A test vehicle selected under § 85.175–5(b)(2) or (4) shall represent all vehicles in the same engine family of the same engine displacement-exhaust emission control system-evaporative emission control system combination.

(ii) A test vehicle selected under § 85.175–5(b)(3) shall represent all vehicles in the same engine family of the same engine displacement-exhaust emission control system-transmission type-fuel system combination.

(iii) A test vehicle selected under § 85.175–5(c)(1) shall represent all vehicles of the same engine-system combination.

(2) The Administrator will proceed as in paragraph (a) of this section with respect to the vehicles belonging to an engine family all of which comply with applicable standards.

(3) If, after a review of the test reports and data submitted by the manufacturer and data derived from any additional testing conducted pursuant to § 85.175–29, the Administrator determines that one or more test vehicles of the certification test fleet do not meet applicable standards, he will notify the manufacturer in writing, setting forth the basis for his determination. Within 30 days following receipt of the notification, the manufacturer may request a hearing on the Administrator's determination. The request shall be in writing, signed by an authorized representative of the manufacturer and shall include a statement specifying the manufacturer's objections to the Administrator's determination, and data in support of such objections. If, after a review of the request and supporting data, the Administrator finds that the request raises a substantial factual issue, he shall provide the manufacturer a hearing in accordance with § 85.105 with respect to such issue.

(4) The manufacturer may, at his option, proceed with any of the following alternatives with respect to any engine family represented by a test vehicle(s) determined not in compliance with applicable standards:

(i) Request a hearing under § 85.105, or

(ii) Delete from the application for certification the vehicles represented by the failing test vehicle. (Vehicles so deleted may be included in a later request for certification under § 85.175–32.) The Administrator will then select in place of each failing vehicle an alternate vehicle chosen in accordance with selection criteria employed in selecting the vehicle that failed, or

(iii) Modify the test vehicle and demonstrate by testing that it meets applicable standards. Another vehicle which is in all material respects the same as the first vehicle, as modified, shall then be operated and tested in accordance with applicable test procedures.

(5) If the manufacturer does not request a hearing or present the required data under subparagraph (4) of this paragraph, the Administrator will deny certification.

§ 85.175–31 Separate certification.

Where possible a manufacturer should include in a single application for certification all vehicles for which certification is required. A manufacturer may, however, choose to apply separately for certification of part of his product line. The selection of test vehicles and the computation of test results will be determined separately for each application.

§ 85.175–32 Addition of a vehicle after certification.

(a) If a manufacturer proposes to add to his product line a vehicle of the same engine-system combination as vehicles previously certified but which was not described in the application for certification when the test vehicle(s) representing other vehicles of that combination was certified, he shall notify the Administrator. Such notification shall be in advance of the addition unless the manufacturer elects to follow the procedure described in § 85.175–34. This notification shall include a full description of the vehicle to be added.

(b) The Administrator may require the manufacturer to perform such tests on the test vehicle(s) representing the vehicle to be added which would have been required if the vehicle had been included in the original application for certification.

(c) If, after a review of the test reports and data submitted by the manufacturer, and data derived from any testing conducted under § 85.175–29, the Administrator determines that the test vehicle(s) meets all applicable standards, the appropriate certificate will be amended accordingly. If the Administrator determines that the test vehicle(s) does not meet applicable standards, he will proceed under § 85.175–30(b).

§ 85.175–33 Changes to a vehicle covered by certification.

(a) The manufacturer shall notify the Administrator of any change in production vehicles in respect to any of the parameters listed in § 85.175–5(a)(3) or § 85.175–5(b)(3), giving a full description of the change. Such notification shall be in advance of the change unless the manufacturer elects to follow the procedure described in § 85.175–34.

(b) Based upon the description of the change, and data derived from such testing as the Administrator may require or conduct, the Administrator will determine whether the vehicle, as modified, would still be covered by the certificate of conformity then in effect.

(c) If the Administrator determines that the outstanding certificate would cover the modified vehicles, he will notify the manufacturer in writing. Except as provided in § 85.175–34, the change may not be put into effect prior to the manufacturer's receiving this notification. If the Administrator determines that the modified vehicles would not be covered by the certificate then in effect, then the modified vehicles shall be treated as additions to the product line subject to § 85.175–32.

§ 85.175–34 Alternative procedure for notification of additions and changes.

(a) A manufacturer may, in lieu of notifying the Administrator in advance of an addition of a vehicle under § 85.175–32 or a change in a vehicle under § 85.175–33, notify him concurrently with the making of the change if the manufacturer believes the addition or change will not require any testing under the appropriate section. Upon notification to the Administrator, the manufacturer may proceed to put the addition or change into effect.

(b) The manufacturer may continue to produce vehicles as described in the notification to the Administrator for a maximum of 30 days, unless the Administrator grants an extension in writing. This period may be shortened by a notification in accordance with paragraph (c) of this section.

(c) If the Administrator determines, based upon a description of the addition or change, that no test data will be required, he will notify the manufacturer in writing of the acceptability of the addition or change. If the Administrator determines that test data will be required, he will notify the manufacturer to rescind the change within 5 days of receipt of the notification. The Administrator will then proceed as in § 85.175–32 (b)

V 3 8 - 1 5 1 AUG 7 7 3 XUM

and (c), or § 85.175–33 (b) and (c) as appropriate.

(d) Election to produce vehicles under this section will be deemed to be a consent to recall all vehicles which the Administrator determines under § 85.175–32(c) do not meet applicable standards, and to cause such nonconformity to be remedied at no expense to the owner.

§ 85.175–35 Labeling.

(a)(1) The manufacturer of any light duty motor vehicle subject to the standards prescribed in § 85.175–1 shall, at the time of manufacture, affix a permanent, legible label, of the type and in the manner described below, containing the information hereinafter provided, to all production models of such vehicles available for sale to the public and covered by a certificate of conformity under § 85.175–30(a).

(2) A plastic or metal label shall be welded, riveted, or otherwise permanently attached in a readily visible position in the engine compartment.

(3) The label shall be affixed by the vehicle manufacturer, who has been issued the certificate of conformity for such vehicle, in such a manner that it cannot be removed without destroying or defacing the label, and shall not be affixed to any equipment which is easily detached from such vehicle.

(4) The label shall contain the following information lettered in the English language in block letters and numerals, which shall be of a color that contrasts with the background of the label:

(i) The label heading: Vehicle Emission Control Information;

(ii) Full corporate name and trademark of manufacturer;

(iii) Engine displacement (in cubic inches) and engine family identification;

(iv) Engine tuneup specifications and adjustments, as recommended by the manufacturer, including idle speed, ignition timing, and the idle air-fuel mixture setting procedure and value (e.g. idle CO, idle air-fuel ratio, idle speed drop). These specifications should indicate the proper transmission position during tuneup and what accessories (e.g., air-conditioner), if any should be in operation;

(v) The statement: "This Vehicle Conforms to U.S.E.P.A. Regulations Applicable to 1975 Model Year New Motor Vehicles."

(b) The provisions of this section shall not prevent a manufacturer from also reciting on the label that such vehicle conforms to any applicable State emission standards for new motor vehicles or any other information that such manufacturer deems necessary for, or useful to, the proper operation and satisfactory maintenance of the vehicle.

§ 85.175–36 Submission of vehicle identification numbers.

(a) The manufacturer of any light duty motor vehicle covered by a certificate of conformity under § 85.175–30(a) shall, not later than 60 days after its manufacture, submit to the Administrator the vehicle identification number of such vehicle: *Provided*, That this requirement shall not apply with respect to any vehicle manufactured within any State, as defined in section 302(d) of the Act.

(b) The requirements of this section may be waived with respect to any manufacturer who provides information satisfactory to the Administrator which will enable the Administrator to identify those vehicles which are covered by a certificate of conformity.

§ 85.175–37 Production vehicles.

(a) Any manufacturer obtaining certification under this subpart shall supply to the Administrator, upon his request, a reasonable number of production vehicles selected by the Administrator which are representative of the engines, emission control systems, fuel systems, and transmissions offered and typical of production models available for sale under the certificate. These vehicles shall be supplied for testing at such time and place and for such reasonable periods as the Administrator may require.

(b) Any manufacturer obtaining certification under this subpart shall notify the Administrator, on a quarterly basis, of the number of vehicles of each engine family - engine displacement - exhaust emission control system-fuel system-transmission type-inertia weight class combination produced for sale in the United States during the preceding quarter. A manufacturer may elect to provide this information every 60 days instead of quarterly, to combine it with the notification required under § 85.175–36.

(c) All light duty vehicles covered by a certificate of conformity under § 85.175–30(a) shall be adjusted by the manufacturer to the ignition timing specification detailed in § 85.175–35(a)(4)(iv).

§ 85.175–38 Maintenance instructions.

(a) The manufacturer shall furnish or cause to be furnished to the ultimate purchaser of each new motor vehicle subject to the standards prescribed in § 85.175–1, written instructions for the maintenance and use of the vehicle by the ultimate purchaser as may be reasonable and necessary to assure the proper functioning of emission control systems.

(1) Such instructions shall be provided for those vehicle and engine components listed in Appendix VI to this part (and for any other components) to the extent that maintenance of these components is necessary to assure the proper functioning of emission control systems.

(2) Such instructions shall be in clear, and to the extent practicable, nontechnical language.

(b) The maintenance instructions required by this section shall contain a general description of the documentation which the manufacturer will require from the ultimate purchaser or any subsequent purchaser as evidence of compliance with the instructions.

§ 85.175–39 Submission of maintenance instructions.

(a) The manufacturer shall provide to the Administrator, no later than the time of the submission required by § 85.175–4, a copy of the maintenance instructions which the manufacturer proposes to supply to the ultimate purchaser in accordance with § 85.175–38(a). The Administrator will review such instructions to determine whether they are reasonable and necessary to assure the proper functioning of the vehicle's emission control systems. The Administrator will notify the manufacturer of his determination whether such instructions are reasonable and necessary to assure the proper functioning of the emission control systems.

(b) Any revision to the maintenance instructions which will affect emissions shall be supplied to the Administrator at least 30 days before being supplied to the ultimate purchaser unless the Administrator consents to a lesser period of time.

§ 85.176–1 Emission standards for 1976 model year vehicles.

With the exception of the nitrogen oxides exhaust emission standard, the standards and test procedures set forth in § 85.175 remain applicable for the 1976 model year. Exhaust emissions from 1976 model year vehicles shall not exceed:

(a) *Hydrocarbons.* 0.41 gram per vehicle mile.

(b) *Carbon monoxide.* 3.4 grams per vehicle mile.

(c) Oxides of nitrogen 0.40 grams per vehicle mile.

[FR Doc.73–15820 Filed 8–6–73;8:45 am]

PART 85—CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES

Emissions Standards for Light Duty Trucks

Regulations to establish emission standards for light duty trucks beginning with the 1975 model year were proposed by the Environmental Protection Agency on March 14, 1973 (38 FR 6906). This action was in response to the U.S. Court of Appeals decision regarding 1975 model year light duty vehicle emission standards, issued February 10, 1973, in which the Court ordered EPA to remove light duty trucks from the light duty vehicle category (International Harvester Co. v. Ruckelshaus, D.C. Cir. No. 72–1517, Feb. 10, 1973). The Notice of Proposed Rulemaking proposed new definitions for "light duty vehicle" and "light duty truck", and a range of possible emission levels to be prescribed for 1975 light duty trucks. The definitions of light duty vehicle and light duty truck were revised on April 11, 1973 in the Administrator's suspension decision by incorporating multipurpose vehicles into the light duty truck class. Comments received in response to the published proposal and the Administrator's modification of the light duty truck definition have led to revisions in the regulations promulgated below.

Much comment was received regarding the proposed definition of light duty vehicles and light duty trucks. Concern was expressed that, though multipurpose vehicles were to be considered light duty trucks in accordance with the Administrator's decision, only those available with special features enabling off-road operation and use were specifically included in EPA's revised light duty truck definition. Some confusion resulted as to the classification of multipurpose vehicles with both passenger and cargo carrying capacity, but without off-road capability.

To eliminate confusion, the proposed definitions have been revised so that all passenger car derivatives will be considered light duty vehicles and all truck derivatives under 6000 pounds GVW will be considered light duty trucks. Truck derivatives are designed similarly to other light duty trucks (i.e., pickup and panel trucks), and differ importantly only in that they are intended to carry passengers as well as cargo. Because, in actual use, other light duty trucks are frequently employed in a manner similar to passenger vehicles, EPA does not consider that difference significant enough to justify including truck derivatives equipped to carry passengers in the light duty vehicle category.

Passenger car derivatives are designed and used in the same manner as other light duty vehicles and will remain in the light duty vehicle class.

Question was raised in the comments as to the effect these proposed regulations will have on the status of special purpose vehicles—e.g., vehicles of 6000 pounds GVW or more which are used as ambulances, hearses, and flower cars. To the extent that such vehicles are passenger car derivatives, they will continue to be considered as light duty vehicles. To the extent that such special purpose vehicles are truck derivatives (e.g., motor homes), they will be subject to the light duty truck or heavy duty engine standards, depending whether the vehicle's GVW is below or above 6000 pounds.

As a result of the April 11 suspension decision, off-road utility vehicles—e.g., vehicles equipped with four wheel drive—will be included in the light duty truck category beginning in 1975. Through the 1974 model year, a 15% allowance on the light duty vehicle standards was permitted for off-road vehicles. This allowance was terminated with the promulgation of the 1975 light duty vehicle emission standards, in June of 1971. Certification test data indicate that emission test results from off-road utility vehicles and other vehicles in the same engine family are approximately equal. Therefore there is no technological basis for reversing the decision of 2 years ago under which the 15 percent allowance for off-road utility vehicles will be discontinued beginning with the 1975 model year.

Analysis of certification test results for 1973 model year light duty trucks (converted to equivalent values using the 1975 Federal Test Procedure) indicates that approximately 32, or 50 percent, of the light duty trucks tested were capable of achieving exhaust emissions levels of 2.0 grams per mile for hydrocarbons and 20 grams per mile for carbon monoxide. These levels were supported generally by comments of light duty truck manufacturers on the proposal, wherein they recommended standards ranging from 1.7 to 2.5 grams per mile for hydrocarbons and from 20 to 25 grams per mile for carbon monoxide.

Based upon the certification test data and the comments of manufacturers, it is the Administrator's judgment that the improvements in emission control necessary for achievement of the emission standards for hydrocarbons and carbon monoxide can be accomplished in time for certification in the 1975 model year. There is no evidence to suggest that any manufacturer would be required to utilize catalytic control devices to meet these standards.

The 3.1 grams per mile standard for oxides of nitrogen and the 2.0 grams per test standard for evaporative hydrocarbons prescribed below were applicable to light duty trucks beginning in model year 1973, since these trucks fell under the general classification of light duty vehicles. Certification test results for 1973 demonstrate the achievability of these standards by light duty trucks. No manufacturer expressed any reservations about continuing to meet the oxides of nitrogen standard while complying with hydrocarbon and carbon monoxide standards more stringent than the 1973–74 standards.

Subpart A of Part 85, Title 40 of the Code of Federal Regulations as applicable to 1975 and later model year light duty vehicles is amended below and is effective on September 6, 1973.

Subpart C of Part 85, Title 40 of the Code of Federal Regulations as applicable to 1975 and later model year light duty trucks is added below and is effective on September 6, 1973.

Dated: July 27, 1973.

ROBERT W. FRI,
Acting Administrator.

1. Subpart A of Part 85, Title 40 of the Code of Federal Regulations as applicable to 1975 and later model year light duty vehicles is amended as follows:

§ 85.002 Definitions.

(a) • • •

(5) "Light duty vehicle" means a passenger car or passenger car derivative capable of seating 12 passengers or less.

• • • • • •

2. Subpart C of Part 85, Title 40 of the Code of Federal Regulations as applicable to 1975 and later model year light duty trucks is added as follows:

Subpart C—Emission Regulations for New Gasoline-Fueled Light Duty Trucks

Sec.
85.201 General applicability.

85.275–32 Addition of a vehicle after certification.
85.275–33 Changes to a vehicle covered by certification.
85.275–34 Alternative procedure for notification of additions and changes.
85.275–35 Labeling.
85.275–36 Submission of vehicle identification numbers.
85.275–37 Production vehicles.
85.275–38 Maintenance instructions.
85.275–39 Submission of maintenance instructions.

AUTHORITY: The provisions of this Part 85 issued under sections 202, 206, and 301(a) of the Clean Air Act, as amended (42 U.S.C. 1857f–1, 1857f–5, and 1857g(a)).

Subpart C—Emission Regulations for New Gasoline-Fueled Light Duty Trucks

§ 85.201 General applicability.

The provisions of this subpart are applicable to new gasoline-fueled light duty trucks.

§ 85.202 Definitions.

(a) As used in this subpart, all terms not defined herein shall have the meaning given them in the Act:

(1) "Act" means Part A of title II of the Clean Air Act, 42 U.S.C. 1857 f–1 through f–7, as amended by Public Law 91–604.

(2) "Administrator" means the Administrator of the Environmental Protection Agency or his authorized representative.

(3) "Model year" means the manufacturer's annual production period (as determined by the Administrator) which

V 38 151 AUG 7 73 XUM

includes January 1 of such calendar year: *Provided*, That if the manufacturer has no annual production period, the term "model year" shall mean the calendar year.

(4) "Gross vehicle weight" means the manufacturer's gross weight rating for the individual vehicle.

(5) "Light duty truck" means any motor vehicle, rated at 6,000 pounds GVW or less, which is designed primarily for purposes of transportation of property or is a derivative of such a vehicle, or is available with special features enabling off-street or off-highway operation and use.

(6) "Vehicle curb weight" means the actual or the manufacturer's estimated weight of the vehicle in operational status with all standard equipment, and weight of fuel at nominal tank capacity, and the weight of optional equipment computed in accordance with § 85.275–5(g).

(7) "Loaded vehicle weight" means the vehicle curb weight of a light duty vehicle plus 300 pounds.

(8) "System" includes any motor vehicle engine modification which controls or causes the reduction of substances emitted from motor vehicles.

(9) "Engine family" means the basic classification unit of a manufacturer's product line used for the purpose of test fleet selection and determined in accordance with § 85.275–5(a).

(10) "Engine-system combination" means an engine family-exhaust emission control system-fuel evaporative emission control system (where applicable) combination.

(11) "Fuel system" means the combination of fuel tank, fuel pump, fuel lines, and carburetor, or fuel injection components, and includes all fuel system vents and fuel evaporative emission control systems.

(12) "Crankcase emissions" means airborne substances emitted to the atmosphere from any portion of the engine crankcase ventilation or lubrication systems.

(13) "Exhaust emissions" means substances emitted to the atmosphere from any opening downstream from the exhaust port of a motor vehicle engine.

(14) "Fuel evaporative emissions" means vaporized fuel emitted into the atmosphere from the fuel system of a motor vehicle.

(15) "Hot soak loss" means fuel evaporative emissions during the 1-hour hot soak period which begins immediately after the engine is turned off.

(16) "Diurnal breathing loss" means fuel evaporative emissions as a result of the daily range in temperature to which the fuel system is exposed.

(17) "Running loss" means fuel evaporative emissions resulting from an average trip in an urban area or the simulation of such a trip.

(18) "Tank fuel volume" means the volume of fuel in the fuel tank, prescribed to be 40 percent of nominal tank capacity rounded to the nearest whole U.S. gallon.

(19) "Zero (0) miles" means that point after initial engine starting (not to exceed 10 miles of vehicle operation, or one hour of engine operation) at which normal assembly line operations and adjustments are completed.

(20) "Calibrating gas" means a gas of known concentration which is used to establish the response curve of an analyzer.

(21) "Span gas" means a gas of known concentration which is used routinely to set the output level of an analyzer.

(22) "Oxides of nitrogen" means the sum of the nitric oxide and nitrogen dioxide contained in a gas sample as if the nitric oxide were in the form of nitrogen dioxide.

(23) "Useful life" means a period of use of 5 years or 50,000 miles, whichever first occurs.

(24) "Scheduled maintenance" means any adjustment, repair, removal, disassembly, cleaning, or replacement of vehicle components or systems which is performed on a periodic basis to prevent part failure or vehicle malfunction.

(25) "Unscheduled maintenance" means any adjustment, repair, removal, disassembly, cleaning, or replacement of vehicle components or systems which is performed to correct a part failure or vehicle malfunction.

§ 85.203 Abbreviations.

The abbreviations used in this subpart have the following meanings in both capital and lowercase:

Accel.—Acceleration.
ASTM—American Society for Testing and Materials.
C.—Centigrade.
C.f.h.—Cubic feet per hour.
CO_2—Carbon dioxide.
CO—Carbon monoxide.
Conc.—Concentration.
C.f.m.—Cubic feet per minute.
Cu. in.—Cubic inch(es).
Decel.—Deceleration.
EP—End point.
Evap.—Evaporated.
F.—Fahrenheit.
Gal.—U.S. gallon(s).
Gm.—Gram(s).
GVW—Gross Vehicle Weight.
HC—Hydrocarbon(s).
Hg—Mercury.
Hi.—High.
HP.—Horsepower.
IBP—Initial boiling point.
ID—Internal diameter.
Lb.—Pound(s).
Lb.-ft.—Pound-feet.
Min.—Minute(s).
Ml.—Milliliter(s).
M.p.h.—Miles per hour.
Mm.—Millimeter(s).
Mv.—Millivolt(s).
N_2—Nitrogen.
NO—Nitric oxide.
NO_2—Nitrogen dioxide.
NO_x—Oxides of nitrogen.
No.—Number.
Pb—Lead.
P.p.m.—Parts per million by volume.
P.s.i.—Pounds per square inch.
P.s.i.g.—Pounds per square inch gauge.
R—Rankine.
R.p.m.—Revolutions per minute.
RVP—Reid vapor pressure.
S.A.E.—Society of Automotive Engineers.
Sec.—Second(s).
Sp.—Speed.
SS—Stainless steel.
TEL—Tetraethyl lead.
TML—Tetramethyl lead.
V.—Volts.
Vs.—Versus.
WOT.—Wide open throttle.
Wt.—Weight.
'—Feet.
"—Inches.
°—Degrees.
%—Percent.

§ 85.204 General standards: increase in emissions; unsafe conditions.

(a)(1) Every new motor vehicle manufactured for sale, sold, offered for sale, introduced or delivered for introduction into commerce, or imported into the United States for sale or resale which is subject to any of the standards prescribed in this subpart shall be covered by a certificate of conformity issued pursuant to sections 85.275–2 through 85.275–4 and 85.275–29 through 85.275–34 of this subpart.

(b) (1) Any system installed on or incorporated in a new motor vehicle to enable such vehicle to conform to standards imposed by this subpart;

(i) shall not in its operation or function cause the emission into the ambient air of any noxious or toxic substance that would not be emitted in the operation of such vehicle without such system, except as specifically permitted by regulation; and

(ii) Shall not in its operation, function, or malfunction result in any unsafe condition endangering the motor vehicle, its occupants, or persons or property in close proximity to the vehicle.

(2) Every manufacturer of new motor vehicles subject to any of the standards imposed by this subpart shall, prior to taking any of the actions specified in section 203(a)(1) of the Act, test or cause to be tested motor vehicles in accordance with good engineering practice to ascertain that such test vehicles will meet the requirements of this section for the useful life of the vehicle.

§ 85.205 Hearings on certification.

(a) (1) After granting a request for a hearing under § 85.275–30, the Administrator will designate a Presiding Officer for the hearing.

(2) The General Counsel will represent the Environmental Protection Agency in any hearing under this section.

(3) If a time and place for the hearing have not been fixed by the Administrator under § 85.275–30, the hearing shall be held as soon as practicable at a time and place fixed by the Administrator or by the Presiding Officer.

(b) (1) Upon his appointment pursuant to paragraph (a) of this section, the Presiding Officer will establish a hearing file. The file shall consist of the notice issued by the Administrator under § 85.275–30, together with any accompanying material, the request for a hearing and the supporting data submitted therewith and all documents relating to the request for certification, including the application for certification and all documents submitted therewith, and correspondence and other data material to the hearing.

(2) The appeal file will be available for inspection by the applicant at the office of the Presiding Officer.

(c) An applicant may appear in person, or may be represented by counsel or by any other duly authorized representative.

(d) (1) The Presiding Officer upon the request of any party, or in his discretion, may arrange for a prehearing conference at a time and place specified by him to consider the following:

(i) Simplification of the issues;

(ii) Stipulations, admissions of fact, and the introduction of documents;

(iii) Limitation of the number of expert witnesses;

(iv) Possibility of agreement disposing of all or any of the issues in dispute;

(v) Such other matters as may aid in the disposition of the hearing, including such additional tests as may be agreed upon by the parties.

(2) The results of the conference shall be reduced to writing by the Presiding Officer and made part of the record.

(e) (1) Hearings shall be conducted by the Presiding Officer in an informal but orderly and expeditious manner. The parties may offer oral or written evidence, subject to the exclusion by the Presiding Officer of irrelevant, immaterial and repetitious evidence.

(2) Witnesses will not be required to testify under oath. However, the Presiding Officer shall call to the attention of witnesses that their statements may be subject to the provisions of title 18 U.S.C. 1001 which imposes penalties for knowingly making false statements or representations, or using false documents in any matter within the jurisdiction of any department or agency of the United States.

(3) Any witness may be examined or cross-examined by the Presiding Officer, the parties, or their representatives.

(4) Hearings shall be reported verbatim. Copies of transcripts of proceedings may be purchased by the applicant from the reporter.

(5) All written statements, charts, tabulations, and similar data offered in evidence at the hearing shall, upon a showing satisfactory to the Presiding Officer of their authenticity, relevancy, and materiality, be received in evidence and shall constitute a part of the record.

(6) Oral argument may be permitted in the discretion of the Presiding Officer and shall be reported as part of the record unless otherwise ordered by him.

(f) (1) The Presiding Officer shall make an initial decision which shall include written findings and conclusions and the reasons or basis therefor on all the material issues of fact, law, or discretion presented on the record. The findings, conclusions, and written decision shall be provided to the parties and made a part of the record. The initial decision shall become the decision of the Administrator without further proceedings unless there is an appeal to the Administrator or motion for review by the Administrator within 20 days of the date the initial decision was filed.

(2) On appeal from or review of the initial decision the Administrator shall have all the powers which he would have in making the initial decision including the discretion to require or allow briefs, oral argument, the taking of additional evidence or the remanding to the Presiding Officer for additional proceedings. The decision by the Administrator shall include written findings and conclusions and the reasons or basis therefor on all the material issues of fact, law, or discretion presented on the appeal or considered in the review.

§ 85.206 Maintenance of records; submittal of information; right of entry.

(a) The manufacturer of any new motor vehicle subject to any of the standards prescribed in this subpart shall establish and maintain the following adequately organized and indexed records:

(1) Identification and description of all vehicles for which testing is required under this subpart.

(2) A description of all emission control systems which are installed on or incorporated in each vehicle.

(3) A description of the procedures used to test such vehicles.

(4) Test data on each emission data vehicle which will show its emissions at 0 and 4,000 miles.

(5) Test data on each durability vehicle which will show the performance of the systems installed on or incorporated in the vehicle during extended mileage as well as a record of all pertinent maintenance performed on the vehicle.

(b) The manufacturer of any new motor vehicle subject to any of the standards prescribed in this subpart shall submit to the Administrator at the time of issuance by the manufacturer copies of all instructions or explanations regarding the use, repair, adjustment, maintenance, or testing of such vehicle relevant to the control of crankcase, exhaust, or evaporative emissions, issued by the manufacturer for use by other manufacturers, assembly plants, distributors, dealers, and ultimate purchasers: *Provided*, That any material not translated into the English language need not be submitted unless specifically requested by the Administrator.

(c) The manufacturer of any new motor vehicle subject to any of the standards prescribed in this subpart shall permit officers or employees duly designated by the Administrator, upon presenting appropriate credentials and a written notice to the manufacturer:

(1) To enter, at reasonable times, any premises used during the certification procedures for purposes of monitoring tests and mileage accumulation procedures, observing maintenance procedures, and verifying correlation or calibration of test equipment, or

(2) To inspect, at reasonable times, records, files, and papers compiled by such manufacturer in accordance with paragraph (a) of this section.

A separate notice shall be given for each such inspection, but a separate notice shall not be required for each entry made during the period covered by the inspection. Each such inspection shall be commenced and completed with reasonable promptness.

§ 85.275–1 Emission standards for 1975 model year light duty trucks.

(a)(1) Exhaust emissions from 1975 model year light duty trucks shall not exceed:

(i) *Hydrocarbons*. 2.0 gram per vehicle mile.

(ii) *Carbon monoxide*. 20 grams per vehicle mile.

(iii) *Oxides of nitrogen*. 3.1 grams per vehicle mile.

(2) The standards set forth in paragraph (a)(1) of this section refer to the exhaust emitted over a driving schedule as set forth in § 85.275–9 through § 85.275–27 and measured and calculated in accordance with those procedures.

(b)(1) Fuel evaporative emissions shall not exceed:

(i) *Hydrocarbons*—2 grams per test.

(2) The standard set forth in paragraph (b)(1) of this section refers to a composite sample of the fuel evaporative emissions collected under the conditions set forth in § 85.275–9 through § 85.275–27 and measured in accordance with those procedures.

(c) No crankcase emissions shall be discharged into the ambient atmosphere from any new motor vehicle subject to this subpart.

§ 85.275–2 Application for certification.

(a) An application for a certificate of conformity to the regulations applicable to any new motor vehicle shall be made to the Administrator by the manufacturer and shall be kept current and accurate by amendment.

(b) The application shall be in writing, signed by an authorized representative of the manufacturer, and shall include the following:

(1) Identification and description of the vehicles covered by the application and a description of their emission control systems.

(2) Projected U.S. sales data sufficient to enable the Administrator to select a test fleet representative of the vehicles for which certification is requested.

(3) A description of the test equipment and fuel proposed to be used.

(4) A description of the proposed mileage accumulation procedure for durability testing.

(5) A statement of recommended maintenance and procedures necessary to assure that the vehicles covered by a certificate of conformity in operation conform to the regulations, and a description of the program for training of personnel for such maintenance, and the equipment required.

(6) At the option of the manufacturer, the proposed composition of the emission data and durability data test fleet.

§ 85.275–3 Approval of procedure and equipment; test fleet selections.

Based upon the information provided in the application for certification, and any other information the Administrator

V 38-151 AUG 7 73 XUM

may require, the Administrator will approve or disapprove in whole or in part the mileage accumulation procedure and equipment and fuel proposed by the manufacturer, and notify him in writing of such determination. Where any part of a proposal is disapproved, such notification will specify the reasons for disapproval. The Administrator will select a test fleet in accordance with § 85.275–5.

§ 85.275–4 Required data.

The manufacturer shall perform the tests required by the applicable test procedures, and submit to the Administrator the following information:

(a) Durability data on such vehicles tested in accordance with the applicable test procedures of this subpart, and in such numbers as therein specified, which will show the performance of the systems installed on or incorporated in the vehicle for extended mileage, as well as a record of all pertinent maintenance performed on the test vehicles.

(b) Emission data on such vehicles tested in accordance with the applicable emission test procedures of this subpart and in such numbers as therein specified, which will show their emissions after zero miles and 4,000 miles of operation.

(c) A description of tests performed to ascertain compliance with the general standards in § 85.275–1 and the data derived from such tests.

(d) A statement that the test vehicles with respect to which data are submitted have been tested in accordance with the applicable test procedures, that they meet the requirement of such tests, and that, on the basis of such tests, they conform to the requirements of the regulations in this subpart. If such statements cannot be made with respect to any vehicle tested, the vehicle shall be identified, and all pertinent test data relating thereto shall be supplied.

§ 85.275–5 Test vehicles.

(a) (1) The vehicles covered by the application for certification will be divided into groupings of vehicles whose engines are expected to have similar emission characteristics. Each group of engines with similar emission characteristics shall be defined as a separate engine family.

(2) To be classed in the same engine family, engines must be identical in all the following respects:

(i) The cylinder bore center to center dimensions.

(ii) The dimension from the centerline of the crankshaft to the centerline of the camshaft.

(iii) The dimension from the centerline of the crankshaft to the top of the cylinder block head face.

(iv) The cylinder block configuration (air-cooled or water-cooled; L–6, 90° V–8, etc.).

(v) The location of intake and exhaust valves and the valve sizes (within a ⅛-inch range on the valve head diameter).

(vi) The method of air aspiration.

(vii) The combustion cycle.

(3) Engines identical in all the respects listed in subparagraph (2) of this paragraph may be further divided into different engine families if the Administrator determines that they may be expected to have different emission characteristics. This determination will be based upon a consideration of the following features of each engine:

(i) The bore and stroke.

(ii) The surface to volume ratio of the nominally dimensioned cylinder at the top dead center position.

(iii) The intake manifold induction port size and configuration.

(iv) The exhaust manifold port size and configuration.

(v) The intake and exhaust valve sizes.

(vi) The fuel system.

(vii) The camshaft timing and ignition timing characteristics.

(4) Where engines are of a type which cannot be divided into engine families based upon the criteria listed in subparagraphs (2) and (3) of this paragraph, the Administrator will establish families for those engines based upon the features most related to their emission characteristics.

(b) Emission data vehicles:

(1) Vehicles will be chosen to be operated and tested for emission data based upon the engine family groupings. Within each engine family, the requirements of this paragraph must be met.

(2) Vehicles of each engine family will be divided into engine displacement-exhaust emission control system-evaporative emission control system combinations. A projected sales volume will be established for each combination for the 1974 model year. One vehicle of each combination will be selected in order of decreasing projected sales volume until 70 percent of the projected sales of a manufacturer's total production of vehicles of that engine family is represented, or until a maximum of four vehicles is selected. If any single combination represents over 70 percent, then two vehicles of that combination will be selected. The vehicle selected for each combination will be specified by the Administrator as to transmission type, fuel system and inertia weight class.

(3) The Administrator may select a maximum of four additional vehicles within each engine family based upon features indicating that they may have the highest emission levels of the vehicles in that engine family. In selecting these vehicles, the Administrator will consider such features as the emission control system combination, induction system characteristics, ignition system characteristics, fuel system, rated horsepower, rated torque, compression ratio, inertia weight class, transmission options and axle ratios.

(4) If the vehicles selected in accordance with subparagraphs (2) and (3) of this paragraph do not represent each engine-system combination, then one vehicle of each engine-system combination not represented will be selected by the Administrator. The vehicle selected shall be of the engine displacement with the largest projected sales volume of vehicles with the control system combination in the engine family and will be designated by the Administrator as to transmission type, fuel system, and inertia weight class.

(c) Durability data vehicles:

(1) A durability data vehicle will be selected by the Administrator to represent each engine-system combination. The vehicle selected shall be of the engine displacement with the largest projected sales volume of vehicles with that control-system combination in that engine family and will be designated by the Administrator as to transmission type, fuel system, and inertia weight class.

(2) A manufacturer may elect to operate and test additional vehicles to represent any engine-system combination. The additional vehicles must be of the same engine displacement, transmission type, fuel system, and inertia weight class as the vehicle selected for that engine-system combination in accordance with the provisions of subparagraph (1) of this paragraph. Notice of an intent to operate and test additional vehicles shall be given to the Administrator not later than 30 days following notification of the test fleet selection.

(d) For purposes of testing under § 85.275–7(g), the Administrator may require additional emission data vehicles and durability data vehicles identical in all material respects to vehicles selected in accordance with paragraphs (b) and (c) of this section: *Provided*, That the number of vehicles selected shall not increase the size of either the emission data fleet or the durability data fleet by more than 20 percent or one vehicle, whichever is greater.

(e) Any manufacturer whose projected sales of new motor vehicles subject to this subpart for the 1975 model year is less than 2,000 vehicles may request a reduction in the number of test vehicles determined in accordance with the foregoing provisions of this section. The Administrator may agree to such lesser number as he determines would meet the objectives of this procedure.

(f) In lieu of testing an emission data or durability data vehicle selected under paragraph (b) or (c) of this section, and submitting data therefor, a manufacturer may, with the prior written approval of the Administrator, submit data on a similar vehicle for which certification has previously been obtained.

(g) (1) Where it is expected that more than 33 percent of an engine family will be equipped with an optional item, the full estimated weight of that item shall be included, if required by the Administrator, in the curb weight computation for each vehicle available with that option in the engine family. Where it is expected that 33 percent or less of the vehicles in an engine family will be equipped with an item of optional equipment, no weight for that item will be added in computing curb weight. In the case of mutually exclusive options, only the weight of the heavier option will be added in computing curb weight. Optional equipment weighing less than 3 pounds per item need not be considered.

(2) Where it is expected that more than 33 percent of an engine family may be equipped with an item of optional equipment that can reasonably be expected to influence emissions, then such items of optional equipment shall actually be installed, unless specifically excluded by the Administrator, on all emission data and durability vehicles in the engine family on which the option is intended to be offered in production. Optional equipment that can reasonably be expected to influence emissions are the air conditioner, power steering, power brakes, and other items determined by the Administrator.

(3) Optional equipment that can reasonably be expected to influence emissions which is utilized on 33 percent or less of the vehicles in the engine family shall not be installed on any vehicle in that engine family unless specifically required under this section.

§ 85.275–6 Maintenance.

(a) (1) Scheduled maintenance on the engine, emission control system, and fuel system of durability vehicles shall be scheduled for performance during durability testing at the same mileage intervals that will be specified in the manufacturer's maintenance instructions furnished to the ultimate purchaser of the motor vehicle. Such maintenance shall be performed, except as provided in paragraph (a) (5) (iii) of this section, only under the following provisions:

(i) Scheduled major engine tuneups to manufacturer's specifications may be performed no more frequently than every 12,500 miles of scheduled driving, provided that no tuneup may be performed after 45,000 miles of scheduled driving. A scheduled major engine tuneup shall be restricted to paragraph (a) (1) (i) (*a*) through (*k*) of this section and shall be conducted in a manner consistent with service instructions and specifications provided by the manufacturer for use by customer service personnel. The following items may be inspected, replaced, cleaned, adjusted, and/or serviced as required:

(*a*) Ignition system.

(*b*) Cold starting enrichment system (includes fast idle speed setting).

(*c*) Curb idle speed and air/fuel mixture.

(*d*) Drive belt tension on engine accessories.

(*e*) Valve lash.

(*f*) Inlet air and exhaust gas control valves.

(*g*) Engine bolt torque.

(*h*) Spark plugs.

(*i*) Fuel filter and air filter.

(*j*) Crankcase emission control system.

(*k*) Fuel evaporative emission control system.

(ii) Change of engine and transmission oil, and change or service of oil filter will be allowed at the same mileage intervals that will be specified in the manufacturer's maintenance instructions.

(iii) Readjustment of the engine idle speed (curb idle and fast idle) may be performed, in addition to during scheduled major engine tuneups, once during the first 5,000 miles of vehicle operation.

(2) Unscheduled maintenance on the engine, emission control system, and fuel system of durability vehicles may be performed, except as provided in paragraph (a) (5) (i) of this section, only under the following provisions:

(i) Any persistently misfiring spark plug may be replaced, in addition to replacement at scheduled major engine tuneup points.

(ii) Readjustment of the engine cold starting enrichment system may be performed if there is a problem of stalling or if there is visible black smoke.

(iii) Readjustment of the engine idle speed (curb idle and fast idle) may be performed, in addition to that performed as scheduled maintenance under paragraph (a) (1) of this section, if the idle speed exceeds the manufacturer's recommended idle speed by 300 R.p.m. or more, or if there is a problem of stalling.

(iv) The idle mixture may be reset, other than during scheduled major engine tuneups, only with the advance approval of the Administrator.

(3) An exhaust gas recirculation (EGR) system may be serviced during durability testing only under one of the following provisions:

(i) Manufacturers may schedule service to the EGR system at the scheduled major engine tuneups if an audible and/or visual signal approved by the Administrator alerts the vehicle operator to the need for EGR system maintenance at each of those mileage points. One additional servicing may also be performed as unscheduled maintenance if there is an overt indication of malfunction and if the malfunction or repair of the malfunction does not render the test vehicle unrepresentative of vehicles in use.

(ii) Manufacturers may service the EGR system as unscheduled maintenance a maximum of three times during the 50,000 miles if failure of the EGR system activates an audible and/or visual signal approved by the Administrator which alerts the vehicle operator to the need for EGR system maintenance. One additional servicing may also be performed as unscheduled maintenance if there is an overt indication of malfunction and if the malfunction or repair of the malfunction does not render the test vehicle unrepresentative of vehicles in use.

(iii) Manufacturers may service the EGR system a maximum of three times during the 50,000 miles either at a scheduled major engine tuneup point or as unscheduled maintenance, if an audible and/or visual signal approved by the Administrator alerts the vehicle operator to the need for EGR system maintenance. The signal may be activated either by EGR system failure (unscheduled maintenance) or need for scheduled periodic maintenance. If maintenance is performed, the signal for scheduled periodic maintenance shall be reset. One additional servicing may also be performed as unscheduled maintenance if there is an overt indication of malfunction and if the malfunction or repair of the malfunction does not render the test vehicle unrepresentative of vehicles in use.

(iv) Manufacturers may schedule service to the EGR system at the scheduled major engine tuneup(s) if failure to perform EGR system maintenance is not likely, as determined by the Administrator, to result in an improvement in vehicle performance. One additional servicing may also be performed as unscheduled maintenance if there is an overt indication of malfunction and if the malfunction or repair of the malfunction does not render the test vehicle unrepresentative of vehicles in use.

(4) The catalytic converter may be serviced once during 50,000 miles if an audible and/or visual signal approved by the Administrator alerts the vehicle operator to the need for maintenance. The signal may be activated either by component failure or need for maintenance at a scheduled point.

(5) Any other engine, emission control system, or fuel system adjustment, repair, removal, disassembly, cleaning, or replacement on durability vehicles shall be performed only with the advance approval of the Administrator.

(i) In the case of unscheduled maintenance, such approval will be given if the Administrator:

(*a*) Has made a preliminary determination that part failure or system malfunction, or the repair of such failure or malfunction, does not render the vehicle unrepresentative of vehicles in use, and does not require direct access to the combustion chamber, except for spark plug, fuel injection component, or removable prechamber removal or replacement; and

(*b*) Has made a determination that the need for maintenance or repairs is indicated by an overt indication of malfunction such as persistent misfire, vehicle stall, overheating, fluid leakage, loss of oil pressure, or charge indicator warning.

(ii) Emission measurements may not be used as a means of determining the need for unscheduled maintenance under paragraph (a) (5) (i) (*a*).

(iii) Requests for authorization of scheduled maintenance of emission control-related components not specifically authorized to be maintained by these regulations must be made prior to the beginning of durability testing. The Administrator will approve the performance of such maintenance if the manufacturer makes a satisfactory showing that the maintenance will be performed on vehicles in use.

(6) If the Administrator determines that part failure or system malfunction occurrence and/or repair rendered the vehicle unrepresentative of vehicles in use, the vehicle shall not be used as a durability vehicle.

(7) Where the Administrator agrees under § 85.275–7 to a mileage accumulation of less than 50,000 miles for durability testing, he may modify the requirements of this paragraph.

(b) Adjustment of engine idle speed on emission data vehicles may be performed once before the 4,000 mile test point. Any other engine, emission control system, or fuel system adjustment, repair, removal, disassembly, cleaning, or replacement on emission data vehicles shall be performed only with the advance approval of the Administrator.

V 38 151 AUG 7 73 XUM

(c) Repairs to vehicle components of the durability or emission data vehicle, other than the engine, emission control system, or fuel system, shall be performed only as a result of part failure, vehicle system malfunction, or with the advance approval of the Administrator.

(d) Complete emission tests (see §§ 85.275–10 through 85.275–27) are required, unless waived by the Administrator, before and after any vehicle maintenance which may reasonably be expected to affect emissions. These test data shall be air posted to the Administrator within 24 hours (or delivered within 3 working days), after the tests, along with a complete record of all pertinent maintenance, including a preliminary engineering report of any malfunction diagnosis and the corrective action taken. A complete engineering report shall be delivered or air posted to the Administrator within 10 working days after the tests. In addition, all test data and maintenance reports shall be compiled and provided to the Administrator in accordance with § 85.275–4.

(e) The Administrator shall be given the opportunity to verify the existence of an overt indication of part failure and/or vehicle malfunction (e.g., misfire, stall, black smoke), or an activation of an audible and/or visual signal, prior to the performance of any maintenance to which such overt indication or signal is relevant under the provisions of this section.

(f) Equipment, instruments, or tools may not be used to identify malfunctioning, maladjusted, or defective engine components unless the same or equivalent equipment, instruments, or tools will be available to dealerships and other service outlets and

(1) Are used in conjunction with scheduled maintenance on such components,

(2) Are used subsequent to the identification of a vehicle or engine malfunction, as provided in paragraph (a)(5)(i) of this section for durability vehicles or paragraph (b) of this section for emission data vehicles, or

(3) Unless specifically authorized by the Administrator.

§ 85.275–7 Mileage accumulation and emission standards.

The procedure for mileage accumulation will be the Durability Driving Schedule as specified in Appendix IV to this part. A modified procedure may also be used if approved in advance by the Administrator. Except with the advance approval of the Administrator, all vehicles will accumulate mileage at a measured curb weight which is within 100 pounds of the estimated curb weight. If the loaded vehicle weight is within 100 pounds of being included in the next higher inertia weight class as specified in § 85.275–15(d), the manufacturer may elect to conduct the respective emission tests at the inertia weight corresponding to the higher loaded vehicle weight.

(a) Emission data vehicles: Each emission data vehicle shall be driven 4,000 miles with all emission control systems installed and operating. Emission tests shall be conducted at zero miles and 4,000 miles.

(b) Durability data vehicles: Each durability vehicle shall be driven, with all emission control systems installed and operating, for 50,000 miles or such lesser distance as the Administrator may agree to as meeting the objectives of this procedure. Complete emission tests (see §§ 85.275–10 through 85.275–27) shall be made at the following mileage points: 0, 5,000, 10,000, 15,000, 20,000, 25,000, 30,000, 35,000, 40,000, 45,000, and 50,000.

(c) All tests required by this subpart to be conducted after every 5,000 miles of driving for durability vehicles and 4,000 miles for emission data vehicles must be conducted at any accumulated mileage within 250 miles of each of those test points.

(d) (1) The results of each emission test shall be supplied to the Administrator immediately after the test. The manufacturer shall furnish to the Administrator explanation for voiding any test. The Administrator will determine if voiding the test was appropriate based upon the explanation given by the manufacturer for the voided test. If a manufacturer conducts multiple tests at any test point at which the data are intended to be used in the calculation of the deterioration factor, the number of tests must be the same at each point and may not exceed three valid tests. Tests between test points may be conducted as required by the Administrator. Data from all tests (including voided tests) shall be air posted to the Administrator within 24 hours (or delivered within three working days). In addition, all test data shall be compiled and provided to the Administrator in accordance with § 85.275–4. Where the Administrator conducts a test on a durability vehicle at a prescribed test point, the results of that test will be used in the calculation of the deterioration factor.

(2) The results of all emission tests shall be recorded and reported to the Administrator using three significant figures. These numbers shall be rounded in accordance with the "Rounding Off Method" specified in ASTM E 29–67.

(e) Whenever the manufacturer proposes to operate and test a vehicle which may be used for emission or durability data, he shall provide the zero mile test data to the Administrator and make the vehicle available for such testing under § 85.275–29 as the Administrator may require before beginning to accumulate mileage on the vehicle. Failure to comply with this requirement will invalidate all test data submitted for this vehicle.

(f) Once a manufacturer begins to operate an emission data or durability data vehicle, as indicated by compliance with paragraph (e) of this section, he shall continue to run the vehicle to 4,000 miles or 50,000 miles, respectively, and the data from the vehicle will be used in the calculation under § 85.275–28. Discontinuation of a vehicle shall be allowed only with the written consent of the Administrator.

(g) (1) The Administrator may elect to operate and test any test vehicle during all or any part of the mileage accumulation and testing procedure. In such cases, the manufacturer shall provide the vehicle(s) to the Administrator with all information necessary to conduct this testing.

(2) The test procedures in §§ 85.275–9 through 85.275–27 will be followed by the Administrator. The Administrator will test the vehicles at each test point. Maintenance may be performed by the manufacturer under such conditions as the Administrator may prescribe.

(3) The data developed by the Administrator for the engine-system combination shall be combined with any applicable data supplied by the manufacturer on other vehicles of that combination to determine the applicable deterioration factors for the combination. In the case of a significant discrepancy between data developed by the Administrator and that submitted by the manufacturer, the Administrator's data shall be used in the determination of deterioration factors.

(h) Emission testing of any type with respect to any certification vehicle other than that specified in this subpart is not allowed except as such testing may be specifically authorized by the Administrator.

§ 85.275–8 Special test procedures.

The Administrator may, on the basis of a written application therefor by a manufacturer, prescribe test procedures, other than those set forth in this subpart, for any motor vehicle which he determines is not susceptible to satisfactory testing by the procedures set forth herein.

§ 85.275–9 Test procedures.

The procedures described in this and subsequent sections will be the test program to determine the conformity of vehicles with the standards set forth in § 85.275–1.

(a) The test consists of prescribed sequences of fueling, parking, and operating conditions. The exhaust gases generated during vehicle operation are diluted with air and sampled continuously for subsequent analysis of specific components by prescribed analytical techniques. The fuel evaporative emissions are collected for subsequent weighing during both vehicle parking and operating events. The test applies to vehicles equipped with catalytic or direct-flame afterburners, induction system modifications, or other systems or to uncontrolled vehicles and engines.

(b) The exhaust emission test is designed to determine hydrocarbon, carbon monoxide, and oxides of nitrogen mass emissions while simulating an average trip in an urban area of 7.5 miles. The test consists of engine startups and vehicle operation on a chassis dynamometer through a specified driving schedule, as described in Appendix I to this part. A proportional part of the diluted exhaust emissions is collected continuously, for subsequent analysis, using a constant volume (variable dilution) sampler.

(c) The fuel evaporative emission test is designed to determine fuel hydrocarbon evaporative emissions to the atmosphere as a consequence of urban driving, and diurnal temperature fluctuations during parking. It is associated with a series of events representative of a motor vehicle's operation, which result in fuel vapor losses directly from the fuel tank and carburetor. Activated carbon traps are employed in collecting the vaporized fuel. The test procedure is specifically aimed at collecting and weighing:

(1) Diurnal breathing losses from the fuel tank and other parts of the fuel system when the fuel tank is subjected to a temperature increase representative of the diurnal range;

(2) Running losses from the fuel tank and carburetor resulting from a simulated trip on a chassis dynamometer; and

(3) Hot soak losses from the fuel tank and carburetor which result when the vehicle is parked and the hot engine is turned off.

(d) Except in cases of component malfunction or failure, all emission control systems installed on or incorporated in a new motor vehicle shall be functioning during all procedures in this subpart. Maintenance to correct component malfunction or failure shall be authorized in accordance with § 85.275–6.

§ 85.275–10 Gasoline specifications.

(a) Fuel having the following specifications or substantially equivalent specifications approved by the Administrator, shall be used in exhaust and evaporative emission testing. The lead content and octane rating of the fuel shall be in the range recommended by the vehicle or engine manufacturer.

Item	ASTM designation	Specifications
Distillation range	D 86	
IBP, ° F		75–95
10 percent point, ° F		120–135
50 percent point, ° F		200–230
90 percent point, ° F		300–325
EP, ° F (max.)		415
Sulfur, wt. percent, max.	D 1266	0.10
Phosphorous, theory		0.0
RVP,[1] lb	D 323	8.7–9.2
Hydrocarbon composition	D 1319	
Olefins, percent, max.		10
Aromatics, percent, max.		35
Saturates		Remainde

[1] For testing which is unrelated to fuel evaporative emission control, the specified range is 8.0–9.2.

(b) Fuels representative of commercial fuels which will generally be available through retail outlets shall be used in mileage accumulation. For unleaded fuel, the minimum lead content shall be 0.02 gram per U.S. gallon. The octane rating of the fuel used shall be in the range recommended by the manufacturer. The Reid vapor pressure of the fuel used shall be characteristic of the motor fuel during the season during which the mileage accumulation takes place.

(c) The specification range of the fuels to be used under paragraph (b) of this section shall be reported in accordance with § 85.275–2(b)(3).

§ 85.275–11 Vehicle and engine preparation (fuel evaporative emissions).

(a) (1) Apply approximate leak-proof fittings to all fuel system external vents to permit collection of effluent vapors from these vents during the course of the prescribed tests. Since the prescribed test requires the temporary plugging of the inlet pipe to the air cleaner, it will be necessary to install a probe for collecting the normal effluents from this source. Where antisurge/vent filler caps are employed on the fuel tank, plug off the normal vent if it does not conveniently lend itself to the collection of vapors which emanate from it, and introduce a separate vent, with appropriate fitting, on the cap. Where the fuel tank vent line terminus is inaccessible, sever the line at a convenient point near the fuel tank and install the collection system in a closed circuit assembly with the severed ends. All fittings shall terminate in 5/16-inch ID tube sections for ready connection to the collection systems and shall be designed for minimum dead space.

(2) The design and installation of the necessary fittings shall not disturb the normal function of the fuel system components or the normal pressure relationships in the system.

(b) (1) Inspect the fuel system carefully to insure the absence of any leaks to the atmosphere of either liquid or vapor which might affect the accuracy of the test or the performance of the control system. Corrective action, if required, shall be performed in accordance with § 85.275–6 and be reported with the test results under § 85.275–4.

(2) Care should be exercised, in the application of any pressure tests, neither to purge nor load the evaporative emission control system.

(c) Prepare fuel tank for recording the temperature of the prescribed test fuel at its approximate midvolume.

(d) Provide additional fittings and adapters, as required, to accommodate a fuel drain at the lowest point possible in the tank as installed on the vehicle.

§ 85.275–12 Vehicle preconditioning (fuel evaporative emissions).

Vehicles to be tested for compliance with the fuel evaporative emissions standard of this subpart shall be preconditioned as follows:

(a) The test vehicle shall be operated under the conditions prescribed for mileage accumulation, § 85.275–7, for 1 hour immediately prior to the operations prescribed below.

(b) The fuel tank shall be drained and specified test fuel (§ 85.275–10(a)) added. The evaporative emission control system or device shall not be abnormally purged or loaded as a result of draining or fueling the tank.

(c) The test vehicle shall be placed on the dynamometer and operated over a simulated trip, according to the applicable requirements and procedures of § 85.275–14 through § 85.275–19 except that the engine need not be cold when started. The test vehicle may be used to set dynamometer horsepower, if necessary. During this operation the ambient temperature shall be between 68° F. and 86° F.

(d) The engine and cooling fan shall be stopped upon completion of the dynamometer operation and the vehicle permitted to soak either on or off the dynamometer stand at an ambient temperature between 76° F. and 86° F. for a period of not less than 1 hour prior to the soak period prescribed in § 85.275–13(a)(1).

§ 85.275–13 Evaporative emission collection procedure.

The standard test procedure consists of three parts described below which shall be performed in sequence and without any interruption in the test conditions prescribed.

(a) *Diurnal breathing loss test.* (1) The test vehicle shall be allowed to "soak" in an area where the ambient temperature is maintained between 60° F. and 86° F. for a period of not less than 10 hours. (The vehicle preparation requirements of § 85.275–11 may be performed during this period.) It shall then be transferred to a soak area where the ambient temperature is maintained between 76° F. and 86° F. Upon admittance to the 76° F.–86° F. soak area, the prescribed fuel tank thermocouple shall be connected to the recorder and the fuel and ambient temperatures recorded at a chart speed of approximately 12 inches per hour (or equivalent record).

(2) The fuel tank of the prepared test vehicle, preconditioned according to § 85.275–12, shall be drained and recharged with the specified test fuel, § 85.275–10(a), to the prescribed "tank fuel volume," defined in § 85.202. The temperature of the fuel following the charge to the tank shall be 60° F.±2° F. Care should be exercised against abnormal loading of the evaporative emission control system or device as a result of fueling the tank.

(3) Immediately following the fuel charge to the tank, the exhaust pipe(s) and inlet pipe to the air cleaner shall be plugged and the prescribed vapor collection systems installed on all fuel system external vents. Multiple vents may be connected to a single collection trap provided that, where there is more than one external vent on a fuel system distinguishing between carburetor and tank vapors, separate collection systems shall be employed to trap the vapors from the separate sources. Every precaution shall be taken to minimize the lengths of the collection tubing employed and to avoid sharp bends across the entire system.

(4) Artificial means shall be employed to heat the fuel in the tank to 84° F.±2 F. The prescribed temperature of the fuel shall be achieved over a period of 60 minutes ±10 minutes at a constant rate of change of temperature with respect to time. After a minimum of 1 hour, following admittance to the 76° F.–86° F. soak area, the vehicle shall be moved onto the dynamometer stand for the subsequent part of the test. The fuel tank thermocouple may be temporarily disconnected

V 38 151 AUG 7 73 XUM

to permit moving the test vehicle. Plugs shall be removed from the exhaust pipe(s) and inlet pipe to the air cleaner.

(b) *Running loss test.* (1) The vehicle shall be placed on the dynamometer and the fuel tank thermocouple reconnected. The fuel temperature and the ambient air temperature shall be recorded at a chart speed of approximately 12 inches per hour (or equivalent record).

(2) Where an external vent is located such that any "running loss" emissions would be inducted into the engine, the vapor loss measurement system shall be temporarily disconnected from that vent and clamped. Vapor losses from this vent need not be measured during this part of the test.

(3) The vehicle shall be operated on the dynamometer according to the requirements and procedures of §§ 85.275–14 through 85.275–24. The engine and fan shall be turned off upon completion of the dynamometer run and the exhaust and air cleaner inlet pipes shall be replugged.

(4) Vapor losses need not be measured during the 10-minute soak or 505-second "hot" start test. Any vapor loss collection system used during the cold start shall be temporarily disconnected and clamped. At the end of the hot start test, the vapor collection systems shall be reconnected for the following phase.

(c) *Hot soak test.* Upon completion of the dynamometer run, the test vehicle shall be permitted to soak with hood down for a period of 1 hour at an ambient temperature between 76° F. and 86° F. This operation completes the test. The traps are disconnected and weighed according to § 85.275–21.

§ 85.275–14 Dynamometer driving schedule.

(a) The dynamometer driving schedule to be followed consists of a nonrepetitive series of idle, acceleration, cruise, and deceleration modes of various time sequences and rates. The driving schedule is defined by a smooth transition through the speed vs. time relationships listed in Appendix I. The time sequence begins upon starting the vehicle according to the startup procedure described in § 85.275–19.

(b) The speed tolerance at any given time on the dynamometer driving schedule prescribed in Appendix I or as printed on a driver's aid chart approved by the Administrator is defined by upper and lower limits. The upper limit is 2 m.p.h. higher than the highest point on the trace within 1 second of the given time. The lower limit is 2 m.p.h. lower than the lowest point on the trace within 1 second of the given time. Speed variations greater than the tolerances (such as occur when shifting manual transmission vehicles) are acceptable provided they occur for less than 2 seconds on any one occasion. Speeds lower than those prescribed are acceptable provided the vehicle is operated at maximum available power during such occurrences. Further, speed deviations from those prescribed due to stalling are acceptable provided the provisions of § 85.275–19(f) are adhered to.

§ 85.275–15 Dynamometer procedure.

(a) The dynamometer run consists of two tests, a "cold" start test after a minimum 12-hour soak according to the provisions of §§ 85.275–12 and 85.275–13 and a "hot" start test with a 10-minute soak between the two tests. Engine startup, operation over the driving schedule, and engine shutdown make a complete cold start test. Engine startup and operation over the first 505 seconds of the driving schedule complete the hot start test. The exhaust emissions are diluted with air to a constant volume and a portion is sampled continuously during each test. The composite samples collected in bags are analyzed for hydrocarbons, carbon monoxide, carbon dioxide, and oxides of nitrogen. A parallel sample of the dilution air is similarly analyzed for hydrocarbon, carbon monoxide, and oxides of nitrogen.

(b) During dynamometer operation, a fixed speed cooling fan shall be positioned so as to direct cooling air to the vehicle in an appropriate manner with the engine compartment cover open. The fan capacity shall normally not exceed 5,300 c.f.m. If, however, the manufacturer can show that during field operation the vehicle receives additional cooling, the fan capacity may be increased or additional fans used if approved in advance by the Administrator. In the case of vehicles with front engine compartments, the fan(s) shall be squarely positioned between 8 and 12 inches in front of the cooling air inlets (grill). In the case of vehicles with rear engine compartments (or if special designs make the above impractical), the cooling fan(s) shall be placed in a position to provide sufficient air to maintain engine cooling.

(c) The vehicle shall be nearly level when tested in order to prevent abnormal fuel distribution.

(d) Flywheels, electrical or other means of simulating inertia as shown in the following table shall be used. If the equivalent inertia specified is not available on the dynamometer being used, the next higher equivalent inertia (not to exceed 250 lbs.) available shall be used.

Loaded vehicle weight, pounds	Equivalent inertia weight, pounds	Road load power @ 50 m.p.h., horsepower
Up to 1,125	1,000	5.9
1,126 to 1,375	1,000	6.5
1,376 to 1,625	1,500	7.1
1,626 to 1,875	1,750	7.7
1,876 to 2,125	2,000	8.4
2,126 to 2,375	2,250	8.3
2,376 to 2,625	2,500	9.8
2,626 to 2,875	2,750	9.4
2,876 to 3,250	3,000	10.9
3,251 to 3,750	3,500	11.3
3,751 to 4,250	4,000	12.2
4,251 to 4,750	4,500	12.9
4,751 to 5,250	5,000	13.7
5,251 to 5,750	5,500	13.4
5,751 to above	5,500	14.9

(e) Power absorption unit adjustment.

(1) The power absorption unit shall be adjusted to reproduce road load power at 50 m.p.h. true speed. The indicated road load power setting shall take into account the dynamometer friction. The relationship between road load (absorbed) power and indicated road load power for a particular dynamometer shall be determined by the procedure outlined in Appendix II or other suitable means.

(2) The road load power listed in the table above shall be used or the vehicle manufacturer may determine the road load power by the following procedure and request its use:

(i) Measuring the absolute manifold pressure of a representative vehicle, of the same equivalent inertia weight class, when operated on a level road under balanced wind conditions at a true speed of 50 m.p.h., and

(ii) Noting the dynamometer indicated road load horsepower setting required to reproduce that manifold pressure when the same vehicle is operated on the dynamometer at a true speed of 50 m.p.h. The tests on the road and on the dynamometer shall be performed with the same vehicle ambient absolute pressure (usually barometric), i.e. within ±5 mm. Hg.

(iii) The road load power shall be determined according to the procedure outlined in Appendix II and adjusted according to the following if applicable.

(3) Where it is expected that more than 33 percent of the vehicles in an engine family will be equipped with air conditioning, the road load power listed above or as determined in paragraph (e)(2) of this section shall be increased by 10 percent for testing all test vehicles representing such engine family if those vehicles are intended to be offered with air conditioning in production.

(f) The vehicle speed (m.p.h.) as measured from the dynamometer rolls shall be used for all conditions. A speed vs. time recording, as evidence of dynamometer test validity, shall be supplied on request of the Administrator.

(g) Practice runs over the prescribed driving schedule may be performed at test points, provided an emission sample is not taken, for the purpose of finding the minimum throttle action to maintain the proper speed-time relationship, or to permit sampling system adjustments to comply with § 85.275–20(b)(2).

NOTE: When using two-roll dynamometers a truer speed-time trace may be obtained by minimizing the rocking of the vehicle in the rolls. The rocking of the vehicle changes the tire rolling radius on each roll. The rocking may be minimized by restraining the vehicle horizontally (or nearly so) by using a cable and winch.

(h) The drive wheel tires may be inflated up to 45 p.s.i.g. in order to prevent tire damage. The drive wheel tire pressure shall be reported with the test results.

(i) If the dynamometer has not been operated during the 2-hour period immediately preceding the test it shall be warmed up for 15 minutes by operating it at 30 m.p.h. using a nontest vehicle.

(j) Changes to dynamometer horsepower settings, if required, shall be made within 1 hour of the exhaust emission measurement test phase. The test vehicle shall not be used to make this adjustment.

§ 85.275–16 Three-speed manual transmissions.

(a) All test conditions except as noted shall be run in highest gear.

(b) Cars equipped with free wheeling or overdrive units shall be tested with this unit (free wheeling or overdrive) locked out of operation.

(c) Idle shall be run with transmission in gear and with clutch disengaged (except first idle; see § 85.275–19).

(d) The vehicle shall be driven with minimum throttle movement to maintain the desired speed.

(e) Acceleration modes shall be driven smoothly with the shift speeds as recommended by the manufacturer. If the manufacturer does not recommend shift speeds, the vehicle shall be shifted from first to second gear at 15 m.p.h. and from second to third gear at 25 m.p.h. The operator shall release the accelerator pedal during the shift, and accomplish the shift with minimum closed throttle time. If the vehicle cannot accelerate at the specified rates, the vehicle shall be accelerated at WOT until the vehicle speed reaches the speed at which it should be at that time during the test.

(f) The deceleration modes shall be run with clutch engaged and without shifting gears from the previous mode, using brakes or throttle as necessary to maintain the desired speed. For those modes which decelerate to zero, the clutch shall be depressed when the speed drops below 15 m.p.h., when engine roughness is evident, or when engine stalling is imminent.

(g) Downshifting is allowed at the beginning of or during a power mode if recommended by the manufacturer or if the engine obviously is lugging.

§ 85.275–17 Four-speed and five-speed manual transmissions.

(a) Use the same procedure as for three-speed manual transmissions for shifting from first to second gear and from second to third gear. If the manufacturer does not recommend shift speeds, the vehicle shall be shifted from third to fourth gear at 40 m.p.h. Fifth gear may be used at the manufacturer's option.

(b) If transmission ratio in first gear exceeds 5:1, follow the procedure for three- or four-speed manual transmission vehicles as if the first gear did not exist.

§ 85.275–18 Automatic transmissions.

(a) All test conditions shall be run with the transmission in "Drive" (highest gear). Automatic stick-shift transmissions may be shifted as manual transmissions at the option of the manufacturer.

(b) Idle modes shall be run with the transmission in "Drive" and the wheels braked (except first idle; see § 85.275–19).

(c) The vehicle shall be driven with minimum throttle movement to maintain the desired speed.

(d) Acceleration modes shall be driven smoothly allowing the transmission to shift automatically through the normal sequence of gears. If the vehicle cannot accelerate at the specified rates, the vehicle shall be accelerated at WOT until the vehicle speed reaches the speed at which it should be at that time during the driving schedule.

(e) The deceleration modes shall be run in gear using brakes or throttle as necessary to maintain the desired speed.

§ 85.275–19 Engine starting and restarting.

(a) The engine shall be started according to the manufacturer's recommended starting procedures. The initial 20-second-idle period shall begin when the engine starts.

(b) Choke operation:

(b)(1) Vehicles equipped with automatic chokes shall be operated according to the instructions which will be included in the manufacturer's operating instructions or owner's manual including choke setting and "kick-down" from cold fast idle. The transmission shall be placed in gear 15 seconds after the engine is started. If necessary, braking may be employed to keep the drive wheels from turning.

(2) Vehicles equipped with manual chokes shall be operated according to the manufacturer's operating instructions or owners manual.

(c) The operator may use the choke, throttle, etc. where necessary to keep the engine running.

(d) If the manufacturer's operating or owner's manual does not specify a warm engine starting procedure, the engine (automatic and manual choke engines) shall be started by depressing the acceleration pedal about half way and cranking the engine until it starts.

(e) If the vehicle does not start after 10 seconds of cranking, cranking shall cease and the reason for failure to start determined. The revolution counter on the constant volume sampler (see § 85.275–24, Dynamometer test runs) shall be turned off and the sample solenoid valves placed in the "dump" position during this diagnostic period. In addition, either the positive displacement pump should be turned off or the exhaust tube disconnected from the tailpipe during the diagnostic period. If failure to start is an operational error, the vehicle shall be rescheduled for testing from a cold start. If failure to start is caused by vehicle malfunction, corrective action of less than 30 minutes duration may be taken and the test continued. The sampling system shall be reactivated at the same time cranking is started. When the engine starts, the driving schedule timing sequence shall begin. If failure to start is caused by vehicle malfunction and the vehicle cannot be started, the test shall be voided, the vehicle removed from the dynamometer, corrective action taken, and the vehicle rescheduled for test. The reason for the malfunction (if determined) and the corrective action taken shall be reported.

(f) Stalling:

(1) If the engine stalls during an idle period, the engine shall be restarted immediately and the test continued. If the engine cannot be started soon enough to allow the vehicle to follow the next acceleration as prescribed, the driving schedule indicator shall be stopped. When the vehicle restarts the driving schedule indicator shall be reactivated.

(2) If the engine stalls during some operating mode other than idle, the driving schedule indicator shall be stopped, the vehicle restarted, accelerated to the speed required at that point in the driving schedule and the test continued.

(3) If the vehicle will not restart within 1 minute, the test shall be voided, the vehicle removed from the dynamometer, corrective action taken, and the vehicle rescheduled for test. The reason for the malfunction (if determined) and the corrective action taken shall be reported.

§ 85.275–20 Sampling and analytical system (exhaust emissions).

(a) *Schematic drawings.* The following figures (Figs. C75–1 and C75–2) are schematic drawings of the exhaust gas sampling and analytical systems which will be used for testing under the regulations in this part. Additional components such as instruments, valves, solenoids, pumps, and switches may be used to provide additional information and coordinate the functions of the component systems.

(b) Component description (exhaust gas sampling system). The following components will be used in the exhaust gas sampling system for testing under the regulations in this subpart. See figure C75–1. Other types of constant volume samplers may be used if shown to yield equivalent results and if approved in advance by the Administrator.

(1) A dilution air filter assembly consisting of a particulate (paper) filter to remove solid matter from the dilution air and thus increase the life of the charcoal filter; a charcoal filter to reduce and stabilize the background hydrocarbon level; and a second particulate filter to remove charcoal particles from the air stream. The filters shall be of sufficient capacity and the duct which carries the dilution air to the point where the exhaust gas is added shall be of sufficient size so that the pressure at the mixing point is less than 1 inch of water pressure below ambient when the constant volume sampler is operating at its maximum flow rate.

(2) A leak-tight connector and tube to the vehicle tailpipe. The tubing shall be sized and connected in such a manner that the static pressure variations in the vehicle tailpipe(s) remain within ±5 inches of water of the static pressure variations measured during a dynamometer driving cycle with no connection to the tailpipe(s). Sampling systems capable of tolerances to ±1 inch of water will be used by the Administrator upon written request by the manufacturer.

(3) A heating system to preheat the heat exchanger to within ±10° F. of its operating temperature before the test begins.

V 3 8 - 1 5 1 AUG 7 73 XUM

(4) A heat exchanger capable of limiting the gas mixture temperature variation during the entire test to ±10° F. as measured at a point immediately ahead of the positive displacement pump.

(5) A positive displacement pump to pump the dilute exhaust mixture. The pump capacity (300 to 360 c.f.m. is sufficient for testing most vehicles) shall be large enough to virtually eliminate water condensation in the system. See Appendix III for one flow calibration technique. Other suitable calibration techniques may be used if approved in advance by the Administrator.

(6) Temperature sensor (T1) with an accuracy of ±2° F. to allow continuous recording of the temperature of the dilute exhaust mixture entering the positive displacement pump. (See § 85.275–22(1).)

(7) Gauge (G1) with an accuracy of ±3 mm. Hg to measure the pressure depression of the dilute exhaust mixture entering the positive displacement pump, relative to atmospheric pressure.

(8) Gauge (G2) with an accuracy of ±3 mm. Hg to measure the pressure increase across the positive displacement pump.

(9) Sample probes (S1 and S2) pointed upstream to collect samples from the dilution airstream and the dilute exhaust mixture.

(10) Filters (F1 and F2) to remove particulate matter from dilution air and dilute exhaust samples.

(11) Pumps (P1 and P2) to pump the dilution air and dilute exhaust into their respective sample collection bags.

(12) Flow control valves (N1 and N2) to regulate flows to sample collection bags, at constant flow rates. The minimum sample flow rate shall be 10 c.f.h.

(13) Flowmeters (FL1 and FL2) to insure, by visual observation, that constant flow rates are maintained throughout the test.

(14) Three-way solenoid valves (V1, V2, V3, and V4) to direct sample streams to either their respective bags or overboard.

(15) Quick-connect, leak-tight fittings (C1, C2, C3, and C4) with automatic shutoff on bag side to attach sample bags to sample system.

(16) Sample collection bags for dilution air and exhaust samples of sufficient capacity so as not to impede sample flow.

(17) Revolution counters to count the revolutions of the positive displacement pump while each test phase is in progress and samples are being collected.

(c) *Component description (exhaust gas analytical system).* The following components will be used in the exhaust gas analytical system for testing under the regulations in this part. The analytical system provides for the determination of hydrocarbon concentrations by flame ionization detector (FID) analysis, the determination of carbon monoxide and carbon dioxide concentrations by nondispersive infrared (NDIR) analysis and the determination of oxides of nitrogen concentrations by chemiluminescence (CL) analysis in dilute exhaust samples. The chemiluminescence method of analysis requires that the nitrogen dioxide present in the sample be converted to nitric oxide before analysis. See Appendix V. Other types of analyzers may be used if shown to yield equivalent results and if approved in advance by the Administrator. See Figure C75–2.

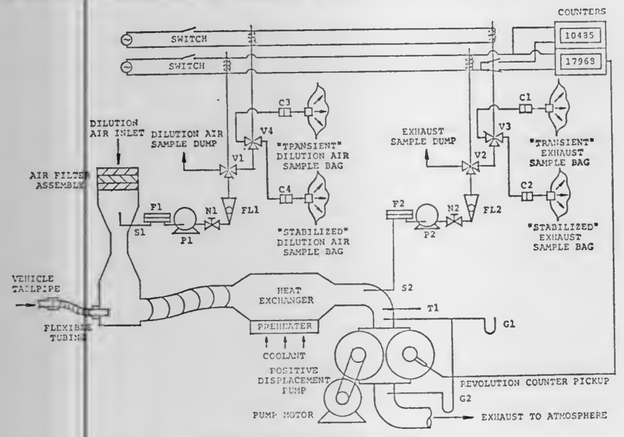

Figure C75–1—Exhaust Gas Sampling System

(1) Quick-connect leak-tight fitting (C5) to attach sample bags to analytical system.

(2) Filter (F3) to remove any residual particulate matter from the collected sample.

(3) Pump (P3) to transfer samples from the sample bags to the analyzers.

(4) Selector valves (V5, V6, V7, V8, and V14) for directing samples, span gases or zeroing gases to the analyzers.

(5) Flow control valves (N3, N4, N5, N6, N7, N8, N9, N10, N11, N12, and N13) to regulate the gas flow rates.

(6) Flowmeters (FL3, FL4, and FL5) to indicate gas flow rates.

(7) Manifold (M1) to collect the expelled gases from the analyzers.

(8) Pump (P4) to transfer expelled gases from the collection manifold to a vent external to the test room (optional).

(9) Analyzers to determine hydrocarbon, carbon monoxide, carbon dioxide and oxides of nitrogen concentrations.

(10) An oxide of nitrogen converter to convert any NO_2 present in the samples to NO before analysis.

(11) Selector valves (V9 and V10) to allow the sample, span, calibrating or zeroing gases to bypass the converter.

(12) Water trap (T1) to partially remove water and a valve (V11) to allow the trap to be drained.

(13) Sample conditioning columns to remove remainder of water (WR1 and WR2 containing indicating $CaSO_4$, or indicating silica gel) and carbon dioxide (CDR1 and CDR2 containing ascarite) from the CO analysis stream.

(14) Selector valves (V12 and V13) to permit switching from exhausted absorbing columns to fresh columns.

(15) Water bubbler (W1) to allow saturation of the CO_2 span gas to check efficiency of absorbing columns.

(16) Recorders (R1, R2, R3, and R4) or digital printers to provide permanent records of calibration, spanning and sample measurements; or in those facilities where computerized data acquisition systems are incorporated, the computer facility printout may be used.

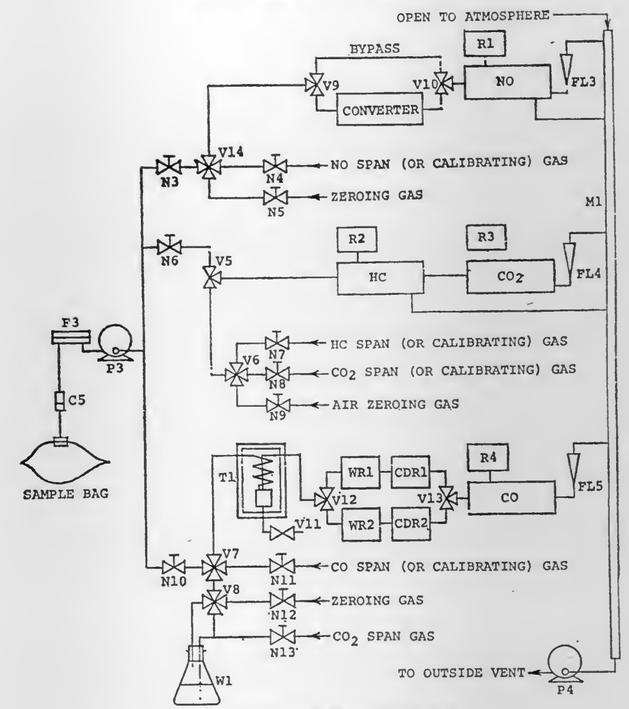

FIGURE C75–2.—Exhaust gas analytical system

§ 85.275–21 Sampling and analytical system (fuel evaporative emissions)

(a) *Schematic drawing.* (1) The following figures (Figures C75–3, C75–4 and C75–5) are flow diagrams of typical evaporative loss collection applications.

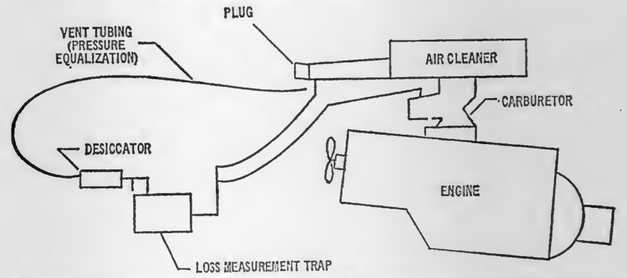

FIGURE C75–3.—Typical carburetor evaporative loss collection arrangement (schematic).

V38-151 AUG 7 73 XUM

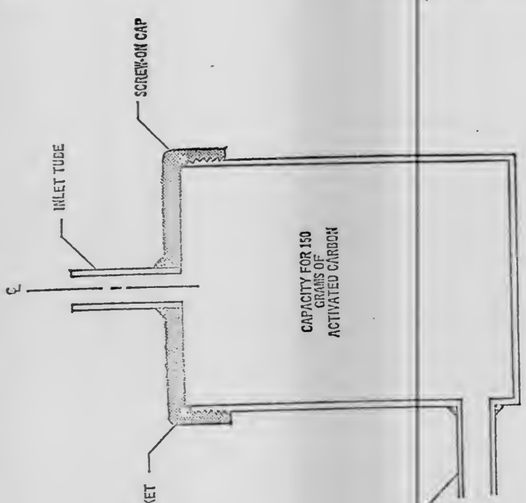

FIGURE C75-6.—Typical activated carbon trap (schematic).

(i) Canister—300±25 ml. cylindrical container having a length to diameter ratio of 1.4±0.1. An inlet tube, 5/16 inch ID and 1 inch long is sealed into the top of the canister, at its geometric center. A similar outlet tube is sealed into the wall ¼ inch from the bottom of the canister. The canister is designed to withstand an air pressure of 2 p.s.i. when sealed, without evidence of leaking when immersed in water for 30 seconds.

(ii) Activated carbon—meeting the following specifications:

Surface area, min. (N, BET method).[1]	1,000 square meters per gram.
Adsorption capacity min. (carbon tetrachloride)	60 percent, by weight.
Volatile material including adsorbed water vapor.	None.
Screen analysis size:	Percent
Less than 1.4 mm.	0
1.7–2.4 mm.	90–100
More than 3.0 mm.	0

[1] Brunauer, Emmett & Teller: Journal of the American Chemical Society, Vol. 60, p. 309, 1938.

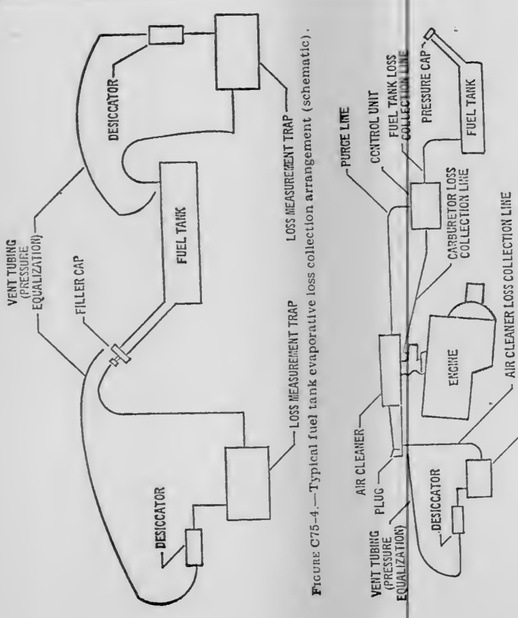

FIGURE C75-4.—Typical fuel tank evaporative loss collection arrangement (schematic).

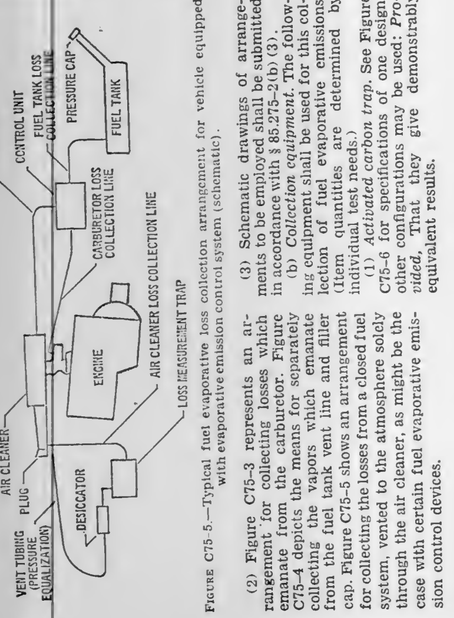

FIGURE C75-5.—Typical fuel evaporative loss collection arrangement for vehicle equipped with evaporative emission control system (schematic).

(2) Figure C75-3 represents an arrangement for collecting losses which emanate from the carburetor. Figure C75-4 depicts the means for separately collecting the vapors which emanate from the fuel tank vent line and filler cap. Figure C75-5 shows an arrangement for collecting the losses from a closed fuel system, vented to the atmosphere solely through the air cleaner, as might be the case with certain fuel evaporative emission control devices.

(3) Schematic drawings of arrangements to be employed shall be submitted in accordance with § 85.275-2(b)(3).

(b) *Collection equipment.* The following equipment shall be used for this collection of fuel evaporative emissions. (Item quantities are determined by individual test needs.)

(1) *Activated carbon trap.* See Figure C75-6 for specifications of one design; other configurations may be used: *Provided*, That they give demonstrably equivalent results.

The activated carbon trap is prepared for the test by attaching clamped sections of vinyl tubing to the inlet and outlet tubes of the canister. The canister is then filled with 150±10 gm. hot activated carbon which had previously been oven-dried for 3 hours at 300° F. Loss of carbon through the inlet and outlet tubes is prevented through the use of wire screens of 0.7 mm. mesh or wads of loosely packed glass wool. The canister is closed immediately after filling and the carbon is allowed to cool while the trap is vented through a drying tube via the unclamped outlet arm.

(iii) The trap is sealed and weighed after cooling and the weight, to the nearest 0.1 gram, is inscribed on the canister body. Within 12 hours of the scheduled test, the weight of the trap is checked and if it has changed by more than 0.5 gm., it is redried to constant weight. This redrying operation is performed by passing dry nitrogen, heated to 275° F., through the trap, via the inlet tube, at a rate of 1 liter per minute until checks made at 30-minute intervals do not vary by more than 0.1 percent of the gross weight. The trap and its contents are allowed to cool to room temperature, while vented through a drying tube via the outlet arm, before use.

(2) *Auxiliary collection equipment.* (i) Drying tube—transparent, tubular body ¾ inch ID, 6 inches long, with serrated tips and removable caps.

(ii) Desiccant—indicating variety, 8 mesh. The drying tube is attached to the outlet tube of the collection traps to prevent ambient moisture from entering the trap. It is prepared by filling the empty drying tube with fresh desiccant using loose wad of glass wool to hold the desiccant in place. The desiccant is renewed when three-quarters spent, as indicated by color change.

(iii) Collection tubing—stainless steel or aluminum, 5/16 inch ID, for connecting the collection traps to the fuel system vents.

(iv) Polyvinyl chloride (vinyl) tubing—flexible tubing, 5/16 inch ID, for sealing butt-to-butt joints.

(v) Laboratory tubing—air tight flexible tubing 5/16 inch ID, attached to the outlet end of the drying tubes to equalize collection system pressure.

(vi) Clamps—hosecock, openside, for pinching off flexible tubing.

(c) *Weighing equipment.* The balance and weights used shall be capable of determining the net weight of the activated carbon trap within an accuracy of ±75 mg.

(d) *Temperature measuring equipment.* (1) Temperature recorder—multichannel, variable speed, potentiometric, or substantially equivalent, recorder with a temperature range of 50° F. to 100° F. and capable of either simultaneous or sequential recording of the ambient air and fuel temperatures within an accuracy of ±1° F.

(2) Fuel tank thermocouples—iron-constantan (type J) construction.

(3) Other types of temperature sensing systems may be provided by the manufacturer if they record the information specified in subparagraph (1) of this paragraph with the required accuracy and if they are self-contained. Type J thermocouples are required for compatibility with recording instruments used in Federal certification facilities.

(e) *Assembly and use of the activated carbon vapor collection system.* (1) The prepared activated carbon trap, dried to constant weight, cooled to the ambient temperature and sealed with clamped sections of vinyl tubing is carefully weighed to the nearest 20 milligrams and the weight recorded as the "tare weight."

(2) A drying tube is attached to the outlet tube and the clamp released, but not removed. A length of flexible tubing, for pressure equalization, is connected to the other end of the drying tube.

(3) The inlet tube of the adsorption trap and external vent(s) of the fuel system will be connected by minimal lengths of stainless steel or aluminum tubing and short sections of vinyl tubing. Butt-to-butt joints shall be made wherever possible and precautions taken against sharp bends in the connection lines, including any manifold systems employed to connect multiple vents to a single trap.

(4) The clamp on the inlet tube of the trap shall be released but not removed. Care shall be exercised to prevent heating the vapor collection trap by radiant or conductive heat from the engine.

(5) Upon completion of the collection sequence, the vinyl tubing sections on each arm of the collection trap shall be clamped tight and the collection system dismantled.

(6) The sealed vapor collection trap shall be weighed carefully to the nearest 20 milligrams. This constitutes the "gross weight," which is appropriately recorded. The difference between the "gross weight" and "tare weight" represents the "net weight" for purposes of calculating the fuel vapor losses.

§ 85.275-22 Information to be recorded.

The following information shall be recorded with respect to each test:

(a) Test number.

(b) System or device tested (brief description).

(c) Date and time of day for each part of the test schedule.

(d) Instrument operator.

(e) Driver or operator.

(f) Vehicle: Make—Vehicle identification number—Model year—Transmission type—Odometer reading—Engine displacement—Engine family—Idle r.p.m.—Fuel system—(fuel injection, nominal fuel tank capacity, fuel tank location, number of carburetors, number of carburetor barrels)—Inertia loading—Estimated curb weight recorded at 0 miles—Actual road load horsepower at 50 m.p.h. and drive wheel tire pressure.

(g) Dynamometer serial number and indicated road load power absorption at 50 m.p.h.

(h) All pertinent instrument information such as tuning—gain—serial number—detector number—range. As an alternative, a reference to a vehicle test cell number may be used, with the advance approval of the Administrator, provided test cell calibration records show the pertinent instrument information.

(i) Recorder charts: Identify zero, span, exhaust gas, and dilution air sample traces.

(j) Test cell barometric pressure, ambient temperature, and humidity.

(k) Fuel temperatures, as prescribed.

(l) Pressure of the mixture of exhaust and dilution air entering the positive displacement pump, the pressure increase across the pump, and the temperature set point of the temperature control system. The sample temperature at the inlet to the pump may be measured, if desired, to verify that the temperature variations are within 5° F. of the set point.

(m) The number of revolutions of the positive displacement pump accumulated while the test is in progress and exhaust flow samples are being collected.

(n) The humidity of the dilution air.

§ 85.275-23 Analytical system calibration and sample handling.

(a) Calibrate the analytical assembly at least once every 30 days. Use the same flow rate as when analyzing samples.

(1) Adjust analyzers to optimize performance.

(2) Zero the hydrocarbon analyzer with zero grade air and the carbon monoxide, carbon dioxide, and oxides of nitrogen analyzers with zero grade nitrogen. The allowable zero gas impurity concentrations should not exceed 1 p.p.m. equivalent carbon response, 1 p.p.m. carbon monoxide, 300 p.p.m. (0.03 mole percent) carbon dioxide, and 0.1 p.p.m. nitric oxide.

(3) Set the CO and CO_2 analyzer gains to give the desired range. Select the desired attenuation scale of the HC analyzer, set the capillary flow rate by adjusting the back pressure regulator, and adjust the electronic gain control, if provided, to give the desired range. Select the desired scale of the NO_x analyzer and adjust the phototube high voltage supply or amplifier gain to give the desired range.

(4) Calibrate the HC analyzer with propane (air diluent) gases having nominal concentrations equal to 50 and 100 percent of full scale. Calibrate the CO analyzer with carbon monoxide (nitrogen diluent) gases and the CO_2 analyzer with carbon dioxide (nitrogen diluent) gases having nominal concentrations equal to 10, 25, 40, 50, 60, 70, 85, and 100 percent of full scale. Calibrate the NO_x analyzer with nitric oxide (nitrogen diluent) gases having nominal concentrations equal to 50 and 100 percent of full scale. The actual concentrations should be known to within ±2 percent of the true values.

(5) Compare values obtained on the CO and CO_2 analyzers with previous cali-

V 38-151 AUG 7 73 XUM

bration curves. Any significant change reflects some problem in the system. Locate and correct problem, and recalibrate. Use best judgment in selecting curves for data reduction.

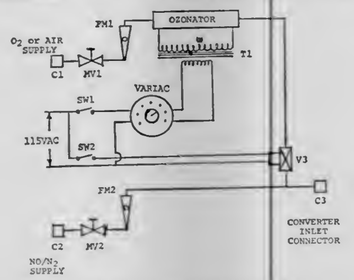

FIGURE A 75–7—NO_x Converter Efficiency Detector

The following procedure is to be used for determining the values to be used in Equation (A).

(i) Attach the NO/N_2 supply (150–250 ppm) at C2, the O_2 supply at C1 and the analyzer inlet connection to the efficiency detector at C3. If lower concentrations of NO are used, air may be used in place of O_2 to facilitate better control of the NO_2 generated during step (iv).

(ii) With the efficiency detector variac off, place the NO_x converter in bypass mode and close valve V3. Open valve MV2 until sufficient flow and stable readings are obtained at the analyzer. Zero and span the analyzer output to indicate the value of the NO concentration being used. Record this concentration.

(iii) Open valve V3 (on/off flow control solenoid valve for O_2) and adjust valve MV1 (O_2 supply metering valve) to blend enough O_2 to lower the NO concentration (ii) about 10 percent. Record this concentration.

(iv) Turn on the ozonator and increase its supply voltage until the NO concentration of (iii) is reduced to about 20 percent of (ii). NO_2 is now being formed from the NO+O_2 reaction. There must always be at least 10 percent unreacted NO at this point. Record this concentration.

(v) When a stable reading has been obtained from (iv), place the NO_x converter in the convert mode. The analyzer will now indicate the total NO_x concentration. Record this concentration.

(vi) Turn off the ozonator and allow the analyzer reading to stabilize. The mixture NO+O_2 is still passing through the converter. This reading is the total NO_x concentration of the dilute NO span gas used at step (iii). Record this concentration.

(vii) Close valve V3. The NO concentration should be equal to or greater than the reading of (ii) indicating whether the NO contains any NO_2.

Calculate the efficiency of the NO_x converter by substituting the concentrations obtained during the test into Equation (A).

$$\% \text{ Eff.} = \frac{(vi)-(iv)}{(v)-(iv)} \times 100\%$$

The efficiency of the converter should be greater than 90 percent. Adjusting the converter temperature may be needed to maximize the efficiency. Efficiency checks should be made on each analyzer range using an NO span gas concentration appropriate to the instrument range.

(7) Check the efficiency of the sample conditioning system by the following procedure:

(i) Zero and span the CO instrument on its most sensitive scale.

(ii) Recheck zero.

(iii) Bubble CO_2 span gas through water and then through the sample conditioning system into the CO instrument. If the CO instrument shows no response to the wet CO_2 the columns are in good condition.

(iv) If the CO instrument responds to wet CO_2, replace columns as necessary to bring response back to zero.

(v) The conditioning system efficiency should be checked daily.

(b) HC, CO, CO_2, and NO_x measurements: Allow a minimum of 20 minutes warmup for the HC analyzer and 2 hours for the CO, CO_2, and NO_x analyzers. (Power is normally left on infrared and chemiluminescence analyzers; but when not in use, the chopper motors of the infrared analyzers are turned off and the phototube high voltage supply of the chemiluminescence analyzer is placed in the standby position.) The following sequence of operations should be performed in conjunction with each series of measurements:

(1) Zero the analyzers. Obtain a stable zero on each amplifier meter and recorder. Recheck after tests.

(2) Introduce span gases and set the CO and CO_2 analyzer gains, the HC analyzer sample capillary flow rate and the NO_x analyzer high voltage supply or amplifier gain to match the calibration curves. In order to avoid corrections, span and calibrate at the same flow rates used to analyze the test samples. Span gases should have concentrations equal to approximately 80 percent of full scale. If gain has shifted significantly on the CO or CO_2 analyzers, check tuning. If necessary, check calibration. Recheck after test. Show actual concentrations on chart.

(3) Check zeroes; repeat the procedure in subparagraphs (1) and (2) of this paragraph if required.

(4) Check flow rates and pressures.

(5) Measure HC, CO, CO_2, and NO_x concentrations of samples. Care should be exercised to prevent moisture from condensing in the sample collection bag.

(6) Check zero and span points.

(c) For the purposes of this section, the term "zero grade air" includes artificial "air" consisting of a blend of nitrogen and oxygen with oxygen concentrations between 18 and 21 mole percent.

§ 85.275–24 Dynamometer test runs.

(a) The vehicle shall be allowed to stand with the engine turned off for a period of not less than 12 hours before the cold start exhaust emission test, at an ambient temperature as specified in §§ 85.275–12 and 85.275–13. The vehicle shall be stored prior to the emission tests in such a manner that precipitation (e.g. rain or dew) does not occur on the vehicle. The complete dynamometer test consists of a cold start drive of 7.5 miles and simulates a hot start drive of 7.5 miles. The vehicle is allowed to stand on the dynamometer during the 10-minute time period between the cold and hot start tests. The cold start test is divided into two periods. The first period, representing the cold start "transient" phase, terminates at the end of the deceleration which is scheduled to occur at 505 seconds of the driving schedule. The second period, consists of the remainder of the driving schedule including engine shutdown. The hot start test similarly consists of two periods. The first period, representing the hot start "transient" phase, terminates at the same point in the driving schedule as the first phase of the cold start test. The second period of the hot start test, "stabilized" phase, is assumed to be identical to the second period of the cold start test. Therefore, the hot start test terminates after the first period (505 seconds) is run. During the tests the ambient temperature shall be between 68° F. and 86° F.

(b) The following steps shall be taken for each test:

(1) Place drive wheels of vehicle on dynamometer without starting engine.

(2) Open the vehicle engine compartment cover and start the cooling fan.

(3) With the sample solenoid valves in the "dump" position connect evacuated sample collection bags to the two dilute exhaust sample connectors and to the two dilution air sample line connectors.

(4) Start the positive displacement pump (if not already on), the sample pumps, and the temperature recorder. (The heat exchanger of the constant volume sampler should be preheated to its operating temperature before the test begins.)

(5) Adjust the sample flow rates to the desired flow rate (minimum of 10 c.f.h.) and set the revolution counters to zero.

(6) Attach the flexible exhaust tube to the vehicle tailpipe(s).

(7) Simultaneously start the revolution counter for the positive displacement pump, position the sample solenoid valves to direct the sample flow into the "transient" exhaust sample bag and the "transient" dilution air sample bag, and start cranking the engine.

(8) Fifteen seconds after the engine starts, place the transmission in gear.

(9) Twenty seconds after the engine starts, begin the initial vehicle acceleration of the driving schedule.

(10) Operate the vehicle according to the dynamometer driving schedule (§85.275–14).

(11) At the end of the deceleration which is scheduled to occur at 505 seconds, simultaneously switch the sample flows from the "transient" bags to the "stabilized" bags, switch off revolution counter No. 1 and start counter No. 2. As soon as possible and in no case longer than 20 minutes after the end of this portion of the test disconnect the "transient" exhaust and dilution air sample bags, transfer them to the analytical system and process the samples according to § 85.275–23.

(12) Turn the engine off 2 seconds after the end of the last deceleration (at 1,369 seconds).

(13) Five seconds after the engine stops running, simultaneously turn off revolution counter No. 2 and position the sample solenoid valves to the "dump" position. As soon as possible and in no case longer than 20 minutes after the end of this portion of the test disconnect the "stabilized" exhaust and dilution air sample bags, transfer them to the analytical system and process the samples according to § 85.275–23.

(14) Immediately after the end of the sample period turn off the cooling fan and close the engine compartment cover.

(15) Immediately after the end of the sample period, disconnect the exhaust tube from the tailpipe(s), turn off the cooling fan and close the engine compartment cover.

(16) Turn off the positive displacement pump.

(17) Repeat the steps in subparagraphs (2) through (10) of this paragraph for the hot start test except only one evacuated sample bag is required for sampling exhaust gas and one for dilution air. The step in subparagraph (7) of this paragraph shall begin between 9 and 11 minutes after the end of the sample period for the cold start test.

(18) At the end of the deceleration which is scheduled to occur at 505 seconds, simultaneously turn off the No. 1 revolution counter and position the sample solenoid valve to the "dump" position. (Engine shutdown is not part of the hot start test sample period.)

(19) As soon as possible and in no case longer than 20 minutes after the end of this portion of the test disconnect the hot start "transient" exhaust and dilution air sample bags, transfer them to the analytical system and process the samples according to § 85.275–23.

(20) Disconnect the exhaust tube from the vehicle tailpipe(s) and remove vehicle from dynamometer.

(21) The positive displacement pump may be turned off, if desired.

§ 85.275–25 Chart reading.

(a) Determine the HC, CO, CO_2 and NO_x concentrations of the dilution air and dilute exhaust sample bags from the instrument deflections or recordings making use of appropriate calibration charts.

(b) Determine the average dilute exhaust mixture temperatures from the temperature recorder trace if a recorder is used.

§ 85.275–26 Calculations (exhaust emissions).

The final reported test results shall be computed by use of the following formulae:

(a) For light duty trucks:

$$Y_{wm} = (0.43\,Y_{st} + 0.57\,Y_{ht} + Y_s)/7.5$$

where:

Y_{wm} = Weighted mass emissions of each pollutant, i.e. HC, CO, or NO_x, in grams per vehicle mile.

Y_{st} = Mass emissions as calculated from the "transient" phase of the cold start test, in grams per test phase.

Y_{ht} = Mass emissions as calculated from the "transient" phase of the hot start test, in grams per test phase.

Y_s = Mass emissions as calculated from the "stabilized" phase of the cold start test, in grams per test phase.

(b) The mass of each pollutant for each phase of both the cold start test and the hot start test is determined from the following:

(1) Hydrocarbon Mass:

$$HC_{mass} = V_{mix} \times \text{Density}_{HC} \times \frac{HC_{conc}}{1{,}000{,}000}$$

(2) Oxides of nitrogen Mass:

$$NO_{x_{mass}} = V_{mix} \times \text{Density}_{NO_x} \times \frac{NO_{x_{conc}}}{1{,}000{,}000} \times K_H$$

(3) Carbon monoxide Mass:

$$CO_{mass} = V_{mix} \times \text{Density}_{CO} \times \frac{CO_{conc}}{1{,}000{,}000}$$

(c) Meaning of symbols:

HC_{mass} = Hydrocarbon emissions, in grams per test phase.

Density_{HC} = Density of hydrocarbons in the exhaust gas, assuming an average carbon to hydrogen ratio of 1:1.85, in grams per cubic foot at 68° F. and 760 mm. Hg pressure (16.33 gm./cu. ft).

HC_{conc} = Hydrocarbon concentration of the dilute exhaust sample corrected for background, in p.p.m. carbon equivalent, i.e. equivalent propane × 3.

$$HC_{conc} = HC_e - HC_d(1-1/DF)$$

where:

HC_e = Hydrocarbon concentrations of the dilute exhaust sample as measured, in p.p.m. carbon equivalent.

HC_d = Hydrocarbon concentration of the dilution air as measured in p.p.m. carbon equivalent.

$NO_{x_{mass}}$ = Oxides of nitrogen emissions, in grams per test phase.

Density_{NO_x} = Density of oxides of nitrogen in the exhaust gas, assuming they are in the form of nitrogen dioxide, in grams per cubic foot at 68° F. and 760 mm. Hg pressure (54.16 gm./cu. ft.).

$NO_{x_{conc}}$ = Oxides of nitrogen concentration of the dilute exhaust sample corrected for background, in p.p.m.

$$NO_{x_{conc}} = NO_{x_e} - NO_{x_d}(1-1/DF)$$

where:

NO_{x_e} = Oxides of nitrogen concentration of the dilute exhaust sample as measured, in p.p.m.

NO_{x_d} = Oxides of nitrogen concentration of the dilution air as measured, in p.p.m.

CO_{mass} = Carbon monoxide emissions, in grams per test phase.

Density_{CO} = Density of carbon monoxide in grams per cubic foot at 68° F. and 760 mm. Hg pressure (32.97 gm./cu. ft.).

CO_{conc} = Carbon monoxide concentration of the dilute exhaust sample corrected for background, water vapor and CO_2 extraction, in p.p.m.

$$CO_{conc} = CO_e - CO_d(1-1/DF)$$

where:

CO_e = Carbon monoxide concentration of the dilute exhaust sample volume corrected for water vapor and carbon dioxide extraction, in p.p.m. The calculation assumes the carbon to hydrogen ratio of the fuel is 1:1.85.

$$CO_e = (1-0.01925CO_{ie}-0.000323R)\,CO_{em}$$

where:

CO_{em} = Carbon monoxide concentration of the dilute exhaust sample as measured in p.p.m.

CO_{ie} = Carbon dioxide concentration of the dilute exhaust sample, in mole percent.

R = Relative humidity of the dilution air, in percent.

CO_d = Carbon monoxide concentration of the dilution air corrected for water vapor extraction, in p.p.m.

$$CO_d = (1-0.000323R)\,CO_{dm}$$

where:

CO_{dm} = Carbon monoxide concentration of the dilution air sample as measured, in p.p.m.

$$DF = \frac{13.4}{CO_{ie}+(HC_e+CO_e)\times 10^{-4}}$$

V_{mix} = Total dilute exhaust volume in cubic feet per test phase corrected to standard conditions (528°R and 760 mm. Hg).

$$V_{mix} = V_e \times N \frac{(P_B - P_i)\,(528°R)}{(760\text{ mm. Hg})\,(T_p)}$$

where:

V_e = Volume of gas pumped by the positive displacement pump, in cubic feet per revolution. This volume is dependent on the pressure differential across the positive displacement pump.

N = Number of revolutions of the positive displacement pump during the test phase while samples are being collected.

P_B = Barometric pressure in mm. Hg.

P_i = Pressure depression below atmosphere measured at the inlet to the positive displacement pump.

T_p = Average temperature of dilute exhaust entering positive displacement pump during test while samples are being collected, in degrees Rankine.

V 38 151 AUG 7 73 XUM

K_H=Humidity correction factor.

$$K_H=\frac{1}{1-0.0047\,(H-75)}$$

where:

H=Absolute humidity in grains of water per pound of dry air.

$$H=\frac{(43.478)\,R_a\times P_d}{P_B-(P_d\times R_a/100)}$$

R_a=Relative humidity of the ambient air, in percent.

P_d=Saturated vapor pressure, in mm. Hg at the ambient dry bulb temperature.

$$V_{mix}=\frac{(0.29344)\,(10{,}485)\,(762-70)\,(528)}{(760)\,(570)}=2595.0 \text{ cu. ft. per test phase.}$$

$$H=\frac{(43.478)\,(48.2)\,(22.225)}{762-(22.225\times 48.2/100)}$$

$$K_H=\frac{1}{1-0.0047\,(62-75)}=0.9424.$$

$CO_c=(1-0.01925\,(1.43)-0.000323\,(48))\,306.0=293.4$ p.p.m.

$CO_d=(1-0.000323\,(48))\,15.3=15.1$ p.p.m.

$$DF=\frac{13.4}{1.43+(105.8+293.4)\times 10^{-4}}=9.116.$$

$HC_{conc}=105.8-12.1\,(1-1/9.116)=95.03.$

$HC_{mass}=(2595)\,(16.33)\,(95.03/1{,}000{,}000)=4.027$ grams per test phase.

$NO_{x_{conc}}=11.2-0.8\,(1-1/9.116)=10.49.$

$NO_{x_{mass}}=(2595)\,(54.16)\,(10.49/1{,}000{,}000)\,(0.9424)=1.389$ grams per test phase.

$CO_{conc}=293.4-15.1\,(1-1/9.116)=280.$

$CO_{mass}=(2595)\,(32.97)\,(280/1{,}000{,}000)=23.96$ grams per test phase.

(2) For the "stabilized" portion of the cold start test assume that similar calculations resulted in HC_{mass}=0.62 grams per test phase; $NO^t_{x_{mass}}$=1.38 grams per test phase; and CO_{mass}=5.98 grams per test phase.

(3) For the "transient" portion of the hot start test assume that similar calculations resulted in HC_{mass}=0.51 grams per test phase; $NO^t_{x_{mass}}$=1.38 grams per test phase; and CO_{mass}=5.01 grams per test phase.

(4) For a 1975 light duty truck:

$HC_{w_m}=((0.43)\,(4.027)+(0.57)\,(0.51)+0.62)/7.5=0.352$ gram per vehicle mile.

$NO_{x_{w_m}}=((0.43)\,(1.389)+(0.57)\,(1.38)+1.27)/7.5=0.354$ gram per vehicle mile.

$CO_{w_m}=((0.43)\,(23.96)+(0.57)\,(5.01)+5.98)/7.5=2.55$ grams per vehicle mile.

§ 85.275–27 Calculations (fuel evaporative emissions).

The net weights of the individual collection traps employed in § 85.275–13 shall be added together to determine compliance with the fuel evaporative emission standard.

§ 85.275–28 Compliance with emission standards.

(a) The exhaust and fuel evaporative emission standards in § 85.275–1 apply to the emissions of vehicles for their useful life.

(b) Since emission control efficiency decreases with mileage accumulated on the vehicle, the emission level of a vehicle which has accumulated 50,000 miles will be used as the basis for determining compliance with the standards.

(c) The procedure for determining compliance of a new light duty truck with exhaust and fuel evaporative emission standards is as follows:

(1) Separate emission deterioration factors shall be determined from the emission results of the durability vehicle for each engine-system combination. A separate factor shall be established for exhaust HC, exhaust CO, exhaust NO_x, and fuel evaporative HC.

(i) The applicable results to be used in determining the deterioration factors for each combination shall be:

$$\text{factor}=\frac{\text{exhaust emissions interpolated to 50,000 miles}}{\text{exhaust emissions interpolated to 4,000 miles}}$$

(d) Example calculation of mass emission values:

(1) For the "transient" phase of the cold start test assume V_s=0.29344 cu. ft. per revolution; N=10,485; R=48.0%; R_a=48.2%; P_B=762 mm. Hg; P_d=22.225 mm. Hg; P_t=70 mm. Hg; T_p=570°R; HC_c=105.8 p.p.m. carbon equivalent; NO_{x_c}=11.2 p.p.m.; CO_m=306.6 p.p.m.; CO_{t_c}=1.43%; HC_d=12.1 p.p.m.; NO_{x_d}=0.8 p.p.m.; CO_{d_m}=15.3 p.p.m. Then:

(a) All valid emission data from the tests required under § 85.275–7(b), except the zero mile tests. This shall include the official test results, as determined in § 85.275–29, for all tests conducted on all durability vehicles of the combination selected under § 85.275–5(c) (including all vehicles elected to be operated by the manufacturer under § 85.275–5(c)(3)).

(b) All emission data from the tests conducted before and after the scheduled maintenance provided in §§ 85.275–6(a)(1)(i), (1)(iii), (3), (4), and (5)(iii).

(c) All emission data from tests required by maintenance approved under § 85.275–6(a)(1)(ix), in those cases where the Administrator conditioned his approval for the performance of such maintenance on the inclusion of such data in the deterioration factor calculation.

(ii) All applicable results shall be plotted as a function of the mileage on the system, rounded to the nearest mile, and the best fit straight lines, fitted by the method of least squares, shall be drawn through all these data points. The interpolated 4,000- and 50,000-mile points on this line must be within the standards provided in § 85.275–1 or the data will not be acceptable for use in calculation of a deterioration factor, unless no applicable data point exceeded the standard.

(iii) An exhaust emission deterioration factor shall be calculated for each combination as follows:

These interpolated values shall be carried out to a minimum of four places to the right of the decimal point before dividing one by the other to determine the deterioration factor. The results shall be rounded to three places to the right of the decimal point in accordance with ASTM E 29–67.

(iv) An evaporative emission deterioration factor shall be calculated for each combination by subtracting the evaporative emissions interpolated to 4,000 miles from the evaporative emissions interpolated to 50,000 miles. These interpolated values shall be carried out, in accordance with ASTM E 29–67, to a minimum of three decimal places to the right of the decimal point before subtracting one from the other to determine the deterioration factor.

(2)(i) The exhaust emission test results for each emission data vehicle shall be multiplied by the appropriate deterioration factor: *Provided,* That if a deterioration factor as computed in paragraph (c)(1)(iii) is less than one, that deterioration factor shall be one for the purposes of this paragraph.

(ii) The evaporative emission test results for each combination shall be adjusted by addition of the appropriate deterioration factor: *Provided,* That if a deterioration factor as computed in paragraph (3)(1)(iv) is less than zero, that deterioration factor shall be zero for the purposes of this paragraph.

(3) The emissions to compare with the standard shall be the adjusted emissions of paragraph (c)(2)(i) and (ii) for each emission data vehicle. Before any emission value is compared with the standard, it shall be rounded, in accordance with ASTM E 29–67, to two significant figures. The rounded emission values may not exceed the standard.

(4) Every test vehicle of an engine family must comply with all applicable standards, as determined in paragraph (c)(3), before any vehicle in that family may be certified.

§ 85.275–29 Testing by the Administrator.

(a) The Administrator may require that any one or more of the test vehicles be submitted to him, at such place or places as he may designate, for the purpose of conducting emissions tests. The Administrator may specify that he will conduct such testing at the manufacturer's facility, in which case instrumentation and equipment specified by the Administrator shall be made available by the manufacturer for test operations. Any testing conducted at a manufacturer's facility pursuant to this paragraph shall be scheduled by the manufacturer as promptly as possible.

(b)(1) Whenever the Administrator conducts a test on a test vehicle, the results of that test, unless subsequently invalidated by the Administrator, shall comprise the official data for the vehicle at that prescribed test point and the manufacturer's data for that prescribed test point shall not be used in determining compliance with emission standards.

(2) Whenever the Administrator does not conduct a test on a test vehicle at a test point, the manufacturer's test data will be accepted as the official data for that test point: *Provided,* That if the Administrator makes a determination based on testing under paragraph (a) of this section, that there is a lack of correlation between the manufacturer's test equipment and the test equipment used by the Administrator, no manufacturer's test data will be accepted for purposes of certification until the reasons for the lack of correlation are determined and the validity of the data is established by the manufacturer.

(3)(i) The emission data vehicle presented to the Administrator for testing shall be calibrated within the production tolerances applicable to the manufacturer's specifications to be shown on the vehicle label (see § 85.275–35(a)(4)(iv)) as specified in the application for certification. If the Administrator determines that a vehicle is not within such tolerances, the vehicle shall be adjusted at the facility designated by the Administrator prior to the test and an engineering report shall be submitted to the Administrator describing the corrective action taken. Based on the engineering report, the Administrator will determine if the vehicle shall be used as an emission data vehicle.

(ii) If the Administrator determines that the test data developed under paragraph (b)(3)(i) would cause the emission data vehicle to fail due to excessive 4,000 mile emissions or by application of the appropriate deterioration factor, then the following procedure shall be observed:

(*a*) The manufacturer may request a retest. Before the retest, the vehicle may be readjusted to manufacturer's specifications, if these adjustments were made incorrectly prior to the first test, and other maintenance or repairs may be performed in accordance with § 85.275–6. All work on the vehicle shall be done at such location and under such conditions as the Administrator may prescribe.

(*b*) The vehicle will be retested by the Administrator and the results of this test shall comprise the official data for the emission data vehicle.

(4) If sufficient durability data are not available at the time of any emission test conducted under paragraph (a) of this section, to enable the Administrator to determine whether an emission data vehicle would fail, the manufacturer may request a retest in accordance with the provisions of paragraphs (c)(3)(i) (*a*) and (*b*) of this paragraph. If the manufacturer does not promptly make such request, he shall be deemed to have waived the right to a retest. A request for retest must be made before the manufacturer removes the vehicle from the test premises.

§ 85.275–30 Certification.

(a)(1) If, after a review of the test reports and data submitted by the manufacturer and data derived from any additional testing conducted pursuant to § 85.275–29, the Administrator determines that a test vehicle(s) conforms to the regulations of this subpart, he will issue a certificate of conformity with respect to such vehicle(s).

(2) Such certificate will be issued for such period not more than 1 model year as the Administrator may determine and upon such terms as he may deem necessary to assure that any new motor vehicle covered by the certificate will meet the requirements of the Act and this subpart.

(b)(1) The Administrator will determine whether a vehicle covered by the application complies with applicable standards by observing the following relationships:

(i) A test vehicle selected under § 85.275–5(b)(2) or (4), shall represent all vehicles in the same engine family of the same engine displacement-exhaust emission control system-evaporative emission control system combination.

(ii) A test vehicle selected under § 85.275–5(b)(3) shall represent all vehicles the same in the same engine family of the same engine displacement-exhaust emission control system-transmission type-fuel system combination.

(iii) A test vehicle selected under § 85.275–5(c)(1), shall represent all vehicles of the same engine-system combination.

(2) The Administrator will proceed as in paragraph (a) of this section with respect to the vehicles belonging to an engine family all of which comply with applicable standards.

(3) If, after a review of the test reports and data submitted by the manufacturer and data derived from any additional testing conducted pursuant to § 85.275–29, the Administrator determines that one or more test vehicles of the certification test fleet do not meet applicable standards, he will notify the manufacturer in writing, setting forth the basis for his determination. Within 30 days following receipt of the notification, the manufacturer may request a hearing on the Administrator's determination. The request shall be in writing, signed by an authorized representative of the manufacturer and shall include a statement specifying the manufacturer's objections to the Administrator's determination, and data in support of such objections. If, after a review of the request and supporting data, the Administrator finds that the request raises a substantial factual issue, he shall provide the manufacturer a hearing in accordance with § 85.205 with respect to such issue.

(4) The manufacturer may, at his option, proceed with any of the following alternatives with respect to any engine family represented by a test vehicle(s) determined not in compliance with applicable standards:

(i) Request a hearing under § 85.205, or

(ii) Delete from the application for certification the vehicles represented by the failing test vehicle. (Vehicles so deleted may be included in a later request for certification under § 85.275–32.) The Administrator will then select in place of each failing vehicle an alternate vehicle chosen in accordance with selection criteria employed in selecting the vehicle that failed, or

(iii) Modify the test vehicle and demonstrate by testing that it meets applicable standards. Another vehicle which is in all material respects the same as the first vehicle, as modified, shall then be operated and tested in accordance with applicable test procedures.

(5) If the manufacturer does not request a hearing or present the required data under subparagraph (4) of this paragraph, the Administrator will deny certification.

§ 85.275–31 Separate certification.

Where possible a manufacturer should include in a single application for certification all vehicles for which certification is required. A manufacturer may, however, choose to apply separately for certification of part of his product line. The selection of test vehicles and the computation of test results will be determined separately for each application.

§ 85.275–32 Addition of a vehicle after certification.

(a) If a manufacturer proposes to add to his product line a vehicle of the same engine-system combination as vehicles previously certified but which was not described in the application for certification when the test vehicle(s) representing other vehicles of that combination was certified, he shall notify the Administrator. Such notification shall be in advance of the addition unless the manufacturer elects to follow the procedure described in § 85.275–34. This notification shall include a full description of the vehicle to be added.

(b) The Administrator may require the manufacturer to perform such tests on the test vehicle(s) representing the vehicle to be added which would have been required if the vehicle had been included in the original application for certification.

(c) If, after a review of the test reports and data submitted by the manufacturer, and data derived from any testing conducted under § 85.275–29, the Administrator determines that the test vehicle(s) meets all applicable standards, the appropriate certificate will be amended accordingly. If the Administrator determines that the test vehicle(s) does not meet applicable standards, he will proceed under § 85.275–30(b).

§ 85.275–33 Changes to a vehicle covered by certification.

(a) The manufacturer shall notify the Administrator of any change in production vehicles in respect to any of the parameters listed in § 85.275–5(a)(3) or § 85.275–5(b)(3), giving a full description of the change. Such notification shall be in advance of the change unless the manufacturer elects to follow the procedure described in § 85.275–34.

(b) Based upon the description of the change, and data derived from such testing as the Administrator many require or conduct, the Administrator will determine whether the vehicle, as modified, would still be covered by the certificate of conformity then in effect.

V 38-151 AUG 7 73 XUM

(c) If the Administrator determines that the outstanding certificate would cover the modified vehicles, he will notify the manufacturer in writing. Except as provided in § 85.275–34 the change may not be put into effect prior to the manufacturer's receiving this notification. If the Administrator determines that the modified vehicles would not be covered by the certificate then in effect, then the modified vehicles shall be treated as additions to the product line subject to § 85.275–32.

§ 85.275–34 Alternative procedure for notification of additions and changes.

(a) A manufacturer may, in lieu of notifying the Administrator in advance of an addition of a vehicle under § 85.275–32 or a change in a vehicle under § 85.275–33, notify him concurrently with the making of the change if the manufacturer believes the addition or change will not require any testing under the appropriate section. Upon notification to the Administrator, the manufacturer may proceed to put the addition or change into effect.

(b) The manufacturer may continue to produce vehicles as described in the notification to the Administrator for a maximum of 30 days, unless the Administrator grants an extension in writing. This period may be shortened by a notification in accordance with paragraph (c) of this section.

(c) If the Administrator determines, based upon a description of the addition or change, that no test data will be required, he will notify the manufacturer in writing of the acceptability of the addition or change. If the Administrator determines that test data will be required, he will notify the manufacturer to rescind the change within 5 days of receipt of the notification. The Administrator will then proceed as in § 85.275–32 (b) and (c), or § 85.275–33 (b) and (c) as appropriate.

(d) Election to produce vehicles under this section will be deemed to be a consent to recall all vehicles which the Administrator determined under § 85.275–32(c) do not meet applicable standards, and to cause such nonconformity to be remedied at no expense to the owner.

§ 85.275–35 Labeling.

(a) (1) The manufacturer of any light duty truck subject to the standards prescribed in § 85.275–1 shall, at the time of manufacture, affix a permanent, legible label, of the type and in the manner described below, containing the information hereinafter provided, to all production models of such vehicles available for sale to the public and covered by a certificate of conformity under § 85.275–30(a).

(2) A plastic or metal label shall be welded, riveted, or otherwise permanently attached in a readily visible position in the engine compartment.

(3) The label shall be affixed by the vehicle manufacturer, who has been issued the certificate of conformity for such vehicle, in such a manner that it cannot be removed without destroying or defacing the label, and shall not be affixed to any equipment which is easily detached from such vehicle.

(4) The label shall contain the following information lettered in the English language in block letters and numerals, which shall be of a color that contrasts with the background of the label:

(i) The label heading: Vehicle Emission Control Information;

(ii) Full corporate name and trademark of manufacturer;

(iii) Engine displacement (in cubic inches) and engine family identification;

(iv) Engine tuneup specifications and adjustments, as recommended by the manufacturer, including idle speed, ignition timing, and the idle air-fuel mixture setting procedure and value (e.g. idle CO, idle air-fuel ratio, idle speed drop). These specifications should indicate the proper transmission position during tuneup and what accessories (e.g., air-conditioner), if any, should be in operation;

(v) The statement: "This Vehicle Conforms to U.S.E.P.A. Regulations Applicable to 1975 Model Year New Motor Vehicles."

(b) The provisions of this section shall not prevent a manufacturer from also reciting on the label that such vehicle or engine conforms to any applicable State emission standards for new motor vehicles or any other information that such manufacturer deems necessary for, or useful to, the proper operation and satisfactory maintenance of the vehicle.

§ 85.275–36 Submission of vehicle identification numbers.

(a) The manufacturer of any light duty truck covered by a certificate of conformity under § 85.275–30(a) shall, not later than 60 days after its manufacture, submit to the Administrator the vehicle identification number of such vehicle: *Provided*, That this requirement shall not apply with respect to any vehicle manufactured within any State, as defined in section 302(d) of the Act.

(b) The requirements of this section may be waived with respect to any manufacturer who provides information satisfactory to the Administrator which will enable the Administrator to identify those vehicles which are covered by a certificate of conformity.

§ 85.275–37 Production vehicles.

(a) Any manufacturer obtaining certification under this subpart shall supply to the Administrator, upon his request, a reasonable number of production vehicles selected by the Administrator which are representative of the engines, emission control systems, fuel systems, and transmissions offered and typical of production models available for sale under the certificate. These vehicles shall be supplied for testing at such time and place and for such reasonable periods as the Administrator may require.

(b) Any manufacturer obtaining certification under this subpart shall notify the Administrator, on a quarterly basis, of the number of vehicles of each engine family-engine displacement-exhaust emission control system-fuel system-transmission type-inertia weight class combination produced for sale in the United States during the preceding quarter. A manufacturer may elect to provide this information every 60 days instead or quarterly, to combine it with the notification required under § 85.275–36.

(c) All light duty trucks covered by a certificate of conformity under § 85.275–30(a) shall be adjusted by the manufacturer to the ignition timing specification detailed in § 85.275–35(a)(4)(iv).

§ 85.275–38 Maintenance instructions.

(a) The manufacturer shall furnish or cause to be furnished to the ultimate purchaser of each new motor vehicle subject to the standards prescribed in § 85.275–1, written instructions for the maintenance and use of the vehicle by the ultimate purchaser as may be reasonable and necessary to assure the proper functioning of emission control systems.

(1) Such instructions shall be provided for those vehicle and engine components listed in Appendix VI to this part (and for any other components) to the extent that maintenance of these components is necessary to assure the proper functioning of emission control systems.

(2) Such instructions shall be in clear, and to the extent practicable, nontechnical language.

(b) The maintenance instructions required by this section shall contain a general description of the documentation which the manufacturer will require from the ultimate purchaser or any subsequent purchaser as evidence of compliance with the instructions.

(3) Such instructions shall specify the performance of all scheduled maintenance performed by the manufacturer under § 85.275–6(a) and shall explain the conditions under which EGR system and catalytic converter maintenance is to be performed (e.g., what type of warning device is being employed and whether the device is activated by component maintenance).

§ 85.275–39 Submission of maintenance instructions.

(a) The manufacturer shall provide to the Administrator, no later than the time of the submission required by § 85.275–4, a copy of the maintenance instructions which the manufacturer proposes to supply to the ultimate purchaser in accordance with § 85.275–38(a). The Administrator will review such instructions to determine whether they are reasonable and necessary to assure the proper functioning of the vehicle's emission control systems. The Administrator will notify the manufacturer of his determination whether such instructions are reasonable and necessary to assure the proper functioning of the emission control systems.

(b) Any revision to the maintenance instructions which will affect emissions shall be supplied to the Administrator at least 30 days before being supplied to the ultimate purchaser unless the Administrator consents to a lesser period of time.

§ 85.276–1 Emission standards for 1976 model year light duty trucks.

The standards and test procedures set forth in § 85.275 remain applicable for the 1976 model year.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

EXECUTIVE ORDER—Amending Executive Order No. 11708, placing certain positions in levels IV and V of the Executive Schedule 21387

MEDICAID—HEW regulations on fire safety waivers for skilled nursing facilities 21413

X-RAYS—HEW notice of safety recommendations for baggage inspection systems 21442

STUDENT EMPLOYMENT—Labor Department list of establishments authorized to pay less than minimum wage 21463

OVER-THE-COUNTER MARKET—SEC requests comments by 9–29–73 on trading in options 21459

GUARANTEED FARMER LOANS—USDA proposed policies and procedures; comments by 8–31–73 21417

SPECIAL NUCLEAR MATERIALS—AEC regulatory guide for sealing containers 21444

ANTIBIOTIC DRUGS—FDA provides for certification of minocycline hydrochloride; effective 8–8–73 21397

NEW DRUGS—FDA adds certain sulfonamides to list of drugs permitted to remain on market pending effectiveness studies 21441

NUCLEAR POWER PLANTS—AEC issues proposed standard format and content for safety analysis reports 21445

NEW ANIMAL DRUGS—
FDA revokes provisions for use of Nithiazide in animal feeds 21398
FDA withdraws approval of Nithiazide applications 21442

MEETINGS—
Interior Department: Colorado State Multiple Use Advisory Board; 8–22, 8–23, 8–24–73 21438
National Advisory Committee on Oceans and Atmosphere, 8–20 and 8–21–73 21455

federal register
Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Title 3—The President

EXECUTIVE ORDER 11736

Amending Executive Order No. 11708, Placing Certain Positions in Levels IV and V of the Executive Schedule

By virtue of the authority vested in me by section 5317 of title 5 of the United States Code, as amended, Executive Order No. 11708, dated March 23, 1973, as amended, is further amended as follows:

1. Section 1 of that order, placing certain positions in level IV of the Executive Schedule, is amended—

(a) by deleting "(2) Administrator, National Institutes of Health, Department of Health, Education, and Welfare" and inserting in lieu thereof "(2) Director, National Institutes of Health, Department of Health, Education, and Welfare";

(b) by deleting "(4) Special Assistant to the Secretary (Congressional Relations), Treasury Department" and inserting in lieu thereof "(4) Assistant to the Secretary for Legislative Affairs, Treasury Department";

(c) by deleting "(14) Assistant to the Secretary for Policy Development, Department of Commerce" and inserting in lieu thereof "(14) Deputy Under Secretary, Department of Transportation"; and

(d) by adding at the end thereof:

"(16) Special Prosecutor, Department of Justice.

"(17) Associate Attorney General, Department of Justice.

"(18) Commissioner General of the International Exposition on the Environment, Department of Commerce."

2. Section 2 of that order, placing certain positions in level V of the Executive Schedule, is amended by adding at the end thereof "(8) Associate Administrator for Federal Management Policy, General Services Administration."

Richard Nixon

THE WHITE HOUSE,
August 6, 1973.

V 38 - 152 AUG 8 73 XUM

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 916—NECTARINES GROWN IN CALIFORNIA

Expenses and Rate of Assessment

This document authorizes expenses of $402,405 of Nectarine Administrative Committee, under Marketing Order No. 916, for the 1973–74 fiscal period and fixes a rate of assessment of $0.05 per lug of nectarines handled in such period to be paid to the committee by each first handler as his pro rata share of expenses.

On June 21, 1972 notice of proposed rulemaking was published in the FEDERAL REGISTER (37 FR 12242) regarding proposed expenses and the proposed rate of assessment for the period March 1, 1972, through February 28, 1973, pursuant to the marketing agreement, as amended, and Order No. 916, as amended (7 CFR Part 916) regulating the handling of nectarines grown in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Nectarine Administrative Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

1. Section 916.212 is added to read as follows:

§ 916.212 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Nectarine Administrative Committee during the period March 1, 1973, through February 28, 1974, will amount to $402,405.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each handler in accordance with § 916.41, is fixed at $0.05 per No. 22D standard lug box of nectarines, or equivalent quantity of nectarines in other containers or in bulk.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of nectarines grown in California are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable nectarines handled during the aforesaid period; and (3) such period began on March 1, 1973, and said rate of assessment will automatically apply to all such nectarines beginning with such date.

Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order, and "No. 22D standard lug box" shall have the same meaning as set forth in section 43601 of the Agricultural Code of California.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: August 3, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-16404 Filed 8-7-73;8:45 am]

PART 917—FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA

Expenses and Rate of Assessment

This document authorizes expenses of $688,811 of the Control Committee, under Marketing Order No. 917, for the 1973–74 fiscal period. It also fixes the rates of assessment under subject program as follows: $.01 per box of pears; $.07 per crate of plums; and $0.0375 per lug of peaches. Such assessments are to be paid to the committee by each handler as his pro rata share of expenses.

On June 26, 1973, notice of rulemaking was published in the FEDERAL REGISTER (38 FR 16781) regarding proposed expenses and the related rates of assessment for the fiscal period beginning March 1, 1973, and ending February 28, 1974, pursuant to the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917), regulating the handling of fresh pears, plums, and peaches grown in California. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Control Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

1. Section 917.211 is added to read as follows:

§ 917.211 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred during the fiscal period March 1, 1973, through February 28, 1974, will amount to $688,811.

(b) *Rate of assessment.* The rates of assessment for such fiscal period payable by each handler in accordance with § 917.37 are fixed at:

(1) One cent ($0.01) per standard-western pear box of pears, or its equivalent in other containers or in bulk;

(2) Seven cents ($0.07) per standard four-basket crate of plums, or its equivalent in other containers or in bulk;

(3) Three and seventy five hundredths cents ($0.0375) per Los Angeles lug of peaches, or its equivalent in other containers or in bulk.

Terms used in the amended marketing agreement and this part shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and this part.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of pears, plums, and peaches are currently underway; (2) the relevant provisions of said amended marketing agreement and this part require that the rates of assessment fixed for a particular season be applicable to all fresh pears, plums, and peaches from the beginning of such fiscal period; and (3) the fiscal period began March 1, 1973, and the rates of assessment herein fixed will automatically apply to all pears, plums, and peaches beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C 601–674.)

Dated: August 3, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-16402 Filed 8-7-73;8:45 am]

PART 926—TOKAY GRAPES GROWN IN SAN JOAQUIN COUNTY, CALIFORNIA

Expenses and Rate of Assessment

This document authorizes expenses of $55,215 of the Industry Committee, under Marketing Order No. 926, for the 1973–74 season and fixes the rate of assessment at $0.055 per standard package or equivalent quantity of Tokay grapes, handled during such period, to be paid to the committee by each first handler as his pro rata share of such expenses.

On July 17, 1973, notice of proposed rule making was published in the FED-

V 38-152 AUG 8 73 XUM

ERAL REGISTER (38 FR 19047) regarding proposed expenses and the related rate of assessment for the period April 1, 1973, through March 31, 1974, pursuant to the marketing agreement, as amended, and Order No. 926, as amended (7 CFR Part 926), regulating the handling of Tokay grapes grown in San Joaquin County, California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Industry Committee (established pursuant to said amended marketing agreement and order) it is hereby found and determined that:

1. Section 926.213 is added to read as follows:

§ 926.213 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Industry Committee during the period April 1, 1973, through March 31, 1974, will amount to $55,215.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each handler in accordance with § 926.46, is fixed at five and one-half cents ($0.055) per standard package or equivalent quantity of grapes.

(c) *Terms.* Terms used in the amended marketing agreement and this part shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and this part.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) assessable shipments of Tokay grapes will begin on or about August 11, 1973; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment fixed for a particular season shall be applicable to all assessable Tokay grapes from the beginning of the season; and (3) the season began on April 1, 1973, and the rate of assessment herein fixed will automatically apply to all assessable grapes beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: August 3, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73–16401 Filed 8–7–73;8:45 am]

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Raisins Acquired Under Weight Dockage System

Notice was published in the July 19, 1973, issue of the FEDERAL REGISTER (38 FR 19224), regarding a proposal to establish additional rules and regulations applicable to natural Thompson Seedless raisins acquired by handlers under a weight dockage system. Such additional rules and regulations would be established pursuant to the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989), hereinafter referred to collectively as the "order". The order regulates the handling of raisins produced from grapes grown in California and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The proposal was unanimously recommended by the Raisin Administrative Committe (hereinafter referred to as the "Committee") pursuant to § 989.58(a) of the order. This section provides that a handler may acquire natural condition raisins which exceed a tolerance established for maturity under a weight dockage system established pursuant to rules and regulations recommended by the Committee and approved by the Secretary. The proposal would establish: The basis upon which free and reserve percentages would be applicable to acquisition by handlers of lots of natural Thompson Seedless raisins under a weight dockage system; the extent to which such lots may be set aside as reserve raisins; the basis for levying program assessments on such lots acquired as free tonnage by handler; and the basis upon which payments would be made by the Committee to handlers for services performed on such lots held as reserve raisins.

The notice afforded interested persons an opportunity to submit written data, views, or arguments on the proposal. None were received.

At present, § 989.201 (7 CFR 989.201–989.229; 37 FR 17723) contains, among other things, a weight dockage system (including a dockage table) and identification requirements relative to raisins acquired pursuant to a weight dockage system. It was proposed that these requirements be deleted from § 989.201 and included, with minor changes, in a new § 989.210 so that all rules and regulations regarding acquisition of raisins under a weight dockage system would be contained in one section.

The weight dockage system currently contained in § 989.201 is applicable to "natural condition Thompson Seedless raisins" (i.e., the varietal types of natural Thompson Seedless, Golden Seedless, Sulfur Bleached, and Soda Dipped raisins). The proposed dockage system will be applicable only to raisins of the natural Thompson Seedless varietal type.

The creditable weight of a lot of raisins containing immature raisins in excess of the permitted levels means that portion of the lot which would meet the applicable minimum grade and condition standards when the excess quantity of immature raisins have been removed from the lot. The creditable weight is determined by multiplying the net weight of the lot of raisins by a dockage factor. The dockage factor reflects the quantity of raisins in the total lot which be within the permitted level for substandard raisins. The Committee concluded that the creditable weight of such lot of raisins acquired under a weight dockage system is an appropriate basis for application of program requirements regarding free and reserve percentages, reserve tonnage set aside, assessments and service payments.

Paragraph A3 of § 989.201 regarding moisture requirements for Thompson Seedless raisins contains a reference to § 989.202. An action published in the FEDERAL REGISTER (38 FR 13476) on May 22, 1973, deleted § 989.202. This deletion obviates the need for paragraph A3 of § 989.201, because such moisture requirements are also contained in paragraph A3 of § 989.97 Exhibit B. Hence, in addition to removing provisions regarding the weight dockage system, it was proposed that paragraph A3 also be deleted from the revised § 989.201.

After consideration of all relevent matter presented, including that in the notice, the information and recomendation of the Committee, and other available information, the amendment of Subpart—Supplementary Orders Regulating Handling (7 CFR 989.201—989.229; 38 FR 13476, 20236) as hereinafter set forht is approved.

Therefore, said subpart is amended as follows:

1. Section 989.201 is revised to read as follows:

§ 989.201 Changes in minimum grade and condition standards for natural condition raisins.

Pursuant to § 989.58(b), the following changes are hereby issued relative to paragraph A2 of § 989.97 Exhibit B: *Minimum grade and condition standards for natural condition raisins:*

A. Thompson Seedless raisins.

* * * * *

2.a. Shall have a normal characteristic color, flavor, and odor of properly prepared raisins.

b. Shall contain not more than 8 percent, by weight, of substandard raisins (raisins that show development less than that characteristic of raisins prepared from fairly well-matured grapes).

2. A new § 989.210 is added, reading as follows:

§ 989.210 Handling of natural Thompson Seedless raisins acquired pursuant to a weight dockage system.

(a) *General.* Subject to prior agreement between handler and tendered, a handler may acquire as standard raisins any lot of natural Thompson Seedless raisins containing more than 8 percent, by weight, of substandard raisins under a weight dockage system. The creditable weight of such lot acquired shall be that obtained by multiplying the net weight of the raisins in the lot by the applicable dockage factor from the dockage table prescribed in paragraph (g) of this section.

(b) *Free and reserve tonnage percentages.* Whenever free and reserve percentages are designated for natural Thompson Seedless raisins for a crop year, such percentages shall be applicable to the creditable weight of any lot of such raisins acquired by a handler pursuant to a weight dockage system.

(c) *Reserve tonnage.* A handler may hold as reserve tonnage raisins any lot, or portion thereof, of natural Thompson Seedless raisins acquired pursuant to a weight dockage system: *Provided,* That only the creditable weight of such lot, or portion thereof, may be applied by the Committee against the handler's reserve tonnage obligation.

(d) *Assessments.* Assessments on any lot of natural Thompson Seedless raisins acquired by a handler pursuant to a weight dockage system shall be applicable to the free tonnage portion of the creditable weight of such lot.

(e) *Payments for services on reserve tonnage.* Payment to a handler for services performed by him with respect to reserve tonnage natural Thompson Seedless raisins acquired pursuant to a weight dockage system shall be made on the basis of the creditable weight of such lot and at the applicable rate specified for such services in § 989.401 of Subpart—Schedule of Payments.

(f) *Identification.* Any lot of natural Thompson Seedless raisins acquired by a handler pursuant to a weight dockage system shall be so identified by the inspection service by affixing to one container on each pallet, or to each bin, in such lot, a prenumbered PAC control card (to be furnished by the Committee) which shall remain affixed to the container or bin until the raisins are processed or disposed of as natural condition raisins. The control card shall only be removed by, or under the supervision of, an inspector of the inspection service or authorized Committee personnel.

(g) *Dockage table.*

% Substandard	Dockage Factor
8.0 or less	No dockage
8.1–8.5	.995
8.6–9.0	.990
9.1–9.5	.985
9.6–10.0	.980
10.1–10.5	.975
10.6–11.0	.970
11.1–11.5	.965
11.6–12.0	.960
12.1–12.5	.955
12.6–13.0	.950
13.1–13.5	.945
13.6–14.0	.940
14.1–14.5	.935
14.6–15.0	.930
15.1–15.5	.925
15.6–16.0	.920
16.1–16.5	.915
16.6–17.0	.910
17.1–17.5	.905
17.6–18.0	.900
18.1–18.5	.895
18.6–19.0	.890
19.1–19.5	.885
19.6–20.0	.880
20.1–20.5	.875
20.6–21.0	.870
21.1–21.5	.865
21.6–22.0	.860

NOTE: Percentages in excess of 22 percent shall be expressed in the same increments as the foregoing, and the dockage factor for each such increment shall be .005 less than the dockage factor for the preceding increment.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated August 3, 1973, to become effective September 15, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73–16403 Filed 8–7–73;8:45 am]

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER B—FEDERAL HOME LOAN BANK SYSTEM

[No. 73–1071]

PART 523—MEMBERS OF BANKS

Liquidity Requirements

AUGUST 1, 1973.

The Federal Home Loan Bank Board considers it desirable to amend § 523.11 of the Regulations for the Federal Home Loan Bank System (12 CFR 523.11) for the purposes of reducing the overall liquidity requirement of each Federal Home Loan Bank member from 6½ percent of its liquidity base and of reducing each member's short-term liquidity requirement from 2½ percent to 1½ percent of such base. Accordingly, the Federal Home Loan Bank Board hereby amends said § 523.11 by revising paragraph (a) thereof, to read as follows, effective August 8, 1973:

§ 523.11 Liquidity requirements.

(a) *General.* For each calendar month, each member, other than a mutual savings bank as to which there is in effect the election provided for in paragraph (e) of this section, shall maintain an average daily balance of liquid assets in an amount not less than 5½ percent of the average daily balance of the member's liquidity base during the preceding calendar month, except as otherwise provided in paragraphs (b) and (d) of this section. For each calendar month, each member, other than a mutual savings bank or an insurance company, shall maintain an average daily balance of short-term liquid assets in an amount not less than 1½ percent of the average daily balance of the member's liquidity base during the preceding calendar month, except as otherwise provided in paragraphs (b) and (d) of this section.

* * * * *

Since affording notice and public procedure on the above amendment would delay it from becoming effective for a period of time and since the Board determines that in view of current economic conditions such amendment should become effective so that both the reduced overall liquidity requirement of 5½ percent and the reduced short-term liquidity requirement of ½ percent shall apply beginning with the month of August, 1973, the Board hereby finds that notice and public procedure thereon are contrary to the public interest under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and, for the same reason, the Board hereby finds that the provision regarding the publication of such amendment for the minimum 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date thereof shall not apply to the above amendment; and the Board hereby provides that such amendment shall become effective as hereinbefore set forth.

(Sec. 5A, 47 Stat. 727, as added by sec. 1, 64 Stat. 256, as amended, sec. 17, 47 Stat. 736, as amended; 12 U.S.C. 1425a, 1437. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR 1943–48, Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] HENRY A. CARRINGTON,
Secretary.

[FR Doc. 73–16399 Filed 8–7–73;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 73–SO–53; Amdt. 39–1699]

PART 39—AIRWORTHINESS DIRECTIVES

Pitts Model S–2A Series Airplanes

There have been cracks of the alternate air box flapper doors on the Pitts S–2A airplanes that could result in substantial power loss. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require the installation of a stiffener on the alternate air box flapper door on S–2A airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure

V 38-152 AUG 8 73 XUM

hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator 31 FR 13697, § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

PITTS: Applies to S-2A airplanes; Serial Numbers 2001 through 2059 certificated in all categories.

Compliance required as indicated.

To prevent the possibility of a power loss due to the failure of the induction air box flapper door, accomplish the following:

(a) Within the next 50 hours time in service after the effective date of this airworthiness directive, unless already accomplished, install stiffener, Pitts Part Number 2-7112-16, to the induction air box flapper door assembly, Pitts Part Number 2-7112-7, in accordance with Pitts Service Letter No. 2. Access to the induction air box flapper door assembly may be gained by removing the lower engine cowl.

(b) Until the modification specified in paragraph (a) above has been accomplished, visually check the induction air box flapper assembly, Pitts Part Number 2-7112-7, for cracks in the welded areas upon the accumulation of 50 hours time in service or within 5 hours time in service, whichever is later, and thereafter at intervals not to exceed 5 hours time in service from the last check. The checks required by this AD may be performed by the pilot.

If the flapper door in the area of the weld is found to be cracked, removed the flapper door assembly from the alternate air box, and add stiffener, Pitts Part Number 2-7112-16 in accordance with Pitts Service Letter No. 2, before further flight.

(c) The installation of the stiffener, Pitts Part Number 2-7112-16, in accordance with Pitts Service Letter No. 2, will eliminate the necessity for the repetitive inspections required in paragraph (b).

Pitts Service Letter No. 2, dated June 26, 1973, pertains to this subject.

This amendment becomes effective August 13, 1973.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, and 1423 sec. 6(c); Department of Transportation Act; 49 U.S.C. 1655(c)).

Issued in East Point Ga. on July 26, 1973.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.73-16313 Filed 8-7-73;8:45 am]

[Airspace Docket No. 73-EA-41]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On page 15524 of the FEDERAL REGISTER for June 13, 1973, the Federal Aviation Administration published proposed regulations which would alter the Baltimore, Md., Control Zone (38 FR 356) and Transition Area (38 FR 444).

Interested persons were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulations are hereby adopted, effective 0901 G.m.t. October 11, 1973.

(Sec. 307(a) of the Federal Aviation Act of 1958; 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c); Department of Transportation Act, 49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on July 24, 1973.

L. J. CARDINALI,
Acting Director, Eastern Region.

1. Amend § 71.171 of part 71 of the Federal Aviation Regulations by deleting the description of the Baltimore, Md., control zone and by substituting the following in lieu thereof:

Within a 5-mile radius of the center 39°10'26" N., 76°40'12" W., of Friendship International Airport, Baltimore, Md.; within a 5.5-mile radius of the center of the airport, extending clockwise from a 200° bearing to a 304° bearing from the airport; within a 6-mile radius of the center of the airport, extending clockwise from a 304° bearing to a 125° bearing from the airport; within 3.5 miles each side of the Friendship International Airport ILS localizer west course, extending from the 5-mile radius to 9 miles west of the localizer; within 3.5 miles each side of the centerline of Friendship International Airport runway 10, extended to 8.5 miles east of the end of the runway; within 2 miles each side of the Friendship International Airport ILS localizer southeast course, extending from the localizer to 4.5 miles southeast of the localizer; within 2 miles each side of the Baltimore VORTAC 314° radial, extending from the VORTAC to 10.5 miles northwest of the VORTAC.

2. Amend § 71.181 of part 71 of the Federal Aviation Regulations by deleting the description of the Baltimore, Md., transition area and by substituting the following in lieu thereof:

That airspace extending upward from 700 ft above the surface within a 9-mile radius of the center, 39°10'26" N., 76°40'12" W., of Friendship International Airport, Baltimore, Md.; within a 15-mile radius arc of the Baltimore VORTAC extending clockwise from the Baltimore VORTAC 230° radial to the 342° radial; within 3.5 miles each side of the centerline of Friendship International Airport runway 10, extended to 8.5 miles each of the end of the runway; within 4.5 miles north and 6.5 miles south of the Friendship International Airport ILS localizer west course, extending from the OM to 11.5 miles west of the OM; within an 8.5-mile radius of the center 39°19'45" N., 76°25'00" W., of Martin Marietta Airport, Baltimore, Md., within an 18-mile radius of the center of Martin Marietta Airport, extending clockwise from a 241° bearing to a 335° bearing from the airport; within a 12.5-mile radius of the center of Martin Marietta Airport, extending clockwise from a 335° bearing to a 013° bearing from the airport; within an 11-mile radius of the center of Martin Marietta Airport, extending clockwise from a 013° bearing to a 027° bearing from the airport; within a 9-mile radius of the center of Martin Marietta Airport, extending clockwise from a 027° bearing to a 053° bearing from the airport; within 3.5 miles each side of the 132° bearing from the Martin RBN 39°18'15" N., 76°22'45" W., extending from the 8.5-mile radius area to 11.5 miles southeast of the RBN; within a 6.5-mile radius of the center 39°05'04" N., 76°45'37" W., of Tipton AAF, Fort Meade, Md., and within 3 miles each side of the 091° bearing from the Fort Meade, Md. RBN, 39°05'04" N., 76°45'37" W., extending from the 6.5-mile radius area to 8.5 miles east of the RBN.

[FR Doc.73-16322 Filed 8-7-73;8:45 am]

[Airspace Docket No. 73-EA-69]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The Federal Aviation Administration is amending § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the Jamestown, N.Y., Control Zone (38 FR 389).

Changes in the hours of weather observation and reporting services required to support the control zone designation require a revision of the times of control zone designation.

Since the amendment is less restrictive in nature, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In view of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective August 8, 1973, as follows:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to amend the description of the Jamestown, N.Y. control zone by deleting the last sentence and by substituting the following in lieu thereof:

This control zone is effective 0900 to 2000 hours Sunday through Friday, Saturdays 1000 to 2000 hours, local time.

(Sec. 307(a) of the Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c) of the Department of Transportation Act, 49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on July 24, 1973.

L. J. CARDINALI,
Acting Director, Eastern Region.

[FR Doc.73-16318 Filed 8-7-73;8:45 am]

[Airspace Docket No. 73-GL-33]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to amend the Lafayette, Indiana, control zone.

The Lafayette, Indiana FSS will be decommissioned on September 1, 1973. A new part-time control tower will be commissioned in August 1973. The communication and weather reporting service required for the Lafayette control zone will be transferred from the FSS to the tower. As the tower will not operate continuously, the control zone will have to be changed to conform to the tower hours of operation. As the control zone will be less restrictive than at present, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective on publication in the FEDERAL REGISTER, as hereinafter set forth:

In § 71.171 (38 FR 351), the following control zone is amended to read:

LAFAYETTE, IND.

Within a 5 mile radius of Purdue University Airport (latitude 40°24'45"N., longitude 86°56'06"W.). This control zone will be effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

(Sec. 307(a) of the Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c) of the Department of Transportation Act, 49 U.S.C. 1655 (c)).

Issued in Des Plaines, Illinois, on July 19, 1973.

LYLE K. BROWN,
Director, Great Lakes Region.

[FR Doc.73-16317 Filed 8-7-73;8:45 am]

[Airspace Docket No. 73-EA-70]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The Federal Aviation Administration is amending § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the Morristown, N.J., Control Zone (38 FR 403).

Beginning September 2, 1973, the control tower at Morristown Municipal Airport, Morristown, N.J., will be operated from 0630 to 2230 hours, local time, daily. Accordingly, the Morristown, N.J. control zone, predicated upon the operations of the control tower, must be amended so as to coincide with the new hours of control tower operation.

Since this amendment is minor in nature and imposes no burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In view of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 GMT September 2, 1973, as follows:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations by deleting the last sentence in the description of the Morristown, N.J. control zone and by substituting the following in lieu thereof:

This control zone is effective from 0630 to 2230 hours, local time, daily.

(Sec. 407(a) of the Federal Aviation Act of 1958; 72 Stat. 1348; sec. 6(c) of the Department of Transportation Act, 49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on July 26, 1973.

L. J. CARDINALI,
Acting Director, Eastern Region.

[FR Doc.73-16321 Filed 8-7-73;8:45 am]

[Airspace Docket No. 73-CE-6]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On page 15082 of the FEDERAL REGISTER dated June 8, 1973, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Forest City, Iowa.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., October 11, 1973.

(Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348; sec. 6(c); Department of Transportation Act 49 U.S.C. 1655(c)).

Issued in Kansas City, Missouri, on July 20, 1973.

JOHN R. WALLS,
Acting Director, Central Region.

In § 71.181 (38 FR 435), the following transition area is added:

FOREST CITY, IOWA

That airspace extending upward from 700 ft. above the surface within a 5-mile radius of the Forest City Municipal Airport (lat. 43°14'00" N., long. 93°38'00" W.); and that airspace extending 1,200 ft. above the surface within a 35-mile radius of the Mason City VORTAC, from the 266° radial clockwise to the 316° radial, excluding that portion which overlies the Mason City and V120 transition areas.

[FR Doc.73-16315 Filed 8-7-73;8:45 am]

[Airspace Docket No. 73-GL-25]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 14865 of the FEDERAL REGISTER dated June 6, 1973, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at Jefferson, Ohio.

Interested persons were given until July 6, 1973 to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective October 11, 1973.

(Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348; sec. 6(c); Department of Transportation Act 49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois, on July 18, 1973.

LYLE K. BROWN,
Director, Great Lakes Region.

In § 71.181 (38 FR 435), the following transition area is amended to read:

JEFFERSON, OHIO

That airspace extending upward from 700 feet above the surface within an 8-mile radius of the Ashtabula County Airport, Ashtabula, Ohio (lat. 41°46'40" N., long. 80°41'45" W.) and within 3.5 miles each side of the Jefferson VORTAC 243° radial extending from the 8-mile radius area to 11.5 miles southwest of the VORTAC.

[FR Doc.73-16316 Filed 8-7-73;8:45 am]

[Airspace Docket No. 73-CE-7]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 14694 of the FEDERAL REGISTER dated June 4, 1973, the Federal Aviation Administration published a Notice of proposed rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at North Platte, Nebraska.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., October 11, 1973.

(Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348; Sec. 6(c); Department of Transportation Act 49 U.S.C. 1655(c)).

Issued in Kansas City, Missouri, on July 20, 1973.

JOHN R. WALLS,
Acting Director, Central Region.

V 38-152 AUG 8 73 XUM

In § 71.181 (38 FR 435), the following transition area is amended to read:

NORTH PLATTE, NEBR.

That airspace extending upward from 700 ft above the surface within a 10-mile radius of Lee Bird Field (lat. 41°07'42" N., long. 101°41'47" W.); and within 2 miles each side of the North Platte VOR 209° radial, extending from the 10-mile-radius area to 8 miles southwest of the VOR; and within 5 miles each side of the 301° bearing from Lee Bird Field, extending from the 10-mile-radius area to 11.5 miles northwest of the airport, and that airspace extending upward from 1,200 ft above the surface within a 25-mile radius of the North Platte VOR.

[FR Doc.73-16314 Filed 8-7-73;8:45 am]

[Airspace Docket No. 73-EA-40]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Transition Area

On page 15524 of the FEDERAL REGISTER for June 13, 1973, the Federal Aviation Administration published a proposed rule which would alter the Princeton, N.J., Transition Area (38 FR 562).

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulation have been received.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 GMT October 11, 1973.

(Sec. 307(a) of the Federal Aviation Act of 1958; 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c) of the Department of Transportation Act, 49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on July 23, 1973.

L. J. CARDINALI,
Acting Director, Eastern Region.

1. Amend § 71.181 of part 71 of the Federal Aviation Regulations by deleting the description of the Princeton, N.J. transition area and by substituting the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the center 40°23'54" N., 74°39'31" W., of Princeton Airport, Princeton, N.J.; within a 6-mile radius of the center of the airport, extending clockwise from a 074° bearing to a 120° bearing from the airport; within a 5.5-mile radius of the center of the airport, extending clockwise from a 191° bearing to a 225° bearing from the airport; within a 7-mile radius of the center of the airport, extending clockwise from a 225° bearing to a 268° bearing from the airport; within a 7.5-mile radius of the center of the airport, extending clockwise from a 268° bearing to a 310° bearing from the airport; within a 7-mile radius of the center of the airport, extending clockwise from 310° bearing to a 357° bearing from the airport; and within 3.5 miles each side of the Solberg, N.J. VOR 161° radial, extending from the 5-mile radius area to the VOR, excluding the portions which coincide with the Readington, N.J., New York, N.Y., and North Philadelphia, Pa. transition areas.

[FR Doc.73-16320 Filed 8-7-73;8:45 am]

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-814]

PART 239—REPORTING DATA PERTAINING TO FREIGHT LOSS AND DAMAGE CLAIMS BY CERTAIN AIR CARRIERS AND FOREIGN ROUTE AIR CARRIERS

Miscellaneous Amendments

Adopted by the Civil Aeronautics Board at its office in Washington, D.C.

By ER-725, adopted March 15, 1972, the Board enacted a new Part 239, establishing a system for the reporting of freight loss and damage claims by certain air carriers and foreign route air carriers. The system was designed to enable the Board and any other governmental agencies, as well as interested members of the public, to be informed of current trends and problems relating to air freight loss and damage, and also to provide data which would be available to the Board in taking such future remedial action as would be appropriate.

Subsequently, various certificated route air carriers, through Air Transport Association (ATA), filed a petition for rule making to amend the part, to modify certain definitions and classifications. The Flying Tiger Line Inc. filed an answer to the petition.

Thereafter, by EDR-234, dated September 29, 1972, the Board proposed to amend Part 239: 1) to redefine the terms "shortage," "delay," and "pilferage"; 2) to define a new reporting category, "Theft or other shortage," in lieu of "theft"; and 3) to reclassify the columnar headings in Schedule A by including under the heading "shortage" the subheadings "robbery," "pilferage," and "theft or other shortage," and by deleting the heading "theft" presently contained in Schedule A. EDR-234 also proposed to modify Schedule B, so as to reflect the redefinitions, by changing the title of the Schedule and modifying its principal classification and subclassifications.

Comments have been submitted with respect to EDR-234 by the ATA, on behalf of 22 of its members[1] and a nonmember, Airlift International; and additional comments were filed by Trans World Airlines, Inc. (TWA).

[1] Alaska Airlines, Inc.; Allegheny Airlines, Inc.; American Airlines, Inc.; Braniff Airways, Inc.; Continental Air Lines, Inc.; Delta Air Lines, Inc.; Eastern Airlines, Inc.; Frontier Airlines, Inc.; Hawaiian Airlines, Inc.; Hughes Airwest; National Airlines, Inc.; North Central Airlines, Inc.; Northwest Airlines, Inc.; Ozark Air Lines, Inc.; Pan American World Airways, Inc.; Piedmont Aviation, Inc.; Southern Airways, Inc.; Texas International Airlines, Inc.; Trans World Airlines, Inc.; United Air Lines, Inc.; Western Air Lines, Inc.; and Wien Consolidated Airlines, Inc.

Upon full consideration of the relevant matter contained in the comments and other data, we have decided to adopt the amendments substantially as proposed, but with certain modifications. Except as modified herein, the tentative findings set forth in the Explanatory Statement to the proposed rule are incorporated by reference and made final.

The following are the most significant modifications to the amendment, as it was proposed: (1) The separate reporting of data with respect to "theft" and "other shortage," instead of combining them under one category "theft or other shortage," as proposed; (2) all claims based upon delay shall be reported under the category "delay," whereas EDR-234 proposed to require that, where a claim involves both delay and physical damage, it should be reported under whichever category ("damage" or "delay") contributes most to the settlement of the claim; and (3) the inclusion of a new column in Schedule B which will provide the month of shipment of the cargo with respect to which claim is reported. These and other matters will be discussed below.

DEFINITION OF "OTHER SHORTAGE"

As pointed out above, EDR-234 proposed to redefine the term "shortage" so as to encompass all failure to deliver, and to employ the following subclassifications of such term: (1) "Robbery"; (2) "pilferage"; and (3) "theft or other shortage." The ATA comment objects to combining "theft" with "other shortage," urging that the Board should specifically provide a reporting subclassification for shortages which probably result from non-criminal causes and retain the present separate reporting of "shortage" items. Otherwise, it is maintained, the date reported under the proposed category of "theft or other shortage" could lead to unwarranted inferences as to the extent of thefts within the airline industry. TWA concurs in this position.

We have determined to adopt the above-described suggestion. One of the principal purposes of the reporting requirements is to determine the extent and nature of loss from criminal activities, so that the Board and other interested parties may be better advised with respect to what corrective measures, if any, should be taken. We therefore shall require that, in Schedule A, "theft" shall be reported separately from those "shortages" which result from non-criminal causes, by providing separate columns for "theft" and "other shortage," the latter term to be defined as "the disappearance of cargo for reasons other than pilferage, robbery, or theft.[2]" Since every reported shortage would be entered under one of the four proposed subclassifications (each of which is defined), there is no need to define the term "shortage," which definition will therefore be deleted.

[2] These same columnar headings shall also be used in revised Schedule B, attached hereto.

DEFINITION OF "THEFT"

"Theft" is defined in Part 239 as "all known stealing, without use of force or threat of force, of any whole shipping unit or units of freight (not necessarily a complete shipment)." The proposed definition "theft or other shortage" in EDR-234 was, in part, intended to satisfy the objection of the ATA carriers to the present definition of that term, namely, that "all known stealing" would require the "culprit" to be apprehended, tried and convicted before the applicable claims-paid data could be classified as theft.[3] The ATA comment also objected to the revised definition proposed in EDR-234, and requested that the Board define "theft" as "the disappearance of any whole unit of air cargo (not necessarily a complete shipment) or units from the custody of airlines' terminal or station when it is known that freight was in their custody." For the reasons stated above, we have now decided to provide a separate classification for "theft," which entails a separate definition of the term. However, we will not retain the existing definition, in view of ATA's comments, nor will we adopt ATA's suggested definition, which is so broad as to include a disappearance brought about by non-criminal means. Instead, we are adopting a definition which will cover any disappearance where the "probable cause was stealing." Although this definition cannot be applied with complete precision, we believe that on balance it is preferable to the present definition in Part 239, and that it will produce more reliable statistics than those already received.

DEFINITION OF "PILFERAGE"

EDR-234 proposed to define "pilferage" as "the known loss of a partial air freight shipment through observable damage to the shipping container." Although the comments do not object to this proposed definition, we shall modify it to remedy a technical defect. Taken literally, the above definition would not include as pilferage those instances where the shipping container was broken into, but not damaged, in the course of criminal action. Therefore, we shall now define this term as "the known loss of all or part of the contents of a shipment (but not the entire shipping container) under circumstances indicating that the probable cause was stealing, without use of force or threat of force against a person or persons, and where the shipping container was broken into, when it is known that such freight was in the carrier's custody." [4]

DEFINITION OF "DELAY"

EDR-234 proposed to redefine "delay" so as to exclude "deterioration or physical damage to the property," and a proposed not thereto would have pointed out that claims involving both delay and physical damage would be reported under whichever category ("damage" or "delay") contributed most to the settlement of the claim. The ATA comment objects to this proposal and maintains that any claim payment made as a result of delay should be reported under that category, regardless of whether the lack of timely movement caused deterioration or other forms of physical damage. As reflected in this amendment, we have determined to accept ATA's suggestion.

MISCELLANEOUS TECHNICAL AMENDMENTS

1. We are deleting column (21), entitled "revenue," from Schedule A. The effectiveness of § 239.6(k), which set forth the requirement to report data under column (21) of existing Schedule A, has been stayed by ER-746, adopted June 26, 1972, for the reasons set forth therein, and the deletion will thus make this change permanent.[5]

2. We are also adding a column (column (7)) to Schedule B, Analysis of Shortage, to require a two-digit code (01–12) to be used in reporting month of shipment of air cargo reported to be lost or damaged. This new item will assist in establishing patterns and trends over periods of time in the analysis and evaluation of air cargo loss data. The month of shipment is readily available on the air waybill and supporting documents now used by the industry to derive the other data currently required to be reported on this schedule.

NOTE ON ADP FORMAT

In the preamble to ER-771 (amendment No. 2 to Part 239) the Board announced, with respect to the submission of Form 239 data which have been prepared on automatic data processing (ADP) equipment, that it had no objection to the carriers' submission of freight-claim data in an ADP format so long as the carriers use the same columnar headings and the same order of arrangements in the ADP data as those set forth in the prescribed Form 239. After reviewing the attempts of a few carriers to "computer-generate" these schedules, our staff has found that it has not been possible to duplicate adequately the formats of the schedules of the part. Furthermore, the computer-generated schedules received to date have proved difficult to file and are generally inferior to the hard copy. Therefore, we are revoking the option for ADP-generated formats and we shall henceforth require that all respondents report directly on the schedules prescribed by Form 239. Since, in most cases, the number of entries on these schedules is relatively few, we believe that their required use, although it entails a manual typing of the reported data, will not impose a substantial burden on any carrier.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 239 (14 CFR Part 239) effective October 1, 1973, as follows:

1. Amend the table of contents of Part 239 to read in part as follows:

239.7 Schedule B—Analysis of shortage.

2. Amend § 239.1 by deleting the definition of "Shortage," and by otherwise modifying the section to read in part as follows:

§ 239.1 Definitions.

As used in this part, unless the context otherwise requires—

* * * * * * *

"Delay" means the lack of timely movement which results in monetary loss to the shipper. It includes, but is not limited to, consequential or special damages and/or physical deterioration or damage to the goods which results from delay.

* * * * * * *

"Other" means * * *

"Other shortage" is the disappearance of cargo for reasons other than pilferage, robbery or theft, as herein defined.

"Pilferage" is the known loss of all or part of the contents of a shipment (but not the entire shipping container) under circumstances indicating that the probable cause was stealing, without use of force or threat of force against a person or persons, and where the shipping container was broken into, when it is known that such freight was in the carrier's custody.

"Robbery" means all stealing, including hijacking, with use of force or threat of force against a person or persons.

"Theft" is the disappearance, without use of force or threat of force against a person or persons, of any whole shipping unit or units of cargo (not necessarily a complete shipment) under circumstances indicating that the probable cause was stealing, when it is known that such freight was in the carrier's custody.

* * * * * * *

3. Amend the table in § 239.2(b) to read in part as follows:

[3] EDR-234, p. 6.

[4] In view of our redefinitions of "theft" and "pilferage," we are also amending the definition of "robbery" so as to refer to the use of force, or threat of force, "against a person or persons."

[5] We shall make other minor changes in Schedule A. The Schedule A form supplied to the carriers listed all 52 commodity codes and descriptions and requires 6 pages for this schedule. It has been found that many carriers report claims for only a small percentage of the commodity codes and descriptions preprinted in columns 1 and 2. Accordingly, we shall remove these preprinted codes and descriptions from the form so that, instead, the carriers will insert only their reportable codes and descriptions as prescribed in Appendix A to Regulation ER-725 (enactment of the Part). This change will decrease considerably the number of sheets of Schedule A submitted to the Board and relieve the Board's Data Processing Division of the need of handling unnecessary paper in processing the data required for the Board's published reports on airfreight loss and damage claims.

Also, present column (18) entitled "Actual Shipper Loss" will become column (20) on Schedule A as revised herein.

V 38 N 152 AUG 8 73
XUM

§ 239.2 Applicability of part and CAB Form 239 filing requirements.

• • • • • •

(b) • • •

Filing frequency

• • • • •

(3) Schedule B—Analysis of shortage Quarterly.

• • • • •

4. Amend § 239.6 by revising paragraph (i), (j), (l) and by reserving paragraph (k) to read as follows:

§ 239.6 Schedule A—Report of freight loss and damage claims paid.

• • • • •

(i) Columns (18) and (19)—For each line listed in column (3), show in column (18) the total number of claims paid reported in columns (4), (6), (8), (10), (12), (14) and (16), and in column (19) show the total whole-dollar amounts reported in columns (5), (7), (9), (11), (13), (15), and (17).

(j) Column (20)—For each commodity reported in column (2), show the whole-dollar amounts of the actual losses incurred by the shipper.

(k) [Reserved]

(l) Following the last entry made on this schedule, show the grand totals for each of columns (4) through (20). Also, immediately below the grand totals, insert data for the two lines reading: "Claims presented to direct air carrier by forwarder(s)" and "Claims presented by other than forwarders." The second of these two lines will apply only to a report of a direct air carrier. Complete columns (4) through (20) for each of these lines, as applicable.

5. Revise the title and paragraphs (c) through (e) of § 239.7, and add a new paragraph (f). As amended, § 239.7 will read in part as follows:

§ 239.7 Schedule B—Analysis of shortage.

• • • • •

(c) Columns (1) and (2)—List individually by commodity each claim payment during the reporting period in the amount of $100 or more as the result of shortage. Use the commodity code numbers provided in Appendix A, but the commodity descriptions inserted should be the actual descriptions shown on the airbill or airwaybill.

(d) Columns (3), (4), (5) and (6)—For each claim reported in column (2), show the dollar amounts borne by the reporting carrier which are attributable to "Pilferage," "Robbery," "Theft," and "Other Shortage," repectively.

(e) Column (7)—Identify the airport where the shortage occurred using the three-letter airport codes shown in the Official Airline Guide. If the airport is not known, allocate claim amount in same proportion as used to allocate to other airports involved in the transportation of the shipment. For example, if Los Angeles and Philadelphia alone were involved, a single commodity entry would show 50 percent of the claim against each—

$---------- LAX. $---------- PHL.

(f) Column (8)—Show by means of a two-digit code (01–12) the month of shipment of the air cargo covered by the report.

6. Amend Schedules A and B of CAB Form 239 in the form attached to this amendment.[1]

(Secs. 204(a), 402 and 407 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 757, 766; 49 U.S.C. 1324, 1372 and 1377.)

By the Civil Aeronautics Board.

Adopted: July 23, 1973.

Effective: October 1, 1973.

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

NOTE: The reporting requirements herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket C-2416]

PART 13—PROHIBITED TRADE PRACTICES

Armco Steel Corp.; Correction

In FR Doc. 73-15537, appearing at page 20229 for the issue of Monday, July 30, 1973, the following order to cease and desist should be inserted after the order in Docket No. C-2415:

I. *It is ordered,* That respondent Armco Steel Corporation ("Armco"), a corporation, shall not permit on its board of directors any person who is at the same time a director of Aluminum Company of America.

II. *It is further ordered,* That respondent Armco shall obtain from each Armco director an annual statement showing the name, location, and business of each other corporation having capital, surplus and undivided profits in excess of $1,000,000 of which such Armco director is also a director.

III. *It is further ordered,* That respondent Armco notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, or any other change in the corporation which may affect compliance obligations arising out of this Order.

IV. *It is further ordered,* That respondent Armco shall within 30 days after service upon it of this Order file with the Commission a report, in writing, setting forth the manner and form in which it intends to comply with this order.

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE; DEPARTMENT OF THE TREASURY

[T.D. 73-212]

PART 133—TRADEMARKS, TRADE NAMES, AND COPYRIGHTS

Countries Party to Universal Copyright Convention

JULY 31, 1973.

Paragraph (c) of § 133.31 of the Customs Regulations (19 CFR 133.31(c)), lists the countries which are party to the Universal Copyright Convention. The Universal Copyright Convention is a multilateral international treaty to which the United States is party. Under the treaty each country grants to each member country copyright rights which are identical to the rights it grants its own citizens. The Register of Copyrights, Copyright Office, Library of Congress, has advised the Commissioner of Customs that, on October 10, 1970, Fiji, on January 23, 1971, Hungary, on March 12, 1968, Mauritius, on May 8, 1972, Morocco, and on May 27, 1973, Union of Soviet Socialist Republics, became parties to the Universal Copyright Convention.

Accordingly, paragraph (c) of section 133.31, Customs Regulations, is amended by the insertion of "Fiji," "Hungary," "Mauritius," "Morocco," and "Union of Soviet Socialist Republics," in the appropriate alphabetical sequence in the list of nations who are party to the Universal Copyright Convention.

(R.S. 251, as amended, sec. 624, 46 Stat. 759; 17 U.S.C. 9, 109, 19 U.S.C. 66, 1624)

Because this amendment merely sets forth the names of countries which have become members of the Universal Copyright Convention, notice and public procedure thereon is found to be unnecessary, and good cause exists for dispensing with a delayed effective date, under the provisions of 5 U.S.C. 553.

Effective date. This amendment is effective on August 8, 1973.

[SEAL] VERNON D. ACREE, *Commissioner of Customs.*

Approved: July 31, 1973.

EDWARD L. MORGAN, *Assistant Secretary of the Treasury.*

SUBCHAPTER C—DRUGS

PART 141—TESTS AND METHODS OF ASSAY OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 150g—MINOCYCLINE HYDROCHLORIDE

Sterile Minocycline Hydrochloride

The Commissioner has evaluated data submitted in accordance with regulations promulgated under section 507 of the Federal Food, Drug, and Cosmetic Act, with respect to approval of the antibiotic drug sterile minocycline hydrochloride.

He concludes that data supplied by the manufacturer concerning the subject antibiotic drug is adequate to establish its safety and efficacy when used as directed in the labeling and that the regulations should be amended to provide for the certification of this drug.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 141 and 150g (21 CFR 141 and 150g) are amended as follows:

1. Part 141 is amended:

a. In § 141.7(c) by alphabetically inserting a new item in the table, as follows:

§ 141.7 Histamine test.

• • • • • •

(c) • • •

Antibiotic	Diluent (diluent number as listed in § 141.3(b))	Concentration of test solution (milligrams of activity per milliliter)	Volume of test solution to be injected (milliliters per kilogram of body weight)
• • •	• • •	• • •	• • •
Minocycline hydrochloride.	4	5.0	0.6
• • •	• • •	• • •	• • •

b. In § 141.502 by adding a new paragraph (d)(4) and revising (e)(3)(i) and (ii), as follows:

§ 141.502 Moisture determination.

• • • • • •

(d) • • •

(4) *Hygroscopic powders.* Weigh the immediate container. Using a suitable dry hypodermic needle and syringe, inject 3 milliliters of anhydrous methanol into the container and shake to dissolve the contents. Using the same syringe, remove the withdrawable contents and transfer into the titration vessel. Rinse the syringe and needle by drawing in an additional 3 milliliters of anhydrous methanol. Add the rinsings to the titration vessel. Titrate the solution immediately, proceeding as directed in paragraph (e)(3) of this section. Determine the Karl Fisher equivalent (in milliliters), if any, of the anhydrous methanol by titrating a blank of the same total volume used in preparing the sample and rinsing the syringe and needle. Dry the immediate container and its closure for three hours at 100° C., cool to room temperature in a desiccator, and weigh. Determine the weight of sample tested by subtracting the weight obtained from the original weight of the immediate container.

(e) • • •

(3) • • •

(i) If titration procedure 1 is used:

$$\text{Percent moisture in weighed samples} = \frac{V_T \times \epsilon \times 100}{W_s},$$

$$\text{Percent moisture in aerosols} = \frac{V_T \times \epsilon}{\text{Milliliters of sample} \times 10},$$

$$\text{Percent moisture in hygroscopic powders} = \frac{(V_T - V_t) \times \epsilon \times 100}{W_s},$$

(ii) If titration procedure 2 is used:

V 38-152 AUG 8 73 XUM

Percent moisture in weighed samples

$$=\frac{(V_T-V_m f)\times e\times 100}{W_s},$$

Percent moisture in aerosols

$$=\frac{(V_T-V_m f)\times e}{\text{Milliliters of sample}\times 10},$$

Percent moisture in hygroscopic powders

$$=\frac{(V_T-V_m f-V_s)\times e\times 100}{W_s},$$

where:
V_T = Milliliters of Karl Fischer reagent used;
V_m = Milliliters of methanol solution used;
f = Milliliters of Karl Fischer reagent equivalent to each milliliter of methanol solution determined as directed in paragraph (e)(2) of this section;
V_s = Karl Fischer equivalent (in milliliters) of the methanol used as a sample solvent;
e = Water equivalence of the Karl Fischer reagent determined as directed in paragraph (e)(1) of this section.

• • • • •

2. Part 150 is amended by adding the following new section:

§ 150g.12 Sterile minocycline hydrochloride.

(a) *Requirements for certification—(1) Standards of identity, strength, quality, and purity.* Sterile minocycline hydrochloride is a lyophilized powder of minocycline hydrochloride. Its potency is satisfactory if it is not less than 90 percent and not more than 120 percent of the number of milligrams of minocycline that it is represented to contain. It is sterile. It is nonpyrogenic. It passes the safety test. It contains no histamine nor histamine-like substance. Its moisture content is not more than 3.0 percent. Its pH in an aqueous solution containing 10 milligrams per milliliter is not less than 2.0 and not more than 3.5. The minocycline hydrochloride used conforms to the standards prescribed by § 150g.1 (a) (1).

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 148.3 of this chapter.

(3) *Requests for certification: samples.* In addition to complying with the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(*a*) The minocycline hydrochloride used in making the batch for potency, moisture, pH, minocycline content, identity, and crystallinity.

(*b*) The batch for potency, sterility, pyrogens, safety, histamine, moisture, and pH.

(ii) Samples required:

(*a*) The minocycline hydrochloride used in making the batch: 10 packages, each containing approximately 300 milligrams.

(*b*) The batch:

(*1*) For all tests except sterility: A minimum of 10 immediate containers.

(*2*) For sterility testing: 20 immediate containers, collected at regular intervals throughout each filling operation.

(b) *Tests and methods of assay—(1) Potency.* Proceed as directed in § 141.111 of this chapter, preparing the sample for assay as follows: Reconstitute as directed in the labeling. Using a suitable hypodermic needle and syringe, remove the withdrawable contents from each container represented as a single-dose container; or if the labeling specifies the amount of potency in a given volume of the resultant preparation, withdraw an accurately measured representative portion from each container. Dilute the sample thus obtained with sufficient 0.1*N* hydrochloric acid to give a stock solution of convenient concentration not less than 150 micrograms of minocycline per milliliter (estimated). Further dilute the stock solution with 0.1*M* potassium phosphate buffer, pH 4.5 (solution 4), to the reference concentration of 0.100 microgram of minocycline per milliliter (estimated).

(2) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in paragraph (e)(1) of that section.

(3) *Pyrogens.* Proceed as directed in § 141.4(b) of this chapter, using a solution containing 5 milligrams per milliliter.

(4) *Safety.* Proceed as directed in § 141.5 of this chapter.

(5) *Histamine.* Proceed as directed in § 141.7 of this chapter.

(6) *Moisture.* Proceed as directed in § 141.502 of this chapter, using the sample preparation described in paragraph (d)(4) of that section.

(7) *pH.* Proceed as directed in § 141.503 of this chapter, using an aqueous solution containing 10 milligrams of minocycline per milliliter.

Since the conditions prerequisite to providing for certification of subject antibiotic have been complied with and since the matter is noncontroversial, notice and public procedure and delayed effective date are not prerequisites to this promulgation.

Effective date. This order shall be effective on August 8, 1973.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)

Dated: July 31, 1973.

MARY A. MCENIRY,
Assistant to the Director for Regulatory Affairs, Bureau of Drugs.

[FR Doc.73-16158 Filed 8-7-73;8:45 am]

PART 144—ANTIBIOTIC DRUGS; EXEMPTION FROM LABELING AND CERTIFICATION REQUIREMENTS

Nithiazide; Revocation

Based on the notice of withdrawal of approval of new animal drug applications (Docket No. FDC-D-630) appearing elsewhere in this issue of the FEDERAL REGISTER, the Commissioner of Food and Drugs concludes that the antibiotic regulation should be amended to revoke provisions for the use of Nithiazide in animal feeds if it is intended for use solely as an aid in stimulating growth in chickens and turkeys and as an aid in the prevention of outbreak of histomoniasis (blackhead) in chickens and turkeys and hexamitiasis in turkeys.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 507, 512, 59 Stat. 463, as amended, 82 Stat. 343-351; 21 U.S.C. 357, 360b) and under authority delegated to the Commissioner (21 CFR 2.120), Part 144 is amended, by revoking paragraph (b)(36) in § 144.26 *Animal feeds bearing or containing new animal drugs subject to the provisions of section 512(n) of the act.*

Any person who will be adversely affected by the foregoing order may at any time on or before September 7, 1973 file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order specify with particularity the provisions of the order deemed objectionable and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date: This order shall become effective August 8, 1973.

(Secs. 507, 512, 59 Stat. 463 as amended, 82 Stat. 343-351; 21 U.S.C. 357, 360b).

Dated: August 1, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Title 22—Foreign Relations

CHAPTER II—AGENCY FOR INTERNATIONAL DEVELOPMENT, DEPARTMENT OF STATE

[A.I.D. Reg. 14]

PART 214—ADVISORY COMMITTEE MANAGEMENT

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463) and Executive Order No. 11686 (October 7, 1972), the Administrator, Agency for International Development, has issued a new regulation which prescribes administrative guidelines and management controls for A.I.D. advisory committees.

The regulation prescribes procedures for the establishment, termination and renewal, operation and administration of advisory committees. It also assigns responsibilities to Agency officers with respect to the foregoing matters and sets forth procedures for administrative review of denials for public access to committee records and other complaints of alleged non-compliance with law or regulations relating to A.I.D. advisory committees.

The regulation was issued by the Administrator on July 19, 1973, to be effective as of July 20, 1973, and is published herewith.

Dated: July 31, 1973.

JAMES F. CAMPBELL,
Assistant Administrator for Program & Management Services.

Part 214 of Chapter II of Title 22 is added, to read as set forth below:

Subpart A—General

Sec.
214.1 Purpose.
214.2 Definition of advisory committee.
214.3 A.I.D. Advisory Committee Management Officer.

Subpart B—Establishment of Advisory Committees

214.11 Establishment and chartering requirements.
214.12 Responsibilities within A.I.D.
214.13 Charter revisions.

Subpart C—Termination and Renewal of Advisory Committees

214.21 Termination and renewal provisions.
214.22 Responsibilities within A.I.D.

Subpart D—Operation of Advisory Committees

214.31 A.I.D. advisory committee Representatives.
214.32 Calling of advisory committee meetings.
214.33 Notice of meetings.
214.34 Public participation.
214.35 Minutes of meetings.
214.36 Records of advisory committees.
214.37 Public access to committee records.
214.38 Annual report.
214.39 Submission of reports to the Library of Congress.

Subpart E—Administration of Advisory Committees

214.41 Support services.
214.42 Uniform pay guidelines.
214.43 Agency records.
214.44 Annual review and reports.

Subpart F—Administrative Remedies

214.51 Administrative review of denial for public access to records.
214.52 Administrative review of other alleged non-compliance.

AUTHORITY: Sec. 621 of the Foreign Assistance Act of 1961; as amended (22 U.S.C. 2381); sec. 8(a) of the Federal Advisory Committee Act, P.L. 92-463; and Executive Order 11686.

Subpart A—General

§ 214.1 Purpose.

The regulations in this part prescribe administrative guidelines and management controls for A.I.D. advisory committees. Federal Advisory Committees are governed by the provisions of the Federal Advisory Committee Act, P.L. 92-463 (effective January 5, 1973, hereinafter referred to as the Act); Executive Order No. 11686 (October 7, 1972) entitled "Committee Management;" OMB Circular A-63 (draft of December 30, 1972); and the related OMB Department of Justice Memorandum (draft of January 10, 1973).

§ 214.2 Definition of advisory committee.

(a) The term "advisory committee" is defined in section 3(2) of the Act and paragraph 4 of the draft OMB Justice Memorandum.

(b) In general, this definition includes any committee, board, commission, council, conference, panel, task force, or other similar group, or any subcommittee or sub-groups thereof, which is formed or utilized by the Agency for obtaining advice or recommendations, and which is not composed wholly of full-time Federal employees.

§ 214.3 A.I.D. Advisory Committee Management Officer.

The Advisory Committee Management Officer is responsible to the Administrator for the establishment of uniform administrative guidelines and management controls which must be consistent with directives of the Director of the OMB under sections 7 and 10 of the Act.

Subpart B—Establishment of Advisory Committees

§ 214.11 Establishment and chartering requirements.

Provisions governing the establishment and chartering of Advisory Committees are contained in section 9 of the Act and paragraph 8 of the draft OMB-Justice Memorandum. In summary, these requirements include the following:

(a) Where establishment of an Advisory Committee is not specifically authorized by statute or by the President, the need for a new A.I.D. advisory committee is determined by the A.I.D. Administrator, in accordance with the guidelines set forth in section 5(b) of the Act, as a matter for formal record, after consultation with the OMB Committee Management Secretariat.

(b) Each advisory committee established or used by A.I.D. is required to file a charter with the A.I.D. Administrator, the House Foreign Affairs Committee, and the Senate Foreign Relations Committee, before meeting or taking any action.

(c) Advisory committee charters shall include the following information:

(1) Committee's official title;

(2) Committee's objectives and scope of activity;

(3) Period of time necessary for the committee to carry out its purposes;

(4) Agency official to whom the committee reports;

(5) Agency responsible for providing necessary support for the committee;

(6) Description of duties for which the committee is responsible, and, if such duties are not solely advisory, a specification of the authority for such functions;

(7) Estimated annual operating costs in dollars and man-years for the committee;

(8) Estimated number and frequency of committee meetings;

(9) Committee's termination date; and

(10) Date the charter is filed.

(d) A copy of the charter is required to be sent to the Library of Congress, Exchange and Gift Division, Federal Advisory Committee Desk, Washington, D.C. 20540.

§ 214.12 Responsibilities within A.I.D.

(a) The A.I.D. Office or Bureau seeking establishment of a new A.I.D. advisory committee:

(1) Justifies the need for the advisory committee to the satisfaction of the A.I.D. Advisory Committee Management Officer, the A.I.D. Administrator, and the OMB Secretariat.

(2) Prepares, clears with the Advisory Committee Management Officer and the General Counsel, and submits to the Administrator all documentation necessary to establish or use the advisory committee.

(b) The Advisory Committee Management Officer with assistance as appropriate from the General Counsel and the Office of Legislative Affairs:

(1) Appraises the need for the proposed advisory committee;

(2) Assures that the requirements of the Act and OMB guidelines have been followed;

(3) If satisfied with (1) and (2), clears the proposal for submission to the Administrator;

(4) Maintains the agency file of approved charters and formal determinations;

(5) Publishes approved charters in the Agency's internal directives system;

(6) Reviews proposed committee membership for conflict of interest;

(7) Assures publication of the Administrator's formal determinations in the FEDERAL REGISTER; and

(8) Transmits approved advisory committee charters to the House Foreign Affairs Committee, the Senate Foreign Relations Committee, and the Library of Congress.

§ 214.13 Charter revision.

(a) Sponsoring A.I.D. Bureaus and Offices initiate revisions to advisory committee charters, as necessary, to reflect current information regarding scope, membership, duties, etc.

(b) Charter revision requires clearances by the advisory committee, the A.I.D. Advisory Committee Management Officer and the General Counsel; approval by the A.I.D. Administrator, and notification of the change to the FEDERAL REGISTER, Congressional committees, and the Library of Congress.

Subpart C—Termination and Renewal of Advisory Committees

§ 214.21 Termination and renewal provisions.

Provisions governing the termination and renewal of advisory committees are contained in section 14 of the Act and paragraph 9 of the draft OMB-Justice Memorandum. As related to A.I.D.-established non-statutory committees, these provisions mean that:

V 38-152 AUG 8 73 XUM

(a) Each such committee which was in existence on January 5, 1973, shall terminate by January 5, 1975, unless it is renewed by the A.I.D. Administrator prior to the latter date.

(b) Each such committee established after January 5, 1973, shall terminate not later than two years after its establishment, unless it is renewed by the A.I.D. Administrator prior to its termination date.

(c) Renewal requires advance approval of the Administrator in accordance with the criteria set forth in section 5(c) of the Act; publication of a notice of the renewal; and the filing of a new advisory committee charter with the appropriate House and Senate Committees and to the Library of Congress.

§ 214.21 Responsibilities within A.I.D.

Responsibilities within A.I.D. for the renewal of advisory committees are as follows:

(a) The Office or Bureau through which the advisory committee reports: prepares, clears with the Advisory Committee Management Officer and the General Counsel, and submits to the Administrator all documentation necessary for committee renewal.

(b) The Office of General Counsel assists in the preparation of charters; reviews and clears the proposal for conformity with the Act and other requirements; and assures publication of the Administrator's determination of renewal in the FEDERAL REGISTER.

(c) The Office of Legislative Affairs transmits approved advisory committee charters to the House and Senate Committees and to the Library of Congress.

Subpart D—Operation of Advisory Committees

§ 214.31 A.I.D. Advisory Committee Representative.

(a) For each advisory committee used by A.I.D., the Administrator designates an A.I.D. employee to serve as the A.I.D. Advisory Committee Representative.

(b) The designated A.I.D. employee performs functions required by section 10 of the Act and assigned herein. Such functions include:

(1) Calling, or giving advance approval to, advisory committee meetings;

(2) Approving an agenda for each meeting;

(3) Making recommendations on proposals to close meetings, or parts of meetings, to the public; and clearing such recommendation with the Advisory Committee Management Officer and the General Counsel for decisions by the Administrator;

(4) Assuring that advance notices of each meeting (whether open or closed) are published in the FEDERAL REGISTER, provided through other means such as press releases and direct mail, and provided to the Advisory Committee Management Officer.

(5) Assuring that open meetings are accessible to the public;

(6) As specified by the Administrator, chairing or attending each meeting;

(7) Determining the number of committee members necessary to be present at any meeting for the transaction of committee business;

(8) Adjourning any meeting, whenever he determines adjournment to be in the public interest;

(9) Assuring that minutes are kept of each advisory committee meeting and, to the extent practicable, of the meetings of formal and informal sub-groups, and that such minutes are certified for accuracy by the chairman or presiding officer of the committee; and

(10) Assuring that, subject to section 552 of Title 5 U.S.C., the documents of the advisory committee are made available for public inspection and copying.

§ 214.32 Calling of advisory committee meetings.

(a) No advisory committee is to hold any meetings except at the call, or with the advance approval, of the designated A.I.D. Advisory Committee Representative.

(b) Each advisory committee meeting is conducted in accordance with an agenda approved by the designated A.I.D. Advisory Committee Representative.

(1) The agenda lists the matters to be considered at the meeting and indicates whether any part of the meeting is concerned with matters which may be exempt from public disclosure under section 552(b) of title 5 U.S.C.

(2) Copies of the agenda are distributed to members of the committee prior to the date of the meeting and are included in the official records of the Advisory Committee.

§ 214.33 Notice of meetings.

(a) Notice of each advisory committee meeting (whether the meeting is open or closed) shall be published in the FEDERAL REGISTER at least seven (7) days before the date of the meeting, and should also be provided through other means such as newspaper advertisements, press releases, and direct mail.

(1) Exceptions to the requirement for public notice are granted only for reasons of national security as determined by the Director, OMB and are requested and justified by the Administrator, A.I.D. at least thirty (30) days prior to the meeting.

(2) Exceptions to the seven (7) day advance publication requirement are granted in emergency situations or when such notice is otherwise impracticable as determined by the Administrator, A.I.D.

(3) Requests for exceptions under paragraph (a) (1) and (2) of this section are prepared by the Advisory Committee Representative and are cleared by the Advisory Committee Management Officer and the General Counsel prior to submission to the Administrator.

(b) Notices include the name of the advisory committee; the time of the meeting; the purposes of the meeting; the extent to which the public will be permitted to attend or participate in the meeting; the place of the meeting if open to the public; and instructions for gaining access to open meetings which are held in a "secured" building.

(c) Notices are prepared by the A.I.D. Advisory Committee Representative and, where intended for the FEDERAL REGISTER, are sent to the Office of General Counsel at least two weeks before the scheduled meeting date.

(d) Copies of all public notices are provided to the Advisory Committee Management Officer.

§ 214.34 Public participation.

(a) Each advisory committee meeting is to be open to the public except where:

(1) The Director, OMB, has determined that public notice of a meeting would be inconsistent with national security; or

(2) The Administrator, A.I.D. has formally determined that the meeting, or a part of the meeting, is concerned with matters listed in section 552(b) of title 5 U.S.C. and should therefore, be closed to the public.

(b) Advisory committee requests to close all or part of a meeting or a series of meetings are to include the reasons for proposed closure, citing specific exceptions involved under section 552(b) of the Freedom of Information Act. Such requests are submitted by the A.I.D. Advisory Committee Representative, through the Advisory Committee Management Officer and the General Counsel, to the Administrator at least thirty (30) days before the scheduled date of the meeting.

(c) The Administrator's determination is to be in writing and is to contain a brief statement of the reasons for closing the meeting (or portion thereof).

(d) When all or part of an advisory committee meeting is closed (1) members of the advisory committee (committee staff or attending A.I.D. employees) are not to disclose the matters discussed except to other members of the advisory committee, the staff of the committee, or agency employees; and (2) the advisory committee is to include in its annual report (section 214.38) a summary of its activities and such related matters which are informative to the public consistent with the policy of section 552(b) of Title 5 U.S.C.

(e) To facilitate public participation in advisory committee meetings which are to be open or partially open to the public:

(1) Meetings are to be held at a reasonable time and at a place that is accessible to members of the public.

(2) The size of the meeting room is members of the public who might be expected to be large enough to accommodate the advisory committee, its staff, and those to attend.

(3) Any member of the public is permitted to file a written statement with the committee, before or after the meeting.

(4) Interested persons may be permitted to present oral statements at the meeting in accordance with procedures established by the committee, and to the extent time available for the meeting permits.

(5) Other participation by members of the public is not permitted, except in accordance with procedures established by the committee.

§ 214.35 Minutes of meetings.

(a) Minutes are to be kept of each meeting of each advisory committee and its formal and informal sub-groups.

(b) The chairman or presiding officer designates a member or other person to keep the minutes.

(c) The minutes are to include:

(1) The time and place of the meeting;

(2) A list of members, staff, and A.I.D. employees attending;

(3) A complete summary of matters discussed and conclusions reached;

(4) Copies of all reports received, issued, or approved;

(5) The extent to which the meeting was open to the public; and

(6) The extent of public participation, including a list of those who presented oral or written statements and an estimate of the number of those who attended the meeting.

(d) The chairman or presiding officer of the advisory committee is to certify to the accuracy of the minutes. The certification is to indicate that "the minutes are an accurate and complete summary of the matters discussed and conclusions reached at the meeting held on (date(s))."

§ 214.36 Records of advisory committees.

(a) The A.I.D. Advisory Committee Representative is to maintain the records of the advisory committee in a location known to the A.I.D. Advisory Committee Management Officer.

(b) Such records are to include the reports, transcripts, minutes, appendices, working papers, drafts, studies, agenda, and other documents which were made available to, or prepared for or by, the advisory committee.

(c) Advisory committee records are maintained and disposed of according to procedures prescribed in the Agency's Records Maintenance Handbook.

§ 214.37 Public access to committee records.

(a) Records maintained in accordance with § 214.36 are subject to the Freedom of Information Act 5 U.S.C. section 552 et seq. and, thus, are available for public inspection and copying except where access is denied under paragraph (b) of this section.

(b) Access to advisory committee records may be denied only where:

(1) Such records relate directly to a meeting which was closed for reasons of national security; or

(2) Such records relate to a meeting or to the part of a meeting which was closed to the public; or

(3) A document is subject to the exemptions listed in 5 U.S.C. 552(b); or

(4) Such records relate to the non-advisory functions of a group which is "utilized" as an advisory committee but was not established for that purpose.

(c) Procedures for requesting access to advisory committee records are the same as those established for Agency records under section 212.33 of AID Regulation 12 (22 CFR Part 212). They are implemented subject to the general oversight of the Advisory Committee Management Officer on behalf of the Agency.

(d) Procedures for denial of access to advisory committee records are the same as those established for Agency records under section 212.34 of AID Regulation 12; except that use of exemption (5) of 5 U.S.C. 552(b) as the basis for denial requires a formal determination by the A.I.D. Administrator that the denial is essential to protect the free exchange of internal views and to avoid undue interference with agency or advisory committee operation. Implementation of these procedures also are subject to the general oversight of the Advisory Committee Management Officer.

§ 214.38 Annual report.

Each advisory committee is required to prepare an annual report describing its membership, functions, and operations.

§ 214.39 Submission of reports to the Library of Congress.

(a) Each advisory committee is to file with the Library of Congress eight copies of each of its annual and any other formal reports, except where the reports falls within an exemption listed in 5 U.S.C. 552(b) or relates to a meeting which was closed for reasons of national security.

(b) The A.I.D. Advisory Committee Representative provides copies of required committee reports to the Office of Legislative Affairs for transmittal to the Library of Congress; and sends a copy to the A.I.D. Advisory Committee Management Officer for inclusion in the Agency's central file on advisory committees.

(c) As appropriate, the A.I.D. Advisory Committee Representative may also send copies of background papers and other advisory committee documents to Office of Legislative Affairs for transmittal to the Library of Congress.

Subpart E—Administration of Advisory Committees

§ 214.41 Support services.

(a) A.I.D. provides support services for advisory committees which are established by or report to the Agency, unless the establishing authority provides otherwise.

(b) Within A.I.D., support services are provided by and charged to the allotment of the A.I.D. office or bureau through which the advisory committee reports, and are coordinated by the designated A.I.D. Advisory Committee Representative.

(c) Support services include staff, quarters, supplies, and funds.

§ 214.42 Uniform pay guidelines.

(a) A.I.D. will follow OMB/CSC guidelines in establishing rates of pay for advisory committee members, staffs, and consultants, when such guidelines are published.

(b) Pending publication of such guidelines, A.I.D. policy regarding compensation for advisory committee members is as follows:

(1) Advisory committee members who are not employed by the U.S. Government ordinarily serve without compensation. However, they may be reimbursed for travel and related expenses of invitational travel under the provisions of A.I.D. travel regulations.

(2) If committee members are appointed as A.I.D. consultants or experts, their compensation shall be fixed in accordance with CSC guidelines and regulations.

(3) Expenses of committee members are charged to the allotments of the A.I.D. office or bureau through which the advisory committee reports.

§ 214.43 Agency records.

(a) The A.I.D. Advisory Committee Management Officer maintains the Agency's official central files on the nature, functions, and operations of each A.I.D. advisory committee. Central files contain the following information with respect to each A.I.D. advisory committee:

(1) Original copy of Advisory Committee Charter filed with the Administrator;

(2) Official records copy of formal determinations by the A.I.D. Administrator with respect to the establishment, renewal, operation, and termination of the committee;

(3) Annual reports of committee activity;

(4) Designations of Advisory Committee Representatives;

(5) Location of official files of the Advisory Committee.

(b) Each A.I.D. Advisory Committee Representative maintains individual advisory committee files at a location known to the A.I.D. Advisory Committee Management Officer. These files contain the following information:

(1) Copies of documents establishing, renewing, and terminating the committee;

(2) Copies of committee charters filed with the A.I.D. Administrator;

(3) Fiscal records which fully disclose the disposition of any funds made available to the committee;

(4) Advisory committee records described above in § 214.36(b) (i.e., the reports, transcripts, minutes, appendices, and other documents which were made available to, or prepared for or by, the committee).

(c) The A.I.D. Advisory Committee Management Officer, the A.I.D. Auditor General, the OMB Secretariat, and the Comptroller General shall have access to these records.

(d) Personnel documentation required by CSC and Agency regulations shall be maintained in the official personnel records of the Office of Personnel and Manpower.

V 38-152 AUG 8 73 XUM

§ 214.44 Annual review and reports.

(a) A.I.D. provides information for an annual OMB review and report to Congress as required by OMB Circular A-63. Agency annual reports are due on February 1 of each year; include only those advisory committees established by or which report to A.I.D.; and are submitted in quadruplicate on a form prescribed by the OMB Secretariat.

(b) Within A.I.D., the Advisory Committee Management Officer collects required information from the A.I.D. Advisory Committee Representatives; appraises advisory committee activities for the Administrator; and prepares the Agency's annual report to OMB for the Administrator's signature.

Subpart F—Administrative Remedies

§ 214.51 Administrative review of denial for public access to records.

Any person whose request for access to an advisory committee document is denied may seek administrative review in accordance with section 212.34(c) of A.I.D. Regulation 12, 22 CFR 212.34(c).

§ 214.52 Administrative review of other alleged non-compliance.

With regard to other alleged non-compliance with the Act, OMB Circular A-63, or this regulation, the following procedures are to be used:

(a) Advisory committee members or other aggrieved individuals or organizations must file a written complaint which contains specific information regarding the alleged non-compliance.

(b) The written complaint must be addressed to the Administrator or Deputy Administrator, Agency for International Development, 21st and Virginia Avenue, NW., Washington, D.C. 20523.

(c) The complaint must be filed within thirty (30) days after the date of the alleged non-compliance.

(d) The complaint will be considered by the Administrator or Deputy Administrator with the advice and assistance of the General Counsel and the A.I.D. Advisory Committee Management Officer.

(e) Written notice of the disposition of the complaint shall be provided to the complainant within thirty (30) days of the date the complaint was received by the Agency.

Effective date. This regulation is effective July 20, 1973.

Dated: July 19, 1973.

JOHN A. HANNAH,
Administrator.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-188]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Map No.	State map repository	Local map repository	Effective date of authorization of sale of flood insurance for area
• • •	• • •	• • •	• • •	• • •	• • •	• • •
Nevada	Clark	North Las Vegas, City of.				August 8, 1973. Emergency.
Ohio	Franklin	Upper Arlington, City of.				Do. Emerg.

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968), effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended (secs. 408-410, Public Law 91-152, Dec. 24, 1969), 42 U.S.C. 4001-4127; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969)

Issued: August 1, 1973.

GEORGE K. BERNSTEIN,
Federal Insurance Administrator.

Title 25—Indians

CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

SUBCHAPTER F—ENROLLMENT

PART 43h—PREPARATION OF A ROLL OF ALASKA NATIVES

Eligibility, Appeals, Deadline for Amending Enrollment Applications

The general authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. section 301, and sections 463 and 465 of the Revised Statutes (25 U.S.C. sections 2 and 9).

Part 43h, Subchapter F, Chapter I of Title 25 of the Code of Federal Regulations is amended by the addition of paragraph (d) to § 43h.7, the revision of § 43h.8, and the addition of § 43h.14.

The addition of paragraph (d) to § 43h.7 is necessary to provide for the mailing of notices of decisions of the Coordinator of the Alaska Native Enrollment Coordinating Office by registered or first class mail which is neither certified or registered in those instances where certified mail service, return receipt requested, is not available to an addressee.

The time for filing an appeal under § 43.8 has been changed from 45 to 30 days. This change is necessary in order to assure there will be sufficient time to decide all appeals in time to complete the roll of Alaska Natives by the deadline of December 18, 1973, imposed by the Act of December 18, 1971, 85 Stat. 688.

Section 43h.8 has also been revised to provide for service of notices of appeal on applicants, regions and villages by registered or first class mail which is neither certified nor registered where such service cannot be made by certified mail, return receipt requested. The revision also spells out how proof of service shall be made with the Regional Solicitor in light of the fact that certified or registered mail, return reciept requested, cannot be used in some instances. Section 43h.8 has also been revised to provide that applicants, regions and villages served with notices of appeal shall have 15 days from the date of publication of this regulation in the FEDERAL REGISTER or 15 days from date of service, whichever is later, to file with the Regional Solicitor their written views on the appeal. Previously § 43h.8 did not make specific provision for an applicant, region or village to respond to a served notice of appeal.

The new § 43h.14 sets August 15, 1973, as the deadline for making amendments to enrollment applications or filing amended applications. Such deadline is required in order to enable the processing of all applications, including amendments thereto, to be completed by the statutory deadline of December 18, 1973.

The revisions with respect to the use of registered and first class mail which is neither certified or registered and the consequent changes in the manner in which proof of service shall be made are compelled because of the unavailability of certified mail service in some instances. The 30-day appeal period, the 15-day period provided applicants, regions and villages to respond to notices of appeals with which they are served and the August 15, 1973, deadline set for amendments to enrollment applications constitute, in each case, the maximum allowable time which can be granted and still permit the timely completion of the roll of Alaska Natives under the Act of December 18, 1971, *supra*. In view of the foregoing, and because advance notice and public procedure are not possible under the existing time constraints which also require that the effective date of the regulations not be deferred, good cause exists and is so found that advance notice and public procedure and the 30-day deferred effective date or any other deferred effective date otherwise required by 5 U.S.C. section 553 (b) and (d) should be dispensed with under the exceptions provided in subsections (b) (B) and (d)(3) of 5 U.S.C. section 553. Therefore this amendment and revision shall become effective upon publication in the Federal Register.

Section 43h.7 is amended by the addition of the following paragraph:

§ 43h.7 Determination of eligibility.

• • • • • •

(d) In those instances where certified mail service is not available but registered mail service is available, as for example, mail sent to a foreign address, registered mail, return receipt requested, will be used to send the notices required by this section. If neither certified nor registered mail service is available, as for example, where no post office serves the addressee, notices will be sent by first class mail without certification or registration.

Section 43h.8 is revised to read as follows:

§ 43h.8 Appeals.

(a) Appeals by individuals from adverse decisions must be in writing and filed with the Coordinating Office not later than 30 days after the date of receipt by certified or registered mail, return receipt requested, of the notice of the adverse decision or not later than 37 days after the date of mailing of such notice where certified or registered mail service to the individual is not available or where any notice is returned to the Coordinator in accordance with postal regulations. Appeals by regions and villages from the Coordinator's decisions must be in writing and filed with the Coordinating Office not later than 30 days after receipt of the notice sent by certified or registered mail, return receipt requested, or not later than 37 days after the date of mailing of such notice where certified or registered mail service is not available or where any notice is returned to the Coordinator in accordance with postal regulations. No appeal of a region or village of a decision made by the Coordinator before June 28, 1973, will be allowed unless a protest has been filed within the 30-day period provided by § 43h.6(g).

(b) Each appeal from a decision on an application for enrollment shall be by petition, which shall state the bases and reasons for the appeal, and which shall include or be accompanied by all arguments, briefs, records, or other evidence which the appellant urges as grounds for reversal. No additional presentation will be allowed except upon a showing satisfactory to the Regional Solicitor.

(c) A copy of each appeal petition and its supporting documents filed by an applicant shall be served upon the region and village whose names appear on the decision appealed from. A copy of each appeal petition and its supporting documents filed by a region shall be served upon the applicant for enrollment and upon the village whose name appears on the decision appealed from. A copy of each appeal petition and the supporting documents filed by a village shall be served upon the applicant for enrollment and upon the region whose name appears on the decision appealed from.

(d) Service shall be made at the time of filing the appeal with the Coordinating Office by delivering a copy of the appeal petition and supporting documents either in person or by certified or registered mail, return receipt requested. If certified or registered mail service to an addressee is not available service may be made on that addressee by sending to that addressee a copy of the appeal petition and supporting documents by first class mail which is neither certified nor registered. Service will be considered to have been made at the time: (1) Of acknowledgement; (2) of personal service; (3) of delivery by certified or registered mail, return receipt requested; (4) seven (7) days after the date of mailing by first class mail which is neither certified nor registered; or (5) seven (7) days after the date of mailing by certified or registered mail, return receipt requested, which is returned by the Postal Service undelivered. Within 15 days of filing the appeal petition with the Coordinating Office, proof of service must be furnished to the Regional Solicitor. This proof may be made by informing the Regional Solicitor in writing of the names of the parties served, whether service was made personally or by certified, registered, or first class mail which was neither certified nor registered, and the address, if mailed, to which copies of the appeal petition and supporting documents were sent. A party served with a copy of an appeal petition and supporting documents shall have until August 23, 1973 or 15 days from the date of service, whichever is later, in which to file written views on the appeal with the Regional Solicitor. Failure to serve copies of the appeal petition and its supporting documents or to file proof of service within the time allowed will subject the appeal to summary dismissal.

(e) Upon receipt of an appeal petition, the Coordinator will forward the petition, with all records pertaining thereto, to the Regional Solicitor. Determination on appeals will be made by the Regional Solicitor on behalf of

V 38-152 AUG 8 73 XUM

the Secretary and shall be final. The applicant and the appropriate village and region shall be notified in writing of the determination of the Regional Solicitor.

Section 43h.14 is added to Part 43h and it reads as follows:

§ 43h.14 Deadlines for amending enrollment applications.

Amendments to enrollment applications, or amended applications, will not be considered originally or on appeal unless filed (received by the Enrollment Office) on or before August 15, 1973. All such amendments or amended applications received subsequent to August 15, 1973, will be returned to the applicant without action.

KENT FRIZZELL,
Secretary of the Interior.

AUGUST 3, 1973.

[FR Doc.73-16380 Filed 8-7-73;8:45 am]

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Order No. 531-73]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

SUBPART G-1—OFFICE OF WATERGATE SPECIAL PROSECUTION FORCE

Clarification of Authority of Special Prosecutor

The purpose of this order is to clarify the Special Prosecutor's authority with respect to matters generally assigned to his responsibility. See Department of Justice Order Nos. 517-73, 518-73, 525-73.

By virtue of the authority vested in me by 28 U.S.C. 509, 510, and 5 U.S.C. 301, § 0.38 of Subpart G-1 of Part 0 of Chapter I of Title 28, Code of Federal Regulations is amended to read as follows:

§ 0.38 Specific functions.

The Special Prosecutor is assigned and delegated the following specific functions with respect to matters specified in this Subpart:

(a) Pursuant to 28 U.S.C. 515(a), to conduct any kind of legal proceeding, civil or criminal, including grand jury proceedings, which United States attorneys are authorized by law to conduct, and to designate attorneys to conduct such legal proceedings.

(b) To approve or disapprove the production or disclosure of information or files relating to matters within his cognizance in response to a subpoena, order, or other demand of a court or other authority. (See Part 16(B) of this chapter.)

(c) To apply for and to exercise the authority vested in the Attorney General under 18 U.S.C. 6005 relating to immunity of witnesses in Congressional proceedings.

The listing of these specific functions is for the purpose of illustrating the authority entrusted to the Special Prosecutor and is not intended to limit in any manner his authority to carry out his functions and responsibilities.

Dated July 31, 1973.

ELLIOT RICHARDSON,
Attorney General.

[FR Doc.73-16372 Filed 8-7-73;8:45 am]

Title 33—Navigation and Navigable Waters

CHAPTER II—CORPS OF ENGINEERS, DEPARTMENT OF THE ARMY

PART 207—NAVIGATION REGULATIONS

Taylor Creek, Fla.

Pursuant to the provisions of Section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1) § 207.170d is hereby prescribed establishing and governing the operation of a lock across the entrance to Taylor Creek, Okeechobee, Florida.

Since this regulation is local in nature and the U.S. Army Engineer District, Jacksonville, has provided notice and opportunity for local participation in this rule making, the Secretary of the Army has found that notice of proposed rule making and public procedures thereto are unnecessary and that good cause exists for making this regulation effective on September 7, 1973, as follows:

§ 207.170d Taylor Creek, navigation lock (S-193) across the entrance to Taylor Creek at Lake Okeechobee, Okeechobee, Fla.; use, administration and navigation.

(a) The owner of or agency controlling the lock shall not be required to operate the navigation lock except from 5:30 a.m. to 8:00 p.m. daily. During the above hours the lock shall be opened upon demand for the passage of vessels.

(b) The owner of the lock shall place signs, of such size and description as may be designated by the District Engineer, U.S. Army Engineer District, Jacksonville, Florida at each side of this lock indicating the nature of the regulations of this section.

[Regs., July 17, 1973, 1522-01 (Taylor Creek, Fla.) DAEN-CWO-N] (Sec. 7, 40 Stat. 266; 33 U.S.C. 1)

For the Adjutant General.

R. B. BELNAP,
Special Advisor to TAG.

Title 36—Parks, Forests, and Memorials

CHAPTER II—FOREST SERVICE, DEPARTMENT OF AGRICULTURE

PART 221—TIMBER

Requirements in Use of National Forest Timber

Correction

In FR Doc.73-15676 appearing at 20326 in the issue of Tuesday, July 31, 1973, in the second line of the seventh paragraph, the word "proper" should read "proposed".

Title 41—Public Contracts and Property Management

CHAPTER 1—FEDERAL PROCUREMENT REGULATIONS

[FPR Amdt. 115]

LABOR STANDARDS FOR CONTRACTS INVOLVING CONSTRUCTION

This amendment of the Federal Procurement Regulations adds a new Subpart 1-18.7, Labor Standards for Contracts Involving Construction. Essentially, new Subpart 1-18.7 includes all the material formerly in Subpart 1-12.4 and new and expanded coverage of labor standards under Federal construction contracts. This change consolidates this material with other materials in Part 1-18 specifically dealing with the procurement of construction. New material included in the new Subpart 1-18.7 relates to wage and fringe benefits determinations issued by the Department of Labor for inclusion in contracts involving construction, to the administration and enforcement of labor standards for such contracts, and to revised and new contract clauses regarding apprentice and trainee employment requirements. The sections on apprentices and trainees have been revised to incorporate material which will promote the full realization of training opportunities on construction programs. In addition, the amendment makes miscellaneous related editorial changes in Part 1-12 and adds a new Subpart 1-12.12 to reference the Williams-Steiger Occupational Safety and Health Act of 1970.

PART 1-12—LABOR

The table of contents for Part 1-12 is amended to delete the entries for Subpart 1-12.4, to provide that Subpart 1-12.4 is reserved, and to add new entries for Subpart 1-12.12, as follows:

Subpart 1-12.4—[Reserved]

Subpart 1-12.12—Williams-Steiger Occupational Safety and Health Act of 1970

1-12.1201 Basic statute.
1-12.1202 Regulations and rulings on applicability or interpretation.

Subpart 1-12.4 is revised to delete the caption and the text of the subpart and to provide that the subpart is reserved.

Subpart 1-12.4—[Reserved]

Subpart 1-12.12 is added, as follows:

Subpart 1-12.12—Williams-Steiger Occupational Safety and Health Act of 1970

§ 1-12.1201 Basic statute.

The Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 651-678) provides for the establishment and enforcement of occupational safety and health standards; for the training of employers, employees, and others in the field of occupational safety and health; for the participation of the States; and for recordkeeping. The Act applies to all employees unless otherwise exempted

who are employed in a business that affects interstate commerce.

§ 1-12.1202 Regulations and rulings on applicability of interpretation.

Regulations relating generally to occupational safety and health standards appear in 29 CFR Part 1910. Those relating particularly to construction appear in 29 CFR 1926, and solicitations for offers in the construction field should reference the Occupational Safety and Health Standards as set forth therein. Contractors or contractor employees who inquire concerning the applicability or interpretation of the Williams-Steiger Act or standards and regulations issued thereunder should be advised that these matters fall within the jurisdiction of the Department of Labor and should be given the address of the appropriate regional or area office of the Occupational Safety and Health Administration of the Department of Labor.

PART 1-16—PROCUREMENT FORMS

Subpart 1-16.4—Forms for Advertised Construction Contracts

Section 1-16.401 is amended, as follows:

§ 1-16.401 Forms prescribed.

• • • • •

(b) Standard Form 19-A, April 1965 edition, Labor Standards Provisions—Applicable to Contracts in Excess of $2,000. Pending the publication of a new edition of the form, the provisions of Standard Form 19-A are deleted and the clauses prescribed by § 1-18.703-1 are substituted therefor.

• • • • •

PART 1-18—PROCUREMENT OF CONSTRUCTION

The table of contents for Part 1-18 is amended to add new entries, as follows:

Subpart 1-18.7—Labor Standards for Contracts Involving Construction

Sec.
1-18.700 Scope of subpart.
1-18.701 Applicability.
1-18.701-1 Construction contracts.
1-18.701-2 Supply, service, maintenance, or other contracts involving construction.
1-18.702 Statutory and regulatory requirements.
1-18.702-1 Davis-Bacon Act.
1-18.702-2 Copeland Act.
1-18.702-3 Contract Work Hours and Safety Standards Act.
1-18.702-4 Department of Labor regulations.
1-18.703 Contract clauses.
1-18.703-1 Clauses for general use.
1-18.703-2 Contracts with a State or political subdivision.
1-18.703-3 Overseas contracts.
1-18.704 Wage determinations.
1-18.704-1 General.
1-18.704-2 Types of wage determinations.
1-18.704-3 Procedure for requesting determinations.
1-18.704-4 Rates to be included in solicitations.
1-18.704-5 Wage determinations in solicitations and awards.
1-18.704-6 Formal advertising without a wage determination.
1-18.704-7 Modifications of wage determinations.
1-18.704-8 Wage determinations appeals.
1-18.705 Administration and enforcement.
1-18.705-1 Policy.
1-18.705-2 Wages, fringe benefits, and overtime.
1-18.705-3 Additional classifications.
1-18.705-4 Apprentices and trainees.
1-18.705-5 Subcontracts.
1-18.705-6 Payrolls and statements.
1-18.705-7 Posting wage determinations.
1-18.705-8 Investigations.
1-18.705-9 Suspensions and deductions of contract payments.
1-18.705-10 Reports.
1-18.705-11 Contract terminations.
1-18.705-12 Cooperation with the Department of Labor.
1-18.705-13 Review of recommendations for an appropriate adjustment in liquidated damages under the Contract Work Hours and Safety Standards Act.
1-18.706 Disposition of disputes arising out of construction contracts labor standards enforcement.

Subpart 1-18.7 is added which reads as follows:

Subpart 1-18.7—Labor Standards for Contracts Involving Construction

§ 1-18.700 Scope of subpart.

This subpart sets forth the labor standards applicable to construction contracts, including policies, procedures, and contract clauses, and indicates the statutory basis for these standards.

§ 1-18.701 Applicability.

The requirements of this Subpart 1-18.7 apply to contracts for construction and, under some circumstances, to other types of contracts involving construction.

§ 1-18.701-1 Construction contracts.

(a) A contract is for construction if it is solely or predominantly for construction as defined in § 1-18.101-1.

(1) These requirements are applicable only if the construction work is, or reasonably can be foreseen to be, performed at a particular site so that wage rates can be determined for the locality.

(2) These requirements do not apply to contracts solely for dismantling, demolition, or removal of improvements, though certain of the statutes mentioned herein may apply to such contracts.

(3) These requirements do not apply to contracts requiring construction work which is so closely related to research, experiment, and development that it cannot be performed separately or which is itself the subject of research, experiment, or development.

(4) These requirements apply to manufacture or fabrication of materials and components on the site by a construction contractor or subcontractor under a contract otherwise subject to these requirements but do not apply to other manufacturing or furnishing of equipment, components, or other materials.

(5) These requirements do not apply to employees of railroads operating under collective bargaining agreements that are subject to the provisions of the Railway Labor Act.

(b) Under contracts for construction as described in § 1-18.701-1(a), the requirements of this subpart apply only to work performed by mechanics and laborers at the site of the work.

(1) "Mechanics and laborers" are construed to include at least those workers whose duties are manual or physical in nature as distinguished from mental or managerial whether employed by a prime contractor or by a subcontractor of any tier. The term includes any workers who work with tools or equipment or perform the work of a trade, apprentices and trainees, and, in the case of contracts subject to the Contract Work Hours and Safety Standards Act, watchmen and guards. The term does not apply to employees whose duties are nonmanual in nature, such as office workers, superintendents, technical engineers, or scientific workers, but it does apply to cooks, storekeepers, and working foremen who devote more than 20 percent of their time during a workweek to mechanic or laborer duties.

(2) The "site of the work" is limited to the physical place or places where the construction called for in the contract will remain when work on it has been completed and to other adjacent or nearby property used by the contractor or subcontractor in such construction which can reasonably be said to be included in the "site" because of proximity. For example, if a small office building is being erected, the "site of the work" will normally include no more than the building itself and its grounds and other land or structures "down the block" or "across the street" which the contractor or subcontractor uses in the course of his performance on the particular contract. In the case of larger contracts such as for a large building, an airport, or a dam, the "site of the work" is necessarily more extensive and includes the whole area in which the contract construction activity will take place. Fabrication plants, "mobile factories," batch plants, borrow pits, job headquarters, and tool yards are part of the "site of the work" provided they are dedicated exclusively or nearly so to performance on the contract and are so located in proximity to the actual construction location that it would be reasonable to include them. Once the limits of "site of the work" have been determined, the Secretary's wage rate decision is applicable only to those mechanics and laborers employed by a contract or subcontractor within such limits (that is, upon the "site of the work"), including drivers who temporarily leave the "site" to transport materials and equipment used in the course of contract operations.

§ 1-18.701-2 Supply, service, maintenance, or other contracts involving construction.

(a) The requirements of this Subpart 1-18.7 do not ordinarily apply to supply, service, maintenance, research and development, or other nonconstruction contracts. However, contracts predomi-

V 38-152 AUG 8 73 XUM

nantly for nonconstruction work may also involve construction work. Construction items under such contracts are not exempted from the requirements of this subpart simply because the work is to be performed under a contract which also requires, for example, the furnishing of supplies. On the other hand, where construction work is to be performed in support of other work such as manufacturing and furnishing of supplies, the circumstances may be such that the construction work may be so merged with nonconstruction activity or may be so fragmented in terms of the locations or time spans in which it is to be performed that it cannot be segregated as a separate contractual requirement for construction, alteration, or repair of a public building or public work. Generally, the requirements apply to, and the appropriate clauses in § 1–18.703–1 must be included in, a prime contract if:

(1) The contract contains specific requirements for substantial amounts of construction work, or it is ascertainable at the contract date that a substantial amount of construction work will be necessary for the performance of the contract. The word "substantial" relates to the type and quantity of construction work to be performed and not merely to the total value of construction work as compared to the total value of the contract; and

(2) Such construction work is physically or functionally separate from and, as a practical matter, is capable of being performed on a segregated basis from the other work required by the contract.

(b) The standard clauses provide that they will be applicable to the contract work only to the extent that such work is subject to the labor standards statutes involved. Under contracts requiring substantial amounts of segregable construction work, only such segregable construction will be covered.

(1) For example, the requirements do not apply to installation, maintenance, and alteration work incidental to furnishing supplies under a supply contract; however, if a substantial and segregable amount of construction, alteration, or repair work at the site is required, such as for installation of heavy generators and large refrigerator systems or for plant modification or rearrangement, the labor standards for construction contracts apply to the construction work at the site.

(2) Contracts for maintenance or service are not ordinarily subject to the requirements of this subpart. Maintenance includes the routine, recurring type of work necessary to keep a facility in such condition that it may be continuously used at an established capacity and efficiency for its intended purpose. However, if such maintenance or service contracts call for substantial and segregable items of construction, alteration, or repair, the labor standards provisions for construction contracts will be applicable to those items. All contracts in excess of $2,000 for painting of any public building or public work, whether performed in connection with the original construction or as regular maintenance, are subject to the labor standards provisions for construction contracts.

§ 1–18.702 Statutory and regulatory requirements.

§ 1–18.702–1 Davis-Bacon Act.

The Davis-Bacon Act (Act of March 3, 1931, as amended (40 U.S.C. 276a–276a–7)), provides that certain contracts over $2,000 entered into by any executive agency for construction, alteration, or repair (including painting and decorating) of public buildings or public works within the United States shall contain a provision (see § 1–18.703–1(a)) to the effect that no laborer or mechanic employed directly upon the site of the work contemplated by the contract shall receive less than the prevailing rates of wages as determined by the Secretary of Labor. The term "wages" as used in the Davis-Bacon Act includes the basic hourly rate of pay, the rate of contribution irrevocably made by an employer pursuant to a fund, plan, or program, and the rate of costs to the employer which may be reasonably anticipated in providing certain bona fide fringe benefits.

§ 1–18.702–2 Copeland Act.

The Copeland ("Anti-kickback") Act (18 U.S.C. 874 and 40 U.S.C. 276c) makes it unlawful to induce, by force or otherwise, any person employed in the construction, prosecution, completion, or repair of public buildings, public works, or buildings, or works including those financed in whole or in part by loans or grants from the United States, to give up any part of the compensation to which he is entitled under his contract of employment. In accordance with regulations of the Secretary of Labor issued pursuant to the Copeland Act, certain contracts entered into by any executive agency shall contain a provision (see § 1–18.703–1(e)) to the effect that the contractors and any subcontractor shall comply with the regulations of the Secretary of Labor under the Act.

§ 1–18.702–3 Contract Work Hours and Safety Standards Act.

In accordance with the requirements of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327–333), certain contracts entered into by any executive agency must contain a clause (see § 1–18.703–1(b)) to the effect that no laborer or mechanic doing any part of the work contemplated by the contract shall be required or permitted to work more than 8 hours in any one calendar day or 40 hours in any workweek unless such laborer or mechanic is compensated at not less than one and one-half times his basic rate of pay for all hours worked in excess of 8 hours in any one calendar day or 40 hours in any workweek. The workmen will be paid according to the calculation which represents the greater number of overtime hours.

§ 1–18.702–4 Department of Labor regulations.

Pursuant to the statutes referred to in this § 1–18.702 and Reorganization Plan No. 14 of 1950 (3 CFR, 1949–53 Comp., p. 1007), the Secretary of Labor has issued regulations in Parts 1, 3, 5, 5a, and 7 of Title 29, Subtitle A, Code of Federal Regulations, providing for the administration and enforcement of those statutes in construction contracts. The Secretary's regulations cover the following wage determination procedures: Duties of contractors on Government-financed public buildings; labor standards for construction contracts; standards for ratios of apprentices and trainees to journeymen; and wage determination review procedures.

§ 1–18.703 Contract clauses.

§ 1–18.703–1 Clauses for general use.

Except as provided in § 1–18.703–2, every construction contract in excess of $2,000 (or of such other amount as may be specifically indicated) for work within the United States shall include the following clauses:

(a) *Davis-Bacon Act (40 U.S.C. 276a–276a–7).*

DAVIS-BACON ACT (40 U.S.C. 276a–276a–7)

(a) All mechanics and laborers, including apprentices and trainees, employed or working directly upon the site of the work shall be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by the Copeland Regulations, 29 CFR Part 3), the full amounts due at time of payment computed at wage rates not less than the aggregate of the basic hourly rates and the rates of payments, contributions, or costs for any fringe benefits contained in the wage determination decision of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the Contractor or subcontractor and such laborers and mechanics. A copy of such wage determination decision shall be kept posted by the Contractor at the site of the work in a prominent place where it can be easily seen by the workers.

(b) The Contractor may discharge his obligation under this clause to workers in any classification for which the wage determination decision contains:

(1) Only a basic hourly rate of pay, by making payment at not less than such basic hourly rate, except as otherwise provided in the Copeland Regulations (29 CFR Part 3); or

(2) Both a basic hourly rate of pay and fringe benefits payments, by making payment in cash, by irrevocably making contributions pursuant to a fund, plan, or program for, and/or by assuming an enforceable commitment to bear the cost of, bona fide fringe benefits contemplated by the Davis-Bacon Act, or by any combination thereof. Contributions made, or costs assumed, on other than a weekly basis shall be considered as having been constructively made or assumed during a weekly period to the extent that they apply to such period. Where a fringe benefit is expressed in a wage determination in any manner other than as an hourly rate and the Contractor pays a cash equivalent or provides an alternative fringe benefit, he shall furnish information with his payrolls showing how he determined that the cost incurred to make the cash payment or to provide the alternative fringe benefit is equal to the cost of the wage determination fringe benefit. In any case where the Contractor provides a fringe benefit different from any contained in the wage determination, he shall similarly show how he arrived at the hourly rate shown therefor. In the event of disagreement between or among the interested parties as to an equivalent of any fringe benefit, the Contracting Officer shall submit the question, together with his recommendation, to the Secretary of Labor for final determination.

(c) The assumption of an enforceable commitment to bear the cost of fringe benefits, or the provision of any fringe benefits not expressly listed in section 1(b)(2) of the Davis-Bacon Act or in the wage determination forming a part of the contract, may be considered as payment of wages only with the approval of the Secretary of Labor pursuant to a written request by the Contractor. The Secretary of Labor may require the Contractor to set aside assets, in a separate account, to meet his obligations under any unfunded plan or program.

(d) The Contracting Officer shall require that any class of laborers or mechanics, including apprentices and trainees, which is not listed in the wage determination decision and which is to be employed under the contract shall be classified or reclassified conformably to the wage determination decision, and shall report the action taken to the Secretary of Labor. If the interested parties cannot agree on the proper classification or reclassification of a particular class of laborers or mechanics to be used, the Contracting Officer shall submit the question, together with his recommendation, to the Secretary of Labor for final determination. Apprentices and trainees may be added under this clause only where they are employed pursuant to an apprenticeship or trainee program meeting the requirements of the Apprentices and Trainees clause below.

(e) In the event it is found by the Contracting Officer that any laborer or mechanic, including apprentices and trainees, employed by the Contractor or any subcontractor directly on the site of the work covered by this contract has been or is being paid at a rate of wages less than the rate of wages required by paragraph (a) of this clause, the Contracting Officer may (1) by written notice to the Government Prime Contractor terminate his right to proceed with the work, or such part of the work as to which there has been a failure to pay said required wages, and (2) prosecute the work to completion by contract or otherwise, whereupon such Contractor and his sureties shall be liable to the Government for any excess costs occasioned the Government thereby.

(f) Paragraphs (a) through (e) of the clause shall apply to this contract to the extent that it is (1) a prime contract with the Government subject to the Davis-Bacon Act, or (2) a subcontract also subject to the Davis-Bacon Act under such prime contract.

(b) *Contract Work Hours and Safety Standards Act—Overtime Compensation (40 U.S.C. 327–333).*

CONTRACT WORK HOURS AND SAFETY STANDARDS ACT—OVERTIME COMPENSATION (40 U.S.C. 327–333)

This contract is subject to the Contract Work Hours and Safety Standards Act and to the applicable rules, regulations, and interpretations of the Secretary of Labor.

(a) The Contractor shall not require or permit any laborer or mechanic, including apprentices, trainees, watchmen, and guards, in any workweek in which he is employed on any work under this contract to work in excess of 8 hours in any calendar day or in excess of 40 hours in such workweek on work subject to the provisions of the Contract Work Hours and Safety Standards Act unless such laborer or mechanic, including apprentices, trainees, watchmen, and guards, receives compensation at a rate not less than one and one-third times his basic rate of pay for all such hours worked in excess of 8 hours in any calendar day or in excess of 40 hours in such workweek, whichever is the greater number of overtime hours. The "basic rate of pay," as used in this clause, shall be the amount paid per hour, exclusive of the Contractor's contribution or cost for fringe benefits, and any cash payment made in lieu of providing fringe benefits, or the basic hourly rate contained in the wake determination, whichever is greater.

(b) In the event of any violation of the provisions of paragraph (a), the Contractor shall be liable to any affected employee for any amounts due, and to the United States for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including an apprentice, trainee, watchman, or guard, employed in violation of the provisions of paragraph (a) in the sum of $10 for each calendar day on which such employee was required or permitted to be employed on such work in excess of 8 hours or in excess of the standard workweek of 40 hours without payment of the overtime wages required by paragraph (a).

(c) *Apprentices and trainees.*

APPRENTICES AND TRAINEES

(a) Apprentices shall be permitted to work as such only when they are registered, individually, under a bona fide apprenticeship program registered with a State apprenticeship agency which is recognized by the Bureau of Apprenticeship and Training, U.S. Department of Labor; or if no such recognized agency exists in a State, under a program registered with the aforesaid Bureau of Apprenticeship and Training. The allowable ratio of apprentices to journeymen in any craft classification shall not be greater than the ratio permitted to the Contractor as to his entire work force under the registered program. Any employee listed on a payroll at an apprentice wage rate who is not a trainee as defined in paragraph (b) of this clause, and who is not registered as above, shall be paid the wage rate determined by the Secretary of Labor for the classification of work he actually performed. The Contractor shall furnish to the Contracting Officer written evidence of the registration of his program and apprentices, as well as of the appropriate ratios allowed and the wage rates required to be paid thereunder for the area of construction, prior to using any apprentices in the contract work. The term "apprentice" means (1) a person employed and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Bureau of Apprenticeship and Training, or with a State apprenticeship agency recognized by the Bureau, or (2) a person in his first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Bureau of Apprenticeship and Training, or a State Apprenticeship Council (where appropriate) to be eligible for probationary employment as an apprentice.

(b) Trainees shall be permitted to work as such when they are bona fide trainees employed pursuant to a program approved by the U.S. Department of Labor, Manpower Administration, Bureau of Apprenticeship and Training. The term "trainee" means a person receiving on-the-job training in a construction occupation under a program which is approved (but not necessarily sponsored) by the U.S. Department of Labor, Manpower Administration, Bureau of Apprenticeship and Training, and which is reviewed from time to time by the Manpower Administration to insure that the training meets adequate standards.

(c) In connection with contracts in excess of $10,000 the Contractor agrees as follows:

(1) The Contractor shall make a diligent effort to hire for performance of work under this contract a number of apprentices or trainees, or both, in each occupation, which bears to the average number of the journeymen in that occupation to be employed in the performance of the contract the applicable ratio as set forth in paragraph (c)(7) of his clause.

(2) The Contractor shall insure that 25 percent of such apprentices or trainees in each occupation are in their first year of training, where feasible. Feasibility here involves a consideration of (i) the availability of training opportunities for first year apprentices, (ii) the hazardous nature of the work for beginning workers, and (iii) excessive unemployment of apprentices in their second and subsequent years of training.

(3) The Contractor shall, during the performance of the contract, to the greatest extent possible, employ the number of apprentices or trainees necessary to meet currently the requirements of paragraphs (c)(1) and (c)(2) of this clause.

(4) The Contractor shall maintain records of employment on this contract by trade of the number of apprentices and trainees, apprentices and trainees in first year of training, and of journeymen, and the wages paid and the hours of work of such apprentices, trainees, and journeymen. In addition, the Contractor who claims compliance based on the criterion set forth in paragraph (c)(6)(ii) of this clause shall maintain such records of employment on all his construction work in the same labor market area, both public and private, during the performance of this contract. In each of the above cases the Contractor shall make such records available for inspection upon request of the Department of Labor or the Contracting Officer.

(5) The Contractor shall supply one copy of each of the written notices required in accordance with paragraph (c)(6)(iii) of this clause at the request of the Contracting Officer. The Contractor also agrees to supply at 3-month intervals during the performance of the contract and after completion of contract performance a statement describing steps taken toward making a diligent effort and containing a breakdown by craft, of hours worked and wages paid for first year apprentices and trainees, other apprentices and trainees, and journeymen. One copy of the statement will be sent to the Contracting Officer and one copy to the Secretary of Labor.

(6) The Contractor will be deemed to have made a "diligent effort as required by paragraph (c)(1) if during the performance of this contract, he accomplishes at least one of the following three objectives: (i) The Contractor employs under this contract a number of apprentices and trainees by craft, at least equal to the ratios established in accordance with paragraph (c)(7) of this clause, or (ii) the Contractor employs, on all his construction work, both public and private, in the same labor market area, an average number of apprentices and trainees by craft at least equal to the ratios established in accordance with paragraph (c)(7) of this clause, or (iii) the Contractor (A) if covered by a collective bargaining agreement, before commencement of any work on the project,

V 38-152 AUG 8 73 XUM

has given written notice to all joint apprenticeship committees, the local U.S. Employment Security Office, local chapter of the Urban League, Workers Defense League, or other local organizations concerned with minority employment, and the Bureau of Apprenticeship and Training Representative, U.S. Department of Labor, for the locality of the work; (B) if not covered by a collective bargaining agreement, has given written notice to all of the groups stated above, except joint apprenticeship committees, and will in addition notify all non-joint apprenticeship sponsors in the labor market area; (C) has employed all qualified applicants referred to him through normal channels (such as the Employment Service, the Joint Apprenticeship Committees, and, where applicable, minority organizations and apprentice outreach programs who have been delegated this function) at least up to the number of such apprentices and trainees required by paragraph (c)(7) of this clause. The notice, as referred to herein, will include at least the Contractor's name and address, the agency designation, the contract number, job site address, value of the contract, expected starting and completion dates, the estimated average number of employees in each occupation to be employed over the duration of the contract work, and a statement of his willingness to employ a number of apprentices and trainees at least equal to the ratios established in accordance with paragraph (c)(7) of this clause.

(7) The Contractor recognizes that the Secretary of Labor has determined that the applicable ratios of apprentices and trainees to journeymen in any occupation for the purpose of this clause shall be as follows: (i) In any occupation the applicable ratio of apprentices and trainees to journeymen shall be equal to the predominant ratio for the occupation in the area where the construction is being undertaken, set forth in collective bargaining agreements, or other employment agreements, and available through the Bureau of Apprenticeship and Training Representative, U.S. Department of Labor, for the applicable area; (ii) for any occupation for which no ratio is found, the ratio of apprentices and trainees to journeymen shall be determined by the Contractor in accordance with the recommendations set forth in the Standards of the National Joint Apprentice Committee for the occupation, which are on file at offices of the U.S. Department of Labor's Bureau of Apprenticeship and Training; and (iii) for any occupation for which no such recommendations are found, the ratio of apprentices and trainees to journeymen shall be at least one apprentice or trainee for every five journeymen.

(d) *Payrolls and basic records.*

PAYROLLS AND BASIC RECORDS

(a) The Contractor shall maintain payrolls and basic records relating thereto during the course of the work and shall preserve them for a period of 3 years thereafter for all laborers and mechanics, including apprentices, trainees, watchmen, and guards working at the site of the work. Such records shall contain the name and address of each such employee, his correct classification, rate of pay (including rates of contributions for, or costs assumed to provide, fringe benefits), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Contractor has obtained approval from the Secretary of Labor as provided in paragraph (c) of the clause entitled "Davis-Bacon Act," he shall maintain records which show the commitment, its approval, written communication of the plan or program to the laborers or mechanics affected, and the costs anticipated or incurred under the plan or program.

(b) The Contractor shall submit weekly a copy of all payrolls to the Contracting Officer. The Government Prime Contractor shall be responsible for the submission of copies of payrolls of all subcontractors. The copy shall be accompanied by a statement signed by the Contractor indicating that the payrolls are correct and complete, that the wage rates contained therein are not less than those determined by the Secretary of Labor, and that the classifications set forth for each laborer or mechanic, including apprentices and trainees, conform with the work he performed. Submission of the "Weekly Statement of Compliance" required under this contract and the Copeland Regulations of the Secretary of Labor (29 CFR Part 3) shall satisfy the requirement for submission of the above statement. The Contractor shall submit also a copy of any approval by the Secretary of Labor with respect to fringe benefits which is required by paragraph (c) of the clause entitled "Davis-Bacon Act."

(c) The Contractor shall make the records required under this clause available for inspection by authorized representatives of the Contracting Officer and the Department of Labor, and shall permit such representatives to interview employees during working hours on the job.

(e) *Compliance with Copeland Regulations.*

COMPLIANCE WITH COPELAND REGULATIONS

The Contractor shall comply with the Copeland Regulations of the Secretary of Labor (29 CFR Part 3) which are incorporated herein by reference.

(f) *Withholding of funds.*

WITHHOLDING OF FUNDS

(a) The Contracting Officer may withhold or cause to be withheld from the Government Prime Contractor so much of the accrued payments or advances as may be considered necessary (1) to pay laborers and mechanics, including apprentices, trainees, watchmen, and guards employed by the Contractor or any subcontractor on the work the full amount of wages required by the contract, and (2) to satisfy any liability of any Contractor and subcontractor for liquidated damages under paragraph (b) of the clause entitled "Contract Work Hours and Safety Standards Act—Overtime Compensation."

(b) If any Contractor or subcontractor fails to pay any laborer, mechanic, apprentice, trainee, watchman, or guard employed or working on the site of the work, all or part of the wages required by the contract, the Contracting Officer may, after written notice to the Government Prime Contractor, take such action as may be necessary to cause suspension of any further payments or advances until such violations have ceased.

(g) *Subcontracts.*

SUBCONTRACTS

The Contractor agrees to insert the clauses hereof entitled "Davis-Bacon Act," "Contract Work Hours and Safety Standards Act—Overtime Compensation," "Apprentices and Trainees," "Payrolls and Basic Records," "Compliance with Copeland Regulations," "Withholding of Funds," "Subcontracts," and "Contract Termination—Debarment" in all subcontracts. The term "Contractor" as used in such clauses in any subcontract shall be deemed to refer to the subcontractor except in the phrase "Government Prime Contractor."

(h) *Contract termination—debarment.*

CONTRACT TERMINATION—DEBARMENT

A breach of the clauses hereof entitled "Davis-Bacon Act," "Contract Work Hours and Safety Standards Act—Overtime Compensation," "Apprentices and Trainees," "Payrolls and Basic Records," "Compliance with Copeland Regulations," "Withholding of Funds," "Subcontracts," and "Contract Termination—Debarment" may be grounds for termination of the contract, and for debarment as provided in 29 CFR 5.6.

(i) *Disputes concerning labor standards.*

DISPUTES CONCERNING LABOR STANDARDS

Disputes arising out of the labor standards provisions of this contract shall be subject to the Disputes clause except to the extent such disputes involve the meaning of classifications or wage rates contained in the wage determination decision of the Secretary of Labor or the applicability of the labor provisions of the contract which questions shall be referred to the Secretary of Labor in accordance with the procedures of the Department of Labor.

§ 1–18.703–2 Contracts with a State or political subdivision.

In the case of construction contracts with a State or political subdivision thereof, the contract clauses required by § 1–18.703–1 shall be inserted therein but shall be prefaced by the following provision:

The Contractor agrees to comply with the requirements of the Contract Work Hours and Safety Standards Act, and to insert the following clauses in all subcontracts hereunder with private persons or firms.

§ 1–18.703–3 Overseas contracts.

Every construction contract in excess of $2,000 for work outside the United States, but which is nevertheless subject to the Contract Work Hours and Safety Standards Act as set forth in § 1–12.302(d), shall include the clause in § 1–12.303. Standard Form 19–A should not be used in such contracts (see § 1–16.402).

§ 1–18.704 Wage determinations.

§ 1–18.704–1 General.

Wage determinations reflecting the prevailing wages, including fringe benefits, for laborers and mechanics in a particular area are issued by the Department of Labor. See 29 CFR Part 1 for Department of Labor regulations dealing with questions relating to determination procedures.

§ 1–18.704–2 Types of wage determinations.

(a) A general or area wage determination is published in the FEDERAL REGISTER for use by all Government agencies and provides wage rates for all contracts for the types of construction designated in the determination which may be awarded within a given geographical area. These general or area wage determinations contain no expiration date and shall be modified and the modifications published in the FEDERAL REGISTER on a timely basis to keep them current.

(b) A project area or installation (54A) determination is issued for use by the requesting Federal agency and provides wage rates for all contracts for work described in the determination which may be awarded at an installation or within a given geographical area (usually a county) during the life of the determination. This type of determination is used only when no general wage determination has been issued, and may be requested for installations or areas where continuing construction activity is anticipated. These wage determinations are effective for 120 calendar days from the date of initial issue and are void for incorporation into contracts awarded after that period unless extended as provided in 29 CFR 5.4.

(c) An individual determination (sometimes referred to as "a project determination") is provided upon request for use in a contract to be performed at an installation, or in an area, not covered by either of the above types of determination. These individual wage determinations are effective for 120 calendar days from the date of initial issue and are void for incorporation into contracts awarded after that period unless extended as provided in 29 CFR 5.4.

§ 1–18.704–3 Procedure for requesting determinations.

(a) *Requests for project area or individual wage determinations.* Requests shall be submitted on completed Standard Form 308, Request for Determination and Response to Request, to the Regional Administrator of the Employment Standards Administration, Department of Labor, who has jurisdiction within the geographic area where the applicable project will be performed. Only those classifications shall be checked on the form which will be needed in the performance of the work. Needed classifications that are not on the form may be added. The agency shall not list classifications which can be fitted into classifications on the form, or classifications which are not generally recognized in the area or in the construction industry. Requests shall:

(1) Include a sufficiently detailed description of the work to indicate the type of construction involved; i.e., building, heavy, highway, or other type;

(2) Include the location of the project, giving the distance in miles and the direction from the nearest point of reference;

(3) Include the agency's evaluation of whether the project is a building, heavy, highway, or other type of construction project;

(4) Be accompanied by any available pertinent wage payment information unless the wage patterns in the area are clearly established; and

(5) Include a complete statement of the incidence of use of the last previously issued installation determination, the total dollar amount of the contracts awarded thereunder, and an estimate of the use of any new determination during its 120-day life. This should include a brief description of the planned projects (i.e., commercial, residential, heavy, or highway), the estimated cost of each project, and the kinds of laborers and mechanics likely to be employed.

The addresses of the various Regional Administrators of the Employment Standards Administration are set forth below:

BOSTON REGION

For the States of Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, and Connecticut:
Regional Administrator, Employment Standards Administration, U.S. Department of Labor, Room 1612C, John F. Kennedy Federal Building, Government Center, Boston, MA 02203 (Telephone: 617–223–2035).

NEW YORK REGION

For the States of New York and New Jersey and for Puerto Rico and the Virgin Islands:
Regional Administrator, Employment Standards Administration, U.S. Department of Labor, 1515 Broadway, New York, NY 10036 (Telephone: 212–971–5451).

PHILADELPHIA REGION

For the States of Pennsylvania, Maryland, Delaware, Virginia, West Virginia, and the District of Columbia:
Regional Administrator, Employment Standards Administration, U.S. Department of Labor, Room 704C, 1317 Filbert Street, Philadelphia, PA 19107 (Telephone: 215–597–9633).

ATLANTA REGION

For the States of Florida, Georgia, North Carolina, South Carolina, Tennessee, Alabama, Kentucky, and Mississippi:
Regional Administrator, Employment Standards Administration, U.S. Department of Labor, Room 331, 1371 Peachtree Street NE, Atlanta, GA 30309 (Telephone: 404–526–5801).

CHICAGO REGION

For the States of Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin.
Regional Administrator, Employment Standards Administration, U.S. Department of Labor, U.S. Courthouse and Federal Office Building, Room 742, 219 South Dearborn Street, Chicago, IL 60604 (Telephone: 312–353–7280).

DALLAS REGION

For the States of Texas, New Mexico, Oklahoma, Arkansas, and Louisiana:
Regional Administrator, Employment Standards Administration, U.S. Department of Labor, Room 13F12, 1100 Commerce Street, Dallas, TX 75202 (Telephone: 214–749–2037).

KANSAS CITY REGION

For the States of Missouri, Kansas, Nebraska, and Iowa:
Regional Administrator, Employment Standards Administration, U.S. Department of Labor, Room 2000, Federal Office Building, 911 Walnut Street, Kansas City, MO 64102 (Telephone: 816–374–5384).

DENVER REGION

For the States of Colorado, North Dakota, South Dakota, Utah, Wyoming, and Montana:
Regional Administrator, Employment Standards Administration, U.S. Department of Labor, Room 246, 232 New Customhouse, 721 19th Street, Denver, CO 80202 (Telephone: 303–837–4613).

SAN FRANCISCO REGION

For the States of California, Nevada, Arizona, and Hawaii, and for Guam, and various Pacific Islands:
Regional Administrator, Employment Standards Administration, U.S. Department of Labor, 450 Golden Gate Avenue, Room 10431, San Francisco, CA 94102 (Telephone: 415–556–1318).

SEATTLE REGION

For the States of Washington, Oregon, Idaho, and Alaska:
Regional Administrator, Employment Standards Administration, U.S. Department of Labor, 2008 Smith Tower, 506 Second Avenue, Seattle, WA 98104 (Telephone: 206–442–1536).

(b) *Requests for general wage determinations.* A contracting agency may submit a request to the Administrator, Wage and Hour Division, Department of Labor, for issuance of a general (area) wage determination for use on individual contracts for a particular type of construction in a particular area whenever (1) the wage patterns for the particular type of construction are well settled in that area, and (2) the agency anticipates a large volume of the particular type of construction in the area. The request shall include the information set forth in paragraph (a) of this section. The Administrator will issue such a determination pursuant to such a request or at his own discretion.

(c) *Time of submission of requests.* Requests for wage determinations ordinarily should be submitted to the Department of Labor at least 30 calendar days before they are required for use in advertising for bids or for entering into negotiations of the contract for which the determinations are sought.

(d) *Limitations.* Each project area and individual wage determination is effective for 120 calendar days from the date of the determination, and is applicable only to contract awards made within that period. Accordingly, if it appears that a wage determination will expire before a contract can be awarded, a new determination should be requested at a date which will permit its receipt and issuance to prospective bidders by amendment of the invitation for bids before the date set for bid opening. In individual cases, upon a written finding by the head of the agency that due to unavoidable circumstances a wage determination expired after bid opening but before award, the Administrator, Wage and Hour Division, Department of Labor, may extend the period of effectiveness of the wage determination whenever he finds it necessary and proper in the public interest to prevent injustice or undue hardship or to avoid serious impairment in the conduct of Government business. General wage determinations normally will be published in the FEDERAL REGISTER on Fridays and will contain no expiration date (see § 1–18.704–2(a)).

(e) *Modification.* On any negotiated procurement a modification of a project area or individual wage determination by an appropriate Department of Labor official shall be made part of the proposed contract if received prior to the award of the contract. However, in procurements involving formal advertising or small business restricted advertising, any modification received by the contracting agency concerned less than 10 calendar days before the opening of bids shall be disregarded unless it is determined that such modifications reasonably can be furnished to bidders by means of an amendment of the invitation for bids in time to be considered in the preparation of their bids. Modifications received by an agency should

V 38-152 AUG 8 73 XUM

be time-date stamped to show the date of receipt by the agency. A modification of a general wage determination shall be incorporated in a negotiated contract if published in the FEDERAL REGISTER prior to completion of negotiation; if published in the FEDERAL REGISTER less than 10 calendar days before the opening of bids on an advertised procurement, the modification shall not be effective unless the agency finds that there is a reasonable time in which to notify bidders of the modification.

§ 1–18.704–4 Rates to be included in solicitations.

In solicitations for work in an area covered by either a general area wage determination, or a project area or installation (54A) determination, containing more than one schedule (i.e., building construction, heavy, and highway construction) there shall be included only the rate schedule or individual rates applicable to the particular type of construction involved. In cases requiring the utilization of more than one schedule, the item of work to which each schedule is applicable shall be defined.

§ 1–18.704–5 Wage determinations in solicitations and awards.

(a) *Formally advertised procurements.* (1) Whenever it appears before bid opening that a wage determination may expire before award, or a determination actually does expire before bid opening, a new determination shall be requested. The scheduled bid opening date shall be postponed, if necessary, to allow a reasonable time to (i) obtain the determination, (ii) modify the invitation for bids to reflect the new determination, and (iii) permit bidders to amend their bids. Even if the new determination does not change the wage rates, and hence would not warrant amended bids, the solicitation must nevertheless be modified to include the number and date of the new determination.

(2) After bids have been opened in a formally advertised procurement, if a wage determination may expire before award, the agency head or his designee may, upon finding that an extension is in the public interest to prevent injustice, undue hardship, or serious impairment of the conduct of Government business, submit a written request for an extension of the expiration date to the Administrator, Wage and our Division, Department of Labor, who may extend the period of effectiveness of the determination. If an extension is not requested, or if an extension is requested and denied, a new wage determination shall be requested. If the new determination changes the wage rates, the invitation for bids shall be changed and the procurement readvertised using the new wage rates.

(b) *Negotiated procurements.* Whenever (1) it appears that a wage determination will expire before award is made, or (2) the determination actually does so expire, a new wage determination shall be requested. If the new determination makes a change in the wage rates, the wage rate information specified in the new determination shall be furnished to (1) all prospective offerors to whom a solicitation has been sent if the closing date for receipt of proposals has not yet occurred, or (2) to all prospective offerors who have submitted proposals if the closing date is past. All prospective offerors to whom such information has been furnished shall be given a reasonable opportunity to amend their proposals. The contracting officer need not delay opening and reviewing proposals or discussing them with the respective offerors while a new determination is being sought and offerors are preparing amended proposals. Offerors should be requested to extend the period for acceptance of any proposal if that period expires or may expire while the contracting officer is waiting for a new wage determination.

(c) *Receipt of new determination before expiration of original determination.* When a new determination has been requested and received before award, but an award is made before the expiration date of the original determination, the new determination must be treated as a superseding decision in accordance with § 1–18.704–7, except that the expiration of the new determination shall be controlled by the date thereon and not by the date on the determination which it replaces.

§ 1–18.704–6 Formal advertising without a wage determination.

In the event a solicitation is to be issued before the wage determination is obtained a notice shall be included in the invitation for bids that the schedule of minimum wage rates to be paid under the contract will be issued as an amendment to the specifications. Under no circumstances may bids be opened until a reasonable time after the wage determination has been furnished to all bidders.

§ 1–18.704–7 Modifications of wage determinations.

(a) During the life of any wage determination, it may be modified (1) by the "letter of inadvertence," which is used to correct a clerical error in a wage determination, (2) a "notice of modification," which specifies a change in a wage determination, or (3) a "superseding decision," which is a reissuance of a wage determination with changes incorporated. All modifications (including superseding decisions) expire on the same day as the original determination. Since the need for inclusion of a modification in a solicitation is determined by the time of receipt in the agency concerned, all modifications shall be time-date stamped immediately upon receipt by the agency concerned. The need for inclusion of a modification of a general wage determination is determined by the publication date in the FEDERAL REGISTER.

(b) A modification which affects wage rates included in a solicitation, and which was received by the agency concerned earlier than 10 calendar days before bid opening, or a modification published in the FEDERAL REGISTER within 10 days before bid opening, in formally advertised procurements or award in negotiated procurements shall be processed upon receipt by the contracting officer as follows (note distinction between agency and contracting officer):

(1) *Formally advertised procurements.* If the modification reaches the contracting officer before bid opening, he shall issue an amendment to the invitation for bids and, if necessary, extend the date of bid opening.

(2) *Negotiated procurements.* If the modification reaches the contracting officer before award, he shall notify the appropriate offerors and allow them sufficient time to adjust their offers accordingly.

(c) A modification which affects wage rates included in a solicitation, and which was received by the agency concerned later than 10 days before the bid opening in formally advertised procurements or published in the FEDERAL REGISTER later than 10 days before award in negotiated procurements, must be included in the solicitation only where such action will not delay bid opening or otherwise create excessive administrative burdens and may otherwise be disregarded. A modification which accordingly is not included in the solicitation shall not be included in advertised contracts after bid opening or in negotiated contracts after award.

§ 1–18.704–8 Wage determinations appeals.

The Secretary of Labor has established a Wage Appeals Board, one of whose powers is to decide appeals concerning questions of law and fact arising from decisions of the Associate Administrator, Division of Wage Determinations, with regard to wage determinations issued under the Davis-Bacon Act and related minimum wage statutes. Each contracting agency, in accordance with procedures established by it, may file a petition for review of, or for intervention, in any matter which it appears may appropriately be brought before the Board in accordance with procedures established for the Wage Appeals Board in 29 CFR Part 7.

§ 1–18.705 Administration and enforcement.

§ 1–18.705–1 Policy.

(a) *General.* To comply with the Government policy of insuring full and impartial enforcement of the labor standards laws in the administration of construction contracts, agencies shall maintain a continuing effective enforcement program which shall include:

(1) Insuring that contractors and subcontractors are informed, prior to commencement of work, of their obligations under the labor standards provisions of their contracts;

(2) Adequate payroll and on-the-site inspections and employee interviews to determine compliance, and prompt initiation of corrective action when required;

(3) Prompt investigation and disposition of complaints; and

(4) Prompt submission of all reports required by this subpart.

(b) *Responsibility.* The contracting officer shall ascertain that the contractor is fully informed of the labor standards provisions of the contract and of his and any subcontractor's responsibilities thereunder. Unless it is clear that the contractor is otherwise fully informed, the contractor shall be so informed either by a preconstruction letter or a preconstruction conference promptly after award of the contract. Whenever the clauses under § 1–18.703–1 are applicable, the action prescribed by this § 1–18.705 shall be taken or required in accordance with procedures prescribed by each agency. Whenever the clauses under §§ 1–18.703–2 and 1–18.703–3 are applicable, the action prescribed by this § 1–18.705 shall be taken or required, in accordance with procedures prescribed by each respective agency, to the extent pertinent to the applicable clauses.

§ 1–18.705–2 Wages, fringe benefits, and overtime.

(a) In computing wages paid to a laborer or mechanic, including apprentices and trainees, the contractor may include any of the following items:

(1) Amounts paid in cash to the laborer or mechanic, or deducted from such payment in accordance with 29 CFR Part 3;

(2) Contributions, except those required by Federal, State, or local law, which the contractor makes irrevocably to a trustee or a third party pursuant to any fund, plan, or program to provide for medical or hospital care, pensions, compensation for injuries or illness resulting from occupational activity, unemployment benefits, life insurance, disability and sickness insurance, accident insurance, vacation and holiday pay, defraying costs of apprenticeship, or any other fringe benefit but contributions or payments for fringe benefits are allowed only for the specific fringe benefits contained in the applicable wage determination decision involved; and

(3) Other contributions or anticipated costs to the extent such contributions or anticipated costs have been expressly approved by the Secretary of Labor.

(b) Where the wage determination decision specifies fringe benefits payments, the contractor may satisfy his obligation under the clause entitled Davis-Bacon Act by providing wages consisting of any combination of contributions or costs as specified in (a), above, provided that the total cost of such combination is not less than the total of the basic hourly rate and fringe benefits payments prescribed in the wage determination decision for the classification of laborer or mechanic concerned. Wages provided by the contractor, or fringe benefits payments required by the wage determination decision, may include items which are not stated as exact cash amounts. In such cases, the interested parties shall determine the cash equivalent of the cost of such items when necessary to determine whether the wages provided by the contractor satisfy the requirements of the wage determination. In the event the interested parties are unable to agree on the cash equivalent, the contracting officer, in accordance with paragraph (b) of the clause entitled Davis-Bacon Act, shall submit the question for determination to the Department of Labor, in accordance with agency procedures. The submission shall include a comparison of the payments, contributions, or costs contained in the wage determination decision with those made or proposed by the contractor as equivalent thereto, together with the comments and recommendations of the contracting officer.

(c) For purposes of computing required overtime payments, the basic rate of pay specified in the wage determination, or that actually paid by the contractor if higher, shall be used. The basic rate does not include any amount paid as fringe benefits, and overtime is not required to be paid on the contractor's contributions, costs, or payment of cash equivalent for fringe benefits. In no event may overtime be computed on a rate lower than the basic rate specified in the wage determination.

§ 1–18.705–3 Additional classifications.

(a) *Requirements.* Whenever any laborer or mechanic is to be employed in a classification not listed in the wage determination applicable to the contract, the contractor shall submit to the contracting officer a statement of the proposed additional classification and minimum wage rate, including fringe benefits payments, if any. Upon approval, the additional classification and rate shall be posted with the wage determination.

(b) *Approval.* Upon receipt of the request for authorization, the contracting officer shall review it to determine whether it meets the following criteria:

(1) The classification is an appropriate one which cannot be fitted into a classification contained in the applicable wage determination; and

(2) The proposed wage rate, including any fringe benefits, conforms to the wage determination contained in the contract.

If the above criteria are met and no interested party objects to the proposed classification, the contracting officer or his representative shall approve the proposal and submit an information copy to the Department of Labor. If the criteria are not met or the interested parties cannot agree on the proposal, the contracting officer or his representative shall submit the proposal, together with available pertinent information, and his recommendation to the Department of Labor for final determination. Upon approval, the contracting officer shall notify the contractor and instruct him to post the approved rate and classification in accordance with § 1–18.705–7.

§ 1–18.705–4 Apprentices and trainees.

(a) As provided in paragraph (a) of the clause set forth in § 1–18.703–1(c), the contractor or subcontractor is required to furnish written evidence of registration of his program and apprentices and trainees, as well as of the ratios allowed and the wage rates required to be paid thereunder for the area of construction before using any apprentices and trainees on the contract work.

(b) All contractors planning to use apprentices and trainees on a construction project are required to obtain written evidence of registration of such employees in a program registered under the State apprenticeship agency which is recognized by the Bureau of Apprenticeship and Training, Department of Labor. If no such agency exists within a State, an apprentice or trainee must be enrolled under a program registered with the Bureau of Apprenticeship and Training, Department of Labor. The contractor will then submit to the contracting officer this evidence of registration, together with evidence of the established apprenticeship-journeyman ratios and wage rates in the project area, which will be the basis for establishing such ratios and rates for the project. These data will be maintained by the contracting officer with payroll records.

(c) Exemptions from any requirement of the clause entitled "Apprentices and Trainees" may be granted when such action is necessary and proper in the public interest, or to prevent injustice, or undue hardship. A request for a variation, tolerance, or exemption may be made in writing by any interested person to the Secretary of Labor, Washington, DC 20210. Enforcement activities, including the investigation of complaints of violations, to insure compliance with the requirements of the clause entitled "Apprentices and Trainees" shall be the primary duty of the agency awarding the contract or providing the Federal assistance. The Department of Labor will coordinate its efforts with the various agencies.

§ 1–18.705–5 Subcontracts.

The contracting officer shall obtain a list of all subcontracts, together with a description of the work to be performed thereunder. This list will be useful in obtaining compliance with the requirements for submission of payrolls by the contractor and subcontractors.

§ 1–18.705–6 Payrolls and statements.

(a) *Submission.* Within 7 calendar days after the regular payment date of the payroll week covered, the contractor is required to submit, or cause to be submitted for himself and his subcontractors (1) copies of weekly payrolls in compliance with the clause set forth in § 1–18.703–1(d), and (2) weekly statements of compliance as required by the Copeland Regulations (29 CFR Part 3) incorporated in the contract by the clause set forth in § 1–18.703–1(e) (see 29 CFR 3.3 for form of weekly statement of compliance).

(b) *Examination.* The executive agency concerned shall make such examination of the payrolls and statements as may be necessary to insure compliance with contract, statutory, and regulatory requirements. Particular attention should be given to the correctness of classifications and disproportionate employment of laborers, helpers, apprentices, or trainees to journeymen.

V 38 - 152 AUG 8 73 XUM

(c) *Preservation.* Unless specifically excepted by the Department of Labor, payrolls and statements shall be preserved by the executive agency concerned for a period of 3 years from the date of completion of the contract and shall be produced at the request of the Secretary of Labor at any time during such period.

§ 1–18.705–7 Posting wage determinations.

The contracting officer shall ascertain that a copy of the wage determination is kept posted at the site of the work in a prominent place where it can be easily seen by the workers.

§ 1–18.705–8 Investigations.

(a) *Regular investigations.* The executive agency concerned shall make such investigations as may be necessary to insure compliance with contract, statutory, and regulatory requirements as follows:

(1) Contracts of 6 months or less duration shall be investigated before final payment is made, if feasible.

(2) Contracts of more than 6 months duration shall be investigated with such frequency as may be necessary to insure compliance. The investigations shall include interviews of employees on a sampling basis.

(b) *Special investigations.* Special investigations in detail shall be made when required by complaints or other evidence of violations. Complaints of violations shall be given priority.

(c) *Confidential nature of statements.* When oral or written statements are taken from employees during regular or special investigations they shall be treated as confidential and shall not be disclosed to the employer without the written consent of the employee.

§ 1–18.705–9 Suspensions and deductions of contract payments.

When wage underpayments are found, the contractor shall be requested to make, or cause to be made, restitution to the employees and/or to plans, funds, or programs for any type of fringe benefits required by the applicable wage determination. If the contractor or subcontractor fails or refuses to pay all or any part of the wages due the employees, the contracting officer shall withhold from payments due the contractor an amount equal to the estimated underpayments, as well as any estimated liquidated damages due under the Contract Work Hours and Safety Standards Act. If wage underpayments continue, or the failure or refusal to make restitution appears continuing or willful, or if the contractor fails or refuses to comply with any other contract, statutory, or regulatory requirements, the contracting officer may suspend all contract payments to the contractor until the violations have ceased. If restitution has not been made prior to final payment under the contract, the contracting officer shall submit with the contractor's payment voucher or vouchers a Standard Form 1093, Schedule of Withholdings Under the Davis-Bacon Act, and a statement of the amounts to be withheld for underpayment of wages and liquidated damages pursuant to the Contract Work Hours and Safety Standards Act. These amounts shall be deducted from payments under the contract and shall be disposed of in accordance with agency procedures. Timely action to withhold for underpayments is encouraged by the General Accounting Office.

§ 1–18.705–10 Reports.

(a) *Semiannual reports.* Each agency shall furnish to the Department of Labor by July 31 and January 31 of each calendar year semiannual reports on compliance with and enforcement of the labor standards provisions of the Davis-Bacon Act and its related acts and the Contract Work Hours and Safety Standards Act covering the periods of January 1 through June 30 and July 1 through December 31, respectively. Such reports shall be prepared in the manner prescribed in Department of Labor circular memoranda.

(b) *Reports of violations.* (1) No report need be made when the underpayments (i) total less than $500, (ii) are nonwillful, (iii) restitution has been effected, and (iv) future compliance has been assured, except where the investigation was expressly requested by the Department of Labor. In the latter case, the investigating agency shall submit a factual summary report in accordance with 29 CFR 5.7(a)(1).

(2) For all other such underpayments the agency shall furnish to the Department of Labor, as soon as practicable, a detailed enforcement report. Such reports shall be prepared in accordance with 29 CFR 5.7(a)(2).

(3) Where there is substantial evidence that violations are willful and in breach of the provisions of section 1001 of Title 18, United States Code, or other criminal statute, the matter shall be forwarded to the Attorney General of the United States for prosecution and the Secretary of Labor shall be informed of such action.

§ 1–18.705–11 Contract terminations.

Whenever a contract is terminated for violation of the labor standards provisions, a report shall be submitted by the agency concerned to the Secretary of Labor and the Comptroller General. The report shall include the name and address of the terminated contractor or subcontractor, the name and address of the contractor or subcontractor who is to complete the work, the amount and number of the latter's contract, and a description of the work thereunder.

§ 1–18.705–12 Cooperation with the Department of Labor.

The contracting agency concerned shall cooperate with representatives of the Department of Labor in the inspection of records, interviews with workers, and all other aspects of investigations undertaken by the Department of Labor. When requested, the contracting agencies shall furnish to the Secretary of Labor any available information with respect to contractors, subcontractors, their contracts, and the nature of the contract work.

§ 1–18.705–13 Review of recommendations for an appropriate adjustment in liquidated damages under the Contract Work Hours and Safety Standards Act.

Whenever the head of an agency finds that a sum of liquidated damages administratively determined to be due under section 104(a) of the Contract Work Hours and Safety Standards Act is incorrect or that the contractor or subcontractor violated inadvertently the povisions of the Contract Work Hours and Safety Standards Act notwithstanding the exercise of due care upon the part of the contractor or subcontractor involved, he may (a) make an appropriate adjustment in, or release the contractor or subcontractor of liability for, such liquidated damages where the amount of the damages is $100 or less, or (b) make recommendations for adjustment or relief to the Secretary of Labor where the amount of the damages is in excess of $100, as provided in 29 CFR 5.8.

§ 1–18.706 Disposition of disputes arising out of construction contract labor standards enforcement.

The areas of possible differences of opinion between contracting officers and contractors in construction contract labor standards enforcement include misclassification of workers, hours of work, wage rates and payment, withholding practices, and the applicability of the labor standards provisions under varying circumstances. For the most part, these are settled administratively by the agency concerned. If necessary, such differences may be settled with assistance from the Department of Labor, without reference to the Disputes clause of the construction contract. Those disagreements which cannot be settled administratively by the agency shall be subject to the Disputes clause, except for disputes involving the meaning of classifications, wage rates contained in the wage determination of the Secretary of Labor, or the applicability of contract labor provisions. These matters shall be referred to the Secretary of Labor for an opinion, in accordance with 29 CFR 5.12, with sufficient supporting data to explain both sides of the dispute. No final decision on these matters shall be made by the contracting officer pursuant to the Disputes clause. The opinion obtained shall be made a part of the contract file and shall be applied (a) in the investigation of the case, and (b) in the computation of wage underpayments. The contractor will be furnished a copy of the opinion with advice that if aggrieved therewith he may appeal to the Wage Appeals Board of the Department of Labor in accordance with 29 CFR Part 7.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effect on other issuances. This regulation cancels FPR Temporary Regulation 25.

Effective date. This regulation is effective August 31, 1973, but may be observed earlier.

Dated: August 1, 1973.

ARTHUR F. SAMPSON,
Administrator of General Services.

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS) DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 249—SERVICES AND PAYMENT IN MEDICAL ASSISTANCE PROGRAMS

Standards for Payment for Skilled Nursing Home Care

Section 246(b) of P.L. 92–603, Social Security Amendments of 1972, provides that the Secretary of Health, Education, and Welfare will exercise waiver authority with respect to application of the Life Safety Code of the National Fire Protection Association to skilled nursing facilities. The statutory provision was effective July 1, 1973. In order to clarify the procedures to be used pending the issuance of overall regulations on the standards for participation of skilled nursing homes in the Medicaid program, the current regulations are being amended to implement section 246(b) effective August 1, 1973. Under this provision, State survey agencies, as part of the State responsibility for administration of the program, will make recommendations to the Secretary for waivers relating to fire safety standards for individual facilities.

This amendment puts into effect one of the provisions included in the notice of proposed rulemaking for the Medicaid and Medicare programs published on July 12, 1973 (see proposed 20 CFR 405.1134(a), 38 FR 18628). The major difference from existing Medicaid regulations is the making of final determinations on waivers by the Secretary rather than the State agency. Since the amendment carries out an already effective statutory provision, notice of proposed rulemaking and public procedure thereon are dispensed with.

Accordingly, § 249.33, Part 249, is amended as set forth below.

1. Paragraph (a)(1)(vii) is revised to read as follows:

§ 249.33 Standards for payment for skilled nursing home care.

(a) State plan requirements. • • •

(1) • • •

(vii) Meet such provisions of the Life Safety Code of the National Fire Protection Association (21st Edition, 1967) as are applicable to nursing homes; except that, in consideration of a recommendation by the State survey agency, the Secretary may waive, for such periods as deemed appropriate, specific provisions of such Code which, if rigidly applied, would result in unreasonable hardship upon a skilled nursing facility, but only if such waiver will not adversely affect the health and safety of the patients; and except that the provisions of such Code shall not apply in any State if the Secretary finds, in accordance with applicable provisions of section 1861 of the Social Security Act, that in such State there is in effect a fire and safety code, imposed by State law, which adequately protects patients in skilled nursing facilities. Where waivers permit the participation of an existing facility of two or more stories which is not of at least 2-hour fire resistive construction, blind, nonambulatory, or physically handicapped patients are not housed above the street level floor unless the facility is of 1-hour protected noncombustible construction (as defined in National Fire Protection Association Standard No. 220), fully sprinklered 1-hour protected ordinary construction, or fully sprinklered 1-hour protected woodframe construction. Nonflammable medical gas systems, such as oxygen and nitrous oxide., installed in the facility comply with applicable provisions of National Fire Protection Association Standard No. 56B (Standard for the Use of Inhalation Therapy) 1968 and National Fire Protection Association Standard No. 56F (Nonflammable Medical Gas Systems) 1970.

• • • • • •

2. Paragraph (c)(2) is revised to read as follows:

(c) *Conditions under which the single State agencies may waive certain requirements.* • • •

(2) The single State agency may waive the application to a skilled nursing home of one or more specific provisions of 20 CFR 405.1125(1), 405.1134, (other than paragraph (a)) 405.1135, or 405.1136 if it finds on the basis of documented evidence derived from a survey that:

• • • • • •

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302))

(Catalog of Federal Domestic Assistance Program No. 13.714 (Medical Assistance Program.))

Effective date: August 1, 1973.

Dated: July 24, 1973.

JAMES S. DWIGHT, JR.,
Administrtor, Social and Rehabilitation Service.

Approved: August 6, 1973.

FRANK CARLUCCI
Acting Secretary.

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 1; Amdt. 1–75]

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Miscellaneous Amendments

The purpose of this amendment to Part 1 is to delete from the delegation to the Deputy Under Secretary in 49 CFR 1.54(d) the authority to redelegate the function delegated therein as redundant of the general authority to redelegate at 49 CFR 1.52(b)(1), and to revise entirely paragraph (c) of the delegations to the Assistant Secretary for Administration (49 CFR 1.60(c)).

Since this amendment relates to Departmental management, procedures, and practices, notice and public procedure thereon are unnecessary and it may be made effective in less than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, effective August 8, 1973, Part 1 of Title 49 of the Code of Federal Regulations is amended as follows:

1. Paragraph (d) of § 1.54 is revised to read as follows:

§ 1.54 Delegations to Deputy Under Secretary.

• • • • • •

(d) Request apportionment or reapportionment of funds by the Office of Management and Budget, provided that no request for apportionment or reapportionment which anticipates the need for a supplemental appropriation shall be submitted to the Office of Management and Budget without appropriate certification by the Secretary.

• • • • • •

2. Paragraph (c) of § 1.60 is revised to read as follows:

§ 1.60 Delegations to Assistant Secretary for Administration.

• • • • • •

(c) *Finance.* (1) Administer the financial and fiscal affairs of the Office of the Secretary (other than those for which the Deputy Under Secretary is responsible), in accordance with 31 U.S.C. 66a.

(2) Designate to the Treasury Department certifying officers and designated agents for the Office of the Secretary and imprest fund cashiers for the Departmental headquarters.

(3) In accordance with 31 U.S.C. 82a–1, grant or recommend relief from accountability for losses or deficiencies of disbursing officers, cashiers, or other accountable officers as follows:

(i) Grant relief for losses or deficiencies of less than $150 for which charges or exceptions have not been raised by the General Accounting Office.

V 38-152 AUG 8 73 XUM

(ii) Recommend relief by the Comptroller General for all other loss or deficiencies.

(4) Settle and pay claims by employees of the Office of the Secretary for personal property losses, as provided by 31 U.S.C. 241(b).

(5) Consider, ascertain, adjust, determine, and settle, for an amount not exceeding $25,000, any tort claim referred to, or arising from the activities of, the Office of the Secretary. Request, through the General Counsel, the approval of the Attorney General for any such award compromise, or settlement in excess of $25,000 (28 U.S.C. 2672).

(6) Waive, in whole or in part, claims resulting from erroneous overpayment of pay to an employee of the Office of the Secretary, as provided by 4 CFR Parts 91, 92 and 93. This authority may be redelegated only to the Director of Management Systems.

(7) Compromise, suspend collection action on, or terminate claims of the United States not exceeding $20,000 which are referred to, or arise out of the activities of, the Office of the Secretary.

(8) Determine the existence and amount of indebtedness and the method of collecting repayments from employees of the Office of the Secretary and collect repayment accordingly, as provided by 5 U.S.C. 5514. This authority may be redelegated only to the Chief, Accounting Operations Center.

(9) Sign Budget Execution reports required by OMB Circular A-34, for the Office of the Secretary.

This action is taken under the authority of section 9(e) of the Department of Transportation Act (49 U.S.C. 1657 (e)).

Issued in Washington, D.C., on July 31, 1973.

CLAUDE S. BRINEGAR,
Secretary of Transportation.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

PART 1033—CAR SERVICE

[S.O. 1146]

New York Dock Railway

At a session of the Interstate Commerce Commission, Railroad Service Board, held at its office in Washington, D.C., on the 2d day of August 1973.

It appearing, that the Bush Terminal Railroad Company, in Finance Docket No. 25896, was authorized to abandon its entire line of railroad; that the Bush Terminal Railroad Company ceased railroad operations on December 15, 1971; that the New York Dock Railway has agreed to operate the trackage abandoned by the Bush Terminal Railroad Company; that the Commission is of the opinion that there is need for railroad service to industries located on this trackage; that operations over this trackage by the New York Dock Railway are necessary to restore railroad service to these industries in the interest of the public and the commerce of the people; that notice and public procedure herein are impractical and contrary to the public interest; and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1146 Service Order No. 1146.

(a) *New York Dock Railway authorized to operate over trackage abandoned by Bush Terminal Railroad Company.* The New York Dock Railway be, and it is hereby authorized to operate over trackage abandoned by the Bush Terminal Railroad Company.

(b) *Application.* The provisions of this order shall apply to intrastate and foreign traffic, as well as to interstate traffic.

(c) *Rules and regulations suspended.* The operation of all rules and regulations, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Effective date.* This order shall become effective at 11:59 p.m., August 2, 1973.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., September 30, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15 and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15 and 17 (2). Interprets or applies Secs. 1(10-17), 15 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2).)

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Certain National Wildlife Refuges in Nevada

The following regulations are issued and are effective August 8, 1973. These regulations apply to public hunting on portions of certain National Wildlife Refuges in Nevada.

General conditions: Hunting shall be in accordance with applicable State regulations. Portions of refuges which are open to hunting are designated by signs and/or delineated on maps. No vehicle travel is permitted except on maintained roads and trails. Special conditions applying to individual refuges are listed on the reverse side of maps available at refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 1500 Northeast Irving Street, Portland, Oregon 97208.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Big game animals may be hunted on the following refuge areas:

Desert National Wildlife Range, 1500 North Decatur Boulevard, Las Vegas, Nevada 89108.

Special Condition: Desert bighorn sheep only.

Charles Sheldon Antelope Range, Nevada, (Headquarters: P.O. Box 111, Lakeview, Oregon 97630).

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1974.

L. EDWARD PERRY,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

JULY 30, 1973.

[FR Doc.73-16293 Filed 8-7-73;8:45 am]

PART 32—HUNTING

Certain National Wildlife Refuges in Oregon

The following regulations are issued and are effective August 8, 1973. These regulations apply to public hunting on portions of certain National Wildlife Refuges in Oregon.

General conditions: Hunting shall be in accordance with applicable State regulations. Portions of refuges which are open to hunting are designated by signs and/or delineated on maps. No vehicle travel is permitted except on maintained roads and trails. Special conditions applying to individual refuges are listed on the reverse side of maps available at refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, P.O. Box 3737, Portland, Oregon 97208.

§ 32.32 Special regulations; big game; for individual wildlife areas.

Big game animals may be hunted on the following refuge areas:

Deer Flat National Wildlife Refuge, Snake River Sector (Headquarters: Deer Flat National Wildlife Refuge, Route 1, Box 1457, Nampa, Idaho 83651).

Hart Mountain National Antelope Refuge, P.O. Box 111, Lakeview, Oregon 97630.

Deer may be hunted on the following refuge areas:

Malheur National Wildlife Refuge, P.O. Box 113, Burns, Oregon 97220.

Special Conditions: 1. That portion of the refuge in the Blitzen Valley west of Highway 205 from Diamond Lane south will be open to deer hunting in accordance with regular State season.

2. The special archery area (bow and arrow only) will be opened for hunting from August 25 through September 3, 1973.

William L. Finley National Wildlife Refuge, Route 2, Box 208, Corvallis, Oregon 97330.

Special Conditions: 1. All hunters are required to obtain a refuge permit and check in and out of the refuge daily.

2. The use of rifles is prohibited.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1973.

L. EDWARD PERRY,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

JULY 30, 1973.

[FR Doc.73-16294 Filed 8-7-73;8:45 am]

PART 32—HUNTING

J. Clark Salyer National Wildlife Refuge

The following special regulation is issued and is effective August 8, 1973.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NORTH DAKOTA

J. CLARK SALYER NATIONAL WILDLIFE REFUGE

Public hunting of deer with bow and arrow on the J. Clark Salyer National Wildlife Refuge, North Dakota, is permitted from August 31 through November 4 and November 19 through December 31, 1973, only on the area designated by signs as open to hunting. This open area, comprising 31,542 acres, is delineated on a map available at the refuge headquarters, Upham, North Dakota, and from the office of the Area Manager, Bureau of Sport Fisheries and Wildlife, P.O. Box 1897, Bismarck, North Dakota 58501. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer with bow and arrow, subject to the following conditions:

Hunting is by foot only. Vehicles are to remain on established refuge roads only.

All hunters must exhibit their hunting licenses, game and vehicle contents to Federal and State officers upon request.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 31, 1973.

ROBERT C. FIELDS,
Refuge Manager, J. Clark Salyer National Wildlife Refuge, Upham, North Dakota.

AUGUST 1, 1973.

PART 32—HUNTING

Crab Orchard National Wildlife Refuge, Ill.

The following special regulation is issued and is effective August 8, 1973.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

ILLINOIS

CRAB ORCHARD NATIONAL WILDLIFE REFUGE

Public hunting of black, gray, and fox squirrels on the Crab Orchard National Wildlife Refuge, Illinois, is permitted from sunrise August 1, 1973, to sunset November 15, 1973, only on the area designated by signs as open to hunting. This open area, comprising 9,380 acres is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Hunting shall be in accordance with all applicable State regulations concerning the hunting of squirrels.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuges generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 15, 1973.

DARRELL D. UPTEGRAFT,
Acting Project Manager, Crab Orchard National Wildlife Refuge, P.O. Box J, Carterville, Illinois

JULY 31, 1973.

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Parts 3000, 3200]

GEOTHERMAL RESOURCES

Leasing on Public, Acquired, and Withdrawn Lands; Correction and Extension of Comment Period

The purpose of this notice is to correct the inadvertent omission of § 3230.1–5 from the proposed geothermal regulations published in the FEDERAL REGISTER on July 23, 1973 (38 FR 19748). Section 3230.1–5 sets forth evidence requirements for qualifying to convert claimed geothermal rights to geothermal leases. In addition, this notice clarifies the proposed regulations by correcting several lesser errors.

The time for submission of written comments, suggestions, or objections, with respect to 43 CFR, Parts 3000 and 3200, proposed July 23, 1973, and § 3230.1–5 appearing below, to the Geothermal Coordinator, Department of the Interior, Washington, D.C. 20240, is hereby extended from August 22, 1973 to September 5, 1973.

1. A new § 3230.1–5 is added to Subpart 3230 of the proposed regulations to read:

§ 3230.1–5 Evidence required to qualify for grant of rights to conversion to geothermal leases, or to applications for geothermal leases.

(a) Any person claiming rights to conversion to a geothermal lease must show to the reasonable satisfaction of the authorized officer that substantial expenditures for the exploration, development or production of geothermal steam were made by the applicant who is seeking the conversion on the lands for which a lease is sought or on adjoining, adjacent or nearby lands, including both Federal and non-Federal lands. The substantial expenditures must have been made prior to December 24, 1970, and either by the applicant seeking conversion or by his predecessors in interest.

(b) For purposes of these regulations, an application for a lease or a permit, filed pursuant to applicable mineral leasing acts, pending on September 7, 1965, which subsequently ripened into a lease or permit, and which remains outstanding or has either terminated, expired or been canceled or relinquished, retains the right to conversion to an application for a geothermal lease. Applications for a lease or permit, filed pursuant to applicable mineral leasing acts, pending on September 7, 1965, which were subsequently withdrawn, retain the right to conversion to an application for a geothermal lease. Leases or permits issued pursuant to the applicable mineral leasing acts and outstanding on September 7, 1965, which were subsequently terminated, expired, or were canceled or relinquished, retain the right to conversion to a geothermal lease.

2. Section 3203.3 is corrected to read:

§ 3203.3 Consolidation of leases.

Two or more contiguous leases issued to the same lessee may be consolidated if the total combined acreage does not exceed 2,560 acres, except where a larger acreage is caused by an irregular subdivision or subdivisions as stated in 3203.2.

§ 3241.1–1 [Corrected]

3. Section 3241.1–1 is corrected by deleting "is less than 1,280 acres occasioned by" from paragraph (a)(1).

4. Section 3241.2–2 is corrected to read:

§ 3241.2–2 Number of copies required.

Three copies of all instruments of assignment or transfer, and a single copy of any additional information required by § 3202 of these regulations relating to citizenship or qualifications of corporations and associations, including partnerships, must be filed in the proper BLM Office.

5. Section 3243.4–1 is corrected by: Adding the letter "s" to corporation in paragraph (a); relettering paragraphs (c) and (d) as (b) and (c) respectively.

Dated: August 3, 1973.

W. W. LYONS,
Deputy Under Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 44]

PROCEDURES FOR DETERMINING NET WEIGHT OF FOOD PRODUCTS

Notice of Intent To Implement Proposed Procedures

Notice is hereby given that the Procedures for Determining Net Weight of Food Products, published in the FEDERAL REGISTER as a notice of proposed rulemaking on Saturday, December 18, 1971 (36 FR 24069) will not be promulgated as a final rulemaking pending resolution of the procedures with other affected government agencies.

In the interim, the Agricultural Marketing Service (AMS) will utilize the principles involved in the proposed net weight procedures by specifying individual weight requirements as well as average requirements in its procurement programs for food products.

During the comment period for the proposal, USDA consulted with representatives of the National Bureau of Standards, the Federal Food and Drug Administration, the Federal Trade Commission, the Office of Consumer Affairs, Canadian Weights and Measures officials and industry representatives.

It is evident that all concerned would benefit from adoption of one uniform procedure. The National Bureau of Standards, which furnishes guidance to State Weights and Measures authorities, is in the process of preparing a revision of their present procedure contained in Handbook 67. The first section of this revision will cover food; sections for other products will be added later. The revision, which will be similar in principle to the above mentioned Notice of Proposed Rule Making, will be keyed to a procedure where the sample average must meet the declared label weight and where there may be no unreasonable shortage in any one container. The amount of shortage to be considered unreasonable will be specified, together with sampling plans to be used on small lots as well as normal size lots. Double sampling plans will also be provided as a means of reducing workload when weights clearly meet requirements.

After the National Bureau of Standards procedure is revised, USDA's AMS plans to utilize applicable portions in its mandatory egg products inspection as well as its voluntary inspection and grading services for all commodities. Comments received from interested parties during the original Notice of Proposed Rule Making comment period have been furnished to National Bureau of Standards, by AMS so that they may be considered.

AMS will also consider these comments and intends to invite additional comments prior to actual adoption of a National Bureau of Standards revised procedure.

JOHN C. BLUM,
Acting Administrator.

AUGUST 2, 1973.

[FR Doc.73–16326 Filed 8–7–73;8:45 am]

Farmers Home Administration

[7 CFR Part 1826]

LOANS AND GRANTS PRIMARILY FOR REAL ESTATE PURPOSES

Farmer Loans

Notice is hereby given that the Farmers Home Administration has under consideration amending Subchapter B, Loans and Grants Primarily for Real Estate Purposes, by adding a new Part 1826, "Farmer Loans." This new Part 1826 implements the guaranteed Farmer Loan Programs authorized by Subtitles A, B, and C of the Consolidated Farm and Rural Development Act (7 U.S.C. 1921, et seq.), as amended by Public Law 92–419, "The Rural Development Act of 1972." This new part sets out the policies and procedures for guaranteeing loans made by private lenders to farmers under the above mentioned Subtitles A, B, and C.

The purpose of guaranteeing loans is to (a) enable use of private funds, rather than Government funds, in making loans, and (b) reduce Government administrative costs by having private lenders make and service the loans.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed amendment to the Deputy Administrator Comptroller, Farmers Home Administration, U.S. Department of Agriculture, Room 5007, South Building, Washington, D.C. 20250. Comments will be received through August 31, 1973. All written submissions made pursuant to this notice will be made available for public inspections at the Office of the Deputy Administrator Comptroller during regular business hours (8:15 a.m.–4:45 p.m.).

As proposed, the addition will read as follows:

AUTHORITY: 7 U.S.C. 1989; delegation of authority by Sec. of Agri. (7 CFR 2.23); delegation of authority by Asst. Sec. for Rural Development (7 CFR 2.70).

§ 1826.1 Introductory statement.

This Part 1826 (which is a Handbook of regulations for guaranteed Farmer Loans and is hereinafter called the "Handbook") and related forms of the Farmers Home Administration (FHA) are applicable to lenders, borrowers, and other parties involved in making, guaranteeing, and servicing Farmer Loans as defined herein. Copies of this Handbook and related FHA forms and any amendments or revisions thereof may be obtained from any FHA County Office or FHA State Office.

(a) *Responsibilities of borrowers, lenders, holders, and FHA.* The loan and guarantee transactions impose significant responsibilities on all parties concerned, but they also confer significant benefits on such parties and their communities.

(1) Borrowers become obligated to repay their loans and to perform other duties specified in the promissory notes, security instruments, and other loan documents.

(2) Approved lenders become accountable for making and servicing (and approved subsequent holders for servicing) loans in a manner that will properly protect the interests of the borrowers and those of FHA as guarantor, as well as the interests of the approved lenders and approved holders.

(3) FHA is responsible for seeing that its loan guarantee authority is used to achieve the purposes of the law and the implementing regulations contained in this handbook and related forms. FHA performs these functions under delegated authority from the Secretary of Agriculture and Assistant Secretary for Rural Development. (7 CFR 2.23, 7 CFR 2.70).

(b) *Full faith and credit of U.S.A.* Contracts of Guarantee executed on such loans shall, subject to and in accordance with the contract provisions, constitute obligations supported by the full faith and credit of the United States and incontestible except for fraud or misrepresentation of which the approved lender or approved holder had actual knowledge at the time it became such lender or holder.

(c) *Insured loans.* Any applicant that is eligible for an FHA guaranteed loan, but cannot find an approved lender who is willing to make the loan with an FHA guarantee, may apply for an FHA insured loan.

§ 1826.2 Definitions.

The following definitions are applicable to the terms used in this Handbook and related forms:

(a) *Act.* The Consolidated Farm and Rural Development Act. (7 U.S.C., 1921, et seq.)

(b) *Borrower.* All parties liable for the loan or any part thereof.

(c) *Family farm.* A family farm is a tract(s) (1) that is recognized as a farm rather than a rural residence, (2) that will provide substantial income which, together with any other income, will adequately support the family, pay operating expenses and debts, and (3) for which the operator and his immediate family provide the management and major portion of the labor, except during seasonal peakload periods.

(d) *Farmer loans.* Farm Ownership (FO), Soil and Water (SW), and Recreation (RL) loans authorized in Subtitle A of the Act; Operating (OL) loans au-

V 38-152 AUG 8 73 XUM

thorized in Subtitle B of the Act; and Emergency (EM) loans authorized in Subtitle C of the Act.

(e) *FHA.* The United States of America acting through the Farmers Home Administration, an Agency of the United States Department of Agriculture. References to the National Office, Finance Office, State Office, County Office, State Director, District Supervisor, County Supervisor, or other FHA office or official should be read as prefaced by "FHA." Unless otherwise specifically provided in this Handbook, "FHA" means the County Supervisor or Acting County Supervisor serving the county involved.

(f) *Finance Office.* The office which maintains the FHA financial records. It is located at 1520 Market Street, St. Louis, Missouri 63103. (Phone 314–622–4400)

(g) *Guaranteed loan.* A loan originated by an approved lender and held and serviced by a registered holder under an FHA stated percentage loss Contract of Guarantee. References to "FHA guarantees," "loan guarantees," and similar terminology apply to such guaranteed loans. The term "loan" or "note" also includes the related security instruments. The term "note" also includes "assumption agreement" and related security instruments, where appropriate.

(h) *Handbook.* This Handbook.

(i) *Hazard insurance.* Includes fire, windstorm, lightning, hail, explosion, riot, civil commotion, aircraft, vehicles, smoke, builder's risk, public liability, property damage, flood, workmen's compensation, or any similar insurance that is available and needed to protect the security or that is required by law.

(j) *Holder.* See Lender.

(k) *Lender, holder, or registered holder.* The term lender refers to the party who makes the loan. The lender becomes the holder if it retains the loan. The term holder also refers to a party who acquires the loan from the original lender or a subsequent holder.

(l) The terms lender and holder refer only to parties approved by FHA to make and service or to subsequently acquire and service loans guaranteed by FHA.

(2) The lender will become the registered holder of a particular loan when the Contract of Guarantee is executed. A subsequent holder will become the registered holder of a particular loan when it has acquired the loan and the Finance Office receives from the County Supervisor a copy of the notice of sale executed by the seller-holder on Form FHA 471–7, "Notice and Acknowledgment of Sale of Insured or Guaranteed Loan," and when the Finance Office executes the Acknowledgment of Notice of Sale on the bottom of that form. The registered holder will hereinafter be referred to as the holder, unless the term "registered holder" is used.

(l) *Rural youth.* A person who has not reached the age of 21 and who does not reside in a city or town which has a population in excess of 10,000 inhabitants.

(m) *Servicing loans.* See "Loan Servicing" in § 1826.46.

(n) *State.* Any of the fifty States, Puerto Rico, or the Virgin Islands.

(o) *Transfer and assumption terms.* In relation to transfer and assumption cases, where appropriate, "liquidation" and "loan" shall be construed to mean "transfer and assmuption," "promissory note" shall be construed to mean "assumption agreement," and "borrower" shall be construed to mean "transferee."

§ 1826.3 Lender or holder.

(a) *Eligibile lender or holder.* A lender or holder may be any Federal or State chartered bank, savings and loan association, cooperative or private lending agency, or other lender or holder approved by FHA to make and service or to subsequently acquire and service FHA guaranteed loans.

(b) *Request by lender or holder for approval.* Any party desiring to become an approved lender or holder to make and service or subsequently acquire and service guaranteed loans will request approval of eligibility and area(s) of operations on Form FHA 449–18, "Lenders or Holders Request for Approval." Before any such request can be approved, FHA must determine that the lender is an established lender in the field of financing involved, has a reputation for honest and fair dealing with borrowers, appears to be financially able to make and service such loans, and will maintain an office suitably located and staffed with personnel qualified to perform such functions.

(c) *Supervised lenders and holders.* If FHA finds that the requestor is a Federal or State chartered bank, federal land bank, production credit association, savings and loan association, building and loan association, insurance company, credit union, or mortgage loan company that is subject to examination and supervision by an agency of the United States or of the State in which the loan will be made and the security property is or is to be located, the requestor will be approved if it also meets the requirements of paragraphs (e) and (f) of this section. FHA may require the requestor to furnish information showing that it falls within one of the categories described in the preceding sentence.

(d) *Nonsupervised lenders and holders.* Parties requesting approval that do not meet the requirements of paragraph (c) of this section, will be required to submit the following:

(1) Copy of any license or other evidence of authority required by the State as a prerequisite to engaging in the proposed lending activity.

(2) Information on lending operations, including period of time, if any, in lending business, range and volume of lending activities, current financal statement, and such documentation as requested by FHA to substantiate the representations made in the request for approval.

(e) *Loan making and servicing capabilities of lender or holder.* FHA will not approve any lender or holder to make and service or acquire and service loans in any area unless FHA determines that such lender or holder (either directly or through its authorized branch or agent) will be able to properly handle the loan making, closing, and servicing functions.

(f) *Loan making and servicing office.* FHA will not approve any lender or holder to make and service or acquire and service loans in any area unless it determines that such lender or holder maintains and intends to continue to maintain a local office (either its own main or branch office or that of an authorized agent) in or near enough to the county in which the borrower resides and the security property is or will be located, so that the lender or holder (or its authorized branch or agent if it acts through a branch or agent) will be able to properly make (including, but not limited to, checking on and approving any acquisition, construction, repair, or development with loan funds) and/or service the loan.

(1) If the lender or holder advises FHA at the time of submitting Form FHA 449–18 that it plans to make and/or service the loan through a branch office or agent, and the State Director approves that arrangement, he will show the name and address of the branch office or agent on the bottom of the back side of the conformed copy of the Form FHA 449–18 sent to the Finance Office.

(2) If the lender or holder later advises FHA on Form FHA 449–9, "Request for Conditional Commitment to Guarantee Loan," that it plans initially to make and/or service the loan through a local branch office or agent, and if the State Director approves that arrangement, he will send a conformed copy of Form FHA 449–9 to the Finance Office to inform the Finance Office to that effect.

(3) If at a subsequent date the holder plans to service the loan through a local branch office or agent, or a different local branch office or agent, it will advise FHA to that effect by letter, giving the name and address of the branch office or agent. If the State Director approves the arrangement, he will send a conformed copy of the letter to the Finance Office to inform the Finance Office to that effect.

(4) Any such local office or agency arrangement is subject to approval or rejection by FHA. The lender or holder will furnish FHA any information requested by FHA about the branch office or agent to assist FHA in determining whether to approve the arrangement.

(g) *Approval or rejection of request.* The party requesting approval will mail or deliver the original and one executed or conformed copy of the request to FHA. FHA will make such investigations as the County Supervisor or State Director deems necessary and the State Director will notify the requestor in writing whether its request is approved or rejected. This notification will be made on a conformed copy of Form FHA 449–18.

(1) If the request is rejected, the reasons for rejection will be given on the conformed copy of Form FHA 449–18. If the requestor can meet FHA's objections, it may resubmit the request.

(2) If the request is approved, either on initial consideration or reconsideration, the State Director will send a conformed copy of Form FHA 449–18 to the

Finance Office to show the approval. Upon receipt of the copy, the Finance Office will place the lender on the list of Approved Farmer Loan Lenders and Holders for the area or areas involved.

(h) *Termination of approval of lender or holder.* If a lender or holder has not made (or does not hold as registered holder) any guaranteed Farmer Loan or loans within a period of two years after approval or within any subsequent two-year period, or fails or refuses to comply with any requirements in this Handbook, such lender or holder may be dropped from the approved list. The lender or holder will be notified in writing if such action is taken.

(i) *List of approved lenders.* Applicants for guaranteed loans may obtain a list of approved lenders for any area from the County or State Office serving that area.

§§ 1826.4—1826.9 [Reserved]

§ 1826.10 Application and loan processing.

(a) *Applicant may contact FHA or lender.* If any applicant contacts FHA and it thinks that the applicant may qualify for a guaranteed loan, it will furnish the applicant a list of all approved lenders for the county or counties involved and suggest that the applicant contact the approved lender of his choice. Regardless of whether the applicant first contacts FHA or goes directly to an approved lender, if the lender is interested in making a guaranteed loan to the applicant and believes that the applicant will qualify for such a loan, the lender will assist the applicant in preparing an "Application for Guaranteed Loan (Farmer Programs)" on Form FHA 449–6.

(b) *Preparation of loan docket.* If after reviewing the completed application (Form FHA 449–6), the lender is still interested in making a guaranteed loan to the applicant and still believes that the applicant can qualify for such a loan, the lender, with the assistance of the applicant, may prepare a loan docket and proceed with loan processing.

(c) *Loan making.* The responsibility for making (including closing) guaranteed loans rests with the lender. The loan should not be closed until all or part of the loan funds are needed for use by the borrower. The loan will be considered closed when all loan and security instruments have been executed and the mortgage or financing statement, or both, is/are filed for record.

§ 1826.11 Other available financing.

FHA will not guarantee a loan if it determines that the needed financing is available from other sources without the guarantee. Loans that would be made by the lender under its normal loan policies (without a Contract of Guarantee) will not be guaranteed. Loans will not be participated in or insured by FHA if they can be guaranteed and if it would be to the financial advantage of FHA to guarantee them. Except for loans *made* by agencies of the Farm Credit Administration or by State agencies with rural rehabilitation funds, loans made, guaranteed, or insured by any Federal or State agency will not be guaranteed. Ordinarily, loans will not be guaranteed to refinance debts owed to the lender that are repayable on terms the borrower can reasonably be expected to meet. Therefore, a lender should consult FHA before an application for loan guarantee is prepared if the lender desires to use a guaranteed loan to refinance debts owed to it, or to have a previously existing loan guaranteed without being refinanced.

§ 1826.12 Points, discounts, charges, penalties.

FHA will not guarantee a loan if the borrower is required to pay any points, finder's fee, loan origination fee, loan discount fee, advance interest, unearned interest, compound interest, interest on earned interest, service charges, bonus, commission, expense, prepayment penalty, or similar fees or charges, or anything of value for the purpose of obtaining the loan. However, this limitation does not prohibit the borrower from paying expenses which are his responsibility and are incident to consummation of the loan (as distinguished from payments to obtain the loan), such as fees or charges for legal, architectural, appraisal, and other technical services, hazard insurance premiums, and the borrower's share of Social Security taxes for any labor hired by the borrower in connection with making planned improvements. If the borrower cannot pay such expenses and taxes out of his own funds, they may be paid from funds included in the loan for that purpose. Late payment charges can only be made in monthly installment cases. They must be agreed to in writing by the borrower, must be collected from the borrower, cannot be deducted from regular installment payments, and are not covered by the Contract of Guarantee. Late charges cannot be made on any amount paid within 15 days after its due date.

§ 1826.13 Interest rate to borrower.

The rate of interest which the lender may charge the borrower on any type of Farmer Loan may vary from time to time. The National Office will notify County Offices, State Offices, and the Finance Office in writing of (a) the interest rates in effect for such loans when this loan guarantee program becomes effective, and (b) subsequent changes therein. The lender may ascertain the rate for each type of loan by telephoning any FHA office. Interest will be charged only on the actual amount of loan funds borrowed and for the actual time the money is outstanding. Discount or add on interest is not permitted. The interest rate initially established for each loan will remain constant during the existence of the FHA guarantee. Interest on future advances made by the holder to protect the security may be charged at the rate specified in the security instruments.

§ 1826.14 Security requirements.

The lender is responsible for seeing that proper and adequate security is obtained and maintained in existence and of record to protect the interests of the lender or holder and FHA.

(a) *Lien priorities.* Ordinarily, the security will be a first lien. However, a junior lien may be taken with FHA's written consent. When a junior lien is taken, the lender, among other things, should make sure that:

(1) The prior mortgages or other liens do not contain provisions for future advances, summary forfeiture or cancellation or other provisions that may jeopardize the lender's security position or the borrower's ability to pay the loan.

(2) Such provisions of the prior mortgages or other liens, if they exist, are satisfactorily limited, modified, waived, or subordinated.

(b) *Third party liens (laborers, mechanics, ,etc.).* Among other things in obtaining the required security, the lender is responsible for ascertaining that appropriate releases from laborers, materialmen, contractors, subcontractors suppliers of machinery and equipment and other parties involved, are obtained to assure that there will be no lien or other claims by any such parties against the borrower or the security property.

(c) *All liens must secure entire loan.* All collateral of any nature securing a loan guaranteed by FHA must secure the entire loan. The lender cannot take separate collateral to secure only that portion of the loan or loss not covered by the FHA guarantee.

§ 1826.15 Security instruments and financing statements.

(a) *Mortgages and security agreements.* FHA forms of real estate mortgages (including deeds of trust and deeds to secure debt), and security agreements (including chattel mortgages in Louisiana and Puerto Rico) are required.

(b) *Financing statements.* Commercial financing statement forms that comply with State laws and regulations may be used. They must be adapted to meet FHA requirements by inserting provisions:

(1) Covering the "proceeds and products" of the collateral described, and

(2) That "disposition of the collateral is not authorized hereby."

§ 1826.16 Appraisal of property.

Property that will serve as security for the loan must be appraised by a qualified appraiser who is experienced in appraising the kind of property involved. Appraisals will be made by appraisers employed by, or whose services are contracted for on a fee basis by, the lender.

(a) *Qualifications of appraisers.* The lender will be responsible for determining that its employed or contract fee appraisers have the necessary qualifications and experience. If the lender has any questions in this regard, it should check with FHA before having an appraisal made.

V 38-152 AUG 8 73 XUM

(b) *Appraisal fees or charges.* The lender must determine that the fees or charges are reasonable.

(c) *Appraisal reports.* Appraisal reports will be made on forms approved by the lender.

§§ 1826.17—1826.20 [Reserved]

§ 1826.21 Guarantee of loans.

FHA may guarantee Farmer Loans made by approved lenders to eligible applicants for authorized purposes in accordance with the provisions of this handbook.

§ 1826.22 Guarantee limits.

FHA's liability under each Contract of Guarantee will be the *lesser* of 90 percent of the loss on the borrower's obligations covered in the Contract of Guarantee, or 90 percent of the principal amount advanced to the borrower under the guaranteed loan promissory note or assumed under an assumption agreement.

§ 1826.23 Request for Conditional Commitment to Guarantee Loan.

Submission to FHA of Form FHA 449-9, "Request for Conditional Commitment to Guarantee Loan" and enclosures therewith will constitute the lender's request for issuance of Form FHA 449-14, "Conditional Commitment for Guarantee."

(a) *FHA evaluation.* If FHA finds from the material submitted and any other information it deems necessary, that the applicant appears to be eligible; loan funds are to be used for authorized purposes only; the amount of the loan, interest rate, repayment period and schedule, insurance requirements, plan of operations, and any late payment charges on monthly installments appear to be satisfactory; the proposed security appears to be adequate; the proposed loan appears to be sound; the lender plans to service the loan properly; and all other pertinent requirements likely can and will be met, FHA will present the matter to the FHA County Committee. If FHA cannot make the findings mentioned in the preceding sentence, it will promptly inform the lender in writing of the reasons. If the lender can satisfy FHA's objections, the lender may resubmit the matter to FHA for reconsideration.

(b) *County Committee certification.* After the case has been presented to the County Committee, FHA will notify the lender as to the action taken by the County Committee. If the County Committee rejects the application, FHA will inform the lender of the reasons for the rejection. If the lender then furnishes FHA satisfactory evidence to show that the County Committee's objections have been met, FHA will resubmit the case to the County Committee. If the County Committee's original certification or recertification is favorable, FHA will issue a conditional commitment to guarantee the loan.

§ 1826.24 Conditional commitment to guarantee loan.

The conditional commitment to guarantee the loan will be made on Form FHA 449-14, "Conditional Commitment for Guarantee." The purpose of the form is to advise the lender that the material submitted by the lender to FHA is approved subject to the conditions and requirements set forth in the form, and that FHA will issue a Contract of Guarantee if all such conditions and requirements and others set forth in this Handbook prerequisite to issuance of the Contract of Guarantee, are met. FHA will forward the original executed conditional commitment to the lender, and a conformed copy to the Finance Office.

§ 1826.25 Review of conditional commitment requirements.

On receipt of the Conditional Commitment for Guarantee, the lender should review the matter (and discuss it with the applicant if necessary) to determine whether the conditions and requirements are acceptable. If the conditions and requirements are not acceptable to the applicant or lender, the lender should inform FHA of recommended revisions and the reasons therefor for further consideration.

§ 1826.26 Conditions precedent to issuance of Contract of Guarantee.

The Contract of Guarantee will not be issued until:

(a) *Lender's request and advice.* The lender submits Form FHA 449-21, "Request for Contract of Guarantee," to FHA advising that:

(1) No changes have been made in the loan conditions and requirements since the request was made for issuance of a conditional commitment to guarantee the loan except those, if any, that have been approved in the interim period by FHA in writing.

(2) The loan has been properly closed, and the required security has been or will be obtained.

(3) The borrower has clear title to security property acquired with loan funds or previously owned, subject only to the instruments securing the loan to be guaranteed and any other exceptions approved in writing by FHA.

(4) Collateral held by the lender is considered adequate security for the loan to be guaranteed, and the security instruments are all properly filed or recorded, as appropriate and legally permissible.

(5) Proper hazard and any other required insurance is in effect.

(6) Truth in Lending requirements have been met.

(7) All Equal Opportunity and Nondiscrimination requirements have been met or will be met at the appropriate time.

(b) *FHA investigation.* FHA makes any independent investigation it considers necessary. However, the making of any such investigation will not relieve the lender of any responsibility.

(c) *FHA findings.* FHA finds (on the basis of the lender's advice and such independent investigation it may make) that everything is in order.

§ 1826.27 Issuance of Contract of Guarantee.

(a) *Execution of contract.* If FHA finds everything to be in order, it will execute the Contract of Guarantee which will set forth (specifically or by reference) the terms and conditions of the guarantee. The original Contract of Guarantee will be forwarded to the lender. Conformed copies of the Contract of Guarantee and Promissory Note will be forwarded by FHA to the Finance Office.

(b) *Execution of contract before acquisition or construction.* Ordinarily, execution of the Contract of Guarantee will not be delayed until after all construction, major repairs, acquisition of property, or land development with loan funds has been completed. However, the lender will be responsible for seeing that property listed in the Request for Conditional Commitment to Guarantee Loan is acquired and that construction repairs, and land development are completed promptly and in accordance with plans and specifications approved by FHA. The lender will also see that FHA is notified so that it can make inspections at various stages of construction if FHA has advised the lender that it desires to do so in the particular case.

(c) *Refusal to execute contract.* If FHA determines that it cannot execute the Contract of Guarantee, it will promptly inform the lender in writing of the reasons. If the lender satisfies FHA's objections, the lender may resubmit the matter to FHA for further consideration.

§§ 1826.28—1826.29 [Reserved]

§ 1826.30 Void or voidable contract.

The Contract of Guarantee will be void if it or the guaranteed loan was obtained by fraud or material misrepresentation of which the original lender or registered holder had actual knowledge at the time it became such lender or holder. If any interest subsidy payments have been made to the holder by FHA under a void contract, the holder is required to repay the amount thereof to FHA. The Contract of Guarantee will be voidable, at the option of FHA, if the holder fails to remit to FHA any guarantee fee within the time such remittance is required by this handbook. The method of exercising such option shall be written notice from FHA to the holder or any branch or agent thereof. If the option is exercised, the Contract of Guarantee will become void on the date the notice is mailed or delivered to any such party. If any interest subsidy payments have been made to the holder by FHA under a voidable contract after it became void, the holder is required to repay the amount thereof to FHA.

§ 1826.31 Unenforceable contract.

(a) *Contract unenforceable.* The Contract of Guarantee will be unenforceable:

(1) By or on behalf of any party who is not the original lender of a subsequent registered holder.

(2) As to any loss occurring or caused by events occurring while the loan was not held by the original lender or a subsequent registered holder.

(3) If loan funds are used for purposes other than those shown in Form FHA 449-9 and Form FHA 449-21 on the basis of which FHA issued the Contract of Guarantee, without FHA's written approval.

(4) If the borrower does not have or obtain title marketable in fact to the security property.

(5) If any note or security instrument is invalid or unenforceable.

(6) If the security instruments do not secure the entire loan or advances.

(7) If the lender does not obtain liens with the priorities specified by the lender in Form FHA 449-9 and Form FHA 449-21 submitted to FHA and as agreed to by FHA, or fails to properly record or file lien or notice instruments to obtain or maintain such lien priorities of record during the existence of the FHA guarantee.

(8) If at any time the holder fails to maintain an office (either its main or branch office or that of an agent) near enough to the security properly location so that, in the judgment of FHA, the servicing functions can be properly and efficiently discharged.

(9) If the holder does not comply with the loan making, construction or other development, servicing, and liquidation requirements in this Handbook. This relates to the provisions of this Handbook at the time of execution of the Contract of Guarantee and to any future provisions of this Handbook not inconsistent with the provisions of said contract or the provisions of this Handbook at that time.

(b) *FHA may pay partial loss under unenforceable contract.* However, if FHA determines that only part of any loss was caused by failure of the holder to comply with paragraph (a) (3) through (9) of this section, FHA will honor the Contract of Guarantee as to the part of such loss which FHA determines to be in excess of that portion of the loss caused by such noncompliance.

§§ 1826.32—1826.34 [Reserved]

§ 1826.35 Guarantee fee payable by holder.

(a) *Payable by holder—fixed rate on principal balance.* A loan guarantee fee will be paid to FHA by the holder. The guarantee fee will not be charged to, collected from, or otherwise passed on to the borrower. The fee will be a fixed percentage rate per annum on the principal balance outstanding at the end of each 6 month period on the guaranteed loan promissory note or assumption agreement.

(b) *Percentage rate of fee.* The percentage rate of the fee will be established by the National Office from time to time. However, the percentage rate of the fee will be stipulated in each Contract of Guarantee and will remain constant during the existence of that Contract of Guarantee. The National Office will notify County Supervisors, State Directors, and the Finance Office in writing of (1) the initial guarantee fee percentage rate established, and (2) subsequent changes therein. Lenders or holders can ascertain the guarantee fee rate in effect at any particular time by telephoning FHA.

(c) *Semiannual payments—date credited.* Guarantee fee payments will be made semiannually for the 6 month periods ending March 31 and September 30 (except that the first and last payments will be for shorter periods unless the loan is guaranteed and paid off on March 31 or September 30). Payments will be credited as of the end of the 6 month period. The guarantee fee will accrue from the date of the Contract of Guarantee.

§ 1826.36 Holders Guarantee Fee Report.

Form FHA 449-19, "Holders Guarantee Fee Report (Semi-annual Report)" showing amounts owed for such preceding 6 months (or shorter) period must be sent to the Finance Office so that it will be received by that office not later than April 15 for the period ending March 31 and October 15 for the period ending September 30.

§ 1826.37 Payment of guarantee fee.

On the basis of information contained in the Holders Guarantee Fee Report, the holder will calculate the amount of the loan guarantee fee for the 6 month (or shorter) period involved, and will remit the amount to the Finance Office along with each Holders Guarantee Fee Report, except as hereinafter provided in interest subsidy cases. The check will be made payable to the Farmers Home Administration. If a semiannual interest subsidy payment is owed by FHA to the holder in an amount equal to or in excess of the semiannual guarantee fee, such remittance checks will not be required. In that event, the guarantee fee will be collected by FHA by deduction of the amount thereof from the interest subsidy payment.

§§ 1826.38—1826.40 [Reserved]

§ 1826.41 Interest subsidy payments.

Interest subsidy rates, if any, on guaranteed loans will be established by FHA from time to time. The subsidy rate fixed in accordance with the Conditional Commitment for Guarantee and set forth in the Contract of Guarantee will remain constant during the period for which the interest subsidy is payable. Lenders or holders can ascertain the subsidy rate in effect at any particular time by calling any FHA office. Interest subsidy payments will be made by U.S. Treasury checks. The subsidy payments will be made semiannually for periods ending March 31 and September 30. Therefore, payments for the first and last guarantee periods usually will cover part of a 6 month period. The holder's account will be credited as of the ending date of the 6 month period immediately preceding the subsidy payment. The interest subsidy payments will be based on the same outstanding principal balance as the guarantee fee payable by the holder. Within 10 days after receipt of a proper Holders Guarantee Fee Report (and fee payment if the fee is not to be collected by deduction from an interest subsidy payment), the Finance Office will send to the holder a Treasury check for the amount of the interest subsidy payment owed for the preceding 6 month period. The amount that would otherwise be paid will be reduced by the amount of any guarantee fee collected by deduction from the total semiannual interest subsidy. Interest subsidy payments will not be made after a transfer to and assumption by an "ineligible transferee."

§ 1826.42 Termination of Contract of Guarantee.

In addition to the right of FHA to terminate the Contract of Guarantee under § 1826.30 for failure to remit guarantee fee payments within the time allowed, the Contract of Guarantee may also be terminated by full repayment of the loan, or by written notice from the holder to the Finance Office that the contract will terminate 30 days after the date of the notice; provided that:

(a) *Notice and enclosures.* The notice is mailed promptly and is accompanied by the guarantee fee payment to the end of that 30 day period, a Holders Guarantee Fee Report for the interim period, and the Contract of Guarantee for cancellation.

(b) *Fees are current.* All previous guarantee fees have been paid.

§§ 1826.43—1826.45 [Reserved]

§ 1826.46 Loan servicing.

The holder is responsible for loan servicing. The term "servicing" as used in this Handbook includes all actions that are necessary after loan closing to collect the indebtedness and to protect the security and security rights. This involves, but is not limited to, obtaining and maintaining compliance with the provisions of the loan end security instruments, any supplementary agreements, and this handbook. The term "servicing" also includes transfer and assumption and liquidation, except in those instances in which more specific terminology is used with respect to those matters. The servicing functions involved in transfers and assumptions and liquidations are set forth under those headings in this Part 1826. Among the holder's more significant servicing functions are those involved in seeing that:

(a) *Purchase of property.* Any property to be acquired with loan funds is acquired as planned and liens are obtained thereon with priorities which the lender advised FHA the lender's security instruments would have. See also § 1826.51 (a).

(b) *Construction or development.* Any buildings or other improvements or major land development to be provided with loan funds are properly completed within a reasonable time, free of any mechanics, materialmen's, or other liens that would affect the lien priority which the lender advised FHA that the lender's security instruments would have. See also § 1826.51(b).

(c) *Collection of indebtedness.* Indebtedness is collected as it falls due (from the borrower, third party convert-

V 38-152 AUG 8 73 XUM

ers, or other parties liable), and transfer and assumption or liquidation action, if approved, is taken as provided for under those respective headings in this Part 1826.

(d) *Hazard insurance.* Adequate hazard insurance (as available and needed for the type of property and operation involved) is obtained and kept effective on the insurable security property, with loss payable clause in favor of the lender as mortgagee or secured party.

(e) *Taxes.* Taxes and any assessments or ground rents against or affecting the security property are paid.

(f) *Litigation.* The loan and security are protected in foreclosure, bankruptcy, receivership, insolvency, condemnation, or other litigative or third party actions.

(g) *Loss payments and compensation awards.* Any insurance loss payments, condemnation awards, or similar proceeds are applied on the guaranteed loan in accordance with lien priorities on which the guarantee was based; or to rebuilding or otherwise acquiring needed replacement security property of at least equal security value with the written approval of FHA and any other interested parties.

(h) *Security property proceeds.* All proceeds from the disposition of security property are applied in accordance with the lien priorities on which the guarantee was based, except that:

(1) Proceeds from the disposition of basic security may be used for replacement of property of similar nature, equal value, and equal lien priority when the holder determines that such use is necessary for success of the enterprise. Basic security means all real property, fixtures, foundation herds, machinery, and equipment serving as security for the guaranteed loan.

(2) Proceeds from the disposition of non-basic security property may be used for purposes which the holder determines are necessary for the borrower's operations and family living expenses.

(i) *Future advances.* No future advances for purposes other than protection or preservation of the security or security property are made without FHA's written approval. Such advances for such protection or preservation include, but are not limited to, advances for taxes, annual assessments, ground rents, and hazard insurance premiums affecting the security property.

(j) *Personal liability.* The borrower (any party liable) is not released from personal liability for all or any part of the guaranteed loan (except in transfer and assumption cases in which the full amount of the indebtednesss is assumed).

(k) *Alteration of instruments.* No provisions of the loan or security instruments are altered without FHA's written approval.

§§ 1826.47–1826.50 [Reserved]

§ 1826.51 Certificate of Acquisition or Construction.

The following certifications are required on Form FHA 449–11, "Certificate of Acquisition or Construction." See also §§ 1826.26 (a) and 1826.46 (a) and (b).

(a) *Acquisition of property.* Each time a substantial amount of property is acquired with loan funds after loan closing, the lender will furnish a certificate to FHA describing the property acquired and stating that it is property that was planned to be acquired with loan funds as shown in the Request for Conditional Commitment to Guarantee loan. The certificate must be signed by the borrower and lender.

(b) *Construction and development.* All buildings and major repairs to buildings must be constructed or performed under contract by a party other than the borrower and members of his immediate family. As soon as construction or substantial repair of buildings or major land development involving use of loan funds has been completed, the lender will furnish to FHA a certificate stating that the construction, repair, or land development has been completed in accordance with the plans and specifications submitted to FHA in connection with the Request for Conditional Commitment to Guarantee Loan. The certificate must be signed by the borrower and lender, and also by the contractor when the work is required to be performed under contract.

§§ 1826.52—1826.55 [Reserved]

§ 1826.56 Equal opportunity and nondiscrimination.

One of the conditions for approval of a lender or subsequent holder is that it agrees not to discriminate between applicants in making, acquiring, or servicing of guaranteed loans because of race, color, religion, sex, age, or national origin. This agreement is contained in Form FHA 449–18, "Lenders or Holders Request for Approval." The following equal opportunity and nondiscrimination forms and requirements are applicable to certain cases involving construction as indicated. (For more detailed information see 7 CFR Part 15, and 41 CFR Part 60)

(a) *Compliance reports.* No prospective contractor or subcontractor will be eligible for a contract or subcontract financed with a guaranteed loan until he has filed all of the compliance reports required of him under any previous contracts.

(b) *Equal Opportunity Agreement.* The lender is responsible for seeing that, before loan closing, each applicant whose loan involves a construction contract of more than $10,000 executes Form FHA 400–1, "Equal Opportunity Agreement."

(c) *Contract or subcontract in excess of $10,000.* If the contract or a subcontract exceeds $10,000, the lender is responsible for seeing that:

(1) The contractor or subcontractor submits Form FHA 400–6, "Compliance Statement," before or as a part of the bid or negotiation.

(2) An Equal Opportunity Clause is part of each contract and subcontract. This clause is incorporated in Form FHA 424–6, "Construction Contract," which may serve as a guide.

(3) With notification of the contract award, the contractor receives:

(i) Form FHA 400–3, "Notice to Contractors and Applicants" signed by the lender, with an attached Equal Employment Opportunity Poster. Posters in Spanish will be provided and displayed where a significant portion of the population is Spanish speaking.

(ii) Form AD–425, "Contractor's Affirmative Action Plan for Equal Employment Opportunity Under Executive Order 11246 and Executive Order 11375," if the contractor or subcontractor is subject to the requirements of paragraph (e) of this section.

(d) *100 or more employees and contract or subcontract exceeds $10,000.* If the contractor or subcontractor has 100 or more employees and the contract or subcontract is for $10,000 or more, the lender will be responsible for seeing that:

(1) In addition to meeting the requirements of paragraph (c) of this section, each such contractor or subcontractor files Standard Form 100, "Employer Information Report EEO–1" with the Joint Reporting Committee within 30 days of the contract or subcontract award unless this report has already been submitted within the last 12 months.

(2) An annual report is filed on or before March 31 as long as the contractor or subcontractor holds a contract equal to $10,000 or more which is financed with a guaranteed loan. Failure to file timely complete, and accurate reports constitutes noncompliance with the Equal Opportunity Clause. Report forms are distributed by the Joint Reporting Committee and any questions on this form should be addressed by the contractor or subcontractor to the Joint Reporting Committee, 1800 G Street, NW, Washington, D.C. 20006.

(e) *50 or more employees and contract or subcontract exceeds $50,000.* If the contract or subcontract is $50,000 or more and the contractor or subcontractor has 50 or more employees, the lender will be responsible for seeing that, in addition to the requirements of paragraph (c) of this section, each such contractor or subcontractor is informed that he must develop a written affirmative action compliance program for each of his establishments and put it on file in each of his personnel offices within 120 days of the commencement of the contract or subcontract. Form AD–425 provides guidelines for the contractor or subcontractor in developing such a program.

(f) *Compliance reviews.* The lender will be responsible for seeing that compliance reviews are made during construction inspections to determine whether the required posters are displayed, the facilities are not segregated, and there is no evidence of discrimination in employment. Findings will be shown on Form FHA 424–12, "Inspection Report," which will be signed by the lender. If there is any evidence of noncompliance, the lender will try to achieve voluntary compliance. If the lender fails, he will report all the facts to FHA.

(g) *Employee complaints.* Any employee of or applicant for employment with such contractors or subcontractors may file a written complaint of discrimination with FHA.

(1) A written complaint of alleged discrimination must be signed by the complainant and should include the following information:

(i) The name and address (including telephone number, if any) of the complainant.

(ii) The name and address of the person committing the alleged discrimination.

(iii) A description of the acts considered to be discriminatory.

(iv) Any other pertinent information that will assist in the investigation and resolution of the complaint.

(2) Such complaint must be filed not lated than 180 days from the date of the alleged discrimination, unless the time for filing is extended by FHA for good cause shown.

(h) *FHA responsibilities.* In addition to the foregoing requirements of this section and the lender's advice in the Request for Contract of Guarantee that "All Equal Opportunity and Nondiscrimination requirements have been met or will be met at the appropriate time," FHA will make such periodic checks as it deems necessary to assure that all equal opportunity and nondiscrimination requirements are met in each loan case.

§§ 1826.57–1826.59 [Reserved]

§ 1826.60 Transfer and assumption—general.

The transfer of security property by the borrower and assumption of guaranteed loan indebtedness by the transferee will be handled as provided for herein. In transfer and assumption cases, preference will be given to applicants who, after the transfer and assumption are made, will meet the eligibility requirements for the type of loan involved. If the transferee will make any cash down payment in connection with the transfer and assumption, or if any security property is to be sold before the transfer and assumption, the amount of such cash down payment or sale proceeds should be credited on the transferor's guaranteed loan debt before the transfer and assumption are closed. A County Committee certification will not be required. The original borrower may be released from personal liability since the entire indebtedness is being assumed. As stated in § 1826.2, where appropriate in this handbook, "liquidation" and "loan" shall be construed to mean "transfer and assumption," "promissory note" shall be construed to mean "assumption agreement," and "borrower" shall be construed to mean "transferee."

§ 1826.61 Eligible transferee—full assumption.

An "eligible transferee" is a person who meets the eligibility requirements for the type of loan involved.

(a) *Determination by holder.* The holder must furnish FHA a statement showing the holder's determinations that:

(1) The transferee is eligible for the type of loan involved.

(2) The transferee has acquired all of the property securing the guaranteed loan balance.

(3) The transferee could not acquire the security property without the guaranteed loan credit.

(4) The market value of the transferred security property is equal to or more than the amount assumed.

(5) The existing security and lien priorities have been maintained or improved.

(6) The transferee appears to have the ability and desire to pay the amount assumed.

(7) Proper hazard insurance is in effect.

(8) Any applicable Truth in Lending requirements have been met.

(9) The transaction has been properly closed and coveyance instruments recorded, if recordable.

(b) *Assumption agreement.* The assumption will be made on Form FHA 449–8, "Assumption Agreement for Guaranteed Loans (Same terms)," if the promissory note repayment schedule remains in effect. If the schedule is changed, Form FHA 449–7, "Assumption Agreement for Guaranteed Loan (New Terms)" will be used.

(c) *Contract of Guarantee.* The existing Contract of Guarantee will continue in effect, so a new Contract of Guarantee will not be issued.

(d) *Payment schedule.* The promissory note repayment schedule cannot be changed by the Assumption Agreement unless the change is approved in writing by FHA, and by the original borrower if he is not released from personal liability.

(e) *Finance Office.* As soon as the transfer and assumption have been completed, the holder will send two conformed copies of the executed Assumption Agreement to FHA along with the statement of determinations required in paragraph (a) of this section. The County Supervisor will forward one copy of the Assumption Agreement to the Finance Office for loan identification and future accounting purposes. That copy will be accompanied by FHA's written approval under paragraph (d) of this section if the repayment schedule is changed.

§ 1826.62 Ineligible transferee—full assumption.

An "ineligible transferee" is a person who does *not* meet the eligibility requirements for the type of loan involved.

(a) *Assumption agreement.* The assumption will be made on Form FHA 449–7, "Assumption Agreement for Guaranteed Loans (New Terms)."

(b) *Transfer and assumption docket.* The holder will prepare and submit a transfer and assumption docket to FHA containing:

(1) The holder's determinations required by § 1826.61(a) (2), (5), (6), (7), (8), and (9).

(2) The holder's determinations that:

(i) The transferee is *not* eligible for the type of loan involved.

(ii) The proposed transfer and assumption appear to be the best method for most adequately protecting the financial interests of the holder and FHA.

(iii) The market value of the security property to be transferred is equal to or more than the unpaid balance on the guaranteed loan, or that the financial situation of the transferee is such that any difference could be readily collected.

(3) The holder's statement as to the term of the assumption and the interest rate to the transferee.

(c) *Term and interest rate.* The term of the assumption cannot exceed 5 years unless FHA makes a written determination that a longer period is necessary to protect the financial interest of FHA as guarantor. Even if that determination is made, the term cannot exceed 10 years. The interest rate may be any legal rate agreed to by the holder and the transferee.

(d) *Interest subsidy.* FHA will *not* pay any interest subsidy to the holder in these cases in which the debt is assumed by an ineligible transferee.

(e) *Payment Schedule.* Since the promissory note repayment schedule will be changed in the Assumption Agreement, the original borrower will have to approve the change in writing if he is not to be released from personal liability.

(f) *Contract of Guarantee.* The existing Contract of Guarantee will continue in effect, so a new Contract of Guarantee will not be issued.

(g) *Approval by FHA.* If FHA finds that the docket is complete and concurs in the holder's determinations, it will issue a letter of tentative approval and send it and the docket to the holder. If the assumption term exceeds 5 years, the letter will contain FHA's determination as to whether the term is necessary to protect the FHA's financial interests as guarantor. If FHA determines that it cannot approve the proposed transaction, it will inform the holder in writing of the reasons and return the holder's docket. If the holder satisfies FHA's objections, it may resubmit the docket to FHA for reconsideration.

(h) *Closing transfer and assumption.* Upon receipt of FHA's approval letter, the holder will proceed with closing the transfer and assumption transaction, including, but not limited to, obtaining execution and delivery of the conveyance instruments and the assumption agreement, compliance with any Truth in Lending requirements, and recordation of said conveyance instruments, if recordable.

(i) *Conformed copies.* As soon as the transfer and assumption transaction has been closed, the holder will furnish two conformed copies of the executed assumption agreement to FHA. FHA will forward one copy to the Finance Office.

V 38 - 152 AUG 8 73 XUM

(j) *Not substitute for graduation.* This procedure for transfer to and assumption by an ineligible transferee will not be used as a substitute for requiring the transferor to graduate to credit not backed by a Contract of Guarantee if he is able to do so in accordance with the provisions of the security instruments.

§§ 1826.63—1826.65 [Reserved]

§ 1826.66 Liquidation.

If either the holder or FHA concludes that liquidation of a guaranteed loan account is necessary because of one or more defaults or third party actions that the borrower cannot or will not cure or eliminate within a reasonable period of time, it will notify the other party and the matter will be handled as follows:

(a) *Holder's proposed method of liquidation.* Along with the holder's notification to FHA or within 10 days after the holder receives a notification from FHA, the holder will advise FHA of its proposed method of liquidation and will provide FHA with all available information concerning:

(1) The borrower's assets, including claims, contracts, accounts receivable and other contingent assets not serving as security for the loan.

(2) Its estimated value of all of the borrower's assets, including security and nonsecurity property.

(3) The holder's proposed method of making the maximum collection possible on the entire indebtedness, including that covered by the FHA guarantee and that not so covered.

(b) *FHA's response to liquidation proposal.* Within 30 days after receipt of such notification from the holder, FHA will inform the holder:

(1) Whether FHA concurs in the holder's proposed method of liquidation.

(2) Which loss settlement option provided in paragraph (f) of this section FHA has selected. To assist FHA in selecting the loss settlement option, the lender and holder will, upon request, provide FHA such information, and such legal and other instruments and documents (or copies thereof or access thereto), as the lender and holder have with respect to the guaranteed loan transaction.

(c) *Acceleration.* If FHA does not select loss settlement the option in paragraph (f)(2) of this section, "Accept assignment of loan," the holder will proceed as expeditiously as possible with acceleration of the indebtedness, including giving any notices and taking any other actions required by the security instruments or law. A copy of the acceleration notice or other acceleration document will be sent to FHA. If FHA selects the option in paragraph (f)(2) of this section, the indebtedness will not be accelerated.

(d) *Determination of values.* If FHA selects loss settlement the option in paragraph (f)(1) of this section, "Pay loss before liquidation," or loss settlement the option in paragraph (f)(2) of this section, "Accept assignment of loan," within 15 days after FHA has advised the holder of such selection, or preferably while the acceleration proceedings are in process, the holder and FHA will appraise and endeavor to agree on the market value of the security property and any additional amounts that can be readily collected from the borrower (additional debt payment ability). The term "market value" as used in this handbook means the amount for which the property would sell for its highest and best use at voluntary sale. If FHA selects loss settlement the option in paragraph (f)(3) of this section, "Accept title to property from registered holder," or loss settlement option (f)(4) of this section, "Pay loss after liquidation," the determination of values will be made at the time specified in the applicable paragraph.

(1) If the holder and FHA cannot agree on the value of the security property and any additional debt payment ability of the borrower within 15 days after their appraisals are required to be made, they shall within the next 15 day period or earlier if possible, select a disinterested appraiser who will determine such values. The appraiser will make the appraisal report to the holder and FHA.

(2) The appraiser's valuations will be used in calculating the loss if FHA agrees that they are correct. Within 10 days after FHA receives a copy of the appraiser's report, it will notify the holder in writing whether it agrees with the appraiser's valuations.

(3) The fee of such appraiser will be shared equally by FHA and the holder.

(e) *Determination of loss.* The amount of the loss to be paid by FHA will be initially calculated by the holder on Form FHA 449-20, "Report of Loss."

(1) Within 15 days after the determination of values as provided for in paragraph (d) of this section, the holder will execute the original Report of Loss and present it and one conformed copy to FHA for approval. At the same time, the holder will furnish to FHA the original and one conformed copy of Form FHA 449-19, "Holders Guarantee Fee Report (Semi-annual Report)," bringing the last semiannual report up to date.

(2) If FHA has any question regarding the amounts set forth in the Report of Loss, it will investigate the matter. The holder will make its records available to, and otherwise assist FHA in making this investigation. If FHA finds any discrepancies, it will contact the holder and get the necessary corrections made as soon as possible. When FHA finds the Report of Loss to be proper in all respects, it will be "Tentatively Approved" in the space provided on the form for that purpose.

(3) After the Report of Loss has been tentatively approved, FHA will send the original Report of Loss and the original interim Holders Guarantee Fee Report to the Finance Office for issuance of a Treasury check in payment of the amount owed by FHA to the holder. The Finance Office will analyze these reports to see whether the amount claimed is correct. In analyzing the Report of Loss, the Finance Office will assume that the amounts shown in the following Sections of that form are correct:

(i) Section II, "Prior Lien Amounts Owed to Settlement Date."

(ii) Section IV, "Market Value of Security Property."

(iii) Section VII A 2, "Funds in escrow account."

(iv) Section VII A 3, "Net income from security property."

(v) Section VII A 4, "Borrower's debt payment ability."

(vi) Section VIII, "Allowances to Holder for Liquidation Costs."

(4) Notwithstanding any provision in paragraph (f) of this section, if the Finance Office finds the amount claimed by the holder to be incorrect, the Treasury check will be for the amount the Finance Offices finds to be correct. The Finance Office will send an explanation of any changes in amounts along with the Treasury check.

(f) *Loss settlement options (Payment of loss before or after liquidation, acceptance of assignment of loan, acceptance of title to property.)* FHA will have the option to settle its obligation under the Contract of Guarantee in any of the following ways. The foregoing paragraphs (a) through (e) of this section will apply regardless of which option is selected.

(1) *Pay loss before liquidation.* If FHA elects to pay the loss covered by the Contract of Guarantee before the liquidation action is taken by the holder or a third party, upon receipt of the Report of Loss from the holder, the Finance Office will promptly have a U.S. Treasury loss payment check issued and mailed to the holder. The check will be for the amount set forth in Section IX of the Report of Loss (Section IX consists of an adjusted sum arrived at by making certain deductions from and additions to the 90 percent Basic Loss guarantee payment owed by FHA to the holder for losses on the promissory note and future advances. The deductions are for the guarantee fee owed by the holder to FHA, cash in holder's possession in the escrow account or net income from the security property, and any amount that the holder can readily collect from the borrower in excess of the value of the security. The deductions are totalled in Section VII B of the Report of Loss. The additions are for any interest subsidy payments totalled in Section VII E and any allowances for liquidation costs totalled in Section VIII C, which are self-explanatory.) If the liquidation is being conducted by the holder and it subsequently decides:

(i) Not to liquidate, it will refund to FHA any amount paid to it by FHA for liquidation costs.

(ii) To employ a different method of liquidation for which the cost is less than the amount paid to it by FHA for liquidation costs, it will refund the difference to FHA.

(2) *Accept assignment of loan.* If FHA elects to take an assignment of the loan, the amount of the Treasury check will be calculated on the Report of Loss. It will be for the "Market Value of Security Property" total shown in Section IV C, less the "Prior Lien Amounts" total shown in Section II D (if that sum is less than the "Guaranteed Loan Items" total shown in Section I E), plus the amount of the "Percentage of Basic Loss Guaranteed" shown in Section VI, less the amount of the "Guarantee fee owed by holder" shown in Section VII A 1, plus the amount of any "Interest subsidy" shown in Section VII D 1.

(i) Upon receipt of the Report of Loss, the Finance Office will send the Treasury check to FHA for delivery to the holder when the holder furnishes the following items in the form required by FHA:

(A) Promissory Note endorsed payable to the order of the United States of America.

(B) Security instruments with any required assignments thereof (filed or recorded, if required).

(C) Assignment of any escrow agreement and any funds in the escrow account, and any claims for future advances already made.

(D) Evidence of title and ownership.

(E) Any other instruments required by FHA to perfect its ownership of the guaranteed loan and related rights.

(ii) Any net rental or other income that has been received by the holder from the security property (Section VII A 3 of Report of Loss) should be applied on the guaranteed loan debt before FHA accepts an assignment of the loan. The holder's right to funds in the escrow account (Section VII A 2 of Report of Loss) and the account itself will be assigned to FHA.

(3) *Accept title to property from registered holder.* If FHA elects to wait and accept a conveyance of the former security property from the holder after the holder has acquired title to it by voluntary conveyance in lieu of foreclosure or by purchase at foreclosure or other forced sale:

(i) A determination of value of the former security property will be made within 30 days after title (record title, if conveyance can be filed or recorded) is vested in the holder, except that if a period of redemption exists, this action, at FHA's option, may be delayed until the applicable period of redemption has expired. The Report of Loss will be prepared on the same basis as if the borrower still owned the property. The Settlement Date in the Report of Loss will be approximately 30 days after FHA receives the Report of Loss.

(ii) The Treasury check will be calculated on the Report of Loss. It will be for the "Market Value of Security Property" total shown in Section IV C, less the "Prior Lien Amounts" total shown in Section II D (if the sum is less than the "Guaranteed Loan Items" total shown in Section I E), plus the amount of the "Total Loss Payable to Holder" shown in Section IX (explained in paragraph (f)(1) of this section).

(iii) In Section IV C of the Report of Loss, the total market value of the security property will be the appraised value as determined under paragraph (d) of this section.

(iv) The Finance Office will send the Treasury check to the FHA for delivery to the holder when the holder furnishes the following items in the form required by FHA:

(A) General Warranty Deed covering the acquired real property (FHA may also require a policy of owner's title insurance if it is unwilling to rely on the grantor's warranty, the cost to be shared equally by FHA and the holder).

(B) Bill of Sale or other required conveyance containing a general warranty of title to any acquired personal property (and any fixtures not covered by a warranty deed).

(C) Possession of all conveyed property.

(D) Any other instruments required by FHA to perfect its ownership and possession of the conveyed property.

(4) *Pay loss after liquidation.* FHA may decide to wait and pay the loss covered by the Contract of Guarantee after liquidation by the holder or a third party, regardless of who acquires the security property in the liquidation proceedings. If FHA chooses this loss settlement option, it may elect to pay the loss before or after any applicable redemption period. In any event, under this option, FHA will not take title to said property.

(i) The provisions of paragraph (f)(3)(i) of this section with respect to Determination of Values, Report of Loss, and Settlement Date are applicable here.

(ii) The Treasury loss payment check will be calculated on the Report of Loss, and will be in the *sum* of the "(Adjusted Basic Loss)" shown in Section VII F of that form if liquidation was by a third party, or the amount of the "Total Loss Payable to Holder" shown in Section IX, if liquidation was by the holder.

(iii) The "Market Value of Security Property" total shown in Section IV C of the Report of Loss, will be the appraised value as determined under paragraph (d) of this section or the acquisition price at a forced sale, whichever amount is more.

(iv) The Finance Office will send the loss payment check direct to the holder.

(g) *Maximum amount of loss payment to holder.* Notwithstanding any other provisions of this Handbook, the amount payable by FHA to the holder for loss sustained on the loan and future advances cannot exceed 90% of the loan principal advanced by the lender to the borrower under the guaranteed loan promissory note or assumed by the assuming parties under an assumption agreement in a transfer and assumption case.

(h) *Application of FHA loss payment.* The amount of the loss payment by FHA will be applied by the holder on the guaranteed loan debt.

(i) *Graduation of borrowers.* One of the defaults that may occur involves failure or refusal of the borrower to graduate to credit not backed by a Contract of Guarantee, after FHA determines that he is in a position to graduate under the provisions of the security instruments. Every 5 years after issuance of the Contract of Guarantee, the holder will furnish to FHA a report on the borrower's financial situation. FHA will use the report in determining whether the borrower is able to graduate to credit without a Contract of Guarantee. If FHA so determines on the basis of the holder's report and any other information, or if such a determination is made by FHA at any other time, it will notify the holder in writing to that effect, explaining the basis of the determination. If the lender disagrees, it will notify FHA in writing of the reasons for its disagreement, and FHA will reconsider the matter. If the holder does not disagree with FHA's initial determination, or if FHA does not change its mind on reconsideration, FHA will request the borrower to obtain the credit without the FHA guarantee. If the borrower fails or refuses to do so, FHA will notify the holder and it will proceed with liquidation as in the case of any other substantial default.

§§ 1826.67—1826.70 [Reserved]

§ 1826.71 FO eligibility requirements.

To be eligible for an FO (Farm Ownership) loan each applicant must:

(a) *Citizen.* Be a citizen of the United States.

(b) *Legal capacity.* Possess legal capacity to incur the obligations of the loan.

(c) *Experience or training.* Be an individual who has:

(1) Farming experience or farm training sufficient to assure reasonable prospects of success in the proposed farming operation, and

(2) Other training or experience when nonfarm enterprises are involved to assure success with such proposed operation. A nonfarm enterprise is any business conducted by an eligible farmer to supplement his farm income.

(d) *Character, ability, industry.* Possess the character, ability, and industry necessary to carry out the proposed operation and be a person who will honestly endeavor to carry out the undertakings and obligations required of him in connection with the loan.

(e) *Other available financing.* Be unable with his own resources, or be unable to obtain sufficient credit elsewhere without a guaranteed loan, to finance his actual needs at rates and terms he could reasonably expect to fulfill, taking into consideration prevailing private and cooperative rates and terms in the community in or near which he resides for loans for similar purposes and periods of time.

(f) *Owner-operator, production.* After the loan is made, be the owner-operator of a family farm which will produce a substantial portion or all of his total income.

§ 1826.72 Preference between FO applicants.

Preference will be given:

(a) *Veterans.* First to applications on hand from veterans over applications of nonveterans on file with the lender at the same time. A veteran is a person who

V 38 - 152 AUG 8 73 XUM

has been discharged or released from the active forces of the United States Army, Navy, Air Force, Marine Corps, or Coast Guard under conditions other than dishonorable, and served on active duty in any such forces:

(1) During the period of April 6, 1917, through March 31, 1921;

(2) During the period December 7, 1941, through January 31, 1955; or

(3) For a period of 180 days or more, any part of which occurred after January 31, 1955.

(b) *Other applicants.* Second to applications from persons who are:

(1) Married or have dependent families.

(2) Owners of livestock and farm machinery and equipment necessary to successfully carry on farming operations.

(3) Able to make downpayments.

§ 1826.73 FO loan purposes.

Subject to the prohibitions in § 1826.74 and the loan limitations and special provisions in § 1826.75, FO loans that are consistent with environmental requirements for the area may be made to:

(a) *Purchase or enlargement.* Purchase or enlarge a farm, including any land for recreation or other nonfarm enterprise which is not, or as enlarged will not be, larger than a family farm.

(b) *Improvements.* Construct or improve buildings and facilities on the applicant's farm, including:

(1) Construction of essential but modest farm dwelling and service buildings, including fish farming facilities, structures and hatcheries, and facilities and structures for nonfarm enterprise uses, such as docks, shooting blinds, refreshment or marketing stands, processing or assembly plant, sales building, repair shops, lodging facilities, trailer parks, picnic areas, target ranges, tennis courts, shuffleboard courts, golf driving ranges, campsites, and modest rental housing.

(2) Improvement, alteration, repair, replacement, relocation, or purchase and moving of such essential dwellings and service buildings, facilities and structures.

(3) Purchase and/or installation of domestic water and sewage disposal systems and other equipment or facilities necessary to the effective operation of a farm (including any nonfarm enterprises), provided the items upon installation become part of the real estate or customarily pass with the farm when it is sold.

(c) *Land and water development.* Provide land and water development, acquisition of water supplies, rights, use and conservation essential to the operation of the farm, and any nonfarm enterprise facilities. This includes fencing, land clearing, forestry purposes, establishment and improvement of permanent hay or pasture, drainage and irrigation facilities, basic application of lime and fertilizer, fish ponds, and trails and lakes. Also, loan funds may be used to pay that part of the cost of facilities, improvements and practices which is to be earned by participation in agricultural cost sharing or Great Plains programs, but only when such costs cannot be covered by purchase orders or assignments to material suppliers or constructors.

(d) *Refinancing of debts.* (1) When an applicant's request includes the use of guaranteed loan funds for the refinancing of debts, the lender must determine before a guaranteed loan can be made that the applicant's present creditors will not give him rates and terms on the existing debts that he reasonably could be expected to meet without an FHA guarantee, and that he cannot provide the needed funds from his own resources.

(2) Section 1826.11 sets forth certain conditions and limitations with respect to the use of a guaranteed loan to refinance debts owed to the lender or owed to, or insured or guaranteed by, parties other than FHA. Debts owed to FHA also may be refinanced with a guaranteed loan in justifiable cases. However, an FHA loan held by an insured or guaranteed lender will not be refinanced with a guaranteed loan unless the rate on the proposed guaranteed loan (borrower's rate plus any interest subsidy) will not exceed the total existing interest rate to the insured or guaranteed lender.

(e) *Expenses and Social Security Taxes.* Pay expenses incident to obtaining plans and making the loan, such as fees for legal, architectural, appraisal and other technical services, which are required to be paid by the borrower and which he cannot pay from other funds. Loan funds also may be used to pay the borrower's share of Social Security taxes for labor hired by the borrower in connection with making the planned building improvements.

(f) *Nonfarm enterprises.* Finance a nonfarm enterprise as hereinbefore provided for in this section, but only when it will provide an additional source of necessary supplemental income.

§ 1826.74 Prohibited FO loan purposes.

An FO loan will not be guaranteed to:

(a) *Personal property.* Purchase items not considered to be a part of the farm, such as farm machinery and equipment, appliances, livestock, construction and maintenance tools, automobiles, trucks, boats, and nonfarm enterprise equipment that would not be considered real estate.

(b) *Land retirement area.* Acquire land or develop a farm which is in an area designated for retirement from agriculture by Federal, State or local agencies.

(c) *Refinancing.* Refinance any debts owed to, or insured or guaranteed by, the lender without prior written consent of FHA. Also see § 1826.11.

(d) *Pay debts not approved.* Pay debts incurred for purposes other than those upon which the Conditional Commitment for Guarantee was based.

§ 1826.75 FO loan limitations and special provisions.

For an FO loan to be guaranteed:

(a) *Indebtedness limitation.* The FO loan plus any other indebtedness against the farm or other security, or both, must not exceed $100,000 or the market value of such security, whichever is less, or the amount certified by the County Committee. This includes all principal and past-due interest indebtedness on existing and proposed security.

(b) *Noncontiguous tracts.* If the farm contains two or more noncontiguous tracts, they must be so located that the farming operation and any nonfarm enterprise can be efficiently conducted, considering the distance and adequacy of rights-of-way or public roads between the tracts.

(c) *Dwellings and other essential buildings.* Buildings adequate for the planned operation of the farm, including any nonfarm enterprise, must be available. In nearly all cases the necessary buildings will be located on the applicant's farm. However, if the applicant owns suitable buildings which are not considered a part of his farm and ordinarily would not pass with the farm in a change of ownership, duplicate buildings on the farm need not be required if adequate security can be obtained. Likewise, duplicate buildings on the farm need not be required if the applicant has a long-term lease on adequate buildings near enough to properly operate the farm and if adequate security can be obtained. The same rule may be applied if the applicant has assurance of long-term occupancy of such buildings he expects to inherit. Mobile homes will not be considered adequate dwellings for FO farms.

(d) *Land and facility development.* Adequate development to place the farm and any nonfarm enterprise in condition for successful operation will be provided at the outset in connection with each loan. In planning farm development, consideration should be given to obtaining recommendations from the Forest Service, Soil Conservation Service, Extention Service, and State of substate planning agencies or local planning groups. In planning such development with the applicant, the lender will encourage him to use any cost-sharing assistance that may be available.

(e) *Performing development.* The lender and borrower will be responsible for proper construction and land development with the amount of funds loaned for that purpose. In this connection, see §§ 1826.3(e), 1826.14(b), and 1826.46(a). This includes, but is not limited to:

(1) Compliance with applicable laws, ordinances, codes, and regulations.

(2) Adequacy of plans, specifications, and estimates.

(3) Sufficiency, quality, and rights to adequate water supply.

(4) Method of construction or development.

(5) Awarding, execution, and provisions of construction or development contracts, and bonding of contractors where necessary.

(6) Seeing that all equal opportunity and nondiscrimination requirements are met. See §§ 1826.26(a)(7) and 1826.56.

(7) Seeing that construction or development is performed expeditiously and properly, including inspection of sites and construction or development in various stages of completion to determine that the work and material conform with the plans and specifications and any other requirements.

(8) Limiting periodic or partial payments for construction or development to a reasonable percentage of the actual value of work and material in place.

(9) Making final payment only after final inspection has been made and the construction or development has been found proper in all respects.

(10) Obtaining appropriate releases from laborers, materialmen, contractors, subcontractors, or other parties involved, to assure that there will be no lien or other claims by any such parties against the borrower or the security property.

(f) *Liens junior to the lender's FO lien.* A loan will not be approved if a lien junior to the FO lien likely will be taken simultaneously with or immediately subsequent to the closing of the loan to secure any debt the borrower may have at the time of loan closing or any indebtedness he may incur in connection with the FO loan, such as for a portion of the purchase price of the farm or money borrowed from others for payments on debts against the farm, unless the total debt against the security would be within the $100,000 debt limit or the market value of the security, whichever is less.

§ 1826.76 FO rates and terms.

(a) *Interest rate to borrower.* See § 1826.13.

(b) *Loan term.* Each loan will be scheduled for repayment over a period not to exceed 40 years from the date of the note or such shorter period as may be necessary to assure that the loan will be adequately secured, taking into account the probable depreciation of the security.

(c) *Reamortization.* If the borrower pays 25% or more of the loan balance before it is due, from the sale of part of the security with the approval of the holder or with funds derived from other sources, the holder may agree to a reamortization of the balance owed, provided the repayment period does not exceed the remaining portion of the original loan terms and the remaining security is adequate for the balance owed.

§§ 1826.77–1826.80 [Reserved]

§ 1826.81 SW eligibility requirements.

To be eligible for an SW (Soil and Water) loan the applicant must:

(a) *Tenant, owner, partner, corporation; farm.* Be a farm tenant or farm owner, member of a partnership that owns and operates a farm, or a domestic corporation engaged in farming. Be unable with his own resources, or be unable to obtain sufficient credit elsewhere without a guaranteed loan, to finance his actual needs at rates and terms he could reasonably expect to fulfill, taking into consideration prevailing private and cooperative rates and terms in the community in or near which he resides for loans for similar purposes and periods of time. If the applicant has an undivided interest in the land to be improved, the applicant and his co-owners, individually or jointly, must be unable to provide the necessary improvements with their own resources or obtain the necessary credit elsewhere without an FHA guarantee.

(1) The term "farm" includes the total acreage of one or more tracts of land which is owned or operated by the applicant as a single unit.

(2) The farm must be of such size and productive capacity to produce agricultural commodities for sale in sufficient quantities that the farm will be recognized in the community as a farm rather than a rural residence.

(3) The farm must be one that will provide farm income which together with any income from other sources will pay operating expenses, including maintenance of land, buildings, and other structures, pay debts, have a reasonable reserve for unforseen emergencies, and, if an individual or partnership, enables the family to have a reasonable standard of living.

(b) *Corporation—stockholders unable to provide financing.* If a corporation, the corporation and the principal stockholders as defined in § 1826.112(f) must be unable to provide necessary improvements with its and their own resources or obtain the necessary credit elsewhere without an FHA guarantee.

(c) *Corporation—private domestic.* If a corporation, be organized as a private domestic corporation under appropriate State laws.

(d) *Character, industry, and ability.* Possess the character, industry, and ability to carry out the proposed operations and will honestly endeavor to carry out the undertakings and obligations required in connection with the SW loan.

(e) *Training and experience.* Have training or farm experience necessary to give reasonable assurance of success in farming whenever the soundness of the loan depends on the farming operation.

(f) *Legal Capacity.* Possess legal capacity to incur the obligations of the loan.

(g) *Lease of tenant.*

If a tenant, have a satisfactory written lease for a sufficient period of time and under terms that will enable him to obtain reasonable returns on the improvements made with the SW loan. In addition, the lease or separate agreement should provide for compensating the tenant for any unexhausted value of the improvements upon termination of the lease, unless a loan is being processed as authorized in § 1826.85(d) with respect to loans on leasehold interests in farms.

§ 1826.82 Preference between SW applicants.

The veterans preference provisions of § 1826.72(a) are applicable to SW loans to individuals.

§ 1826.83 SW loan purposes.

SW loans may be made for the following purposes, and must be consistent with environmental requirements for the area.

(a) *Material, supplies, equipment, services.* Paying the cash costs for materials, supplies, equipment, and services related to land and water development, use, and conservation, such as:

(1) Terraces, dikes, reservoirs, ponds, tanks, cisterns, wells, pipelines, pumping and irrigation equipment, ditches and canals for irrigation and drainage, waterways, and erosion control structures.

(2) Drainage of land which is part of an operating farm unit.

(3) Land clearing.

(4) Sodding, subsoiling, land leveling, liming, and fencing.

(5) Fertilizer and seed used in connection with a soil conservation practice, or the establishment or improvement of permanent pasture.

(6) Forestation for sustained yield and tree planting for erosion control or shelter-belt purposes.

(7) Gasoline, oil, and equipment rental or hire.

(8) Expense incident to obtaining plans and making the loan, such as fees for legal, engineering, and other technical services which are required to be paid by the borrower and which he cannot pay from other funds. Loan funds also may be used to pay the borrower's share of Social Security taxes for labor hired by the borrower in connection with making any planned improvements.

(9) Purchase or repair of special-purpose equipment such as terracing, land leveling, and ditching equipment, provided:

(i) Such equipment is needed for, and will facilitate the completion or maintenance of, the planned improvement, and

(ii) The cost of the equipment plus the other costs related to the improvement will not be more than if performed by contract or other methods.

(b) *Water source.* Acquiring a source of water to be used on land the applicant owns or is acquiring, including:

(1) Purchase of water stock or membership in an incorporated water users association.

(2) Acquisition of a water right through appropriation, agreement, permit, or decree.

(3) Acquisition of a water supply or right, and the land on which it is presently being used, when the water supply or right cannot be purchased without the land, provided:

(i) The value of the land without the water supply or right is only an incidental part of the total price, and

(ii) The water supply and right will be transferred to, and used more effectively on, other land owned by the applicant.

(c) *Site for water or drainage facilities.* Purchase of land or an interest therein for sites or rights-of-way upon which a water or drainage facility will be located.

(d) *Stock, membership, assessments.* Purchase of stock or membership in, or payment of assessments to, an incorporated association or organized group service which will help such association or group service to finance facilities and

V 38 - 152 AUG 8 73 XUM

improvements for which loan funds may be used.

(e) *Cost sharing programs.* Paying that part of the cost of facilities, improvements, and practices which is to be earned by participation in agricultural cost sharing or Great Plains programs only when such costs cannot be covered by purchase orders or assignments to material suppliers or contractors. If loan funds are advanced and the portion of the payment for which the funds were advanced likely will exceed $500, the applicant will assign the payment to the lender.

(f) *Water supply and distribution.* To provide water supply for dwellings and farm buildings, including such facilities as wells, pumps, farmstead distribution systems, and home plumbing.

§ 1826.84 Prohibited SW loan purposes.

An SW loan will not be guaranteed:

(a) *Items not directly related to main purpose.* For items that are not directly related to land and water development, use, and conservation, such as annual operating expenses, power plants, or power transmission lines other than service drops or lines, or buildings other than those to protect pumping installations.

(b) *Recreation.* For recreational purposes.

(c) *Preexisting debts.* To pay debts incurred prior to the closing of the SW loan except fees for legal, engineering, and other technical services.

§ 1826.85 SW loan limitations and special provisions.

(a) *Indebtedness limitation.* An SW loan will not be guaranteed if:

(1) The borrower's unpaid principal indebtedness plus any past-due interest against the security and the amount of the loan will exceed $100,000. If only nonreal estate items will serve as security, in addition to the limitation above, the borrower's unpaid principal indebtedness plus any past-due interest against the nonreal estate security and plus the amount of the loan will exceed $25,000.

(2) The amount of the loan and the unpaid principal balance plus any past-due interest on other secured debts against the farm will exceed the market value of the farm and, when applicable, the market value of any other security, as determined by the lender, or the loan exceeds the amount certified by the County Committee.

(3) A lien junior to the FHA lien likely will be taken simultaneously with or immediately subsequent to the closing of the loan to secure any debt the borrower may have at the time of the loan closing or any indebtedness he may incur in connection with the SW loan, unless such a lien is within the $100,000 debt limit or the market value of the security, whichever is less.

(b) *Land development.* To the extent practicable, recommendations from the Forest Service, Extension Service, and the Soil Conservation Service should be obtained. In planning land development with the applicant, the lender will encourage him to use any available cost-sharing assistance.

(c) *Performing development.* The provisions of § 1826.75(e) are applicable to performing development in SW loan cases.

(d) *Loans on leasehold interests in farms.* A loan may be secured by a mortgage on a leasehold that has a negotiable value that is mortgageable, if otherwise proper, where the lessor owns the fee simple title marketable in fact and neither the leasehold nor the fee title is subject to a prior lien. If in any case involving a prior lien the lender concludes that a sound loan can be made upon a leasehold, he will submit complete information to FHA for review and special authorization prior to approval of the loan.

(1) With respect to achieving the purpose of the loan, obtaining adequate security, and being able to service the loan and enforce the security, the lender as holder of a mortgage upon a lease or leasehold interest must be in a position substantially as good as if it held a second mortgage on a fee simple title. This includes besides lessors' consent to the SW mortgage on the leasehold interest of the lessor, such matters as:

(i) Reasonable security of tenure. The borrower's interest will not be subject to summary forfeiture or cancellation.

(ii) The rights to foreclose the SW mortgage and sell without restrictions that would adversely affect the salability or market value of the security.

(iii) The right of the holder to bid at foreclosure sale or to accept a voluntary conveyance of the security in lieu of foreclosure.

(iv) The right of the holder, after acquiring the leasehold through foreclosure or voluntary conveyance in lieu of foreclosure, or in event of abandonment by the borrower, to occupy the property or sublet it, and to sell for cash or credit.

(v) The right of the borrower, in the event of default or inability to continue with the lease and the SW loan, to transfer the leasehold, subject to the SW mortgage, to a transferee who will assume the SW debt.

(vi) Advance notice to the holder of lessor's intention to cancel, terminate, or foreclose upon the lease. Such advance notice will afford sufficient time to permit the holder to ascertain the amount of deliquencies, the total amount of the lessor's and any other prior interest, the market value of the leasehold interest and, if litigation is involved, to refer the case with a report of the facts to its attorney and permit him to take appropriate action.

(vii) Express provisions covering the question of payment by the holder of unpaid rentals or other charges accrued at the time it acquires possession of the property or title to the leasehold, and those which become due during the holder's occupancy or ownership, pending further servicing or liquidation.

(viii) Any necessary provisions to assure fair compensation to the lessee for any part of the premises taken by condemnation.

(ix) Any other provisions necessary to meet the requirements of this paragraph.

(2) In any State in which real estate or chattel mortgages or security agreements may be taken on leasehold interests and recorded so as to protect the mortgagee or secured party, the holder will see that the security instruments or financing statements are properly filed or recorded.

§ 1826.86 SW rates and terms.

The rates and terms for SW loans are the same as for FO loans set forth in § 1826.76.

§ 1826.87—1826.90 [Reserved]

§ 1826.91 RL eligibility requirements.

To be eligible for an RL (Recreation) loan, the applicant must:

(a) *Farmer.* Be an individual regularly engaged in farming at the time he applies for the initial loan.

(b) *Recreation manager or operator.* Be the manager and operator of the recreation enterprise after the loan is made.

(c) *Other available financing.* Be unable with his own resources, or be unable to obtain sufficient credit elsewhere without a guaranteed loan, to finance his actual needs at reasonable rates and terms he could reasonably expect to fulfill, taking into consideration prevailing private and cooperative rates and terms in the community in or near which he resides for loans for similar purposes and periods of time.

(d) *Citizen.* Be a citizen of the United States of America.

(e) *Legal capacity.* Possess legal capacity to incur the obligations of the loan.

(f) *Character, ability, industry.* Possess the character, ability, and industry to carry out the proposed operation and honestly endeavor to carry out the undertakings and obligations required of him in connection with the loan.

(g) *Training or experience.* Have the training or experience necessary to give reasonable assurance of success in the proposed operation.

(h) *Tenant's lease.* If he is a tenant, have a satisfactory written lease for a sufficient period of time and under terms that will enable him to obtain reasonable returns on the improvements made with the Recreation loan. In addition, the lease or a separate agreement must provide for compensating the tenant for any unexhausted value of the improvements upon termination of the lease, unless the loan is to be secured by a leasehold. For additional provisions with respect to loans on leaseholds, see § 1826.95(f).

§ 1826.92 Preference between RL applicants.

The veterans preference provisions of § 1826.72(a) are applicable to RL loans.

§ 1826.93 RL loan purposes.

Subject to the prohibitions in § 1826.94 and the loan limitations and special provisions in § 1826.95, RL loans that are consistent with environmental requirements for that area may be made to:

(a) *Personal property and services.* Purchase materials, supplies, animals, fish and birds, and pay for services required in the establishment of outdoor recreation facilities.

(b) *Real property.* Acquire necessary land, easements, and rights-of-way for outdoor recreation uses.

(c) *Land and water development.* Develop land and water resources for outdoor recreation uses.

(d) *Buildings and facilities.* Construct or improve modest and essential buildings and facilities for outdoor recreation uses.

(e) *Refinance debts.* Refinance secured and unsecured debts.

(f) *Equipment, fixtures, facilities.* Purchase and install equipment, fixtures, and other facilities necessary to the efficient operation of the recreation enterprise.

(g) *Operating expenses.* Pay operating expenses necessary to efficient operation of the recreation enterprise, such as labor, fuel, electricity, water, sewer charge, advertising, feed, seed, fertilizer, and hazard insurance premiums, which the borrower cannot pay from his own funds or obtain from other sources at reasonable rates and terms within his ability to pay.

(h) *Fees for services, Social Security taxes.* Pay essential expenses incident to obtaining plans and making the loan, such as fees for legal, architectural, and other technical services which the borrower cannot pay from other funds. Loan funds also may be used to pay the borrower's share of Social Security taxes for labor hired by the borrower in connection with making planned building improvements or installation of equipment and facilities for the recreation enterprise.

§ 1826.94 Prohibited RL loan purposes.

A recreation loan will not be guaranteed if:

(a) *Dwelling and farm service buildings.* The funds will be used to construct farm service buildings or a dwelling for personal occupancy.

(b) *FO debt.* The borrower is indebted for a Farm Ownership loan and his total farming operation has not or will not be converted to recreational enterprises.

§ 1826.95 RL loan limitations and special provisions.

(a) *Indebtedness limitation.* The RL loan plus any other indebtedness against the farm or other security, or both, must not exceed $100,000 or the market value of such security, whichever is less, or the amount certified by the County Committee. This includes all principal and past-due interest indebtedness on existing and proposed security.

(b) *Junior liens.* If a lien junior to the lender's RL lien likely will be taken simultaneously with or immediately subsequent to the closing of the RL loan to secure any debts the borrower may have at the time of the loan closing or any indebtedness he may incur in connection with the RL loan, such a lien must also come within the $100,000 debt limit or the market value of the security, whichever is less.

(c) *Operating expenses.* When a Recreation loan includes funds for the payment of operating expenses, the borrower will be required to pay the operating expenses as expeditiously as feasible, usually within the first year or two but in no case in more than 5 years.

(d) *Land, buildings, and facilities.* Adequate land, buildings, and facilities will be developed to place the recreation enterprise in condition for successful operation at the outset for each loan. To the extent feasible, recommendations from the Forest Service, Extension Service, Soil Conservation Service, Agricultural Stabilization and Conservation Service, and State Planning and Development agencies should be obtained. In planning such development with the applicant, the lender will encourage him to use any cost-sharing assistance that is available.

(e) *Performing development.* See § 1826.75(e).

(f) *Loans on leasehold interests.* The provisions of § 1826.85(d) with respect to SW loans on leasehold interests in farms are equally applicable to RL loans on leaseholds.

§ 1826.96 RL rates and terms.

(a) *Interest rate to borrower.* See § 1826.13.

(b) *Loan term.* Each employee will be scheduled for repayment over a period not to exceed 40 years from the date of the note or such shorter period as may be necessary to assure that the loan will be adequately secured, taking into account the probable depreciation of the security. However, a loan not secured by real estate or a leasehold will be scheduled for payment over a period not to exceed 20 years from the date of the note.

(c) *Reamortization.* See § 1826.76(f).

§§ 1826.97–1826.100 [Reserved]

§ 1826.101 OL eligibility requirements.

To be eligible for an OL (Operating) loan each applicant must meet the requirements of § 1826.71 except that:

(a) *Farm operator.* After the loan is made, the applicant may only be the "operator," rather than the "owner-operator" of the farm, and

(b) *Rural youth.* Loans may be made to rural youths as defined in § 1826.2 even though they have not reached their majority under State law, provided:

(1) At least one of their parents or guardian and their project advisor recommends the loan.

(2) They are participating in activities of 4–H, Future Farmers of America, Future Homemakers of America, or similar organizations.

§ 1826.102 Preference between OL applicants.

The veterans preference provisions of § 1826.72(a) are applicable to OL loans.

§ 1826.103 OL loan purposes.

Subject to the prohibitations set forth in § 1826.104, the loan limitations and special provisions in § 1826.105 and the limitation on youth loans in paragraph (p) of this section, OL loans may be made for:

(a) *Farm personal property.* Purchase of livestock, poultry, other farm animals, fish, bees, and farm machinery and equipment including forestry enterprise equipment.

(b) *Nonfarm or recreation personal property.* Purchase of nonfarm or recreational enterprise animals, birds, fish, machinery and equipment, facilities, furnishings, inventories, and supplies; and purchase of any essential franchises, contracts, or privileges.

(c) *Undivided interests.* Purchase of undivided interests in the items included in paragraphs (a) and (b) of this section which would be operated under a joint arrangement.

(d) *Supplies, repairs, rental, operating expenses.* Purchase of feed, seed, fertilizer, insecticides, and other supplies, including inventory; the repair or rental of machinery and equipment; and payment of other operating expenses.

(e) *Cash rent and grazing fees.* Payment of equitable cash rent or cash charges for use of essential buildings, pasture, hay, crop or other land, and cost of grazing permits for the crop year being financed, provided:

(1) The applicant is obligated under a written lease or other formal agreement to pay such rent or charges before income will be available from the operation.

(2) Not more than one year's cash rent or cash charges will be paid with loan funds in any one lease year.

(3) The terms of the rental agreement provide the applicant with reasonably satisfactory tenure.

(f) *Property taxes or assessments.* Payment of current year's personal and real property taxes and water or drainage charges or assessments.

(g) *Social Security taxes.* Payment of Social Security taxes in connection with hired labor.

(h) *Insurance premiums.* Payment of real estate and personal property hazard insurance premiums.

(i) *Membership or stock.* Acquisition of memberships and/or stock in farm or nonfarm purchasing, marketing, and service-type cooperative organizations, exclusive of membership in organizations which will acquire, lease, or improve property not otherwise under the control of the members.

(j) *Home equipment and furnishings.* Purchase of essential home equipment and furnishings.

(k) *Refinancing.* Refinancing secured and unsecured debts, provided the amount loaned for such purposes does not exceed the market value of the property involved that will be security for the loan. If a debt owed to the lender is being considered for refinancing, see § 1826.11.

(l) *Milk base.* Purchase of milk base or quota with or without cows.

(m) *Grazing license or permit.* Purchase of grazing license or permit rights of private parties which can be validly sold and transferred or waived separate

V 38-152 AUG 8 73 XUM

from any land lease or other interest in land with or without livestock.

(n) *Real estate improvements.* Real estate improvements or repairs not exceeding $2,500.

(o) *Pollution abatement and control.* Acquisition of equipment and materials for, and development of measures for, pollution abatement and control.

(p) *Rural youths.* Loans to rural youths may be made only for the purpose of initiating, developing and carrying on a farm or nonfarm project in connection with the rural youth's participation in activities of 4–H, Future Farmers of America, Future Homemarkers of America, and similar organizations.

(q) *Living expenses.* Meeting essential family living expenses.

(r) *Appraisal fees and loan closing expenses.* Appraisal fees and expenses incident to loan closing.

§ 1826.104 Prohibited OL loan purposes.

FHA will not guarantee loans for:

(a) *Automobiles.* Purchase of passenger automobiles or the refinancing of debts incurred for such purchase.

(b) *Land purchase, lease payments, refinancing.* Purchase of land or other real estate, or entering into or making payments required under any lease-purchase agreement, or the making of payments on or refinancing of any indebtedness secured by a lien on real estate other than the payment of taxes and water or drainage charges or assessments as authorized in § 1826.103(f). However, this requirement does not prohibit the refinancing of a debt secured by a lien on both real estate and personal property items described in § 1826.103 (a) and (b) to the extent of the applicant's equity in such personal property.

(c) *Income and Social Security taxes.* Payment of Federal or State income taxes or Social Security taxes on the borrower's family income.

(d) *Stock or membership.* Purchase of memberships or stock in production cooperatives.

(e) *Debts not previously approved.* Payment of debts incurred for purposes other than those upon which the Conditional Commitment for Guarantee was based.

§ 1826.105 OL loan limitations and special provisions.

(a) *Maximum amount of loan.* FHA cannot guarantee an OL loan if the principal of the loan plus the principal balance on existing guaranteed, direct, and insured OL loans would exceed $50,000 or the amount certified by the County Committee.

(b) *Joint farming, recreation, and nonfarm operations.*

(1) A joint loan may be made to two eligible applicants living together or living separately and operating jointly not larger than the equivalent of one family farming, recreation, or nonfarm operation.

(2) Separate loans may be made to eligible applicants who are jointly engaged in such an operation, provided not more than three individuals are interested in the operation, and the operation provides the equivalent of not larger than one family operation for each individual.

§ 1826.106 OL rates and terms.

(a) Interest rate to borrower. See § 1826.13.

(b) *Loan term.* The final maturity of the loan cannot exceed 7 years from the date of the promissory note.

(c) *Renewal.* The loan may be renewed if the holder determines that the renewal will assist in the orderly collection of the loan. However, no renewal shall be for a period longer than the original loan term or 5 years, whichever is less. Moreover, no initial renewal nor any combination of such initial and subsequent renewals shall extend the repayment period beyond 5 years from the initial renewal date or the original final maturity date, whichever is earlier.

(d) *Reamortization.* See § 1826.76(c).

§§ 1826.107–1826.110 [Reserved]

§ 1826.111 EM area designations and authorizations.

The County Supervisor will give written notice to approved lenders in his service area as to when the disaster occurred, and when and for what period of time:

(a) *Designated area.* A county or area has been designated for taking applications for particular types of EM loans.

(b) *Isolated production losses—nondesignated area.* Applications may be taken in a county which has not been designated for EM loans, but in which EM loans have been authorized by the State Director because severe production losses have been suffered by not more than 25 farmers who will need EM loans. In a county in which the State Director has determined that such isolated production losses have occurred, lenders will check with the County Supervisor to ascertain that each application comes within the 25 limit.

§ 1826.112 EM eligibility requirements.

To be eligible for an EM (Emergency) loan, an applicant must:

(a) *Citizen.* Be a citizen of the United States, if an individual. If a partnership, the individual partners must be citizens of the United States. If a corporation, the corporation must be incorporated under the laws of the United States or of a State, and must be authorized to carry on farming operations in the State in which the EM operation is to be conducted.

(b) *Established farmer or rancher.* Be an established farmer or rancher with a reasonably good past record of operations, whether owner-operator or tenant, who manages his farming or ranching operations. An applicant who does not devote full time to his farming or ranching operations may be considered as the manager of his farming or ranching operations if he visits his farm or ranch at frequent intervals often enough to exercise control and see that the operations are being carried on properly.

(c) *Production losses or property damages.* Have suffered production losses or property damage directly related to the unusual and adverse weather conditions which resulted in the major disaster(s) designation by the President, or the natural disaster(s) designation by the Secretary, or the authorization of the State Director because of an isolated production loss. Also, it must be established that all losses or damages upon which eligibility for the loan is based were caused during the time period established for the occurrence of the disaster.

(1) *Production losses.* The production losses must have been of a severe nature. This means that they must have been substantially greater than would be expected from normal fluctuations in yields. In making this required determination about production losses, consideration will be given to the applicant's total farming operations. He will be required to furnish information on Form FHA 441–22, "Statement of Production Losses and Certification," showing the production in each of his crop and livestock enterprises during the year of the disaster and the 2 preceding crop years, and an explanation about how and when the natural disaster caused his production losses. If the production was not normal for any of the 3 years, then the applicant must also furnish such information for his most recent normal year. An applicant meets this eligibility requirement only if his production losses which are *not compensated for by insurance or otherwise*, are the equivalent of 10 percent or more of the dollar value of normal production for his total farming or ranching enterprises. Eligibility established under this subparagraph would only entitle an applicant to an EM loan sufficient to produce a new crop.

(i) To establish eligibility, the lender must convert the applicant's total production after the disaster to gross income adding thereto any insurance or other compensation which may be claimed for these losses, and also calculate his gross income from total production for his most recent normal year. The disaster year figure must be subtracted from the normal year figure to calculate the "loss value" in dollars. The "loss value" will then be calculated as a percentage of the total normal production gross income. This percentage must equal or exceed 10 percent for eligibility. The calculations will be recorded in the lender's loan docket. The gross income will be calculated by using the prevailing market prices for crops in effect at the time of the disaster for each particular commodity as evidenced by the State Crop Reporting Service reports. Lists of prices will be prepared by the State Director and distributed to affected County Supervisors. Approved lenders can obtain such lists from FHA.

(ii) When the applicant has a livestock operation and his losses are to feedcrops, pasture, or grazing, his eligibility will be established by the cost of feed necessarily purchased or grazing rented to replace that which was lost due to the disaster. The cost of the additional feed purchased or grazing rented must be 10 percent or more of his normal production year gross income from his total operation.

(iii) Where an applicant was unable to plant a substantial portion of his normal crops because of a "qualifying disaster," his production for that portion of his unplanted crops will be shown as zero on Form FHA 441–22 if a substitute or different crop could not be planted. If a substitute or different crop is planted, the acreage and production of that crop will be shown.

(2) Damages or losses not compensated for by insurance or otherwise to farm or ranch dwellings and service buildings, land and water resources, farming or ranching supplies or equipment, or livestock essential to normal farm or ranch operations would qualify an applicant for a loan sufficient only to repair, replace or restore such property. These damages or losses would not qualify the applicant for an EM loan to be used for crop production.

(3) Where an applicant has had disaster damage to feed crops and elects to sell his livestock rather than purchase feed to replace that which he would have produced except for the natural disaster, he cannot claim as loss the difference between the sale price and an estimate of what the sale price would have been if the livestock had been fed for the normal period. This is because the earlier sale was based on a judgment decision and differs from an applicant who could not plant crops because of the natural disaster. The latter had no opportunity for a judgment decision about planting.

(4) Production losses which have occurred to crops or grazing before actual production for the year can be determined will be estimated and shown on Form FHA 441–22 as follows:

(i) For grazing, the number of acres and the estimated percentage of loss will be shown in the appropriate spaces.

(ii) Estimates of damage to other feed crops and cash crops will be shown in units of production.

(5) The lender will make such efforts as are reasonably necessary to check the accuracy of such estimates.

(d) *Legal capacity.* Possess legal capacity to contract for the loan.

(e) *Character, ability, industry.* Be of good character and possess the ability, industry, and experience necessary to carry out the proposed farming or ranching operations and to assure a reasonable prospect for success with the assistance of the loan, and will honestly endeavor to carry out the undertakings and obligations required of him in connection with the loan.

(f) *Other available financing.* Be unable with his own resources, or be unable to obtain sufficient credit elsewhere without a guaranteed loan, to finance his actual needs at rates and terms he could reasonably expect to fulfill, taking into consideration prevailing private and cooperative rates and terms in the community in or near which he resides for loans for similar purposes and periods of time. The applicant's equity in real estate, chattels, and other assets should be considered in determining his ability to obtain credit from private and cooperative sources. This must be documented in the lender's case file.

(1) In no case will an EM loan be made to an applicant who is able to obtain the credit he needs elsewhere, without an FHA guarantee, on terms he can reasonably be expected to pay.

(2) For partnerships or corporations, the principal partners or principal stockholders, either individually or collectively must be unable to finance the farming or ranching operations either with their own resources or with credit obtained by them from other sources without an FHA guarantee. Any partner or stockholder owning as much as 20 percent interest in a partnership or a corporation's stock, or a smaller percentage if owned in equal amounts, will be considered as a principal partner or stockholder.

(3) EM loans will not be made to applicants having large net worths or large equities in real estate. chattels, or other property, in relation to the amounts they need to borrow, regardless of their ability to obtain credit from other sources. Such applicants are considered to have options in the use of their resources that would enable them to operate without FHA guarantee assistance.

§ 1826.114 EM loan purposes.

Purposes for which EM loans may be made to fish farmers and oyster planters are set forth in § 1826.116(c) and § 1826.116(d)(3), respectively. Subject to the prohibitions in § 1826.115 and the loan limitations and special provisions in § 1826.116, other EM loans may be guaranteed if made to eligible farmers or ranchers for such of the following purposes as are essential to their farming or ranching operations:

(a) *Supplies, repairs, operating and processing expenses.* Purchase of feed, seed, fertilizer, insecticides, and farm supplies; payment of equipment repair costs, other essential farm operating expenses, and expenses for processing by the applicant of agricultural products produced by him.

(b) *Farm machinery.* Purchase of farm machinery when necessary to replace that destroyed, damaged, or lost through foreclosure or repossession by a prior creditor as the result of the qualifying disaster. Replacement items purchased with loan funds must be reasonably comparable in size and service, but not necessarily identical, to that being replaced.

(c) *Livestock.* Purchase of livestock as follows:

(1) Breeding livestock to replace those lost, destroyed, or disposed of as a result of the qualifying disaster. In such cases, the circumstances surrounding the loss or disposition of the livestock to be replaced will be documented carefully.

(2) Feeder or stocker livestock, provided it has been the applicant's normal practice to have a feeder or stocker enterprise, and the applicant produces more than half of the feed or more than half of the livestock required for the enterprise.

(g) *Unsound loan.* An applicant who meets all of the above criteria should still be denied a guaranteed EM loan if, in the judgment of the lender, he cannot be expected to recover from his losses as a result of the disaster and return to his normal sources of credit within a reasonable period.

§ 1826.113 Subsequent EM loans.

A subsequent loan is one that is made to a borrower who is indebted for an EM loan balance. Subsequent EM loans may be made within the limitations, policies, and authorities contained in this section without regard to the termination date for making initial loans. A subsequent EM loan may be guaranteed when:

(a) *Other available financing.* The applicant is unable to provide the necessary funds or to obtain credit from other sources under the conditions set forth in paragraph (f) of § 1826.112, and his inability to do so has resulted from the disaster which caused the need for the initial loan.

(b) *Ability to pay all EM loans.* There is reasonable assurance that the subsequent loan will be repaid and the balances owed on previous EM loans will be repaid or substantially reduced within a reasonable period.

(c) *Protection of existing EM loans.* The subsequent loan is necessary to protect outstanding EM loans by arranging for the orderly repayment or liquidation thereof. In determining whether a subsequent EM loan is necessary to protect existing EM loans, consideration will be given to the following questions:

(1) Will the lender lose control of future farm or ranch income that ordinarily would be available for payment on the EM loan balance if the subsequent EM loan is not made?

(2) Will the lender's security position be weakened if the subsequent EM loan is not made?

(3) Will the lender take a financial loss if the borrower is forced out of farming or ranching because he could not get credit without a guaranteed subsequent loan?

(3) To establish small feeder or stocker livestock enterprises, or to provide for small increases in the size of such enterprises already established, provided the applicant has the ability to care for livestock properly, it is determined that the establishment or increase in the size of the livestock enterprise is the most feasible method of marketing the feed or crops produced on the farm, the applicant will produce a majority of the feed required for the enterprise, and the enterprise is necessary to develop sound farming operations. It is not the intent of this authorization to assist applicants in making major conversions to livestock operations. Justification for the new enterprise will be documented fully in the loan docket.

(d) *Cash rent.* Payment of customary and equitable cash rent, subject to the following:

(1) When the cash rent, including cash charges as privilege rent, is for the use

V 38-152 AUG 8 73 XUM

of farm buildings, pasture, hayland, cropland for the production of feed crops or grazing land, and all of the following conditions are met:

(i) The applicant is obligated under a written lease, or other formal agreement, to pay such rent or charges in advance of the time income will be available from the farming operations to make such payment. For grazing fees in invoice showing the number of livestock to be grazed, the grazing period, the cost per head, and the total cost may be used in lieu of a written lease. However, when relatively small amounts are involved, an invoice will not be required if the applicant's explanation of a satisfactory grazing agreement is recorded in the loan docket.

(ii) Arrangements cannot be made for the rent or charges to fall due when income will be available from the farming operations to make such payment.

(iii) Not more than one year's cash rent or cash charges will be paid with loan funds in any one lease year, except that if a loan is approved near the end of the current lease year funds for payment of such rent or charges for the succeeding lease year may be included in the loan.

(iv) The terms of the rental agreement provide the applicant with reasonably satisfactory tenure.

(v) The feed crops to be produced and any rented pasture or grazing land will be used by the applicant in feeding his stocker, feeder, or productive livestock.

(2) When the cash rent is for the use of land to produce cash crops, and all of the following conditions are met:

(i) The applicant operates not larger than a family farm.

(ii) The applicant's farming operations do not consist primarily of producing vegetable, or other such specialized crops.

(iii) The requirements under paragraphs (d)(1)(i), (ii), (iii), and (iv) of this section are met.

(e) *Taxes, assessments, insurance premiums.* Payment of not more than one year's taxes and insurance premiums on real or personal property owned by the borrower, not more than one year's premium for hazard insurance, Social Security taxes in connection with hired labor only, and water or drainage charges or assessments for not more than one year.

(f) *Unsecured bills.* Payment of current unsecured bills incurred for authorized EM loan purposes in connection with the production of livestock, livestock products, and crops which have not been disposed of, lost, or destroyed, and old unsecured bills incurred for authorized EM loan purposes in connection with the production of livestock, livestock products, or crops which have been disposed of, lost or destroyed.

(1) For this purpose, an unsecured bill is a bill for which the creditor did not receive a lien on any property at the time it was incurred and has not received such a lien since that time. EM loans will not be made for the payment of unsecured bills or notes which can be paid from the sale of livestock, livestock products, or crops to be marketed within a few weeks following the approval of the loan, or cannot be scheduled for payment from the year's income when it normally would be received.

(2) Generally, the amount being advanced for the payment of old unsecured bills should not exceed 5 percent of the total loan.

(g) *Interest on secured debts.* Payment of not more than a year's interest calculated at a rate not to exceed that which is reasonable and customary for the area, but not to exceed 8 percent per annum, that is due or about to become due on debts secured by liens of other creditors on essential livestock, farm equipment, and farm real estate.

(h) *Depreciation.* Payment of an amount equal to the depreciation in any one year not exceeding 15 percent of the market value of essential farm machinery and equipment under prior lien to another creditor or 15 percent of the amount owed to such creditor, whichever is less.

(i) *Replacement and repair of improvements.* The replacement or repair of essential buildings, silos, storage facilities for feed or water, fences, drainage systems, irrigation facilities, wells, and stock ponds damaged or destroyed by natural disasters. In addition, new wells may be financed, *not* on a replacement basis, where necessary to provide water for domestic use and for livestock where the normal source has been damaged or destroyed by a natural disaster.

(j) *Land leveling, debris clearance.* The releveling of land and the clearing of debris made necessary as a direct result of the qualifying disaster.

(k) *Pastures, plants, trees, perennial crops.* The restoration of permanent pastures and the purchase of trees, rootstock, and plants for reestablishing commercial orchards or berry and other perennial crops, when necessary as a direct result of the qualifying disaster.

(l) *Bills for emergency repairs.* The payment of bills incurred for emergency repairs and improvements to farm real estate, necessary as a direct result of the qualifying disaster, provided:

(1) It is determined that the expenditures were essential to preservation of the property or continuation of the applicant's normal farming or livestock operations, and had to be made before an EM loan could be obtained.

(2) The loan for such purposes is approved within a reasonable period following designation of the area. A reasonable period for this purpose generally will not exceed a few weeks.

(m) *Living expenses.* Meeting essential family living expenses.

(n) *Home equipment and furnishings.* Replacement or repair of essential home equipment and furnishings.

(o) *Loan closing expenses.* Expenses incident to loan closing.

§ 1826.115 Prohibited EM loan purposes.

EM loans will not be guaranteed:

(a) *Unsecured bills, interest on secured debts, depreciation.* For purposes authorized in paragraphs (f), (g), and (h) of § 1826.114 unless essential operating expenses are provided for with loan funds and then only where there is reasonable payment prospects for the total amount of credit required for the crop year, and adequate security for the EM loan.

(b) *Refinancing.* To refinance debts, either secured or unsecured, except the payment of bills as authorized in paragraphs (f) and (l) of § 1826.114, without the specific written approval of FHA. Any such written approval will be subject to the conditions, limitations, and requirements of 7 CFR 1832.19.

(c) *Income and Social Security taxes.* To pay Federal or State income taxes, or social security taxes payable by borrowers on their own family income.

(d) *Automobiles.* To purchase passenger automobiles.

(e) *Become established or reestablished in farming.* To enable an applicant to become established or reestablished in farming or ranching.

(f) *Expand operations.* To enable an applicant to expand his farming or ranching operations substantially in excess of the size of his operations during the year just prior to the loan application. However, this does not prohibit expansion within the size of family farming operations where additional equipment will not be required and livestock purchases will not exceed those authorized by paragraph (c) of § 1826.114.

(g) *Major adjustments in operations.* To enable an applicant to make major adjustments in his farming or ranching operations. This is not intended, however, to prohibit minor changes such as the shifting or addition of minor crop or livestock enterprises, including the establishment of small acreages of permanent pastures, provided:

(1) The new crop is proven for the area, the applicant has the knowledge and ability to produce the crop, the purchase of additional equipment will not be required and the new enterprise will not result in a substantial expansion of the total crop acreages or the total operating expenses.

(2) The new livestock enterprise meets the requirements of paragraph (c)(3) of § 1826.114.

(h) *Commercial feed lot operations.* To finance commercial feed lot operations.

(i) *Applicant must produce more than ½ of livestock or feed.* To finance livestock or ranching enterprises where the applicant does not produce more than half of the livestock or more than half of the feed required for his enterprise.

(j) *Landlord furnish.* To a landlord to furnish his tenant operators, whether share, cash, or standing rent is paid by these tenants. However, with FHA's written approval, loans may, under justified circumstances, be made to operating landlords or tenants to furnish their sharecroppers.

(k) *Unproven farming operations.* To finance unproven types of farming operations in the area.

(l) *Processing or selling agricultural products.* To finance an applicant's enterprises involving the buying, processing for market, or selling of agricultural products produced by others. However, EM loans may be made to finance such an applicant's farming operations if he agrees in writing to maintain separate records on his farming operations, and assigns to the lender the income to be received from his farming.

(m) *Estates, trusts, partnerships, corporations.* To the following types of applicants:

(1) An estate or a trust.

(2) A corporation owned primarily by an estate, trust, other corporations, or partnerships.

(3) A partnership composed primarily of an estate, trust, corporations, or other partnerships.

(n) *Bankrupts.* To an applicant operating under the jurisdiction of a bankruptcy court.

(o) *National Flood Insurance.* To flood and mudslide victims to repair or replace farm dwellings or service buildings and the contents thereof, damaged or destroyed after 12–31–73, in areas where "National Flood Insurance" was available but not obtained.

§ 1826.116 EM loan limitations and special provisions.

(a) *Federal crop insurance.* Recipients of Emergency loans will be required to carry Federal Crop Insurance during the period their Emergency loans made for crop production purposes are guaranteed, if such insurance is available.

(b) *Orchard rehabilitation.* Emergency (EM) loans may be guaranteed for orchard rehabilitation subject to the requirements of § 1826.111 to § 1826.117, both inclusive, except as modified and supplemented herein. "Orchard rehabilitation" means the renovation or reestablishment of orchards made necessary because of major damage resulting from the natural disaster for which the area was designated.

(1) *Eligibility.* Orchard rehabilitation loans will be made only to otherwise eligible applicants who are owner-operators.

(2) *Loan purposes.* Orchard rehabilitation loans will not be made for the purposes authorized by paragraphs (b), (c), (d), (1), and (n) of § 1826.114. Also, paragraph (f) of § 1826.114 is modified to provide for payment of only those unsecured bills incurred during the crop year for which the loan is made for annual recurring expenses in connection with the production of livestock, livestock products, and crops yet to be sold and from which the advances can be repaid. In addition, paragraph (m) of § 1826.114 is modified to provide that advances will not be made for family living expenses to an applicant for an orchard rehabilitation loan unless his full time will be required for his orchard operations.

(3) *Type of fruits or nuts:* EM loans may be made to enable eligible orchardists to rehabilitate their damaged or destroyed orchards for producing the same type of fruit or nuts, or for producing a different type of fruit or nuts suitable for the area, if the applicant has had adequate experience to assure reasonable prospects for success with that type of fruit or nuts.

(c) *Fish farming.* To be an "established farmer" as that term is used in § 1826.112(b), the applicant must be conducting his own established farming operations consisting in whole or in part of the production of fish for income under controlled conditions in lakes, ponds, streams, or reservoirs.

(1) *Eligibility.* In addition to the requirements in § 1826.112, the applicant must have a record of successful fish farming operations in the past, and have satisfactory plans for marketing his fish farming products.

(2) *Loan purposes.* EM loan purposes to finance fish farming operations include only the following:

(i) Purchase of fish for restocking ponds, lakes, streams, or reservoirs under controlled conditions, and for essential operating expenses in continuing an applicant's normal fish farming operations.

(ii) Purposes authorized by paragraphs (e), (m), and (o) of § 1826.114.

(d) *Oyster Planters.* Emergency (EM) loans may be made to established oyster planters to enable them to continue their normal oyster planting operations, including annual operating costs as well as expenses of rehabilitating oyster farming operations when necessary.

(1) *Definitions.* (i) "Oyster planting" means renovating oyster seed beds and planting, caring for, cultivating, and harvesting planted oysters on the applicant's owned or leased oyster ground. Other types of oyster operations, such as contract planting and gathering wild oysters, are not "oyster planting" operations for this purpose.

(ii) "Oyster planter" means one who performs or actively manages oyster planting functions described in paragraph (d)(1)(i) of this section as his own operation on owned or leased oyster ground. An operator who performs any or all of these functions other than his own oyster planting operations, or is self-employed or employed by others in any type of oyster operations or marine life operations other than oyster planting operations as described in paragraph (d)(1)(i) of this section, is not an oyster planter for this purpose. However, these activities on a limited basis would not disqualify an applicant who conducts such oyster planting operations.

(iii) "Oyster ground" means ground under water on which oyster planting operations are conducted.

(iv) "Rehabilitating oyster planting operations" means restoring such operations to a normal pattern. Generally a period of three years is required for planted oysters to reach the harvesting state. It is the normal pattern for operators to plant one-third of their oyster ground each year in order to have a crop for sale each year. When all of an applicant's planted oysters are destroyed by a natural disaster, the rehabilitation to a normal pattern generally consists of replanting one-third of the applicant's oyster ground during the first year, one-third during the second year, and one-third during the third year. The operations then will have been restored to a normal pattern and subsequent replantings each year will be normal and will not be considered as being made for rehabilitation purposes. It is recognized that there may be variations of the normal pattern of oyster planting operations in some areas. The making of loans will always be adapted to the proven normal pattern of the area.

(2) *Eligibility.* § 1826.112 is supplemented by the addition of the following:

(i) The applicant must furnish satisfactory evidence from other reliable sources, such as banks and other lenders, buyers, and lessors, of a good record of oyster planting operations in the past.

(ii) The applicant must agree in writing to abide by any Federal and State laws, or regulations applicable to oyster planting operations in his area.

(3) *Loan purposes.* EM loans to eligible oyster planters may be made for the following purposes:

(i) Purchase of seed oysters and oyster planting supplies; the repair of oyster planting machinery or equipment; purchase of replacement oyster planting machinery and equipment and other essential operating expenses, including funds for oyster seed bed renovation.

(ii) Family living expenses for applicants who devote a major portion of their time to their oyster planting operations when funds are not available from other sources for this purpose.

(iii) Payment of not more than a year's interest calculated at a rate not to exceed that which is reasonable and customary for the area, that is due or about to become due on debts secured by liens of other creditors on equipment and real estate essential to the applicant's oyster planting operations.

(iv) Payment of not more than one year's customary and equitable cash rent or cash charges for the use of grounds leased for oyster planting operations, provided other arrangements cannot be made for the payment of rent and the applicant holds a written lease.

(v) Payment of not more than one year's taxes on personal property and real estate, payment of not more than one year's premiums for insurance on personal property and real estate, and payment of Social taxes in connection with hired labor only.

(vi) Expenses incident to loan closing.

(4) *Loan period.* Section 1826.115 is supplemented to prohibit making an EM loan to finance an applicant's oyster planting, rehabilitation, or other needs for a period longer than one crop year at a time. This is not intended, however, to prohibit subsequent loans in succeeding years on a crop year basis. This prohibition deals only with loan making and not with scheduling loans for repayment.

(5) *Repayment period.* EM loans for authorized purposes in connection with the rehabilitation of oyster planting operations, including annual operating expenses during the rehabilitation period, will be scheduled for repayment

V 38-152 AUG 8 73 XUM

over the shortest period consistent with the applicant's estimated repayment ability from all sources, but not longer than three years from the date of the loan. When an EM loan is made to meet the cost of renovating and replanting oyster beds and the cost is higher than the cost of normal replantings because of a natural disaster, an amount representing the abnormal portion of the cost may be considered as a capital purpose and scheduled for repayment over a period of not more than 7 years.

§ 1826.117 EM rates and terms.

(a) *Interest rate to borrower.* See § 1826.13.

(b) *Loan term.* The final maturity of the loan will not be later than 7 years from the date of the note for loans for other than real estate purposes and not more than 20 years for loans for real estate purposes.

(c) *Renewal.* A loan for operating type purposes is subject to the renewal provisions of § 1826.106. A loan made for real estate type purposes may be renewed if the holder determines that the renewal will assist in the orderly collection of the loan, provided that no such renewal or combination or renewals can extend the repayment period beyond 20 years from the date of the original loan promissory note.

(d) *Reamortization.* If the borrower pays 25 percent or more of the loan balance before it is due, from the sale of part of the real estate security with the approval of the lender or with funds derived from other non-security sources, the lender may agree to a reamortization of the balance owed, provided the repayment period does not exceed the remaining portion of the original loan term and the remaining security is adequate for the balance owed.

(e) *Maximum amount of loan.* FHA cannot guarantee an EM loan if the principal amount of the loan would exceed the amount certified by the County Committee.

§§ 1826.118–1826.120 [Reserved]

§ 1826.121 Forms and forms distribution.

(a) *FHA forms.* The following chart lists the applicable FHA forms, number to be prepared, signatures required, and manner of distribution. These forms may be obtained from FHA.

FHA Form Number	Name of Form	Total Number	Signed By*	Distribution*
400-1	Equal Opportunity Agreement	3	B–0	O–L, C–B, C–FHA
400-3	Notice to Contractors and Applicants	4	L–0	O–Con, C–B, C–L, C–FHA
400-6	Compliance Statement	4	L&Con 3–0	O–L, C–Con, C–B, C–FHA

471-7	Notice and Acknowledgment of Sale of Insured or Guaranteed Loan	4	L–0	O–FC, C–FC, C–L, C–FHA

"0"—Original; "C"—Copy
"Lender" includes "Holder"
**Chattel Mortgage in L.A. and P.R.

*Signatures and Distribution
"L"—Lender; "B"—Borrower; "FC"—Finance Office "FHA"—Authorized FHA Official; "Con"—Contractor

(b) *Other forms and information.* Another form that may be obtained from FHA (although it is not an FHA form) is Form AD–425, "Contractor's Affirmative Action Plan for Equal Employment Opportunity Under Executive Order 11246 and Executive Order 11375." Any needed forms not furnished by FHA will be provided by the lender, holder, or applicant. They may obtain information and copies of other FHA forms that may be helpful in various aspects of loan making, construction and development, and servicing.

(c) *Racial code.* Some FHA forms, such as Form FHA 449–6, Form FHA 449–7, and Form FHA 449–8 contain space for coding the race of the applicant for the loan or assumption. In that code "W" means "White," "N/B" means "Negro(Black)," "S" means "Spanish American," "AI" means "American Indian," and "O" means any other race. The lender is responsible for completing this code on all forms on which it appears, in accordance with his best judgment as to the race involved.

§ 1828.122 Access to records of lenders and holders.

The lender and holder will permit representatives of FHA (or of other agencies of the U.S. Department of Agriculture authorized by that Department) to inspect and make copies of any of the records of the lender or holder pertaining to FHA guaranteed loans. Such inspection and copying may be made during regular office hours of the lender or holder.

§ 1826.123 Review of decisions.

(a) *Decisions of State Directors.* If a State Director rejects any party's request for approval as a lender or holder or for approval to serve any area or terminates the previously approved status of any lender or holder, such lender or holder may request the Administrator of FHA to review the State Director's decision. His address is: Administrator, Farmers Home Administration, United States Department of Agriculture, Washington, D.C. 20250.

(1) The request for review must be in writing and must be accompanied by supporting information and documentation. A copy of the request and supporting material must be sent by the requesting party to the State Director at the same time such party forwards the original to the Administrator.

(2) Upon receipt of the copy of this material, the State Director will furnish a full report on the matter to the Administrator.

(3) The Administrator will act on the request as expeditiously as possible under all the circumstances, and will notify the requestor and the State Director in writing of his decision and the reason therefor.

(b) *Decisions of County Supervisors.* If a County Supervisor rejects a request from an approved lender for issuance of a Conditional Commitment for Guarantee or a Contract of Guarantee, or determines that a previously issued Contract of Guarantee is void or voidable or unenforceable, in a particular case, such lender (or holder) may request the State Director to review the County Supervisor's decision.

(1) The matter will be handled in the same manner as in paragraph (a) of this section, except that the County Supervisor and State Director, rather than the State Director and Administrator, will be involved.

(2) If the requesting party is not satisfied with the State Director's decision, such party may follow the procedure in paragraph (a) of this section in obtaining the Administrator's review of the State Director's decision.

Dated: August 2, 1973.

FRANK B. ELLIOTT,
Acting Administrator,
Farmers Home Administration.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 73–EA–60]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Philipsburg, Pa., control zone (38 FR 411, 3506) and transition area (38 FR 555, 3506, 8643).

A review of the requirements of the Philipsburg terminal airspace establishes a need to alter the control zone and transition area to conform to the Terminal Instrument Procedures (TERPS) criteria.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before September 7, 1973 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Philipsburg, Pennsylvania, proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations by deleting the description of the Philipsburg, Pa. control zone and by substituting the following in lieu thereof:

Within a 5-mile radius of the center 40° 53'00'' N., 78°05'15'' W., of Mid-State Airport, Philipsburg, Pa., extending clockwise from a 248° bearing to a 031° bearing from the airport; within a 6-mile radius of the center of the airport, extending clockwise from a 031° bearing to a 098° bearing from the airport; within a 5-mile radius of the center of the airport, extending clockwise from a 098° bearing to a 187° bearing from the airport; within a 6-mile radius of the center of the airport, extending clockwise from a 187° bearing to a 248° bearing from the airport; and within 4 miles each side of a 327° bearing from a point 40°53'09'' N., 78°05'06'' W., extending from said point to a point 8.5 miles northwest.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations by deleting the description of the Philipsburg, Pa. transition area and by substituting the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 6-mile radius of the center 40°53'00'' N., 78°05'15'' W., of Mid-State Airport, Philipsburg, Pa., extending clockwise from a 261° bearing to a 012° bearing from the airport; within an 8.5-mile radius of the center of the airport, extending clockwise from a 012° bearing to a 098° bearing from the airport; within a 6-mile radius of the center of the airport, extending clockwise from a 098° bearing to a 183° bearing from the airport; within a 9.5-mile radius of the center of the airport, extending clockwise from a 183° bearing to a 261° bearing from the airport; within 3.5 miles each side of the Philipsburg VORTAC 067° radial, extending from the VORTAC to 11.5 miles northeast of the VORTAC; within 4 miles each side of the 327° bearing from a point 40°53'09'' N., 78°05'06'' W., extending from said point to a point 8.5 miles northwest; within 2.5 miles each side of the Philipsburg VORTAC 330° radial, extending from the VORTAC to 6 miles northwest of the VORTAC; and within 3.5 miles each side of the Philipsburg VORTAC 301° radial, extending from the VORTAC to 11.5 miles northwest of the VORTAC.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on July 19, 1973.

ROBERT H. STANTON,
Acting Director, Eastern Region.

CERTAIN INERT INGREDIENTS IN PESTICIDE FORMULATIONS

Proposed Exemptions from Requirement of Tolerance

Correction

In FR Doc. 73–15050 appering at page 19840 in the issue of Tuesday, July 24, 1973, in the second column on page 19841, the fourth entry from the bottom of the table should read as follows:

2,4,7,9-Tetramethyl-5-decyne-4,7-diol.	Not more than 2.5% of pesticide formulation.	Surfactants, related adjuvants of surfactants.

FEDERAL HOME LOAN BANK BOARD

[No. 73–1084]

[12 CFR Part 545]

FEDERAL SAVINGS AND LOAN SYSTEM

Give-Aways; Extension of Comment Period

AUGUST 2, 1973.

By Resolution No. 73–863, dated June 27, 1973, the Federal Home Loan Bank Board proposed to amend paragraph (a) of § 545.5 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR 545.5(a)) by adding a new alternative provision under which that section could become applicable to Federal savings and loan associations. The proposed amendment would not change the actual give-away prohibitions set forth in paragraph (b) of said § 545.5. Notice of such proposed rulemaking was published in the FEDERAL REGISTER on July 3, 1973 (38 FR 17738–9), and interested persons were invited to submit written data, views, and arguments to the Board by July 27, 1973.

From the comments received thus far, it appears that there is some confusion as to the substantive effects of this proposal in the event that it is adopted by the Board. If the proposal is adopted, the most important effect of proposed paragraph (a)(2) of § 545.5 will be that a Federal association will be prohibited by § 545.5(b) from conditioning the distribution of give-aways on a recipient's possessing, opening, or adding to a savings account, or maintaining a minimum balance therein only if it is located in a State which by regulation applies an equivalent prohibition to its domestic thrift institutions and commercial banks. Federal associations located in States having less restrictive give-away prohibitions would not be subject to §545.5(b). For example, the New York regulation (General Regulations of the New York Banking Board, Part 9) which prohibits give-aways by domestic thrift institutions and commercial banks contains an exception permitting such institutions to distribute give-aways in connection with the opening of branch offices. As New York's prohibition is less restrictive than the prohibition set forth in paragraph (b) of § 545.5, Federal associations located in New York will not be subject to a give-away prohibition even if the proposal is adopted by the Board.

At present, only Federal associations located in California are subject to the give-away prohibition of § 545.5(b) because only California has adopted the particular type of statutory and regulatory give-away prohibitions which are necessary under existing § 545.5(a) to "trigger" § 545.5(b). If the proposal is adopted, the California situation will not be changed. Also, proposed § 545.5(a)(2) would cause the give-away prohibition of § 545.5(b) to be "triggered" as to Federal associations located in any State which adopts an equivalent regulatory prohibition for domestic thrift institutions and commercial banks. The Board is unaware that any State has done so as yet.

Because of the confusion concerning the effect of the proposed amendment to paragraph (a) of § 545.5, the Board hereby provides an additional comment period on this proposal, until August 24, 1973.

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464, Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] HENRY A. CARRINGTON,
Secretary.

V 38-152 AUG 8 73 XUM

FEDERAL RESERVE SYSTEM

[12 CFR Part 225]

BANK HOLDING COMPANIES

Nonbanking Activities

The Board of Governors has considered the comments received on its proposal (37 FR 26534) to permit bank holding companies, under the authority of section 4(c)(8) of the Bank Holding Company Act, to engage in real and personal property leasing under substantially the same conditions and has made certain modifications of such proposal, which are set forth hereinafter. Due to the number and complexity of the issues involved in the proposal, the Board believes it in the public interest to gather more information about the proposal at a hearing. Accordingly, the Board has directed that a hearing be held before available members of the Board in Room 1202 of its building at 20th Street and Constitution Avenue, NW., Washington, D.C., on September 12, 1973, at 10 a.m.

The proposed amendment, as modified, reads as follows:

§ 225.4 Nonbanking Activities.

(a) Activities closely related to banking or managing or controlling banks. * * * The following activities have been determined by the Board to be so closely related to banking or managing or controlling banks as to be a proper incident thereto:

* * * * * *

(6) Leasing real and personal property or acting as agent, broker or adviser in leasing such property provided:

(i) The lease is to serve as the functional equivalent of an extension of credit to the lessee of the property;

(ii) The property to be leased is acquired specifically for the leasing transaction under consideration or was acquired specifically for an earlier leasing transaction;

(iii) The lease is on a nonoperating basis;

(iv) At the inception of the initial lease the effect of the transaction (and, with respect to governmental entities only, reasonably anticipated future transactions[1]) will yield a return from (*a*) rentals, (*b*) estimated tax benefits (investment tax credit, net economic gain from tax deferral from accelerated depreciation, and other tax benefits with a substantially similar effect), and (*c*) the estimated residual value of the property at the expiration of the initial term of the lease, which in no case shall exceed 10 percent of the acquisition cost of the property to the lessor, that will compensate the lessor for not less than the lessor's full investment in the property plus the estimated total cost of financing the property over the term of the lease;[2]

(v) The maximum lease term during which the lessor must recover the lessor's full investment in the property plus the estimated cost of financing the property shall be 40 years;

(vi) At the expiration of the lease (including any renewals or extensions with the same lessee), all interest in the property shall be either liquidated or re-leased on a nonoperating basis as soon as practicable but in no event later than two years from the expiration of the lease,*** however, in no case shall the lessor retain any interest in the property beyond 50 years after its acquisition of the property.

* * * * * *

In connection with the hearing, the Board notes that BankAmerica Corporation, San Francisco, California, has requested an opportunity for a hearing with regard to the effect the proposal would have upon the Board's existing personal property leasing regulation (§ 225.4(a) (6) of Regulation Y). Other interested persons are invited to participate by presenting their views on issues raised by the pending proposal. Interested persons need not participate in the hearing through oral presentation in order to have their views considered. All views previously expressed in writing on the pending proposal are under consideration by the Board and are available for inspection and copying in Room 1020 of the Board's building.

Persons interested in participating in the hearing by presenting material orally should inform the Secretary of the Board in writing not later than August 24, 1973. Each person admitted as a party to the proceeding will be given up to 30 minutes to present his views.

Anyone wishing to submit written comments on the revised proposal or issues raised at the hearing may do so at any time before the close of business October 3, 1973.

By order of the Board of Governors, July 26, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

[FR Doc.73-16305 Filed 8-7-73;8:45 am]

[1] The Board understands that some Federal, State and local governmental entities may not enter into a lease for a period in excess of 1 year. Such an impediment does not prohibit a company authorized under § 225.4(a) from entering into a lease with such governmental entities if the company reasonably anticipates that such governmental entities will renew the lease annually until such time as the company is fully compensated for its investment in the leased property plus its costs of financing the property. Further, a company authorized under § 225.4(a) may also engage in a so-called "bridge" lease financing of personal property, but not real property, where the lease is short term pending completion of long term financing, by the same or another lender.

[2] The estimate by the lessor of the total cost of financing the property over the term of the lease should reflect, among other factors, the term of the lease, the modes of financing available to the lessor, the credit rating of the lessor and/or the lessee, if a factor in the financing, and prevailing rates in the money and capital markets.

***In the event of a default on a lease agreement prior to the expiration of the lease term, the lessor shall either re-lease such property, subject to all the conditions of this subsection 6, or liquidate such property as soon as practicable but in no event later than two years from the date of default on a lease agreement.

[49 CFR Part 1201]

[No. 32153 (Sub-No. 5)]

UNIFORM SYSTEMS OF ACCOUNTS

Accumulated Depreciation on Improvements to Leased Property

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D.C., on the 25th day of July 1973.

This proceeding is being instituted on our own motion to consider a revision to the Uniform System of Accounts for Railroad Companies. The proposed revision relates to accounting for depreciation accumulated on improvements made by the lessee to leased property where such improvements are properly includible in asset account 732, "Improvements on Leased Property."

Under the present regulations account 785, "Accrued Depreciation; Leased Property", includes accumulated depreciation on both leased property and improvements on leased property. This account is classified as a liability on the balance sheet. However, only the accrued depreciation on leased property represents the lessee's liability to the lessor.

The intent of this proposal then is to reclassify accrued depreciation on improvements to leased property from the liability side of the balance sheet to the asset side by creating account 733, "Accrued Depreciation; Improvements on Leased Property", as a valuation account for account. 732 Account 785 would then include only the lessee's unsettled liability to the lessor and be renamed "Accrued Liability; Leased property".

It is intended that the proposed revisions to the accounting rules would become effective immediately upon adoption by the Commission and would be reflected in the annual reports for the year ending December 31, 1973.

Upon consideration of the above described matters and good cause appearing therefor:

It is ordered, That a proceeding be, and it is hereby, instituted under the authority of section 20 of the Interstate Commerce Act and pursuant to section 553 of the Administrative Procedure Act with a view to adopting the proposed regulations set forth in this Notice, and for the purpose of taking such other and further action as the facts and circumstances may justify and require.

It is further ordered, That all railroads subject to the Interstate Commerce Act be, and they are hereby, made respondents in this proceeding.

It is further ordered, That no oral hearing be scheduled for the receiving of testimony in this proceeding unless a need therefor should later appear, but that respondents or any other interested parties may participate in this proceeding by submitting for consideration written statements of fact, views, and arguments on the subjects mentioned above, or any other subjects pertaining to this proceeding.

It is further ordered, That any interested person wishing to submit statements of facts, views or arguments shall file 6 copies of such representations with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, by September 17, 1973.

It is further ordered, That written material or suggestions submitted shall be made available for public inspection at the offices of the Interstate Commerce Commission, 12th and Constitution Avenue, NW., Washington, D.C., during regular business hours.

And it is further ordered, That statutory notice of the institution of this proceeding be given to all respondents and to the general public by mailing a copy of this order to the Governor of every State and to the Public Utilities Commissions or Boards of each State having jurisdiction over transportation, by posting a copy of this order in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy thereof to the Director, Division of the Federal Register, for publication in the FEDERAL REGISTER as notice to all interested persons.

This decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

By the Commission, Division 2.

[SEAL] ROBERT L. OSWALD, *Secretary.*

I. LIST OF GENERAL BALANCE SHEET ACCOUNTS [AMENDED]

1. Add line item 733 as follows:

733 Accrued depreciation; improvements on leased property.

2. Line item "785 Accrued depreciation; leased property" is changed to:

785 Accrued liability; leased property.

II. INSTRUCTIONS FOR DEPRECIATION ACCOUNTS

1. Paragraph (a) of instruction 5–4 is amended to read:

5–4 Leased property—depreciation. (a) The carrier shall include in operating expenses charges for depreciation on road property and equipment used but not owned, the rent for which is includible in rent for leased roads and equipment, and shall maintain the same records of service lives, salvage values, etc., as provided for owned road property and equipment. The excess of the total compensation paid over the amount chargeable for depreciation shall be included in the rent account. If settlement between the carrier and the lessor is not currently made, the amount of the depreciation accrued during the period of the lease shall be credited by the carrier to account 785, "Accrued liability; leased property." The necessary adjustments of the difference between the balance thus accrued in that account and the actual amount of settlement shall be made appropriately through account 519, "Miscellaneous income," or 551, Miscellaneous income charges," at the time settlement for depreciation on the property is made with the lessor.

* * * * * *

III. GENERAL BALANCE SHEET ACCOUNTS

1. Add new account 733 as follows:

733 Accrued Depreciation; Improvements on Leased Property.

(a) This account shall be credited with amounts concurrently charged to operating expenses or other authorized accounts for depreciation accrued on improvements to leased property, the cost of which is included in account 732, "Improvements on leased property."

(b) The service value of each unit of property retired (and also of each minor item, less than a unit, retired and not replaced) for which this depreciation reserve has been established shall be charged to this account.

(c) Instructions for depreciation accounts, rates of depreciation, and records to be maintained as contained in instruction 5 for owned property shall also apply to improvements on leased property.

2. The present title and text of account 785, "Accrued Depreciation; Leased Property," is cancelled and the following title and text substituted therefor:

785 Accrued Liability; Leased Property.

(a) This account shall be credited with amounts concurrently charged to operating expenses or other accounts to cover the estimated accrued liability on leased road and equipment when settlement between the accounting carrier and the lessor is not made currently. Amounts recorded herein shall include unsettled rent, based on depreciation or other factors, and liability for property retired.

(b) This account shall be divided to show the liability to (1) affiliated companies (See Definition 4), and (2) others.

3. Account 799 "Form of General Balance Sheet Statement" is amended as follows:

Add 733 as follows:

733 Accrued depreciation—Improvements on leased property.

Change line item "785. Accrued depreciation—Leased property" to read:

785 Accrued liability—Leased property.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

NOTICE OF GRANTING OF RELIEF

Notice is hereby given that pursuant to 18 U.S.C., section 925(c) the following named persons have been granted relief from disabilities imposed by Federal laws with respect to the acquisition, transfer, receipt, shipment, or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding one year.

It has been established to my satisfaction that the circumstances regarding the convictions and each applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief will not be contrary to the public interest.

Allen, Curtis L., 505 Pillans Street, Mobile, Alabama, convicted on October 12, 1959, in United States District Court, Mobile, Alabama.

Boyd, Kenneth Lee, 3705 E. 68th Avenue, Anchorage, Alaska, convicted on March 26, 1971, in the United States District Court for Western District of Washington, Seattle, Washington.

Campbell, Jerone N., 14249 Ardmore Avenue, Detroit, Michigan, convicted on December 18, 1969, in Recorder's Court of the City of Detroit, Michigan.

Fehrs, William Virgil, 910 East 60th, Tacoma, Washington, convicted on October 30, 1964, in Superior Court for State of Washington in Pierce County, Tacoma, Washington.

Fleming, James R., 432 Howland Avenue, Pontiac, Michigan, convicted on June 17, 1947, in Oakland County Circuit Court, Oakland County, Michigan.

Gregory, James Richard, 3133 Roberts Avenue, Culver City, California, convicted on October 29, 1959 and December 11, 1959 in Superior Court of State of California in and for the County of Los Angeles.

Hillard, Cleophus, 1360 Vetter Street, Mobile, Alabama, convicted on October 15, 1956, in Court of Hustings, Virginia (Portsmouth).

Knight, Henry C., Sr., 16621—37th Avenue South, Seattle, Washington, convicted on November 9, 1934, in Superior Court of the State of Washington for the County of King.

Litwin, Theodore J., 32644 Oakview Drive, Warren, Michigan, convicted on November 7, 1933, in Circuit Court for County of Macomb, Mt. Clemens, Michigan.

Long, James Buren, P.O. Box 297, Rogersville, Alabama, convicted on March 31, 1958, in Federal Court, Northern District of Alabama, and on February 26, 1965, in Lauderdale County Circuit Court, Florence, Alabama.

Magill, James R., 752 Oak Boulevard, Ephrata, Pennsylvania, convicted on November 16, 1970, in Luzerne County Court.

Midkiff, Rural, Route 3, Ferrum, Virginia, convicted on January 4, 1949, in United States District Court, Roanoke, Virginia.

Shipley, LeRoy, 2330 Wallace Avenue, Terre Haute, Indiana, convicted on December 1, 1953, in Parke County Circuit Court, Parke County, Indiana.

Vanderver, James O., 792 Blaine, Pontiac, Michigan, convicted on June 4, 1956, and February 6, 1961, by the Oakland County Circuit Court, Pontiac, Michigan, and on May 19, 1961, by the Washtenaw County Circuit Court, Ann Arbor, Michigan.

Wells, Arthur H., Jr., 2307 Celeste Drive, Memphis, Tennessee, convicted on August 29, 1957, in 12th Circuit District Court of the State of Mississippi, on January 4, 1961, in 4th Judicial District Court in the State of Iowa, and on March 19, 1965, in United States District Court of Miami, Florida.

Signed at Washington, D.C. this 31st day of July, 1973.

Office of the Secretary

[Treasury Dept. Order No. 208; Rev. 2]

DIRECTOR, OFFICE OF ADMINISTRATIVE PROGRAMS ET AL.

Delegation of Procurement Authority

1. Pursuant to the authority vested in the Secretary of the Treasury by Title III of the Federal Property and Administrative Services Act of 1949 (63 Stat. 377, 393), as amended (41 U.S.C. Chap. 4) and by the Reorganization Plan No. 26 of 1950, and pursuant to the authority vested in me as Assistant Secretary for Administration by Treasury Department Order No. 190, Revision 9, 38 FR 17517, authority is hereby delegated to the following officials of the Department of the Treasury to use the provisions of Title III of the Federal Property and Administrative Services Act of 1949, as amended, when procuring property and services, except as precluded by section 307 of the Act:

Director, Office of Administrative Programs
Office of the Secretary of the Treasury
Commissioner of Accounts
Director, Bureau of Alcohol, Tobacco and Firearms
Comptroller of the Currency
Director, Consolidated Federal Law Enforcement Training Center
Commissioner of Customs
Director, Bureau of Engraving and Printing
Commissioner of Internal Revenue
Director of the Mint
Commissioner of the Public Debt
Treasurer of the United States
National Director, U.S. Savings Bonds Division
Director, U.S. Secret Service.

2. This authority shall be exercised in accordance with the applicable limitations and requirements of the Act, particularly sections 304 and 307; the Federal Procurement Regulations, 41 CFR Ch. 1; the applicable portions of the Federal Property Management Regulations, 41 CFR Ch. 101; as well as regulations issued by the Department of the Treasury which implement and supplement the Federal Procurement Regulations and the Federal Property Management Regulations, including but not limited to 41 CFR Ch. 10 and Administrative Circular No. 153 Revised.

3. To the extent permitted by the Act, the authority herein delegated to the above-named officials may be redelegated by them by letter or bureau delegation order to any subordinate officer or employee who, by virtue of experience, specialized training and knowledge of applicable laws and regulation, is qualified to act as contracting officer for the United States; provided however, that only the above-named officials shall be deemed to be the "chief officers responsible for procurement" as defined in Section 307(b) of the Act; officials authorized to serve as contracting officers shall be so designated by the issuance of Treasury Form 4014, Certificate of Appointment as Contracting Officer for the United States of America.

4. Treasury Department Order No. 208 (Revision 1), dated July 17, 1972 is hereby rescinded.

Dated: August 2, 1973.

WARREN F. BRECHT,
Assistant Secretary for Administration.

COLORADO STATE MULTIPLE USE ADVISORY BOARD

Notice of Meeting

Notice is hereby given that the Colorado State Multiple Use Advisory Board will hold its annual meeting August 22-23-24, 1973, at the Sleepy Cat Inn, on State Highway 13, Southeast of Meeker, Colorado. The agenda for the meeting will include a tour of the Piceance area, discussion of management problems, proposed reprecincting of grazing districts and planning for the work of the Board.

The meeting will be open to the public. Time will be available for a limited number of brief statements by members of the public. Those wishing to make an oral statement should inform the Advisory Board Chairman prior to the meeting of the Board. Any interested person may file a written statement with the Board for its consideration. The acting Advisory Board Chairman is Dale R. Andrus. Written statements may be submitted at the meeting or mailed to Mr. Andrus, % State Director, Bureau of Land Management, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202. Further information concerning this meeting may be obtained from G. C. Hinton, Public Affairs Officer, Bureau of Land Management State Office, Denver, Colorado at (303) 837-4481. Minutes of the meeting will be available for public inspection 30 days after the meeting at the office of the State Director, Bureau of Land Management, Colorado State Bank Building, Denver, Colorado.

CHARLES W. LUSCHER,
Acting State Director.

Office of Hearings and Appeals

[Docket No. M 73-67]

STEVENSON COAL CO.

Petition for Modification of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861 (c) (1970), the Stevenson Coal Company has filed a petition to modify the application of 30 CFR 75.501 to its Mine No. 1 located at Jackson County, Alabama.

30 CFR 75.501 reads as follows:

§ 75.501 *Permissible electric face equipment; coal seams above water table.* On and after March 30, 1974, all electric face equipment, other than equipment referred to in paragraph (b) of § 75.500, which is taken into and used inby the last open crosscut of any coal mine which is operated entirely in coal seams located above the water table and which has not been classified under any provision of law as a gassy mine prior to March 30, 1970, and in which one or more openings were made prior to December 30, 1969, shall be permissible.

Petitioner requests modification of the mandatory safety standard as it applies to a mine opened prior to December 30, 1969, which was closed and recently reopened by petitioner. Petitioner contends that had the equipment been at the mine before December 30, 1969, even though the mine was closed, the equipment could be used after the mine was reopened.

As an alternative method petitioner requests that it be allowed to use nonpermissible electric face equipment including one shortwall mining machine and one conventional loader and other non-permissible equipment including three battery-powered, rubber-tired tractors and one hand-held coal drill. Petitioner states that the mine is located above the water table and has no history of being classified as gassy or of methane being detected.

Petitioner contends that the alternative method will provide no less than the same measure of protection afforded the miners in the affected area by application of the mandatory standard. Petitioner contends that the use of non-permissible equipment would only be dangerous in mines below the water table and those having a history of being classified as gassy or containing evidence of methane.

Persons interested in this petition may request a hearing on the petition or furnish comments by September 7, 1973. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

GILBERT O. LOCKWOOD,
Acting Director, Office of Hearings and Appeals.

JULY 27, 1973.

[FR Doc.73-16302 Filed 8-7-73;8:45 am]

[Docket No. M 74-1]

SHEMCO, INC.

Petition for Modification of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), Shemco, Incorporated has filed a petition to modify the application of 30 CFR 77.1605(k) to its Mine No. 1, at Oliver Springs, Tennessee.

30 CFR 77.1605(k) reads as follows:

(k) Berms or guards shall be provided on the outer bank of elevated roadways.

In support of its petition, petitioner states that the addition of berms or guardrails would make it impossible to maintain proper drainage and would hamper snow removal. The road would ice over during winter months and the grader now used for maintenance could no longer be used. Petitioner also states that additional man-hours and equipment would be needed for road maintenance which would result in an increased accident potential during snow and ice conditions. The installation of guardrails would not be effective because they would have to be built on fill material.

As an alternative method petitioner wishes to continue maintaining its roads by its currently existing methods. Petitioner states that by using its current methods of maintenance, its roads, are as safe as possible.

Petitioner contends that the application of the mandatory standard will result in a diminution of safety to miners in the affected area. Petitioner contends that berms and guardrails would create a drainage hazard by creating improper drainage which would cause washouts and hazardous conditions in wet weather. The road is too narrow to build berms, therefore, solid rock would have to be blasted, resulting in a highwall which would be a new hazard.

Persons interested in this petition may request a hearing on the petition or furnish comments by September 7, 1973. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the Petition are available for inspection at that address.

JAMES M. DAY,
Director, Office of Hearings and Appeals.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, by August 28, 1973.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

DOCKET NUMBER: 74-00030-33-46070. APPLICANT: Wagner College, Staten Island, New York 10301. ARTICLE: Scanning Electron Microscope, Model HHS-2R. MANUFACTURER: Hitachi Perkin-Elmer, Japan. INTENDED USE OF ARTICLE: The article will be used to perform linescan topographic analysis on thirteen families of the Order Eubacteriales, class Schizomycetes at specific time intervals which will give information and data relative to shape, size, surface undulations, projections, pitting and contours. It is planned to catalog valuable information relative to a rapid means for identification of bacteria, evidence unavailable at the present time. The article will also be used in the course Bacteriology 188, Scanning

Electron Microscopy and for training of medical laboratory scientists and research scientists in the techniques theory and uses of scanning electron microscopy. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: July 15, 1973.

DOCKET NUMBER: 74-00031-33-46040. APPLICANT: Texas Southern University, 3201 Wheeler Street, Houston, Texas 77004. ARTICLE: Electron Microscope, Model Elmiskop IA. MANUFACTURER: Siemens AG, West Germany. INTENDED USE OF ARTICLE: The article will be used to examine the fine structure of cells of the endocrine organs, spleens, lymphnodes and bone marrow of certain vertebrate species; study of the mechanism of infection in insect tissues such as cells of the gut, fat bodies, caecum, salivary glands and epidermis; study viral replication, biosynthesis and transformation in mammalian cell cultures; and to study the ultrastructure of normal and abnormal cells in general. In addition, the article will be used for high resolution studies of several different types of insect viruses. The article will be used in the course Electron Microscopic Anatomy which involves teaching students the theories of fixation, dehydration and embedding tissues for microscopy as well as actual experience in the use of the electron microscope. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS, July 13, 1973.

DOCKET NUMBER: 74-00032-33-46040. APPLICANT: University of Florida, College of Medicine, M-268 Medical Science Building, Box 218, J.H.M. Health Center, Gainesville, Florida 32610. ARTICLE: Electron Microscope, Model Elmiskop 101. MANUFACTURER: Siemens AG, West Germany. INTENDED USE OF ARTICLE: The article is intended to be used in the study of biological materials principally tissue specimens from a variety of mammalian organs. The experiments conducted involve, for the most part, alteration of the physiological state of the testicular vascular bed, blockage of the efferent duct systems and the introduction of tracer materials to determine the integrity of the epithelial components after treatment with specific drugs. The article will also be used for teaching purposes in the courses MED 605, Research Methods in Anatomy; MED 678, Advanced Microscopic Anatomy; and MED 632, Techniques in Electron Microscopy. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: July 13, 1973.

DOCKET NUMBER: 74-00033-33-02100. APPLICANT: Medical College of Virginia, Department of Anesthesiology, 1200 E. Broad Street, Richmond, Va. 23298. ARTICLE: Acupuncture anesthesia apparatus with galvonometer. MANUFACTURER: Nihon Riko Medical Engineering Co., Ltd., Japan. INTENDED USE OF ARTICLE: The article will be used to evaluate the use of electroacupuncture (stimulation of acupuncture points by electricity) for the possible treatment of chronic pain and induction of anesthesia in man. The article will also be used to demonstrate the use of electroacupuncture to medical students, nurses, residents, physicians, etc. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: July 16, 1973.

DOCKET NUMBER: 74-00034-33-90000. APPPLICANT: The Cleveland Clinic Foundation, 9500 Euclid Avenue, Cleveland, Ohio 44106. ARTICLE: EMI brain scanning instrument and accessories. MANUFACTURER: EMI Limited, United Kingdom. INTENDED USE OF ARTICLE: The article is a revolutionary new development for medical diagnosis of diseases and abnormalities of the brain. The research application of the article will consist of determining which abnormalities of the brain are best visualized by the use of the article and to compare accuracy of this form of diagnosis against other diagnostic methods. Considerable attention will be given to research to enhance visualization of various processes in the brain following infusion of various chemical substances into the patient's vascular system. It is also planned to investigate the possibilities of diagnosis of disease of other organs in *in vitro* studies within the unit, such as liver, kidney, lung and heart to assist in determining the feasibility of using this method of scanning for detection of diseases in organs other than the brain. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: July 18, 1973.

A. H. STUART,
Director, Special Import Programs Division.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ADVISORY COMMITTEES

Notice of Establishment

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Public Law 92-463, 86 Stat. 770-776), the Food and Drug Administration announces the establishment by the Secretary, DHEW, on July 16, 1973, of five public advisory committees as follows:

1. *Designation.* Panel on Review of Miscellaneous External Drug Products.

Purpose. The panel will (1) review and evaluate available data concerning the safety and effectiveness of active ingredients, and combinations thereof, of currently marketed miscellaneous external nonprescription-drug products for human use and the adequacy of their labeling; (2) advise the Commissioner of Food and Drugs on the promulgation of monographs establishing conditions under which these over-the-counter drug products are generally recognized as safe and effective and not misbranded; and (3) serve as a forum for exchange of views regarding the prescription and nonprescription status of these various active ingredients and combinations thereof.

2. *Designation.* Panel on Review of Miscellaneous Internal Drug Products.

Purpose. The panel will (1) review and evaluate available data concerning the safety and effectiveness of active ingredients, and combinations thereof, of currently marketed miscellaneous internal nonprescription-drug products for human use and the adequacy of their labeling; (2) advise the Commissioner of Food and Drugs on the promulgation of monographs establishing conditions under which these over-the-counter drug products are generally recognized as safe and effective and not misbranded; and (3) serve as a forum for the exchange of views regarding the prescription and nonprescription status of these various active ingredients and combinations thereof.

3. *Designation.* Panel on Review of Vitamin, Mineral, and Hematinic Drug Products.

Purpose. The panel will (1) review and evaluate available data concerning the safety and effectiveness of active ingredients, and combinations thereof, of currently marketed nonprescription-drug products for human use containing vitamin, mineral, and hematinic agents and the adequacy of their labeling; (2) advise the Commissioner of Food and Drugs on the promulgation of monographs establishing conditions under which these over-the-counter drug products are generally recognized as safe and effective and not misbranded; and (3) serve as a forum for the exchange of views regarding the prescription and nonprescription status of these various active ingredients and combinations thereof.

4. *Designation.* Panel on Review of Antiperspirant Drug Products.

Purpose. The panel will (1) review and evaluate available data concerning the safety and effectiveness of active ingredients, and combinations thereof, of currently marketed nonprescription-drug products for human use for antiperspirant application and the adequacy of their labeling; (2) advise the Commissioner of Food and Drugs on the promulgation of monographs establishing conditions under which these over-the-counter drug products are generally recognized as safe and effective and not misbranded; and (3) serve as a forum for the exchange of views regarding the prescription and nonprescription status of these various active ingredients and combinations thereof.

5. *Designation.* Panel on Review of Oral Cavity Drug Products.

Purpose. The panel will (1) review and evaluate available data concerning the safety and effectiveness of active ingredients, and combinations thereof, of currently marketed nonprescription-drug products for human use containing oral cavity agents and the adequacy of their labeling; (2) advise the Commissioner of Food and Drugs on the promulgation of monographs establishing conditions under which these over-the-counter drug products are generally recognized as safe and effective and not misbranded; and (3) serve as a forum for the exchange of views regarding the prescription and nonprescription status of these various active ingredients and combinations thereof.

Authority for these committees will expire July 16, 1975, unless the Secretary formally determines that continuance is in the public interest.

Dated: July 27, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-16381 Filed 8-7-73;8:45 am]

MANUFACTURERS AND DISTRIBUTORS

Prescription Drugs for Human Use Affected by Drug Efficacy Study Implementation; Amendment

A notice was published in the FEDERAL REGISTER of December 14, 1972 (37 FR 26623) informing manufacturers and distributors of prescription drugs for human use of the future schedule for implementation of the drug efficacy study. That notice listed certain drugs, together with the justification of their medical need, which may remain on the market pending completion of scientific studies to determine effectiveness, and providing for future additions to or deletions from that list. Certain additions were made to that list in the FEDERAL REGISTER of July 11, 1973 (38 FR 18477), as corrected on July 25, 1973 (38 FR 19920).

In the FEDERAL REGISTER of September 19, 1970 (35 FR 14666), the Food and Drug Administration published its conclusions, pursuant to evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group concerning certain poorly absorbed sulfonamides (phthalylsulfathiazole, succinylsulfathiazole, and phthalylsulfacetamide), stating that the drugs were regarded as possibly effective or lacking substantial evidence of effectiveness for their various indications for gastrointestinal use. No data were submitted in support of the effectiveness of the drugs and on December 5, 1972 (37 FR 25864) the Commissioner published an order withdrawing approval of the new drug applications.

Subsequent to publication of the December 5 order, the Food and Drug Administration received numerous communications from physicians, including eminent gastroenterologists, objecting to removal of the drugs from the market, asserting that there is a definable population who have an intolerance to salicylazosulfapyridine, the drug that is classified as effective as adjunctive therapy in the management of ulcerative colitis. Therefore, an alternative therapy is needed. Salicylazosulfapyridine has recently been found to be absorbed to a greater degree than previously believed. The Commissioner finds that there is sufficient medical justification for permitting the orally administered forms of the poorly absorbed sulfonamide drugs to remain available provided that additional clinical studies are conducted to determine their effectiveness, and by order published elsewhere in this issue of the FEDERAL REGISTER, he is rescinding those parts of the order of December 5, 1972 pertaining to such forms of the drugs.

Accordingly, a new section is hereby added to paragraph 3 of the aforesaid notice of December 14, 1972, as amended on July 11, 1973, to read as follows:

XIV

POORLY ABSORBED SULFONAMIDES FOR ORAL USE

Sulfasuxidine Tablets (succinylsulfathiazole).
Cremothalidine Suspension (phthalylsulfathiazole).
Sulfathalidine Tablets (phthalylsulfathiazole).
Thalamyd Tablets (phthalylsulfacetamide).

A FEDERAL REGISTER announcement published September 9, 1970 (35 FR 14666) (DESI 5803) stated that these drugs were regarded as lacking substantial evidence of effectiveness for ileitis and possibly effective for their other labeled gastrointestinal indications. One of those indications is ulcerative colitis. Salicylazosulfapyridine is the drug which both the National Academy of Sciences-National Research Council, Drug Efficacy Study Group and the Food and Drug Administration classified as effective as adjunctive therapy in the management of ulcerative colitis (June 23, 1970; 35 FR 10239). However, there is believed to be a definable population having an intollerance to salicylazosulfapyridine, and it has recently been found that that drug is absorbed to a greater degree than previously believed. It is therefore appropriate that alternative therapy be available. Accordingly, the above orally administered drugs may remain on the market labeled as less than effective (possibly effective) drugs provided the sponsors conduct clinical studies to determine their effectiveness. The indications for which the drugs may be labeled are (depending upon which indication(s) is to be studied):

a. In the treatment of ulcerative colitis
b. For diverticulitis
c. In the preoperative preparation and postoperative management of patients undergoing bowel surgery

Labeling guidelines are as follows:

GUIDELINE LABELING FOR POORLY ABSORBED SULFONAMIDES

DESCRIPTION

(To be supplied by sponsor.)

ACTIONS

(To be supplied by sponsor.)

INDICATIONS (OR INDICATION)

(Depending on that which sponsor wishes to claim and upon which they will do clinical trials).

INDICATIONS

Based on a review of this drug by the National Academy of Sciences-National Research Council and/or other information, FDA has classified the indication (or indications) as follows:

Possibly effective as adjunctive therapy:
a. in the treatment of ulcerative colitis
b. for diverticulitis
c. In the preoperative preparation and postoperative management of patients undergoing bowel surgery.

Final classification of this less-than-effective indication(s) requires further investigation.

CONTRAINDICATIONS

(Name of drug) is contraindicated in patients with intestinal and urinary obstruction and in those with a hypersensitivity to sulfonamides. It should not be used in infants under age 2 years or in nursing mothers because sulfonamides pass the placenta and are excreted in the milk. Patients with porphyria should not receive sulfonamides, as these drugs have been reported to precipitate an acute attack.

WARNING: USE IN PREGNANCY

The safe use of sulfonamides in pregnancy has not been established. The benefit to risk ratio must be carefully evaluated when (name of drug) is given during pregnancy especially at term since kernicterus may be produced in the newborn.

The teratogenicity potential of most sulfonamides has not been thoroughly investigated in either animals or humans. However, a significant increase in the incidence of cleft palate and other bony abnormalities of offspring has been observed when certain sulfonamides of the short-, intermediate- and long-acting types were given to pregnant rats and mice at high oral doses (7 to 25 times the human therapeutic dose).

OTHER WARNINGS

Only after critical appraisal should (name of drug) be used in patients with hepatic or renal damage, or blood dyscrasias.

Deaths associated with the administration of sulfonamides have been reported from hypersensitivity reaction, agranulocytosis, aplastic anemia, and other blood dyscrasias.

The presence of clinical signs such as sore throat, fever, pallor, purpura, or jaundice may be early indications of serious blood disorders.

Complete blood counts should be done frequently in patients receiving sulfonamides.

Urinalysis with careful microscopic examinations should be obtained frequently in patients receiving sulfonamides.

PRECAUTIONS

Sulfonamides should be given with caution to patients with severe allergy or bronchial asthma.

Adequate fluid intake must be maintained in order to prevent crystalluria and stone formation.

In the presence of extensive ulceration of the colon, absorption of (name of drug) is increased.

In glucose-6-phosphate dehyrogenase deficient individuals, hemolytic anemia may occur. This reaction is frequently dose-related.

If toxicity or hypersensitivity reactions occur, the drug should be discontinued immediately.

ADVERSE REACTIONS

Blood dyscrasias. Agranulocytosis, aplastic anemia, thrombocytopenia, leukopenia, hemolytic anemia, purpura, hypoprothrombinemia, and methemoglobinemia.

Allergic reactions. Erythema multiforme (Stevens-Johnson Syndrome), generalized

V 38-152 AUG 8 73 XUM

skin eruptions, epidermal necrolysis, urticaria, serum sickness, pruritus, exfoliative dermatitis, anaphylactoid reactions, periorbital edema, conjunctival and scleral injection, photosensitization, arthralgia, chills, drug fever, allergic myocarditis, polyarteritis nodosa and L. E. phenomena.

Gastrointestinal reactions. Nausea, emesis, abdominal pains, hepatitis, diarrhea, anorexia, pancreatitis, and stomatitis.

C.N.S. reactions. Headache, peripheral neuritis, mental depression, convulsions, ataxia, hallucinations, tinnitus, vertigo, insomnia and drowsiness.

Renal reactions. Crystalluria, hematuria, proteinuria, toxic nephrosis with oliguria and anuria.

The sulfonamides bear certain chemical similarities to some goitrogens, diuretics (acetazolamide and the thiazides), and oral hypoglycemic agents. Goiter production, diuresis, and hypoglycemia have occurred rarely in patients receiving sulfonamides. Cross-sensitivity may exist with these agents.

Rats appear to be especially susceptible to the goitrogenic effects of sulfonamides, and long-term administration has produced thyroid malignancies in the species.

OVERDOSAGE

(To be supplied by sponsor.)

DOSAGE AND ADMINISTRATION

(To be supplied by sponsor.)

Every manufacturer or distributor of one of the products listed above, or of an identical, related, or similar product who intends to conduct studies to determine effectiveness is required to communicate with the Division of Anti-Infective Drug Products (BD–140), Office of Scientific Evaluation, Bureau of Drugs on or before October 9, 1973, to discuss and agree to undertake the studies necessary to justify continued marketing of the product.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 505, 701, 52 Stat. 1052–1053, as amended; 21 U.S.C. 355, 371), and the Administrative Procedure Act (5 U.S.C. 553, 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: August 2, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc 73–16337 Filed 8–7–73;8:45 am]

[DESI 5803; Docket No. FDC–D–379; NDA 4–687 etc.]

POORLY ABSORBED SULFONAMIDES FOR ORAL AND RECTAL USE

Rescission of Portions of Order Withdrawing Approval of New Drug Applications

In an order published in the FEDERAL REGISTER of December 5, 1972 (37 FR 25864) approval of the following new drug applications was withdrawn:

NDA No.	Drug	NDA Holder
4-687	That portion of the NDA pertaining to Sulfasuxidine Tablets and Powder containing succinylsulfathiazole.	Merck, Sharp & Dohme, Division of Merck & Co., Inc., West Point, Pa. 19486.
5-803	Cremothalidine suspension and Sulfathalidine Tablets containing phthalylsulfathiazole.	Merck, Sharp & Dohme.
6-593	Thalamyd Tablets (phthalylsulfacetamide) and Phthalylsulfacetamide Sodium Powder.	Schering Corp., 60 Orange St., Bloomfield, NJ 07003.

The basis for that action was the lack of any submission providing substantial evidence to support indications for gastrointestinal use for which the drugs had been initially classified as possibly effective (35 FR 14666, September 19, 1970). Subsequent to the order of December 5, 1972 the Food and Drug Administration received numerous communications from physicians, including eminent gastroenterologists, objecting to removal of the drugs from the market, asserting that there is a definable population who have an intolerance to salicylazosulfapyridine, the drug that is effective as adjunctive therapy in the management of ulcerative colitis. Therefore, an alternative therapy is needed. Salicylazosulfapyridine has recently been found to be absorbed to a greater degree than previously believed. The Commissioner finds that there is sufficient medical justification for permitting continued availability of orally administered phthalylsulfacetamide, phthalylsulfathiazole, and succinylsulfathiazole pending completion of clinical studies to demonstrate their effectiveness. The FEDERAL REGISTER of December 14, 1972 (37 FR 26623) listed various drugs and the conditions under which they may remain on the market on the basis of medical need, pending completion of clinical studies. The aforesaid drugs for oral administration are, by order published elsewhere in this issue of the FEDERAL REGISTER, being added to that list.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505(f), 52 Stat. 1053, as amended; 21 U.S.C. 355(f)) and under authority delegated to him (21 CFR 2.120), the Commissioner of Food and Drugs rescinds the order of December 5, 1972 insofar as it pertains to Sulfasuxidine (succinylsulfathiazole) Tablets (NDA 4–687), Cremothalidine Suspension and Sulfathalidine Tablets containing phthalylsulfathiazole (NDA 5–803), and Thalamyd (phthalylsulfacetamide) Tablets (NDA 6–593). The order is not rescinded with respect to Sulfasuxidine Powder (NDA 4–687) and Phthalylsulfacetamide Sodium Powder (NDA 6–593).

Dated: August 2, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73–16338 Filed 8–7–73;8:45 am]

[Docket No. FDC–D–630; NADA Nos. 11–036V and 11–385V]

MERCK SHARP & DOHME RESEARCH LABS.

Nithiazide; Withdrawal of Approval of New Animal Drug Applications

In the FEDERAL REGISTER of June 5, 1973 (38 FR 14782), the Commissioner of Food and Drugs published a notice proposing to withdraw approval of new animal drug application (NADA) No. 11–036V for 16.7 percent Hepzide (Nithiazide) Soluble Powder and NADA No. 11–385V for Hepzide (Nithiazide) 30 percent Medicated Premix; marketed by Merck Sharp and Dohme Research Laboratories, Division of Merck and Co., Inc., Rahway, NJ 07065.

Neither Merck and Co., Inc. nor any other interested persons have filed a written appearance in response to the above cited notice. This is construed as an election by said persons not to avail themselves of the opportunity for a hearing.

Accordingly, based on the grounds set forth in said notice of opportunity for a hearing, the Commissioner concludes that approval of said new animal drug applications should be withdrawn.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343–351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of NADA No. 11–036V and NADA No. 11–385V, including all amendments and supplements thereto, is hereby withdrawn effective August 20, 1973.

Dated: August 1, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73–16342 Filed 8–7–73;8:45 am]

X-RAY BAGGAGE INSPECTION SYSTEMS

Notice to State Radiation Control Agencies of Radiation Safety Recommendations

The Bureau of Radiological Health, Food and Drug Administration, Department of Health, Education, and Welfare, under the authority conferred by the Public Health Service Act (42 U.S.C. 241 and 243), advises and promotes cooperation among states on matters relating to

the protection of the public health against radiation hazards. The Radiation Control for Health and Safety Act of 1968 (42 U.S.C. 263b et seq.), an amendment to the Public Health Service Act, further provides for the establishment of an electronic product radiation control program designed to protect the public health and safety.

The Food and Drug Administration on April 27, 1973, issued, to State radiation control agencies, recommendations (guidelines) on radiation safety aspects in the design and use of x-ray systems for routine inspection of hand carried (carry-on) luggage in airline terminals.

These recommendations are conceptual in nature and minor variations providing equivalent radiation protection may be appropriate to meet the needs of individual radiation control programs.

The recommendations were developed following consultation with the Federal Aviation Administration (Department of Transportation), the National Bureau of Standards (Department of Commerce), the Occupational Safety and Health Administration (Department of Labor), the Executive Committee of the Conference of Radiation Control Program Directors, and manufacturers. The Federal Aviation Administration (FAA), in addition to specifying certain image quality features for x-ray luggage inspection systems and certain requirements on their use, has stated in a directive to its Regional Directors, that "the airline should obtain or require that the manufacturer obtain the permission or license from the State in which the device will be used."

There are presently no Federal standards or regulations specifically directed to the overall radiation safety aspects of these systems. Federal and State agencies have become increasingly concerned with the need for effective and uniform controls on x-ray baggage inspection systems which will assure adequate radiation protection for operators as well as the general public. The manufacture of several of these x-ray systems will be subject to a radiation safety performance standard which is under development and will be published in the FEDERAL REGISTER as a notice of proposed rule making.

During development of the guidelines, representatives of the Bureau of Radiological Health visited six manufacturers of x-ray baggage systems to obtain background information on these systems planned for commercial distribution. Guidelines proposed for the State radiation control agencies were discussed with the manufacturers during these visits. The manufacturers agreed that the proposed guidelines are practical, do not unnecessarily restrict functional objectives of the equipment, and would be desirable to provide uniform evaluation and control among the states.

Concurrently, a survey of all State radiation control agencies was conducted by the Food and Drug Administration to assess the extent of involvement of the states in evaluation of these devices. Over one-half of the State programs reported that they had been contacted by airlines, manufacturers, and industrial agents regarding the need for registration of x-ray baggage systems and radiation safety requirements. Eight states indicated that they had issued special requirements for such systems. Several indicated that their industrial radiography requirements would be applied to the x-ray baggage inspection systems. The states indicated that guidance from the Bureau of Radiological Health would be useful in conducting evaluations and granting approval for use of these x-ray devices.

Because of rapid developments in the design of x-ray systems for the inspection of baggage at airline terminals, proliferation in applications, and requests for guidance from State radiation control programs, it is the opinion of the Food and Drug Administration that radiation safety considerations for this equipment should be outlined in a manner useful for establishing uniform and effective controls.

The Commissioner concludes that the recommendations issued to the State radiation control agencies on April 27, 1973, as set forth below, should help to provide radiation protection for operators, passengers, and others involved in the use of x-ray baggage inspection systems. Therefore, the Commissioner urges that these guidelines be used as a basis for a uniform policy by states granting approval for such equipment.

RECOMMENDATIONS TO STATE RADIATION CONTROL AGENCIES

These recommendations are applicable to x-ray systems used in airline terminals for routine inspection of carry-on baggage.

1. It shall not be possible to insert any part of the body into the primary beam.
2. Radiation exposure shall not exceed 0.5 mR in any one hour at a distance of five centimeters from any point on the external surface of the system when operated under "worst case" conditions.
3. The control panel shall be equipped with a key lock. It shall not be possible to remove the key in the "on" position.
4. Doors and access panels which prevent entry to an area where the exposure may exceed 0.5 mR in one hour shall be interlocked.
5. Means shall be provided to indicate to the operator when x-rays are being produced.
6. A deadman switch shall be provided on the exposure controls. The location of the switch will be such that the operator has a clear view of the x-ray system.

RATIONALE AND EXPLANATION OF RECOMMENDATIONS

RECOMMENDATION 1.

The most significant hazard associated with these systems is human exposure to the primary beam of radiation. Generally, operators are not well trained in the hazards of radiation and may not apply diligent caution to prevent exposure of personnel. To minimize exposure, this recommendation is intended to necessitate engineered safeguards to prevent, during routine operations, direct beam exposure of any part of the body, including extremities.

RECOMMENDATION 2.

In the absence of conclusive data regarding the effects of low level irradiation, the underlying philosophy of radiation protection is to maintain radiation exposure of personnel as low as practicable. The guideline of 0.5 mR in any one hour at 5 centimeters from the external surface of the device has been developed for other electronic products used in areas accessible to the public. Due to the nature of operation, it is anticipated that the actual exposure to any individual will be considerably less than that generally considered acceptable by national and international standards-setting organizations.

It is intended that test measurements be made under conditions which maximize radiation levels at accessible areas. In those situations where ports are provided to transport objects into or out of the system, the external surface should be considered as the imaginary plane across the opening.

RECOMMENDATION 3.

Since this equipment is used in public areas and could be hazardous when operated without supervision, it is essential that provisions be provided to secure the system to prevent unauthorized use. It is intended that the key lock feature will provide this security.

Likewise, it is important that the system is capable of benig turned off at any time. It is thus recommended that the key be captured in the "on" position to prevent someone inadvertently carrying off, or otherwise losing, the key when the system is energized.

RECOMMENDATION 4.

Doors and access panels are frequently provided as a means of preventing access to areas where excessive radiation levels may be present. Recommendations for interlocking is provided to insure that x-radiation production is automatically terminated when access to the source of radiation is possible. This prevents risk of unnecessary radiation exposure when protective features are removed or opened.

RECOMMENDATION 5.

An "X-RAY ON" indicator is recommendcd to clearly indicate the status of x-ray production and potential for exposure.

RECOMMENDATION 6.

The deadman switch feature is recommended to insure operator control of the system at all times when x-rays are being produced. It is also recommended that the device be located in a position such that the operator can maintain surveillance of the system and have the means available to immediately terminate x-radiation production in emergency situations.

Those interested persons who wish to submit comments or suggestion in con-

V 38-152 AUG 8 73 XUM

nection with the recommendations listed above should send them to Hearing Clerk, Food and Drug Administration, Room 6–86, 5600 Fishers Lane, Rockville, MD 20852, on or before September 7, 1973. The comments will be considered during further development of the recommendations for use by states in evaluation of x-ray baggage inspection systems.

Dated: August 1, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73–16340 Filed 8–7–73;8:45 am]

ATOMIC ENERGY COMMISSION

[Docket No. STN 50–447]

GENERAL ELECTRIC CO.

Receipt of Standard Safety Analysis Report

General Electric Company, in response to a policy statement of the Atomic Energy Commission (the Commission) entitled "Methods for Achieving Standardization of Nuclear Power Plants," issued March 5, 1973, has filed with the Commission a seven-volume document entitled "General Electric Standard Safety Analysis Report" (GESSAR), which was docketed July 30, 1973. GESSAR describes and analyzes a standard BWR–6 boiling water nuclear reactor with a Mark III containment system, designed for initial operation at approximately 3579 megawatts (thermal), with a net electrical output of approximately 1220 megawatts. GESSAR was tendered on May 2, 1973. Following a preliminary review for completeness, it was accepted on July 20, 1973 for docketing.

When its review of GESSAR is complete, the Commission's Regulatory staff will prepare and publish a Safety Evaluation Report documenting the results of the review. This report will be made available to the public. In addition, GESSAR will be referred to the Advisory Committee on Reactor Safeguards (ACRS) for its review. Copies of the ACRS report will also be made available to the public. A notice relating to the availability of these documents will be published in the FEDERAL REGISTER.

In accordance with the Commission's policy statement on standardization, the GESSAR design can be referenced as a standardized design in other facility applications when the Regulatory staff's review of GESSAR is substantially complete and when the staff has determined that all site and facility interfaces have been identified, and when the standardized design envelope has been defined. However, such applicants for specific reactors must supply the information required by § 50.34 of 10 CFR Part 50, which should be supplemented by the guidance described in the Commission's "Standard Format and Content of Safety Analysis Reports for Nuclear Power Plants."

A copy of GESSAR is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545.

Dated at Bethesda this 31st day of July 1973.

For the Atomic Energy Commission.

ROGER S. BOYD,
Assistant Deputy Director for Reactor Projects Directorate of Licensing.

[FR Doc.73–16333 Filed 8–7–73;8:45 am]

REGULATORY GUIDES

Notice of Issuance and Availability

The Atomic Energy Commission has issued a guide in its Regulatory Guide series. The Regulatory Guide series has been developed to describe and to make available to the public methods acceptable to the AEC Regulatory staff for implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain information needed by the staff in its review of applications for permits and licenses.

The new guide is in Division 5, "Materials and Plant Protection." Regulatory Guide 5.10, "Selection and Use of Pressure-Sensitive Seals on Containers for Onsite Storage of Special Nuclear Materials," provides criteria for selecting, affixing, and testing pressure-sensitive seals used for tamper-safing in connection with onsite storage of SNM.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street, Washington, D.C. Comments and suggestions in connection with improvements in the guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff. Requests for single copies of the issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Telephone requests cannot be accommodated.

Other Division 5 Regulatory Guides currently being developed include the following:

Nuclear Material Control Systems and Procedures for Conversion Facilities
Conduct of Nuclear Material Inventories
Training and Equipping of Guards and Watchman
Safe Secure Vehicles
Quality Assurance Program for Materials Accounting Measurements at a Chemical Reprocessing Plant
Calibration Techniques for Nuclear Calorimetry
Mass and Scales Calibration
Standard Methods for Chemical, Mass Spectrometric, Spectrochemical, Nuclear and Radiochemical Analyses of Plutonium Nitrate and Plutonium Metal
Armed Escort Duties and Responsibilities
General Use of Locks in the Protection and Control of Facilities and Special Nuclear Materials
Nondestructive Assay of SNM Scrap and Waste Inventory Components
Nondestructive Assay of SNM Residue in Process Equipment
Nondestructive Assay of Fissile Content of Low Enriched Uranium Fuel Rods

(5 U.S.C. 552(a))

Dated at Bethesda, Maryland this 30th day of July 1973.

For the U.S. Atomic Energy Commission.

LESTER ROGERS,
Director of Regulatory Standards.

[FR Doc.73–16332 Filed 8–7–73;8:45 am]

[Docket No. 50–244–OL]

ROCHESTER GAS & ELECTRIC CORP.

Hearing On Conversion of Provisional Operating License

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), the National Environmental Policy Act of 1969 (NEPA), and the regulations in Title 10, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities", and Part 2, "Rules of Practice", notice is hereby given that, subject to conditions set forth in Memoranda and Orders of June 8, 1973 and August 2, 1973, a hearing will be held concerning the R. E. Ginna Nuclear Power Plant Unit No. 1 (the facility) of the Applicant, the Rochester Gas & Electric Corporation. The hearing to consider the issuance of a full-term operating license for the facility will be held at a time and place to be set in the future by the Atomic Safety and Licensing Board (Board) named herein, to begin in the vicinity of the facility located on Lake Ontario, Wayne County, New York. Construction of the facility was authorized by Construction Permit No. CPPR–19, issued by the Atomic Energy Commission on April 25, 1966. The facility is presently being operated in accordance with Provisional Operating License No. DPR–18 issued by the Commission on September 19, 1969. The instant facility is subject to the provisions of Section A of Appendix D to 10 CFR Part 50, which sets forth procedures applicable to review of environmental considerations for production and utilization facilities.

The Board, designated by the Chairman of the Atomic Safety and Licensing Board Panel, will consist of Edward Luton, Esq., Chairman, Dr. Franklin C. Daiber, and Dr. Emmeth A. Luebke. Dr. A. Dixon Callihan has been designated as a technically qualified alternate, and Thomas W. Reilly, Esq., has been designated as an alternate qualified in the conduct of administrative proceedings.

A "Notice of Consideration of Conversion of Provisional Operating License to Full-Term Operating License; Notice of Opportunity for Hearing Pursuant to 10 CFR Part 50, Appendix D" was published in the FEDERAL REGISTER on December 8, 1972 (37 FR 26144). The notice provided that, within 30 days from the date of publication, any person whose interest may be affected by the proceeding could file a petition for leave to intervene in accordance with the requirements of 10 CFR Part 2, "Rules of Practice". Petitions for leave to intervene were thereafter filed by various petitioners, including (1) the State of New York; (2) Mr. Michael Slade; (3) the Rochester Committee for Scientific Information and (4) the Monroe County Conservation Council. As set out in the Memoranda and Orders referred to above, a public hearing will be held. Petitioners, Mr. Michael Slade, and the Rochester Committee for Scientific Information will be admitted as parties to the proceeding. The State of New York will participate in accordance with 10 CFR § 2.715(c).

A prehearing conference or conferences will be held by the Board, at a date and place to be set by it, to consider pertinent matters in accordance with the Commission's "Rules of Practice". The date and place of the hearing will be set by the Board at or after the prehearing conference. Notices as to the dates and places of the prehearing conference and the hearing will be published in the FEDERAL REGISTER. The specific issues to be considered at the hearing will be determined by the Board.

For further details pertinent to the matters under consideration, see the licensee's application for conversion of Provisional Operating License No. DPR–18 to a full-term operating license dated August 15, 1972, the licensee's Environmental Report dated August 15, 1972, and the Commission's draft detailed statement on environmental considerations pursuant to 10 CFR Part 50, Appendix D, issued on April 11, 1973, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Lyons Public Library, 67 Canal Street, Lyons, New York 14489. As they become available, the following documents also will be available at the above locations: (1) the Safety Evaluation prepared by the Directorate of Licensing; (2) the Commission's final detailed statement on environmental considerations; (3) the report of the Advisory Committee on Reactor Safeguards on the application for a full-term facility operating license; (4) the proposed full-term operating license and (5) the proposed technical specifications, which will be attached to the proposed full-term facility operating license.

Copies of items (1), (2), (3), and (4) may be obtained when they become available by request to the Deputy Director for Reactor Projects, Directorate of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Any person who wishes to make an oral or written statement in this proceeding but who has not filed a petition for leave to intervene as noted above, may request permission to make a limited appearance pursuant to the provisions of 10 CFR § 2.715 of the Commission's "Rules of Practice". Limited appearances will be permitted at the time of the hearing in the discretion of the Board, within such limits and on such conditions as may be determined by it. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, by September 7, 1973. A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing as specified above. A member of the public does not have the right to participate unless he has been granted the right to intervene as a party or the right of limited appearance.

An answer to this notice, pursuant to the provisions of 10 CFR § 2.705 of the Commission's Rules of Practice, must be filed by the parties to this proceeding (other than the Regulatory Staff) not later than August 28, 1973.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, ATTENTION: Chief, Public Proceedings Staff, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C.

Pending further order of the Hearing Board designated for this proceeding, parties are required to file, pursuant to the provisions of 10 CFR § 2.708 of the Commission's Rules of Practice, an original and twenty (20) conformed copies of each such paper with the Commission.

It is so ordered.

Dated at Washington, D.C., this 2d day of August 1973.

The Atomic Safety and Licensing Board, designated to rule on petitions for leave to intervene.

JAMES R. YORE,
Chairman.

[FR Doc.73–16330 Filed 8–7–73;8:45 am]

SAFETY ANALYSIS REPORTS FOR NUCLEAR POWER PLANTS

Proposed Standard Format and Content for HTGR's

The Atomic Energy Commission's regulations (§ 50.34 of 10 CFR Part 50) require that each application for a construction permit for a nuclear reactor facility include, among other things, a preliminary safety analysis report and that each application for a license to operate such a facility include a final safety analysis report.

To aid applicants in the preparation of safety analysis reports for high-temperature-gas-cooled-reactors (HTGR's), the Commission's Regulatory staff has prepared a proposed "HTGR Edition of the Standard Format and Content of Safety Analysis Reports for Nuclear Power Plants." The new document, which has been issued for comment, identifies the principal information that is needed by the Regulatory staff in evaluating applications for construction permits and operating licenses for HTGR's and describes a format for presenting this information. Use of the HTGR Edition will help to assure that information provided is complete, will assist the Regulatory staff and others in locating information, and will aid in shortening the time needed for review.

The specific information identified and the detailed subdivisions of the HTGR Edition reflect the differences between HTGR's and light-water-cooled-reactors, but retain the material from the "Standard Format and Content of Safety Analysis Reports for Nuclear Power Plants—Revision 1," issued in October, 1972 that is generally applicable to both types.

All interested persons who desire to submit comments or suggestions should send them to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, by October 31, 1973. Copies of the proposed HTGR edition of the standard format are available from the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Dated at Bethesda, Maryland, this 31st day of July 1973.

For the U.S. Atomic Energy Commission.

LESTER ROGERS,
Director of Regulatory Standards.

[FR Doc.73–16334 Filed 8–7–73;8:45 am]

[Docket Nos. 50–445, 50–446]

TEXAS UTILITIES GENERATING CO. ET AL.

Notice of Receipt of Application for Construction Permits and Facility Licenses; Availability of Applicants' Environmental Report, etc.

The Texas Utilities Generating Company, Dallas Power and Light Company, Texas Electric Service Company, and Texas Power and Light Company (the applicants), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, filed an application, which was docketed July 20, 1973, for authorization to construct and operate two generating units utilizing pressurized water reactors. The application was tendered on June 5, 1973. Following a preliminary review for completeness, it was accepted on July 18, 1973, for docketing.

The proposed nuclear facilities, designated by the applicants as the Comanche Peak Steam Electric Station, Units 1 and 2, are located on the applicants' site in Somervell County, Texas, approximately 4½ miles north of Glen Rose, Texas, and approximately 40 miles southwest of Fort Worth in North Central Texas. Each reactor is designed for initial operation at approximately 3411 megawatts (thermal), with a net electrical output of approximately 1159 megawatts.

A notice of hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such

V 38 - 152 AUG 8 73 XUM

views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before September 30, 1973. The request should be filed in connection with Docket Nos. 50–445–A and 50–446–A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545, and at the Somervell County Public Library, On the Square, P.O. Box 417, Glen Rose, Texas, 76043.

The applicants have also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, an environmental report dated June 5, 1973. The report has been made available for public inspection at the aforementioned locations. The report, which discusses environmental considerations related to the proposed construction of the Comanche Peak Steam Electric Station, Units 1 and 2 is also being made available at the North Central Texas Council of Governments, P.O. Box 5888, Arlington, Texas 76011.

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, requesting comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials thereon will be made available when received.

Dated at Bethesda, Maryland, this 24th day of July, 1973.

For the Atomic Energy Commission.

D. B. VASSALLO,
Chief, Pressurized Water Reactors, Branch No. 1, Directorate of Licensing.

CIVIL AERONAUTICS BOARD

[Dockets Nos. 25193, 24873]

CENTURY 2000, INC., ET AL.

Postponement of Hearing

By letter of July 30, 1973, the Bureau of Enforcement has requested an indefinite postponement of the hearing now set for August 21, 1973, in the above-entitled case. Concurrently the Bureau filed a motion to dismiss the proceeding[1] and the request to postpone was made to avoid inconvenience to the parties pending the Board's ruling on that motion.

[1] That motion states, inter alia, that the Federal Aviation Administration refused to renew Century's authority when it expired on June 17, 1973, and that Century is no longer in operation.

Delta states informally that it has no objection to the Bureau's request for postponement, and it appears that the interests of all parties would be best served by disposing of that request without further delay.

Accordingly, notice is given that the hearing in the above-entitled proceeding, which is now scheduled for August 21, 1973 (38 FR 17871, July 5, 1973), is hereby postponed indefinitely.

Dated at Washington, D.C., August 2, 1973.

[SEAL] THOMAS P. SHEEHAN,
Administrative Law Judge.

[Dockets Nos. 24068, 24823]

VIKING INTERNATIONAL AIR FREIGHT, INC. ET AL.

Notice of Hearing

Viking International Airfreight, Inc., and Eugene Pikousky; Virginia Air Cargo Co., Inc., and Wilson Trucking Corp.

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a public hearing in this proceeding is assigned to be held on August 29, 1973, at 10:00 a.m. (local time) in Room 726, Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C., before the undersigned Administrative Law Judge.

For information concerning the issues involved and other details in this proceeding, interested persons are referred to the prehearing conference report served on July 9, 1973, and other documents which are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., August 2, 1973.

WILLIAM H. DAPPER,
Administrative Law Judge.

ENVIRONMENTAL PROTECTION AGENCY

MICHIGAN

Request for State Program Approval for Control of Discharges of Pollutants to Navigable Waters

On October 18, 1972, Congress passed new legislation in the form of the Federal Water Pollution Control Act Amendments of 1972. This legislation established the National Pollutant Discharge Elimination System (NPDES) permit program under which the Administrator of the Environmental Protection Agency may issue permits to municipal, industrial, and agricultural entities to control the discharge of pollutants into navigable waters.

Section 402(b) of the Act (33 USC 1251) provides that the Governor of a State desiring to administer the NPDES program to control discharges into navigable waters within its jurisdiction may submit to the Administrator of the U.S. Environmental Protection Agency (EPA) a full and complete description of the program it intends to administer, including a statement from the State Attorney General that the laws of the State provide adequate authority to carry out the described program. The Administrator is required to approve each such submitted program unless he determines that 1) adequate authority does not exist to issue permits which comply with all pertinent requirements of the Act, or 2) that adequate authority does not exist to abate violations of the permit (including civil and criminal penalties), or 3) that the State program description does not insure that the Administrator, the public, any other affected State, and other affected agencies are given notice of each application and are given the opportunity, for a public hearing before acting on each such application. The complete description of the State program elements necessary for approval of the State program was published in Volume 37 of the FEDERAL REGISTER, December 22, 1972 (40 CFR 124), beginning at page 28390.

The State of Michigan has submitted a full and complete Request for State Program Approval and proposes that the Michigan Water Resources Commission, Stevens T. Mason Building, Lansing, Michigan 48913 (Ralph W. Purdy, Executive Secretary 517/373-3560) operate the NPDES permit program for discharges into the navigable waters within the jurisdiction of the State in accordance with the Act.

Francis T. Mayo, Regional Administrator of EPA–Region V, has scheduled a public hearing to consider this request and enable all interested parties to present their views on the State's submission. The hearing will be held at the Sheraton-Cadillac Hotel, Washington Boulevard and Michigan Avenue, in Detroit, Michigan 48231, on September 6, 1973, at 10 a.m. A 3-member hearing panel will preside over the hearing. The panel will consist of the Administrator of EPA or his representative, who will serve as the Presiding Officer, the Executive Secretary of the Michigan Water Resources Commission or his representative, and the Regional Administrator of EPA–Region V or his representative. Oral statements will be heard and considered, but, for accuracy of the record, all testimony should be submitted in writing. Statements should summarize extensive written material so there will be time for all interested parties to be heard. Persons are encouraged to bring extra copies of their written statements for the use of the hearing panel and other interested persons.

The Presiding Officer may, at his discretion, exclude oral testimony if it is overly repetitious of previous testimony heard or if it is not relevant to the decision to approve or require revision to the State program submitted. The hearing record will be left open for a period of 5 days following the hearing to allow any person to submit additional written

statements or to present views or evidence tending to rebut testimony presented during the hearing.

Any interested person may comment upon the State submission by writing to the EPA—Region V Office (1 North Wacker Drive, Chicago, Illinois 60606). Such comments will be made available to the public for inspection and copying and shall be considered by the Regional Administrator in making his recommendations to the Administrator.

The State's submission, related documents, and all comments received are on file and may be inspected and copied (@ 20¢/page) at the EPA—Region V office in Chicago.

Copies of this notice are available upon request from the Enforcement Division of EPA—Region V (312/353-5252).

Please bring the foregoing to the attention of persons you know would be interested in this matter.

Dated: August 2, 1973.

ALAN G. KIRK, II,
Acting Assistant Administrator for Enforcement and General Counsel.

FEDERAL MARITIME COMMISSION

[Independent Ocean Freight Forwarder License 1128]

AERO SPECIAL DELIVERY SERVICE, INC.

Order of Revocation

By letter dated July 23, 1973, the Federal Maritime Commission received notification that Aero Special Delivery Service, Inc., 242 Steuart Street, San Francisco, California 94105 wishes to voluntarily surrender its Independent Ocean Freight Forwarder License No. 1128 for revocation.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) § 7.04(f) (dated 5/1/72);

It is ordered, that Independent Ocean Freight Forwarder License No. 1128 be returned to the Commission for cancellation.

It is further ordered, that the Independent Ocean Freight Forwarder License of Aero Special Delivery Service, Inc. be and is hereby revoked effective July 23, 1973, without prejudice to reapply for a license at a later date.

It is further ordered, that a copy of this Order be published in the Federal Register and served upon Aero Special Delivery Service, Inc.

WM. JARREL SMITH, JR.
Deputy Managing Director.

ENCINAL TERMINALS AND CRESCENT WHARF AND WAREHOUSE CO.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, NW., Room 1015, or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before August 28, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Edward D. Ransom, Esq.
Lillick, McHose, Wheat, Adams & Charles
311 California Street
San Francisco, California 94104

Agreement No. T-2827, between Encinal Terminals (Encinal) and Crescent Wharf and Warehouse Co. (Crescent), provides for the lease to Crescent of certain marine terminal property in Alameda, California, to be used for the docking of vessels, receipt, handling, storage and delivery of waterborne cargo. Charges for land rentals, dockage, wharfage, wharf demurrage and storage, and freight transfer charges appear in Encinal's tariff and are to be collected by Crescent. Revenues from such charges, in addition to other incidental land rentals, will constitute Encinal's compensation. Encinal will receive an annual minimum rental of $500,000 and if rental revenues during the year exceed $800,000, Crescent will pay Encinal $800,000 plus 50 percent of such excess. Crescent will perform all terminal operating services and retain all revenues therefrom.

By order of the Federal Maritime Commission.

Dated: August 3, 1973.

FEDERAL POWER COMMISSION

[Docket No. G-8124, et al.]

SALES OF NATURAL GAS

Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

JULY 26, 1973.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before August 23, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. E-8250 E-8071 E-8142]

ARKANSAS POWER AND LIGHT CO.

Order Accepting and Suspending Proposed Tariff Sheets

JULY 31, 1973.

On June 1, 1973, Arkansas Power and Light Company (APLC) tendered for filing proposed changes in its Rate Schedule U3—Resale Service to Municipally Owned and Privately Owned Electrical Distribution Systems [1] and its proposed changes would increase APLC's revenues from sales and service by $1,969,462 for the twelve month period ending July 31, 1972. The proposed effective date is August 1, 1973. (FPC Rate Designations are shown in Appendix A)

APLC states that no facilities will be installed or modified except to accommodate additional capacity and/or to provide points of delivery for customers' load growth in the future. Furthermore, APLC states that the Company does not propose to apply the 1.3 percent monthly additional facilities charge provided for in the new rate schedules to any presently installed transmission and distribution facilities. Finally, APLC states that the rate of return from service to the municipally owned and privately owned systems is 3.74 percent and from service to rural electric cooperatives the rate of return is a negative .15 percent.

The Company states that the proposed rates will enable the Company to improve its rate of return, which it believes is vital to attract the necessary amount of capital in order to provide adequate service to its present and future customers.

Notice of filing was issued on June 15, 1973, with protests and petitions to intervene due on or before June 28, 1973. A Protest, Motion to Reject, and Petitions to Intervene of Publicly Owned Wholesale Customers [1] (Customers) was timely filed June 28, 1973. In support of its motion to reject, Customers first allege that APLC's participates in anti-competitive activity and that the proposed rate increase would "squeeze" Customers out of competition with respect to sales to industrial customers.

By order issued May 31, 1973, in Indiana and Michigan Electric Company Docket No. E-7740 we set minimum standards for those who would raise anti-competitive issues. These standards are that the petition to intervene must clearly specify 1) the facts relied upon, 2) the anti-competitive practices challenged, and 3) the requested relief which is within this Commission's authority to direct. Our review of Customers' petition to reject or intervene indicates that it fails to specify the relief which is within this Commission's authority to direct. Accordingly, we shall limit Customers' participation in this proceeding to matters other than the alleged anti-competitive activities. This action is without prejudice to Customers' right to file an appropriate amended petition which sets forth relief for the alleged anti-competitive conduct that is within this Commission's authority to direct.

Customers also allege several other grounds in support of its motion to reject. Firstly, Customers argue that by filing a split test year ending July 31, 1973, APLC has effectively understated its revenues. Secondly, Customers argue that certain factors utilized by APLC in construction of its cost of service are questionable; e.g., the utilization of a single peak allocation for its basis demand allocation. Thirdly, Customers argue that allowance of the nuclear adjustment clause would put the nuclear plant in its rate base while continuing to book interest during construction, since it does not anticipate putting the nuclear plant into operation prior to Spring, 1974. Fourthly, the Customers argue that the introduction of an embedded debt cost adjustment provision and a tax adjustment clause should be rejected as not meeting the justification for escalation factors set for in Commission's Opinion 633, New England Power Company (Docket No. E-7541) and if not rejected, should not be allowed to operate automatically. Fifthly, the Customers state that allowance of APLC's "additional facilities charge" would allow APLC to recover twice for all future line extension-recovery once by the "additional facilities charge" and secondly, recovery would be had in the increase cost of service.

In the event that the filing is not rejected, Customers urge the Commission to suspend the proposed rate schedule changes for the full five month statutory period provided for in section 205 (e) of the Federal Power Act, set the matter for hearing and request permission to intervene in these proceedings. Customers' motion to reject raises substantive issues which cannot be summarily decided and require an evidentiary hearing which we have set forth herein.

On review of APLC's June 1, 1973, filing at Docket No. E-8250 and Customers' motion to reject or in the alternative suspend the filing indicates that the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, preferential or unduly discriminatory or otherwise unlawful and may require a full evidentiary hearing.

On March 8, 1973, APLC tendered for filing in Docket No. E-8071, an initial Power Service Agreement between the City Water and Light Plant of the City of Jonesboro, Arkansas (Jonesboro) and APLC to become effective June 1, 1973.

APLC described the Agreement as lasting for a term of at least seven years, beginning on or about June 1, 1973, and providing for an initial block of at least 5,000 KW during the term of the Agreement. Jonesboro is not now served by APLC and there is no interconnection between their respective systems. APLC states that the city electrical system has need of additional firm capacity and energy to supplement its own generation and other sources of firm power supply in order to adequately supply the city's customers. APLC further states that the rates and charges provided for in the Agreement were arrived at through negotiations with Jonesboro, and they are designed to produce a return approximately equal to the Company's overall rate of return.

The Agreement provides that the demand charge shall be increased by one cent ($.01) per KW of Contract Demand for each full one tenth of one percent (0.1 percent) increase in the Company's embedded cost of long-term debt above the 5.87 percent existing as of July 31, 1972. Furthermore, the energy charge will be increased or decreased to reflect the nearest one-thousandth (.001) mill per kilowatt-hour, the change in the cost of fuel utilized in Company-owned generating stations.

APLC's filing in Docket No. E-8071 was noticed on March 22, 1973 with motions of protest or intervention due on or before April 12, 1973. No motions to protest or intervene were received.

APLC's March 8, 1973, filing at Docket No. E-8071 became effective June 1, 1973. Our review indicates that the rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. Therefore, we shall institute an investigation under section 206 of the Federal Power Act to determine the justness and reasonableness of those rates.

We note that in a related case in Docket No. E-8142, the Commission in an order issued July 3, 1973, instituted an investigation under section 206 of the Federal Power Act with respect to an embedded debt cost adjustment provision contained in the Power Coordination, Interchange and Transmission Agreement dated April 20, 1972 between APLC and Arkansas Electric Cooperative Corporation. Since the adjustment clause and Docket No. E-8142 is identical to the provision in Docket No. E-8250 and Docket No. E-8071, common issues of law and fact are raised. We will accordingly order consolidation of these dockets. Consistent with this action, we will amend our order of July 3, 1973, in Docket No. E-8142 to provide dates for service of evidence and hearing consistent with our action herein.

The Commission finds:

(1) It is necesssary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in APLC's Rate Schedules as proposed in Docket No. E-8250 filed May 31, 1973.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing under section 206 of the Federal Power Act to determine the justness and reasonableness of the Initial Power Service Agreement in Docket No. E-8071 filed March 8, 1973.

(3) The disposition of this proceeding should be expedited in accordance with the procedures set below.

(4) In the event this proceeding is not concluded prior to the termination of the suspension period herein ordered in Docket No. E-8250 the placing of the rate and charges applied for in this proceeding into effect, subject to refund with interest, while pending Commission determination as to their justness and reasonableness, is consistent with the purpose of the Economic Stabilization Act of 1970, as amended.

(5) Good cause exists for consolidation of Docket Nos. E-8250, E-8142, and E-8071.

(6) Consistent with our action consolidating Docket Nos. E-8250, E-8071 and E-8142, the procedural dates set forth in our July 3, 1973, order in the latter docket should be amended as hereinafter ordered.

(7) The petition to intervene of Customers should be granted as hereinafter ordered.

(8) The petition to reject in Docket No. E-8250 should be denied.

The Commission orders:

(A) The above enumerated rate schedules in Docket No. E-8250 filed May 31, 1973, are accepted for filing and their effectiveness is suspended until January 1, 1974.

(B) APLC is required in Docket No. E-8250 and in E-8071 to file within 60 days

of the issuance of this order an updated cost of service for the twelve month test period ending June 30, 1973 (in accordance with regulations 35.13 and 35.12 respectively).

(C) APLC's March 8, 1973 filing at Docket No. E–8071 constituting an initial Power Service Agreement with Jonesboro is hereby accepted for filing to become effective June 1, 1973 as requested.

(D) An investigation into the justness and reasonableness of the initial Power Service Agreement with Jonesboro at Docket No. E–8071 is hereby instituted under section 206 of the Federal Power Act.

(E) Docket Nos. E–8250, E–8142 and E–8071 are hereby consolidated and set for hearing in accordance with the schedule established in ordering paragraph (F) hereof.

(F) Pursuant to the authority of the Federal Power Act, including sections 205, 206, 308, and 309 thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act, a public hearing shall be held commencing with a pre-hearing conference on February 5, 1974, at 10:00 A.M., e.d.t. in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20424, concerning the lawfulness of the rate increase and adjustment clauses set forth above.

(G) On or before January 4, 1974, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any or all intervenors shall be served on or before January 15, 1974. Any rebuttal evidence by APLC shall be served on or before January 29, 1974. Cross-examination on the evidence filed will commence on February 12, 1974.

(H) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for the purpose (see Delegation of Authority, 13 CFR 3.5 (d)), shall preside at the hearing in this proceeding, and shall prescribe relevant procedural matters not herein provided, and shall control the proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(I) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however*, that the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in the respective petitions to intervene, except Customer's participation is limited to matters other than the alleged anti-competitive activities, and *Provided, further*, That the admission of such intervenors shall not be construed as recognition by the Commission that they, or any of them, might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(J) Customer's motion to reject in Docket No. E–8250 is denied.

(K) Nothing contained in this order shall relieve the Applicant of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Gas 91–370, 84 Stat. 799, as amended by Public Law 92–15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(L) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

FEDERAL RESERVE SYSTEM

CONNECTICUT BANCFEDERATION, INC.

Formation of Bank Holding Company

The Connecticut BancFederation, Inc., New Britain, Connecticut, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of more than 80 per cent of the voting shares of the following three banks: 1) The Guaranty Bank & Trust Company, Hartford, Connecticut; 2) New Britain Bank and Trust Company, New Britain, Connecticut; 3) The Terryville Trust Company, Terryville, Connecticut. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Boston. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 24, 1973.

Board of Governors of the Federal Reserve System, July 31, 1973.

DEPOSIT GUARANTY CORP.

Acquisition of Bridges Loan & Investment Company, Inc.

Deposit Guaranty Corp., Jackson, Mississippi, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all the voting shares of Bridges Loan & Investment Company, Inc., Jackson, Mississippi, a company engaged in the activities of making or acquiring, for its own account or for the account of others, loans and other extensions of credit such as would be made by a mortgage company, and of servicing loans and other extensions of credit for any person. Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4 (a)(1) and (3)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, was duly published (37 FR 26060). The time for filing comments and views has expired, and the Board has considered all comments received in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant is a one-bank holding company controlling Deposit Guaranty Bank ("Bank"), Jackson, Mississippi. Bank holds $540 million in deposits and is the largest commercial bank in the State.[1]

[1] Banking data are as of June 30, 1972.

With 27 offices, Bank holds close to 14 per cent of total deposits in commercial banks in the State. Bank operates in each of eight communities in Mississippi. During 1972 Applicant attempted to establish a subsidiary *de novo* to engage in mortgage banking in the Jackson area, but those efforts failed, and that subsidiary remains inactive. Bank does, however, engage in mortgage lending for its own account at all of its offices; its principal real estate lending activities are conducted in the Jackson area.

Bridges Loan & Investment Company ("Bridges") operates offices in New Orleans, Shreveport, and Lafayette, Louisiana, and in Gulfport and Jackson in Mississippi. Although Bridges is headquartered in Jackson, it appears that its major activity is conducted outside the Jackson area and that the company's share of activity in the Jackson area has been declining in recent years. On the basis of mortgages serviced, Bridges ranks (as of June 30, 1971) as the 117th largest mortgage company in the United States and the second largest mortgage company headquartered in Mississippi. For its fiscal year ending May 31, 1972, Bridges shows a servicing volume of $210 million, and mortgage originations during that year of $53 million.

Although Applicant's subsidiary bank engages to some extent in the same line of activity as Bridges, the record indicates that there is no significant competition between the two institutions. Of the four areas in Mississippi where Bank has offices and Bridges offers its services, namely, the Jackson area (Hinds, Rankin, and Madison Counties), the Greenville area (Washington County), the Natchez area (Adams County), and the McComb area (Pike County), it appears that, only in the Jackson area, do Bank and Bridges engage in real estate lending to a meaningful extent.

In the Jackson market, in the category of 1–4 family mortgage loans, Bank originated (during 1971) 65 loans with a value of $1.9 million, representing 2 per cent of dollar value of the 1–4 family loans made in the Jackson area. During the same period, Bridges made 610 loans with a value of $12.3 million, representing about 13 per cent of the dollar value of such loans in the market. As a result of consummation of the proposal herein, Applicant would control 15 per cent of all 1–4 family mortgages in the market, making Applicant the largest lender in this category in the Jackson market. While these statistics appear to indicate that there is some competition between the two institutions in the category of 1–4 family mortgage loans, the record shows that Bank makes conventional loans of relatively short term and only to established customers of Bank, not to the general public, whereas Bridges offers FHA and VA mortgage loans to the general public. It appears, therefore, that no meaningful present competition would be eliminated between the two institutions in the 1–4 family mortgage market.

The Board further notes that Applicant has attempted unsuccessfully to enter the Jackson area through the *de novo* establishment of a mortgage subsidiary; there are at present four mortgage companies in the area each of a size comparable to Bridges; there are a large number of mortgage lenders in the area (25—of which six are banks, nine are mortgage companies, and ten are savings and loans associations); the Jackson market is attractive for entry by other firms of major capability. The Jackson area has enjoyed good population and economic growth in the past. The population increased at a 7.4 per cent rate (240,000 to 258,000) from 1965 to 1970, while during the same period the per capita income rose 40 per cent ($2,282 to $3,209). On the record herein, it appears that upon consummation of the proposal. Applicant's market share would not be so great as to preclude the development of competition through the entry of other mortgage lenders into the area nor would Applicant dominate the market.

Applicant's subsidiary bank and Bridges also make loans on commercial property and construction loans in the Jackson area. In the former category during 1971, Bank made 37 loans with a value of some $2 million, and Bridges made four loans with a value of $1.5 million. Applicant would control less than 7 percent of the loans on commercial property in the Jackson area as a result of its acquisition of Bridges. With respect to construction loans during 1971, Bank originated 263 loans with a value of under $14 million, and Bridges made 136 loans with a value of about $2 million. In neither category (loans on commercial property or construction loans) does it appear that Bridges is an aggressive competitor, nor that Bridges' acquisition by Applicant would have a significantly adverse effect on competition in either product line in the Jackson market; moreover, since the Board considers the geographic market for these types of loans to be larger than the banking market, the acquisition would not result in an undue concentration of resources.

In the course of its consideration of the application, the Board has considered comments by the Department of Justice to the effect that consummation of the proposal would eliminate existing and potential competition by "combining a bank with almost half of the commercial bank deposits in Jackson with the largest independent mortgage company in the same geographic area. . . ." However, in the Board's judgment, consummation of the proposal is not likely to eliminate any significant present or potential competition; Applicant will be one of a number of viable and aggressive real estate lenders now competing in the Jackson area. Moreover, as a result of the vigorous growth in the Jackson area and the prospects for continued growth, four of the largest mortgage companies in the country, including the first, sixth, twenty-first, and twenty-fifth largest mortgage servicing firms in the United States, have opened offices in Jackson, and there is evidence that additional firms expect to enter the Jackson area, which facts suggest that the combination of Bank and Bridges would not affect adversely, to any significant degree, competition in the field of mortgage lending in any relevant area.

The Board further notes that Bridges is in need of additional capital to continue its operation, and Applicant has indicated that it would provide an additional $1,000,000 of equity capital to the Company, and also help the company arrange additional lines of credit. Such action by Applicant should strengthen the financial position of Bridges, thereby enabling it to continue the present scope of its mortgage lending activities and to remain an effective or strengthened competitor in its market and further the economic development of the Jackson area. In addition, Bridges would be able to expand its construction lending and to engage in making conventional residential loans, each of which requires additional capital which is now unavailable to Bridges. Bridges' ability to expand into new lines of real estate lending and to continue the present mortgage loan activities should provide additional benefits to the communities served by Bridges. Without financial assistance from Applicant, Bridges would, it is stated, be required to close at least two of its five offices and curtail its lending activities. Increased economic activity in the State of Mississippi, which is a State with low per family income, and in the relevant communities affected by the proposal is regarded by the Board as being in the public interest and serving the convenience and needs of the communities involved. The aforestated public benefits lend weight for approval of the application and tend to offset any adverse effect on competition that may result from consummation of the proposal herein.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.[2] The transaction shall be consummated not later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Fed-

FIDELITY AMERICAN BANKSHARES, INC.

Acquisition of Bank

Fidelity American Bankshares, Inc., Lynchberg, Virginia, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent or more of the voting shares (less directors' qualifying shares) of Fidelity National Bank, Roanoke County, Virginia, a proposed new bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Richmond. Any person wishing to comment on the application should submit his views in writing to the Secertary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 27, 1973.

Board of Governors of the Federal Reserve System, July 31, 1973.

[SEAL] THEODORE E. ALLISON, *Assistant Secretary of the Board.*

[FR Doc.73-16308 Filed 8-7-73;8:45 am]

PANNATIONAL GROUP, INC.

Acquisition of Bank

PanNational Group, Inc., El Paso, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares less directors' qualifying shares, of the successor by merger to the Citizens National Bank of Austin, Austin, Texas ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant,[1] the thirteenth largest bank holding company in Texas, controls two banks with total deposits of $294 million,[2] representing less than one per cent of total commercial bank deposits in the State. Bank is the sixth largest of 14 commercial banks in the Austin banking market controlling deposits of approximately $40.3 million or 3.6 per cent of the deposits of commercial banks in this market. (All banking data are as of December 31, 1972.)

At the present time, Applicant is not represented in the Austin area. Applicant's subsidiary banks are located in the El Paso market, approximately 600 miles west of Austin. No competition exists between Bank and any of the Applicant's subsidiary banks and, in view of the distance separating these banks and Texas law prohibiting branching, it appears unlikely that significant competition would develop in the foreseeable future. Moreover, acquisition of Bank by Applicant should have a pro-competitive effect on the Austin banking market in which the four largest banks each hold more than $180 million of deposits and, in the aggregate, control approximately 85 percent of the deposits of the 14 commercial banks in that market. Applicant's entry into the Austin market through acquisition of Bank may result in Bank improving its competitive position *vis a vis* these largest banks in that market and thereby reduce the high concentration of banking resources in the Austin market.

Financial and managerial resources of Applicant, its subsidiary banks, and bank are satisfactory and future prospects appear favorable. Prospects for economic growth in Applicant's home market appear good, as do the prospects in the Austin area. Although the record fails to indicate that the banking needs of residents of the Austin area are going unserved, affiliation of Bank with Applicant could provide Bank's customers with some services not now being offered by Bank and therefore convenience and needs considerations appear consistent with approval. It is the Board's judgment that the proposed transaction is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[3] effective July 24, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

[FR Doc.73-16375 Filed 8-7-73;8:45 am]

PATAGONIA CORP.

Order Approving Acquisition of Western American Insurance Agency

Patagonia Corporation, Tucson, Arizona, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's regulation Y (12 CFR 225.4(b)(2)), to acquire Western American Insurance Agency, Phoenix, Arizona ("Agency") and thereby to engage in insurance agency activities. Certain insurance agency activities have been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)(9)).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been duly published (38 FR 3013).[1] The time for filing comments and views has expired, and the Board has considered all comments received in light of the public interest factors set forth in section 4(c)(8) of the Act.[2]

Applicant, the fourth largest banking organization in Arizona, controls one bank with aggregate deposits of $207 million representing 4 percent of the total deposits of commercial banks in Arizona. (All banking data are as of December 31, 1972.) Applicant has nonbanking subsidiaries which are engaged principally in consumer finance activities, leasing of personal property and equipment, and operating a savings and loan association. Applicant has recently received Board approval to acquire Western American Mortgage Company, Phoenix, Arizona ("Mortgage Company").

Applicant proposed to acquire Agency, which has been operated by Mortgage Company's former controlling shareholder in conjunction with Mortgage Company's activities. Agency had gross insurance premiums of $640 thousand and gross commission income of $170 thousand for the year ending March 31, 1972. Approximately $400 thousand of the insurance premiums resulted from the sale of declining coverage term life insurance policies where the coverage was equal to the outstanding balance of a mortgage held or serviced by Mortgage Company, and the sale of homeowners insurance policies and fire and casualty policies where the primary coverage of the policies protects collateral which formed the basis for an extension of credit by Mortgage Company or secures a mortgage serviced by Mortgage Company. Thus, approximately 60 percent of Agency's gross insurance premiums and gross commission income appears to be directly related to an extension of credit by Mortgage Company or directly related to the provision of other financial services by Mortgage Company. While some of the remaining insurance sales of Agency are made to employees of Mortgage Company and customers or former customers of Mortgage Company, the bulk of the remaining insurance premiums appear to be the result of the acquisition of several smaller insurance agencies by Agency.

Based on its past operations, Agency's activities would not appear to be permissible activities for a bank holding company subsidiary under § 225.4(a)(9) of regulation Y in that a substantial portion of Agency's business is not directly related to an extension of credit or the provision of other financial services by the mortgage company with which Agency was affiliated. However, Applicant states that Agency no longer actively solicits general insurance business and will reduce the scope of such Agency activities in the future if the application is approved. In order to assure that Agency is not operated as a general insurance agency, approval of the proposed acquisition is conditioned upon reduction of that portion of the Agency's premium income which is not directly related to an extension of credit by Mortgage Company or directly related to the provision of other financial services by Mortgage Company to less than 5 per cent of the premium income of Agency attributable to directly related coverage[3] within two years from the effective date of this Order.

Although Applicant engages in certain insurance agency activities through a number of its existing subsidiaries, approval of the proposed acquisition would not eliminate any significant existing competition between Applicant's subsidiaries and Agency because of the limited nature of the respective insurance activities. For example, Applicant's subsidiaries sell only a nominal amount of insurance for the protection of real property. Nor does it appear that affiliation of Agency with Applicant would adversely effect the numerous existing competitors in the Tucson and Phoenix areas where Mortgage Company and Agency are engaged in business.

It is anticipated that the provision of insurance by Agency will provide a convenient alternative source of insurance agency services for customers of Mortgage Company. There is no evidence in the record indicating that consummation of the proposed transaction would result in any undue concentration of resources, unfair competition, conflicts of interests,

[3] Voting for this action: Chairman Burns and Governors Mitchell, Daane, Sheehan, and Bucher. Absent and not voting: Governors Brimmer and Holland.

[1] The published notice of this application included notice of a related application to acquire Western American Mortgage Company, Phoenix, Arizona. When the National Association of Insurance Agents, Inc. and related parties objected to the proposed acquisition of Agency and requested a hearing thereon, Applicant requested separate consideration by the Board of the two applications. Subsequently, the Board approved the acquisition of the mortgage company effective June 29, 1973.

[2] The National Association of Insurance Agents and related parties filed a petition on February 22, 1973, objecting to approval of this application and requesting a hearing be held upon the application. On March 6, 1973, the Board directed that a hearing be held on this application, among others. The Administrative Law Judge designated to conduct the proceeding upon the application scheduled a hearing. Subsequently, the objectors to the application and the Applicant reached agreement among themselves whereby the objections to the application were withdrawn and whereby Applicant agreed to be bound by the final outcome of other specified applications to engage in insurance agency activities. On June 22, 1973, the Administrative Law Judge dismissed the application from the docket and referred the application back to the Board.

[3] This condition does not apply to premium income which is permissible under § 225.4(a)(9)(1).

V 38-152 AUG 8 73 XUM

unsound banking practices or other adverse effects.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved conditioned upon the reduction of Agency's premium income which is not directly related to an extension of credit by Mortgage Company or directly related to the provision of other financial services by Mortgage Company to less than 5 per cent of the premium income of Agency attributable to the directly related coverage within two years from the effective date of this Order.

The transaction shall not be consummated later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of San Francisco. This determination is also subject to the conditions set forth in § 225.4(c) of regulation Y (12 CFR 225.4(c)) and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[4] effective July 30, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-16373 Filed 8-7-73;8:45 am]

TENNESSEE VALLEY BANCORP, INC.

Order Approving Acquisition of Kimbrough-Kavanaugh and Associates, Inc.

Tennessee Valley Bancorp, Inc., Nashville, Tennessee, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's regulation Y, to acquire 90 per cent or more of the voting shares of Kimbrough-Kavanaugh and Associates, Inc., Nashville, Tennessee ("Company"), a company that engages in the activities of mortgage banking, including mortgage origination and servicing, sale of insurance directly related to such mortgages subject to prescribed limitations imposed by Tennessee law; appraisals of real estate for Company and its subsidiaries, and construction lending. Such activities have been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)(1), (3) and (9)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (38 FR 16112). The time for filing comments and views has expired, and none has been timely received.

Applicant controls three banks with aggregate deposits of $664 million, representing 0.4 per cent of the total deposits in commercial banks in Tennessee. Applicant's lead bank, Commerce Union Bank, Nashville, Tennessee ("Commerce Bank"), with deposits of $608 million is the third largest bank in the Nashville banking market.[1] Commerce Bank is engaged in the origination and servicing of permanent loans on one-to-four family residences and loans on income producing properties. It also makes construction loans. In its most recent fiscal year, Commerce Bank originated 1.6 per cent of all mortgages placed on one-to-four family residences in Davidson County and 2.9 per cent of all mortgages on income-producing properties in that area. The dollar volume of its construction loans totalled $17.3 million in the same period. Applicant does not presently own directly or indirectly any nonbanking subsidiaries.

Company's main office is in Nashville, Tennessee. It also owns Kimbrough-Kavanaugh and Associates, Inc., of Kentucky, Louisville, Kentucky. Applicant proposes that the Nashville office would continue to engage in construction lending; mortgage originating and servicing (residential, commercial and multifamily); in the sale of insurance related to mortgage lending activities; and would also appraise real estate for Applicant and its subsidiaries. The operations of the Louisville, Kentucky, office would continue to be primarily involved in originating and servicing loans on income properties, both commercial and multifamily residential. Applicant also proposes that Company retain shares in Kenneth Smith & Associates, Nashville, Tennessee, which performs data processing services for Company and its subsidiary offices. Applicant further states that Company's (including its subsidiaries) equity interests in real estate which are not utilized as offices in its mortgage banking activities and property management services related thereto will be liquidated or discontinued, respectively, prior to consummation of the acquisition, provided the Board approves the application. Applicant also proposes that Company will continue the sale of property insurance and mortgage insurance for mortgage loans that it arranges or service upon request of customers. The Company will not act as an agent for either type of insurance but will place such insurance with unaffiliated agencies on a commission basis. Applicant assures the Board that all such insurance activities will be conducted in accordance with a determination by the Tennessee Commissioner of Insurance regarding their permissibility under a recently enacted amendment to Section 56-721 of the Tennessee Code Annotated.

Company is one of 16 mortgage companies with offices in Davidson County. It makes no construction loans and originated but 1 percent of all mortgages placed on one-to-four family residence in Davidson County in 1972. Thus, consummation of the proposed acquisition would not eliminate any significant competition between Commerce Bank and Company in either of these product lines. Company is also engaged in the origination of mortgages on income-producing properties. However, only 48 percent of its loans in fiscal 1972 on income-producing properties were made on property situated in Davidson County. Similarly, only 49 percent of those loans originated by Commerce Bank in 1972 were on properties in Davidson County. It appears that lenders located in the County do not confine their mortgage originations on income-producing property to the County itself but that they compete with many potential suppliers located outside the County. In view of the regional scope of the market for loans on income-producing property and the large number of existing competitors for such loans, the Board concludes that consummation of the proposal would not substantially lessen competition in loans originated on income-producing property in Davidson County nor adversely affect competition within the regional market for such loans.

Based on the foregoing and other considerations in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable, and the application is hereby approved subject to the following conditions: (1) divestiture prior to consummation of the acquisition of Company's (including its subsidiaries) equity interests in all real estate not utilized in its mortgage banking activities, and discontinuance of property management services in connection with such interests; and (2) discontinuance of insurance activities by Company which are determined by the Tennessee Commissioner of Insurance to be impermissible under State law. The acquisition shall not be consummated later than three months after the effective date of this Order, unless such period is extended by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority. This determination is subject to the conditions set forth in § 225.4(c) of regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[2] effective July 30, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

NATIONAL ADVISORY COMMITTEE ON OCEANS AND ATMOSPHERE

Notice of Meeting

AUGUST 3, 1973.

The National Advisory Committee on Oceans and Atmosphere (NACOA) will hold a two day meeting on August 20th and 21st at Boulder, Colorado. The meeting will be open to the public. The Monday (Aug. 20) session will convene at 9:00 a.m. in room 620 of the NOAA Environmental Research Laboratories' facility, Research Building 3, in the complex at the corner of Arapahoe and 30th Street in Boulder; the Tuesday (Aug. 21) session will convene at 9:00 a.m. in the Main Seminar Room of the National Center for Atmospheric Research (NCAR), located at the end of Table Mesa Drive.

The Committee, consisting of 25 non-Federal members appointed by the President from State and local governments, industry science, and other appropriate areas, was established by Congress by Public Law 92-125, on August 16, 1971. Its duties are to: (1) Undertake a continuing review of the progress of the marine and atmospheric science and service programs of the United States, (2) submit a comprehensive annual report to the President and to the Congress setting forth an overall assessment of the status of the Nation's marine and atmospheric activities on or before June 30 of each year, and (3) advise the Secretary of Commerce with respect to the carrying out of the purposes of the National Oceanic and Atmospheric Administration.

The agenda for this meeting includes a general discussion of Federal reorganization in marine and atmospheric affairs, a presentation of ERL's programs in atmospheric science and a presentation of selected activities at NCAR.

The public will be admitted on a first come, first served basis. Questions from the public will be permitted during specific periods announced by the Chairman. Persons wishing to make formal statements must notify the Chairman in advance of the meeting. The Chairman retains the prerogative to place limits on the duration of oral statements and discussion. Written statements may be submitted before or after each session.

Additional information concerning this meeting may be obtained through the Committee's Executive Director. Dr. Douglas L. Brooks, whose mailing address is: National Advisory Committee on Oceans and Atmosphere, Department of Commerce Building, Room 5225, Washington, D.C. 20230. Telephone: 967-3343.

DR. DOUGLAS L. BROOKS,
Executive Director.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 73-58]

MENTORIS CO.

Notice of Intent To Grant Exclusive Patent License

Notice is hereby given of intent to grant to The Mentoris Company, Sacramento, California, a limited, exclusive, revocable license to practice the invention described in U.S. Patent No. 3,740,725 for "Automated Attendance Accounting System," issued on June 19, 1973 to the Administrator of the National Aeronautics and Space Administration on behalf of the United States of America. The proposed exclusive license will be for a limited number of years, will provide for payment of royalties to the U.S. Government and will contain other appropriate terms and conditions to be negotiated in accordance with the NASA Patent Licensing Regulations, 14 CFR § 1245.2, as revised April 1, 1972. NASA will grant the exclusive license unless, on or before September 7, 1973, the Chairman, Inventions and Contributions Board, NASA, Washington, DC 20546, receives in writing any of the following, together with supporting documentation: (i) A statement from any person setting forth reasons why it would not be in the best interest of the United States to grant the proposed exclusive license; or (ii) an application for a nonexclusive license under such invention, in accordance with § 1245.206(b), in which applicant states that he has already brought or is likely to bring the invention to practical application within a reasonable period. The Board will review all written responses to the Notice and then

V 38 - 152 AUG 8 73 XUM

recommend to the Administrator whether to grant the exclusive license.

Dated: August 2, 1973.

R. TENNEY JOHNSON,
General Counsel.

JERSEY CENTRAL POWER & LIGHT CO.

Notice of Proposed Issue and Sale of First Mortgage Bonds at Competitive Bidding

Notice is hereby given that Jersey Central Power & Light Company ("Jersey Central"), Madison Avenue at Punch Bowl Road, Morristown, New Jersey 07960, an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Jersey City proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, $50,000,000 principal amount of First Mortgage Bonds, percent Series due 2003. The interest rate (which will be a multiple of ⅛ of 1 percent) and the price (which will be not less than 100 percent nor more than 102.75 percent of the principal amount thereof plus accrued interest from October 1, 1973 to the date of delivery) will be determined by competitive bidding. The bonds will be issued under Indenture, dated as of March 1, 1946, of Jersey Central to First National City Bank, successor to First National City Trust Company (formerly City Bank Farmers Trust Company), Trustee, as heretofore supplemented and amended by a Supplemental Indenture to be dated as of October 1, 1973, and which includes, with certain exceptions, a prohibition until October 1, 1978 against refunding the issue with proceeds of funds borrowed at a lower effective interest cost.

The entire proceeds, excluding premium and accrued interest, realized from the sale of the new bonds ($50,000,000) will be applied to the payment of all or a portion of Jersey Central's short-term bank loans of which approximately $46,800,000 is outstanding. The proceeds of the bank loans which are thus to be prepaid have been or will be used for construction purposes or to reimburse Jersey Central's treasury for expenditures therefrom for construction purposes. Premium relating from the sale of the First Mortgage Bonds will be used for financing the business of Jersey Central, including the payment of expenses in effecting the sale of the bonds. The estimated cost of Jersey Central's 1973 construction program is approximately $205,000,000.

The fees and expenses to be paid by Jersey Central in connection with the issue and sale of bonds are estimated to total $140,000, including legal fees of $28,000. The fees and expenses of counsel for the underwriters, to be paid by the successful bidders, will be supplied by amendment. It is stated that the Board of Public Utility Commissioners of New Jersey has jurisdiction over the proposed issue and sale of bonds by Jersey Central and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than August 29, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[FR Doc.73-16362 Filed 8-7-73;8:45 am]

[31-738]

KEKAHA SUGAR COMPANY, LTD. ET AL.

Notice for Application for Exemption

Notice is hereby given that Kekaha Sugar Company, Limited ("Kekaha"), Oahu Sugar Company, Limited ("Oahu"), Pioneer Mill Company, Limited ("Pioneer"), Puna Sugar Company, Limited ("Puna"), and The Lihue Plantation Company, Limited ("Lihue"), 700 Bishop Street, Honolulu, Hawaii 96813, have filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 2(a)(3)(A) of the Act as applicable. All interested persons are referred to the application, which is summarized below, for a complete statement.

The five companies are wholly-owned subsidiaries of Amfac, Inc., a Hawaii Corporation, and are primarily engaged in the business of planting, cultivating, growing and harvesting sugar cane and processing the same to produce raw sugar and molasses. As a necessary incident to their factory operations, each company owns facilities which it operates to generate electric energy. The companies have come to sell their surplus energy to local public utilities.

None of the electric energy is sold at retail nor is any sold interstate. None of the companies has any plan for additional electric generating capacity.

The number of kilowatt hours of electric energy sold and revenue from water and electric power sales as a percentage of total revenue of each company for the year ended December 31, 1971 are as follows:

Company	KWH Sold	Water and Electric Power Sales	
Kekaha	10,799,000	$120,000	1.27
Oahu	927,000	40,000	0.2
Pioneer	2,129,000	108,000	1.0
Puna	50,170,000	339,000	4.6
Lihue	16,722,000	213,000	1.4

In the absence of an exemption, Kekaha, Oahu, Pioneer, Puna, and Lihue would become "electric utility companies" within the definition contained in section 2(a)(3) of the Act. This would make a "holding company" of Amfac which controls these companies. It is asserted that the companies are and will continue to be primarily engaged in the sugar business and will sell only a small amount of excess electrical energy. Accordingly, the companies believe that it is not necessary in the public interest, or for the protection of investors or consumers that it be considered an electric utility company for the purpose of the Act.

Notice is further given that any interested person may, not later than August 28, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and

V 38 - 152 AUG 8 73 XUM

proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

MIDDLE SOUTH UTILITIES, INC., AND MISSISSIPPI POWER AND LIGHT CO.

Proposed Issue and Sale of First Mortgage Bonds

AUGUST 2, 1973.

Notice is hereby given that Middle South Utilities, Inc. ("Middle South"), 280 Park Avenue, New York, N.Y. 10017, a registered holding company, and Mississippi Power & Light Company ("Mississippi"), P.O. Box 1640, Jackson, MI 39205, its electric utility subsidiary, have filed an application-declaration with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(a), 7, 9(a), 10 and 12(f) of the Act and Rules 43 and 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

Mississippi proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 promulgated under the Act, $20,000,000 principal amount of its First Mortgage Bonds, —— percent Series due September 1, 2003 ("Bonds"). The annual interest rate on the Bonds (which will be a multiple of ⅛ of 1%) and the price, exclusive of accrued interest, to be paid to Mississippi (which will be not less than 100 percent nor more than 102¾ percent of the principal amount thereof) will be determined by the competitive bidding. The Bonds will be issued under Mississippi's Mortgage and Deed of Trust dated as of September 1, 1944 to Irving Trust Company and Frederick G. Herbst (D. W. May, successor), as Trustees, as heretofore supplemented and as to be further supplemented by a Fourteenth Supplemental Indenture to be dated as of September 1, 1973, which includes a prohibition until September 1, 1978, against refunding the Bonds, directly or indirectly, with the proceeds of funds borrowed at a lower effective interest cost.

Prior to the issuance and sale by Mississippi of the Bonds, Mississippi proposes to issue and sell to Middle South, and Middle South proposes to acquire from Mississippi, 435,000 presently authorized but unissued shares of Mississippi's common stock without par value ("Common Stock") at its present stated value of $23 per share, aggregating $10,005,000. Middle South proposes to obtain the funds to effectuate the acquisition of the Common Stock through borrowings from commercial banks.[1]

Mississippi proposes to utilize the net proceeds from the issuance and sale of the Bonds and Common Stock to retire short-term debt outstanding, to finance its construction program (estimated at $99,346,000 for 1973) and for other corporate purposes.

Fees and expenses incident to the proposed transactions are estimated at $80,000, including counsel fees of $24,800 and accountants' fees of $7,500. The fees of counsel for the successful bidders are estimated at $10,000, to be paid by the successful bidders.

The filing states that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than August 24, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[70-5376]

OHIO EDISON CO.

Proposed Issue and Sale of Bonds

AUGUST 2, 1973.

Notice is hereby given, that Ohio Edison Company ("Ohio Edison"), 47 North Main St., Akron, OH 44308, a registered holding company and a public-utility company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act and Rule 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Ohio Edison proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, $75,000,000 principal amount of First Mortgage Bonds — percent Series of 1973 due 2003. The interest rate of the bonds (which will be a multiple of ⅛ of 1 percent and the price, exclusive of accrued interest, to be paid to Ohio Edison (which will be not less than 100 percent nor more than 102¾ percent of the principal amount thereof) will be determined by competitive bidding. The bonds will be issued under Ohio Edison's Indenture dated as of August 1, 1930, to Bankers Trust Company, Trustee, as heretofore amended and supplemented and as to be further amended and supplemented by a Twenty-second Supplemental Indenture to be dated as of the first day of the calendar month in which the bonds are issued, and which includes, with certain exceptions, a prohibition until 5 years after the issuance of the bonds against refunding the issue with proceeds of funds borrowed at a lower effective interest cost.

The proceeds from the sale of the new bonds will be used for the acquisition of property, the construction, completion, extension, renewal, or improvement of Ohio Edison's facilities or for the improvement of its service, or for repayment of unsecured short-term debt, incurred by Ohio Edison estimated to be outstanding at the time of issue in the amount of $23,000,000, or for the reimbursement of its treasury for expenditures made for such purposes.

Ohio Edison requests authority for the authentication and issuance to the Trustee in accordance with the sinking fund provisions on or about November 1, 1973, upon the basis of property additions under Article V of the Mortgage, of an aggregate of $533,000 principal amount of its First Mortgage Bonds, 3¼ percent series of 1955 due 1985; in addition to the $7,973,000 principal amount authorized in File No. 70-5300, (Holding Company Act Release No. 17896) and to withdraw cash which will be used for general corporate purposes.

It is stated that the issuance of the new bonds and the sinking fund bonds is subject to the jurisdiction of the Public Utilities Commission of Ohio and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions. The fees and expenses to be paid in connection with the sinking fund bonds are estimated at $600. The fees and expenses in connection with the new bonds are to be filed by amendment.

Notice is further given that any interested person may, not later than August 29, 1973, request in writing a hearing to be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[812-3449]

OPPENHEIMER A.I.M. FUND, INC.

Filing of Application

AUGUST 2, 1973.

Notice is hereby given that Oppenheimer A.I.M. Fund, Inc. ("Applicant"), One New York Plaza, New York, N.Y. 10004, a Maryland corporation registered under the Investment Company Act of 1940 ("Act") as a diversified open-end management investment company, has filed an application pursuant to section 6(c) of the Act requesting an order of the Commission exempting from the provisions of section 22(d) of the Act a transaction in which Applicant's redeemable securities will be issued at a price other than the current public offering price described in its prospectus in exchange for substantially all of the assets of Berman Beacon Corporation ("BBC"), a New York corporation. All interested persons are referred to the application on file with the Commission for a statement of Applicant's representations which are summarized below.

BBC is an investment company all of whose outstanding stock is owned of record by only three persons and beneficially by only four persons and which is exempt from registration under the Act by reason of the provisions of section 3(c)(1) thereof. Pursuant to an Agreement between Applicant and BBC, substantially all the cash and securities owned by BBC, with a market value of approximately $600,000 on February 28, 1973, will be transferred to Applicant in exchange for shares of Applicant's stock. Applicant is not assuming any of the liabilities of BBC. The number of shares of Applicant's stock to be issued to BBC is to be determined by dividing the aggregate market value of the assets of BBC to be transferred to Applicant by the net asset value per share of Applicant (subject to certain adjustments set forth in the Agreement) both to be determined as of the valuation date. When received by BBC, the shares of Applicant are to be distributed to BBC shareholders and BBC will be dissolved. Applicant states that it has presently no intention of selling any securities it will acquire from BBC.

Applicant states that it has been advised by the management of BBC that the holders of common stock of BBC have no present intention of redeeming or otherwise transferring their legal or beneficial interest in the shares of Applicant to be received by them upon the liquidation of BBC following the transfer of the assets of BBC to the Applicant, other than a transfer of the legal interest in those shares of Applicant to be received to the Alfred Berman Trust ("Trust") which will be established by the BBC shareholders. It is proposed that the Trust in turn will transfer those shares of Applicant to Oppenheimer and Company ("Oppenheimer"), the parent of Applicant's investment adviser, and will become a limited partner of Oppenheimer. The application further states that Oppenheimer represents that it has no present intention to redeem or otherwise transfer the interest of the shares of Applicant to be delivered to it by the Trust.

Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter for such company shall sell any redeemable security to the public except at a current public offering price described in the prospectus.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person or transactions from any provision or provisions of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant offers its shares to the public, pursuant to its prospectus, for cash at a price equal to the net asset value per share plus varying sales charges dependent upon the quantity of shares purchased, the maximum sales charge being 8.5 precent of the offering price. In support of its application, Applicant alleges that the proposed transaction will enable it to obtain portfolio securities without payment of brokerage commissions and also will increase the size of Applicant which, in the opinion of the Applicant, will tend to reduce the per share expenses of Applicant. Applicant also states that no affiliation presently exists between BBC or its officers, directors or stockholders and Applicant, its officers or directors, and that the Agreement was negotiated at arms length by the two companies.

Notice is further given that any interested person may, not later than August 27, 1973, at 5:30 p.m., submit to the Commission, in writing, a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commisison upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in the matter, including the date of the hearing, if ordered, and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[Release No. 34-10312; File No. S7-490]

OPTION TRADING BY SPECIALISTS, MARKET MAKERS, FLOOR TRADERS, AND BLOCK POSITIONERS

Commission Review and Request for Comments

The Commission announced that it has under review and is requesting public

[1] Middle South has filed with this Commission a declaration, File No. 70-5366, in which it is proposed that Middle South borrow up to $30,000,000 from a group of commercial banks, under terms of a $135,000,000 revolving credit agreement dated as of July 1, 1973.

V 38 152 AUG 8 73 XUM

comment on the question of whether specialists, market makers, floor traders and block positioners should be permitted to trade or otherwise have an interest in options (puts and calls) in any securities in which they are registered, make a market, or trade for their own accounts on exchanges, either from on or off the floor in the over-the-counter market.

In 1935 all the national securities exchanges adopted, at the Commission's request, a rule which provided that no specialist or odd-lot dealer, and no firm of which such specialist or odd-lot dealer is a participant, and no partner of such firm, shall acquire, hold or grant, directly or indirectly, any interest in a put, call, straddle, or option in any security in which such specialist, or odd-lot dealer is registered.[1] All the national securities exchanges also prohibited any other member while on the floor from initiating the purchase or sale on the exchange, for any account in which he or his firm or any participant therein is interested, of any stock in which he, his firm or any participant holds or has granted an option.

These rules came about because of abuses in the use of the option device in the operations of manipulative "pools" during the late 1920's and early 1930's.[2] It was the general consensus of the commentators at the time of the passage of the Securities Exchange Act of 1934 that the "option" enable "manipulators of every sort" "to carry on large-scale operations with a minimum of financial risk."[3] Although such abuses were not limited to pool operations, the granting of an option to pools or their confederates was fund to be at the very heart of most of these manipulative operations. The specialist's services in particular were considered invaluable to the pool managers.[4]

Because of the actual and potential abuses, the original drafts of the Securities Exchange Act would have outlawed the purchase or sale of options through an exchange or in connection with exchange-traded securities. Apparently, however, Congress decided that it was virtually impossible for it to distinguish between a "good" and a "bad" option, and, rather than prohibiting all such options, gave the Commission broad power to regulate their trading under sections 9(b) and (c) of the Securities Exchange Act of 1934.[5] The Commission has not used this rule making authority until quite recently.[6] Self-regulation, including the above exchange rules, was relied on instead; and the Commission believes that, partly as a result of such action by the exchanges, pool-type activities have been substantially curtailed.

Several firms, presently doing business on other exchanges as specialists or market makers have applied for memberships on the new Chicago Board Options Exchange (CBOE) to operate as market makers, board brokers or floor brokers.[7] Some of these other exchanges have therefore been considering changes in their rules to permit such firms to act (and continue to act) on their exchanges as specialists, market makers or floor traders in the same securities that underly options in which such firms would act as dealers on the CBOE, and perhaps elsewhere.[8] The Commission's Division of Market Regulation has asked those exchanges not to change their rules to permit such activities until such time as the Commission completes its own review of this matter.

In its review the Commission will also consider the role of option trading and its relation to the developing of a central market system for listed securities.[9]

At the time of the hearings on the Securities Exchange Act, there was little discussion of possible regulation of transactions in options relating to over-the-counter securities. However, with the recent advent of NASDAQ (the National Association of Securities Dealers, Inc.'s automated quotation system), which for the first time enables broadcasting of quoted prices of over-the-counter securities on a real time basis, manipulation similar to those encountered on the exchanges prior to 1934 may be possible. The Commission, therefore, is interested in determining whether or not over-the-counter market makers in listed and in unlisted securities should likewise be restricted in their dealings in options relating to the same securities in which they make markets.[10]

Accordingly, the Commission invites comments on the questions of whether and to what extent, the various participants in the exchange and over-the-counter markets whose activities may effect the pricing mechanism of securities traded therein should be permitted to have an interest in options in the same securities. Commentators should address themselves to the following considerations, among others:

1. The possibility that such dealing might create for a participant a conflict of interest which would likely impair the maintenance of fair and orderly markets in the underlying securities where the participant is (a) a specialist, (b) an odd-lot dealer, (c) a floor trader, (d) a market maker in listed securities on an exchange and/or a third market maker, (e) a market in the over-the-counter securities, or (f) a block positioner in listed and unlisted securities;

2. The relevance and significance of changed market conditions, since the passage of the Securities Exchange Act, including changes that have taken place in the structure of exchange and over-the-counter markets (such as the relative "institutionalization" of the markets);

3. The future development of a central market system;

4. The significance of the differences, if any, among various categories of members on regional and primary exchanges, including differences with respect to their abilities to affect the pricing mechanism of a given security, and the nature of their respective contributions to the markets;

5. The adequacy of present or potential regulatory controls to prevent misuse of options in the even present restrictions were relaxed.

All interested persons are invited to submit their views and comments on the foregoing issues. Written statements of views and comments should be addressed to Ronald F. Hunt, Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, on or before September 29, 1973. Reference should be made to file number S7-490. All such communications will be available for public inspection.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

AUGUST 1, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

V 38-152 AUG 8 73 XUM

It is ordered, Pursuant to sections 15 (c)(5) and 19(a)(4) of the Securities Exchange Act of 1934, that trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from August 2, 1973 through August 11, 1973.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

UTAH POWER & LIGHT CO.

Proposed Issue and Sale of Common Stock at Competitive Bidding

AUGUST 2, 1973.

Notice is hereby given that Utah Power & Light Company ("Utah"), 1407 West North Temple St., P.O. Box 899, Salt Lake City, UT 84110, an electric utility company and a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act and Rule 50 thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Utah proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, 800,000 shares of its authorized but unissued common stock, par value $12.80 per share. Utah proposes to use the estimated $30,000,000 in proceeds from the sale of the common stock to pay a portion of its outstanding short-term promissory notes (said notes aggregating approximately $35,000,000 as of September 18, 1973), the proceeds of which are being used for the company's construction program, estimated at $103,000,000 for 1973 and $64,000,000 in 1974.

The declaration states that the Wyoming Public Service Commission and the Idaho Public Utilities Commission have jurisdiction over the proposed transaction and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction. Fees and expenses to be incurred in connection with the proposed transaction are to be supplied by amendment.

Notice is further given that any interested person may, not later than August 28, 1973, request in writing that a hearing be held in respect of such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified should the Commission order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

SMALL BUSINESS ADMINISTRATION

[License No. 02/02-0005]

FRANKLIN CORP.

Approval of Application

Pursuant to the provisions of § 107.701 of the Small Business Administration (SBA) rules and regulations (13 C.F.R. Part 107.701 (1973)), a notice of filing of an application for transfer of control of The Franklin Corporation, License No. 02/02-0005, One Rockefeller Plaza, Suite 2614, New York, New York 10020, was published in the FEDERAL REGISTER on May 25, 1973 (38 FR 13787).

Interested persons were given an opportunity to send their comments to SBA on the proposed transfer of control.

Upon consideration of the application and other relevant information, SBA hereby approves the transfer of control of the Franklin Corporation, subject to any other Federal or State approval which may be necessary.

Dated: August 1, 1973.

[Declaration of Disaster Loan Area 1007]

IOWA

Declaration of Disaster Loan Area

Whereas, it has been reported that during the months of June and July 1973, because of the effects of a certain disaster, damage resulted to residences and business property located in the State of Iowa;

Whereas, the Small Business Administration has investigated and has received reports of other investigations of conditions in the areas affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act, as amended;

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Carroll, Dallas, Greene, Guthrie and Polk Counties, Iowa, and adjacent affected areas, suffered damage or destruction resulting from flooding caused by severe storms, heavy rain and flooding occurring June 30 through July 9, 1973. Applications will be processed under the provisions of Public Law 93-24.

OFFICE

Small Business Administration, District Office, 210 Walnut Street, Des Moines, Iowa 50309.

2. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to September 25, 1973.

Dated: July 27, 1973.

[Notice of Disaster Loan Area 995; Amdt. 4]

OKLAHOMA

Amendment To Notice of Disaster Relief Loan Availability

As a result of the President's declaration of the State of Oklahoma as a major disaster area following severe storms and flooding beginning on or about April 1, 1973, applications for disaster relief loans will be accepted by the Small Business Administration from flood and tornado victims in the following additional counties: Mayes and Le Flore. (See 38 FR 16813, 38 FR 18415, 38 FR 19295 and 38 FR 19939).

The purpose of this amendment is only for Mayes County for the period April 1, 1973 to May 7, 1973, and Mayes and Le Flore Counties for the period May 24, 1973 to May 27, 1973. Applications will be processed under the provisions of Public Law 92-385 where damages occurred prior to April 20, 1973. Applications will be processed under the provisions of Public Law 93-24 where damages occurred April 20, 1973, and thereafter.

Applications may be filed at the:

Small Business Administration, District Office, 30 North Hudson, Oklahoma City, Oklahoma 73102.

and at such temporary offices as are established. Such addresses will be announced locally.

Applications for disaster loans under this announcement must be filed not later than September 18, 1973.

Dated: July 26, 1973.

DEPARTMENT OF LABOR

Wage and Hour Division

CERTIFICATES AUTHORIZING THE EMPLOYMENT OF FULL-TIME STUDENTS WORKING OUTSIDE OF SCHOOL HOURS AT SPECIAL MINIMUM WAGES IN RETAIL OR SERVICE ESTABLISHMENTS OR IN AGRICULTURE

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulation on employment of full-time students (29 CFR Part 519), and Administrative Order No. 621 (36 FR 12819), the establishments listed in this notice have been issued special certificates authorizing the employment of full-time students working outside of school hours at hourly rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. While effective and expiration dates are shown for those certificates issued for less than a year, only the expiration dates are shown for certificates issued for a year. The minimum certificate rates are not less than 85 percent of the applicable statutory minimum.

The following certificates provide for an allowance not to exceed the proportion of the total hours worked by full-time students at rates below $1 an hour to the total number of hours worked by all employees in the establishment during the base period in occupations of the same general classes in which the establishment employed full-time students at wages below $1 an hour in the base year; or provide the same standards authorized in certificates previously issued to the establishment.

The following certificates issued to establishments permitted to rely on the base-year employment experience of others were either the first full-time student certificates issued to the establishment, or provide standards different from those previously authorized. The certificates permit the employment of full-time students at rates of not less than 85 percent of the applicable statutory minimum in the classes of occupations listed, and provide for the indicated monthly limitations on the percentage of full-time student hours of employment at rates below the applicable statutory minimum to total hours of employment of all employees.

Bill Crook's Food Town, food store; Nashville, TN; bagger, stock clerk; 10 to 11 percent; 6–3–74.

Chets Town and Country, food store; Willmar, MN; carry out, stock clerk; 19 to 23 percent; 6–10–74.

Edward & Anthony Pharmacy, food store; 6510 O'Donnell Street, Baltimore, MD; sales-clerk, delivery clerk; 15 to 33 percent; 5–31–74.

Garden Valley Motel, motel; 2860 South Circle Drive, Colorado Springs, CO; general restaurant worker, salesclerk, housekeeper; 5 to 20 percent; 5–29–74.

Jacques Petite of Eastland Mall, restaurant; G–4218 East Court Street, Flint, MI; general restaurant worker; 49 to 77 percent; 5–1–74.

King's Food Host, USA, restaurant; 1505 Lincoln Avenue, Loveland, CO; general restaurant worker; 10 to 25 percent; 5–21–74.

Minyard Food Stores, Inc., food store; 550 East Wheatland, Duncanville, TX; package clerk, salesclerk; 11 to 16 percent; 6–11–74.

Piggy Wiggly, food store; No. 18, Columbus, GA; bagger, carry out, stock clerk, janitorial; 10 to 13 percent; 5–20–74.

Thiesen's Dairy Queen, restaurant; 609 Lafayette, St. Louis, MO; general restaurant worker; 31 to 63 percent; 5–31–74.

Windsor Care Center, nursing home; 2305 Crescent Drive, Cedar Falls, IA; nurse's aide, kitchen helper, housekeeper, office clerk; 6 to 17 percent; 5–30–74.

Each certificate has been issued upon the representations of the employer which, among other things, were that employment of full-time students at special minimum rates is necessary to prevent curtailment of opportunities for employment, and the hiring of full-time students at special minimum rates will not create a substantial probability of reducing the full-time employment opportunities of persons other than those employed under a certificate. The certificate may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof on or before September 7, 1973.

Signed at Washington, D.C. this 1st day of August 1973.

DONALD T. CRUMBACK,
Authorized Representative of the Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice 314]

ASSIGNMENT OF HEARINGS

AUGUST 3, 1973.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

No amendments will be entertained after the date of this publication.

No. 35782, Board of Trade of the City of Chicago-V-Burlington Northern, Inc., Et Al, now assigned hearing October 1, 1973, at Chicago, Ill., is cancelled.

MC–119631 Sub 20, Deloma Trucking Company, now assigned August 29, 1973, at Washington, D.C., is cancelled and transferred to Modified Procedure.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Ex Parte No. 295]

CLASS I RAILROADS

Increased Freight Rates and Charges, 1973, Nationwide

AUGUST 3, 1973.

It appearing that on June 29, 1973, substantially all of the Class I railroads and numerous other carriers filed schedules of increased rates and charges under authority of section 6 of the Interstate Commerce Act and the Commission's Special Permission Order No. 73–4700, of June 11, 1973, as amended, said tariff schedules having been filed subject to possible investigation and suspension and bearing an effective date of July 29, 1973, postponed by tariff supplement until August 13, 1973, in accordance with price stabilization requirements, as follows:

TARIFF OF INCREASED RATES AND CHARGES, X–295, issued jointly by Western Trunk Line Committee, Agent, its I.C.C. No. A–4885, and other designated agents: Tariff X–295 and Supplements Nos. 1, 2, 3, 4, and 5 thereto:

It further appearing, that by petition and verified statements dated April 20, 1973, as amended May 9, 1973, the above carriers requested the issuance of orders granting relief from outstanding orders entered by the Commission, relief from section 4 of the Act, and all other relief necessary to permit the proposed general increases to become effective, subject to the condition that refund be made in the event that any increases (including interim increases) resulting from the application of the tariff exceeded the increases subsequently approved or prescribed by the Commission.

It further appearing, that interested parties were permitted to file replies to the railroads' petition on or before May 21, 1973, and that protests [1] and requests for suspension of the tariff schedules, as well as replies thereto, were subsequently filed on or before July 17 and July 20, 1973, respectively;

It further appearing, that the proposed increases are not applicable to commodities transported for recycling purposes;

It further appearing, that insofar as increases are hereinafter authorized, pending investigation, said increases will not have a significant adverse effect upon the quality of the human environment within the meaning of the National Environmental Policy Act of 1969;

It further appearing, that rate increases for commodities or services provided by a public utility are exempt from the Cost of Living Council's proposed Phase IV regulations (6 C.F.R. § 150.56; 38 F.R. 19472, July 20, 1973), but that economic stabilization considerations and guidelines have been taken into account herein, and that the increases, to the extent authorized, are in the aggregate cost-justified and do not reflect future inflationary expectations, will not increase rate of return on capital, and are the minimum required to assure continued, adequate and safe service or to provide for necessary expansion to meet future requirements, recognizing in this regard expected and obtainable productivity gains which, however, are not in the aggregate of sufficient magnitude to offset the carriers' demonstrated needs for additional revenues to meet increased operating expenses;

And it further appearing, that the Commission having considered the evidence and arguments of the parties as set forth in verified statements, replies, and protests, there is reason to believe from preliminary review that the schedules as filed would, if permitted to become effective, result in rates and charges which would be unjust and unreasonable and otherwise unlawful under the Interstate Commerce Act, therefore:

It is ordered, That the operation of the following schedules be, and it is hereby, suspended, and that the use thereof in interstate and foreign commerce be deferred to and including March 12, 1974, unless otherwise ordered by the Commission:

TARIFF OF INCREASED RATES AND CHARGES, X–295, issued jointly by Western Trunk Line Committee, Agent, its I.C.C. No. A–4885, and other designated agents: Tariff X–295 and Supplements Nos. 1, 2, 3, 4, and 5 thereto:

It is further ordered, That the carriers which are parties to this proceeding, be, and they are hereby, authorized to establish upon not less than 15 days' notice to the Commission and the public by filing and posting in the manner prescribed in the Interstate Commerce Act, an increase in rates and charges not to exceed 3 percent (except for disposition of fractions) subject to maximums no higher than specified in the suspended tariff of increased rates and charges, X–295, or in connecting link supplements proposed to be made subject to said tariff, X–295, and in no event to produce greater revenue in connection with any rate or charge on any particular commodity or service than proposed in X–295, and subject further to a refund provision the same as set forth in the aforesaid tariff of increased rates and charges, X–295, but providing for six (6) percent interest;

It is further ordered, That the rate increases herein authorized, pending investigation, shall be subject to the following limitations and holddowns:

(1) *Grain and grain products.* As in tariff X–295, grain rate increase tables shall progress in one-half cent increments.

(2) *Meats and packinghouse products.* On meats and packinghouse products, the rates may not be increased prior to September 12, 1973.

(3) *Petrolcum and coal coke.* On petroleum and coal coke and petroleum, coal or coke briquettes, the rate increase shall not exceed the increase on bituminous coal.

(4) *Salt cake.* On salt cake (sodium sulfate), the rate increase on movements to Southern Territory shall not exceed the increase on caustic soda within Southern Territory.

(5) *Fresh and processed fruits and vegetables.* On fresh and processed fruits and vegetables, including dry edible beans, potatoes and onions, the rate increase shall not exceed 6 cents per hundred pounds.

(6) *Walnuts, shelled or unshelled.* The rate increase on walnuts shall not exceed 6 cents per hundred pounds.

(7) *Foodstuffs, canned or preserved.* On foodstuffs, canned or preserved, the rate increase shall not exceed 6 cents per hundred pounds.

It is further ordered, That an investigation be, and it is hereby, instituted into and concerning the lawfulness of all the rates, charges, and regulations which were contained in the suspended schedules, as aforesaid, as well as the schedules herein authorized to be filed, with a view to making such findings and orders in the premises as the facts and circumstances shall warrant, all the said schedules to be subject to refund provision;

It is further ordered, That no oral hearing is contemplated and a report upon investigation will be issued upon the record as made, including for this purpose protests as well as replies and verified statements, except that, the railroads having filed a brief herein on July 20, 1973, other parties should be afforded a similar opportunity and accordingly any party to these proceedings (other than the carriers) may file a brief on or before August 24, 1973. Such filing is not required, and no new evidence shall be included therein;

It is further ordered, That in making effective any increases in rates and charges herein authorized, the carriers parties to this proceeding be, and they are hereby, required to maintain and preserve all existing port relationships (including those involving Great Lakes and Pacific Coast ports) duly established by order of the Commission or recognized customs of the trade, and to observe the prohibitions of the Interstate Commerce Act with regard to unjust discrimination and undue and unreasonable preference and prejudice;

It is further ordered, That copies of any tariff filed hereunder shall be transmitted by first-class mail to all parties at the same time as the official filing at the Commission;

And it is further ordered, That all outstanding orders of the Commission be, and they are hereby, modified to permit the increases authorized herein to become effective.

[1] Including a late-filed protest of the Colorado Meat Dealers Association which has been accepted for filing pursuant to its petition for leave to file and a supplementary protest of the American Meat Institute.

V 38-152 AUG 8 73 XUM

[Fourth Section Order No. 20434]

It appearing, that carriers parties to the proceeding applied for relief from the provisions of section 4 of the Act necessary to establish the rates and charges originally sought; that the increases in rates and charges authorized herein cannot be published and made effective without producing in some instances rates or charges that yield greater compensation in the aggregate for the transportation of like kind of property for a shorter than for a longer distance over the same line or route in the same direction, or greater compensation as a through rate or charge than the aggregate-of-intermediate rates or charges subject to the Act, in contravention of section 4 thereof; that the increased cost of railroad operation necessitates the increases in rates and charges involved in this proceeding which cannot be made effective without fourth-section relief; that application of the increased charges to or from more distant points will not result in the establishment of rates to or from more distant points that are not reasonably compensatory; that no protestant adequately opposed issuance of the fourth-section relief sought on the ground that it would be adversely affected by the fourth-section departures that may be created by the increased rates; and that a special case has been presented in which the Commission may authorize relief from the provisions of section 4:

It is ordered, That carriers subject to the Interstate Commerce Act and parties to said proceeding be, and they are hereby, authorized to establish and maintain the increased rates and charges described herein without observing the provisions of section 4 of the Act;

It is further ordered, That parties to said proceeding be, and they are hereby, authorized to establish and maintain rates and charges permitted to become effective in this order without observing the long-and-short haul provisions of section 4 of the Act in cases arising out of the failure to apply the full increases in rates and charges over interstate routes between points in a single State, in turn caused by the failure of the State authorities to authorize the full increases permitted in this proceeding;

And it is further ordered, That in those instances in which rates in contravention of section 4 are established under authority contained herein, the schedule containing such rates shall make reference to this order in the manner required by rule 28 of Tariff Circular No. 20.

AMENDMENT TO SPECIAL PERMISSION NO. 73-4700, AS AMENDED, AUTHORIZING CERTAIN DEPARTURES FROM THE COMMISSION'S PUBLISHED TARIFF REGULATIONS

It is ordered, That Special Permission No. 73-4700, as amended, be, and it is hereby, amended to permit the establishment of the increases in freight rates and charges authorized by the Commission in this order, subject to the terms, conditions and limitations provided therein.

By the Commission.

[No. MC 34778]

COCHRAN TERMINAL AND TRANSPORTATION CO.

Filing of Petition for Modification, Clarification, and Amendment of Certificate

JULY 17, 1973.

Petitioner: COCHRAN TERMINAL AND TRANSPORTATION CO. Bloomfield, N.J. Petitioner's representative: George A. Olsen 69 Tonnele Avenue Jersey City, N.J. 07306 Petitioner holds a certificate in No. MC-34778 authorizing it to perform service in interstate or foreign commerce, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods, as defined by the Commission, commodities in bulk, and those requiring special equipment), between points in New York, N.Y. By the instant petition, petitioner requests that an order be entered (a) to amend its certificate to read: Between points in the New York, N.Y. commercial zone, as described by the Commission in the report in *New York, N.Y., Commercial Zone*, 1 M.C.C. 665, or (2) the Commission issue an appropriate order that the petitioner be empowered and permitted to designate as its terminal area, all points within which local operations may be conducted in the New York, N.Y., commercial zone as defined by the Commission.

No oral hearing is contemplated at this time, but anyone wishing to make representations in favor, or against, the relief sought in the petition may do so by the submission of written data, views, or arguments. An original and fifteen copies of such data, views, or arguments shall be filed with the Commission on or before October 8, 1973. A copy of each representation should be served upon petitioner's representative. Written material or suggestions submitted will be available for public inspection at the Offices of The Interstate Commerce Commission, 12th and Constitution, Washington, D.C., during regular business hours.

Notice to the general public of the matter herein under consideration will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection and by filing a copy thereof with the Director, Office of the Federal Register.

By the Commission.

FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

AUGUST 3, 1973.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's Rules of Practice, published in the FEDERAL REGISTER, issued of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

Applicant: McLAUGHLIN DRAYING CO. P.O. Box 1797 Sacramento, Calif. 95808 Applicant's representative: Raymond A. Greene, Jr. 100 Pine Street, Suite 2550 San Francisco, Calif. 94111 Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, except as hereinafter provided: Part I: (1) Between all points and places in the San Francisco Territory as described in Part II. (2) Between all points and places on or within 20 miles of the following routes: (a) Interstate Highway 80 between Roseville and San Francisco, inclusive; (b) State Highway 21 between its intersection with Interstate Highway 80 and its intersection with Interstate Highway 680; inclusive; (c) Interstate Highway 680 between its intersection with Interstate Highway 80 and its intersection with State Highway 17, inclusive; (d) State Highway 24 between Oakland and its intersection with Interstate Highway 680, inclusive; (e) Interstate Highway 580 between Oakland and its intersection with Interstate Highway 205, inclusive; (f) Interstate Highway 205 between its intersection with Interstate Highway 580 and U.S. Highway 50, inclusive; (g) U.S. Highway 50 between its intersection with Interstate Highway 205 and Sacramento, inclusive; (h) State Highway 4 between its intersection with Interstate Highway 80 and Stockton, inclusive. In performing the service herein authorized, applicant may make use of any and all streets, roads, highways and bridges necessary or convenient for the performance of said service. Part II: SAN FRANCISCO TERRITORY includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Boundary Line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Company right of way at Arastradero Road; southeasterly along the Southern Pacific Company right of way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to E. Parr Avenue; easterly along E. Parr Avenue to the Southern Pacific Company right of way; southerly along the Southern Pacific Company right of way to the Campbell-Los Gatos city limits; easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101 to Tully Road; northeasterly along Tully Road to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs; northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga Avenue to Estates Drive; westerly along Estates Drive, Harbord Drive and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland boundary line; northerly along said boundary line to the campus boundary of the University of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway 40 to and including the City of Richmond; southwesterly along the highway extending from the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco Waterfront at the foot of Market Street; westerly along said waterfront and shore line to the Pacific Ocean; southerly along the shore line of the Pacific Ocean to point of beginning. EXCEPT THAT applicant shall not transport any shipments of: (1) Used household goods and personal effects not packed in accordance with the crated property requirements set forth in paragraph (d) of Item No. 10-C of Minimum Rate Tariff No. 4-A. (2) Automobiles, trucks and buses, viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxies; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis. (3) Livestock, viz.: bucks, bulls, calves, cattle, cows, dairy cattle, ewes, goats, hogs, horses, kids, lambs, oxen, pigs, sheep, sheep camp outfits, sows, steers, stags or swine. (4) Liquids, compressed gases, commodities in semiplastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers, or a combination of such highway vehicles. (5) Commodities when transported in bulk in dump trucks or in hopper-type trucks. (6) Commodities when transported in motor vehicles equipped for mechanical mixing in transit. (7) Cement. (8) Logs. (9) Commodities of unusual or extraordinary value. Intrastate, interstate and foreign commerce authority sought.

HEARING: Date, time and place not shown. Requests for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif. 94102, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[Notice 28]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

AUGUST 3, 1973.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(c)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4 (c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(c)(12) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC-2245 (Deviation No. 5), THE O. K. TRUCKING COMPANY, 3000 East Crescentville Road, Cincinnati, Ohio 45241, filed July 25, 1973. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From Columbus, Ohio, via Interstate Highway 70, to Indianapolis, Ind., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Columbus, Ohio, over Interstate Highway 71 to Cincinnati, Ohio, thence over U.S. Highway 50 to Versailles, Ind., thence over U.S. Highway 421 to Indianapolis, Ind., and return over the same routes.

No. MC-30605 (Deviation No. 23), THE SANTA FE TRAIL TRANSPORTATION COMPANY, 433 East Waterman, Wichita, Kansas 67201, filed July 25, 1973. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From the junction of U.S. Highways 66 and 75, 9 miles south and west of Tulsa, Oklahoma, over U.S. Highway 75 to its junction with Indian Nation Turnpike, thence over Indian Nation Turnpike to its junction with U.S. Highway 69, thence over U.S. Highway 69 to its junction with U.S. Highway 75, thence over U.S. Highway 69 and 75 to Dallas, Texas, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: (1) from Tulsa, Okla., over U.S. Highway 66 to Oklahoma City, Okla., serving all intermediate points, (2) from Oklahoma City, Okla., over U.S. Highway 77 via Norman, Purcell, Pauls Valley, Davis, Springer, and Ardmore, Okla., to Marietta, Okla., serving all intermediate points, (3) from Marietta, Okla., over U.S. Highway 77 (Interstate Highways 35 and 35E) to Dallas, Tex., serving no intermediate points, but serving the junction of U.S. Highways 77 and 377 (Interstate Highways 35 and 35E) for the purpose of joinder only, and (4) from junction U.S. Highway 77 (Interstate Highways 35 and 35E) and U.S. Highway 377 over U.S. Highway 377 to Fort Worth, Tex., serving no intermediate points, and return over the same routes.

By the Commission.

V 38 - 152 AUG 8 73 XUM

[Notice No. 330]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before August 28, 1973.

Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74350. By order of August 1, 1973, the Motor Carrier Board approved the transfer to Victor L. Lange, doing business as Lange Truck Lines, Pleasanton, Texas, of the operating rights in Certificate No. MC-26051 and Certificate of Registration No. MC 26051 (Sub-No. 4) issued June 22, 1970 to Boerne Truck Lines, Inc., San Antonio, Texas, authorizing the transportation of general commodities, with exceptions, between Boerne and San Antonio, Tex. and evidencing a right to engage in transportation in interstate commerce as described in Common Carrier Motor Carrier Permanent Certificate of Convenience and Necessity No. 2650 issued by the Railroad Commission of Texas. Wallace H. Nations, 904 Lavaca St., Austin, Texas 78767 Attorney for applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.73-16393 Filed 8-7-73;8:45 am]

[Notice 61]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

AUGUST 3, 1973.

The following publications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be significant effect on the quality of the human environment resulting from approval of its application), are governed by the new Special Rule 1100.247 of the Commission's Rules of Practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 128868 (Sub-No. 3) (REPUBLICATION) filed December 5, 1972, published in the FR issue of January 26, 1973, and republished this issue.

Applicant: TEXAS CONSTRUCTION SERVICE COMPANY OF AUSTIN, a Corporation, Route No. 2, Box 78-A, Round Rock, TX 78664 Applicant's representative: Joe T. Lanham 1102 Perry-Brooks Building Austin, TX 78701 An Order of the Commission, Operating Rights Board, dated July 11, 1973, and served July 27, 1973, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, of *lime*, in bulk, in tank or hopper type vehicles, (1) from the plant site of McDonough Bros., Inc., at or near San Antonio, Tex., to points in Louisiana, New Mexico, and Oklahoma; (2) from the plant site of United States Gypsum Company at or near New Braunfels, Tex., to points in Louisiana, New Mexico, and Oklahoma; (3) from the plant site of Austin White Lime Company, at or near McNeil, Tex., to points in Oklahoma; (4) from the plant site of Round Rock Lime Company, at or near Blum, Tex., to points in Louisiana, New Mexico, and Oklahoma; and (5) from the plant site of Chemical Lime, Inc., at or near Clifton, Tex., to points in Louisiana, New Mexico, and Oklahoma; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; and that an appropriate certificate should be issued. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 128870 (Sub-No. 2) (REPUBLICATION) filed December 5, 1972, published in the FR issue of January 26, 1973, and republished this issue.

Applicant: NATIONAL MATERIALS CORPORATION P.O. Box 187 New Braunfels, TX 78130 Applicant's representative: Joe T. Lanham 1102 Perry-Brooks Building Austin, TX 78701 An Order of the Commission, Operating Rights Board, dated July 11, 1973, and served July 27, 1973, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, of *lime*, in bulk, in tank or hopper type vehicles, (1) from the plant site of McDonough Bros., Inc., at or near San Antonio, Tex., to points in Louisiana, New Mexico, and Oklahoma; (2) from the plant site of United States Gypsum Company, at or near New Braunfels, Tex., to points in Oklahoma; (3) from the plant site of Austin White Lime Company, at or near McNeil, Tex., to points in Louisiana, New Mexico, and Oklahoma; (4) from the plant site of Round Rock Lime Company, at or near Blum, Tex., to points in Louisiana, New Mexico, and Oklahoma; and (5) from the plant site of Chemical Lime, Inc., at or near Clifton, Tex., to points in Louisiana, New Mexico, and Oklahoma; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; and that an appropriate certificate should be issued. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 136664 (Sub-No. 1) (REPUBLICATION) filed January 29, 1973, published in the FR issue of March 15, 1973, and republished this issue. Applicant: NORTH AMERICA MOVERS OF N. C. INC. 16 Piney Park Road Asheville, N.C. 28806 Applicant's representative: Howard E. Frazier (same address as applicant) An Order of the Commission, Operating Rights Board, dated July 6, 1973, and served July 23, 1973 finds that operation by applicant, in interstate or foreign commerce, as a *contract carrier*, by motor vehicle, over irregular routes, of *telephone equipment, materials, and supplies*, between Asheville, N. C., on the one hand, and, on the other, points in Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, Macon, Madison, Polk, Swain, and Transylvania Counties, N.C., under a continuing contract or contracts with Western Electric Company, Inc., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able to properly perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; that an appropriate permit should be issued. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

NOTICES OF FILING PETITIONS

No. MC 18259 (Sub-No. 2) (NOTICE OF FILING OF PETITION TO MODIFY PERMIT) filed July 17, 1973. Petitioner: JACKSON DISTRIBUTION CORP. 348 W. Fayette Street Syracuse, N.Y. 13202 Petitioner's representative: Norman M. Pinsky 345 South Warran Street Syracuse N.Y. 13202 Petition presently holds a motor *contract carrier* permit in No. MC-18259 (Sub-No. 2) issued November 25, 1970, authorizing transportation, over irregular routes, of *such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, and, in connection therewith, *equipment materials, and supplies* used in the conduct of such business, from Syracuse, N.Y., to points in St. Lawrence, Franklin, Steuben, Schulyer, Chemung, Tioga, Broome, Chenango, Delaware, Otsego, Schoharie, Montgomery, Fulton, Herkimer and Schenectady Counties, N.Y., and points in Bradford and Susquehanna Counties, Pa., under a continuing contract or contracts with the following shipper: Sugardale Foods, Inc., Canton, Ohio, Hygrade Food Products Corporation, Detroit, Mich., Geo A. Hormel & Company, Austin, Minn., Armour and Company, Chicago, Ill., Escro Storage & Cartage, Inc., Buffalo, N.Y., Missouri Beef Packers, Inc., Rock Port, Mo., Spencer Packing Co., Spencer, Iowa, Wilson & Company, Syracuse, N.Y., John Morrell & Co., Otumway, Iowa, American Beef Packers, Oakland, Iowa, The Rath Packing Company, Waterloo, Iowa. Dubuque Packing Company, Dubuque, Iowa, South Chicago, Packing Co., Chicago, Ill., The Frank Tea & Spice Co., Cincinnati, Ohio, and Chelsea Milling Co., Chelsea, Mich. By the instant petition, petitioner seeks to: (a) delete The Frank Tea & Spice Co. and Chelsea Milling Co. as contracting shippers, and (b) add Loblaw Stores, Inc. as an additional contracting shipper. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 114115 (Sub-No. 22) (NOTICE OF FILING OF PETITION TO MODIFY A COMMODITY DESCRIPTION) filed July 19, 1973. Petitioner: TRUCKWAY SERVICE, INC. 1099 Oakwood Blvd. Detroit, Mich. 48217 Petitioner's representative: James R. Stiverson 50 West Broad Street Columbus, Ohio 43215 Petitioner presently holds a motor *contract carrier* permit in No. MC-114115 (Sub-No. 22) issued June 22, 1971, authorizing transportation, over irregular routes, of *salt*, from the facilities of the Morton Salt Company, Division of Morton International, Inc., at Milo, N.Y., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, Ohio, Pennsylvania, Rhode Island, Virginia, West Virginia and the District of Columbia, restricted to a transportation service to be performed under a continuing contract or contracts with Morton Salt Company, Division of Morton International, Inc., of Chicago, Ill. By the instant petition, petitioner seeks to modify its commodity description to include *salt products* in the authority described above. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 126528 (NOTICE OF FILING OF PETITION TO MODIFY PERMIT BY ADDING AN ADDITIONAL ORIGIN AND SHIPPER) filed July 23, 1973. Petitioner: BULK HAULERS, INC. P.O. Box 407 Airport Road Nashua, N.H. 03060 Petitioner's representative: T. J. O'Laughlin, Jr. (Same address as petitioner) Petitioner presently holds a motor *contract carrier* permit in No. MC 126528 issued May 10, 1965, authorizing transportation, by motor vehicle, over irregular routes, of *pig iron*, in dump vehicles, from the plant site of the United States Steel Corporation located at Nashua, N.H., to points in Connecticut, Maine, Massachusetts, Rhode Island, and Vermont, under a continuing contract with the United States Steel Corporation. By the instant petition, petitioner seeks to: (a) include as a point of origin the "plant site of The Hanna Furnace Corporation", and (b) add The Hanna Furnace Corporation at Nashua, N.H. as an additional contracting shipper. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC-FC-74342. Authority sought by transferee, 160 W. Master St., Inc., 160 W. Master Street, Philadelphia, Pa. 19122, formerly Hilda Pflaumer, 1735 N. 10th St., Philadelphia, Pa. 19122, for purchase of the operating rights of transferor, Trip Transport, Inc., 3301 South Galloway Street, Philadelphia, Pa. 19148. Applicant's representative: James H. Sweeney, 850 Charles St. Gloucester City, N.J. 08030. Operating rights in Certificate No. MC-42087 sought to be transferred: various specified commodities, from, to, or between points in New Jersey, Maryland, Pennsylvania, Delaware, and New York.

The subject application under section 212(b) of the Interstate Commerce Act is to be assigned for hearing at a time and place to be fixed, for the purpose of determining, among other things, whether transferee is the real party in interest and if so, whether it is fit, willing, and able properly to perform operations under the rights sought to be acquired; and whether the application otherwise conforms with the Rules and Regulations Governing Transfers of Rights to Operate as a Motor Carrier in Interstate or Foreign Commerce (49 C.F.R. 1132). Interested parties have 30 days from the date of this publication in which to file petitions for leave to intervene. Such petitions should state the reason or reasons for the intervention, where the petitioner wishes the hearing to be held, the number of witnesses to be presented, and the estimated time required for the presentation of evidence. The Bureau of Enforcement has been directed to participate as a party in the proceeding for the purpose of presenting evidence and otherwise developing the record.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under Sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240.)

MOTOR CARRIERS OF PROPERTY

Application has been filed for temporary authority under section 210a(b). NOTE: MC-35628 (Sub-No. 351), is a matter directly related.

NOTICE

GEORGIA-PACIFIC CORPORATION, 900 S.W. Fifth Avenue, Portland, Oregon 97204, represented by Messers. McNair, Konduros, Corley, Singletary and Dibble, Box J-1965, Jefferson Square, Columbia, South Carolina 29201, hereby give notice that on the 13th day of July, 1973, it filed with the Interstate Commerce Commission at Washington, D.C., an application under the provisions of Section 5(2) of the Interstate Commerce Act for authority and approval to acquire all of the stock of California Western Railroad which operates approximately 40 miles of lines extending from Willits to Fort Bragg all of which is in the State of California. This application has been assigned Finance Docket No. 27442. In the opinion of the applicant, no significant affect on the quality of the human environment will result from the acquisition of said railroad. In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation-National Environmental Policy Act, 1969*, 304 I.C.C. 431 (1972), any protest may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), Supra Part (b)(1)-(5), 340 I.C.C. 431, 461. The proceeding will be handled without holding public hearings unless protests are received which contain information indicating a need for such hearings. Any protest submitted shall be filed with the Commission no later than 30 days from the date of first publication in the FEDERAL REGISTER.

GEORGIA-PACIFIC CORPORATION

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary*.

[Notice 104]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 2, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application for temporary authority under section 210a (a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commision, Washington, D.C., and also in field office to which protests are to be transmitted.

[Notice 105]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 3, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 C.F.R. 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

REMINDERS

NOTE: There were no items published after October 1, 1972, that are eligible for inclusion in the list of RULES GOING INTO EFFECT TODAY.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 12—Banks and Banking

CHAPTER IV—EXPORT-IMPORT BANK OF THE UNITED STATES

PROCEDURES, EXTENSIONS OF CREDIT, DISCLOSURE OF INFORMATION, POLICIES

Parts 401 and 402 have been revised and updated in order to insure that they are consistent with current procedures and policies of Export-Import Bank of the United States. Parts 401 and 402 as they appear below replace the corresponding parts which appear in Chapter IV of Title 12 of the Code of Federal Regulations. Part 404 is hereby being issued by the Export-Import Bank of the United States in order to clarify and protect the right of the public to information from the Bank.

1. Part 401 is revised to read as follows:

PART 401—PROCEDURES

Sec.
401.1 Purpose, organization and programs
401.2 How to apply
401.3 Principal, agents, certifications and covenants

AUTHORITY: Sec. 2, 59 Stat. 526, as amended; 12 U.S.C. 635.

§ 401.1 Purpose, organization and programs.

(a) *Purpose.* The purpose of the Export-Import Bank is to aid in financing and to facilitate the export sales of United States goods and services.

(b) *Organization and funding.* The Export-Import Bank is an independent corporate agency, founded by Executive Order in 1934, and currently operating under authority of the Export-Import Bank Act of 1945, as amended. One billion dollars in capital stock is held by the U.S. Treasury, to which the Bank pays dividends annually. The Bank does not use appropriated funds from the Congress. It derives its funds primarily from selling debentures in the private market and secondarily from short term borrowings from the U.S. Treasury.

(1) *Offices.* The Bank's headquarters are located at 811 Vermont Avenue, NW., Washington, D.C. 20571. A branch office is maintained in the U.S. Embassy in Vienna and in the U.S. Consulate in Hong Kong.

(2) *Board of Directors.* The Board of Directors of the Export-Import Bank consists of the President of the Bank who serves as Chairman and Chief Executive Officer, the First Vice President of the Bank who serves as Vice Chairman, and three additional Directors. All five members are appointed by the President of the United States, by and with the consent of the Senate. Of the five members, no more than three may be members of any one political party. A majority of the Board constitutes a quorum. The Board of Directors adopts, and from time to time amends, such bylaws as are necessary for the proper management of the Bank, and in such bylaws, designates the vice presidents and other officers and prescribes their duties.

(3) *Advisory Committee.* An Advisory Committee of nine members, broadly representative of production, commerce, finance, agriculture and labor, meets with the Bank one or more times a year, on the call of the President of the Bank, to advise with the Bank on its program. Members are appointed by the Board of Directors on the recommendation of the President of the Bank.

(c) *Programs.* (1) *Direct loans and participation financing.* Direct Loans are dollar credits extended by Eximbank directly to borrowers outside of the United States for purchases of U.S. goods and services. Disbursements under the loan agreement are made in the United States to the suppliers of the goods and services, and the loans plus interest must be repaid in dollars by the borrowers.

Participation financing is the combining of Eximbank's direct lending with loans provided by private sources of funds. If required by the private lender, Eximbank may extend its Financial Guarantee to assure repayment of that portion of the total financing. Eximbank also is prepared, when necessary, to finance through its direct lending the later maturities of the total credit, allowing the private lender to obtain repayment of its loan in a shorter period of time.

(2) *Guarantees for U.S. financial institutions.* Eximbank will extend its Financial Guarantee to cover loans made by U.S. financial institutions to the purchasers in other countries of U.S. goods and services. The buyer may be either a government or private entity. Eximbank's Financial Guarantee will unconditionally guarantee repayment by a borrower of up to 100 percent of the outstanding principal due on such loans plus interest at a rate satisfactory to Eximbank.

(3) *Guarantees for non-U.S. financial institutions.* Eximbank will extend its Financial Guarantee to cover loans made by financial institutions located outside of the United States for exports of U.S. goods and services. Eximbank will unconditionally guarantee repayment by a borrower of up to 100 percent of the principal amount of the loan plus interest at a rate satisfactory to Eximbank. In the event of default, Eximbank payments will be made in the same currencies which the borrower has agreed to repay the lender.

(4) *Local cost financing.* Eximbank is prepared to assist exporters in obtaining local cost financing when it has been clearly demonstrated as necessary to support sales abroad of U.S. goods and services. As a form of such assistance, Eximbank is prepared to use its Financial Guarantee to cover loans made by non-U.S. financial institutions for the financing of local cost in cases in which the Bank is participating through a Direct Loan, a Financial Guarantee or a combination thereof, in financing the procurement of U.S. goods and services.

For transactions in the developing countries, there must be a clear indication that local cost support is essential to achieve an important contract or purchase arrangement and mobilization of the required funds does not appear feasible in the absence of Eximbank assistance. For transactions in the developed countries, there must be a clear indication that local cost support is necessary to counter non-U.S. competition offering publicly assisted local cost financing. Normally, Eximbank will guarantee local cost financing up to an amount equal to 15 percent of the value of the capital goods and services exported from the United States in the related transaction.

(5) *Preliminary commitments.* Eximbank is prepared to provide Preliminary Commitments outlining the terms and conditions of the financial assistance it would extend to purchasers of United States exports of goods and services. The Preliminary Commitment is issued without charge and in no way obligates the inquirer. The program can be used advantageously by U.S. exporters in their marketing efforts as well as in meeting tender requirements. A Preliminary Commitment can be helpful to buyers in planning new purchases and in making presentations to their governments. A financial institution may find a Preliminary Commitment useful when helping both seller and buyer to arrange total financing packages.

(6) *Cooperative Financing Facility.* Under the Cooperative Financing Facility, Eximbank arranges the cooperation of financial institutions abroad to extend loans at their own risk to purchasers of U.S. exports. Eximbank in turn lends these institutions half the funds and the cooperating financial institutions provide the other half from their own resources. If a cooperating institution is in a lesser developed country and wishes to borrow its half of the financing, Eximbank can assist by guaranteeing repayment to another lender of these funds.

(7) *Relending Facility.* A Relending Facility is a line of credit extended by Eximbank directly to a non-U.S. finan-

V 38-153 AUG 9 73 XUM

cial institution to use for "relending" for export loans to small and medium-sized private buyers of U.S. goods and services. Each Relending Facility will include a specific list of eligible product lines, designed either to penetrate a new market or to salvage a declining U.S. share in a particular market. No other products will be financed under this Facility.

(8) *Medium-term discount program.* Eximbank will lend to commercial banks and Edge Act and "Agreement" corporations, up to 100 percent of their eligible medium-term export debt obligations arising from current U.S. exports. Eximbank will also purchase on a case-by-case basis eligible export debt obligations, satisfactory to Eximbank, with full and unconditional recourse on the commercial bank.

In order to obtain a Discount Loan, a bank must have applied for and received from Eximbank an advance commitment to obtain such loan. This advance commitment will be valid for the full term of the obligation, thereby assuring the bank of liquidity, if needed. Application must be made before shipment of the products or services. Discount Loans may be prepaid at any time without penalty.

(9) *Short-term discount program.* Eximbank will make advance commitments for Discount Loans of up to 100 percent of the principal amount or discounted value of eligible export debt obligations having an original maturity of 364 days or shorter arising from the financing of current U.S. exports of goods and services. Eximbank will make Short-Term Discount Loans based on its advance commitment, which must be applied for before shipment of the products or services. The interest "spread" varies from 1 to 2 percent per annum depending upon the amount and term of the obligation. Packaging of certain obligations is permitted in order to expedite handling.

(10) *Commercial bank exporter guarantees.* Eximbank will guarantee repayment of export debt obligations acquired by U.S. banking institutions from U.S. exporters. The Eximbank guarantee covers part of the commercial credit risks and all of the political risks.

(11) *Credit insurance for exporters.* The Foreign Credit Insurance Association (FCIA), a group of some fifty of the principal U.S. maritime, casualty and property insurance companies, in cooperation with Eximbank, offers broad based protection for U.S. exporters' export receivables. Coverage is available for both commercial and political risk which could result in the default of payment from a foreign buyer. To meet the needs of all exporters, large and small, several types of policies are now being offered by FCIA.

(12) *Lease guarantee program.* Eximbank is prepared to extend to either a U.S. or a non-U.S. lessor a guarantee of payment by a lessee for the lease of U.S. equipment outside of the United States on either a non-payout or a full payout basis. The lease transaction must result in an export of the U.S. equipment. Two types of guarantees are available to the lessor: political risk coverage, or comprehensive risks coverage, including both political and commercial risks.

(13) *Engineering, planning and feasibility studies.* Eximbank will finance engineering, planning and feasibility studies by U.S. firms for their non-U.S. clients on large capital projects. If the contractor funds his study, Eximbank will provide a Commercial Bank Exporter Guarantee enabling the contractor to sell without recourse his debt obligation to a commercial bank. If Eximbank's assistance is to be given the client, it would be in the form of Participation Financing, consisting of a Direct Loan and a Financial Guarantee of a loan extended by a U.S. or a non-U.S. bank. By assisting U.S. engineering firms to obtain studies sponsored by clients outside of the U.S., it is anticipated that there will be larger purchases of U.S. equipment and services when the project is constructed.

(14) *Equipment political risk guarantee.* Eximbank will provide political risk guarantee coverage on U.S. equipment used by U.S. contractors in their performance on contracts abroad. The policy will reimburse the owner for 75 percent of the depreciated equipment value at the time of loss, should a loss occur without compensation.

(15) *Export finance counseling service.* Eximbank provides a Counseling Service for exporters, banks and financial institutions seeking financing for U.S. exports. The service provides information on the availability of financing services and resources, within the U.S. and abroad, and information on each of the pertinent Eximbank programs which could be of assistance to exporters who find it necessary to offer deferred payment terms on their export sales.

(16) *Credit information service for U.S. commercial bankers.* Eximbank will make available to commercial bankers credit information or financial information on a specific country or individual company abroad, to assist U.S. banks in meeting the problem of investigation.

(17) *Professional training in international finance for U.S. commercial bankers.* Eximbank offers a six-month program of professional training for representatives of U.S. commercial banks that are involved in or might become involved in export trade financing. Trainees work in Washington and are, in fact, employees of the Federal Government during this period.

(18) *Orientation program for business and industry.* Eximbank conducts day-long saturation sessions in all phases of Eximbank export financing programs for representatives of various businesses and industries engaged in export trade. The selection of the trainees is the prerogative of the customer company.

(19) *Commercial bank export symposia.* Export symposia are meetings arranged by commercial banks in their own communities. A bank sponsoring one of these Export Symposia extends invitations to its business account customers to send representatives to the meeting. Eximbank officials explain the various ways in which financing of U.S. exports can be arranged, with emphasis upon the part that private financial institutions will play, as well as the types and extent of Eximbank export financing programs.

(20) *Overseas business promotion and liaison.* Eximbank has established an office to develop and coordinate the Bank's cooperation with specific trade promotion events outside the United States. This office provides comprehensive information on export financing to prospective U.S. participants in these trade promotion events; arranges Bank staff assistance for U.S. exhibitions, trade missions and other trade promotion events abroad; and coordinates special financing procedures set up to support important trade promotions.

§ 401.2 How to apply.

Applications for the Bank's financial assistance should be submitted in the form of a letter, including sufficient information to enable the Bank to appraise the technical, economic and financial aspects of the proposed transaction.

§ 401.3 Principals, agents, certifications and covenants.

(a) *Principals.* Applications for credits must be signed by the principals involved. In the case of a corporation or similar entity, a duly authorized officer of the entity shall sign on its behalf. In the case of a government, a duly accredited representative of the government shall sign on its behalf. In the case of a United States exporter seeking financing of the sale of goods to a foreign buyer on credit terms, the exporter shall constitute the principal.

(b) *Agents.* The Bank prefers to deal with principals, especially in negotiations leading up to the granting of a loan, but the applicant has the right to engage attorneys, engineers or other qualified persons to advise and aid in preparing material required by the Bank in connection with a loan application or with the operation of a loan which has been granted.

(c) *Certification.* (1) Every person, including any foreign government or an agency thereof, individual, partnership, corporation or association, in whose favor the Bank authorizes the extension of financial assistance within the purview of the Export-Import Bank Act of 1945, as amended, shall, as a condition precedent to the utilization of such financial assistance, represent and certify to the Bank in such form and at such time or times as may be prescribed by the Bank that:

(i) Such person has not paid or agreed to pay to any person including any individual, partnership, corporation or association, except its regular full-time individual employees or staff members to the extent of their regular remuneration, any commission, fee or compensation in connection with obtaining such financial assistance, except such amounts as are included in the certificate, such certificate to set forth the name and address of each such person or persons, together with the description of the services rendered, accompanied by the verification of the recipient or beneficiary of an agreement to pay named in the certificate required hereunder.

(ii) No agent or attorney of such person who was previously an officer or employee of the Bank participated personally and substantially as an officer or employee of the Bank (through decision, approval, disapproval, recommendation, the rendering of advice, investigation or otherwise) in connection with the extension of such financial assistance while so employed by the Bank.

(2) Upon a determination by the Board of Directors that any commission, fee or other compensation paid or agreed to be paid in connection with the obtaining of such financial assistance and disclosed in the certification required under this subsection is unreasonable, the person in whose favor the extension of financial assistance has been authorized shall as a condition precedent to the utilization of such assistance, effect an adjustment satisfactory to the Bank in such commission, fee or other compensation.

(3) Every person including any foreign government or agency thereof, individual, partnership, corporation or association, in whose favor the Bank authorizes the extension of financial assistance within the purview of the Export-Import Bank Act of 1945, as amended, shall, as a condition precedent to each advance:

(i) If such person is the supplier of the equipment, materials or services with respect to which the advance has been requested, certify that, other than as disclosed to the Bank, no payments, allowances or charges in connection with the sale of, or obtaining the contract to sell, such equipment, materials or services have been paid or granted or agreed to be paid or granted by such person to any other person, except such person's regular full-time individual employees or staff members to the extent of their regular remuneration.

(ii) If such person is not the supplier of the equipment, materials or services with respect to which the advance has been requested.

(a) Certify that such person has paid or agreed to pay for the equipment, materials or services with respect to which the advance has been requested, no more and no less than the amounts which such person has certified to the Bank as the purchase price and all payments, allowances and charges connected therewith.

(b) Furnish the Bank with a certificate of the supplier of the equipment, materials or services, with respect to which the advance has been requested, addressed to the Bank and setting forth that such supplier has not, other than as disclosed to the Bank, paid or granted or agreed to pay or grant to such person or any other person, except such supplier's regular full-time individual employees to the extent of their regular remuneration, any payments, allowances or charges in connection with the sale of, or obtaining the contract to sell, such equipment, materials or services.

(d) *Covenants.* (1) Every person, including any foreign government or an agency thereof, individual, partnership, corporation or association, in whose favor the Bank authorizes the extension of financial assistance within the purview of the Export-Import Bank Act of 1945, as amended, shall, as a condition precedent to the utilization of such financial assistance, covenant and agree with the Bank in such form as may be prescribed by the Bank that:

(i) Such person will not employ any person to appear personally before the Bank as agent or attorney in connection with such financial assistance within one year after that person's employment by the Bank has ceased if such financial assistance was under that person's official responsibility as an officer or employee of the Bank at any time within a period of one year prior to the termination of such responsibility.

(ii) Such person has not paid or agreed to pay to any person including any individual partnership, corporation or association except its regular full-time individual employees or staff members to the extent of their regular remuneration, any fee, commission or compensation in connection with obtaining such financial assistance, except for reasonable compensation, satisfactory to the Bank for bona fide professional, technical or other comparable services incident to presenting the merits of the application and operation of the credit and such person will certify to the Bank any such amounts, such certificates to set forth the name and address of each such person together with a description of the services rendered, accompanied by the verification of the recipient or beneficiary of an agreement to pay named in the certificate required hereunder.

(2) Upon a determination by the Board of Directors that any commission, fee or other compensation paid or agreed to be paid in connection with the obtaining of such financial assistance and disclosed in the certification or covenants required under this sub-section is unreasonable, the person in whose favor the extension of financial assistance has been authorized shall, as a condition precedent to the utilization of such assistance, effect an adjustment satisfactory to the Bank in such commission, fee or other compensation.

(e) *Remedies and penalties.* (1) The certificates, representations and covenants provided for in this part are deemed to be material to and an inducement for the extension by the Bank of such financial assistance and falsifications in any such representation on certificate or the breach of any such covenant shall entitle the Bank to cancel any commitment for the extension of financial assistance to such person or such additional remedies as may be provided in the credit agreement.

(2) The remedies of the Bank provided for in this section and in the contract shall be in addition to any liability or penalty provided by law including those provided for in 18 U.S.C. 1001.[1]

2. Part 402 is revised to read as follows:

PART 402—EXTENSION OF CREDIT

Sec.
402.1 Basic principles.
402.2 Cash Payment, maturities, interest rates and participation.
402.3 Marine transportation and insurance.

AUTHORITY: Sec. 2, 59 Stat. 526, as amended; 12 U.S.C. 635.

§ 402.1 Basic principles.

The Export-Import Bank is guided in its operations by the following basic principles:

(a) The basic purpose of the Bank is to aid in financing and to facilitate exports and imports and the exchange of commodities between the United States or any of its Territories or insular possessions and any foreign country or the agencies or nationals thereof. To accomplish this purpose, the Bank extends loans, guarantees or other forms of financial assistance. This foreign trade may be assisted, for example, by financing specific exports of United States products or by financing exports of equipment, materials and services required for specific developments abroad. Foreign trade may also be promoted through financing to build up the economy, increase employment and raise income levels in foreign countries, which thereby afford better markets for American products or become better suppliers of imports required by the United States. Imports can usually be financed through normal commercial channels; but in exceptional cases where private financing is not available the Bank may assist in their financing.

(b) The Bank generally makes loans only for specific purposes. A corollary of this principle is that disbursements under a commitment by the Bank are made only upon receipt of satisfactory evidence that the purposes of the loan have been or are being carried out.

(c) As a general rule, the Bank makes only loans which offer reasonable assurance of repayment. This assurance usually involves not only the creditworthiness of the borrower but also the ability of the borrower to obtain the necessary dollar exchange to service the loan.

(d) As a general rule, the Bank extends credit only to finance purchases of

[1] Section 18 U.S.C. 1001 provides: "Whoever, in any matter within the jurisdiction of any department or agency of the United States knowingly and willfully falsifies, conceals or covers up by any trick, scheme or device a material fact, or makes any false, fictitious or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than five years, or both" (June 25, 1948, ch. 645, sec. 1, 62 Stat. 749).

V 38-153 AUG 9 73 XUM

materials and equipment produced or manufactured in the United States together with technical services of American firms and individuals, as distinguished from expenditures for goods and services in the borrowing country or for purchases in third countries.

(e) The Bank supplements and encourages the utilization of private capital in export and import trade. Financial assistance is not extended by the Bank for any purpose if capital for the same purpose is believed to be obtainable from private sources on reasonable terms.

(f) The Bank is prepared to consider proposals for the purchase of portions of its portfolio by commercial banks or other private investors.

§ 402.2 Cash payment, maturities, interest rates and participation.

(a) *Cash payment.* The Bank ordinarily requires a foreign purchaser to make a cash payment of not less than 10 percent of the invoice value on or prior to the time of delivery of the goods. In its direct lending program, the cash payment must be made either prior to or pari passu with disbursements by Eximbank.

(b) *Maturities.* The maturities of credits granted by the Export-Import Bank are arranged in accordance with the circumstances in each case. Generally speaking they are commensurate with those customarily extended in international trade for similar goods or projects. Principal amounts are generally repayable in equal semiannual installments.

(c) *Interest rates.* The Bank normally charges interest on its loans at a rate of 6 percent per annum. However, such rate of interest is subject to change upon review of the Bank with the approval of the National Advisory Council on International Monetary and Financial Policies. Interest is computed on the outstanding principal balance and is usually payable semiannually.

(d) *Participation.* The exporter may be required to participate in the financing if in the Bank's judgment the circumstances warrant such participation.

§ 402.3 Marine transportation and insurance.

(a) *Marine transportation.* Public Resolution No. 17, Seventy-Third Congress, requires that exports of agricultural or other products fostered by loans made by any instrumentality of the United States Government shall be carried exclusively in vessels of United States registry unless a waiver is granted by the United States Maritime Administration. When appropriate the Bank is prepared to finance United States inland freight and ocean freight on vessels of United States registry under the relative credit.

(b) *Insurance.* When the Bank determines that shipments of exports financed through its credits must be covered by marine insurance, the insurance contracts shall be satisfactory to the Bank and shall provide that payments for loss or damage will be made in United States dollars in the United States. When such insurance contracts are placed in the United States market with United States companies the Bank is prepared to finance the premiums under the relative credit.

3. Part 404 is added to read as follows:

PART 404—DISCLOSURE OF INFORMATION

Public Law 89-487, 80 Stat. 250, approved July 4, 1966 (popularly known as the Freedom of Information Act or Public Information Act), substantially revised 5 U.S.C. 552, formerly section 3 of the Administrative Procedure Act, 60 Stat. 237, 5 U.S.C. 1002 (1964 Ed.), to clarify and protect the right of the public to obtain information from Federal agencies. To clarify and protect the right of the public to information from the Export-Import Bank of the United States pursuant to Public Law 90-23, 5 U.S.C. 552, which subsequently codified and repealed Public Law 89-487, Part 404 of Chapter IV of Title 12 of the Code of Federal Regulations is issued as follows:

Sec.

404.1 Purpose and policy.
404.2 Scope.
404.3 Information and records available to the public and exempt from disclosure.
404.4 Public access to information and records.
404.5 Administrative appeal of refusal to disclose.
404.6 Fees.
404.7 Appearances and testimony by Eximbank officers and employees.

AUTHORITY: 5 U.S.C. 552 and 12 U.S.C. 635.

§ 404.1 Purpose and policy.

(a) This part establishes policy and procedures governing public access to information contained in the files, documents, and records of the Export-Import Bank of the United States (Eximbank). In keeping with the spirit as well as the letter of Public Law 90-23, which codified and repealed Public Law 89-487, amending 5 U.S.C. 552, formerly section 30 of the Administrative Procedure Act, 60 Stat. 237, 5 U.S.C. 1002 (1964 Ed), it reflects Eximbank policy that disclosure is the general rule rather than the exception. It is in addition a recognition that this policy in favor of disclosure extends in many instances to information technically exempt from disclosure under the law where such disclosure would not adversely affect some legitimate public or private interest intended to be protected by law, would not otherwise violate law or other authority, and would not impose an unreasonable burden upon Eximbank.

(b) This part is also a recognition that the soundness of many Eximbank programs, e.g. loans, guarantees and insurance, depends in large measure upon the reliability of commercial, technical, financial and business information relating to the affairs of applicants for Eximbank assistance. Since the release of such information would jeopardize the credit and competitive business position of an applicant it is essential that applicants be assured that the information is considered to be submitted to Eximbank in confidence and will not be disclosed to the public. Thus applicants will be encouraged to make complete disclosure of material bearing upon an application and Eximbank decisions on whether financial or other assistance should be approved will be made with greater assurance that the interests of the United States will be protected.

§ 404.2 Scope.

(a) This part applies to all files, documents, records, and information obtained or produced by officers and employees of Eximbank in the course of their official duties as well as all files, documents, records and other information in the custody or control of any Eximbank officer or employee. It does not purport to describe or set forth every Eximbank file, document, record, or item of information which may or may not be disclosed or to incorporate every exemption from disclosure provided by law. Material described is illustrative rather than exclusive.

(b) Moreover, this part deals with the availability of information to the public, including parties involved in litigation affecting Eximbank. It does not apply to the disclosure of information to persons, organizations or institutions participating in Eximbank programs or activities, or to other activities in the executive and legislative branches of the Federal Government.

§ 404.3 Information and records available to the public and exempt from disclosure.

(a) *General.* (1) All Eximbank information and records in existence which are not exempt by law are available for public inspection and copying in, or through, facilities described in § 404.4. In addition, certain materials technically qualifying for exemption from disclosure are to be made available where disclosure would not adversely affect some legitimate public or private interest, would not otherwise violate law or other authority, and would not impose an unreasonable burden on Eximbank. Reasonable requests for material not in existence may also be honored where their compilation will not unduly interfere with Eximbank activities, programs and operations.

(2) Specific examples of information routinely available in Eximbank facilities are listed in § 404.0. Examples of information and other material, available and exempt, in which there should be general interest are discussed in succeeding paragraphs of this section.

(b) *Information and records relating to Eximbank programs.* (1) Although Eximbank programs typically involve the consideration of material constituting in large part trade secrets, commercial or financial information, information submitted in confidence, or information the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, the following kinds of information are nevertheless available to the public:

(i) Names of recipients of loans, guarantees, insurance and other assistance.

(ii) The kind and amount of assistance.

(iii) The purpose of the approved assistance in general terms.

(iv) The extent of outside participation, if any.

(v) Statistical data on Eximbank programs.

(2) Information which is not available to the public includes:

(i) Information other than statistical on declined, withdrawn, or canceled applications for assistance.

(ii) Financial or other confidential information about applicants or borrowers obtained from any source.

(iii) Individual case files relating to such activities as loans, guarantees and insurance.

(iv) Internal Eximbank communications showing, for example, recommendations on applications for assistance.

(v) Information concerning losses, delinquencies and defaults in individual cases.

(vi) Names of participating lending institutions without their consent.

(vii) Information regarding the character of applicants, borrowers, or other persons.

(viii) Examination, audit, investigation and litigation reports.

(c) *Minutes of the Meetings of the Board of Directors.* These are available for inspection and copying in the office of the Secretary of Eximbank as provided in § 404.4.

(d) *Personnel and similar files.* The names, position titles, and duty stations of Eximbank employees are public information but their home addresses are not so considered. The disclosure of private or personal information contained in other files, for example, in the files relating to members of Eximbank's Advisory Board and to applicants for Eximbank assistance would normally amount to a clearly unwarranted invasion of privacy and thus would be considered exempt.

(e) *Eximbank staff directives and other instructions to staff.* All directives are considered public information except those relating to audits and investigations, internal financial management and fiscal operations, and portions of directives containing confidential standards and instructions, as, for example, instructions concerning negotiations or bargaining in connection with the disposition and liquidation of loans and loan collateral held by Eximbank.

(f) *Litigation materials.* Copies of pleadings, motions, orders, transcripts of testimony, and documentary evidence introduced in pending or closed litigation are available once such items are a matter of public record.

(g) *Internal communications.* Interagency or intraagency communications not routinely available to a party to litigation with Eximbank are exempt from disclosure. These would include, among other things, drafts, memoranda between officials or agencies, opinions and interpretations prepared by Eximbank attorneys and other staff members or consultants for use of Eximbank, research studies performed internally or under contract for internal management purposes, and internal management reports.

§ 404.4 Public access to information and records.

(a) *Facilities.* Eximbank facilities are available to the public during normal business hours for requesting, inspecting and copying information and records. Reproduction machines will also be available in or, through, such facilities. A public affairs office is located in Room 1231; 811 Vermont Ave. NW., Washington, D.C. 20571.

(b) *Materials available in public affairs office.* (1) For the convenience of the public certain Eximbank materials will be maintained and readily available in the public information office. These will include:

(i) All Eximbank directives and manuals not exempt from disclosure.

(ii) Eximbank Rules and Regulations (including Interpretations).

(iii) Index of Eximbank materials, including lists of directives, forms and reports.

(2) The public affairs will, in addition to the above, have normally available, among other things:

(i) Pamphlets describing Eximbank programs.

(ii) Press releases.

(iii) Names of recipients of Eximbank support and related information not exempt from disclosure.

(iv) Eximbank's Annual Report to the President and the Congress.

(v) Routine statistical reports on Eximbank activities.

(vi) Minutes of Meetings of the Board of Directors.

(vii) Blank Eximbank forms.

(c) *Other materials.* Requests for information, records, and other materials not readily available at the public information office areas may be requested through such facility. Requests will be referred to the proper Eximbank office and the person making the request will be notified of the availability of the material and any charges involved. If the material requested is the exclusive concern of another agency, the request will be referred to that agency. If the material is of concern to more than one agency, the request will be referred to the agency whose interest is paramount for a decision to disclose or withhold the material.

(d) *Forms for requesting information.* (1) EIB Form 73-5, "Request for Eximbank Forms, Documents, Records and Other Information", is used for processing requests. Any person desiring information or records may be asked to complete Part I of the form identifying the material requested and the copies, if any, desired. If requests are received by mail or telephone, Part I will be completed by Eximbank.

(2) EIB Form 73-6, "Answer to Request", is a form letter or notice which will advise the requester of the availability of the material, any charges involved, or the referral of the request to another office of agency.

(3) EIB Form 73-7, "Invoice", will be used to record transactions involving charges and a copy thereof will be served as a receipt to the purchaser.

§ 404.5 Administrative appeal of refusal to disclose.

(a) *Who may appeal.* Any person whose request for information or records has been denied shall be entitled to submit a written appeal to Eximbank.

(b) *Form of appeal.* While no particular form is prescribed, the letter or other written statement utilized for such purpose shall contain a description of the information or records requested, the name and place of employment of the Eximbank official or employee who denied the request, the reason, if any, given for the denial, and such other pertinent facts and statements as the appellant may deem appropriate. Eximbank may request additional details where the information submitted is insufficient to support a decision.

(c) *Where to appeal.* Appeals shall be addressed to the Export-Import Bank of the United States, Attention: Vice President-Administration, 811 Vermont Ave., Washington, D.C. 20571.

(d) *Eximbank decision.* Final Eximbank decision on appeals from refusals to disclose information or records shall be made by the Executive Vice President. He shall promptly review each appeal and provide appellant and other interested parties, if any, with a written notification of the decision. If the decision upholds the refusal to disclose, the notification shall contain a statement sufficiently explaining the reasons for the refusal.

§ 404.6 Fees.

(a) *Basis.* Factors taken into account in establishing fees for reproducing copies of documents, records search, and compilation of materials include reproduction cost, average salary of employees involved, and overhead cost.

(b) *Method of payment.* Remittances shall be in the form of cash or cashier's check, money order or other guaranteed remittance made payable to the Export-Import Bank of the United States. Payment shall normally be due at the time the service is rendered. However, where extensive record searches or compilations are involved the person requesting the service shall pay whatever fee is estimated by Eximbank to be appropriate before any search or compilation is undertaken. Fees paid in advance shall be held in suspense pending completion of the search or compilation and adjusted when final charges have been determined.

(c) *Prices.* (1) For documents available in the public information office, the charge for reproduction may be 50 cents per page.

(2) For requests requiring a search of Eximbank records but no compilation, there may be a minimum charge of $5 plus the regular charge of 50 cents per

V 38-153 AUG 9 73 XUM

page for reproduction. In addition, the total charge will include a charge based upon employees' time required for the search.

(3) For information which has to be compiled the charge will include the cost of employees' time, cost of computer runs or other equipment use, and other overhead expense. Since there is no obligation on the part of the Eximbank to compile records or data, requests for compilations must be reasonable and not unduly interfere with normal operations or program activities.

(4) Persons may inspect and copy documents by their own means in the Eximbank facilities without charge except for search or compilation charges which may be otherwise payable.

§ 404.7 Appearances and testimony by Eximbank officers and employees.

Whenever an officer or employee of Eximbank is served with a subpoena demanding the disclosure of the information or the production of files, documents, and records described in this part, or is requested by court, committee or other body to disclose such information, the officer or employee shall promptly inform his superior of the requirements of the subpoena or request and shall ask for instructions from the Vice President-Administration with respect thereto. Such officer or employee shall appear before the court, committee or body and, if the Vice President-Administration has not authorized disclosure, the employee shall respectfully decline to disclose the information or produce the files, documents, and records demanded or requested, basing such refusal upon this part.

[SEAL] HENRY KEARNS,
President and Chairman.

[FR Doc.73-16500 Filed 8-8-73;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 73-AL-16]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Redesignation of Colored Federal Airway, Reporting Point, Control Zone and Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to redesignate the Farewell, Alaska, navigational aid, control zone and transition area.

This action is based on the need to convert the Farewell low frequency range to a nondirectional radio beacon. The Farewell RR is currently advertised as unreliable because of shifting courses and multiple course signals. Reliable repairs are impracticable since standard parts are no longer available.

Furthermore, on March 1, 1971, the Federal Aviation Administration issued a Notice under Aeronautical Study No. 71-AL-18NR, proposing to convert all four-course radio ranges in Alaska to nondirectional radio beacons. No objections were received.

For reasons stated above, the Farewell low frequency range will be permanently converted to a nondirectional radio beacon effective September 13, 1973.

Since these amendments involve a change only in the type of navigational aid on which the airspace is described and makes no change to the current airspace configuration, notice and public procedure hereon are unnecessary. However, in order to allow sufficient time to make appropriate changes to aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t., September 13, 1973, as hereinafter set forth.

1. Section 71.105 (38 FR 305) in A-1, "Farewell, Alaska, RR:" is deleted and "Farewell, Alaska, RBN;" is substituted therefor.

2. Section 71.171 (38 FR 351) Farewell, Alaska, control zone is amended to read:

FAREWELL, ALASKA

Within a 5-mile radius of the Farewell airport (latitude 62°30'30" N, longitude 153°52'30" W); and within 3.5 miles each side of the 306° bearing from the Farewell RBN extending from the 5-mile radius zone to 8.5 miles northwest of the RBN. This control zone is effective from 0745 to 1545 local time daily, or during the specific dates and times established in advance by Notice to Airmen. The effective date and time will thereafter be continuously published in the Flight Information Publication, Supplement Alaska.

3. Section 71.181 (38 FR 435) Farewell, Alaska, transition area is amended to read:

FAREWELL, ALASKA

That airspace extending upward from 1,200 feet above the surface within 9.5 miles northeast and 5 miles southwest of the Farewell RBN 126° and 306° bearings, extending from 6 miles southeast to 18.5 miles northwest of the RBN.

4. Section 71.211 (38 FR 618) low altitude reporting points, delete "Farewell, Alaska, RR" and add "Farewell, Alaska, RBN".

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Anchorage, Alaska, on July 31, 1973.

THOMAS J. CRESWELL,
Director, Alaskan Region.

[FR Doc.73-16413 Filed 8-8-73;8:45 am]

[Airspace Docket No. 73-WA-35]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Areas

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to change the title of the designated controlling agency for Restricted Areas R-2533, Oceanside, Calif., R-2908 and R-2909, Pensacola, Fla., and R-5202, Gardiner's Island, N.Y.

The title, "Radar Air Traffic Control Center (RATCC)," has been changed to "Radar Air Traffic Control Facility (RATCF)." The title of the controlling agency designated for each of the restricted areas, R-2533, R-2908, R-2909 and R-5202 must therefore be corrected.

This amendment is editorial in nature and it is a minor amendment upon which the public would have no particular reason to comment. Therefore, notice and public procedure thereon are deemed unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 11, 1973, as hereinafter set forth.

1. In § 73.25 (38 FR 634) the controlling agency for Restricted Area R-2533, Oceanside, Calif., is amended to read as follows:

Controlling agency: FAA, El Toro RATCF

2. In § 73.29 (38 FR 640) the controlling agency for Restricted Area R-2908, Pensacola, Fla., and for R-2909, Pensacola, Fla., is amended to read as follows:

Controlling agency: FAA, Pensacola RATCF

3. In § 73.52 (38 FR 662) the controlling agency for Restricted Area R-5202, Gardiner's Island, N.Y., is amended to read as follows:

Controlling agency: FAA, Quonset RATCF

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c).)

Issued in Washington, D.C., on August 3, 1973.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-16416 Filed 8-8-73;8:45 am]

[Docket No. 13070; Amdt. No. 876]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue, SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, effective September 20, 1973.

Pasco, Wash.—Tri-Cities Arpt., VOR-A, Amdt. 4
Pasco, Wash.—Tri-Cities Arpt., VOR Rwy 29, Amdt. 2
Tifton, Ga.—Henry Tift Myers Arpt., VOR Rwy 27, Orig.
Tifton, Ga.—Henry Tift Myers Arpt., VOR Rwy 33, Amdt. 1

Effective September 13, 1973:

Chicago, Ill.—Chicago O'Hare Int'l Arpt., VOR Rwy 4L, Amdt. 1, Canceled
Chicago, Ill.—Chicago O'Hare Int'l Arpt., VOR Rwy 4R, Amdt. 1
Chicago, Ill.—Chicago O'Hare Int'l Arpt., VOR Rwy 22L, Amdt. 1
Chicago, Ill.—Chicago O'Hare Int'l Arpt., VOR Rwy 22R, Amdt 11, Canceled

2. Section 97.25 is amended by originating, amending, or canceling the following SDF-LOC-LDA SIAPs, effective September 13, 1973.

New York, N.Y.—LaGuardia Arpt., LOC (BC) Rwy 31, Amdt. 6

Effective August 16, 1973:

St. Paul, Minn.—St. Paul Downtown Holman Field, LOC Rwy 30, Amdt. 2

3. Section 97.27 is amended by originating, amending, or canceling the following NDB/ADF SIAPs, effective September 20, 1973:

Tifton, Ga.—Henry Tift Myers Arpt., NDB Rwy 33, Amdt. 4

Effective September 13, 1973:

Caldwell, N.J.—Caldwell-Wright Arpt., NDB-A, Amdt. 1

Chicago, Ill.—Chicago O'Hare Int'l Arpt., NDB Rwy 14L, Amdt. 14
Chicago, Ill.—Chicago O'Hare Int'l Arpt., NDB Rwy 27R, Amdt. 13
Chicago, Ill.—Chicago O'Hare Int'l Arpt., NDB Rwy 32R, Amdt. 9
New York, N.Y.—LaGuardia Arpt., NDB Rwy 4, Amdt. 33
New York, N.Y.—LaGuardia Arpt., NDB Rwy 22, Amdt. 8
Shirley, N.Y.—Brookhaven Arpt., NDB-A, Amdt. 1
Teterboro, N.J.—Teterboro Arpt., NDB Rwy 6, Amdt 13

Effective July 19, 1973:

Newark, N.J.—Newark Int'l Arpt., NDB Rwy 22L, Amdt. 1
Newark, N.J.—Newark Int'l Arpt., NDB Rwy 22R, Amdt. 4

4. Section 97.29 is amended by originating, amending, or canceling the following ILS SIAPs, effective September 20, 1973.

Everett, Wash.—Snohomish County (Paine Field) Arpt., ILS Rwy 16, Amdt. 14
Moses Lake, Wash.—Grant County Arpt., ILS Rwy 32R, Amdt. 7
Pasco, Wash.—Tri-Cities Arpt., ILS Rwy 20R, Amdt. 4

Effective September 13, 1973:

Calverton, N.Y.—Peconic River Plant (Grumman) Arpt., ILS Rwy 5, Amdt. 6
Chicago, Ill.—Chicago O'Hare Int'l Arpt., ILS Rwy 32R, Amdt. 7
Chicago, Ill.—Chicago O'Hare Int'l Arpt., Parallel ILS Rwy 32R, Amdt. 2
Chicago, Ill.—Chicago O'Hare Int'l Arpt., ILS Rwy 14L, Amdt. 18
Chicago, Ill.—Chicago O'Hare Int'l Arpt., Parallel ILS 14L, Amdt. 1
Chicago, Ill.—Chicago O'Hare Int'l Arpt., ILS Rwy 27R, Amdt. 15
Chicago, Ill.—Chicago O'Hare Int'l Arpt., Parallel ILS Rwy 27R, Amdt. 4
New York, N.Y.—LaGuardia Arpt., ILS Rwy 4, Amdt. 29
New York, N.Y.—LaGuardia Arpt., ILS Rwy 13, Amdt. 9
New York, N.Y.—LaGuardia Arpt., ILS Rwy 22, Amdt. 9
Teterboro, N.J.—Teterboro Arpt., ILS Rwy 6, Amdt. 21

Effective July 19, 1973:

Newark, N.J.—Newark Int'l Arpt., ILS Rwy 22L, Amdt. 1
Newark, N.J.—Newark Int'l Arpt., ILS Rwy 22R, Amdt. 5

5. Section 97.31 is amended by originating, amending, or canceling the following RADAR SIAPs, effective September 13, 1973.

Chicago, Ill.—Chicago O'Hare Int'l Arpt., RADAR-1, Amdt. 26

(Secs. 307, 313, 601, 1110, Federal Aviation Act of 1948; 49 U.S.C. 1438, 1354, 1421, 1510, sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c) and 5 U.S.C. 552(a)(1).)

Issued in Washington, D.C., on August 2, 1973.

JAMES M. VINES,
Chief, Aircraft Programs Division.

NOTE: Incorporation by reference provisions in §§ 97.10 and 97.20 (35 FR 5610) approved by the Director of the Federal Register on May 12, 1969.

[FR Doc.73-16414 Filed 8-8-73;8:45 am]

[Docket No. 10865; Amdt. No. 121-105]

PART 121—CERTIFICATION AND OPERATIONS; DOMESTIC, FLAG, AND SUPPLEMENTAL AIR CARRIERS AND COMMERCIAL OPERATORS OF LARGE AIRCRAFT

Public Address and Interphone Communications Systems

The purpose of these amendments to Part 121 of the Federal Aviation Regulations is to require that all airplanes having a passenger seating capacity greater than 19 and operated under Part 121 be equipped with an approved electronic public address system and an interphone communication system that are in satisfactory operating condition at takeoff. Parts 123 and 135 of the Federal Aviation Regulations incorporate the requirements of this amendment by references in §§ 123.27 and 135.2. Therefore, this amendment applies to Air Travel Clubs governed by Part 123 and also Air Taxi Operators governed by Part 135 using large airplanes in the conduct of their operations that have a passenger seating capacity greater than 19.

Interested persons have been afforded an opportunity to participate in the making of this amendment by a notice of proposed rulemaking (Notice No. 72-6) published in the FEDERAL REGISTER on March 2, 1972 (37 FR 4358) and due consideration has been given to all comments received in response to the notice, insofar as they relate to matters within the scope of the notice. Except for editorial changes, and except as specifically discussed hereinafter, this amendment and the reasons therefor are the same as those contained in the notice.

All but one of the seven public comments received were in favor of the proposal, but recommended certain specific changes.

The Air Transport Association of America (ATA) and the Aerospace Industries Association of America (AIA) recommended the addition of selector switches and signaling devices to those components that may be common to both the public address system and the crewmember interphone system. The FAA believes this recommendation has merit and has, therefore, included in this amendment selector switches and signaling devices as components that may be common to both systems. However, the FAA is unable to agree with the ATA that the commonality between the two systems should be expanded to include power sources. Accordingly, that recommendation has not been adopted.

The AIA recommended that for practical reasons, such as the possibility that use of the public address or interphone system may be preempted by a flight crewmember in the pilot compartment, the regulation should allow a delay of ten seconds for operation of either system by a flight attendant in the passen-

V 38-153 AUG 9 73 XUM

ger compartment. The FAA concurs and provision for such a ten second delay has been made in the amendment adopted. However, the FAA does not agree that a ten second delay is appropriate for use of the two systems by flight crewmembers in the pilot compartment. In our opinion, safety considerations require both systems to be accessible for immediate use from each of two flight crewmember stations in the pilot compartment and such a requirement is adopted in this amendment.

Comment also objected to the proposal to require, with respect to the interphone system for large turbojet-powered airplanes, both aural and visual signals for use by flight crewmembers and flight attendants to alert each other of an impending call. The FAA believes there is adequate justification for such redundancy in the alerting system, since it will reduce the probability of a complete alert system failure or delays in responding to an alert, and provide greater assurance that the recipient of an emergency call will be alerted. Accordingly, this requirement is adopted as proposed. In this regard, it should be noted that the requirement for both aural and visual signals does not extend to the requirement for a means that enables the recipient to determine whether it is a normal or an emergency call.

The wording of the proposal regarding the location of interphone stations for use by flight attendants in the passenger compartment of a large turbojet-powered airplane has been changed in this amendment to more clearly express its intent. As adopted, the wording of § 121.319(b)(5)(i) makes it clear that the interphone system on those airplanes must be accessible for use at enough flight attendant stations so that all floor level emergency exists in the passenger compartment are observable from one or more of those stations so equipped.

With regard to the requirement in § 121.319(b)(5)(iv) for a separate ground to flight attendant interphone communication system, the FAA believes that experience gained from incidents endangering the security of passenger-carrying airplanes clearly indicates the need for a ground communication capability with a flight attendant in the passenger compartment. The FAA anticipates that operators will establish appropriate procedures pertaining to interphone switching and alerting functions and include them in their operations manuals and training programs for the guidance of flight crewmembers and flight attendants.

One commentator recommended that operators be given four years to achieve compliance with the public address and interphone equipment requirements of §§ 121.318 and 121.319. On the basis of our review of this matter, we believe the two year compliance period proposed will provide operators with a sufficient amount of time to accomplish the required equipment installations and modifications.

Other minor word changes have been adopted in this amendment for editorial and clarification purposes.

These amendments are issued under the authority of sections 313(a), 601, and 604 of the Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, and 1424, and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, Part 121 of the Federal Aviation Regulations is amended, effective September 8, 1973, as follows:

1. By adding a new § 121.318 to read as follows:

§ 121.318 Public address system.

(a) After September 8, 1975, no person may operate an airplane with a seating capacity of more than 19 passengers unless the airplane is equipped with a public address system that:

(1) Is capable of operation independent of the crewmember interphone system required by § 121.319(a) except for handsets, headsets, microphones, selector switches, and signaling devices; and

(2) Meets the requirements of paragraph (b) of this section.

(b) The public address system required by paragraph (a) of this section must be approved in accordance with § 21.305 of this chapter and meet the following requirements:

(1) It must be accessible for immediate use from each of two flight crewmember stations in the pilot compartment;

(2) It must be accessible for use from at least one normal flight attendant station in the passenger compartment;

(3) It must be capable of operation within ten seconds by a flight attendant at those stations in the passenger compartment from which its use is accessible; and

(4) Transmission must be audible at each passenger and flight attendant seat and in each lavatory.

2. By adding a new § 121.319 to read as follows:

§ 121.319 Crewmember interphone system.

(a) After September 8, 1975, no person may operate an airplane with a seating capacity of more than 19 passengers unless the airplane is equipped with a crewmember interphone system that:

(1) Is operational at takeoff;

(2) Is capable of operation independent of the public address system required by § 121.318(a) except for handsets, headsets, microphones, selector switches, and signaling devices; and

(3) Meets the requirements of paragraph (b) of this section.

(b) The crewmember interphone system required by paragraph (a) of this section must be approved in accordance with § 21.305 of this chapter and meet the following requirements:

(1) It must provide a means of two-way communication between the pilot compartment and the passenger compartment;

(2) It must be accessible for immediate use from each of two flight crewmember stations in the pilot compartment;

(3) It must be accessible for use from at least one normal flight attendant station in the passenger compartment;

(4) It must be capable of operation within ten seconds by a flight attendant at those stations in the passenger compartment from which its use is accessible; and

(5) For large turbojet-powered airplanes:

(i) It must be accessible for use at enough flight attendant stations so that all floor level emergency exits in the passenger compartment are observable from one or more of those stations so equipped;

(ii) It must have an alerting system incorporating both aural and visual signals for use by the flight crewmember to alert flight attendants and for use by flight attendants to alert flight crewmembers;

(iii) The alerting system required by subparagraph (b)(5)(ii) of this section must have a means for the recipient of a call to determine whether it is a normal call or an emergency call; and

(iv) When the airplane is on the ground, it must provide a means of two-way communication between ground personnel and at least one flight attendant in the passenger cabin, and separately, between ground personnel and either of at least two flight crewmembers in the pilot compartment. The interphone system station for use by the ground personnel must be so located that personnel using the system may avoid visible detection from within the airplane.

Issued in Washington, D.C., on July 27, 1973.

JAMES E. DOW,
Acting Administrator.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

PART 14—ADMINISTRATIVE INTERPRETATIONS, GENERAL POLICY STATEMENTS, AND ENFORCEMENT POLICY STATEMENTS

Foreign Language Advertising; Correction

FR Doc. 73-16085, appearing at page 20820 for the issue of Friday, August 3, 1973, is corrected to read as follows:

§ 14.9 Requirements concerning clear and conspicuous disclosures in foreign language advertising and sales materials.

The Federal Trade Commission has noted that, with increasing intensity, advertisers are making special efforts to reach foreign language-speaking consumers. As part of this special effort, advertisements, brochures and sales documents are being printed in foreign languages.

In recent years the Commission has issued various cease-and-desist orders as well as rules, guides and other statements, which require affirmative disclosures in connection with certain kinds of representations and business activities. Generally, these disclosures are required to be "clear and conspicuous." Because questions have arisen as to the meaning and application of the phrase "clear and conspicuous" with respect to foreign language advertisements and sales materials, the Commission deems it appropriate to set forth the following enforcement policy statement:

(a) Where cease-and-desist orders as well as rules, guides and other statements require "clear and conspicuous" disclosure of certain information, that disclosure must be in the same language as that principally used in the advertisements and sales materials involved.

(b) Any respondent who fails to comply with this requirement may be the subject of a civil penalty proceeding for violating the terms of a Commissioner cease-and-desist order.

(Sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

By direction of the Commission dated July 24, 1973.

[SEAL] CHARLES A. TOBIN,
Secretary.

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Civil Division Memo 374; Civil Division Directive 44-73]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

Subpart Y—Authority To Compromise and Close Civil Claims and Responsibility for Judgments, Fines, Penalties, and Forfeitures

DELEGATION OF AUTHORITY TO UNITED STATES ATTORNEYS IN CIVIL DIVISION CASES

The purpose of this Directive is to increase the authority of United States Attorneys to accept or reject offers in compromise or to close claims other than by compromise or entry of judgment, in cases under the jurisdiction of the Assistant Attorney General in charge of the Civil Division.

By virtue of the authority vested in me by Part O of Title 28, Code of Federal Regulations, particularly §§ 0.45, 0.46, 0.160, 0.162, 0.164, 0.166, and 0.168, Civil Division Memo No. 374 of the Appendix to Subpart Y of Part O of Chapter I of Title 28, Code of Federal Regulations, is amended as follows:

1. The figure "$10,000" is substituted for the figure "$5,000" in paragraphs A, B, D, E(1), and F of section 3 each place where that figure appears.

2. The figure "$20,000" is substituted for the figure "$10,000" in paragraph E(2) of section 3 each place where that figure appears.

3. Paragraph C of section 3 is revised to read as follows:

C. *General claims section matters.* 1. Claims by the Government and Government owned corporations, other than claims involving fraud, or negligence claims arising out of personal injury or property damage, whenever the amount claimed does not exceed $10,000, exclusive of interest and costs, as follows:

a. Claims for the recovery of the possession of Government personal property or for the conversion thereof, including the conversion of personal property mortgaged to the Government, but excluding conversion claims involving ships, cargoes and other maritime property.

b. Statutory civil penalty and civil monetary forfeiture claims of the Government which are not assigned to any other organizational unit within the Department of Justice.

c. Claims in bankruptcy, insolvency and decedents' estate proceedings involving non-tax debts due the Government.

d. Loan default, contractual and quasi-contractual claims arising under statutes administered by the Department of Agriculture.

e. Contractual and quasi-contractual claims of the Army and Air Force Exchange Service and other non-appropriated fund instrumentalities of the Government.

f. Claims referred upon General Accounting Office certificates of indebtedness, except those involving carriage of goods by water.

g. Loan default, contractual and quasi-contractual claims arising under statutes administered by the General Services Administration.

h. Claims of the Department of Housing and Urban Development on account of loans made or insured by that Department and claims arising under HUD planning advance agreements.

i. Contractual and quasi-contractual claims of the U.S. Postal Service.

j. Claims of the Railroad Retirement Board for the recovery of benefit payments and the enforcement or vindication of RRB liens.

k. Claims of the Small Business Administration arising out of the lending programs of that agency, exeept loans on the security of vessels.

l. Claims by the Treasury Department for the collection of customs duties and for recovery against sureties on customs bonds provided by importers.

m. Claims by the Veterans Administration on account of farm, business and home loans made, guaranteed or insured by that Agency.

n. Claims by the Veterans Administration for the escheat of funds pursuant to 38 U.S.C. 3203(e) and for the vesting of personal estates of deceased veterans pursuant to 38 U.S.C. 5220-5228.

2. Suits in which the United States or an officer or agency thereof or a Government-owned corporation has been made a party defendant pursuant to 28 U.S.C. 2410 in a quiet title, foreclosure, partition or interpleader action because of a lien of the Government and the current lien interest of the Government does not exceed $10,000, exclusive of interest and costs, but excluding suits in which the Government's interest is a tax lien, a lien on a vessel or other maritime property, or in which the lien arises from a criminal fine judgment or judgment on an appearance bond.

4. Existing sections 4, 5, 6, 7, 8 and 9 are renumbered as sections 5, 6, 7, 8, 9 and 10, respectively, and the following new section 4 is inserted:

SEC. 4. *Further delegations.*

Notwithstanding any of the provisions of this Memorandum, Section Chiefs, may delegate to U.S. Attorneys any claims or suits, including those involving amounts greater than as set forth above, and up to the maximum limit of said Section Chiefs' authority, where the circumstances warrant such delegation. Upon recommendations of Section Chiefs, the Assistant Attorney General may delegate to U.S. Attorneys any claims or suits including those involving amounts greater than as set forth above, and up to the maximum limit of said Assistant Attorney General's authority, where the circumstances warrant such delegations. Such further delegations are intended to effect maximum utilization of U.S. Attorneys' resources and provide on-site litigating authority wherever feasible.

IRVING JAFFE,
Acting Assistant Attorney General, Civil Division.

Approved: August 2, 1973.

ELLIOT L. RICHARDSON,
Attorney General.

Title 33—Navigation and Navigable Waters

CHAPTER II—CORPS OF ENGINEERS, DEPARTMENT OF THE ARMY

PART 204—DANGER ZONE REGULATIONS

Florida Bay, Fla.

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1) § 204.86 establishing and governing the use of a danger zone in Florida Bay, Northeast of Pine Islands, Florida is hereby revoked, effective August 9, 1973.

Since the revocation constitutes only a procedural matter, notice of proposed rule making and public procedures thereto are considered unnecessary. Accordingly, § 204.86 *Florida Bay northeast of Pine Islands, Fla., live firing area for strafing,* of Title 33 of the Code of Federal Regulations is hereby revoked.

(Regs., July 16, 1973, 1522-01 (Florida Bay, Fla.) DAEN-CWO-N; Sec. 7, 40 Stat. 266; 33 U.S.C. 1)

Title 41—Public Contracts and Property Management

CHAPTER 14—DEPARTMENT OF THE INTERIOR

PART 14-1—GENERAL

PART 14-7—CONTRACT CLAUSES

Federal Reports Act

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301, Part 14-1 and Part 14-7 of Chapter 14 of Title 41 of the Code of Federal Regulations are hereby amended. The purpose of the amendments is to further implement the Federal Reports Act of 1942.

It is the general policy of the Department of the Interior to allow time for interested parties to participate in the rulemaking process. However, the amendments herein involve administrative procedures. Therefore, the public rulemaking process is waived in this instance and the amendments will become effective on August 20, 1973.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

AUGUST 3, 1973.

1. Part 14-1, subpart 14-1.3, of the Interior Procurement Regulations is amended by adding the following to the table of contents:

Sec.
14-1.351 Federal Reports Act of 1942

2. Part 14-7 of the Interior Procurement Regulations is amended by adding the following to the table of contents:

Subpart 14-7.50—Special Contract Clauses

Sec.
14-7.5001 Federal Reports Act

3. Subpart 14-1.3, General Policies, of the Interior Procurement Regulations is amended by adding the following:

§ 14-1.351 Federal Reports Act of 1942.

(a) *General.* The Federal Reports Act of 1942 (44 U.S.C. 3501 et seq.), requires that no Federal agency shall conduct or sponsor the collection of information, upon identical items, from ten or more public respondents unless the approval of the Office of Management and Budget is obtained in advance of the adoption or revision of any plans or forms for such collection.

(b) *Approvals.* Data requirements shall be defined, cleared with the Department, and approved by the Office of Management and Budget prior to the issuance of solicitations, requests for proposals or contracts which involve the collection of information subject to the Act. Procedures and clearance requirements are contained in the Departmental Manual (305 DM 2) and Office of Management and Budget Circular No. A-40, Revised.

(c) *Clauses.* Solicitations, requests for proposals, and contracts will contain a clause concerning the Act when the contract will require or may require the collection of information subject to the Act. The appropriate clause listed in this § 14-1.351(c) should be used.

(1) When there is uncertainty at the time of contract execution whether collection of information will be required, the following clause should be used:

FEDERAL REPORTS ACT

In the event that it subsequently becomes a contractual requirement to collect information from 10 or more public respondents, the Federal Reports Act shall apply to this contract and the Contractor shall obtain through the Contracting Officer the clearance and approval required by the act and implementing regulations. Funds shall not be expended and contacts shall not be made for the collection of data and information from public respondents until Office of Management and Budget approval is obtained and written notice of approval is given to the Contractor by the Contracting Officer.

(2) When preclearance approval has been obtained but final approval by the Office of Management and Budget has not been obtained, the following clause should be used:

FEDERAL REPORTS ACT

This contract is subject to the Federal Reports Act and has received preclearance by the Department and the Office of Management and Budget but is subject to final approval. The Contractor shall not expend any funds or take any action whatsoever in soliciting data and information from any public respondent until the Contracting Officer has notified the Contractor in writing that Office of Management and Budget final approval has been obtained. The Contractor shall provide the Contracting Officer with any information that is necessary to obtain the final approval.

(3) When Office of Management and Budget approval has been obtained prior to contract execution, the following clause should be used:

FEDERAL REPORTS ACT

This contract is subject to the Federal Reports Act and the required clearances and approvals have been obtained. Office of Management and Budget report number_____ has been assigned. Instructions concerning the application of the clearance will be provided by the Contracting Officer.

4. Part 14-7, Contract Clauses, of the Interior Procurement Regulations is amended by adding a new Subpart 14-7.50 as follows:

Subpart 14-7.50—Special Contract Clauses

§ 14-7.5001 Federal Reports Act.

The appropriate clause set forth in § 14-1.351(c) should be used as prescribed therein when the contract requires or may require the collection of information upon identical items, from ten or more public respondents and is subject to the Federal Reports Act of 1942 (44 U.S.C. 3501 et seq.).

[FR Doc.73-16422 Filed 8-8-73;8:45 am]

CHAPTER 15—ENVIRONMENTAL PROTECTION AGENCY

PART 15-1—GENERAL

Subpart 15-1.3—General Policies

DISPUTES CLAUSE

Section 15-1.318-1, *Contracting Officer's Decision Under a Disputes Clause,* Subpart 15-1.3, Part 15-1, Chapter 15, Title 41 of the Code of Federal Regulations, is hereby amended to emphasize the contracting officer's obligation to secure opinions from technical and legal officers prior to issuance of a final decision under a disputes clause.

Effective date: This regulation will become effective August 9, 1973.

Dated: August 3, 1973.

ROBERT W. FRI,
Acting Administrator.

1. Section 15-1.318-1(a)(1) is amended to read as follows:

§ 15-1.318-1 Contracting officer's decision under a disputes clause.

(a) *Action prior to issuance of a final decision.* (1) In resolving a dispute, the contracting officer must understand that the Environmental Protection Agency (EPA) does not seek litigation as an end in itself. The contracting officer should consider the advisability of attempting to mediate the dispute or hear out the contractor through discussion meetings or other means. The contracting officer is required to effect the prompt determination of disputes arising out of the performance of contracts. He is required to give his personal and independent consideration to the making of each determination to decision with the aid of such technical and legal advice as may be necessary. The contracting officer shall thoroughly examine the project officer's files on the contract to determine the project officer's relationship with the contractor. The contracting officer shall discuss the contractor's claim with the project officer, a representative of the office of the Associate General Counsel, Grants, Contracts and General Administration, and representatives of such other EPA offices as are appropriate to the dispute, e.g., Contracts Management Division, Audit, etc. These representatives shall furnish the contracting officer their respective opinions. However, he must not base his decision on summary advice from members of his legal, technical, and administrative team, since the decision must be the result of the independent judgment and discretion of the contracting officer. He must obtain and study all the facts which bear upon the issue before him. He must insist that his advisors in technical areas give him concrete advice on how to decide and present him with a detailed, understandable statement of the reasoning process by which they arrive at their conclusions.

• • • • •

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Regulation 444]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period August 10–16, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.744 Valencia Orange Regulation 444.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges improved during the past week. Prices f.o.b. averaged $3.42 per carton on a sales volume of 538 carlots during the week ended August 2, 1973, compared with $3.31 per carton on sales of 533 carlots a week earlier. Track and rolling supplies at 333 cars were down 19 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 7, 1973.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period August 10, 1973, through August 16, 1973, are hereby fixed as follows:

(i) District 1: Unlimited;

(ii) District 2: 500,000 cartons;

(iii) District 3: Unlimited.

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 8, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 931]

FRESH BARTLETT PEARS GROWN IN OREGON AND WASHINGTON

Proposed Expenses and Fixing of Rate of Assessment for 1973–74 Fiscal Period

This notice invites written comments relative to the proposed expenses of $18,105, and rate of assessment of one cent per standard western pear box to support the activities of the Northwest Fresh Bartlett Pear Marketing Committee for the 1973–74 fiscal period under marketing Order No. 931.

Consideration is being given to the following proposals submitted by the Northwest Fresh Bartlett Pear Marketing Committee, established pursuant to the marketing agreement and Order No. 931 (7 CFR Part 931), regulating the handling of fresh Bartlett pears grown in Oregon and Washington, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(1) That expenses that are reasonable and likely to be incurred by the Northwest Fresh Bartlett Pear Marketing Committee, during the period July 1, 1973, through June 30, 1974, will amount to $18,105.

(2) That the rate of assessment for such period, payable by each handler in accordance with § 931.41 be fixed at $0.01 per standard western pear box of pears, or an equivalent quantity of pears in other containers or in bulk.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112A, Administration Building, Washington, D.C. 20250, not later than August 24, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: August 6, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division Agricultural Marketing Service.

[7 CFR Part 1207]

POTATO RESEARCH AND PROMOTION PLAN

Proposed Revision of Basis for Board Representation

Consideration is being given to the approval of a proposal to amend the base period to be used to determine representation on the National Potato Promotion Board. The proposal was unanimously recommended by the National Potato Promotion Board, established pursuant to the Potato Research and Promotion Plan (7 CFR Part 1207; 37 FR 5008). The Plan is effective under the Potato Research and Promotion Act (7 U.S.C. 2611–2627).

All persons who desire to submit written data, views, or arguments in connection with this proposal should file the same in quadruplicate with the Hearing Clerk, Room 112–A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than September 10, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Statement of consideration. The National Potato Promotion Board at its 1973 annual meeting unanimously recommended that each future Board's membership be determined on the basis of average potato production during the three preceding years, rather than the one preceding year as is currently used.

The one-year basis for representation results in a Board composition which reflects the relative importance of each State in total U.S. potato production the preceding year. However, this basis can result in significant variation in representation from year to year. For example, because of an unusual sharp drop in production in 1972 mainly due to extreme weather, six States lost a member on the 1973 Board. It is anticipated that some of these States will regain these membership losses in 1974. The effect of such short term variation is a decline in continuity of membership which may be detrimental to operations of the Board.

If the Board's recommendation is adopted, membership on the 1974 Board would reflect 1971–73 average production, the 1975 Board would be based upon 1972–74 production, and so on.

The proposal is as follows:

§ 1207.550 Determination of membership.

Pursuant to § 1207.320(b) and the recommendation of the National Potato Promotion Board, annual membership on the Board shall be determined on the basis of the average potato production of the three preceding years in each of the 48 contiguous States as set forth in the Crop Production Annual Summary Reports issued by the Crop Reporting Board of the U.S. Department of Agriculture.

Dated: August 3, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 10]

FOOD STANDARDS FOR CERTAIN TYPES OF EDIBLE OILS

Termination of Proposal To Develop U.S. Standards of Identity Based on International Codex Standards

In the FEDERAL REGISTER of October 5, 1972 (37 FR 21123), the Commissioner of Food and Drugs published a notice of opportunity for review and informal comment on the Codex Alimentarius Recommended International Standards for Edible Soya Bean Oil (Soybean Oil), Arachis Oil (Peanut Oil), Cottonseed Oil, Sunflowerseed Oil, Rapeseed Oil, Maize Oil (Corn Oil), Sesameseed Oil, Safflowerseed Oil, and Mustardseed Oil. This notice was published in conformity with proposed 21 CFR 10.8 (37 FR 21102). Thirteen responses from consumer organizations, trade associations and industry representatives were received subsequent to receipt of the Codex standards from the Codex Alimentarius Commission or in response to the October 5, 1972 FEDERAL REGISTER notice. The responses are summarized as follows:

1. Four respondents stated that there is no need to promulgate United States standards for the cited oils in view of the domestic laws which now govern the oils marketed in the United States. The comments indicated that these oils are subject to industry trading rules, to the specifications of the United States Department of Agriculture for international trade purchases and exchanges, to Public Law 480, and to various domestic commodity buying procedures. The respondents knew of no conditions existing in the market which would necessitate the promulgation of United States

V 38-153 AUG 9 73 XUM

standards of identity for these oils in order to promote honesty and fair dealing in the interest of consumers.

2. Six respondents recommended that the Codex standards be revised to include separate specifications for the various forms in which such edible oils move in international trade. The respondents stated that the current Codex requirements are, in some instances, too restrictive for once-refined oils or fully refined oils; and in others, too general to be of value.

3. Seven respondents replied that the parameters in the Essential Composition and Quality Factors of the Codex standards as so imprecise that they cannot be depended upon to differentiate the common edible oils. For example, the Codex permissible ranges for the chemical parameters for soybean oil are saponification values of 189–195 and iodine values of 120–143; while those for sunflowerseed oil are 183–194 and 110–143, respectively. The respondents further stated that the physical constants (density and refractive index) and the quality criteria (acid and peroxide values) are also inadequate for differentiation of the oils.

4. Two respondents recommended that gas-liquid chromatographic procedures and other sophisticated techniques which would permit more exact characterization of the fats and oils from their fatty acid composition be utilized. They stated that the Codex standards do not use this procedure, but instead rely on obsolete analytical determinations.

5. Five respondents recommended that safe and suitable nondeceptive colors and flavors be provided in lieu of their specific enumeration in the Codex standards.

6. Two respondents stated that not all the antioxidants, synergists, and antifoaming agents provided in the Codex standards are approved for food use by the Food and Drug Administration, nor are they permitted in certain standardized foods. For example, one respondent noted that soybean oils containing antioxidants, synergists, or antifoaming agents cannot be used in margarine under the present United States standards of identity.

7. One respondent requested that the Codex "Recommended General International Standard for Edible Fats and Oils not covered by the individual Codex standards" (CAC/RS 19–1969) also be published for consideration and comment.

8. One respondent recommended that since edible oils are subject to rancidity, each package label should contain the packaging date and storage instructions.

9. Three respondents stated that sunflowerseed oil has only recently been introduced into the United States commerce. As a result, they have not had sufficient time or experience to document oil characteristics which might be significantly different from oil produced in other parts of the world, and feel that they are not in a position at this time to judge the Codex specifications for sunflowerseed oil. The consensus of the recommendations from the respondents is that the Codex standard for sunflowerseed oil not be accepted until sufficient data are acquired for evaluation of the criteria involved.

Having considered all the comments received and other relevant information, the Commissioner has concluded that there is insufficient interest or need to warrant proposing standards of identity for edible oils at this time pursuant to section 401 of the act.

Therefore, in accordance with 21 CFR 10.8 (38 FR 12396) notice is given that the Commissioner has terminated consideration of developing United States standards of identity based upon the Codex Alimentarius recommended international standards for the edible oils named above. This action is without prejudice to further consideration to the development of United States standards of identity for edible oils upon appropriate justification in the future.

Dated: August 1, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

OTIC AND OPHTHALMIC/OTIC PREPARATIONS

Proposed Revocation and Amendment

In notices published in the FEDERAL REGISTER as indicated below, the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration following evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drugs for otic and/or ophthalmic use:

1. DESI 50205 published August 19, 1971 (36 FR 16130).

Achromycin Ear Solution containing tetracycline hydrochloride and benzocaine; Lederle Laboratories Division, American Cyanamid Co., Pearl River, NY 10965 (NDA 50–275).

2. DESI 8583 published June 23, 1972 (37 FR 12418).

a. Terramycin Ophthalmic-Otic Ointment with Polymyxin B Sulfate containing oxytetracycline hydrochloride and polymyxin B sulfate; Pfizer Inc., 235 East 42d St., New York, NY 10017 (NDA 61–015).

b. Chloromycetin-Polymyxin Ophthalmic Ointment containing chloramphenicol and polymyxin B sulfate; Parke, Davis and Co., Joseph Campau at the River, Detroit, MI 48232 (NDA 50–203).

c. Polysporin Ophthalmic Ointment containing polymyxin B sulfate and zinc bacitracin; Burroughs Wellcome & Co., 3030 Cornwallis Rd., Research Triangle Park, NC 27709 (NDA 61–229).

3. DESI 9152 published June 23, 1972 (37 FR 12419).

Terra-Cortril Eye/Ear Suspension containing oxytetracycline hydrochloride and hydrocortisone acetate; Pfizer, Inc. (NDA 60–016).

4. DESI 9188 published June 6, 1972 (37 FR 11283).

a. Neo-Delta-Cortef Eye/Ear Ointment containing prednisolone acetate and neomycin sulfate; The Upjohn Co., 7171 Portage Rd., Kalamazoo, MI 49002 (NDA 61–039).

b. Neo-Cortef Eye/Ear Drops containing hydrocortisone acetate and neomycin sulfate; The Upjohn Co. (NDA 60–612).

c. Neo-Delta-Cortef Eye/Ear Drops containing prednisolone acetate and neomycin sulfate, The Upjohn Co. (NDA 61–037).

d. Neo-Cortef Eye/Ear Ointment containing hydrocortisone acetate and neomycin sulfate; The Upjohn Co. (NDA 60–610).

e. Neo-Medrol Eye/Ear Ointment containing methylprednisolone and neomycin sulfate. The Upjohn Co. (NDA 60–645).

f. Neo-Hydelthasol Ophthalmic Solution (for eye or ear) containing prednisolone sodium phosphate and neomycin sulfate; Merck, Sharp, and Dohme. Division Merck and Co., Inc., West Point, PA 19486 (NDA 50–379).

g. Neo-Hydeltrasol Ophthalmic Ointment (for eye or ear) containing prednisolone sodium phosphate and neomycin sulfate; Merck, Sharp, and Dohme (NDA 50–378).

h. Neo-Decadron Ophthalmic Ointment (for eye or ear) containing dexamethasone sodium phosphate and neomycin sulfate; Merck, Sharp, and Dohme (NDA 50–324).

i. Neo-Aristocort Eye/Ear Ointment containing triamcinolone acetonide and neomycin sulfate; Lederle Laboratories Division, American Cyanamid Co. (NDA 60–442).

j. Neo-Decadron Ophthalmic Solution (for eye or ear) containing dexamethasone sodium phosphate and neomycin sulfate; Merck, Sharp, and Dohme (NDA 50–322).

k. Cor-Oticin Eye/Ear Suspension containing hydrocortisone acetate and neomycin sulfate; Maurry Biological Co., Inc., 6109 South Western Ave., Los Angeles, CA 90047 (NDA 60–188).

5. DESI 8674 published June 29, 1972 (37 FR 12855).

a. Terramycin Otic with Polymyxin B Sulfate and Benzocaine containing polymyxin B sulfate, oxytetracycline hydrochloride and benzocaine; Pfizer, Inc. (NDA 61–087 (incorrectly published as NDA 60–392)).

b. Otobione Otic Drops containing prednisolone acetate; neomycin sulfate, and sodium proprionate; Schering Corp., 60 Orange St., Bloomfield, NJ 07003 (NDA 50–363).

c. Otobiotic Otic Solution containing neomycin sulfate and sodium propionate; Schering Corp. (NDA 50–364).

d. Biomydrin Otic with Hydrocortisone containing neomycin sulfate, gramicidin, hydrocortisone acetate, thonzylamine hydrochloride and thonzonium bromide; Warner-Chilcott Labortories Division, Warner-Lambert Pharmaceutical Co., 201 Tabor Rd., Morris Plains, NJ 07950 (NDA 50–351).

e. Neo-Cort-Dome Otic Suspension containing hydrocortisone, neomycin sulfate, and acetic acid; Dome Laboratories, Division of Miles Laboratories, Inc., 125 West End Ave., New York, NY 10023 (NDA 50–238).

With the exception of DESI 8583 in which the drugs were regarded as effective and/or possibly effective for labeled indications, the notices stated that the above drugs were regarded as possibly effective and lacking substantial evidence of effectiveness for their labeled otic and/or ophthalmic indications. The possibly effective indications for all of the drugs, including those in DESI 8583, have been reclassified as lacking substantial evidence of effectiveness in that no data have been submitted pursuant to the above-listed notices. Accordingly, this notice proposes to revoke provisions for the certification or release of these drugs for such uses.

In addition to the drugs named above, some of the DESI notices referred to included other preparations not included in this notice. They have been either reclassified as effective or are being allowed to remain on the market, based upon medically justified need, pending reevaluation of the published classifications or completion of scientific studies to determine effectiveness in accordance with the requirements set forth in "Notice of Prescription Drugs for Human Use Affected by Drug Efficacy Study Implementation" published in the FEDERAL REGISTER of December 14, 1972 (37 FR 26623).

In addition to the products mentioned in the published notices, certification of other related products is provided in § 146b.110 *Streptomycin otic with antifungal agent or dihydrostreptomycin otic with antifungal agent; • • •* and § 146e.432 *Bacitracin-neomycin undecylenate otic drops*. Although not reviewed by the Academy, such drugs are regarded as lacking substantial evidence of effectiveness for their labeled indications.

Otalgine Drops containing neomycin undecylenate - tyrothricin - hydrocortisone - ethyleneoxidepolyoxypropylene glycol condensate; Purdue Frederick Co., Yonkers, NY 10701 (NDA 50–066), is on release status and was not reviewed by the Academy or mentioned in the published notices. This drug is also considered lacking substantial evidence of effectiveness for its labeled indications.

Accordingly, the Commissioner concludes that the antibiotic drug regulations should be amended to revoke provisions, where applicable, for certification or release of the above-named antibiotic drugs for otic use in humans. The Commissioner also concludes that the regulations should be amended, as appropriate, to provide separate rather than combined monographs for both ophthalmic and otic preparations.

Therefore, pursuant to provisions of the Federal Food, Drug and Cosmetic Act (secs. 502, 507, 52 Stat. 1050–51, as amended; 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes to amend Chapter I of Title 21, Code of Federal Regulations, as follows:

PART 141b—STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

§ 141b.115 [Revoked]

1. By revoking § 141b.115 *Streptomycin otic with antifungal agent; dihydrostreptomycin otic with antifungal agent* and reserving it for future use.

PART 141c—CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

§ 141c.208 [Revoked]

2. By revoking § 141c.208 *Tetracycline hydrochloride otic* and reserving it for future use.

PART 141e—BACITRACIN AND BACITRACIN-CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

§ 141e.432 [Revoked]

3. By revoking § 141e.432 *Bacitracin-neomycin undecylenate otic drops* and reserving it for future use.

PART 146b—CERTIFICATION OF STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS

§ 146b.110 [Revoked]

4. By revoking § 146b.110 *Streptomycin otic with antifungal agent; • • •* and reserving it for future use.

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

§ 146c.208 [Revoked]

5. By revoking § 146c.208 *Tetracycline hydrochloride otic (tetracycline hydrochloride for ear solution)* and reserving it for future use.

PART 146e—CERTIFICATION OF BACITRACIN AND BACITRACIN-CONTAINING DRUGS

§ 146e.432 [Revoked]

6. By revoking § 146e.432 *Bacitracin-neomycin undecylenate otic drops* and reserving it for future use.

PART 148i—NEOMYCIN SULFATE

7a. By adding new subdivisions (*d*), (*e*), and (*f*) to paragraph (a) (1) (ii) and deleting paragraph (a) (1) (iii) of § 148i.3 to read as follows:

§ 148i.3 Neomycin sulfate ointment; neomycin sulfate _____ ointment (the blank being filled in with the established name(s) of the other active ingredients(s) present in accordance with paragraph (a) (1) of this section).

(a) • • •

(1) • • •

(ii) • • •

(*d*) 1.0 milligram of methylprednisolone; or

(*e*) 1.0 milligram of triamcinolone acetonide; or

(*f*) 2.5 milligrams or 5.0 milligrams of prednisolone acetate.

• • • • • •

§§ 148i.8 and 148i.24 [Revoked]

b. By revoking § 148i.8 *Neomycin sulfate-sodium propionate otic solution; neomycin sulfate-sodium propionate-prednisolone acetate otic solution* and § 148i.24 *Neomycin sulfate-gramicidin-hydrocortisone - thonzylamine hydrochloride-thonzonium bromide otic solution* and reserving them for future use.

c. By revising the section heading and the first and second sentences of paragraph (a) (1) of § 148i.39 to read as follows:

§ 148i.39 Neomycin sulfate-hydrocortisone acetate ophthalmic suspension; neomycin sulfate-prednisolone acetate ophthalmic suspension.

(a) • • •

(1) • • • Neomycin sulfate-hydrocortisone acetate ophthalmic suspension is an aqueous suspension containing, in each milliliter 3.5 milligrams of neomycin and 5 milligrams or 15 milligrams of hydrocortisone acetate. Neomycin sulfate-prednisolone acetate ophthalmic suspension is an aqueous suspension containing, in each milliliter, 3.5 milligrams of neomycin and 2.5 milligrams of prednisolone acetate. • • •

• • • • • •

PART 148n—OXYTETRACYCLINE

8a. By revising the section heading, the first sentence of paragraph (a) (1), and paragraph (b) of § 148n.21 to read as follows:

§ 148n.21 Oxytetracycline hydrochloride-polymyxin B sulfate ophthalmic ointment.

(a) • • •

(1) • • • Oxytetracycline hydrochloride-polymyxin B sulfate ophthalmic ointment is oxytetracycline hydrochloride and polymyxin B sulfate in a suitable and harmless ointment base. • • •

• • • • • •

(b) *Tests and methods of assay—(1) Potency—(i) Oxytetracycline content.* Proceed as directed in § 141.111 of this chapter, preparing the sample for assay as follows: Place an accurately weighed representative portion of the sample into a separatory funnel containing approximately 50 milliliters of peroxide-free ether. Shake the sample and ether until

V 38-153 AUG 9 73 XUM

homogeneous. Add 20 to 25 milliliters of 0.1*N* hydrochloric acid and shake well. Allow the layers to separate. Remove the acid layer and repeat the extraction procedure with each of three more 20 to 25-milliliter quantities of 0.1*N* hydrochloric acid. Combine the extractives in a suitable volumetric flask and fill to volume with 0.1*N* hydrochloric acid. Further dilute an aliquot with 0.1*M* potassium phosphate buffer, pH 4.5 (solution 4), to the reference concentration of 0.24 microgram of oxytetracycline per milliliter (estimated).

(ii) *Polymyxin B content.* Proceed as directed in § 141.110 of this chapter, preparing the sample for assay as follows: Weigh accurately 0.5 to 1 gram of the ointment and place into a 15-milliliter centrifuge tube. Add 10 milliliters of ethyl ether. Stir until contents are homogeneous and centrifuge for 10 minutes at 3,000 revolutions per minute. Decant the supernatant ether. Repeat washing and centrifugation steps once more. Add 10 milliliters of acetone, stir until contents are homogeneous, and centrifuge for 10 minutes at 3,000 revolutions per minute. Decant the supernatant acetone. Repeat acetone wash and centrifugation once more. Continue acetone washings until the yellow color in the residue disappears. Add 3 to 4 drops of polysorbate 80 to residue and mix well. Gently wash residue into a 100-milliliter volumetric flask with 10 percent potassium phosphate buffer, pH 6.0 (solution 6), and further dilute with solution 6 to the reference concentration of 10 units of polymyxin B per milliliter (estimated).

(2) *Moisture.* Proceed as directed in § 141.502 of this chapter.

b. By revising the section heading and the first sentence of paragraph (a)(1) of § 148n.23 to read as follows:

§ 148n.23 Oxytetracycline hydrochloride-hydrocortisone acetate ophthalmic suspension.

(a) • • •

(1) • • • Oxytetracycline hydrochloride-hydrocortisone acetate ophthalmic suspension is oxytetracycline hydrochloride and hydrocortisone acetate in a suitable and harmless oil base containing aluminum tristearate. • • •

• • • • •

§ 148n.28 [Revoked]

c. By revoking § 148n.28 *Oxytetracycline hydrochloride-polymyxin B sulfate-benzocaine for otic solution* and reserving it for future use.

d. By adding the following new section:

§ 148n.30 Oxytetracycline hydrochloride-polymyxin B sulfate otic ointment.

(a) *Requirements for certification—*(1) *Standards of identity, strength, quality, and purity.* Oxytetracycline hydrochloride-polymyxin B sulfate otic ointment is oxytetracycline hydrochloride and polymyxin B sulfate in a suitable and harmless ointment base. Each gram of ointment contains 5 milligrams of oxytetracycline and 10,000 units of polymyxin B. Its moisture content is not more than 1 percent. The oxytetracycline hydrochloride used conforms to the standards prescribed by § 148n.2(a)(1)(i), (vi), (vii), (viii), and (ix). The polymyxin B sulfate used conforms to the standards prescribed by § 148p.1(a)(1)(i), (v), (vi), (vii), and (ix) of this chapter.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 148.3 of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(*a*) The oxytetracycline hydrochloride used in making the batch for potency, moisture, pH, absorptivity, crystallinity, and identity.

(*b*) The polymyxin B sulfate used in making the batch for potency, pH, moisture, residue on ignition, and identity.

(*c*) The batch for oxytetracycline content, polymyxin B content, and moisture.

(ii) Samples required:

(*a*) The oxytetracycline hydrochloride used in making the batch: 10 packages, each containing approximately 300 milligrams.

(*b*) The polymyxin B sulfate used in making the batch: 10 packages, each containing approximately 300 milligrams.

(*c*) The batch: A minimum of 6 immediate containers.

(b) *Tests and methods of assay—*(1) *Potency—*(i) *Oxytetracycline content.* Proceed as directed in § 141.111 of this chapter, preparing the sample for assay as follows: Place an accurately weighed representative portion of the sample into a separatory funnel containing approximately 50 milliliters of peroxide-free ether. Shake the sample and ether until homogenous. Add 20 to 25 milliliters of 0.1*N* hydrochloric acid and shake well. Allow the layers to separate. Remove the acid layer and repeat the extraction procedure with each of three more 20 to 25-milliliter quantities of 0.1*N* hydrochloric acid. Combine the extractives in a suitable volumetric flask and fill to volume with 0.1*N* hydrochloric acid. Further dilute an aliquot with 0.1*M* potassium phosphate buffer, pH 4.5 (solution 4), to the reference concentration of 0.24 microgram of oxytetracycline per milliliter (estimated).

(ii) *Polymyxin B content.* Proceed as directed in § 141.110 of this chapter, preparing the sample for assay as follows: Weight accurately 0.5 to 1 gram of the ointment and place into a 15-milliliter centrifuge tube. Add 10 milliliters of ethyl ether. Stir until contents are homogenous and centrifuge for 10 minutes at 3,000 revolutions per minute. Decant the supernatant ether. Repeat washing and centrifugation steps once more. Add 10 milliliters of acetone, stir until contents are homogenous, and centrifuge for 10 minutes at 3,000 revolutions per minute. Decant the supernatant acetone. Repeat acetone wash and centrifugation once more. Continue acetone washings until the yellow color in the residue disappears. Add 3 to 4 drops of polysorbate 80 to residue and mix well. Gently wash residue into a 100-milliliter volumetric flask with 10 percent potassium phosphate buffer, ph 6.0 (solution 6), and further dilute with solution 6 to the reference concentration of 10 units of polymyxin B per milliliter (estimated).

(2) *Moisture.* Proceed as directed in § 141.502 of this chapter.

Interested persons may, on or before October 9, 1973, file with the Hearing Clerk, Food and Drug Administration, Rm. 6–88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during regular working hours, Monday through Friday.

Dated: August 2, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 73–GL–35]

TRANSITION AREA

Notice of Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Peru, Indiana.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before Sept. 10, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A new public use instrument approach procedure has been developed for the Peru Airport, Peru, Indiana, based on the Kokomo VORTAC. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at Peru, Indiana.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (38 FR 435), the following transition area is added:

PERU, IND.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Peru Airport (latitude 40°47'10"N., longitude 86°08'47"W.), excluding the area which overlies the Kokomo transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act, 49 U.S.C. 1655(c).

Issued in Des Plaines, Illinois, on July 23, 1973.

LYLE K. BROWN,
Director, Great Lakes Region.

[FR Doc.73–16412 Filed 8–8–73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73–RM–22]

TRANSITION AREA

Notice of Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations which would alter the transition area at Sheridan, Wyoming.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Federal Aviation Administration, Park Hill Station, P.O. Box 7213, Denver, Colorado 80207. All communications received on or before September 4, 1973 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 10455 E. 25th Avenue, Aurora, Colorado 80010.

An extension to the existing transition area is necessary in order to provide controlled airspace protection for aircraft executing a transition via the 22 NM DME from V86 to the localizer course.

In view of the foregoing, the FAA proposes to amend the description of the Sheridan, Wyoming, transition area as follows:

In § 71.181 (38 FR 578) after the text "... from 18.5 miles northwest to 34 miles southeast of the VORTAC", add:

• • • and that airspace southeast of Sheridan bounded on the north by a line located 5 miles south of and parallel to the Sheridan VORTAC 104° radial, on the east by a 35-mile radius arc of the Sheridan VORTAC, and on the south by a line located 10 miles north of and parallel to the Sheridan VORTAC 138° radial.

This amendment is proposed under authority of section 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Aurora, Colorado, on July 31, 1973.

M. M. MARTIN,
Director, Rocky Mountain Region.

[FR Doc.73–16411 Filed 8–8–73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73–SO–49]

VOR FEDERAL AIRWAYS

Notice of Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would realign V–97 between Nelson, Ga., Intersection and Knoxville, Tenn., and realign alternate airway V–51W between Nelson Intersection and Hinch Mountain, Tenn.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before Sept. 10, 1973, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An offical docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would:

1. Realign V–97 between Nelson, Ga., Intersection, and Knoxville, Tenn.; via Atlanta, Ga., 003°T (002°M) and Knoxville 203°T (204°M) radials.

2. Realign V–51W between Nelson, Ga., Intersection and Hinch Mountain, Tenn., via Atlanta, Ga., 003°T (002°M) and Hinch Mountain 150°T (149°M) radials.

This amendment would lower the MEA at Nelson Intersection from 9,000 feet to 6,000 feet and permit added traffic control flexibility in the Chattanooga, Tenn., Terminal Area.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on August 3, 1973.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

Federal Railroad Administration

[49 CFR Chapter II]

[Docket No. RSOR–2, Notice 1]

RAILROAD OPERATING RULES

Advance Notice of Proposed Rule Making

The Federal Railroad Administration (FRA) is studying possible courses of action with respect to the development of minimum standards for rules governing the operation of trains and other railroad rolling equipment. The rules would apply to railroads that are part of the general railroad system of transportation and to railroads operating exclusively in rapid transit, commuter, or other short-haul passenger service in a metropolitan or suburban area. The FRA believes that in the area of railroad operating rules early participation by the public will be helpful in selecting a course of action with respect to a number of rule-making problems. In a closely related matter, the FRA published in the FEDERAL REGISTER on May 14, 1973 (38 FR 12617) a notice of proposed rule making that would require railroads to provide the FRA with certain information concerning their operating practices. It is anticipated that the information furnished as a result of that rule making would be useful in developing uniform Federal operating requirements, of which the rules under consideration in this notice would be a part.

BACKGROUND

In the past three years, an average of 7950 train accidents has been reported annually to the FRA. Approximately one-third of those accidents is attributable to human factors, which generally involve noncompliance with operating rules. At present there are no federally prescribed railroad operating rules. The Association of American Railroads' Standard Code of Operating Rules is the foundation on which most railroads have constructed their own rule books. Each railroad then constructs, interprets, and applies its rules as it sees fit according to the conditions under which it operates. The resulting ambiguous construction and varying interpretations of existing rules were cited by the National Transportation Safety Board (NTSB) as a major factor contributing to the property damage and loss of life due to train

V 38-153 AUG 9 73 XUM

accidents. (See the NTSB Special Study: Signals and Operating Rules as Causal Factors in Train Accidents, Report Number: NTSB–RSS–71–3.)

Recognizing the serious safety hazards inherent in the existing operating rules system, the FRA is considering rule making with respect to the three most troublesome causes of serious accidents resulting from human factors. These causes are: (1) failure to operate trains in accordance with restrictive signal indications and other restrictive conditions, (2) excessive speed within yard limits, and (3) failure of crew members to provide adequate flag protection when a train is operated under circumstances in which it may be overtaken by another train. In this notice, FRA is considering developing uniform minimum standards for the four operating rules which are directly involved in these problem areas. The text of these rules appears in the Appendix to this notice.

The first problem area relates to Rule 291 of the AAR's Standard Code of Operating Rules. On most railroads with automatic block signal systems, a signal will display a red aspect, indicating "stop-and-proceed", when its block is occupied by a train, engine or car. This requires a train to come to a full stop before passing the signal, and then to proceed at a restricted speed. The AAR's Standard Code defines restricted speed as: "proceed prepared to stop short of train, obstruction, or switch not properly lined looking out for broken rail, not exceeding ------ miles per hour." It goes on to suggest that 20 m.p.h. be inserted in the blank as a suitable maximum speed. The NTSB study pointed out that this definition itself creates a potential hazard since such a "subjective restricted speed rule puts the safety of the operation directly up to the judgment of the engineer." (p. 4) To compound the problem, Rule 291 also provides that "railroads desiring to avoid stopping trains may arrange accordingly." A few railroads have made such arrangements by providing in their rule books that certain signals displaying red aspects shall indicate "proceed-at-restricted-speed." Thus a train may pass a restrictive signal, without stopping. A number of railroad accidents in recent years have involved trains operating under such arrangements. The FRA believes that the likelihood of an accident would have been greatly reduced in most of these cases if the train involved had been required to come to a full stop at the signal, before proceeding at a clearly defined restricted speed. The development of a "stop-and-proceed" rule by FRA which sets a definite and objective minimum standard of operation, and which can be enforced effectively will counter this unsafe trend in railroad operations.

The second problem area relates to Rule 34 of the AAR's Standard Code and involves the failure of train operators to obey restrictive signal indications, and the failure of other crew members to take timely and appropriate action for the safety of a train when the operator neglects to do so. The regulation to be developed would define what other crew members would be required to do to insure that the train operator operate the train safely, in accordance with all signal indications and operating rules.

The third problem area relates to the AAR's Rule 93 which controls operation of trains within yard limits. The regulation to be developed would begin by defining "yard speed" in objective, miles-per-hour terms. Exceptions to the yard speed limitation would only be permited under certain well-defined conditions which allow movements to be expedited within yard limits without diminishing safety.

The fourth and final problem area addressed by this notice relates to the flagging requirements of the Rule 99 of the AAR's Standard Code. The NTSB study noted that "the vagueness of the flagging rule makes it almost impossible for a flagman to comply with its requirements intelligently. Almost every detail regarding flagging is left to the judgment of the flagman." (p. 4) The FRA believes that the current Rule 99 is basically sound. The regulation to be developed would modify the existing rule so as to more specifically define what is required of crew members in protecting their trains.

Public Participation Requested

The purpose of this advanced notice is to solicit public participation and comment on the nature of the contemplated federal standards for four operating rules. Should these rules be promulgated in the form of minimum standards, allowing individual railroads to enforce more stringent rules of their own; or should such federal standards require absolute uniformity of application to all railroads? How may the present operating rules and practices be strengthened and clarified to improve safety of operations? Interested persons are invited to submit written data, views or comments on these and other questions raised by this notice, including suggestions of appropriate minimum standards and sample versions of the rules referred to herein.

Additional information which responds to the following specific questions would also be useful in the development of these regulations:

AAR RULE 291—STOP-AND-PROCEED AND OTHER PERMISSIVE SIGNAL ASPECT RULES

Is it necessary in the interest of safe operations, for all trains to come to a full stop before entering a block controlled by a signal displaying a permissive signal aspect indicating that the block is not clear?

If such a rule is necessary, should an exception be made which would permit a train to pass a grade signal displaying a permissive signal aspect indicating that the block is not clear? If such an exception is necessary, what is the maximum speed at which a train may safely pass such a signal?

What objective, maximum speed would be suitable for a definition of "restricted speed", keeping in mind that the train must be capable of stopping short of a train, obstruction, or a switch not properly lined?

AAR RULE 34—CALLING OF SIGNAL INDICATIONS

Should the regulation specify that the conductor or certain other crew members must ride in the cab of the locomotive and keep a look out for signals and hazardous conditions along the track?

Should the rule specify courses of action which other crew members in the cab should take when the train operator neglects to stop the train or reduce speed as required? If so, should the regulation require other crew members to operate the emergency brake valve? Under what conditions should other crew members operate the emergency brake?

AAR RULE 93—SPEED WITHIN YARD LIMITS

Should a specific maximum yard speed be prescribed for all trains operating on the main track within yard limits? If so, what speed would be suitable to assure safety?

Should an exception to the yard speed limitation be made when the track is shown to be clear by signal indications? Under such a condition could a train move safely within yard limits at the normal authorized speed?

Should an exception to the yard speed limitation be made to permit a train to move at an increased speed within yard limits when it is seen that the route ahead is clear for at least one mile, and is likely to remain so? If so, what is the maximum speed at which a train should move under such conditions?

AAR RULE 99—PROTECTIVE FLAGGING

Under what circumstances may a train be "overtaken"?

What are "proper intervals" at which to drop fuses?

What actions do the phrase "such other action" refer to in the existing AAR Rule 99?

What is "full protection"?

What is "a sufficient distance to insure full protection"?

What "conditions" require displaying lighted fuses?

When is it "necessary, in addition", to place two torpedoes?

When a person flagging is recalled, how does he determine that the "safety of the train will permit" him to return? What conditions require him to leave the lighted fusees and torpedoes?

When is it "necessary" to protect the front of the train?

Communications should identify the docket number and notice number and be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, 400 Seventh Street, S.W., Washington, D.C. 20590. Communications received before October 15, 1973 will be considered by the FRA in development of a Notice of Proposed Rulemaking. Comments received after that date will be considered so far as practicable. All comments received will be available both before and after the closing date for communications, for examination by interested persons during regular business hours in Room 5428, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590.

This advance notice is issued under the authority of section 202, 84 Stat. 971, 45 U.S.C. 431; and section 1.49(n) of the regulations of the Office of the Secretary of Transportation, 49 C.F.R. 1.49(n).

Issued in Washington, D.C. on August 15, 1973.

JOHN W. INGRAM,
Administrator.

APPENDIX

AAR Rule 34. All members of the crew in cab of engine must, and other members of crew will, when practicable, communicate to each other by its name the indication of each signal affecting the movement of their train or engine as soon as it becomes clearly visible. It is the responsibility of the engineman to know that these requirements are complied with in cab of engine.

AAR Rule 93. Within yard limits the main track may be used, clearing the time of first-class trains at the next station where time is shown. Protection against ---------- class, extra trains and engines is not required ---------- class, extra trains and engines must move within yard limits at yard speed unless the main track is known to be clear.

A train or engine must not be moved against the current of traffic within yard limits until provision has been made for the protection of such movement. (Blanks to be filled by each railroad)

AAR Rule 99. When a train is moving under circumstances in which it may be overtaken by another train, a member of the crew must drop lighted fusees at proper intervals and take such other action as may be necessary to insure full protection.

When a train stops under circumstances in which it may be overtaken by another train, a member of the crew must go back immediately with flagman's signals a sufficient distance to insure full protection. When conditions require he will display lighted fuses and when necessary, in addition, place two torpedoes.

When recalled and safety of the train will permit, he may return and when conditions require, he will leave the lighted fuse and torpedoes.

When a train stops under circumstances in which it may be overtaken by another train, the engineman will immediately sound signal 14(c). When ready to proceed he will recall the flagman.

The front of the train must be protected in the same way when necessary by a member of the crew.

AAR Rule 291. Provides that a train must come to a full stop before passing a signal indicating "Stop-and-Proceed" and may then proceed at restricted speed, i.e., prepared to stop short of train, obstruction, or switch not properly lined looking out for broken rail, not exceeding miles per hour (each railroad may insert a suitable speed not exceeding 20 miles per hour).

TRANSPORTATION CONTROL PLANS FOR CERTAIN STATES

Extension of Public Comment Periods

On July 2, 3, and 16, 1973, transportation control plans were proposed for several areas of the nation. (38 FR 17683, 17782, and 18938.)

Although promulgation was originally scheduled for August 15, 1973, the Court of Appeals for the District of Columbia has granted a request that the deadline for promulgation be October 15, 1973. Accordingly, the period for public comment in writing is hereby extended to August 31, 1973, for proposals for the following States: Alaska, Arizona, California, Indiana, and Utah. The comment period is hereby extended to August 15, 1973, for proposals for the following States: New Jersey, Pennsylvania, and Massachusetts. The comment period for all other plans will remain as published in the FEDERAL REGISTER.

Dated: August 3, 1973.

ALAN G. KIRK II,
Acting Assistant Administrator for Enforcement and General Counsel.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

Proposed Withdrawal and Reservation of Lands

JULY 31, 1973.

The Forest Service, Department of Agriculture, has filed an application, serial number AA–8093, for withdrawal of lands described herein from location and entry under the public mining laws. The withdrawal would designate the lands as a travel influence zone and recreation area. The Forest Service desires that the tract be preserved in a near natural condition because of its pristine and aesthetic values. The land is being used by the public for hiking and camping and during the summer season approximately 5,000 visitor days are spent on the trail. Future use of the area for hunting, hiking, and camping is expected to increase. An appropriation of the land under the mining laws would not be compatible with this use.

All persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views, on or before September 10, 1973, in writing to the undersigned officer of the Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501.

The Department's regulation 43 CFR 2351.4(c) provides that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The land involved in this application is described as follows:

RESURRECTION CREEK TRAIL

TRAVEL INFLUENCE ZONE AND RECREATION AREA

Chugach National Forest Seward Meridian, Alaska

A strip of land ⅛ mile on each side of Resurrection Creek Trail, approximately 5½ miles due south of Hope, Alaska, on the northern Kenai Peninsula between the end of the Hope road and Cooper Landing on the Sterling Highway, beginning at the south boundary of Mineral Survey No. 1449 and continuing up the creek to the summit of Resurrection Pass. All within protracted survey, Ts. 6 and 7 N., R. 3 W.; T. 8 N., Rs. 2 and 3 W.; and T. 9 N., R. 2 W, Seward Meridian.

Containing approximately 2,400 acres in the Kenai Peninsula Borough.

RICHARD L. THOMPSON,
Acting State Director.

MARINE MAMMALS

Administrative and Status Report

The following report of administrative actions and status of marine mammals under the jurisdiction of the Department of Interior is hereby published in the FEDERAL REGISTER in compliance with section 103(f) of the Marine Mammal Protection Act of 1972 (Public Law 92–522). Administration and status of marine mammals is current as of 21 June 1973.

ADMINISTRATIVE ACTIONS

Thirteen applications for economic hardship exemptions under the Marine Mammal Protection Act of 1972 were received between 7 January 1973 and 21 June 1973. As of 21 June, eight of the requests have been acted on. Two exemptions were granted and six were denied. The remaining five applications are currently pending review by the Bureau.

The economic hardship exemptions granted were for scientific research and public display purposes. The scientific project will be conducted on three (3) adult manatees (*Trichechus manatus*) in the waters of Florida. Research will be conducted by Dr. Daniel S. Hartman, World Wildlife Fund, Manatee Research Project. The public display exemption was granted to Sea World, Inc., San Diego, California. The exemption provided for the taking of twelve (12) live Pacific Walrus (*Odobenus rosmarus divergens*) from the area around St. Lawrence Island, Alaska. The animals will be used to stock the Sea World of San Diego and Sea World of Florida facilities.

The six applications denied were for trophy walrus hunts in Alaska.

SUMMARY

STATUS OF MARINE MAMMAL APPLICATIONS AS OF 21 JUNE 1973

Type application	Number received	Number approved	Number rejected	Number pending
Scientific research	2	1		1
Public display	2	1		1
Hunting (trophy)	6		6	
Other (skins, sale of ivory, sale of hides)	3			3

STATUS OF MARINE MAMMALS

POLAR BEAR

(*Ursus maritimus*)

Distribution and migration. Polar bears occur only in the northern hemisphere, nearly always in association with Arctic sea ice. Centers for six geographically isolated polar bear populations which have been identified in the main polar basin are Wrangell Island-western Alaska, northern Alaska-northeastern Canada, northern Canada, Greenland, Spitsbergen-Fran Josef Land, and central Siberia. Separate populations also occur further south in Hudson Bay in Canada. Bears are most abundant near the southern edge of the sea ice but do occur throughout most of the polar basin and have been recorded as far north as 88° N. latitude. They make extensive north-south movements related to the seasonal position of the southern edge of the ice. In winter, bears off Alaska commonly occur as far south as Bering Strait and occasionally reach St. Lawrence Island and even St. Matthew Island in the Bering Sea. In the summer, north of Alaska, the bears commonly occur along the edge of the ice pack between 71° and 72° N. latitude. Pregnant females concentrate for winter denning and bearing young on large offshore Russian islands, northern Canadian islands, and certain of the Spitsbergen islands.

Abundance, trends, and harvest. Total population estimates, which range from a low of 10,000 by the Soviets to a high of 20,000 by the Norwegians, are based on broad assumptions and should be considered an approximation. Abundance of bears off the Alaska coast and the magnitude of sustained long-term harvests suggest that the 20,000 figure may be low. The number of bears seen per hour of flying by Alaska hunting guides has not shown a consistent change since 1956 when data were first collected. Sex composition of the Alaska harvest, between 70 and 80 percent males each year since 1961, has also not shown a tendency to change. Selective hunting has reduced the percentage of mature males in the population. The high percentage of females with young in the population indicates a healthy rate of reproduction. Age composition of bear harvest west of Alaska has not shown a trend in numbers. Age composition of bears harvested north of Alaska declined in 1970 and 1971 and then increased in 1972. The average annual Alaska kill during the 1930's, 1940's, and 1950's was about 120. It gradually increased to about 250 for 1960–1972. The U.S.S.R. believes that polar bear populations in the Soviet Arctic declined during the first half of this century and have now stabilized since hunting was stopped in 1956. Average annual harvests in Spitsbergen were about 300 prior to 1970 and have since been sharply reduced. The harvest in Greenland is 125 to 150 bears per year. Annual harvests in Canada approached 600 during the early 1960's and are now about 450.

General biology. Polar bears, other than family groups of females and young, are solitary most of the year. During the breeding season in late March, April, and May, males actively seek out females by following their tracks on the sea ice. Bears are polygamous and a male remains with a female for a relatively short time and then seeks another female. Delayed implantation probably occurs. Pregnant females seek out denning areas, generally in October. Known denning concentration areas occur on Russian, Canadian, and Spitsbergen islands. Bears den along sections of the Greenland coast and to a limited extent on the north Alaska coast. Some denning occurs on heavy pack ice north of Alaska. Bears most commonly den under banks along the coast or rivers or on slopes where snow drifts. A denning female commonly forms a depression in the snow and then enlarges a denning chamber as snow drifts over her. Young, weighing between 0.4 and 0.9 kg, are born in December. A litter of two is the most common, one is quite common, and three is rare. The female and cubs break out of the den in late March or early April when the cubs weigh about 6.8 kg. They make short trips to and from the opened den for several days as the cubs become acclimated to outside temperatures. If the den is on land, the family group then travels to the sea ice. In most sections of the Arctic, young remain with the mother until they are about 28 months old. In Spitsbergen, family breakup occurs when cubs are about 16 months old; possibly milder weather and better feeding conditions allow them to develop faster there than in other areas. Females breed again at about the time they separate from their young; so normally they can produce litters every third year. Females can first breed at 3 or 4 and males at 4 years, of age, but some animals are older at first breeding. Most bears do not live beyond 25 years. Mature females off the Alaskan coast weight 181 to 317 kg and mature males 317 to 634 kg. Animals west of Alaska are larger than animals north of Alaska. Polar bears feed primarily on ringed seals and also on bearded seals, harp seals, and bladdernose seals. They occasionally eat carrion, including whale, walrus, and seal carcasses, and small mammals, birds, eggs, and vegetation when other food is not available. Approximately 60 percent of Alaska bears harbor *Trichinella spiralis*, apparently obtained from seals and other marine mammals, garbage, and possibly carcasses of other bears. Polar bear liver is toxic if eaten because of its high vitamin A content.

Ecological problems. Long term climatic trends probably have a major impact on bear populations. Warming trends restrict areas that are suitable for denning and feeding, and cooling trends favor expansion of populations. Human development, especially that associated with oil extraction, poses the greatest immediate threat to polar bears. Oil exploration and drilling in denning areas could cause bears to den in less suitable areas. Oil spills from offshore drilling or transporting of oil through ice covered waters could reduce insulating value of bears' fur and also adversely affect the food chain below them. Ice would hinder or prevent containing of a spill, and currents could distribute oil over large areas. Mercury and low levels of DDT and PCB's have been found in issue samples of all Alaskan bears checked for these contaminants.

Allocation problems. In Alaska after about 1950, trophy hunting with aircraft largely replaced Native hunting from the ground for subsistence and the sale of hides. Use of airplanes for hunting has been severely criticized in recent years, and some preservationists would like to stop even the small amount of hunting which coastal residents now do from the ground. The U.S.S.R. believes that bear stocks off the Siberian coast have been reduced and restricts taking to a few cubs for zoos. Until recent years, Norwegian sealers killed bears as predators, Spitsbergen trappers baited bears to set guns to obtain hides for sale, and trophy hunters took bears from Norwegian boats in the summer. The present belief in Norway is that only a few residents of Spitsbergen should take bears and that set guns should not be allowed. In Greenland the harvest is limited to Eskimos or long term residents primarily for subsistence and personal use of skins. The Canadian harvest has traditionally been by Eskimos for subsistence and to obtain skins for sale. Trophy hunting from the ground is starting in Canada and is being encouraged by managing agencies.

Regulations. In past years, regulations to limit polar bear harvests in Alaska were hunting seasons, bag limits, a permit system, limits on the number of hunts by individual guides, and protection for young and for females with young. Two management areas were established, one to the west of Alaska and and one to the north of Alaska. Residents were allowed to hunt bears at any time for food, provided aircraft were not used. Hides and skulls of all bears taken had to be presented to the Alaska Department of Fish and Game within 30 days for examination, sealing, and removal of a tooth for age determination. Alaska banned the use of aircraft for hunting polar bears after 1 July 1972, and lengthened the season to encourage sport hunting from the ground. The Federal Marine Mammal Protection Act of 1972 assumed management authority for polar bears and limited their harvest to Alaska coastal Eskimos for subsistence or for manufacture of traditional Native articles of clothing or handicraft. The Marine Mammal Act removed restrictions on harvest of cubs and females with cubs by Natives. The demand for illegal trophy hunts and skins, and the difficulties of monitoring small aircraft operators on the high seas, will probably cause some significant enforcement problems. The U.S.S.R. has not allowed polar bear hunting since 1956. Norway has stopped set gun and trophy hunting and is now considering a 5-year moratorium on all harvesting because recent studies indicate that their polar bear population is smaller than previously believed. In Greenland only Eskimos or long term residents may take bears and the hunters must use traditional ground methods of hunting. In Canada, prior to 1968, Es-

V 38-153 AUG 9 73 XUM

kimos hunting from the ground took bears with few restrictions.

The Northwest Territories, where most bears are taken, has now established polar bear hunting district, with quotas. Trophy hunters may purchase a permit to take a bear from a district provided a resident is used as a guide. The five nations cooperating in polar bear studies are considering an interim agreement to ban hunting on the high seas until a treaty for management and research can be put into effect.

Current research and funding. The governments of Norway, Canada, and the United States are conducting intensive long-term investigations. The U.S.S.R. has a limited government research program and the Danish government is planning research in Greenland. Norwegian government funds are supplemented by grant and university funds. Short-term university projects complement government programs in Canada. The Federal Government and the State of Alaska fund the United States program. Research programs are coordinated internationally by the Polar Bear Specialist Group under the auspices of the International Union for the Conservation of Nature.

SEA OTTER

(ENHYDRA LUTRIS)

Distribution and Migration. Populations in waters of the United States are resident (the sea otter is not migratory) along the west coast of North America from Central California north to Prince William Sound and westward along the Aleutian Chain to Attu Island (Kenyon, 1969). In waters of the U.S.S.R. the sea otter occurs at the Commander Islands, along the southern Kamchatka Peninsula and among the Kuril Islands (Nikolaev, 1961). It seldom ranges offshore beyond the 30 fathom (180 foot) depth curve (Kenyon, 1969).

Abundance and Trends. In 1956 the Alaska sea otter population, based on aerial surveys, was estimated at about 25,000 animals and increasing exponentially at about 4 to 5 percent per year; the world population was estimated at 32,000 to 35,000 animals (Kenyon, 1969, p. 200). In 1970 after additional surveys, the Alaska population estimate was 50,000 (K. B. Schneider, pers. comm., 1970). Refined techniques and additional surveys, using a variety of methods, yielded a 1972 Alaska population estimate of 100,000 to 125,000 animals and still increasing (Schneider, 1973). The Alaska Department of Fish and Game (1973) published a breakdown of sea otter population estimates according to Game Management units. The total estimates taken from this publication are 101,050 to 121,050 otters.

The sea otter has received a high measure of protection by both Federal and State laws since 1911 and is not subject to any aboriginal hunting. Prior to 1741, a large coastal native population had exploited the sea otter for some thousands of years (Laughlin, 1970; and Laughlin and Reeder, 1962). Thus, the sea otter today (where it has repopulated habitat left vacant by 18th and 19th century exploitation) is probably more abundant than it has been for centuries.

Otters from Amchitka Island and Prince William Sound were transplanted to the following locations: southeastern Alaska in 1965, 1966, 1968 and 1969 (total 413); British Columbia in 1969, 1970 and 1972 (total 89); Washington in 1969 and 1970 (total 59); Oregon in 1970 and 1971 (total 93); and the Pribilof Islands in 1959 and 1968 (total 64). (All transplant figures are from J. S. Vania and are contained in unpublished reports of the Alaska Department of Fish and Game and annual reports of the Marine Mammal Committee of the American Society of Mammalogists, 1965–1973.) Among transplanted otters, young have been observed in southeastern Alaska (J. S. Vania, pers. comm., 1973); British Columbia (M. J. Bigg, pers. comm., 1973); and Oregon (Jameson, 1973). Survival on release ranged from poor to excellent, so the numbers of animals reported transplanted is of variable significance.

California population counts are as follows: about 150 in 1938 (Bolin, 1938); 638 in August 1957 (Boolootian, 1961); 1014 in August 1968 (Peterson and Odemar, 1969); and 1060 in January, 1972 (Wild, 1972). Otters occur from Monterey Bay, California, south to Morro Bay and are extending their range north and south (Peterson and Odemar, 1969; and P. W. Wild, June 1973, pers. comm.). Wild (1972) estimates the total California population at 1,200 to 1,500 animals. The counts indicate that the population is following a nearly constant growth curve.

A refuge was established to protect the sea otter on the central California coast. When the refuge was established in 1941, it consisted of two separate areas, both in Monterey County. Area 1 extended from Malpaso Creek to Swiss Canyon Arroyo, which is just south of Pt. Sur. This refuge area consisted of about 15 linear miles of coast. There was a break, probably because the highway runs inland here. Area 2 began at Castro Canyon, i.e., Pfiefer Point, and continued south to Dolan Creek, or on some maps Dolan Canyon, a distance of approximately 10 miles.

In 1959 the refuge was increased to a continuous linear distance of approximately 100 miles, beginning at the mouth of the Carmel River and continuing south to Santa Rosa Creek near Cambria. The area is open to sport abalone fishing for its entire length and is only partially closed to commercial abalone fishing. Commercial abalone fishing is permitted south of Yankee Point.

A survey of 15 and 16 April 1971 showed that approximately 48 percent of the otters were outside of the refuge area. Of 902 otters counted, 275 were north of the refuge in the Monterey area and 162 were south of the refuge; three were recently seen near Santa Cruz.

No reliable figures are available for numbers of otters killed but Ebert (pers. comm., 3 June 1971) reported 40 or 50 during the previous year.

General Biology (from Kenyon, 1969). The sea otter is the largest member of the family Mustelidae, reaching a length of 148 cm and a weight of 45.4 kg. It becomes sexually mature at about 4 years of age and bears a single young, weighing approximately 2.3 kg, about every 2 years. The pup nurses for 10 to 12 months, but during this period often takes solid food gathered by the mother. The mother is very attentive to her young. Most of the young are born during the summer but births, and mating, may occur at any season. Breeding behavior is promiscuous. A mating male and female remain together for as long as 3 days. The anatomy of reproduction was studied by Sinha, Conaway and Kenyon (1966). The dense underfur is about 1 inch long; the guard hairs are about 0.25 inch longer. A healthy animal may accumulate considerable body fat but there is no layer of blubber.

The sea otter is, therefore, dependent for insulation from cool (35° to 50° F.) marine waters on the air blanket retained among the 800,000,000 pelage fibers (V. B. Scheffer, in Kenyon, 1969, p. 32).

Mortality at Amchitka Island (the only area studied intensively) is greatest in winter and early spring. A dense population there depleted food organisms, and starvation occurred during stormy weather. Young, deserted by mothers during storms, accounted for 70 percent of the mortality. The remaining 30 percent were predominantly animals showing signs of old age. Most of the dead animals exhibited signs of starvation and enteritis. Internal parasites include Trematoda (4 spp.), Cestoda (2 spp.), Nematoda (1 sp.), and Acanthocephala (5 or possibly 6 spp.) (Daily and Brownell, 1972). A nasal mite, the only ectoparasite found, is common in harbor seals but occurred rarely in the sea otter (infestation from contact on common hauling out places is suspected; Kenyon, Yunker and Newell, 1962).

Ecological problems. In several Aleutian Island areas the sea otter has overpopulated its habitat and depleted food resources; population declines were observed (Kenyon, 1969, p. 167). Oil pollution of waters occupied by sea otters would be fatal to them. Pesticide residues have been found in California sea otters (Vandevere and Mattison, 1970), but the effect on them is unknown.

Allocation problems. There is conflict over management of the population off the coast of California, because the sea otter is a predator of the abalone. An organized group (Friends of the Sea Otter, Big Sur, California 93920) want the population completely protected so that it can expand into its original range. Abalone fishermen, both commercial and sport, want the population controlled and limited to the refuge and areas where the abalone is not abundant.

From 1962 through 1969, the State of Alaska took 2,933 pelts for sale at auction, but the enterprise was of marginal financial success (J. S. Vania, pers. comm., 1973). No harvest of skins has been taken since 1969. The final sale of 402 skins took place on 9 February 1972.

Regulations. The sea otter is protected by the Marine Mammal Protection Act of 1972 (PL 92–522). In California it is listed as a completely protected animal.

Current research and funding of sea otter studies. The State of Alaska employed one full-time biologist (Karl B. Schneider) from 1965 to 1973. The Bureau of Sport Fisheries and Wildlife employed one full-time biologist (Karl W. Kenyon) from 1955 to 1973. A new biologist will be assigned in mid-1973. The California Department of Fish and Game employs one full-time biologist (Paul W. Wild) and an assistant (Jack Ames). This program began in 1968 and continues. The Owings Foundation, privately endowed, employs Judson Vandevere as a full-time sea otter naturalist.

PACIFIC WALRUS

(*Odobenus rosmarus*)

Distribution and migration. The entire population winters in the seasonal pack ice of the Bering Sea. When the ice was at maximum extent in April 1972, concentration of walruses were found north and south of the west end of St. Lawrence Island and in central Bristol Bay (Kenyon, 1972). Areas of sparse abundance surround the areas of concentration. Ice movements caused by currents of wind and water create leads and break up pack ice. Walruses are thus able to feed in water 30 to 42 fathoms (180 to 252 feet) deep.

In migration, there may be two or more peaks, depending on weather and ice conditions. From mid-May to early June most females and young move through Bering Strait with ice carried by strong currents. In mid-June large numbers of males move north (Burns, 1970). However, Brooks (1954) recorded that about 1,000 adult and subadult males traditionally remain throughout the summer on and near Round Island in northern Bristol Bay. In June 1958 Kenyon estimated the numer there at 1,500 to 2,000 (Kenyon, 1960), and in 1966 Burns (1967) reported 2,000 to 3,000 on shore plus additional animals in the waters. Other haul-out areas may be used in winter. In 1962 and 1965 small numbers (100 to 150) were seen on beaches of Amak Island (Kenyon and King, 1965). Burns (1967) recorded that "several thousand" were hauled out on the east shore of Big Diomede Island in December 1966 and, at the same time, between 1,000 and 1,500 came ashore on the Punuk Islands, south of St. Lawrence Island.

In the west, walruses haul out on Ruder Spit (Gulf of Anadyr), Arakamchechen Island (Bering Strait) and on Cape Intsova (in the Chukchi Sea) (Nikulin, 1947). At one site, Cape Intsova, Nikulin (1947) observed that the first walruses came ashore on 8 August and by 10 October there were about 8,000 hauled out.

During the northward spring migration into the Arctic Ocean, the majority of walruses pass through the western side of Bering Strait and proceed westward to Wrangell Island. Here, Krylov (1966) identified three types of hauling grounds: those used by mothers with young, those used by adult males, and those used by subadults. Few walruses and no mothers with young move eastward into the Beaufort Sea.

Abundance and trends. Prior to large-scale exploitation by whalers of European descent which began in about 1868 (Allen, 1880, p. 185), the Pacific walrus was estimated to number about 200,000 animals (Fay, 1957). Fay (1957) estimated that the population may have fallen to a low of 40,000 to 50,000 in the 1950 to 1956 period. Beginning in 1960, aerial surveys of walruses were undertaken. From data obtained on the five surveys (two in 1960, one each in 1961, 1968 and 1972), total estimates were computed by extending the number of animals observed in a 1 mile flight track to the estimated area occupied by walruses. From the 1960 surveys, the total population was estimated to range from 73,000 to 117,000 (Kenyon, 1960). The 1972 surveys provided a median esti-

V 38-153 AUG 9 73 XUM

mate of 135,000 walruses, and a range of 93,000 to 178,000 (Kenyon, 1972). Bychkov (1971), quoting Shustov (1969), however, estimates the present population at 45,000 to 46,000. J. J. Burns has gathered much basic biological information from walruses taken by Eskimos. From this, his estimate of the walrus population approximates the computed mean of the 1972 aerial survey (pers. comm., 1973). He considers that the similar results obtained by the very different methods confirm a population of approximately 140,000 walruses. Studies of his material, as well as a comparison of the 1960 and 1972 surveys, indicate that the population may still be increasing. Burns (1967) considers, however, that the population will not continue to increase if the annual kill is increased.

Annual hunting mortality rates, using Ricker's (1948) "catch curve," are estimated as follows: 11 percent (Fay, 1955), 15 percent (Fay, 1960), 12 to 15 percent (Harbo, 1961), and 13 percent (Burns, 1967). Among males from 14 to 33 years of age, the mortality rate was 14 percent (Burns, 1967).

The take of walruses in Alaska in 1972 was about 1,350 animals (945 adult males, 270 adult females, and 135 calves) (J. J. Burns, pers. comm., 1973). This is about an average take. In 1966 the take was unusually high at 2,788 animals (Burns, 1967). Considering that about 50 percent of the animals killed are lost (Burns, 1967), the annual kill may range from about 2,700 to 5,600 animals.

General biology. Only one pinniped, the southern elephant seal, is larger than the Pacific walrus. The following data are provided by Fay (MS). An adult male weighed 1,557 kg. The maximum standard length of 23 adult males was 356 cm. Among 26 adult females the maximum weight was 1,062 kg and the maximum length was 238 cm. From a sample of newborn young the maximum weight was 77 kg and the maximum length was 137 cm. Some females ovulate for the first time at age 5; others, more rarely, are delayed until age 8. Males become fertile at ages 7 to 8 years but are not physically mature until they are at least 10 years old. The walrus is polygamous, with a mid-season sex ratio of 5 cows to 1 bull in the main breeding area southwest of St. Lawrence Island. The gestation period, including a 3 to 3½ month delayed implantation, is about 15 months. The young are usually born in May, during the spring migration northward. Each female bears a single calf and nurses it about 2 years. The females and young are very gregarious; males are gregarious outside the breeding season. Studies of cementum layers in canine teeth indicate that walruses often attain ages of 20 to 30 years, with maximum ages of 37 years for a male and 26 years for a female.

Walruses, having a greater specific gravity than water, must rest on ice or land at fairly frequent intervals (Nikulin, 1947). By means of pharyngeal pouches that may be inflated, however, walruses are able to sleep while floating upright at sea (Fay, 1960).

Brooks (1954) recorded information on food habits. Clams (six species identified) are the most important food species. The stomach contents of an adult male contained about 50 pounds of *Mya truncata* siphons and 35 pounds of *Clinocardium nuttalli* feet. Other food includes echinoderms, annelids, sipunculids, and priapulids. Occasionally individual adult males turn to a diet of seal flesh (Fay, 1960).

Parasites and diseases. Internal parasites recorded from walruses include the following: Trematoda (3 spp.), Cestoda (3 spp.), Nematoda (6 spp.), and Acanthocephala (4 spp.) (Dailey and Brownell, 1972). All walruses except calves are infested with external parasites, including three species of sucking lice (Brooks, 1954). A small percentage of adult male walruses become carnivorous and feed on seal flesh. Probably it is this abnormal feeding behavior that accounts for trichinosis infection of from 1 to 10 percent of 1,060 male walruses sampled from four arctic region (Fay, 1960). Incidence of uterine cysts and other disease conditions is low, as far as is known, and such diseases and abnormalities appear to unimportant (Brooks, 1954).

Ecological problems. Dredging for gold and offshore drilling for oil in the Bering and Arctic Seas are activities now under consideration by industry (J. J. Burns, pers. comm., 1973). The extensive clam beds, which furnish the basic food resource of the walrus, are not yet subject to human exploitation. If dredging for clams is undertaken, the food base of the Pacific walrus could be seriously threatened. Also of concern is the frequent harassment of walrus by aircraft when they are hauled out in summer on the Walrus Islands State Game Sanctuary (Togiak Bay), Bristol Bay.

Allocation problems. Siberian and Alaskan Natives kill 5,000 to 6,000 walruses annually for subsistence, and less than 50 were taken per year by trophy hunters and for display in marine aquariums. Loss of walruses during hunting ranges from 20 to 60 percent and averages about 50 percent because of inefficient Eskimo hunting techniques. Additional waste occurs in the utilization of the products of retrieved walruses. If ivory is the primary objective, utilization amounts to as little as 1 to 3 percent of the potential. When meat and hides are used, utilization is as high as 90 percent of the carcasses taken (Burns, 1967).

Regulations. Trophy hunting was stopped by the Marine Mammal Protection Act of 1972 (PL 92–522). Requested trophy hunting permits by guides under the hardship clause were not issued by the Secretary of the Interior (J. S. Vania, pers. comm., 1973). The taking of walruses by Native Alaskans (Eskimos and Aleuts) for meat, hides, and ivory which may be used to manufacture traditional artifacts for sale is permitted. PL 92–522 allows Natives to take an unlimited number of male and female walruses. The Alaska State law, which the Federal legislation invalidated was more restrictive. It imposed a bag limit of 5 females per resident hunter with no limit on males (Burns, 1967).

Current research and funding of walrus studies. No full-time walrus research program *per se* has been established. The Bureau of Sport Fisheries and Wildlife in cooperation with the Alaska Department of Fish and Game furnished personnel and funded the aerial surveys, F. H. Fay, U.S. Department of Health, Education, and Welfare, has worked part-time for many years on walrus studies. In the 1973 hunting season the Alaska Department of Fish and Game maintained observers on St. Lawrence Island and on Little Diomede (J. S. Vania, pers. comm., 1973) and also on King Island (F. H. Fay, pers. comm., 1973) to monitor the kill. Studies have also been supported under the Sea Grant Program, University of Alaska.

ATLANTIC WALRUS

(ODOBENUS ROSMARUS ROSMARUS)

Distribution and migration. The Atlantic walrus is found in open waters near ice in the Arctic and Atlantic Oceans. There appear to be two breeding groups: (1) Kara Sea to eastern Greenland and (2) western Greenland and eastern Canada. Most animals migrate south in winter and move north in the spring as the ice retreats. Stormy weather may occasionally force overland travel.

Abundance and trends. No figures on numbers are available since 1967 when the estimate was 25,000. The average annual kill is estimated at 2,700 and the annual increment is believed to be between 12 and 20 percent. Any increase in kill would seriously jeopardize this subspecies. Herds in the Barnets, Kara, and White Seas are reported to be close to extinction.

General biology. This subspecies is smaller than the Pacific walrus with males averaging 680 kg and female 566 kg. Gestation period is thought to be 10 to 11 months with one young produced every other year. The young nurse for as long as 24 months.

Ecological problems. Dredging or other disturbance of clam beds would probably threaten the primary food base of the walrus.

Allocation problems. Eskimo hunters kill about 2,700 per year with the meat being used primarily for dog food and the tusks used for carving figurines and tools. The number of animals lost after killing is probably high.

Regulations. Since 1956 the U.S.S.R. has prohibited all hunting except that necessary to meet the needs of the Eskimo people. Denmark limits the take to Greenland residents using craft under 40 tons. Hunting areas and dates are also specified. Canada limits killing to Eskimos and a few white residents. The Atlantic walrus is not covered by Endangered Species Treaty.

AMERICAN MANATEE

(TRICHECHUS MANATUS)

Distribution and migration. Manatees inhabit sluggish rivers, shallow estuaries, and salt-water bays of eastern North and South America from Florida and southern Georgia to Guiana, including the West Indies. There seems to be an irregular intermixing of animals between population concentrations in certain estuarine and riverine habitats. This intermixing is probably effected by offshore migrations. During winter cold spells, manatees congregate in warm-water discharges from power plants and natural springs.

Abundance and trends. Manatees are classified as an endangered species. The total population in the United States probably numbers between 2,000 and 4,000. Manatees are increasing on the central west coast of Florida; elsewhere the number of animals appears to be stable or decreasing.

General biology. Manatees are massive, fusiform, thick-skinned, nearly hairless aquatic mammals. The skeleton is dense and heavy (pachyostosis). The forelimbs are paddlelike, the hind limbs are lacking, and the tail is horizontally flattened. The cheek teeth are replaced consecutively from the rear. The maximum recorded weight is 680 kg; average weight is 360 to 540 kg. Maximum recorded length is 460 cm; average length, 300 cm. Their diet is strictly herbivorous, consisting of vascular aquatic vegetation found in fresh, brackish, or salt water. The gestation period is believed to be between 385 and 400 days. Manatees are uniparous; twins are rare. The calves are born and nursed in the water. Weights and lengths of calves at birth range from 28 to 32 kg and from 100 to 130 cm, respectively. The reproductive rate is probably one calf per adult female every 2½ to 3 years. The calves are born throughout the year.

Pleurisy and bronchial pneumonia from exposure to cold have been responsible for the deaths of captive manatees and may be the cause of fatalities in the wild during unusually low temperatures.

Ecological problems. There is no indication that sharks, crocodilians, or other aquatic animals prey on manatees. Man appears to be the only threat to the manatee's survival in the United States. Wounds inflicted by boat propellers are apparently a chief cause of mortality among manatees. Also important is the destruction of the manatee's food resources following water contamination. Industrial effluents, notably in upper Tampa Bay, seem to have eliminated the plants on which the animals normally feed. In the St. Johns River a combination of two factors, dredging to facilitate passage of oil barges and spraying of herbicides to control water hyacinth, have in places drastically altered the composition and abundance of aquatic vegetation. In the absence of their preferred foods, manatees in the St. Johns watershed have adopted water hyacinth as a substitute staple. The toll of manatees killed by vandals, poachers, and inadvertently, by net fishermen, must also be considered in any appraisal of the species' future in the United States.

Allocation problems. The use of manatees in small scale weed clearing operations is feasible but limited in Florida's temperate climate by the animals' need for warm-water refugia during cold weather. Difficulties involved in the capture, transport, and maintenance of manatees seem, at this time, to outweigh their utility. Another problem has been the failure of manatees to breed in a captive or semicaptive situation. Hopes to "farm" manatees as a potential source of protein are presently unrealistic. The vast number of animals required for sustaining a business, and the manatee's slow reproductive capability, should deter such ventures.

Regulations. The manatee is completely protected in the United States by the Marine Mammal Protection Act of 1972.

Current research and funding: Dr. D. S. Hartman is conducting a year-long study of the manatee's status and distribution in Florida and Georgia (December 1972 through December 1973). The study is being funded by the World Wildlife Fund, the Office of Endangered Species (Bureau of Sport Fisheries and Wildlife, U.S. Department of the Interior), and the Friends of the Earth Foundation.

DUGONG

(DUGONG DUGON)

Distribution and migration. The dugong lives in tropical bays and estuaries of the Red Sea, east coast of Africa, Bay of Bengal, Malay Archipelago, the Moluccas as far as the Philippines, New Guinea, and the tropical Australian coast. The species are tropical warm water animals not ranging far to sea or

V 38-153 AUG 9 73 XUM

into fresh water, and never leaving the water.

Abundance and trends. The dugong is nearing extinction in some areas with nearly all portions of its range showing a great decline. The only stable population appears to be that off the northern Australian coast.

General biology. Dugongs are large fusiform marine mammals with a thick skin, heavy skeleton, flipperlike forelimbs and a broadly notched horizontal tail fin. Average length as adults is 250 to 320 cm and weight is 140 to 300 kg. Skin color ranges from blue-grey to brown. Males possess short tusklike incisors. Breeding apparently lasts throughout the year with a single young born after a gestation of 11 months. Calves are born and nursed in the water.

Ecological problems. Man is apparently the major threat to the dugong's existence at this time although climatic changes are probably responsible for its historical scarcity. Dugongs are widely and intensively hunted for flesh, oil, hides and tusks. An adult dugong will yield from 5 to 6 gallons of oil, which is used for medicinal purposes. The "tears" and pulverized tusks are valued in some areas as aphrodisiacs. Keels and propellers of powerboats often inflict mortal wounds. Oil spills, effluent and general pollution of coastal waters are also potential dangers inasmuch as they affect the food plants and general health of the dugong.

Regulations. The dugong is totally protected in Australian waters, except that it can be taken by Aborigines for their own use. It is protected by law in many other parts of its range also, but the laws are seldom enforced. The species is listed in Appendices I and II of "Endangered Species" Treaty.

F. V. SCHMIDT,
Acting Director, Bureau of Sport Fisheries and Wildlife.

SAVANNAH NATIONAL WILDLIFE REFUGE

Public Hearing Regarding Wilderness Proposal

Notice is hereby given in accordance with provisions of the Wilderness Act of September 3, 1964 (P.L. 88-577, 78 Stat. 890-896, 16 U.S.C. 1131-1136), that a public hearing will be held beginning at 9 a.m. on September 27, at the U.S. Court House, Room 108, Bull and State Streets, Savannah, Georgia, 31401, and to be continued on September 27, at 7:00 p.m., at the Hardeeville Elementary School Auditorium, Hardeeville, South Carolina 29927, on a proposal leading to a recommendation to be made to the President of the United States by the Secretary of the Interior regarding the desirability of including a portion of the Savannah Refuge within the National Wilderness Preservation System. The wilderness study included the entire acreage within Savannah National Wildlife Refuge, which is located in Jasper County, State of South Carolina, and Chatham County, State of Georgia.

A study summary containing a map and information on the Savannah Wilderness proposal may be obtained from the Refuge Manager, Savannah National Wildlife Refuge, Route 1, Hardeeville, South Carolina 29927, or the Regional Director, Bureau of Sport Fisheries and Wildlife, 17 Executive Park Drive, NE., Atlanta, Georgia 30329.

Individuals or organizations may express their oral or written views by appearing at this hearing, or they may submit written comments for inclusion in the official record of the hearing to the Regional Director at the above address by October 29, 1973.

F. V. SCHMIDT,
Acting Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 6, 1973.

[FR Doc.73-16490 Filed 8-8-73;8:45 am]

National Park Service

GLACIER NATIONAL PARK, MONT.

Public Hearing Regarding Wilderness Proposal

Notice is hereby given in accordance with the provisions of the Act of September 3, 1964 (78 Stat. 890, 892; 16 U.S.C. 1131, 1132), and in accordance with Departmental procedures as identified in 43 CFR 19.5 that public hearings will be held beginning at 6:00 p.m. On October 15, 1973, in the Rainbow Room, Rainbow Hotel, 20 Third Avenue North, Great Falls, Montana, and on October 18, 1973, 6:00 p.m. at the Elks Club, Highway 93 South, Kalispell, Montana, for the purpose of receiving comments and suggestions as to the appropriateness of a proposal for the establishment of wilderness comprising about 917,600 acres within the Glacier National Park, Flathead and Glacier Counties, Montana.

A packet containing a draft master plan and preliminary wilderness study report, and providing additional information about the proposal, may be obtained from the Superintendent, Glacier National Park, West Glacier, Montana 59936, or from the Regional Director, Midwest Region, National Park Service, 1709 Jackson Street, Omaha, Nebraska 68102.

A description of the preliminary boundaries and a map of the areas proposed for establishment as wilderness are available for review in the above offices and in Room 1210 of the Department of the Interior Building at 18th and C Streets N.W., Washington, D.C.

Interested individuals, representatives of organizations and public officials are invited to express their views in person at the aforementioned public hearings, provided they notify the Hearing Officer, in care of the Superintendent, Glacier National Park, West Glacier, Montana 59936, by October 11 of their desire to appear. Those not wishing to appear in person may submit written statements on the wilderness proposal to the Hearing Officer, at that address for inclusion in the official record, which will be held open for 30 days following conclusion of the hearing.

Time limitations may make it necessary to limit the length of oral presentations and to restrict to one person the presentation made in behalf of an organization. An oral statement may, however, be supplemented by a more complete written statement which may be submitted to the Hearing Officer at the time of presentation of the oral statement. Written statements presented in person at the hearing will be considered for inclusion in the transcribed hearing record. However, all materials so presented at the hearing shall be subject to determinations that they are appropriate for inclusion in the transcribed hearing record. To the extent that time is available after presentation of oral statements by those who have given the required advance notice, the Hearing Officer will give others present an opportunity to be heard.

After an explanation of the proposal by a representative of the National Park Service, the Hearing Officer, insofar as possible, will adhere to the following order in calling for the presentation of oral statements:

(1) Governor of the State or his representative.
(2) Members of Congress.
(3) Members of the State Legislature.
(4) Official representative of the counties in which the proposed wilderness is located.
(5) Officials of other Federal agencies or public bodies.
(6) Organizations in alphabetical order.
(7) Individuals in alphabetical order.
(8) Others not giving advance notice, to the extent there is remaining time.

Dated: August 1, 1973.

STANLEY W. HULETT,
Associate Director, National Park Service.

[FR Doc.73-16173 Filed 8-8-73;8:45 am]

OLYMPIC NATIONAL PARK, WASH.

Public Hearings Regarding Wilderness Proposals

Notice is hereby given in accordance with the provisions of the Act of September 3, 1964 (78 Stat. 890, 892; 16 U.S.C. 1131, 1132) and in accordance with Departmental procedures as identified in 43 CFR 19.5 that public hearings will be held November 1 and 3, 1973, for the purpose of receiving comments and suggestions as to the appropriateness of proposals for the establishment of wilderness within Olympic National Park, Washington. The November 1 hearing will be held in the Courtesy Room of the Aberdeen Federal Savings and Loan Association, Broadway and First Streets, Aberdeen, Washington, beginning at 9:30 a.m. A similar hearing will be held on November 3 in the Little Theater at Peninsula College, East Park Avenue, Port Angeles, Washington, starting at 9:00 a.m.

The wilderness proposal for Olympic National Park includes 834,490 acres. All lands proposed for wilderness are presently within the exterior boundaries of the park. Olympic National Park is located on the Olympic Peninsula in the northwest corner of the State of Washington.

Packets containing draft master plans, maps depicting the preliminary boundaries of the proposed wilderness areas, and draft environmental impact statements for the proposals may be obtained from the Superintendent, Olympic National Park, 600 East Park Avenue, Port Angeles, Washington 98362, or from the Regional Director, Pacific Northwest Region, National Park Service, Fourth and Pike Building, Seattle, Washington 98101.

Descriptions of the preliminary boundaries and maps of the areas proposed for establishment as wilderness are available for review in the above offices and in Room 1210 of the Interior Building at 18th and C Streets N.W., Washington, D.C.

Interested individuals, representatives of organizations, and public officials are invited to express their views in person at the aforementioned public hearings. In order to be included on the hearing program, notify the Hearing Officer in care of the Superintendent, Olympic National Park, 600 East Park Avenue, Port Angeles, Washington 98362 by October 26, 1973.

Time limitations may make it necessary to limit the length of oral presentations and to restrict to one person the presentation made in behalf of an organization. An oral statement may, however, be supplemented by a more complete written statement which may be submitted to the Hearing Officer at the time of presentation of the oral statement. Written statements presented in person at the hearings will be considered for inclusion in the transcribed hearing records. However, all materials so presented at the hearings shall be subject to determinations that they are appropriate for inclusion in the transcribed hearing record. To the extent that time is available after presentation of oral statements by those who have given the required advance notice, the Hearing Officer will give others present an opportunity to be heard.

After an explanation of the proposal by a representative of the National Park Service, the Hearing Officer, insofar as possible, will adhere to the following order in calling for the presentation of oral statements:

(1) Governor of the State or his representative.
(2) Members of Congress.
(3) Members of the State Legislature.
(4) Official representative of the counties in which the proposed wilderness is located.
(5) Officials of other Federal agencies or public bodies.
(6) Organizations in alphabetical order.
(7) Individuals in alphabetical order.
(8) Others not giving advance notice, to the extent there is remaining time.

Dated: August 1, 1973.

Bureau of Reclamation

[INT FES 73-42]

AUTHORIZED BONNEVILLE UNIT, CENTRAL UTAH PROJECT

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the authorized Bonneville Unit of the Central Utah Project, Utah.

The environmental statement concerns a proposed multipurpose project which includes a transbasin diversion of water from the south slope of the Uinta Mountains to water-deficient areas of the Bonneville Basin and development of additional water resources along the Wasatch Front. Water would be used for irrigation, municipal and industrial needs, and hydroelectric power production. The Unit would also provide recreation, fish and wildlife, water quality control, and area redevelopment benefits.

Copies are available for inspection at the following locations:

Office of Assistant to the Commissioner—Ecology, Room 7620
Bureau of Reclamation, Department of the Interior,
Washington, D.C. 20240
Telephone (202) 343-4991

Division of Engineering Support, Technical Services Branch,
E&R Center, Denver Federal Center,
Denver, Colorado 80225
Telephone (303) 234-3007

Office of the Regional Director, Bureau of Reclamation, Room 7203, Federal Building, 125 South State Street, (Mailing address: P.O. Box 11568) Salt Lake City, Utah 84111
Telephone (801) 524-5409

Central Utah Projects Office, Bureau of Reclamation, 160 North 2nd West Provo, Utah 84601 Telephone (801) 374-5011.

Copies available for public inspection are also being forwarded to the libraries at the University of Utah, Salt Lake City; Brigham Young University, Provo; Utah State University, Logan; and Weber State College, Ogden, all in Utah.

Single copies of the final environmental statement may be obtained on request to the Commissioner of Reclamation or the Regional Director. In addition, copies may be purchased from the National Technical Information Service, Department of Commerce, Springfield, Virginia 22151. Please refer to the statement number above.

Dated: August 2, 1973.

LAURENCE E. LYNN, Jr.,
Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Forest Service

RIO GRANDE NATIONAL FOREST GRAZING ADVISORY BOARD

Notice of Meeting

The Rio Grande National Forest Grazing Advisory Board will meet at the River Springs Ranger Station located in Section 25, Township 33 North, Range 6 East, New Mexico Principal Meridian at 9:30 a.m., September 7, 1973.

The purpose of this meeting is to field review land uses in the Conejos River Canyon. This will familiarize the Board with conflicts in allocating land for the various uses including the grazing of domestic livestock, as background for advising the Forest Supervisor in preparation of unit plans.

The meeting is open to the public. Persons wishing to attend should notify Mr. Dale Sowards, Manassa, Colorado, 81141.

Dated: August 3, 1973.

JAMES R. MATHERS,
Forest Supervisor, Rocky Mountain Region.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[DESI 8674]

CERTAIN OTIC PREPARATIONS CONTAINING ANTIBIOTICS

Drugs for Human Use; Drug Efficacy Study Implementation Follow-up Notice

In a notice (DESI 8674) published in the FEDERAL REGISTER of June 29, 1972 (37 FR 12855), the Commissioner of Food and Drugs announced his conclusions pursuant to evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on the following drugs (other drugs were also included in that notice, and other notices concerning them will be published in future issues of the FEDERAL REGISTER):

1. Cortomixin Sterile Ear Drops containing polymyxin B sulfate and hydrocortisone; Broemmel Pharmaceuticals, 1235 Sutter St., San Francisco, CA 94109 (NDA 60-719 (previously published as 60-179)).

2. Cortisporin Otic Drops containing polymyxin B sulfate, neomycin sulfate and hydrocortisone; Burroughs-Wellcome and Co., Inc., 3030 Cornwallis Rd., Research Triangle Park, NC 27709 (NDA 60-613).

3. Coly-mycin S Otic with Neomycin and Hydrocortisone containing colistin sulfate, neomycin sulfate, thonzonium bromide, and hydrocortisone acetate; Warner Chilcott Laboratories Division, Warner Lambert Pharmaceutical Co., 201 Tabor Rd., Morris Plains, NJ 07950 (NDA 50-356).

V 38-153 AUG 9 73 XUM

4 Cor-Otic P–N Ear Drops containing neomycin sulfate, polymyxin B sulfate and hydrocortisone; Don Hall Laboratories, 1935 North Argyle, Portland, OR 97217 (NDA 90–263).

The notice stated that the drugs were regarded as lacking substantial evidence of effectiveness when labeled for treatment of otitis media and possibly effective for their other labeled indications.

Based upon a reevaluation of the preparations listed above, the Commissioner concludes that these drugs are effective for the indications set forth in the labeling guidelines below.

DESCRIPTION

(To be supplied by the manufacturer)

ACTIONS

(To be supplied by the manufacturer)

INDICATIONS

For the treatment of superficial bacterial infections of the external auditory canal caused by organisms susceptible to the action of the antibiotic(s), and for the treatment of infections of mastoidectomy and fenestration cavities caused by organisms susceptible to the antibiotic(s).

CONTRAINDICATIONS

This product is contraindicated in those individuals who have shown hypersensitivity to any of its components, and in herpes, simplex, vaccinia and varicella.

WARNINGS

As with other antibiotic preparations, prolonged treatment may result in overgrowth of nonsusceptible organisms and fungi.

If the infection is not improved after one week, cultures and susceptibility tests should be repeated to verify the identity of the organism and to determine whether therapy should be changed.

Patients who prefer to warm the medication before using should be cautioned against heating the solution above body temperature, in order to avoid loss of potency.

PRECAUTIONS

If sensitization or irritation occurs, medication should be discontinued promptly.

(To be included for neomycin-containing preparations). This drug should be used with care in cases of perforated ear drum and in longstanding cases of chronic otitis media because of the possibility of ototoxity caused by neomycin.

Treatment should not be continued for longer than ten days.

Allergic cross-reactions may occur which could prevent the use of any or all of the following antibiotics for the treatment of future infections: Kanamycin, paromomycin, streptomycin, and possibly gentamicin.

ADVERSE REACTIONS

FOR PREPARATIONS CONTAINING NEOMYCIN)

Neomycin is a not uncommon cutaneous sensitizer. There are articles in the current literature that indicate an increase in the prevalence of persons sensitive to neomycin.

DOSAGE AND ADMINISTRATION

The external auditory canal should be thoroughly cleansed and dried with a sterile cotton applicator.

For adults, 4 drops of the solution should be instilled into the affected ear 3 or 4 times daily. For infants and children, 3 drops are suggested because of the smaller capacity of the ear canal.

The patient should lie with the affected ear upward and then the drops should be instilled. This position should be maintained for 5 minutes to facilitate penetration of the drops into the ear canal. Repeat, if necessary, for the opposite ear.

If preferred, a cotton wick may be inserted into the canal and then the cotton may be saturated with the solution. This wick should be kept moist by adding further solution every four hours. The wick should be replaced at least once every 24 hours.

HOW SUPPLIED

(To be supplied by the manufacturer)

Batches of drugs for which certification is requested should provide for labeling information in accord with the guidelines developed on the basis of the reevaluation of the drugs and published in this notice.

Batches of such drugs with labeling bearing indications other than those published in this announcement are no longer acceptable for certification or release.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 52 Stat. 1050–51, as amended; 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: August 2, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[GRASP 3G0030]

HOKKAIDO SUGAR CO., LTD.

Notice of Filing of Petition for Affirmation of GRAS Status

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201 (s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784–1786; 21 U.S.C. 321(s), 348, 371(a)) and the regulations for affirmation of GRAS status (21 CFR 121.40), published in the FEDERAL REGISTER of December 2, 1972 (37 FR 25705), notice is given that a petition (GRASP 3G0030) has been filed by Markel, Hill & Byerly, 1625 K St. NW., Washington, DC 20006, on behalf of the Hokkaido Sugar Co., Ltd., Tokyo, Japan, and placed on public display at the office of the Hearing Clerk, Food and Drug Administration, proposing affirmation that beet sugar (sucrose) treated with enzyme alpha-galactosidase is generally recognized as safe (GRAS) for use in foods. Final action on this petition will not be possible until the current GRAS status reviews of sucrose and certain other sugars have been completed.

Interested persons may, on or before October 9, 1973, review the petition and/or file comments (preferably in quintuplicate) with the Hearing Clerk, Food and Drug Administration, Rm. 6–86, 5600 Fishers Lane, Rockville, MD 20852. Comments should include any available information that would be helpful in determining whether the substance is, or is not, generally recognized as safe. A copy of the petition and received comments may be seen in the office of the Hearing Clerk, address given above, during working hours, Monday through Friday.

Dated: July 25, 1973.

VIRGIL O. WODICKA,
Director, Bureau of Foods.

THERMAL PROCESSING OF LOW-ACID FOODS PACKAGED IN HERMETICALLY SEALED CONTAINERS

Notice of Availability of Forms for Filing of Process Information

In the matter of thermal processing of low-acid foods packaged in hermetically sealed containers, there was published in the FEDERAL REGISTER of May 14, 1973 (38 FR 12716), an order promulgating 21 CFR 90.20 which requires that commercial processors (1) register their plants with the Food and Drug Administration on form FD–2541, and (2) submit to the Food and Drug Administration on specified forms information as to the process used for each low-acid food in each container size. The effective date of the order required registration on or before July 13, 1973, and stated that notice of availability of forms for submitting the process information would be published in the FEDERAL REGISTER.

The process information forms are now available: Form FD–2541a (food canning establishment and process filing for still retort processes), form FD–2541b (food canning establishment and process filing for agitating processes), and form FD–2541c (food canning establishment and process filing for other than still retorts and agitating processes).

All commercial processors who have registered their plants by submitting form FD–2541 will be mailed the appropriate process filing forms (FD–2541a, b, or c). A review of all registrations has been completed and the appropriate number and type of process filing forms and instructions for their use are being sent to each registrant by the Industry Guidance Branch.

Additional forms and instructions are available any may be obtained from the Food and Drug Administration, Bureau of Foods, Industry Guidance Branch (BF–342), 200 C St., SW., Washington, DC 20204, or any FDA District Office.

Objections have been received and are being evaluated with respect to the provisions of § 90.20(c)(2) and (3) which require submission of process information and adherence to the submitted processes. In the interim, the Food and Drug Administration requests that submission of process information on the forms that are now being made available continue without interruption. No objections were received on the provisions of § 90.20(c)(1) requiring registration on form FD–2541. Accordingly, that portion of the order requiring registration is now effective.

This notice is issued pursuant to provisions of the Federal Food, Drug, and

Cosmetic Act (secs. 402, 404, 701, 52 Stat. 1046–1047, as amended, 1048, 1055–1056, as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 342, 344, 371) and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: August 2, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[DESI 8530; Docket No. FDC–D–141; NDA Nos. 8–530 and 10–613]

WINTHROP PRODUCTS, INC. AND WINTHROP LABORATORIES

Alevaire; Notice of Withdrawal of Approval of New Drug Applications

Pursuant to the proposed order withdrawing marketing approval for the drug Alevaire published in the FEDERAL REGISTER of December 6, 1969 (34 FR 19389), Winthrop Products, Inc., holder of New Drug Application (NDA) No. 8–530, and Winthrop Laboratories, holder of NDA No. 10–613, filed a request for a hearing on the issue of whether there was a lack of substantial evidence of effectiveness for the drug cognizable under section 505(e) of the Federal Food, Drug, and Cosmetic Act (sec. 505(e), 52 Stat. 1053, as amended; 21 U.S.C. 355(e)). The request for hearing was evaluated and a final decision was published in the FEDERAL REGISTER of September 11, 1971 (37 FR 17229), denying the request for a hearing and withdrawing approval of NDAs Nos. 8–530 and 10–613 on the grounds that there is a lack of substantial evidence that Alevaire is effective for its recommended uses.

The notice of withdrawal was vacated and proceedings remanded to the agency on January 11, 1972, by the United States Court of Appeals for the Second Circuit. A second notice denying the request for a hearing and withdrawing approval of the Alevaire NDAs was published in the FEDERAL REGISTER of March 8, 1973 (38 FR 6305). Thereafter, holders of the Alevaire NDAs filed a petiton for reconsideration, and on June 14, 1973, the final order was set aside.

REQUEST FOR HEARING

The holders of the Alevaire NDAs have submitted a large amount of documentation upon which they state the effectiveness of Alevaire has been established. All of the material, including affidavits and miscellaneous citations to the medical literature, are claimed to be corroborative of the drug's effectiveness which is said to rest upon two adequate and well-controlled clinical studies of the drug denominated as the Milled-Paez study and the Cohen study. Because the Commissioner finds that the Miller-Paez and Cohen studies cannot demonstrate the effectiveness of Alevaire for its recommended uses, it is not necessary to re-analyze the other data the NDA holders cite. In any event, the Commissioner adheres to his analysis of the corroborative data in his decision of March 8, 1973.

REASONS FOR DENIAL OF HEARING AND WITHDRAWAL OF NDA APPROVAL

The claims made for Alevaire in its labeling and the manner in which the previous critiques of the Miller-Paez and Cohen studies were phrased in previous FEDERAL REGISTER notices have engendered some confusion concerning the nature of the drug and the types of clinical investigations necessary to establish drug effectiveness. Therefore, a description of the nature of Alevaire's composition in light of its labeling claims is required to place in perspective the evaluation of the Miller-Paez and Cohen studies.

1. *The drug.* Alevaire is a combination of three components in a sterile aqueous solution, as follows: 0.125 percent tyloxapol, with 2 percent sodium bicarbonate and 5 percent glycerin.

2. *Recommended uses.* In the Alevaire labeling printed in Physicians' Desk Reference, 25th Ed. 1971, the drug is recommended in the treatment of patients "with diseases and disorders of the lungs accompanied or complicated by the presence of excessive or thickened bronchopulmonary secretions" as may be present in, among other things laryngotracheobronchitis and laryngitis, bronchitis and bronchiolitis, bronchial pneumonia, asthma, emphysema, allergic bronchopneumonia, neonatal asphyxia, atelectasis, diaphragmatic paralysis, bronchiectasis, pulmonary abscess, and aspiration of foreign material. Alevaire is also indicated as a vehicle to which other compatible medications, such as antibiotics, may be added for administration through intermittent positive pressure breathing machines.

Alevaire is recommended for administration in an undiluted form by an aerosol nebulizer delivering a fine mist to the patient in an open tent, croup tent, incubator, etc., or by means of a face mask.

The labeled indications for use and recommended methods of administration for Alevaire have remained substantially unchanged since NDA No. 8–530 became effective in December, 1952, and NDA No. 10–613 became effective in July 1956.

3. *Rationale for Alevaire.* The labeling for Alevaire when the NDAs became effective in the mid-1950's described the contribution of each component in Alevaire as follows:

> The sodium bicarbonate and glycerin in Alevaire act in synergy with the detergent to create an alkaline medium for the liquefication of mucus and to stabilize the aerosol droplets. An alkaline medium enhances the antibacterial activity of streptomycin • • •

The labeling described the "Advantages of Alevaire" by stating that the addition of glycerin prevented the evaporation of aerosol droplets; that glycerin increases viscosity of the droplets causing them to remain suspended when inhaled and lost on exhalation; that the addition of a balanced amount of tyloxapol lowers the surface tension of the droplets, causing them to be deposited in the mucosa where tyloxapol liquefies mucopurulent secretions; that the addition of sodium bicarbonate to the balanced solution creates a favorable pH for the activity of tyloxapol and liquefication of mucus; and that these effects have been demonstrated in laboratory tests. This passage in the labeling cites a paper by Miller, J.B., which contains no reference to laboratory tests. No such tests were submitted by the NDA holders as part of their request for hearing.

The Alevaire labeling printed in the Physicians' Desk Reference, 20th Ed. 1966 (and as late as 1971), described the "Action and Uses" of Alevaire as follows:

> • • • Superinone [tyloxapol] is effective in lowering surface tension; sodium bicarbonate creates an alkaline medium to help liquefy mucus; glycerin assists in the stabilization of the aerosol droplet.

However, another version of the labeling of Alevaire in circulation in 1966, and the one submitted to and reviewed by the National Academy of Sciences-National Research Council, did not describe the contribution each component made to the claimed efficacy of Alevaire. It described the "Action" of Alevaire in the following terms:

> Alevaire mist lowers the surface tension and viscosity of secretions • • • whereas plain water does not • • • Alevaire loosens and frees secretions from contact with surfaces, and by greatly reducing frictional forces allows mucus to be propelled more rapidly.

This version of the labeling, unlike the labeling printed in the Physicians' Desk References, described Alevaire as a "Detergent Aerosol for Inhalation" and contained a section entitled "Tolerance" in which the toxicity of tyloxapol was described and compared with other detergents. Whether or not this labeling reflects that the NDA holders then considered tyloxapol the main ingredient is not clear, although it may be the reason why the NAS–NRC did not evaluate any ingredients in Alevaire other than tyloxapol.

Nevertheless, Alevaire is composed of a combination of ingredients whose total action is claimed to be more effective than water. The appendix to the request for hearing states that "Alevaire's action is similar to that of water, but it is more effective than water because it can be deposited further into the air passageways and because it more effectively lowers surface and interfacial tension than does water" (p. 16). Thereafter follows an abbreviated description of the function of each component in the combination and the explanation that:

> • • • the stabilized droplets of aerosolized Alevaire are able to achieve deep penetration into distal air passageways, and interfacial tensions and surface tensions are reduced, thus achieving a greater mucoevacuant action than that of water. (p. 33)

The inquiry into whether the Miller-Paez and Cohen studies demonstrate the effectiveness of Alevaire must be in terms of the claimed contribution each

V 38 153 AUG 9 73 XUM

component makes to the drug's effectiveness (21 CFR 3.86).

4. *Clinical investigations of Alevaire.* In the petition for reconsideration filed by the NDA holders following publication of the March 8, 1973 notice, the NDA holders took issue with ever facet of the evaluations of the Miller-Paez and Cohen studies contained in that notice.

The Commissioner finds that certain criticisms delineated in the petition are well-founded when the investigations are accepted at face value as is required in ruling upon the adequacy of a request for hearing under 21 CFR 130.12 (a)(5) and 130.14. However, the Commissioner also finds that another analysis of these two studies, which would take into account the several valid objections made in the petition for reconsideration, would be a meaningless and unnecessary endeavor. Even assuming that the studies are adequate and well-controlled investigations comparing Alevaire with other control substances, a conclusion not warranted by analysis of the investigations, the studdies cannot demonstrate the effectiveness of Alevaire because their design precludes assessments respecting the contribution each of the three components of Alevaire makes to the claimed effectiveness of the drug.

(a) W. F. Miller and P. Paez, "Blind Comparison Among Normal Saline, Distilled Water and Two Surface Active Agents in Sputum Evacuation". A double-blind crossover design was used in which 20 patients with chronic bronchopulmonary diseases were randomly tested on a different aerosol solution each week for a total of three weeks. Each patient was administered distilled water and normal saline, and one half of the population was administered Alevaire and the other half Tergemist, another commercially available drug for inhalation therapy. The authors concluded that there was no difference between saline and Tergemist; that distilled water was more effective than saline; and that Alevaire was more effective than distilled water.

(b) B. M. Cohen, "Ultrasonic Nebulization of Water and Mucoevacuant Solutions in Patients With Obstructive Lung Disease: Volumetric and Ventilatory Responses to Acute Administration". Fifteen patients with obstructive ventilatory diseases (bronchial asthma and chronic bronchitis) and retained secretions were administered Alevaire and distilled water aerosols in a single-blind crossover study. The study was conducted over two days, with administration of the test substances being given twice on each day. The author concludes that Alevaire was more effective than water.

Neither investigation purported to examine into the role that tyloxapol vis-a-vis sodium bicarbonate vis-a-vis glycerin plays in the claimed effectiveness of the drug. To demonstrate the claimed effectiveness of Alevaire, adequate treatment controls as required under 21 CFR 130.12(a)(5)(ii)(a)(4) are necessary i.e., a comparison of treatment groups administered Alevaire, Alevaire less tyloxapol, Alevaire less sodium bicarbonate, Alevaire less tyloxapol and sodium bicarbonate, water, etc. In this respect, the NDA holders in their request for hearing analyzed a study by Palmer, "The Effect of an Aerosol Detergent in Chronic Brochitis", Lancet 1:611-613, 1957, (Appendix to p. 20 of request) which is a comparison in 25 patients of Alevaire to glycerine and sodium bicarbonate, and water.

The NDA holders criticize the conclusion that the study showed Alevaire is no more effective than water or saline and state that the study is really a comparison of Alevaire:

> • • • to a control aqueous solution of glycerine and sodium bicarbonate, both of which are effective additives to water for inhalation therapy. The design of this study was not adequate to elicit differences • • • between the two effective mucoevacuant agents.

While each of the components is described as being "effective mucoevacuant agents", no data have been produced or cited. What is needed are data derived from adequate and well-controlled clinical investigations to show what effectiveness, if any, each of the four components of Alevaire may individually and in various combinations possess.

In any study designed to investigate each component in Alevaire insofar as it is claimed to be effective, the Commissioner is concerned that measures be incorporated to demonstrate that whatever effect is achieved is therapeutic. The Commissioner concurs with the statements of affiants Beck, Collins, and Miller, submitted in support of the request for hearing, that water has significant irritating properties. One possible reason for water-induced irritation is that water per se is not a physiologic liquid. Alevaire's ingredients also are not physiological, e.g., 2 percent sodium bicarbonate content contrasts with a 1.39 percent physiologic value and 5 percent glycerin contrasts with a 2.6 percent physiologic value. Thus, it is possible that increases in sputum volume, if any, following administration of water, Alevaire, or other substances may reflect no more than the results of the host's response to irritants. In this frame of reference, a determination needs to be made as to which therapeutic indices would be evaluated. Also, it is possible that increased sputum volume might be a reflection not only of mucoevacuation of retained secretions, but also of irritant-produced de novo secretions. In the later case, a possible adverse clinical effect might accrue.

5. *Legal and other objections.* The legal objections cited in the request for hearing have been considered in the Courts and decided adversely to the NDA holders. In this respect, the Commissioner adheres to his findings published in the notice of March 8, 1973, that Alevaire is not a "grandfathered" drug; that the NDA holders must demonstrate that they are prepared to produce evidence raising genuine issues of pertinent fact to obtain a hearing; and that the NAS-NRC Report warrants institution of withdrawal procedures. The Commissioner reiterates that the other reasons cited for granting a hearing are without merit.

6. *Findings.* The Commissioner, on the basis of the information before him and a review of the documentation, affidavits and legal arguments offered to support the claims of effectiveness for Alevaire, finds that there is a lack of substantial evidence that the drug has the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling, that the legal arguments are insubstantial, and that the petitioners have failed to set forth specific facts showing that there is a genuine and substantial issue of fact requiring a hearing.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505(e), 52 Stat. 1053, as amended; 21 U.S.C. 355(e)) and under the authority delegated to the Commissioner (21 CFR 2.120), the request for hearing is denied, and the approval of new drug applications Nos. 8-530 and 10-613, and all amendments and supplements thereto, is withdrawn effective on Aug. 9, 1973.

Dated: August 7, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

National Institutes of Health

ADVISORY COMMITTEE FOR THE FREDERICK CANCER RESEARCH CENTER

Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the National Cancer Advisory Board ad hoc Advisory Committee for the Frederick Cancer Research Center (FCRC), National Cancer Institute, August 29, 1973, 9:00 a.m. to 4:00 p.m., National Institutes of Health, Building 31, Conference Room 3. This meeting will be open to the public from 9:00 a.m. to 4:00 p.m., August 29, 1973, to discuss consideration of preliminary recommendations of the Committee. Attendance by the public will be limited to space available.

Mr. Frank Karel, Associate Director for Public Affairs, NCI, Building 31, Room 10A31, National Institutes of Health, Bethesda, Maryland 20014 (301/496-1911) will furnish summaries of the open meeting and roster of committee members.

Dr. William W. Payne, Executive Secretary, Building 560, Room 11-82, NCI Frederick Cancer Research Center, Fort Detrick, Frederick, Maryland 21701 (301/663-7305) will provide substantive program information.

Dated: July 31, 1973.

JOHN F. SHERMAN,
Deputy Director, National Institutes of Health.

GRANTS FOR NONCOMMERCIAL EDUCATIONAL BROADCASTING FACILITIES

Notice of Acceptance of Applications for Filing

Notice is hereby given that the following described applications for Federal financial assistance in the construction of noncommercial educational broadcasting facilities are accepted for filing under the provisions of Title III, Part IV of the Communications Act of 1934, as amended (47 USC 390-399) and in accordance with 45 CFR 60.8.

Any interested person may, pursuant to 45 CFR 60.10, on or before September 10, 1973, file comments regarding these applications with the Director, Educational Broadcasting Facilities Program, Division of Technology Development, National Center for Educational Technology, Office of Education, Code 525, Washington, D.C. 20202.

EDUCATIONAL TELEVISION

Viewer Sponsored Television Foundation, 7333 Trask Avenue, Playa del Rey, California 90291, File No. 419-T, to improve noncommercial educational television station KVST on Channel 68, Los Angeles, California, accepted as of May 28, 1968. Estimated project cost: $418,914. Grant requested: $315,368. Application signed by: Mr. Clayton Stauffer, President.

Board of Education of Jefferson County, 3332 Newburg Road, Louisville, Kentucky 40218, File No. 420-T, to improve noncommercial educational television station WKPC, on channel 15, Louisville, Kentucky, accepted as of April 14, 1969. Estimated project cost: $357,945. Grant requested: $120,000. Application signed by: Mr. Richard Van Hoose, Superintendent.

University of Washington, Seattle, Washington 98105, File No. 421-T, for the improvement of noncommercial educational television station KCTS on Channel 9, Seattle, Washington, accepted as of September 29, 1970. Estimated project cost: $387,749. Grant requested: $290,812. Application signed by: Mr. Donald E. Bevans, Assistant Vice President for Research

Public Television Foundation for North Texas, 3000 Harry Hines Boulevard, Dallas, Texas 75201, File No. 422-T, for the improvement of noncommercial educational television station KERA on Channel 13, Dallas, Texas, accepted as of October 19, 1970. Estimated project cost: $282,518. Grant requested: $211,889. Application signed by: Mr. Robert A. Wilson, Executive Vice President and General Manager.

Board of Regents, University of Idaho, Moscow, Idaho 83843, File No. 423-T, for the improvement of noncommercial educational television station KUID on Channel 12, Moscow, Idaho, accepted as of August 24, 1972. Estimated project cost: $255,364. Grant requested: $165,364. Application signed by: Mr. Sherman Carter, Financial Vice President.

San Diego State University Foundation, 5402 College Avenue, San Diego, California 92115, File No. 424-T, for the improvement of noncommercial educational television station KPBS on Channel 15, San Diego, California, accepted as of November 15, 1972. Estimated project cost: $113,489. Grant requested: $85,117. Application signed by: Mr. Ernest B. O'Byrne, Vice President for Administration.

Southern Oregon Educational Company, 128 East Main Street, Medford, Oreg. 97501, File No. 425-T, for the establishment of a noncommercial educational television station on Channel 8, Medford, Oregon, accepted as of May 29, 1973. Estimated project cost: $435,161. Grant requested: $326,370. Application signed by: Mr. W. Boyce Standard, President.

Delta College, University Center, Michigan 48710, File No. 426-T, to improve noncommercial educational television station WUCM on Channel 19, Bay City, Michigan, accepted as of June 15, 1973. Estimated project cost: $233,000. Grant requested: $140,000. Application signed by: Donald J. Carlyon, President.

University of Vermont and State Agricultural College, Burlington, Vermont 05401, File No. 427-T, to expand noncommercial educational television station WETK, Colchester, Vermont, accepted as of June 14, 1973. Estimated project cost: $550,000. Grant requested: $412,000. Application signed by: Edward C. Andrews, Jr., President.

EDUCATIONAL RADIO

University of Northern Iowa, Cedar Falls, Iowa 50613, File No. 149-R, for the improvement of noncommercial FM radio station KHFE on Channel 215, Cedar Falls, Iowa, accepted as of September 15, 1972. Estimated project cost: $76,854. Grant requested: $57,641. Application signed by: Dr. John Kamerick, President.

Greater Asheville Educational Radio Association, Inc., 2 South Lexington Avenue, Asheville, North Carolina 28801, File No. 150-R, for the establishment of a noncommercial FM radio station on Channel 215, Asheville, North Carolina, accepted as of May 29, 1973. Estimated project cost: $40,296. Grant requested: $30,071. Application signed by: Mr. James E. Robinson, President.

Social and Rehabilitation Service

CUBAN REFUGEE PROGRAM

Suspension of Phaseout of Federal Reimbursement to States

Notice of the phaseout of Federal Cuban Refugee Program reimbursements to the States, under the Migration and Refugee Assistance Act of 1962 (Public Law 87-510), was published in the FEDERAL REGISTER of June 27, 1973 (38 FR 16928), effective July 1, 1973.

Subsequent to the publication of the phaseout notice, Congress passed and the President approved Public Law 93-52 (Continuing Appropriations) which authorizes expenditures for the Cuban Refugee Program at the fiscal year 1973 level.

In light of the Congressional action, the Secretary has decided to continue the program on the previous basis until further notice. Therefore the Notice of June 27 is suspended, and States may, without interruption, continue to claim reimbursement of assistance to Cuban refugees in accordance with the eligibility and reimbursement policies in effect prior to July 1, 1973.

Dated: August 6, 1973.

J. R. DWIGHT, JR.,
Administrator, Social and Rehabilitation Service.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

NORTH CAROLINA

Availability of Proposed Action Plan

The North Carolina Department of Transportation and Highway Safety has submitted to the Federal Highway Administration of the U.S. Department of Transportation a proposed Action Plan as required by Policy and Procedure Memorandum 90-4 issued on June 1, 1973. The Action Plan outlines the organizational relationships, the assignments of responsibility, and the procedures to be used by the State to assure that economic, social and environmental effects are fully considered in developing highway projects and that final decisions on highway projects are made in the best overall public interest, taking into consideration: (1) Needs for fast, safe and efficient transportation; (2) public services; and (3) costs of eliminating or minimizing adverse effects.

The proposed Action Plan is available for public review at the following locations:

1. North Carolina Department of Transportation
   1 S. Wilmington St.
   Raleigh, N.C. 27611
2. North Carolina Division Office—FHWA
   310 New Bern Avenue
   Raleigh, N.C. 27611
3. FHWA Regional Office—Region 4
   Office of Environment and Design
   1720 Peachtree Rd., N.W.
   Room 208
   Atlanta, Ga. 30309
4. U.S. Department of Transportation
   Federal Highway Administration
   Environmental Development Division
   Nassif Building, Room 3246
   400 7th Street S.W.
   Washington, D.C. 20590

Comments from interested groups and the public on the proposed Action Plan are invited. Comments should be sent to the FHWA Regional Office shown above before September 3, 1973.

Issued on August 3, 1973.

R. R. BARTELSMEYER,
Deputy Federal Highway Administrator.

[FR Doc.73-16433 Filed 8-8-73;8:45 am]

Office of the Secretary

ASSOCIATE ADMINISTRATOR FOR TRAFFIC SAFETY PROGRAMS

Revocation of Delegation of Authority

By notice in the FEDERAL REGISTER of Wednesday, May 9, 1973 (38 FR 12147), by authority vested in me by section 9(e) of the Department of Transportation Act (October 15, 1966, Public Law 89-670, § 9(e), 80 Stat. 944; 49 U.S.C. 1657(e)), I delegated to James E. Wilson, Associate Administrator for Traffic Safety Programs of the National Highway Traffic Safety Administration, all functions previously delegated to the Administrator of the National Highway Traffic Safety Administration.

By that same authority, I hereby revoke that delegation, effective August 6, 1973.

Issued in Washington, D.C., on August 6, 1973.

CLAUDE S. BRINEGAR,
Secretary of Transportation.

ATOMIC ENERGY COMMISSION

[Docket No. 50-319]

NEW YORK STATE ELECTRIC & GAS CORP.

Withdrawal of Application for Utilization Facility License

The New York State Electric & Gas Corporation, 4500 Vestal Parkway East, Binghamton, New York 13902, by letter dated July 23, 1973, has requested withdrawal of its application for licenses to construct and operate the Bell Station facility, a single-unit boiling water reactor at its 900-acre site located on the east side of Cayuga Lake in the Town of Lansing, Tompkins County, New York. A copy of the letter of withdrawal is available for inspection in the AEC's Public Document Room, 1717 H Street, NW., Washington, D.C. The Atomic Energy Commission grants the applicant's request for withdrawal of this application.

Notice of receipt of the application was published in the FEDERAL REGISTER on April 20, 1968, 33 FR 6144.

Dated at Bethesda, Maryland, this 2nd day of August, 1973.

For the Atomic Energy Commission.

RAYMOND R. POWELL,
Acting Chief, Boiling Water Reactors, Branch 1 Directorate of Licensing.

[FR Doc.73-16409 Filed 8-8-73;8:45 am]

URANIUM HEXAFLUORIDE

Charges, Enriching Services, Specifications and Packaging; Revisions

The U.S. Atomic Energy Commission (AEC) hereby announces revisions to the notice entitled, "Uranium Hexafluoride: Base Charges, Use Charges, Special Charges, Table of Enriching Services, Specification and Packaging", as published in the FEDERAL REGISTER on November 29, 1967 (32 FR 16289), and as amended in 35 FR 13457, August 25, 1970, 36 FR 4563, March 9, 1971 and in 38 FR 4432, February 14, 1973 (referred to herein as the notice).

1. Paragraph 3 of the notice is deleted and the following paragraph 3 is inserted in lieu thereof:

3. *Standard table of enriching services, charges per kilogram unit of separative work, base charges and standard processing loss.* The AEC's Standard Table of Enriching Services is set forth in Table 1 of this notice.

The charge per kilogram unit of separative work furnished pursuant to Requirements-type contracts is $38.50. The charge per kilogram unit of separative work furnished pursuant to other than Requirements-type contracts is $36.00. These charges, and successor charges determined in accordance with this sentence, shall be increased by 1 percent (rounded upward to the nearest $0.05) on January 1 and July 1 of each year with the first such increase to occur on January 1, 1974.

The base charge ($/kgU) for uranium, enriched or depleted in the isotope U^{235} and in the form of UF_6, is determined by summing the number opposite the desired assay in the Feed Component column of Table 1 multiplied by $23.46 and the number opposite the desired assay in the Separative Work Component column of Table 1 multiplied by the then current charge per kilogram unit of separative work furnished pursuant to other than Requirements-type contracts. The calculated base charge is rounded up to the nearest $0.01. For assays not shown in Table 1, the Feed Component and Separative Work Component are first determined by linear interpolation before calculation of the base charge. Any resulting base charge less than $3.00 is increased to $3.00. The base charge for depleted uranium requested without a specification as to assay is $2.50. The assay furnished by the AEC in this case will normally be in the neighborhood of 0.20 wt. percent U^{235} of which large amounts are available.

The standard processing loss factor to be applied to toll enricher's acquisition of tails material is 0.05 percent.

2. Table 1 of the notice is revised to read as follows:

TABLE 1

STANDARD TABLE OF ENRICHING SERVICES

Assay (wt. % U-235)	Feed component (normal kgs U feed/kg U product)	Separative work component (kg SWU/kg U product)
0.20	0	0

8.00	15.264	15.995
9.00	17.221	18.422
10.00	19.178	20.863
12.00	23.092	25.782
14.00	27.006	30.737
16.00	30.920	35.719
18.00	34.834	40.724
20.00	38.748	45.747
25.00	48.532	58.369
30.00	58.317	71.064
35.00	68.102	83.816
40.00	77.886	96.616
50.00	97.456	122.344
60.00	117.025	148.235
70.00	136.595	174.302
80.00	156.164	200.605
85.00	165.949	213.892
90.00	175.734	227.341
92.00	179.648	232.796
93.00	181.605	235.560
94.00	183.562	238.328
96.00	187.476	244.842
98.00	191.389	269.982

All values are computed on the basis of taking normal uranium, having an assay of 0.711 wt. percent U^{235}, as having a zero separative work component, and on the basis of a tails (waste) assay of 0.20 wt. percent U^{235}.

The feed and separative work components for assays not shown will be determined by linear interpolation between the nearest assays listed above.

The inclusion of specific assays above 93.00 wt. percent U^{235} is for the purpose of interpolation and for calculation of base charges for limited amounts of specified assays above 93 percent. Inquiries concerning the availability of material for lease or sale of specified assays above 93 percent should be addressed to the AEC Materials Leasing Officer, USAEC, Oak Ridge Operations Office, Post Office Box E, Oak Ridge, TN 37830.

Effective date. This notice shall become effective on August 14, 1973.

Dated at Germantown, Md., this 6th day of August 1973.

UNITED STATES ATOMIC ENERGY COMMISSION,
GORDON M. GRANT,
Acting Secretary of the Commission.

[FR Doc.73-16531 Filed 8-8-73;8:45 am]

[Docket No. 50-348A, 50-364A]

ALABAMA POWER CO.

Prehearing Conference

In the matter of Alabama Power Company (Joseph M. Farley Nuclear Plant Units 1 and 2).

Pursuant to an order issued August 6, 1973, a prehearing conference will be held on September 10, 1973 at the U.S. Tax Court, Room No. 1 (2132), 1111 Constitution Avenue, NW, Washington, D.C. at 9:00 a.m.

The Parties will be prepared to argue all motions at such prehearing conference and to justify the schedules proposed.

Issued at Washington, D.C. this 6th day of August, 1973.

For the Atomic Safety and Licensing Board Panel.

WALTER W. K. BENNETT,
Chairman.

[Docket No. 50-366A]

GEORGIA POWER CO.

Prehearing Conference

In the Matter of GEORGIA POWER CO. (Hatch Nuclear Plant—Unit 2)

Pursuant to an order issued August 6, 1973, a prehearing conference will be held on September 6, 1973 at the U.S. Tax Court, Room No. 2 (2142), 1111 Constitution Avenue, NW, Washington, D.C. at 9:00 a.m. for the purpose of:

(1) Adjudicating all matters then outstanding regarding discovery or the need for it;

(2) Determining a time schedule for completion of discovery and exchange and submission of written testimony, briefs and exhibits and thereafter holding of an evidentiary hearing and the submission of proposed findings and conclusions;

(3) Each of the Parties will exchange and serve on the Board a proposed time schedule including dates for the above events and such other events as they may deem necessary.

Issued at Washington, D.C. this 6th day of August, 1973.

For the Atomic Safety and Licensing Board Panel.

WALTER W. K. BENNETT,
Chairman.

[Docket Nos. 50-443, 50-444]

PUBLIC SERVICE CO., NEW HAMPSHIRE, ET AL.

Hearing on Application for Construction Permits

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities," and Part 2, "Rules of Practice," notice is hereby given that a hearing will be held, at a time and place to be set in the future by an Atomic Safety and Licensing Board (Board), to consider the application filed under the Act by the Public Service Company of New Hampshire, The United Illuminating Company, Central Maine Power Company, The Connecticut Light and Power Company, Fitchburg Gas and Electric Light Company, Montaup Electric Company, New Bedford Gas and Edison Light Company, New England Power Company, Vermont Electric Power Company, Inc. Ashburnham Municipal Light Plant, Burlington Electric Light Department, Eastern Maine Electric Cooperative, Inc., Holyoke Gas and Electric Department, Hudson Light and Power Department, Hull Municipal Light Plant, Marblehead Municipal Light Department, Middleborough Gas and Electric Department, Middleton Municipal Light Department, New Hampshire Electric Cooperative, Inc., North Attleborough Electric Department, South Norwalk Electric Works, and Templeton Municipal Light Plant (the applicants), for construction permits for two pressurized water nuclear reactors designated as the Seabrook Station, Units 1 and 2 (the facilities), each of which is designed for initial operation at approximately 3411 thermal megawatts with a net electrical output of approximately 1194 megawatts. The proposed facilities are to be located in Rockingham County, in the township of Seabrook, New Hampshire. The hearing will be scheduled to begin in the vicinity of the site of the proposed facilities.

The hearing will be conducted by an Atomic Safety and Licensing Board (Board) which has been designated by the Chairman of the Atomic Safety and Licensing Board Panel, consisting of Dr. Ernest Salo, Dr. Marvin M. Mann, and Daniel M. Head, Esq., Chairman. Dr. Kenneth A. McCollom has been designated as a technically qualified alternate, and Joseph F. Tubridy, Esq. has been designated as an alternate qualified in the conduct of administrative proceedings.

Upon completion by the Commission's regulatory staff of a favorable safety evaluation and an environmental review

V 38-153 AUG 9 73 XUM

of the application and upon receipt of a report by the Advisory Committee on Reactor Safeguards, the Director of Regulation will consider making affirmative findings on Items 1–3, a negative finding on Item 4, and an affirmative finding on Item 5 specified below as a basis for the issuance of construction permits to the applicants:

ISSUES PURSUANT TO THE ATOMIC ENERGY ACT OF 1954, AS AMENDED

1. Whether in accordance with the provisions of 10 CFR 50.35(a):

(a) The applicants have described the proposed design of the facilities including, but not limited to, the principal architectural and engineering criteria for the design, and have identified the major features or components incorporated therein for the protection of the health and safety of the public;

(b) Such further technical or design information as may be required to complete the safety analysis and which can reasonably be left for later consideration, will be supplied in the final safety analysis report;

(c) Safety features or components, if any, which require research and development have been described by the applicants and the applicants have identified, and there will be conducted a research and development program reasonably designed to resolve any safety questions associated with such features or components; and

(d) On the basis of the foregoing, there is reasonable assurance that (i) such safety questions will be satisfactorily resolved at or before the latest date stated in the application for completion of construction of the proposed facilities, and (ii) taking into consideration the site criteria contained in 10 CFR Part 100, the proposed facilities can be constructed and operated at the proposed location without undue risk to the health and safety of the public.

2. Whether the applicants are technically qualified to design and construct the proposed facilities;

3. Whether the applicants are financially qualified to design and construct the proposed facilities; and

4. Whether the issuance of permits for construction of the facilities will be inimical to the common defense and security or to the health and safety of the public.

ISSUE PURSUANT TO NATIONAL ENVIRONMENTAL POLICY ACT OF 1969 (NEPA)

5. Whether, in accordance with the requirements of Appendix D of 10 CFR Part 50, the construction permits should be issued as proposed.

In the event that this proceeding is not a contested proceeding, as defined by 10 CFR 2.4(n), the Board will determine (1) without conducting a de novo evaluation of the application, whether the application and the record of the proceeding contain sufficient information, and the review of the application by the Commission's regulatory staff has been adequate, to support the findings proposed to be made by the Director of Regulation on Items 1–4 above, and to support, insofar as the Commission's licensing requirements under the Act are concerned, the issuance of the construction permits proposed by the Director of Regulation; and (2) determine whether the review conducted by the Commission pursuant to NEPA has been adequate. In the event that this proceeding is not contested, the Board will convene a prehearing conference of the parties at a time and place to be set by the Board. It will also set the schedule for the evidentiary hearing. Notice of the prehearing conference and the hearing will be published in the FEDERAL REGISTER.

In the event that this proceeding becomes a contested proceeding, the Board will consider and initially decide, as issues in this proceeding, Items 1–5 above as a basis for determining whether the construction permits should be issued to the applicants.

The Board will convene a special prehearing conference of the parties to the proceeding and persons who have filed petitions for leave to intervene, or their counsel, to be held at such time as may be appropriate, at a place to be set by the Board for the purpose of dealing with the matters specified in 10 CFR 2.751a. Notice of the special prehearing conference will be published in the FEDERAL REGISTER.

The Board will convene a prehearing conference of the parties, or their counsel, to be held subsequent to any special prehearing conference, after discovery has been completed, or within such other time as may be appropriate, at a time and place to be set by the Board for the purpose of dealing with the matters specified in 10 CFR 2.752.

With respect to the Commission's responsibilities under NEPA, and regardless of whether the proceeding is contested or uncontested, the Board will, in accordance with section A.11 of Appendix D of 10 CFR Part 50, (1) determine whether the requirements of section 102 (2)(C) and (D) of NEPA and Appendix D of 10 CFR Part 50 have been complied with in this proceeding; (2) independently consider the final balance among conflicting factors contained in the record of the proceeding with a view to determining the appropriate action to be taken; and (3) determine whether the construction permits should be issued, denied, or appropriately conditioned to protect environmental values.

For further details, see the application for construction permits and applicants' Environmental Report dated July 9, 1973, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., between the hours of 8:30 a.m. and 5:00 p.m. on weekdays. Copies of those documents will also be made available at the Exeter Public Library, Front Street, Exeter, New Hampshire for inspection by members of the public between the hours of 1:00 p.m. and 8:00 p.m. Monday, Wednesday and Friday, and between the hours of 10:00 a.m. and 6:00 p.m. Tuesday, Thursday and Saturday. As they become available, a copy of the safety evaluation by the Commission's Directorate of Licensing, the Commission's draft and final detailed statements on environmental considerations, the report of the Advisory Committee on Reactor Safeguards (ACRS), the proposed construction permits, other relevant documents, and the transcripts of the prehearing conferences and of the hearing will also be available at the above locations. Copies of the Directorate of Licensing's safety evaluation and the Commission's final detailed statement on environmental considerations, the proposed construction permits, and the ACRS report may be obtained, when available, by request to the Deputy Director for Reactor Projects, Directorate of Licensing, United States Atomic Energy Commission, Washington, D.C. 20545.

Any person who does not wish to, or is not qualified to become a party to this proceeding may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715. A person making a limited appearance may only make an oral or written statement on the record, and may not participate in the proceeding in any other way. Limited appearances will be permitted at the time of the hearing in the discretion of the Board, within such limits and on such conditions as may be fixed by the Board. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, not later than September 10, 1973.

A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing as specified in the issues set out above.

Any person whose interest may be affected by the proceeding, who does not wish to make a limited appearance and who wishes to participate as a party in the proceeding must file a written petition under oath or affirmation for leave to intervene in accordance with the provisions of 10 CFR 2.714.

A petition for leave to intervene shall set forth the interest of petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) the nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

A petition for leave to intervene must be filed with the Office of the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, or may be delivered to the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., not later than September 10, 1973. A petition for leave to intervene which is not timely will not be granted unless the Board determines that the petitioner has made a substantial showing of good cause for failure to file on time and after the Board has considered those factors specified in 10 CFR § 2.714(a)(1)–(4) and 2.714(d).

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have all the rights of the applicant to participate fully in the conduct of the hearing, such as the examination and cross-examination of witnesses, with respect to their contentions related to the matters at issue in the proceeding.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705, must be filed by the applicant not later than August 29, 1973.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. A copy of the petitions or request for limited appearance should also be sent to the Chief Hearing Counsel, Office of the General Counsel, U.S. Atomic Energy Commission, Washington, D.C. 20545 and to John A. Ritsher, Esq., Ropes and Gray, 225 Franklin Street, Boston, Massachusetts 02110, attorney for the applicants.

Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR 2.708, an original and twenty (20) conformed copies of each such paper with the Commission.

With respect to this proceeding, pursuant to 10 CFR 2.785, an Atomic Safety and Licensing Appeal Board will exercise the authority and the review function which would otherwise be exercised and performed by the Commission. Notice as to the membership of the Appeal Board will be published in the FEDERAL REGISTER.

Dated at Germantown, Md., this 31st day of July, 1973.

UNITED STATES ATOMIC ENERGY COMMISSION,
GORDON M. GRANT,
Acting Secretary of the Commission.

[FR Doc.73-16331 Filed 8-8-73;8:45 am]

URANIUM LEASES ON LANDS CONTROLLED BY THE AEC

Modification of Regulations

1. Notice is hereby given by the Atomic Energy Commission of its modification of Domestic Uranium Program Circular 8 setting forth the regulations concerning the leasing of certain lands controlled by the Commission. This Circular was originally published July 14, 1956 (21 FR 5259). The proposed modification of Circular 8 was published in the FEDERAL REGISTER on November 10, 1970 (35 FR 17271). As a result of comments received from the public on the proposed modified Circular, provision has been made to allow a small business set-aside (under authority of the Small Business Act) of some of the lands for bidding solely by qualified small business concerns.

2. The revised regulations follow:

DOMESTIC URANIUM PROGRAM CIRCULAR 8 REVISED

Title 10—Atomic Energy Chapter I—Atomic Energy Commission (Domestic Uranium Program Circular 8) Part 60—Domestic Uranium Program.

URANIUM LEASES ON LANDS CONTROLLED BY COMMISSION

(a) *What this section does.* This section sets forth regulations governing the issuance of leases to permit the exploration for and mining of deposits containing uranium in public lands withdrawn from entry and location under the general mining laws for use of the Commission, and in certain other lands under Commission control.

(b) *Statutory authority.* The Atomic Energy Act of 1954, as amended (68 Stat. 919, 42 USC 2011 et seq.) is the authority for this section.

(c) *Who may hold leases.* Only parties who are (1) citizens of the United States; (2) associations of such citizens; or (3) corporations organized under the laws of the Untied States or territories thereof, are eligible lessees under this section. Persons under 21 years of age or employees of the Commission are not eligible.

(d) *Issuance of leases through competitive bidding.* Except under special circumstances as provided in paragraph (u), each lease will be offered through competitive bidding and, except as otherwise provided in this paragraph (d), will be issued to the acceptable bidder offering the highest bid. The bid may be on a cash bonus, royalty bonus, or other basis as specified in the invitation to bid. Invitations to bid on some of the lands may be limited to small business concerns as defined by the Small Business Administration, and such invitations may limit the number of leases to be awarded to each bidder. In such cases the Commission will accept those bids which, in relation to other bids received pursuant to the invitation, are most advantageous to the Government. Before any lease is awarded, the Commission may require high bidders to submit a detailed statement of the facts as to such matters as their experience, organization, and financial resources. The Commission reserves the right to reject any and all bids.

(e) *Solicitation of bids.* Announcements of the availability of invitations to bid for a lease will be publicly posted and published. Copies of such announcements will also be mailed to parties who submit to the Commission's Grand Junction, Colorado Office subsequent to publication in the FEDERAL REGISTER of this Domestic Uranium Program Circular 8, Revised, written requests that their names be placed on a mailing list for receipt of such announcements. The invitations containing information for preparation and submission of bids, will be available at the Grand Junction Office, and will be mailed only on specific written request, following announcement of their availability. Invitations will specify the land to be leased, the basis on which bids are to be submitted, the amount of the monetary deposit which must be transmitted with the bid, the place and time the bids will be publicly opened, the term, royalty and other payments, performance requirements, and other conditions which will become a part of the lease. In addition, data which has been assembled pertaining to the lands to be leased will be available for public inspection at the Grand Junction Office; copies will also be available for purchase.

(f) *Bidding requirements; deposits.* All bids must be filed at the place and prior to the time set forth in the invitation. Each bid must be sealed and accompanied by a deposit, in the form of a certified check, cashier's check, or bank draft, in an amount as specified in the invitation to bid. Deposits of unsuccessful bidders will be returned. If the bidder is an individual, he must submit with his bid a statement of his citizenship and age. If the bidder is an association (including a partnership), the bid shall be accompanied by a certified copy of the articles of association together with a statement as to the citizenship and age of its members. If the bidder is a corporation, evidence that the officer signing the bid had authority to do so and a statement as to the State of incorporation shall also be submitted.

(g) *Awarding of lease.* Following public opening of the bids the Commission, subject to the right to reject any and all bids, will determine the successful bidder. In the event the highest acceptable bids are tie bids, a public drawing will be held by the Commission to determine the successful bidder. After notice of award and within the time period prescribed in the invitation, the successful bidder shall execute and return to the Commission three (3) copies of the lease and shall remit payments due as prescribed in the invitation. should the successful bidder fail to execute the lease, or make payments as required, in accordance with the terms of the invitation, or fail to otherwise comply with applicable regulations, he may be required to forfeit any payments previously made, and lose any further right or interest in the lease. In such event, the Commission may offer the lease to the next highest acceptable bidder, reoffer the lease for bidding, or

V 38-153 AUG 9 73 XUM

take such other action as appropriate. If the awarded lease is executed by the bidder through an agent, evidence of authorization must be submitted.

(h) *Dating of lease.* A lease issued under this section will ordinarily be effective as of the date it is signed by the Commission.

(i) *Term of lease.* A lease shall be for the period specified in the invitation to bid. When deemed desirable by the Commission, the lease will provide that the lease term may be extended at the option of the lessee for a specified period and upon stipulated conditions.

(j) *Payments to AEC under lease.* Royalty payments shall be specified in the invitation to bid; base royalty, minimum royalty, advance royalty, land rental payments, or a combination thereof may be required.

(k) *Title to unshipped ore.* The Commission, unless it approves otherwise, reserves all right and title to property in and to all ores and other uranium- or vanadium-bearing material not removed from the leased premises within sixty days after expiration or other termination of the lease. Unless the Commission approves otherwise, all material mined from the leased premises and not marketed by the lessee shall remain on the leased premises.

(l) *Environmental controls.* Each lease will contain such provisions as may be deemed necessary by the Commission with respect to the lessee's use of the leased lands. The Commission may require periodic submission of plans for exploration and mining activities including provisions for control of environmental impact. The lessee will be required to conduct operations so as to minimize adverse environmental effects, to comply with all applicable State and Federal statutes and regulations and to the extent stipulated in the lease agreement, will be held responsible for maintenance or rehabilitation of affected areas in accordance with plans submitted to and approved by the Commission.

(m) *Performance requirements.* A lease shall require that exploration, development, and mining activities, as appropriate, be conducted on the leased premises with reasonable diligence, skill, and care as required to achieve and maintain production of uranium ore at rates consistent with good and safe mining practice, and with market conditions.

(n) *Health and safety requirements.* A lease (1) shall require that exploration, development, and mining activities, as appropriate, be conducted on the leased premises with due regard for the health and safety of those involved, and (2) shall include appropriate measures for the control of radiation exposure in the mines.

(o) *Lessee's records.* Leases shall provide that the lessee keep and make available to the Commission such records as the Commission deems necessary for the administration of the lease and its leasing program.

(p) *Rights of the Commission.* The Commission reserves the right to enter upon the leased property and into all parts of the mine for inspection and other purposes. The Commission also reserves the right to grant to other persons easements or rights of way upon, through, or in the leased premises. The Commission and the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of three years after termination or expiration of lease, have access to and the right to examine any directly pertinent books, papers, and records of the lessee involving transactions related to the lease.

(q) *Relinquishment of leases.* A lease may be surrendered by the lessee upon filing with and approval by the Commission of a written application for relinquishment. Approval of the application shall be contingent upon the delivery of the leased premises to the Commission in a condition determined to be satisfactory to the Commission. The lessee shall continue to be liable for the payment of all royalty and other debts due the Commission.

(r) *Assignment of leases.* Any transfer of a lease or any interest therein or claim thereunder, will not be recognized unless and until approved by the Commission in writing. Ordinarily, the Commission will not approve any transfer of a lease which involved overriding royalties or deferred payments of any kind to the transferor.

(s) *Cancellation.* Any lease may be cancelled by the Commission whenever the lessee fails to comply with the provisions of the lease. Failure of the Commission to exercise its right to cancel shall not be deemed a waiver thereof.

(t) *Form of lease.* Leases will be issued on forms prescribed by the Commission.

(u) *Noncompetitive leases.* Under special circumstances, where the Commission believes it to be in the best interest of the Government, the Commission at its discretion may award or extend leases on the basis of negotiation.

(v) *Commission decisions.* All matters connected with the issuance and administration of leases will be determined by the Commission whose decisions shall be final and conclusive.

(w) *Definitions.* "Commission" as used in this section means the United States Atomic Energy Commission or its duly authorized representative or representatives.

(x) *Multiple use of land.* Leases issued under this section shall provide that operations under them will be conducted so as not to interfere with the lawful operations of any third party having a lease, permit, easement, or other right or interest in the premises.

(y) *Compliance with State and Federal Regulations.* Every lease shall provide that the lessee is required to comply with all applicable State and Federal statutes and regulations.

Dated at Germantown, Md., this 3rd Day of August, 1973.

For the Atomic Energy Commission.

GORDON M. GRANT,
Acting Secretary of the Commission.

[Docket Nos. 50-443 and 50-444]

PUBLIC SERVICE CO. OF NEW HAMPSHIRE, ET AL.

Receipt of Application for Construction Permits and Facility Licenses; Availability of Applicants' Environmental Report; Time for Submission of Views on Antitrust Matter

Public Service Company of New Hampshire, The United Illuminating Company, Central Maine Power Company, The Connecticut Light and Power Company, Fitchburg Gas and Electric Light Company, Montaup Electric Company, New Bedford Gas and Edison Light Company, New England Power Company, Vermont Electric Power Company, Inc., Ashburnham Municipal Light Plant, Burlington Electric Light Department, Eastern Maine Electric Cooperative, Inc., Holyoke Gas and Electric Department, Hudson Light and Power Department, Hull Municipal Light Plant, Marblehead Municipal Light Department, Middleborough Gas and Electric Cooperative, Inc., North Attleborough Electric Department, South Norwalk Electric Works, and Templeton Municipal Light Plant (the applicants), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, have filed an application dated June 29, 1973, which was docketed on July 9, 1973, for authorization to construct and operate two electric generating units utilizing pressurized water reactors. The application was initially tendered on March 25, 1973. Following a preliminary review for completeness, it was rejected on May 7, 1973 for lack of sufficient information. The applicants submitted additional information on June 15, 1973 and the application was found acceptable for docketing.

The proposed nuclear facilities, designated by the applicants as the Seabrook Station, Units 1 and 2, are to be located at the applicants' site in Rockingham County, in the township of Seabrook, New Hampshire. Each unit is to be designed for initial operation at approximately 3411 megawatts thermal, with a net electrical output of approximately 1194 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before October 8, 1973. The submittal should reference Docket. Nos. 50-443-A and 50-444-A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and at the Exeter Public Library, Front Street, Exeter, New Hampshire 03833.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, an environmental report dated June 29, 1973. The report has been made available for public inspection at the aforementioned locations. The report, which discusses environmental considerations related to the proposed construction of the Seabrook Station is also being made available at the Office of Comprehensive Planning, Office of the Governor, State House, Concord, New Hampshire 03301, and at the Southeastern New Hampshire Regional Planning Commission, 10 Front Street, Exeter, New Hampshire 03833.

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, requesting comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials thereon will be made available when received.

Dated at Bethesda, Maryland, this 26th day of July 1973.

For the Atomic Energy Commission.

KARL R. GOLLER,
Chief, Pressurized Water Reactors Branch No. 3, Directorate of Licensing.

FOREST SERVICE

Draft	*Date*
Red River Gorge, Daniel Boone N.F. Kentucky County: Wolfe Powell	07/30

The statement refers to a proposed ten year management plan for the Red River Gorge Unit, Stanton Ranger District, Daniel Boone National Forest. The unit contains 42,023 acres, 25,663 of which will be managed as a Geological Area and 16,360 of which will be managed for multiple use benefits, including timber management. Major impact will be reduction of timber use and big game species within the Geological Area, and impact on water quality, soil, and vegetative cover from timber harvest and road construction in the remaining areas. (131 pages) (ELR ORDER # 31264) (NTIS ORDER # EIS 73 1264D)

Alpine Lakes, Snoqualmie and Wenatchee N.F.'s Washington County: several	07/30

The statement refers to a proposed land use management plan for portions of the two Forests, including the Alpine Lakes Area Wilderness, in Chelan, King, Kittitas, and Snohomish Counties. (92 pages) (ELR ORDER # 31265) (NTIS ORDER # EIS 73 1265D)

Final	*Date*
Anthony Lakes Unit, Wallowa Whitman N.F. Oregon County: Grant Union, Baker	08/01

The proposal is for the relocation and consolidation of certain recreational activities, including camping facilities, picnicking grounds, and hiking trails, and the expansion of an adjacent privately owned ski area. There will be adverse visual impact, and some soil disturbance. (approximately 150 pages) COMMENTS MADE BY: EPA DOI DOT USDA HEW COE state agencies and concerned citizens (ELR ORDER #31285) (NTIS ORDER # EIS 73 1285F)

RURAL ELECTRIFICATION ADMINISTRATION

Final	*Date*
Transmission Lines, 230 kV South Carolina County: Several	07/30

The statement refers to the proposed use of REA loan funds for the construction by Central Electric Cooperative of: 34 miles of 230 kV transmission line from Pinopolis to Kingstree and a 230/69 kV substation at Darlington; 62 miles of 230 kV line from the Robinson plant to Blythewood with a switching station at Camden; and 30 miles of line from Batesburg to Newberry. Counties involved are Berkley, Williamsburg, Darlington, Kershaw, Richland, Saluda, and Newberry. (approximately 250 pages) COMMENTS MADE BY: EPA DOI USDA FPC DOT state and regional agencies (ELR ORDER #31272) (NTIS ORDER # EIS 73 1272F)

Washington, D.C. 20545
(202) 973-5391
For Regulatory Matters:
Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing
(202) 973-7373, Washington, D.C. 20545

Draft	*Date*
Newbold Island Nuclear Generation Station, Units 1 New Jersey County: Burlington	07/30

The statement refers to the proposed issuance of a construction permit to the Public Service Electric and Gas Co. for the construction of the Station. Each of the Station's two boiling water reactors will produce 3293 MWt, for the generation of 1067 MWe (net). Waste heat will be dissipated through the use of two natural draft towers, with water being drawn from and discharged to the Delaware River. An earlier draft statement was issued by the Commission in December, 1972. Additional information is presented in this statement concerning the possibility of a supplemental water source. (ELR ORDER # 31263) (NTIS ORDER # EIS 73 1263D)

Final	*Date*
Guidelines for Design, Light Water-Cooled Reactors	07/26

The statement refers to the proposed adoption of numerical guidelines for design objectives, and limiting conditions for operation to meet the criterion "as low as possible" for radioactive material in light-water-cooled reactor effluent. The expected result of the action is to improve assurance that: radiation exposure to those living near site boundaries be less than 5 m Rem/yr.; annual exposures to sizeable population groups from radioactivity released from reactors on all sites in the U.S. through the year 2000 be less than 1 m Rem; and there be no demonstrable biological effects to aquatic or terrestial organisms from exposure to radioactivity from nuclear power reactors. (3 volumes) COMMENTS MADE BY: USDA FPC EPA TVA DOI agencies of several States, and concerned citizens (ELR ORDER # 31252) (NTIS ORDER # EIS 73 1252F)

Beaver Valley Power Station Unit 1 Pennsylvania County: Beaver	07/30

The proposed action is the continuation of a construction permit and the granting of an operating license to the Duquesne Light Company, the Ohio Edison Company, and the Pennsylvania Power Company. Unit 1, which is situated on the Ohio River near Shippingport, will employ a 2666 MWt pressurized water reactor to produce 851.9 MWe (net). (Future power levels of 2774 MWt and 885 MWe are anticipated.) Cooling will be by a closed-cycle natural draft tower. There will be a consumptive use of 14,000 acre-ft. of water annually. Small quantities of radioactive gases and liquids will be discharged to the environment. (two volumes) COMMENTS MADE BY: AHP USDA COE DOC HUD DOI FPC state agenees (ELR ORDER # 31262 (NTIS ORDER # EIS 73 1262F)

Draft	*Date*
Fidalgo Bay, Anacortes Washington County: Skagit	07/30

The statement refers to the proposed dredging of a navigation channel from deep water in Guemes Channel to Anacortes. The project would provide access to moorage facilities and an industrial park under development by the City of Anacortes. Spoil will be deposited in dike areas supplied by the city. Marine biota will be adversely affected by dredging. (Seattle District) (34 pages) (ELR ORDER # 31266) (NTIS ORDER # EIS 73 1266D)

Bayou Bartholomew and Tributaries Arkansas Louisiana	07/30

The statement refers to a proposed flood control project involving ten detention lakes, five high water outlet closures, a wildlife mitigation plan, and channel clearing of Bayou Bartholomew in the vicinity of Pine Bluffs, Arkansas. Adverse impact will include the loss of timber resource and wildlife habitat. (Vicksburg District) (48 pages) (ELR

V 38 - 153 AUG 9 73 XUM

ORDER # 31267) (NTIS Order # EIS 73 1267D)

Los Angeles—Long Beach Harbors 07/27
California
County: Los Angeles
The revised statement refers to the proposed deepening of areas within the Los Angeles port of the Harbors, and use of the fill to create new lands for terminals. Impact of the action would include the socio-economic impacts from increased trade; use of the harbor by larger vessels, with reduction in the total number of commercial vessels and a corollary reduction in discharge of pollutants; the loss of harbor bottom habitat and open space. The loss of marine habitat will include a part of the present catch areas for a large part of the southern California live bait anchovy fishery. (Los Angeles District) (172 pages) (ELR ORDER # 31258) (NTIS ORDER # EIS 73 1258D)

Preferential Mail Facility, Hartford 7/25
Connecticut
The proposed project is the construction of a Preferential Mail Facility in Hartford, Conn. The building will be a single floor operation with a public lobby multi-story office area, and parking area. The facility will acquire 22.5 acres. Adverse effects stemming from the project are increased traffic, and noise and air pollution levels. (24 pages) (ELR ORDER # 31234) (NTIS ORDER # EIS 73 1234D)

Local Protection Project, 07/26
Muscatatuck River
Indiana
County: Jackson Washington
Proposed is a small flood protection project which involves the removal of two logjams and channel relocation around the third, on the Muscatatuck River between Mile 24 and 26. There will be disruption of riparian habitat. (Louisville District) (18 pages) (ELR ORDER # 31245) (NTIS ORDER # EIS 73 1245D)

Saylorville Flood Control Project, 07 31
Des Moines River
County: Polk
The statement refers to the continuation of construction of the Saylorville Lake multipurpose project for flood control, low-flow augmentation, fish and wildlife management, and recreation. The project includes a 6,750 foot crest-length, 105 foot high earth fill dam on the Des Moines River, with a permanent pool of 5,400 acres and a full flood pool of 16,700 acres. Also included is the Big Creek sub-impoundment and its 885 acre lake. Adverse impact will include the loss of wildlife habitat and archeological sites, and the displacement of residents. (Rock Island District) (ELR ORDER # 31281) (NTIS ORDER # EIS 73 1281D)

Local Protection Project, Chillicothe 07/26
Ohio
The statement refers to a proposed protection project involving 10,500 feet of earthen levee, 250 feet of concrete floodwall, two gate openings, four pump stations, and 82 pressure relief wells. There will also be associated recreational measures including a bike and walking trail, rest stops, overlooks, picnic areas, and related facilities. Adverse impact will be the partial loss and degradation of bottomland hardwood forest wildlife habitat within the urban environment. (Huntington District) (90 pages) (ELR ORDER # 31242) (NTIS ORDER # EIS 73 1242D)

Aransas Pass, Gulf Intracoastal Waterway 07/27
Texas
The statement refers to the proposed deepening and widening of the channel of Aransas Pass and nearby navigation areas. Dredged spoil will be placed in existing land disposal areas. Adverse impact will be to marine biota; 30 acres of marsh will be covered by spoil. (Galveston District) (15 pages) (ELR ORDER # 31244) (NTIS ORDER # EIS 73 1244D)

Final *Date*
Columbia Drainage and Levee District No. 3 07/27
Illinois
County: Monroe
The statement refers to a proposed flood protection project involving the construction of two pumping stations, 2,600 feet of interceptor ditches, and the cleaning out of 11,400 feet of ditches. The project is expected to reduce annual flooding from 2,170 acres to 540 acres. (St. Louis District) (37 pages) COMMENTS MADE BY: USDA DOI EPA state agencies (ELR ORDER # 31259) (NTIS ORDER # EIS 73 1259F)

Field Research Facility, Duck 7/19
North Carolina
The proposal involves the construction of a research facility on a 175 acre site on the Outer Banks 1 mile north of Duck. Included are a 1800 foot ocean pier and associated shore facilities. There will be damage to the dunes and to marine biota, as well as adverse aesthetic impact. The pier will be a obstruction to the navigation of boats, and to migratory birds and fish, and an interruption to vehicular traffic on the beach. (Wilmington District) (90 pages) COMMENTS MADE BY: AEC EPA DOT USDA state agencies (ELR ORDER # 31203) (NTIS ORDER # EIS 73 1203)

Bolling/Anacostia Base Development 07/23
District of Columbia
The statement refers to the proposed construction of new facilities for joint military use at the Bolling/Anacostia tract in southeast Washington. Included are continued development of Tri-Service Support Facilities, such as enlisted man dormitories, a mess hall, and supportive facilities. Also proposed are 900,000 sq. ft. of Air Force administrative space and 1,400,000 sq. ft. of DOD administrative space, an industrial/technical area, two schools, a park and related works. Adverse impacts will include the severe overtaxing of existing transportation facilities. (124 pages) COMMENTS MADE BY: EPA NCPC AHP COE DOT DOI regional agencies and concerned citizens (ELR ORDER # 31241) (NTIS ORDER # EIS 73 1241F)

BUREAU OF OUTDOOR RECREATION

Draft *Date*
Continental Divide and Kit Carson Trails 07/31
The statement refers to the proposed authorization and designation of the Continental Divide and Kit Carson Trails as components of the National Trails System. The proposal would establish a 3,100 mile foot and horseback trail along the Divide from the Mexican border to the Canadian border, through New Mexico, Colorado, Wyoming, Idaho, and Montana; and a 370 mile Kit Carson Trail along the mountain ranges in north-central New Mexico. Approximately 1900 miles of the Trails are presently in existence. Development will cause disturbance of soils and vegetation, and there will be impact from visitor use. (64 pages) (ELR ORDER # 31278) (NTIS ORDER # EIS 73 1273D)

BUREAU OF RECLAMATION

Final *Date*
North Side Collection System, Fryingpan-Arkansas 07/23
Colorado
County: Eagle Pitkin
The statement refers to a major feature of the Fryingpan-Arkansas Project. The collection system involves an arrangement of diversion dams, conduits, and tunnels designed to intercept and transport 18,400 acre feet of runoff annually from the Colorado River Basin to the Arkansas River Basin. The water will serve municipal and industrial needs, supplement irrigation, enable power generation, and enhance recreation in central and southeastern Colorado. The system will result in a slight increase in the salinity of Colorado River water, and a corresponding increase in the water quality of the Arkansas River. COMMENTS MADE BY: DOI USDA USCG COE EPA state agencies and concerned citizens (ELR ORDER # 31216) (NTIS ORDER # EIS 73 1216F)

Bonneville Unit, Central Utah Project 08 02
Utah
County: several
The statement refers to a project begun in 1967 and now 10% complete, which is intended to divert water from the sparsely populated Uinta Basin to the more densely populated, water deficient Bonneville Basin. Facilities of the project will include 10 new reservoirs, 140 miles of aqueducts, tunnels, and canals, 3 power plants, 9 pumping plants, and 200 miles of pipe drains. The project will increase salinity of the Colorado River; 22,000 acres of land will be inundated. (two volumes) COMMENTS MADE BY: DOI USDA AHP COE HEW HUD FPC state, local, and regional agencies and concerned citizens (ELR ORDER # 31289) (NTIS ORDER # EIS 73 1289F)

NATIONAL PARK SERVICE

Draft *Date*
Master Plan, Olympic National Park 07/27
Washington
The statement refers to a proposed new conceptual master plan, which will establish developmental patterns and management goals. The plan calls for improved visitor information-orientation programs; improved backcountry experience and reduced ecological degradation, and improved access and reduced traffic congestion. Adverse effects will include the acquisition of private lands and phasing out of low-cost cabins at Sol Duc Hot Springs. (173 pages) (ELR ORDER # 31253) (NTIS ORDER # EIS 73 1253D)

Proposed Wilderness, Olympic National Park 07/27
Washington
The statement refers to the proposed legislative designation of 834,980 acres in Olympic National Park as wilderness. Major portions of the park will thereby be preserved in a completely undeveloped state, with natural succession allowed to continue without interference by man. Adverse effects will include foregoing the possibility for development of additional visitor use facilities, and possible restriction on backcountry use. (106 pages) (ELR ORDER # 31254) (NTIS ORDER # EIS 73 1254D)

Jackson Hole Airport, Grand Teton N.P. 07/27
Wyoming
The statement refers to proposed modifications to the Jackson Hole Airport, within the Grand Teton National Park. The modifications, including the extension of the 6,305 foot runway to 8,000 feet, the construction of a parallel 8,000 foot taxiway, additional aprons, lighting, a control tower, a sewage system, and related works, are intended to give the airport the capacity to handle jet carrier aircraft, and to increase the passenger carrying capability of turbo-prop aircraft. Ecological, social, and economic impacts are discussed, including the destruction of 65 acres of sagebrush grassland and a sage grouse strutting ground. (181 pages) (ELR ORDER # 31257) (NTIS ORDER # EIS 73 1267D)

Final *Date*
Bandelier National Monument 07/27
New Mexico
County: Los Alamos Sandoval
The statement refers to the proposed legislative designation of 21,110 acres of the Monument as wilderness within the National Wilderness Preservation System. Management options for the Monument will thereby be reduced. (82 pages) COMMENTS MADE BY: AHP USDA DOT (ELR ORDER No. 31256) (NTIS ORDER No. EIS 73 1256F)

Theodore Roosevelt National Memorial Park 07/27
North Dakota
The statement refers to a proposal that 28,335 acres of the Park be designated by Congress as Wilderness. Enactment of the proposal could result in restrictions on back country facility development, the construction of mass recreational needs in other areas, and restricted resource management practices. (58 pages) COMMENTS MADE BY: USDA DOI EPA FPC AHP state agencies (ELR ORDER No. 31255) (NTIS ORDER No. EIS 73 1255F)

BUREAU OF SPORTS FISHERIES AND WILDLIFE

Final *Date*
Green Lake Salmon Fish Hatchery 07/18
Maine
County: Hancock
The statement refers to the proposed construction and operation of a national fish hatchery for the propagation of Atlantic salmon, to help restore the species to the waters of New England. The annual output for the hatchery is programmed for 600,000 one year old smolts. There will be possible adverse impact on Graham Lake from hatchery effluent discharge. (100 pages) COMMENTS MADE BY: USDA COE DOI EPA state agencies (ELR ORDER No. 31188) (NTIS ORDER No. EIS 73 1188D)

FEDERAL AVIATION ADMINISTRATION

Draft *Date*
Hettinger Municipal Airport 07/26
County: Adams
The statement refers to the proposed expansion of the existing airport at Hettinger. The action consists of land acquisition for development and clear zones; site preparation and drainage to expand and construct a hard-surfaced runway; constructing connecting and access taxiways; constructing an access road; and constructing a maintenance building. Air and noise pollution levels will increase with increased activity. (40 pages) (ELR ORDER # 31248) (NTIS ORDER # EIS 73 1248D)

Elkhart-Morton County Airport 07/26
Kansas
County: Morton
The proposed project is the improvement of the existing airport to allow the facility to be used on a year-round basis. Project features include extending and widening Runway 17/35 to 4900' x 75', including taxiways; future extension of Runway 3/21 to 4250' x 75', including paving and taxiways; installation of VASI and beacon; construction of lighted wind cone and segmented circle; and ultimate extension of runways to 620' x 100'. (22 pages) (ELR ORDER # 31250) (NTIS ORDER # ELS 73 1250D)

FEDERAL HIGHWAY ADMINISTRATION

Draft *Date*
Route 60 and 95, Missouri 07/30
County: Texas Wright
The action proposed the acquisition of limited access right-of-way, grading, interchanges, bridges, and ultimate dual lane paving for the relocation of Route 60. It provides for grading and single land paying of Route 95. Approximately 400 acres of rural land will be committed to right-of-way; 20 residences and 5 businesses will be displaced. (14 pages) (ELR ORDER # 31269) (NTIS ORDER # EIS 73 1269D)

Superstition Freeway (State Route 36) 07/30
Arizona
County: Maricopa Pinal
Proposed is the construction of approximately 25 miles of the Route 360 Freeway. The project will extend from Rural Road in Tempe to U.S. Highway 60-80-89 southeast of Apache Junction. Approximately 10 residences, part of two trailer parks and three businesses may be displaced; 850 acres of agricultural land and 415 acres of undeveloped desert will be required for right of way. Adverse impacts include the loss of breeding habitat and the bisecting of at least six prehistoric Hohokam Indian canals and probable archaeological sites. (301 pages) (ELR ORDER # 31268) (NTIS ORDER # EIS 73 1268D)

I-70 (Capitol Avenue), Indianapolis 07/30
Indiana
County: Marion
The proposed project is the improvement of three sections of I-70 (Capitol Avenue). The facility will displace one family and one business. An increase in noise pollution levels will occur. (31 pages) (ELR ORDER #31270) (NTIS ORDER # EIS 73 1270D)

Central Avenue, Kansas City 07/26
Kansas
County: Wyandotte
Proposed is the improvement of Central Avenue, 26th Street, Westview Drive and 29th Street in the City of Kansas City. Two residences and one business will be displaced; an unspecified amount of additional land will be required for right-of-way. (18 pages) (ELR ORDER # 31246) (NTIS ORDER # EIS 73 1246D)

US-62 and SH-80A, Fort Gibson 07 26
Oklahoma
County: Muscogee
Proposed is the improvement of US 62 by relocation from the Arkansas River, northeasterly 6.8 miles bypassing Fort Gibson on the south, and the extension of SH 80A from Fort Gibson south 1.1 mile to connect to US 62. Adverse impacts include the displacement of 13 families and the reduction of area pasture lands, cultivated lands and woodlands. (78 pages) (ELR ORDER # 31243) (NTIS ORDER # EIS 73 1243D)

Loop 1 (Mo Pac Boulevard) 07 26
Texas
County: Travis
The 5.7 mile section of Loop 1 considered in this statement is the northern portion of a 16.5 mile north-south freeway which traverses the City of Austin. The project extends from F.M. Highway 1325, south to 0.2 mile north of R.M. 2222 (Northland Drive). Development of the six-lane, controlled access facility will require the relocation of three businesses and four residences. (35 pages) (ELR ORDER # 31247) (NTIS ORDER # EIS 73 1247D)

S.T.H. 70, Wisconsin 07 30
Wisconsin
County: Oneida Vilas
The proposed project is the reconstruction and realignment of S.T.H. 70 for a distance of 10.6 miles. The facility will traverse portions of the Chequamegon National Forest and the Lac du Flambeau Indian Reservation. One hundred and forty acres of timberland will be acquired for right-of-way. The facility will traverse the Squaw, Koernet and Lower Creeks. Adverse affects are loss of timberland and wildlife habitat. (17 pages) (ELR ORDER # 31271) (NTIS ORDER # EIS 73 1271D)

Final *Date*
Missouri Route 71 and 71 Alternate 07 27
County: Jasper
The proposed action consists partly of adding an additional lane and partly of relocating Route 71 from the Barton County line to south of Carthage. Length of the project is 17.2 miles. Approximately 470 acres of agricultural land will be committed to the project. Thirty-seven residences including 8 farm units, and 8 businesses will be displaced. Construction activity will generate erosion, noise, air, and possible water pollution; channel changes to Buck Creek and an unnamed stream are required. (30 pages) COMMENTS MADE BY: DOT HEW HUD DOI EPA COE state and local agencies (ELR ORDER # 31260) (NTIS ORDER # EIS 73 1260F)

US 319 07 31
Florida
County: Leon
The project involves the reconstruction of 1.8 miles of highway, from 2 to 4 lanes. Displacements will number 8 businesses and 5 families. An increase in noise and air pollution levels will occur. zens (ELR ORDER # 31261) (NTIS ORDER # EIS 73 1261F)

I-275, Michigan 07/31
Michigan
County: Wayne
The proposed project is the construction of a portion of I-275 for 6.5 miles. The facility will displace an unspecified number of families and businesses. A 4(f) review will be filed to obtain 16 acres from the Lower Route Parkway. The facility will increase noise, air and litter pollution levels and affect existing groundwater characteristics. (86 pages) COMMENTS MADE BY: COE USCG DOC DOI DOT EPA state and regional agencies (ELR ORDER # 31280) (NTIS ORDER # EIS 73 1280F)

SH 3, Oklahoma 07/31
Oklahoma
County: Pontotoc Coal
The proposed project is the improvement of SH 3, for a distance of 11.8 miles. Four hundred and fifty acres of agricultural land will be acquired for right-of-way. Relocations will include 3 to 23 families and 42 businesses. Two streams will be crossed increasing erosion and sedimentation. An increase in noise and air pollution levels will occur. (41 pages) COMMENTS MADE BY: USDA COE DOI EPA HUD state and regional agencies (ELR ORDER # 31276) (NTIS ORDER # EIS 73 1276F)

Extension of Road S-179, South Carolina 07/31
South Carolina
County: Georgetown
The statement refers to the proposed extension of Road S-179 north of the town of Dunbar. The project would extend from the present edge of S-179 and proceed northerly, crossing the Black River, and terminating at Road S-6. Project length is approximately one mile. Acquisition of a 66-foot right-of-way will involve the removal of trees from an experimental tract; one tin storage building will be displaced. (29 pages) COMMENTS MADE BY: COE EPA DOC DOI HUD DOT state agencies (ELR ORDER # 31277) (NTIS ORDER # EIS 73 1277F)

U.S.H. 41, Wisconsin 07/31
Wisconsin
County: Washington Dodge Fond du Lac
The proposed project is the upgrading of 50 miles of U.S.H. 41. Five hundred and fifty acres of agricultural land will be acquired for right-of-way. Twenty-nine parcels will become landlocked. A 4(f) review has been filed to obtain 10 acres of land from the Allenton marsh and Teresa Marsh Wildlife Areas. Three farms and 10 businesses will be required to relocate. The facility will cross several streams increasing erosion and siltation; some wildlife will be lost. COST OF LIVING COUNCIL

[Cost of Living Council Order 34]

ACTING DEPUTY DIRECTOR, COST OF LIVING COUNCIL

Revocation of Delegation of Authority

Cost of Living Council Order Number 31 (38 FR 16268) designating the General Counsel as Acting Deputy Director of the Cost of Living Council and delegating to him the authority to carry out the activities theretofore carried out by the Deputy Director is hereby rescinded effective July 25, 1973.

Issued in Washington, D.C. on July 25, 1973.

JOHN T. DUNLOP,
Director, Cost of Living Council.

[FR Doc.73-16626 Filed 8-8-73;8:45 am]

[Cost of Living Council Order 35]

ADMINISTRATOR, OFFICE OF HEALTH

Delegation of Authority

Pursuant to the authority vested in me as Director of the Cost of Living Council by Cost of Living Council Order Nos. 14 and 29, it is hereby ordered as follows:

1. There is delegated to the Administrator, Office of Health, subject to the general policy guidance of and in coordination with the Director of the Cost of Living Council, or his delegate, authority to:

(a) Make decisions and issue orders with respect to requests by providers of health services for exceptions from the regulations and orders governing price matters;

(b) Make decisions and issue orders with respect to requests by providers of health services for reconsiderations of denials and partial approvals of requests for exceptions governing price matters;

(c) Consider and decide appeals from decisions of the Internal Revenue Service denying or partially denying exception requests from providers of health services;

(d) Monitor price adjustments disclosed as a result of filings or reports submitted by providers of health services, issue challenges or notices of probable violations as appropriate, and remedial orders to providers of health services, monitor remedial activities and approve compliance actions with respect thereto;

(e) Direct the Internal Revenue Service to conduct investigations to determine whether persons are in compliance with the regulations and orders of the Cost of Living Council pertaining to providers of health services and supervise those investigations; and

(f) Request information and conduct hearings with respect to functions delegated in this paragraph.

2. Numbered paragraphs 1 and 2(c) of Cost of Living Council Order No. 25 are superseded to the extent they are inconsistent with this order.

3. Each official to whom authority is delegated by this Order may redelegate that authority.

4. In exercising the authority delegated by this order or redelegated pursuant thereto officials of the Cost of Living Council shall be governed by the regulations and rulings of the Cost of Living Council and by the policies, procedures, and controls prescribed by the Director of the Cost of Living Council, or his delegate.

5. Actions taken by the Administrator, Office of Health, under paragraphs 1 (b) and (c) are administratively final. Review of these actions may be sought in the appropriate Federal district court pursuant to section 211 of the Economic Stabilization Act of 1970, as amended (Public Law 92-210, 85 Stat. 744).

6. This order is effective July 31, 1973.

JOHN T. DUNLOP,
Director,
Cost of Living Council.

[Cost of Living Council Order 36]

DIRECTOR, OPERATIONS, OFFICE OF HEALTH

Delegation of Authority

Pursuant to the authority vested in me as Administrator, Office of Health, Cost of Living Council by Cost of Living Council Order No. 35, it is hereby ordered as follows:

1. There is delegated to the Director, Operations, Office of Health, authority to:

(a) Make decisions and issue orders with respect to requests by providers of health services for exceptions from the regulations and orders governing price matters;

(b) Consider and decide appeals from decisions of the Internal Revenue Service denying or partially denying exception requests from providers of health services;

(c) Monitor price adjustments disclosed as a result of filings or reports submitted by providers of health services, issue challenges or notices of probable violations as appropriate, and remedial orders to providers of health services, monitor remedial activities and approve compliance actions with respect thereto;

(d) Direct the Internal Revenue Service to conduct investigations to determine whether persons are in compliance with the regulations and orders of the Cost of Living Council pertaining to providers of health services and supervise those investigations; and

(e) Request information and conduct hearings with respect to functions delegated in this paragraph.

2. In exercising the authority delegated by this order or redelegated pursuant thereto, officials of the Office of Health shall be governed by the regulations and rulings of the Cost of Living Council and by the policies, procedures, and controls prescribed by the Director of the Cost of Living Council, or his delegate, and by the Administrator, Office of Health.

3. Actions taken by the Director, Operations, Office of Health, under paragraph 1(b) are administratively final. Review of these actions may be sought in the appropriate Federal district court pursuant to section 211 of the Economic Stabilization Act of 1970, as amended (Public Law 92-210, 85 Stat. 744).

4. This order is effective July 31, 1973.

JOHN D. TWINAME,
Administrator, Office of Health,
Cost of Living Council.

FEDERAL POWER COMMISSION

AMERADA HESS CORPORATION, ET AL.[1]

[RI74-15]

Order To Show Cause

JULY 31, 1973.

On December 21, 1971, this Commission initiated the study and analysis which ultimately led to the issuance of the National Gas Reserves Study (1973) in May of this year by the National Gas Survey.[1a] In that order, we recognized the value of having voluntary cooperation by natural gas companies in the production of proprietary reserve information and, accordingly, provided in paragraph (B):

> Any non-public commercial information concerning an individual natural gas company's reserves obtained during the course of this survey and analysis shall be treated as confidential without public disclosure by the staff of the Commission and its agents, including any accounting firm selected by the Commission to assist in this survey and analysis, unless otherwise directed by the Commission. The provisions of section 8(b) of the Natural Gas Act [15 U.S.C. 717g(b)] and 5 U.S.C. 522(b)(4) and (9) [Freedom of Information Act] shall apply.

In our amending order of March 9, 1972, we reiterated our belief in the need for protecting the confidentiality of this reserve data, specifically noting that "the publicizing of such information would have an inhibiting effect upon future exploration for natural gas reserves since speculators could equally benefit with those companies willing to make geological and geophysical expenditures."[2]

To insure that confidentiality would be maintained in fact, we went further in those orders and established detailed procedures for the compilation and analysis of individual company reserve data. To begin with, industry representatives who provide A.G.A. reserves were to submit those reserves by fields on a confidential basis to an independent accounting agent. A list of all gas fields for which A.G.A. reserve data was submitted was then to be prepared by the accounting agent and forwarded to the Oil Information Center (OIC) of the University of Oklahoma Research Institute. After comparing the accounting agent's field list developed from the A.G.A. records with a list from the United States Government Interagency Oil and Gas Field Study and other government data, the OIC was to compile a complete list of gas fields in the United States with remaining recoverable reserves as of December 31, 1970.

A copy of the OIC gas field identification list and a supplemental list of "A.G.A. omitted fields" was to be forwarded to the accounting agent who, in turn, was to stratify all fields in each A.G.A. subcommittee area by size and age so that a statistically valid sampling procedure could be prescribed. Following the determination by a statistical validation team of the number of fields to be surveyed independently in each A.G.A. subcommittee area, the accounting agent was to make a random selection of the fields to be surveyed.

Upon receiving a list of the fields to be surveyed, independent reserve teams, under supervision by the staff of the Federal Power Commission, were to visit various natural gas companies and examine data relating to each selected field.[3] The companies were requested to furnish the reserve teams with such information as (1) field area maps showing the location and completion of all wells drilled prior to December 31, 1970, (2) electrical well surveys, (3) core analyses, (4) reservoir production histories, (5) specific gravities of gas, (6) formation temperatures, (7) original reservoir pressures, (8) isopach maps, (9) records and backup data on reservoir pressure measurements, and (10) other pertinent data requested by the reserve teams. After analyzing such data, the independent reserve teams were to transmit their estimations on a confidential basis to the reserve team supervisor who, in turn, was to furnish the accounting agent with a final reserve estimate for each field after comparing the reserve team data with A.G.A. reserve estimates or any other source.[4] The worksheets which were prepared by the reserve teams were to be returned to the Commission's offices in Washington and placed in the custody of the Technical Director of the National Gas Survey who was to have the responsibility of protecting their confidentiality.

Once all sampling had been completed and all final estimates submitted, the independent accounting agent was to provide a report to the National Gas Survey on United States gas reserves as of December 31, 1970. When the report was accepted by the National Gas Survey, the accounting agent and the reserve team supervisor were to return all A.G.A. records to the member of the A.G.A. Committee of Natural Gas Reserves assigned to the particular area involved.

All of these procedures have been implemented in the compilation and analysis of the reserves which are reported in the National Gas Reserves Study. We must now address ourselves to the proper disposition of the confidential data now in the possession of the Technical Director of the National Gas Survey who has been directed to retain custody until further order. We are particularly concerned with internal records and worksheets which contain detailed information of each reservoir examined, including the reservoir's (1) principal sellers and operators, (2) size and location, (3) number of productive acres, (4) porosity, (5) initial and current pressures, (6) depth, (7) basic lithology, and (8) remaining recoverable reserves. Furthermore, we must determine whether the National Gas Survey should formally accept the accounting agent's report, thereby permitting the accounting agent and the reserve team supervisor to release all A.G.A. records to an appropriate member of the A.G.A. Committee on Natural Gas Reserves. As we have indicated, the accounting agent has a complete list of A.G.A. individual field reserve estimates, while the reserve team supervisor possesses A.G.A. reserve estimates only as to those selected fields actually surveyed.

At the outset, it should be made clear that this Commission intends to comply to the fullest extent possible with all assurances of confidentiality. However, our discretion may be limited to the demands of certain Congressional committees and subcommittees which are independently investigating the energy crisis.[5] Already, the Chairman of the Commission has been compelled by subpoena duces tecum to furnish uncommitted gas reserve data to the Senate Judiciary Committee's Subcommittee on Antitrust and Monopoly.[6] Under compulsion of process, we authorized the Chairman to comply with the subcommittee's demands, but expressly noted the Constitutional and statutory infirmities inherent in such a procedure:

> • • • [T]he procedural and substantive due process rights of citizens of the United States are placed in jeopardy. The time constraint imposed by the Subcommittee precludes any meaningful notice to those whose property

[1] See Appendix A.

[1a] Order Directing Study and Analysis of Natural Gas Reserves and Prescribing Procedures for the National Gas Survey (December 21, 1971).

[2] Order Amending Order Prescribing Procedures for the National Gas Survey (March 9, 1972).

[3] Reserves in selected fields lying in the Outer Continental Shelf, offshore Louisiana, were examined and estimated by the United States Geological Survey. The Office of Naval Petroleum and Oil Shale Reserves was also instrumental in the estimation of certain state land field reserves.

[4] A.G.A. reserve estimates for the fields surveyed were made available to Mr. Lawrence R. Mangen, supervisor of the reserve teams.

[5] The staff of the Federal Trade Commission has also expressed an interest in obtaining a portion of the reserve data to be used in conjunction with its investigation styled In the Matter of the American Gas Association, File No. 721 0042.

[6] On June 21, 1973, Senator Philip A. Hart, acting on behalf of the subcommittee, issued a subpoena duces tecum demanding production of virtually all documents whatsoever relating to the updated nationwide investigation in Docket No. R-405.

V 38 153 AUG 9 73 XUM

rights are being affected, and any real opportunity on their part to be heard prior to the entry of this order and prior to the disclosure now demanded by the Subcommittee.[7]

In order to avoid any further encroachment upon the procedural and substantive rights of those whose property is involved without their opportunity to defend such property, we are hereby initiating a proceeding to determine what action, if any, should be taken regarding disclosure of the reserve data upon which the National Gas Reserves Study is based. Specifically, we invite not only the natural gas companies listed in Appendix A, but indeed all interested parties, to show cause why all or a portion of the reserve data in question should either be (1) retained on a confidenital basis, (2) disclosed to the public in general, (3) disclosed only to Congressional committees and subcommittees, without restriction, (4) disclosed only to Congressional committees or subcommittees but subject to confidential treatment, (5) disclosed to other Federal agencies without restriction, or (6) disclosed to other Federal agencies but subject to confidential treatment.

Each party responding to this proceeding should explain in detail the reasons in support of its position. In particular, respondents are requested to comment on the following questions:

1. Would disclosure of the detailed reserve data to the public, other Federal agencies, or any committee or subcommittee of Congress be inimical to competition? If so, to what extent?

2. Would disclosure of the detailed reserve data to the public, other Federal agencies, or any committee or subcommittee of Congress inhibit future exploration and development for new gas reserves?

3. Would disclosure of the detailed reserve data to the public, other Federal agencies, or any committee or subcommittee of Congress cause economic harm to the companies whose reserves are involved?

4. Would disclosure of the detailed reserve data to the public, other Federal agencies, or any committee or subcommittee of Congress place sellers of natural gas in an unfair position to negotiate with potential buyers?

5. Is any of the reserve data underlying the National Gas Reserves Study available from any other source to the public, other Federal agencies, or any committee or subcommittee of Congress? If so, to what extent?

6. Has any natural gas company whose data is involved provided the same or similar information to any other agency or any committee or subcommittee of Congress? If so, under what circumstances?

7. Are there any other public policy reasons why such data should not be disclosed to the public, other Federal agencies, or any committee or subcommittee of Congress?

In the last analysis, it is the desire of this Commission to comply with all lawful requests of Congress without violating either the terms of our orders or the provisions of the Natural Gas Act, and without breaching the trust of those who have relied upon our assurances of confidentiality. Hopefully, through the cooperation of all concerned, a proper balance will be reached between all legitimate areas of public and private concern.

All responses to this order shall be in writing and shall be filed on or before August 15, 1973. Any definitive order hereinafter entered regarding disclosure of the data in question shall be deemed by this Commission to be final and reviewable by a court of competent jurisdiction.

The Commission finds:

It is in the public interest and required by due process that all interested parties, particularly those listed in Appendix A, be given an opportunity to show cause why the gas reserve data compiled and analyzed for the National Gas Reserves Study (1973) should be either retained on a confidential basis, publicly disclosed, disclosed to any committee or subcommittee of Congress without restriction, disclosed to any committee or subcommittee of Congress subject to confidential treatment, disclosed to other Federal agencies without restriction, or disclosed to the Federal agencies subject to confidentiality.

The Commission orders:

(1) All interested parties, particularly those listed in Appendix A, are invited to show cause why the gas reserve data described above should either be retained on a confidential basis, publicly disclosed, disclosed to any committee or subcommittee of Congress without restriction, disclosed to any committee or subcommittee of Congress subject to confidential treatment, disclosed to other Federal agencies without restriction, or disclosed to other Federal agencies subject to confidentiality.

(2) All responses shall be in writing and shall be filed on or before August 15, 1973.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

APPENDIX A

The natural gas companies who should respond to this order are as follows:

Amerada Hess Corporation
Arkansas Louisiana Gas Company
Atlantic Richfield Company
Austral Oil Company, Inc.
Champlin Petroleum Company
Cities Service Company
Continental Oil Company
Consolidated Gas Supply Corporation
El Paso Natural Gas Company
General Crude Oil Company
Getty Oil Company
Gulf Oil Corporation
Exxon Company, U.S.A.
Kentucky-West Virginia Gas Company
Kerr-McGee Corporation
Lone Star Gas Corporation
Marathon Oil Company
Mitchell Energy and Development Corporation
Michigan Wisconsin Pipe Line Company
Mobil Oil Corporation
Montana-Dakota Utilities Company
Murphy Oil Corporation
Natural Gas Pipeline Company of America
Northern Natural Gas Company
Panhandle Eastern Pipe Line Company
Pennzoil United, Inc.
Phillips Petroleum Company
Shell Oil and Gas Company
Signal Oil and Gas Company
Skelly Oil Company
Southern Natural Gas Company
Standard Oil Company of Indiana (Amoco)
Standard Oil Company of California (Chevron)
Sun Oil Company
The Superior Oil Company
Tenneco Inc.
Texaco Inc.
Texas Pacific Oil Company, Inc.
Union Oil Company of California

[7] Order of June 22, 1973, in Docket No. R-405; Cf. Accardi v. Shaughnessy, 347 U.S. 260 (1954); Service v. Dulles, 354 U.S. 363 (1957).

FEDERAL RESERVE SYSTEM

ATLANTIC BANCORPORATION

Order Approving Merger of Bank Holding Companies

Atlantic Bancorporation, Jacksonville, Florida ("Atlantic"), a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(5) of the Act (12 U.S.C. 1842(a)(5)) to merge with Citizens Bancshares of Florida, Inc., Hollywood, Florida ("Citizens"), under the charter and title of Atlantic.

Notice of receipt of the application, affording an opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Atlantic controls 23 banks with aggregate deposits of approximately $856 million representing 4.3 per cent of deposits of commercial banks in Florida, and is the sixth largest banking organization and bank holding company in the State.[1] Citizens controls five banks with total deposits of about $114 million representing 0.6 per cent of aggregate deposits in the State, and is Florida's 23rd largest banking organization and bank holding company. Consummation of the proposed merger would result in Atlantic's control of 4.9 per cent of total State deposits, leaving unchanged its ranking as a banking organization or bank holding company in the State.

All of Atlantic's present subsidiary banks (except for its existing West Palm Beach subsidiary) are located in the northern two-thirds of Florida, and it is represented in several of the major banking markets in that portion of the State.

[1] Banking data are as of December 31, 1972, and reflect bank holding company formations and acquisitions approved by the Board through May 31, 1973.

It is dominant in none. Citizens, on the other hand, is concentrated in southern Florida. Four of its subsidiaries are located in the Greater Miami banking market approximated by Dade County and the southern third of Broward County, where it is the eleventh largest banking organization holding approximately 2 per cent of deposits; its remaining subsidiary, a newly-established bank, is located in the nearby Fort Lauderdale area. Since the closest subsidiary banks of the proponents are over 40 miles apart and the remaining subsidiaries are more than 125 miles apart, consummation of the proposal will not eliminate any significant amount of existing competition.

The Board recognizes that consummation of the proposal would foreclose the possibility that Citizens would expand to become a Statewide competitor of Atlantic. However, considering the financial resources and capital position of Citizens, and the nature of Citizens' ownership, we do not believe that the record in this case reflects a probability that, absent this proposal, Citizens would expand to become a Statewide competitor of Atlantic in the reasonably foreseeable future. In a recent action involving a similar proposal between two bank holding companies, the Board noted that a substantial adverse effect on potential competition occurs only where there is a probability rather than a possibility that substantial competition would develop between the banking organizations involved absent the proposed affiliation.[2]

With respect to the Greater Miami banking market, the Board believes that, absent this proposal, it is probable that Atlantic would enter de novo or through the acquisition of an existing bank in that market. However, due to the structure of banking in that market we do not believe that the foreclosure of Atlantic's entry as an independent competitor would have any substantial adverse effects on competition in that market. Banking in the Miami market is becoming more and more competitive. While the largest banking organization in the market—which is also the largest banking organization in Florida—holds approximately 23 per cent of market deposits, the next ten banking organizations hold market shares ranging from approximately 9 per cent to approximately 2 per cent.

While consummation of the present proposal would eliminate Atlantic as another potential entrant, the retail banking customers in the Greater Miami banking market are presently served by 40 banking organizations. Foreclosure of the possibility of a 41st could hardly have adverse effects on competition for retail business. As to the customer in need of wholesale and regional banking services, the proposal, rather than being anticompetitive, should in fact be procompetitive by creating another institution in the Greater Miami market with already established relationships in other parts of the State and with aggregate resources of nearly $1 billion.

The financial conditions and managerial resources of Atlantic, Citizens, and their respective groups of banks are generally satisfactory and their prospects appear favorable. These considerations are consistent with approval of the application. The primary banking needs of the areas served by both holding companies appear to be adequately met at the present time. However, consummation of the proposal would create another regional organization with resources more appropriate to meeting inter-regional needs. In addition, affiliation with Atlantic will enable customers of Citizens' banks to have immediate access to trust department services, credit cards, and international banking. Considerations relating to the convenience and needs of the communities to be served lend some weight toward approval. It is the Board's judgment that the proposed transaction is in the public interest and should be approved.

On the basis of the record,[3] the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[4] effective August 1, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-16426 Filed 8-8-73;8:45 am]

CITIZENS BANCSHARES CORPORATION

Order Approving Formation of Bank Holding Company

Citizens Bancshares Corporation, Atlanta, Georgia, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 100 per cent of the voting shares (less directors' qualifying shares) of the successor by merger to Citizens Trust Company, Atlanta, Georgia ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, a nonoperating company with no subsidiaries, was organized for the primary purpose of becoming a bank holding company with respect to Bank. Bank, with deposits of $33 million, controls 0.3 per cent of total State deposits and is the tenth largest banking organization in the Atlanta SMSA. Since the purpose of the proposed transaction is essentially a corporate reorganization to effect holding company ownership of Bank, consummation of the proposal would not adversely affect existing or potential competition. Therefore, competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant are dependent upon those of Bank. Bank has recently embarked on a program of reorganization and this structural change would add impetus to the program and would enhance future prospects of Bank. In view of the expected future benefits, banking factors are not inconsistent with approval. Although consummation of the transaction would have no immediate effect on area banking needs, considerations relating to the convenience and needs of the community are consistent with approval of the application. It is the Board's judgment that consummation of the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[1] effective August 2, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[4] Voting for this action: Chairman Burns and Governors Daane, Sheehan, Bucher, and Holland. Voting against this action: Governor Brimmer. Absent and not voting: Governor Mitchell.

[1] Voting for this action: Vice Chairman Mitchell and Governors Brimmer, Sheehan, and Bucher. Absent and not voting: Chairman Burns and Governors Daane and Holland.

V 38 - 153 AUG 9 73 XUM

Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)) of formation of a bank holding company through acquisition of 100 per cent of the voting shares of the successor by merger to Ann Arbor Bank, Ann Arbor, Michigan ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a corporation organized in June 1971 at the direction of Bank's management for the purpose of acquiring Bank, which has aggregate deposits of $173.6 million. (All banking data are as of December 31, 1972.) The transaction is merely a reorganization whereby the shareholders who control Bank directly at the present time will control Bank indirectly through Applicant. Since Applicant engages in no business activities and has no subsidiaries, it is concluded that consummation of the proposal would not significantly affect existing or potential competition, increase concentration of banking resources, nor have an adverse effect on other banks, in the relevant area.

The management of Applicant is essentially the same as that of Bank, and the financial condition of Applicant and its future prospects are dependent on those same conditions in Bank. The management of Bank is considered to be satisfactory, and its financial condition is deemed to be generally satisfactory in view of Applicant's commitment to inject additional equity capital into Bank within the near future and to institute a more aggressive earnings policy; therefore, future prospects for Applicant and Bank are favorable. The consummation of this proposed formation is not expected to provide any immediate benefits to the community, but the expanded and improved services which can be offered under the holding company structure would ultimately benefit the public; therefore, considerations relating to the convenience and needs of the community to be served are consistent with, and lend some weight toward, approval of the application. It is the Board's judgment that the transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order, or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[2] effective August 2, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-16424 Filed 8-8-73;8:45 am]

THIRD NATIONAL CORP.

Order Approving Acquisition of Bank

Third National Corporation, Nashville, Tennessee, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares of the successor by merger to The Union Bank, Pulaski, Tennessee ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the fourth largest bank holding company in Tennessee, controls four banks with aggregate deposits of approximately $785 million,[1] representing 7.6 per cent of the total commercial bank deposits in the State. Acquisition of Bank would increase Applicant's share of State deposits by 0.3 per cent and would not result in a significant increase in the concentration of banking resources in the State.

Bank (approximately $26 million in deposits) is the second largest of four banks in the Giles County banking market and controls 40 per cent of the deposits in commercial banks in the market. Consummation of the proposal herein would constitute the initial entry into the Giles County banking market by any bank holding company.

Applicant's subsidiary bank closest to Bank is located 18 miles away, in Lawrence County. There is no meaningful present competition between Applicant's subsidiary banks and Bank. Furthermore, in view of Tennessee's restrictive branching law, there is little likelihood of any significant amount of competition developing in the future between these institutions. De novo entry into the market does not appear attractive due to the decline in county population from 1960 to 1970, as well as the low ratio of population to banking offices in the county. The Board concludes, therefore, that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Bank, and of Applicant and its present subsidiary banks, are regarded as generally satisfactory. Considerations relating to the banking factors are consistent with approval of the application. Affiliation with Applicant is likely to provide Bank with a source of experienced personnel and additional capital, and result in expansion of the range of services presently offered by Bank. Considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[2] effective August 2, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-16425 Filed 8-8-73;8:45 am]

NORTHWEST BANCORPORATION

Order Approving Acquisition of Banks

Northwest Bancorporation, Minneapolis, Minnesota, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 90 percent or more of the voting shares of Bettendorf Bank and Trust Company, Bettendorf, Iowa ("Bettendorf Bank"), and Security State Bank, Keokuk, Iowa ("Keokuk Bank").

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and all those received have been considered in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)). Among the comments and objections was a request for a hearing. The Board decided to proceed on the basis of written submissions and denied the request for a hearing.

[2] Voting for this action: Chairman Burns and Governors Mitchell, Brimmer, Sheehan and Bucher. Absent and not voting: Governors Daane and Holland.

[1] All banking data are as of December 31, 1972, and reflect holding company formations and acquisitions approved through June 30, 1973.

[2] Voting for this action: Chairman Burns and Governors Mitchell, Brimmer, Sheehan, and Bucher. Absent and not voting: Governors Daane and Holland.

Although each of the applications has been separately considered by the Board, because of the facts and circumstances common to these applications, this Order contains the Board's findings and conclusions with respect to both applications.

Applicant controls 79 banks located variously in Iowa, Minnesota, Montana, Nebraska, North Dakota, South Dakota, and Wisconsin. Within Iowa, Northwest controls four banks with aggregate deposits of $480 million, representing 6.3 per cent of the total commercial bank deposits in that State.[1] Applicant is the largest banking organization and bank holding company in Iowa; acquisition of Bettendorf Bank ($26 million in deposits) and Keokuk Bank ($13 million in deposits), would increase its share of Statewide deposits by only one-half of a percentage point. Approval of the proposed acquisitions would not result in any significant increase in the concentration of banking resources in Iowa.

Bettendorf Bank is the fourth largest of six banks competing in the Davenport-Bettendorf urban area, the relevant banking market, with 8.1 per cent of total market deposits.[2] The Davenport-Bettendorf market is dominated by the Davenport Bank and Trust Company, which controls nearly 58 per cent of market deposits, more than four times the share of the next largest bank. Affiliation with Applicant would enable Bettendorf Bank to provide greater competition to Davenport Bank. The acquisition should enable Applicant to challenge effectively the dominant bank much sooner than it could by a de novo entry.

Keokuk Bank is also the fourth largest banking organization in its market[3] where it competes with 14 banking organizations, and holds 8.6 per cent of market deposits. Keokuk Bank and State Central Savings Bank of Keokuk, the latter being the largest bank in the market, are controlled by the same group. Thus, acquisition of Keokuk Bank would tend to have a procompetitive effect in the relevant market by severing the present affiliation between two of the largest banks in Keokuk with the resulting creation, reasonably anticipated, of an additional banking alternative for area residents.

The proposed acquisitions represent Applicant's initial entries into these markets and offer no apparent anticompetitive consequences. In each instance no existing competition would be eliminated as the nearest present banking subsidiary of Applicant (the Iowa-Des Moines National Bank at Des Moines, Iowa) is situated about 160 miles west of Bettendorf and 170 miles northwest of Keokuk.[4]

There is no significant existing competition between Applicant's mortgage banking subsidiary, Iowa Securities Company, and Bettendorf Bank or Keokuk Bank. There appears to be little likelihood for the development of any significant amount of future competition between Applicant and banks in view of the distances separating them from Applicant's present and proposed subsidiaries, the presence of numerous intervening banks, and Iowa's restrictive branching laws. Although Applicant could enter either market *de novo*, or through the acquisition of a smaller bank, in neither instance is Applicant's acquisition regarded as having a substantially adverse effect on potential competition. While the areas do not appear attractive to *de novo* entry, the possibilities of other holding companies entering the market would not be precluded by the acquisitions. Size disparity among the top banks in Keokuk Bank's market is narrow enough so that Applicant's acquisition there would not give Applicant a dominant share of the market's banking resources. With respect to the Bettendorf-Davenport area, Davenport Bank and Trust Company is clearly the dominant institution and entry by Applicant will have a procompetitive effect.

The Board concludes, therefore, that competitive considerations are consistent with approval of the applications.

The financial and managerial resources and prospects of Applicant and its subsidiary banks are satisfactory; and Applicant has entered into a capital improvement program with respect to certain subsidiary banks. It is expected that Bettendorf Bank's affiliation with Applicant will strengthen that bank's financial and managerial resources, in view of Applicant's commitment to provide $600,000 in equity capital to bank within six months following acquisition. In view of the anticipated growth of the Bettendorf area, future prospects are satisfactory. With respect to Keokuk Bank, the managerial resources and financial condition and future prospects are satisfactory. Thus, considerations relating to the banking factors lend some weight to approval with respect to Bettendorf Bank, and are consistent with approval with respect to Keokuk Bank.

There is no evidence in the record that the banking needs of the relevant areas are not being adequately served by existing banking organizations. Affiliation with Applicant should enable Bettendorf Bank to compete more aggressively with the dominant bank in its market in light of the facts that Applicant proposes to open an additional office; renovate an existing office; augment Bettendorf Bank's ability to provide real estate mortgage financing; improve Bettendorf Bank's parking facilities; and provide whatever assistance is required to enable Bettendorf Bank to challenge successfully the dominant bank in the market. Keokuk Bank has low loan to asset and loan to deposit ratios. Also, it directs a considerably lower proportion of its total loans to consumer borrwers than do other Keokuk banks. It is anticipated that affiliation with Applicant will result in a greater emphasis on consumer instalment loans and residential mortgages. Both banks will benefit from access to the full range of services now available to other subsidiary banks of Applicant including, advisory services in the areas of accounting, audit, operations systems, taxes, market analysis, investment portfolio assistance, and credit overline handling. Considerations relating to the convenience and needs of the communities to be served, therefore, lend weight to approval. It is the Board's judgment that the proposed acquisitions would be in the public interest and that the applications should be approved.

The Board is also required to consider, whether either proposal would be prohibited by State law. If the proposal would be so prohibited, the Board may not approve it.[5] Section 3(d) of the Bank Holding Company Act (12 U.S.C. 1842(d)) prohibits bank holding companies from acquiring banks in States outside their principal State of business unless the statute laws of the State in which such bank is located specifically authorizes such acquisition by language to that effect and not merely by implication. These applications involve the first State statute enacted to allow an out-of-State bank holding company to acquire a controlling interest in a bank in that State. The relevant State statute, section 524.-1805 of the Iowa Code, provides that a foreign-based bank holding company could acquire a controlling interest in an Iowa bank if "* * * such bank holding company was on January 1, 1971, registered with the federal reserve board as a bank holding company, and on that date owned at least two banks in this state." Applicant is the only bank holding company capable of qualifying under section 524.1805 of the Iowa Code.

Objectors' principal arguments are: Firstly, as Applicant is the only out-of-State bank holding company able to expand in Iowa, section 524.1805 of the Iowa Code constitutes a denial of the equal protection of the laws and due process provisions of the Fourteenth Amendment to the United States Constitution and also a violation of the Iowa Constitution; secondly, in enacting the Bank Holding Company Act and its Amendments, Congress did not intend to allow State legislatures to choose selectively which out-of-State bank holding

[1] All banking data are as of June 30, 1972, and reflect bank holding company formations and acquisitions approved by the Board through May 31, 1973.

[2] Davenport-Bettendorf area makes up the western half of the Davenport-Moline-Rock Island SMSA.

[3] Approximated by the southern half of Lee County, Iowa, the eastern half of Clark County, Missouri, and most of the western half of Hancock County, Illinois.

[4] Applicant has pending before the Board an application to acquire The First National Bank of Dubuque, Iowa, which is about 80 miles north of Bettendorf and 200 miles northeast of Des Moines.

[5] *Whitney National Bank in Jefferson Parish v. Bank of New Orleans & Trust Co.*, 379 U.S. 411 (1965).

V 38 153 AUG 9 73 XUM

company could enter the State; and finally, the proposed acquisitions would have an adverse effect on Iowa banking structure.

As required by *Whitney*, the Board considers the applicability and effect of State legislation, but the constitutional validity thereof is presumed;[6] and objectors' challenges to the constitutionality of the recently-enacted Iowa legislation in this matter are properly cognizable only by the judiciary. There is no dispute that the State legislature's intent was to enable Northwest Bancorporation to expand in Iowa by the acquisition of additional banks and the provisions of the Iowa statute accomplished that purpose.

With respect to objectors' second principal argument, section 7 of the Act (12 U.S.C. 1846) expressly reserves to the States the authority to adopt legislation in the exercise of their powers and jurisdiction with respect to banks, bank holding companies, and their subsidiaries. The U.S. Supreme Court in Whitney expressly instructed the Board to consider the applicability and effect of any such legislation. Thus, as the Board has previously indicated,[7] "irrespective of any doubt the Board may entertain as to the wisdom or desirability of a particular State enactment, the Board must, and will, respect, and act in the light of, pertinent State legislative judgments."

Finally, objectors contend that the proposed acquisitions would have an adverse effect on Iowa banking. The Board notes that effective July 1, 1972, the Iowa Code was revised to prohibit acquisition of ownership or control of any bank by a bank holding company if as a result the banks owned or controlled by the holding company would have in the aggregate more than 8 per cent of the total time and demand deposits of all banks in the State.[8] The effect of this provision is to preserve the existing deconcentrated nature of Iowa banking. As of June 30, 1972, the four largest banking organizations and bank holding companies in Iowa controlled 17.8 per cent of Statewide deposits; the ten largest banking organizations held 23.9 per cent of deposits. The Board regards section 524.1802 of the Iowa Code as insuring that no bank holding company is able to expand by acquisition to such a degree that it can dominate Iowa banking. The 8 per cent ceiling imposes an effective limitation on future acquisitions by Northwest Bancorporation in Iowa since it would hold 6.84 per cent of Statewide deposits after these acquisitions.

Based upon the record, the applications are approved. The transactions shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Minneapolis pursuant to delegated authority.

By order of the Board of Governors,[9] effective August 2, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

JACOB SCHMIDT CO.

Proposed Acquisition of Lake City Agency, Inc.

Jacob Schmidt Company, St. Paul, Minnesota, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire indirectly, through its subsidiary, American Bancorporation, Inc., St. Paul, Minnesota, voting shares of Lake City Agency, Inc., Lake City, Minnesota. Notice of the application was published on June 7, 1973 in The Lake City Graphic, a newspaper circulated in Lake City, Minnesota.

Applicant states that the proposed subsidiary would engage in the activities of a general insurance agency in a community of less than 5,000 persons. Such activities have been specified by the Board in § 225.4(a)(9) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing, competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 30, 1973.

Board of Governors of the Federal Reserve System, August 3, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

NATIONAL ADVISORY COUNCIL ON SUPPLEMENTARY CENTERS AND SERVICES

NATIONAL ADVISORY COUNCIL ON SUPPLEMENTARY CENTERS AND SERVICES

Notice of Meeting

Notice is hereby given, pursuant to Public Law 92–463, that the next meeting of the National Advisory Council on Supplementary Centers and Services will be held on September 8 and 9, 1973, from 1:00–5:00 p.m. on Saturday and Sunday, at the Far View Lodge in Mesa Verde National Park near Durango, Colorado.

The National Advisory Council on Supplementary Centers and Services is established under section 309 of Public Law 91–230. The Council is directed to:

(1) Review the administration of, general regulations for, and operation of this title, including its effectiveness in meeting the purposes set forth in section 303;
(2) Review, evaluate, and transmit to the Congress and the President the reports submitted pursuant to section 305(a)(2)(E);
(3) Evaluate programs and projects carried out under this title and disseminate the results thereof; and
(4) Make recommendations for the improvement of this title, and its administration and operation.

Agenda items for the meeting will include a review and discussion of:

(1) The national Identification/Validation/Dissemination (IVD) effort being sponsored by the U.S. Office of Education in cooperation with the States. Reports will be given by: Mr. Fred Sughrue, Title III Coordinator, Arizona; Mr. Emory Lockette, Title III Advisory Council Chairman, Nevada; and Dr. Luther Kiser, Project Director, Ames, Iowa.
(2) Legislation affecting Title III of the Elementary and Secondary Education Act and testimony to be presented before the Senate Subcommittee on Education.
(3) The annual report to the U.S. Commissioner of Education, the Congress, and the President.
(4) Topics for future ESEA Title III Quarterlies published by the Council.
(5) Future staff needs of the Council.
(6) Results of a questionnaire on Council publications.

The meeting of the Committee shall be open to the public. Records shall be kept of all Council proceedings (and shall be available for public inspection at the office of the Council's Executive Director, located in Suite 714, 2130 H Street, NW., Washington, D.C.).

Signed at Washington, D.C., on August 1, 1973.

GERALD J. KLUEMPKE,
Executive Director.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 73-59]

NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL

Agenda and Notice of Meeting

The NASA Research and Technology Advisory Council will meet on August 16 and 17, 1973, at Headquarters, National Aeronautics and Space Administration. The meeting will be held in Room 625, Federal Office Building 10B, on August 16, and in Room 7002, Federal Office Building 6, on August 17. The meeting is open to the public with the exception of the closed sessions: (1) August 16, 8:30–10:00 a.m., (2) August 16, 10:00–11:00 a.m., (3) August 16, 11:00–11:30 p.m., (4) August 17, 1:00–2:00 p.m. The seating capacity of the rooms is about 40 persons, including Council members and other participants.

The NASA Research and Technology Advisory Council was established to advise NASA's senior management in the area of aeronautics and space research and technology. The Council studies issues, pinpoints critical problems, determines gaps in needed technology, points out desirable goals and objectives; summarizes the state-of-the-art, assesses on-going work, and makes recommendations to help NASA plan and carry out a program of greatest benefit to the Nation. The current Chairman is Mr. Richard E. Horner. There are 15 members on the Council itself and additional members on 8 committees which report to the Council.

The following list sets forth the approved agenda and schedule for the meeting. For further information, please contact the Executive Secretary, Mr. Fred W. Bowen, Jr., Area Code 202, 755–2494.

August 16, 1973, Room 625, Federal Office Building 10B, 600 Independence Avenue, SW., Washington, DC

TOPIC

Time. 8:30 a.m. OAST Overview and Status (Closed Session)—To brief the Council on personnel changes and resulting implications, technical and funding status of selected technology programs within the Office of Aeronautics and Space Technology, and joint programs with the military. This will include discussions of classified information related to military aeronautics programs and preliminary NASA funding plans based on probable Fiscal Year 1974 Congressional appropriation levels.
10:00 a.m. Discussion of Research and Technology Advisory Council Organizational Structure in View of NASA Needs (Closed Session) — The Council organizational structure will be discussed to further assess its relation to NASA program requirements. Recommendations will be made to make some changes in both organization and personnel.
11:00 a.m. DOD/NASA Aeronautical Research and Development Study (Closed Session)—To review the scope, content, and planned utilization of the in-house classified study which includes fighter aircraft.
11:30 a.m. High Efficiency/Low Pollution Aircraft Engines—To review the NASA program on future aircraft engines as it relates to recent Environmental Protection Agency Aircraft Emission Standards and related low pollution applications.
12:00 Recent Aircraft Emissions Standards and Potential Requirements for Lower Aircraft Noise Levels—To inform the Council of the most recent regulatory actions or potential actions that will affect NASA technology programs.
1:30 p.m. President's Proposed Energy Reorganization—To inform the Council of the President's proposed energy reorganization designed to assure that the United States is able to meet the growing energy requirements.
2:00 p.m. Status Report on Skylab and Space Shuttle—The Council will be briefed on Skylab and the space shuttle to inform them of the latest accomplishments, plans, and activities so that the Council can relate this to space technology needs.
3:00 p.m. Selection of NASA Investigations—The Council will review a recent draft report which pertains to NASA's method of selection of proposals for space flight investigations.
3:30 p.m. Committee Reports—Reports will be made by Committee Chairmen of the Aeronautics Committee; Aeronautical Propulsion Committee; and Materials & Structures Committee for Council's use in guiding Committee activities and topics of study. These will include major accomplishments, problems, and recommendations to the Council.

August 17, 1973, Room 7002, Federal Office Building 6, 400 Maryland Avenue, SW., Washington, D.C.

Time. 8:30 a.m. Committee Reports (continued)—Reports will be made by the Committee Chairmen of the Guidance & Control Committee; Research Committee; Space Vehicles Committee; Space Propulsion & Power Committee; Aeronautical Operating Systems Committee; Ad Hoc Panel on High Power Lasers; and Joint Ad Hoc Panel on Aerospace Vehicle Dynamics and Control. These will include major accomplishments, problems, and recommendations to the Council.
1:00 p.m. Executive Session (Closed to the Public)—To discuss Council recommendations with the NASA Administrator in light of present funding changes and future funding levels, changes in Council structure and personnel, and joint NASA/military programs which include classified and unclassified subjects, especially in the case of fighter aircraft technology.
2:00 p.m. Adjourn.

HOMER E. NEWELL,
Associate Administrator, National Aeronautics & Space Administration.

AUGUST 3, 1973.

[FR Doc.73-16495 Filed 8-8-73;8:45 am]

NATIONAL CREDIT UNION ADMINISTRATION

NATIONAL CREDIT UNION BOARD

Notice of Meeting and Agenda

Pursuant to the provisions of the Federal Advisory Committee Act, Pub. L. 92–463, 86 Stat. 770, notice is hereby given that the National Credit Union Board will hold its quarterly meeting on September 13–14, 1973, at the offices of the National Credit Union Administration, 2025 M Street, NW., Washington, D.C. 20456. The meetings will commence at 9 a.m. daily in Room 4210.

The agenda for this meeting will consist of an update briefing regarding the activities of the several offices of the National Credit Union Administration, a briefing on the progress of the Administration's library project, a briefing on share insurance activities, a briefing on two-year insured Federal credit unions, and other aspects of the Administration. Matters for discussion will include

V 38 153 AUG 9 73 XUM

revisions of manuals published by the Administration and legislative activities.

This meeting of the National Credit Union Board will be open to the public. Members of the public may file written statements with the Board either before or after the meeting. To the extent that time permits, interested persons may be permitted to present oral statements to the Board only on items listed in the aforementioned agenda. Requests to present such oral statements must be approved in advance by the Chairman of the Board. Such requests should be directed to the Chairman, National Credit Union Board, National Credit Union Administration, Washington, D.C. 20456.

HERMAN NICKERSON, Jr.,
Administrator.

PENNSYLVANIA AVENUE DEVELOPMENT CORPORATION

BYLAWS

Establishment, Purposes and Procedures

The bylaws of the Pennsylvania Avenue Development Corporation, adopted June 7, 1973, are as follows:

TITLE

1. The name of the Corporation is the Pennsylvania Avenue Development Corporation.

PURPOSE

2. The basic purposes of the Corporation are those defined and promulgated by Congress in the Act of October 27, 1972, Public Law 92-578 (86 Stat. 1266).

OFFICE

3. The principal office of the Corporation shall be in the City of Washington, District of Columbia.

SEAL

4. The Corporate Seal shall be circular in form with the name of the Corporation and the year of incorporation printed upon it. The seal may be used by causing it or a facsimile thereof to be impressed, affixed, or reproduced.

DIRECTORS

5. There shall be fifteen voting members on the Board of Directors. Seven of whom shall be the Government representatives, or their alternates, designated by Public Law 92-578; and eight of whom are appointed by the President of the United States.

6. Each member of the Board appointed by the President shall serve a term of six years from the expiration of his predecessor's term, except that any Director appointed to fill a vacancy shall serve the remainder of such term. The terms of the Directors first taking office shall begin on October 27, 1972, and shall expire as designated at the time of appointment.

7. There shall be a Chairman and a Vice Chairman designated by the President from among the members of the Board.

8. The powers and management of the Corporation shall be vested in the Board of Directors and shall be exercised by the Board except as hereinafter specifically delegated by them to the Officers of the Corporation.

MEETINGS OF THE BOARD

9. Regular meetings of the Board shall be held whenever necessary at the principal office of the Corporation, or at a place designated in the notice thereof. The Board shall meet at the call of the Chairman, who shall require it to meet not less often than once each three months. Notice of the meetings shall be provided in the same manner as is specified for special meetings.

10. Special meetings of the Board may be called at any time by the Chairman or the Vice Chairman, and shall be called by the Chairman or the Vice Chairman at the written request of any five Directors. Notice of special meetings shall be given either personally or by mail, or by telegram, and shall state the time and the place of the meeting. Notice by telephone shall be personal notice. Any Director may waive in writing such notice as to himself, whether before or after the time of the meeting, and the presence of a Director at any meeting shall constitute a waiver of notice of such meeting. Any and all business of the Corporation may be transacted at any special meeting unless otherwise indicated in the notice thereof.

11. The Chairman shall preside at all meetings of the Board, or the Vice Chairman in the absence of the Chairman. In the event of the absence of both the Chairman and the Vice Chairman, the Directors present at the meeting shall designate a Presiding Officer.

12. At any meeting of the Board, a quorum shall consist of eight Directors. The act of a majority of the Directors present at any meeting at which there is a quorum shall be the act of the Board.

13. The Chairman shall invite to serve on the Board of Directors the nonvoting members designated in section 3(g) of Public Law 92-578. The nonvoting members shall be invited to attend all meetings of the Board, but their presence shall not affect the determination of a quorum.

14. The Chairman shall invite the nonvoting Advisory Board of seven tenants and owners from within the development area to meet with the Board at such times as he deems to be desirable, but not less than twice annually during the preparation of the development plan.

OFFICERS

15. The Chairman of the Board shall be the President and chief executive officer of the Corporation and shall have the general powers and duties of supervision and management usually vested in the office of president of a corporation. The President shall see that all orders and resolutions of the Board are carried into effect, and shall have power to execute contracts, leases, agreements, and other documents necessary for the conduct of the Corporation's business.

16. The Board of Directors shall appoint an Executive Director and two Assistant Directors, who may be appointed and compensated without regard to the provisions of title 5 of the United States Code governing appointment in the competitive service and chapter 51 and subchapter 53 of title 5 of the United States Code.

17. The Executive Director shall serve as the chief of the staff of the Corporation. He shall direct and coordinate the design and planning work and maintain liaison with the President and the Board of Directors of the Corporation. He shall direct the preparation and edit the final working draft of the development plan required by Public Law 92-578, and submit it to the President for presentation to the Board; and shall prepare, or cause to be prepared, such additions and changes to the plan as the Board may direct. With the approval of the President, he shall hire the staff of the Corporation; prepare, or cause to be prepared, and execute contracts, agreements, and other documents necessary for the conduct of the Corporation's business; obtain interagency and other support services; and supervise the Corporation's budget. He shall also perform such other duties and exercise such powers as the President and the Board may prescribe.

18. The Assistant Director—Finance and Economics shall, under the direction of the President and the Executive Director, prepare the contracts for and coordinate the work of economic and financial consultants; himself prepare such economic and financial proposals, studies, plans, and agreements as are appropriate; and shall advise the other Officers and the Board of economic and financial matters. He shall act as the Treasurer of the Corporation, and shall have charge of the custody, safekeeping and disbursement of all funds of the Corporation; designate qualified persons to authorize disbursements of corporate funds; be responsible for documents relating to the general financing operations of the Corporation, including borrowings from the United States Treasury, commercial banks and others; have authority to collect all monies due the Corporation, to receipt therefor and to deposit same for the account of the Corporation; and shall perform such other duties relating to the fiscal and accounting affairs of the Corporation as may be prescribed by the President or the Board.

19. The Assistant Director—Legal shall transact or supervise the transaction of all legal business of the Corporation. He shall advise the other Officers and the Board with respect to all matters of a legal nature, and shall perform such other duties as the President or the Board prescribes.

20. The President shall designate a member of the staff to act as Secretary. The Secretary shall attend all meetings of the Board and record the minutes of such meetings; give, or cause to be given, notice of all meetings; keep in safe custody the seal of the Corporation, and shall affix the same to any instrument requiring it. When so affixed, the seal shall be attested by the signature of the Secretary. The Secretary shall perform such other duties as may be prescribed by the President or the Board.

CONTRACTS

21. Contracts to which the Corporation is a party shall be subject to the applicable provisions of the Federal Procurement Regulations (Chapter 1, title 41 of the Code of Federal Regulations).

22. Pursuant to an interagency agreement, the General Services Administration Board of Contract Appeals shall hear appeals from the final decisions of the Corporation's contracting officers issued in accordance with the disputes clause to be included in contracts entered into by the Corporation.

ANNUAL REPORT

23. The Executive Director shall prepare annually a comprehensive and detailed report of the Corporation's operations, activities, and accomplishments for the review of the Board of Directors. Upon approval by the Board, the Chairman shall transmit such report in January of each year to the President of the United States and to the Congress.

AMENDMENTS

24. These bylaws may be altered, amended, or repealed by the Board of Directors at any regular or special meeting of the Board, if notice of the proposed alteration, amendment, or repeal is contained in the notice of such special meeting.

By the Board of Directors.

ELWOOD R. QUESADA,
Chairman.

AUGUST 2, 1973.

SECURITIES AND EXCHANGE COMMISSION

[70-5369]

AMERICAN NATURAL GAS CO. AND MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Proposed Issue and Sale of Commercial Paper to a Dealer and/or Short-Term Notes to Banks

Notice is hereby given that Michigan Wisconsin Pipe Line Company ("Michigan Wisconsin"), One Woodward Avenue Detroit Michigan 48226 a pipe line subsidiary company of American Natural Gas Company ("American"), 30 Rockefeller Plaza, Suite 4545 New York, New York 10020 a registered holding company, has filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 and 7 of the Act and Rules 50(a)(2) and 70(b)(2) promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

Michigan Wisconsin proposes to issue and sell from time to time to August 30, 1974, up to a maximum of $75,000,000 on its promissory notes ("Notes"). Accordingly, Michigan Wisconsin has arranged lines of credit with eight commercial banks providing for the borrowing of up to $75,000,000 on its Notes maturing August 30, 1974. The banks and their respective commitments are as follows:

Name of Bank	Amount of Commitment
First National City Bank, New York, New York	$18,500,000
Manufacturers Hanover Trust Company, New York, New York	18,500,000
National Bank of Detroit, Detroit, Michigan	10,500,000
The Detroit Bank & Trust Company, Detroit, Michigan	9,800,000
Manufacturers National Bank of Detroit, Detroit, Michigan	7,000,000
First Wisconsin National Bank of Milwaukee, Milwaukee, Wisconsin	4,500,000
M & I Marshall & Ilsley Bank, Milwaukee, Wisconsin	4,200,000
Marine National Exchange Bank, Milwaukee, Wisconsin	2,000,000
	$75,000,000

Each Note will be dated as of the date of issuance, will mature August 30, 1974, and will bear interest at the prime rate in effect at the lending bank on the date

V 38-153 AUG 9 73 XUM

of each borrowing, which interest rate will be adjusted to the prime rate effective with any change in said rate. Interest shall be payable at the end of each 90-day period subsequent to the date of borrowing and at maturity. There is no commitment fee, closing or other related charges payable to the banks, and the notes may be prepaid at any time without penalty. In connection with the lines of credit, Michigan Wisconsin is required to maintain compensating balances with the banks, the effect of which is to increase the effective interest cost by approximately one and one half (1½) percent above the prevailing prime rate of 8¾ percent.

Michigan Wisconsin also proposes, in lieu of the issuance and sale of its Notes to the above listed banks, to issue and sell from time to time up to August 30, 1974, commercial paper, to the extent funds are available, up to a maximum of $50,000,000 outstanding at any one time to Goldman, Sachs & Co., New York, New York, a dealer in commercial paper. The commercial paper will have varying maturities of not more than 270 days after the date of issue and will be issued and sold in varying denominations of not less than $50,000 and not more than $2,000,000 directly to Goldman, Sachs & Co. at a discount which will not be in excess of the discount rate per annum prevailing at the date of issuance for commercial paper of comparable quality and like maturities. Michigan Wisconsin proposes to sell commercial paper only so long as the discount rate or the effective interest cost for such commercial paper does not exceed the equivalent cost of borrowings from commercial banks (after taking into consideration compensating balances) on the date of sale, except for commercial paper of maturity not exceeding 90 days issued to refund outstanding commercial paper, if in the judgment of Michigan Wisconsin, it would be impractical to borrow from commercial banks to refund such outstanding commercial paper.

Goldman, Sachs & Co., as principal, will reoffer such notes at a discount not to exceed ⅛ of 1 percent per annum less than the prevailing discount rate to Michigan Wisconsin. Such notes will be reoffered to not more than 200 identified and designated customers in a list (non-public) prepared in advance by Goldman, Sachs & Co. and no additions will be made to the customer lists without approval of the Securities and Exchange Commission. It is anticipated that the commercial paper will be held by customers to maturity; however, if any commercial paper is repurchased by Goldman, Sachs & Co., such paper will be reoffered to others in the group of 200 customers. No commission or fee will be payable by Michigan Wisconsin in connection with the issue and sale of such commercial paper notes.

Michigan Wisconsin has been authorized to issue and sell $50,000,000 principal amount of first mortgage pipe line bonds and 400,000 shares of its $100 par value per share common stock $40,000,000 pursuant to Commission Order of August 31, 1973, (Holding Company Act Release No. 18046). Funds provided by these sources and by the $75,000,000 of borrowings for which authorization is hereby requested will be used by Michigan Wisconsin for advance payments relating to gas purchases, to finance its 1973 construction program (estimated to cost $100,400,000), and to pay any borrowings incurred for either of these purposes in July and August, 1973 under the Company's existing $75,000,000 line of credit (Holding Company Act Release No. 17679, dated August 28, 1972) or other short-term borrowings. Existing commitments for additional advance payments made in 1973 total $13,400,000; however, these commitments do not include any amounts covered by the negotiations described above. It is anticipated that funds required to retire the Notes and commercial paper will ultimately be obtained from additional long-term financing and funds generated internally.

Applicant-declarant states that the fees and expenses incident to the proposed transactions are estimated to be $3,000, which includes $500 for legal services. No State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than August 28, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulation promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[812-3411]

DREXEL BOND-DEBENTURE TRADING FUND

Notice of Filing of Application

Notice is hereby given that Drexel Bond-Debenture Trading Fund ("Applicant"), 1500 Walnut Street, Philadelphia, Pennsylvania 19101 has filed an application to amend an order entered by the Commission pursuant to section 6(c) of the Investment Company Act of 1940 (the "Act") granting a temporary exemption from the provisions of section 15(a) of the Act. Applicant is a closed-end diversified management company which is registered under the Act. All interested persons are referred to the application on file with the Commission for a statement of Applicant's representations, which are summarized below.

Applicant was a party to an Investment Advisory Contract (the "Advisory Contract") with Drexel Funds Management Company (the "Adviser") and the Adviser was a party to an Information and Services Agreement (the "Information Agreement") with Drexel Firestone, Incorporated ("Drexel Firestone"), formerly the sole shareholder of the Adviser. On March 16, 1973, Drexel Firestone transferred substantially all of its assets to Burnham & Company Inc. ("Burnham"), whose name was changed to Drexel Burnham & Co. Incorporated ("Drexel Burnham"). Among the assets transferred to Burnham by Drexel Firestone was all of the outstanding stock of the Adviser, which transfer caused the Advisory Contract to terminate immediately pursuant to its terms.

Section 15(a) of the Act prohibits any person from serving as an investment adviser to a registered investment company except pursuant to a contract that has been approved by the vote of a majority of the outstanding voting securities of the investment company. On May 25, 1973 (Act Rel. No. 7831), the Commission granted Applicant an exemption from the provisions of section 15(a) permitting the Adviser to act as investment adviser to Applicant, and be paid a fee by Applicant for such services equal to that payable provided in the terminated contract, for the period from March 16 until the approval of the new advisory contract, if (1) a new advisory contract and any information agreement was submitted to shareholders within 120 days after consummation of the combination of Drexel Firestone and Burnham and (2) shareholders approved the payment of advisory fees to the Adviser for such interim period.

Applicant now applies to amend that order to provide that the condition numbered (1) above be met within 210 days, rather than 120 days, after such combination. Said 120-day period expired on July 13, 1973.

On February 7, 1973, the Board of Directors of Applicant, with the approval of a majority of the directors who are not parties to such agreements or interested persons of such parties at a meeting called for the purpose of voting on an investment advisory contract, approved (a) a new advisory contract with the Adviser identical to the existing Advisory Contract and (b) a New Information Agreement with Drexel Burnham.

Subsequent to the directors' meeting on February 7, 1973 (and subsequent to the filing of the preliminary proxy material with the Securities and Exchange Commission), the directors who are not interested persons of the Adviser determined to re-evaluate the desirability of retaining Drexel Burnham as the investment adviser, and requested the Adviser to provide certain information to facilitate this review. This review has included, in addition to an evaluation of the Adviser, consideration of changes in procedures and in the form of the investment advisory contract intended to increase the profitability of Applicant. Because this evaluation has involved the assembly and study of complex factors affecting the Applicant, including studies of bond market activities and possible changes of rules under the Act, it was not completed in time to submit new contracts to shareholders prior to July 13, 1973. Applicant states that in view of the strong possibility that such studies would result in changes of the investment advisory agreement, the Applicant's Board of Directors decided to postpone the solicitation of proxies and the holding of the annual meeting of shareholders, and, accordingly, wishes to extend the period of exemption from section 15 (a) of the Act. At a meeting on July 13, 1973, a new agreement was approved, and a meeting of the shareholders has been scheduled.

Applicant has submitted that the granting of this application to amend is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act for the following reasons:

(1) The reasons supporting the initial order issued by the Commission remain valid, even though the initial 120-day period has expired. The officers of Applicant and the Adviser remain substantially the same as they were prior to the combination of Drexel Firestone and Burnham. Applicant has available to it not a different investment adviser, but the same investment advisory and administrative services as it received prior to the combination provided by an investment adviser with expanded capabilities and capital.

(2) Had a review of its advisory relationship not been instituted by the non-interested directors, a new advisory contract would have been submitted to shareholders within 120 days of the combination. The delay is not attributable to the Adviser.

(3) Applicant believes that it is proper that such services should be paid for at the rate called for by the terminated contract which was approved by the shareholders in 1972, and that it is unfair to the Adviser to pay only cost for these services.

(4) While the Applicant has no reason to believe that the Adviser will not continue to provide services, Applicant has no assurance that the Adviser will continue to be willing to render services if there is no prospect that it can be paid more than cost because the terms of the original exemption order requiring shareholder approval within 120 days cannot be met.

(5) The directors expect to be able to submit a new advisory contract to the shareholders at a meeting prior to October 10, 1973 (90 days after July 13, when the initial period expired).

Notice is further given that any interested person may, not later than August 28, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing thereon shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

NEW YORK STAFF TRUST AND NEW YORK WORKERS' TRUST

Notice of Filing of Application for Order Pursuant to Section 6(c) of the Act for Exemptions From All the Provisions of the Act

NOTICE IS HEREBY GIVEN that New York Staff Trust and New York Workers' Trust ("Applicants"), c/o Bankers Trust Company, Trustee 280 Park Avenue New York, New York 10017 trusts organized under the laws of New York, have filed an application for an order of the Commission exempting Applicants from all the provisions of the Investment Company Act of 1940 ("Act") pursuant to section 6(c) thereof. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Applicants were established on June 14, 1973. The grantor of both Applicants is ICI America Inc., a Delaware corporation ("Grantor"), indirectly a wholly-owned subsidiary of Imperial Chemical Industries Limited, an English company ("ICI"). The initial corpus of each Applicant consists of $1,000 contributed in cash by the Grantor to each Applicant upon its establishment. The beneficiaries of New York Staff Trust are the Trustees of the Imperial Chemicals Staff Pension Fund, and the beneficiaries of New York Workers' Trust are the Trustees of the Imperial Chemicals Workers' Pension Fund, both English pension trusts (collectively "Funds"). The Funds are administered in England for the benefit of present and retired employees of ICI and certain of its affiliates, substantially all of whom reside in the United Kingdom. Of approximately 38,000 pensions being paid by the Funds, only approximately 27 pensions are being paid to residents of the United States. According to the Funds' audited records, no one receiving pension payments is making contributions to the Funds. The Trustee of each of the Applicants is Bankers Trust Company, a New York Corporation ("Trustee").

Applicants contemplate entering into two substantially similar loan transactions. In the first such transaction, General Foods Corporation, a Delaware corporation ("GF"), proposes to lend New York Staff Trust $7,000,000 and New York Workers' Trust $3,000,000 for a period of nine years, 350 days at an interest rate of 6 percent per annum. Simultaneously, the Funds propose to make a parallel loan of the pound sterling equivalent of $10,000,000 (approximately £4,017,000 at the curent rate of exchange) on substantially the same terms to General Foods Limited, an English company, which is wholly-owned by GF.

In a second transaction similar to the foregoing, the Foxboro Company, a Massachusetts corporation ("Foxboro"), proposes to lend New York Staff Trust $3,500,000 and New York Workers' Trust $1,500,000 at an interest rate of 6¾ percent per annum for a period of nine years, 350 days. Simultaneously, the Funds propose to make a parallel loan of the pound sterling equivalent of $5,000,000 (approximately £2,008,000 at the curent rate of exchange) at an interest rate of 7¼ percent per annum, but otherwise on substantially the same terms to Foxboro-Yoxall Limited, an English company, which is wholly-owned by Foxboro.

Applicants state that they presently do not contemplate entering into any additional loan transactions.

Each of the foregoing loan transactions is intended to qualify as a "parallel financing arrangement" under the regulations of the United States Department of Commerce Office of Foreign Direct Investments ("OFDI"). Applications for specific authorization to that effect have been or will be filed on behalf of GF and Foxboro with OFDI.

Applications also have been or will be filed on behalf of GF and Foxboro with the United States Internal Revenue Service with respect to the United States Interest Equalization Tax consequences of the proposed loan transactions.

Applicants represent that the proceeds of the above-described dollar loans, and any reinvestment thereof, will be invested by Applicants in United States securities, including government obligations, with the purpose of diversifying the investment portfolios of the Funds; that all the net income of the Applicants is to be paid annually to their respective beneficiaries; and that the principal and any net income then undistributed are to be paid to the beneficiaries upon termination of the Applicants. Under the terms of the respective trust deeds of Applicants, the Trustee of each may act with respect to investments only in accordance with the written directions of the respective Investment Advisory Committee of each of the Applicants, composed of persons from time to time named as such by the respective beneficiaries.

In carrying out their proposed activities, Applicants might be deemed to fall within either section 3(a)(1) of the Act, as being engaged or proposing to engage primarily in the business of investing, reinvesting or trading in securities, or section 3(a)(3) of the Act, as being engaged or proposing to engage in the business of investing, reinvesting, owning, holding or trading in securities and owning or proposing to acquire investment securities with a value exceeding 40 per cent of total assets. Applicants contend, however, that to the extent the Act is applicable to Applicants, Applicants should be exempted from its provisions under section 6(c) of the Act.

Section 6(c) authorizes the Commission by order upon application, conditionally or unconditionally to exempt any person or any class or classes of persons from any provision or provisions of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Applicants contend that they each clearly fit within the general intent of the exclusion from the definition of investment company as set forth in section 3(c)(1) of the Act, which excludes from the provisions of the Act any issuer whose outstanding securities are beneficially owned by not more than 100 persons and which is not making and does not presently propose to make a public offering of its securities. Beneficial ownership by a company is deemed to be beneficial ownership by one person except, where the company owns 10 per cent or more of the outstanding voting securities of the issuer, the beneficial ownership is deemed to be that of the holders of such company's securities. Applicants state that the Funds are the sole beneficiaries of applicants. Applicants represent that they are not making and do not presently propose to make a public offering of their securities and that neither GF, Foxboro nor any future lender will own "voting securities" for purposes of attribution to its shareholders.

Applicants further contend that even if they are not qualified for exemption based on the provisions of section 3(c)(1) of the Act, exemption under section 6(c) is appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act because, among other reasons, there is no significant direct or indirect United States investor interest in Applicants or their operations.

Notice is further given that any interested person may, not later than August 29, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Trustee of Applicants at the address stated above. Proof of such service (by affidavit, or in case of attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of information stated in said ap-

V 38-153 AUG 9 73 XUM

plication, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

MUTUAL SECURITIES FUND OF BOSTON ET AL.

Notice of Filing of Application Pursuant to Section 6(c) of the Act for Exemption From Section 16(a), 32(a) (1) and (2) of the Act

Notice is hereby given that Mutual Securities Fund of Boston ("Fund"), 53 State Street Boston, Massachusetts 02109 a trust created under the laws of Massachusetts and an open-end, diversified investment company registered under the Investment Company Act of 1940 ("Act"), and all of its trustees, Joseph Leonard and William Priess, hereinafter referred to collectively as "Applicants," have filed an application pursuant to section 6(c) of the Act for an exemption from the provisions of section 16(a) of the Act to the extent necessary to extend to October 31, 1973, the period specified in section 16(a) of the Act within which a meeting of the holders of the outstanding voting securities of Fund ("Beneficiaries") must be held to elect directors (trustees) of Fund as required by section 16(a) where, as here, a majority of the trustees holding office were not elected by Beneficiaries. The Applicants also request an order pursuant to section 6(c) exempting Fund from the provisions of sections 32(a)(1) and (2) insofar as is necessary to permit the filing with the Commission of financial statements for the fiscal year ended March 31, 1973, certified by Arthur Young & Company, provided the Beneficiaries of Fund ratify the selection of said firm at the next meeting of Beneficiaries. The application shows that at the beginning of January 1972, the five persons serving the Fund as trustees had been elected by the Fund's Beneficiaries; that during the period commencing January 6, 1972 and ending November 3, 1972, three of these five trustees resigned; and that on November 24, 1972, one of the two remaining trustees resigned leaving only one trustee serving the Fund, which trustee, as indicated above, had been elected by the Beneficiaries. On December 15, 1972, this sole remaining and elected trustee of Fund appointed two persons as trustees to fill vacancies and, thereafter on the same day such elected trustee resigned.

Since December 15, 1972, these two appointed trustees have been serving as trustees of Fund and have been the only trustees of Fund. The last meeting of Beneficiaries for the purpose of electing trustees was held on November 9, 1971. When the two appointed trustees took office on December 15, 1972, the Fund's audited financial statements for the fiscal year ended March 31, 1973 had not been completed; and audited financial statements of the Fund for such fiscal year have not yet been filed with the Commission.

Section 16(a) of the Act provides, among other things, that in the event that at any time less than a majority of the directors (trustees) of a registered investment company holding office at that time were elected by holders of outstanding voting securities (Beneficiaries), the Board of Directors (the Board of Trustees) of such company shall forthwith cause to be held as promptly as possible and in any event within 60 days a meeting of the holders of the outstanding voting securities of the company for the purpose of electing directors (trustees) unless the Commission shall by order extend such period.

Sections 32(a)(1) and (2) require, generally, that the auditors of a registered investment company be selected by a majority of the independent members of the registered company's board of directors (Board of Trustees) and that such selection be ratified at a meeting of stockholders.

Section 6(c) provides that the Commission may, be order upon application, conditionally or unconditionally exempt any person, security or transaction from any provision or provisions of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

In support of the requested exemption from section 16(a) of the Act, the application indicates that when the two present appointed trustees took their offices on December 15, 1972, they intended to call and hold a meeting of Beneficiaries of Fund within 60 days for the purpose of electing trustees. However, according to the application, the appointed trustees were unable to hold such a meeting because of administrative problems created prior to their appointment and the time required to obtain information from the records as previously maintained in order to properly prepare proxy solicitation material to be used in connection with a meeting of Beneficiaries.

With respect to the requested exemption from paragraphs (1) and (2) of section 32(a), the application indicates that the selection of auditors cannot be effected in the manner required by such provisions due to the way in which the Board of Trustees is presently constituted, a matter which has been beyond the control of the present trustees.

Notice is further given that any interested person may, not later than August 28, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[Release No. 34-10316; File No. S7-491]

GUIDELINES ON THE UTILIZATION AND DISSEMINATION OF UNDISCLOSED MATERIAL INFORMATION

Solicitation of Comments

The Securities and Exchange Commission announced today that, with respect to an inquiry already underway by its staff into the circumstances under which material information of a previously undisclosed nature may be utilized in connection with the purchase or sale of securities, it is soliciting the comments and views of all members of the securities industry and the investing public.

The Commission staff's examination includes, among other things, an inquiry into the following major issues:

(1) When information should be considered to have been publicly disseminated.

Among other things, the Commission's staff is seeking to determine whether guidelines can be established concerning appropriate waiting periods to be applied after material information about an issuer has been disclosed in various available ways before any person in possession of such previously undisclosed information may trade in reliance upon that information.

Views are also solicited regarding the efficacy of existing procedures that are followed, both by corporations and financial analysts, concerning information which has been disclosed on a limited basis—for example, information filed with governmental agencies.

(2) Whether appropriate guidelines can be established to determine when information concerning an issuer is material.

Among other things, the Commission's staff is considering under what, if any, circumstances nonpublic information may be disclosed to and utilized by securities professionals in the absence of any general public dissemination of that information, where for example, the information standing alone, is material only to securities professionals closely following a particular issuer or industry.

(3) Whether guidelines can be established to designate categories of individuals and entities which may be considered to have a sufficient nexus to preclude their use of material, undisclosed information concerning the issuer, in the absence of any general public disclosure of that information.

Consideration is being given, for example, to information derived from suppliers or competitors, among others.

(4) Whether and to what extent selected, nonpublic knowledge about the existing or future market in particular securities should be treated as material information which must be disclosed by securities professionals or other persons prior to any transactions in those securities.

In connection with these broad topics, the Commission requests comments concerning:

(1) The procedures presently employed by broker-dealers and financial analysts to insure that they and their employees do not engage in any act or practice which may constitute an improper dissemination or utilization of material nonpublic information;

(2) The procedures presently employed by issuers to insure that material information is not improperly disclosed or utilized on a selective basis;

(3) Any procedures presently employed by issuers to determine whether, when and how material corporate information should be disclosed publicly;

(4) The procedures and methodology utilized by financial analysts to formulate their securities recommendations; and

(5) The appropriateness of utilizing nonpublic material information directly related to the future market for a given security, which does not emanate from or concern the issuer of that security.

In addition to comments relating to existing procedures, the Commission's staff is interested in any facts or information which may reflect upon the appropriate resolution of the issues discussed above and any related matters.

Comments are invited from all interested persons and should be addressed to Harvey L. Pitt, Chief Counsel, Division of Market Regulation, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Comments should be mailed so that they may be received before August 31, 1973. All comments received will be made publicly available and reference should be made to File No. S7-491.

By the Commission.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNERS AND STUDENT WORKERS

Certificates Authorizing the Employment of Learners and Student Workers at Special Minimum Wages

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.) and Administrative Order No. 621 (36 FR 12819) the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. For each certificate, the effective and expiration dates, number or proportion of learners and principal product manufactured by the establishment are as indicated. Conditions on occupations, wage rates, and learning periods which are provided in certificates issued under the supplemental industry regulations cited in the captions below are as established in those regulations; such conditions in certificates not issued under the supplemental industry regulations are as listed.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.20 to 522.25, as amended).

The following normal labor turnover certificates authorize 10 percent of the total number of factory production workers except as otherwise indicated.

Aalfs Mfg. Co., Sioux City, IA; 7–23–73 to 7–22–74. (Women's, men's and boys' jeans)

Aalfs Mfg. Co., Storm Lake, IA; 6–25–73 to 6–24–74; 10 learners. (Boys' pants)

Barbizon of Utah, Inc., Provo, UT; 6–11–73 to 6–10–74. (Women's lingerie)

Caraway Apparel Co., Caraway, AR; 6–11–73 to 6–10–74; 10 learners. (Women's dresses)

Chatham Knitting Mills, Inc., Chatham, VA; 7–22–73 to 7–21–74; 8 learners. (Men's jackets)

Covington Industries, Inc., Opp, AL; 7–2–73 to 7–1–74. (Ladies', men's and boys' sportswear and other odd outerwear)

The Fordyce Apparel Co., Fordyce, AR; 7–10–73 to 7–9–74. (Men's and boys' pants)

Giles Mfg. Corp., Narrows, VA; 7–13–73 to 7–12–74. (Children's shirts and creepers)

Hansley Industries, Inc., Hattiesburg, MS; 7–2–73 to 7–1–74. (Men's pajamas)

Jo-Jac Shirt Co., Inc., Pulaski, TN; 7–3–73 to 7–2–74; 10 learners. (Boys' shirts)

Juniata Garment Co., Inc., Mifflin, PA; 6–25–73 to 6–24–74. (Women's dresses)

Lee Mar Shirt Co., Pulaski, TN; 7–15–73 to 7–14–74. (Boys' shirts)

Manchester Pants Co., Manchester, MD; 6–30–73 to 6–29–74; 10 learners. (Men's pants)

Middleburg Sportswear, Inc., Middleburg, PA; 6–25–73 to 6–24–74. (Women's dresses)

Salant & Salant, Henderson, TN; 6–26–73 to 6–25–74. (Men's pants)

Somerville Mfg. Co., Inc., Vivian, La; 7–24–73 to 7–23–74. (Men's pants)

Spencer California, Tehachapi, CA; 7–14–73 to 7–13–74; 7 learners. (Children's pajamas, gowns, jumpers, dresses and pants)

The following plant expansion certificates were issued authorizing the number of learners indicated.

Franklin Garment Co., Franklin, VA; 7–18–73 to 1–17–74; 20 learners (Children's dresses)

Paxton's Fashions, Mangum, OK; 7–16–73 to 1–15–74; 10 learners. (Women's pants blouses, jackets and body suits)

Wallace Sewing Co., Inc., Wallace, NC; 7–18–73 to 1–17–74; 15 learners (Children's coats)

Glove Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.60 to 522.65, as amended)

Good Luck Glove Co., Metropolis, IL; 7–6–73 to 7–5–74; 10 percent of the total number of machine stitchers for normal labor turnover purposes. (Work gloves)

Lambert Mfg. Co., Chillicothe, MO; 7–18–73 to 7–17–74; 10 learners for normal labor turnover purposes. (Cotton work gloves).

Lambert Mfg. Co., Chillicothe, MO; 7–22–73 to 7–21–74; 10 learners for normal labor turnover purposes. (All leather work gloves)

Wells Lamont Corp., Brownsville, TN; 7–20–73 to 7–19–74; 10 percent of the total number of machine stitchers for normal labor turnover purposes. (Children's and men's fabric gloves)

The following student-worker certificate was issued pursuant to the regulations applicable to the employment of student-workers (29 CFR 527.1 to 527.9). The effective and expiration dates, occupations, wage rates, number of student-workers, and learning periods for the certificate issued under Part 527 are as indicated below.

Garfield Business Institute, Beaver Falls, PA; 7–5–73 to 7–4–74; authorizing the employment of 3 student-workers in the clerical industry in the occupations of secretarial and clerical for a learning period of 1,000 hours at the rates of $1.20 an hour for the first 500 hours and $1.30 an hour for the remaining 500 hours.

The student-worker certificate was issued upon the applicant's representations and supporting materials fulfilling the statutory requirements for the issuance of such certificates, as interpreted and applied by Part 527.

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in 29 CFR, Part 528. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof on or before August 24, 1973.

Signed at Washington, D.C. this 2nd day of August 1973.

DONALD T. CRUMBACK,
Authorized Representative of the Administrator.

[Ex Parte 241; Rule 19, 6th Rev. Exemption 43]

ATCHISON, TOPEKA AND SANTA FE RAILWAY CO. ET AL.

Exemption Under Mandatory Car Service Rules

To: The Atchison, Topeka and Santa Fe Railway Company, Burlington Northern Inc., Chicago and North Western Transportation Company, Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Chicago, Rock Island and Pacific Railroad Company, Illinois Central Gulf Railroad Company, Missouri Pacific Railroad Company, Norfolk and Western Railway Company, Soo Line Railroad Company, Union Pacific Railroad Company.

It appearing, that there are massive movements of grain in progress in the states of Iowa, Kansas, Minnesota, Montana, Nebraska, North Dakota, Oklahoma, South Dakota, and Wyoming; that present supplies of plain boxcars owned by the railroads serving these states are inadequate to move the newly harvested grain to terminal elevators for safe storage; that use of available plain boxcars owned by other carriers for movements of this grain will substantially augment the car supplies of the railroads named herein.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, the railroads named herein, and their short line connections, are hereby authorized to use and to accept from shippers shipments of grain originating at stations located in Iowa, Kansas, Minnesota, Montana, Nebraska, North Dakota, Oklahoma, South Dakota, and Wyoming, when loaded into plain 40-ft. narrow-door boxcars of various ownerships without regard to the requirements of Car Service Rule 2.

Exceptions. This exemption shall not apply to plain boxcars subject to Association of American Railroads' Car Relocation Directive No. 44.

Effective 11:59 p.m., August 2, 1973.

Expires 11:59 p.m., August 15, 1973.

Issued at Washington, D.C., August 2, 1973.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER,
Agent.

[Rev. S.O. 994; I.C.C. Order 108, Amdt. 1]

CANADIAN RAILROADS

Rerouting or Diversion of Traffic

Upon further consideration of I.C.C. Order No. 108 (Canadian Railroads) and good cause appearing therefor:

It is ordered, That:

I.C.C. Order No. 108 be, and it is hereby, amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date.* This order shall expire at 11:59 p.m., August 15, 1973, unless otherwise modified, changed, or suspended.

It is further ordered, That this amendment shall become effective at 11:59 p.m., August 2, 1973, and that this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Assocation; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., August 2, 1973.

INTERSTATE COMMERCE COMMISSION,

FOURTH SECTION APPLICATION FOR RELIEF

AUGUST 6, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 42726—*Joint Water-Rail Container Rates—Sea-Land Service, Inc.* Filed by Sea-Land Service, Inc., (No. 76), for itself and interested rail carriers. Rates on general commodities, from rail carriers terminals at Los Angeles, Oakland (Richmond) and San Francisco, California, Portland, Oregon and Seattle, Washington, to ports in Europe and United Kingdom.

Grounds for relief—Water competition.

Tariff—Sea-Land Service, Inc., tariff No. 193, I.C.C. No. 69.

Rates are published to become effective on September 2, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 331]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before August 29, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–74458. By order of August 2, 1973, the Motor Carrier Board approved the transfer to Murray Van & Storage of Gainesville, Inc., Gainesville, Fla., of Permit No. MC–135175 (Sub No. 2) issued to B. C. Cartage Company, a corporation, Gainesville, Fla., authorizing the transportation of: Telephone equipment, materials, and supplies, between points in specified counties in Florida.

Alan F. Wohlstetter, Attorney, 1700 K St., NW., Wash., D.C. 20006

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 62]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

AUGUST 3, 1973.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which pro-

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

V 38-153 AUG 9 73 XUM

testant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and on or before Oct. 5, 1973, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

No. MC 2129 (Sub-No. 4) filed June 28, 1973 Applicant: PIEDMONT FREIGHT COMPANY, INCORPORATED Bumpass, Va. 23024 Applicant's representative: Morton E. Kiel Suite 6193 5 World Trade Center New York, N.Y. 10048 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and lumber products*, from points in Louisa County, Va., to points in North Carolina, Virginia, Maryland, Delaware, Pennsylvania, New Jersey, New York, West Virginia, Tennessee, Kentucky, Ohio, Indiana, Illinois, Michigan, Connecticut, Rhode Island, Massachusetts and the District of Columbia, under contract with Woolfolk Bros. Lumber Co., Walton Lumber Co., Inc. and Dick Purcell Lumber Corp. Note: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 13569 (Sub-No. 27) filed June 1, 1973 Applicant: THE LAKE SHORE MOTOR FREIGHT COMPANY a Corporation 1200 S. State Street Girard, Ohio 44420 Applicant's representative: A. David Millner Bowes & Millner 744 Broad Street Newark, N.J. 07102 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles*, from Pittsburgh, Clairton, Homestead, Duquesne, McKeesport, Dravosburg, West Mifflin, Ellwood City, and Vandergrift, Pa., to points in Michigan, Indiana and New York; and (2) *iron and steel articles and materials, equipment and supplies* used or useful in the manufacture of iron and steel and iron and steel articles (except liquid commodities and commodities in bulk), from points in Michigan, Indiana, and New York, to points in Ohio, those in Pennsylvania on and west of U.S. Highway 219, and those in West Virginia on and north of U.S. Highway 50. Note: Applicant states that the requested authority can be tacked with its existing authority at origin points in western Pennsylvania. If a hearing is deemed necessary, applicant does not specify a location.

No. MC 15897 (Sub-No. 11) filed June 20, 1973 Applicant: O. K. TRANSFER AND STORAGE CO., a Corporation 207 S. Union Street P.O. Box 1602 Shawnee, Okla. 74801 Applicant's representative: Wilburn L. Williamson 280 National Foundation Life Bldg. 3535 N.W. 58th St. Oklahoma City, Okla. 73112 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Uncrated store fixtures and furnishings*, from the facilities of the Plastelite Engineering Company Division of the Tandy Corporation at Fort Worth, Tex., to the warehouse facilities of the Radio Shack Division of the Tandy Corporation at Garden Grove, Calif. and Braintree, Mass. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Oklahoma City, Okla.

No. MC 27356 (Sub-No. 6) filed May 29, 1973. Applicant: M–F EXPRESS, INC. 553 South Broadway, P.O. Box 1181, Greenville, Miss. 38701. Applicant's representative: Douglas C. Wynn, P.O. Box 1295, Greenville, Miss. 38701. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except commodities in bulk, classes A and B explosives, household goods as defined by the Commission, and those which because of size, weight or value, require special equipment), (A) REGULAR ROUTE: Between Cleveland and Hattiesburg, Miss.: From Cleveland over U.S. Highway 61 to junction U.S. Highway 80 and Interstate Highway 20 By-Pass north and east of Vicksburg, Miss., thence over U.S. Highway 80 and Interstate Highway 20 By-Pass to junction U.S. Highway 80 and Interstate Highway 20, thence over U.S. Highway 80 and Interstate Highway 20 to junction U.S. Highway 49 near Jackson, Miss., thence over U.S. Highway 49 to Hattiesburg, and return over the same route, serving the intermediate point of Leeland, Miss. and serving Jackson, Miss. for the purpose of joinder only; (B) ALTERNATE ROUTES: (1) Between Hattiesburg, and junction U.S. Highway 98 and Mississippi Highway 26 at or near Lucedale, Miss.: From Hattiesburg over U.S. Highway 49 to junction U.S. Highway 98 south of Hattiesburg, thence over U.S. Highway 98 to junction Mississippi Highway 26 at or near Lucedale, Miss.; and return over the same route, as an alternate route for operating convenience only, serving no intermediate points and serving Lucedale, Miss. for the purpose of joinder only; (2) Between junction U.S. Highway 61 and U.S. Highway 80 and Interstate Highway 20 By-Pass north and east of Vicksburg, Miss. and New Orleans, La.:

From Junction U.S. Highway 61 and U.S. Highway 80 and Interstate Highway 20 By-Pass north and east of Vicksburg, Miss., to junction U.S. Highway 80 and Interstate Highway 20, thence over U.S. Highway 80 and Interstate Highway 20 to junction U.S. Highway 61, thence over U.S. Highway 61 to junction U.S. Highway 61 and Interstate Highway 10 west of New Orleans, La., thence over U.S. Highway 61 and also Interstate Highway 10 to New Orleans, and return over the same route, as an alternate route for operating convenience only, serving no intermediate points and serving Jackson, Miss. for the purpose of joinder only; and (3) Between Jackson, Miss. and New Orleans, La.: From Jackson over U.S. Highway 51 and Interstate Highway 55 to junction U.S. Highway 61 and Interstate Highway 10 west of New Orleans, La., thence over U.S. Highway 61 and also Interstate Highway 10 to New Orleans, and return over the same route, as an alternate route for operating convenience only, serving no intermediate points and serving Jackson, Miss. for the purpose of joinder only. Note: Common control may be involved. Applicant states that the requested authority duplicates its existing authority in its MC 27358 Sub-No. 4 certificate, except for the intermediate point of Leeland, Miss. If the instant application is granted, applicant will submit for revocation that portion of its Sub 4 certificate which duplicates the authority sought herein (excluding the alternate route authority contained in the Sub-4 certificate). If a hearing is deemed necessary, applicant requests it be held at Greenville, or Jackson, Miss.

No. MC 30844 (Sub-No. 469) filed June 28, 1973 Applicant: KROBLIN REFRIGERATED XPRESS, INC. 2125 Commercial Street P.O. Box 5000 Waterloo, Iowa 50702 Applicant's representative: Truman A. Stockton 1650 Grant Street Bldg. Denver, Colo. 80203 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such articles* as are dealt in by retail gift stores, from Laredo, Tex., to points in Illinois (except Chicago and points in the Commercial Zone thereof), Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin. Note: Common

control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant request it be held at Minneapolis, Minn., or Washington, D.C.

No. MC 30844 (Sub-No. 470) filed July 2, 1973 Applicant: KROBLIN REFRIGERATED XPRESS, INC. 2125 Commercial Street P.O. Box 5000 Waterloo, Iowa 50702 Applicant's representative: Truman A. Stockton 1650 Grant Street Bldg. Denver, Colo. 80203 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Air cleaner filter paper*, from the plant sites and facilities of Knowlton Bros. at Watertown, N.Y., and the plant sites and facilities of Hollingsworth and Vose at Greenwich, N.Y., to Dixon, Ill., restricted to shipments originating at the above named plant sites. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn. or Washington, D.C.

No. MC 35628 (Sub-No. 350) filed July 5, 1973 Applicant: INTERSTATE MOTOR FREIGHT SYSTEM, a Corporation 134 Grandville, S.W. Grand Rapids, Mich. 49502 Applicant's representative: Leonard D. Verdier, Jr. 900 Old Kent Bldg. Grand Rapids, Mich. 49502 Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plant site and facilities of Uniroyal, Inc., at or near Maryville, Mo., as an off-route point in connection with applicant's presently authorized regular-route operations. Note: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Detroit, Mich.

No. MC 43867 (Sub-No. 25) (AMENDMENT) filed May 10, 1973, published in the FR issue of July 6, 1973, and republished, as amended, this issue. Applicant: A. LEANDER McALISTER TRUCKING COMPANY, a Corporation P.O. Box 2214 Wichita Falls, Tex. 76307 Applicant's representative: Bernard H. English 6270 Firth Road Fort Worth, Tex. 76116 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Anti-pollution systems, equipment, and parts, liquid cooling and vapor condensing systems, equipment, and parts, environmental control and protective systems, equipment, and parts*, the transportation of which, because of size or weight, requires the use of special equipment, and (2) *equipment, materials, and supplies* used in the construction or installation of anti-pollution and environmental control and protective systems, and liquid cooling and vapor condensing systems, when moving in mixed loads with the articles described in (1) above, between Cisco, and Wichita Falls, Tex., on the one hand, and, on the other, points in the United States, including Alaska (and excluding Hawaii). Note: The purpose of this republication is to expand applicant's territorial request in (2) above to include Alaska. Applicant's name has been changed as reflected herein pursuant to the Commission's Order in MC–FC–74475. Applicant states it has Mercer and earth drilling commodities which could be joined with the requested authority at Wichita Falls, and Cisco, Tex., in the event such commodities qualified under intended use determination. If a hearing is deemed necessary, applicant requests it be held at Dallas, or Fort Worth, Tex.

No. MC 44639 (Sub-No. 72) filed June 22, 1973 Applicant: L. & M. EXPRESS CO., INC. 220 Ridge Road Lyndhurst, N.J. 07071 Applicant's representative: Herman B. J. Weckstein 60 Park Place Newark, N.J. 07102 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel, and materials and supplies* used in the manufacture of wearing apparel (except commodities in bulk), between Emporia, Va., on the one hand, and, on the other, New York, N.Y. and points in Bergen, Essex, Hudson, Middlesex, Monmouth, Morris, Passaic, Sussex and Union Counties, N.J. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 52460 (Sub-No. 122) filed June 21, 1973 Applicant: HUGH BREEDING, INC. 1420 West 35th Street P.O. Box 9637 Tulsa, Okla. 74107. Applicant's representative: Steve B. McCommas (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Charcoal briquettes, and charcoal* from the plant site of Keeter Charcoal Company at or near Branson, Mo., to points in Colorado, Illinois, Iowa, Kansas, Arkansas, Indiana, Kentucky, Tennessee, Louisiana, Nebrasa, Oklahoma, Texas, and Minnesota, (2) *charcoal, charcoal briquettes, wood chips, lighter fluid and fireplace logs*, from the plantsite of Husky Industries at or near Jacksonville and Ocala, Fla., to points in Alabama, Mississippi, Tennessee, Kentucky, Missouri, Arkansas, Louisiana, Texas, and Oklahoma, and (3) *activated carbon*, from the plantsite of Husky Industries, at or near Romeo, Fla., to points in Alabama, Mississippi, Tennessee, Kentucky, Missouri, Arkansas, Louisiana, Texas, and Oklahoma. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either Altanta, Ga., or Dallas, Tex., or Oklahoma City, Okla.

No. MC 58104 (Sub-No. 2) filed June 7, 1973 Applicant: GOOD'S TRANSPORTATION SERVICE, INC. 408 Niagara Street Lockport, N.Y. 14094 Applicant's representative: Robert D. Gunderman Suite 710 Statler Hilton Buffalo, N.Y. 14202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) Between points in Erie and Niagara Counties, N.Y.; (2) From points in Niagara County, N.Y., to points in Monroe County, N.Y. and (3) From points in Erie County, N.Y., to points in Orleans County, N.Y., and (B) *paper, paper products and pulp board*, from Lockport, N.Y., to points in Broome, Cattaraugus, Chemung, Chenango, Cortland, Herkimer, Jefferson, Livingston, Madison, Oneida, Onondaga, Ontario, Orleans, Otsego, Steuben and Tompkins Counties, N.Y. Note: Applicant seeks to convert its Certificate of Registration No. MC 58104 (Sub-No. 1) to a Certificate of Public Convenience and Necessity. Applicant presently has General commodities authority as defined in Section 800.1 of Title 16 of the Official Compilation of Codes Rules and Regulations of the State of New York. If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y.

No. MC 62538 (Sub-No. 18) filed May 31, 1973 Applicant: ASHTON TRUCKING CO., a Corporation P.O. Box 472 Monte Vista, Colo. 81144 Applicant's representative: Edward T. Lyons, Jr. 1600 Lincoln Center, 1660 Lincoln Street, Denver, Colo. 80203. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are manufactured, processed or sold by persons engaged in* the milling of flour or in the sale and distribution of feeds and grains, from Denver, Colo., to points in that part of Texas located on and west of a line beginning at the intersection of U.S. Highway 281 and the Texas-Oklahoma border, thence over U.S. Highway 281 to intersection U.S. Highway 181, thence over U.S. Highway 181 to Corpus Christi, Tex., under contract with the Colorado Milling & Elevator Company. Note: Applicant holds common carrier authority in MC 57880 and Subs, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 66886 (Sub-No. 40) filed June 25, 1973 Applicant: BELGER CARTAGE SERVICE, INC. 2100 Walnut Street Kansas City, Mo. 64108 Applicant's representative: Frank W. Taylor, Jr. 1221 Baltimore Ave. Kansas City, Mo. 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Self-propelled cranes, power hammers, and material handling equipment;* and (2) *accessories, attachments, and parts*, when moving in mixed loads with the commodities de-

V 38-153 AUG 9 73 XUM

scribed in (1) above, from the facilities of Broderson Manufacturing Company at Lenexa, Kans., to points in the United States including Alaska and Hawaii. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 70172 (Sub-No. 6) filed June 22, 1973 Applicant: B. J. KIRK TRANSPORTATION CO., a Corporation 672 Roosevelt Avenue Pawtucket, R. I. 02860 Applicant's representative: Thomas W. Murrett 342 North Main Street West Hartford, Conn. 06117 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are dealt in by retail department stores, and in connection therewith, *materials, supplies, fixtures and equipment* used in the operation of such stores, between East Providence, R.I., and Danvers, Mass. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Providence, R.I.

No. MC 74942 (Sub-No. 5) filed June 25, 1973 Applicant: PARVIN'S TRANSFER, INC. 15 East Harmony St. Penns Grove, N.J. 08069. Applicant's representative: Morton E. Note: Dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y. or Newark, N.J.

No. MC 138696 (Sub-No. 2) filed July 11, 1973 Applicant: LESTER GRAY Box 372 Bemidji, Minn. 56601 Applicant's representative: F. H. Kroeger 2288 University Avenue St. Paul, Minn. 55114 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Fence pickets*, from Redby, Minn. to Bay City and Gladstone, Mich., Dallas and Fort Worth, Tex., Fowler, Ohio, Oklahoma City, Okla., West Des Moines, Iowa and points in Maryland, under contract with Red Lake Chippewa Fence Company. Note: If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 138725 filed May 9, 1973 Applicant: BOB'S WINDOW CLEANING SERVICE, INC. 14 Park Avenue Salem, N.H. 03079 Applicant's representative: Robert E. Tomes (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Non-negotiable checks and sealed envelopes, data process papers and computer tapes*, between points in Maine, Massachusetts, New Hampshire and Vermont. Note: If a hearing is deemed necessary, applicant requests it be held at Concord, N.H.

No. MC 138812 filed June 8, 1973 Applicant: RONALD DeBOER (unnumbered) Sherry, Wis. 54478 Applicant's representative: Edward Solie Executive Bldg.—Suite 100 4513 Vernon Blvd. Madison, Wis. 53705 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Cheese*, from Sherry (Wood County), Wis., to points in the United States (except Alaska and Hawaii), limited to a transportation service performed under a continuing contract, or contracts, with Sherry Dairy, Ltd., of Sherry, Wis. Note: If a hearing is deemed necessary, applicant requests it be held at Madison, Wis.

No. MC 138815 (Sub-No. 1) filed June 13, 1973 Applicant: MERCHANTS DELIVERY, INC. 411 Monroe St. Nashville, Tenn. Applicant's representative: Frank D. Hall Suite 713 3384 Peachtree Rd., N.E. Atlanta, Ga. 30326 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Merchandise, equipment and supplies*, sold, used or distributed by a manufacturer of cosmetics, from Nashville, Tenn., to points in Stewart, Montgomery, Robertson, Sumner, Macon, Trousdale, Smith, Wilson, Humphreys, Dickson, Cheatham, Davidson, Cannon, Rutherford, Williamson, Hickman, Perry, Decatur, Wayne, Lawrence, Gile, Maury, Marshall, Lincoln, Bedford, Coffee, Franklin, Lewis, Moore and Houston Counties, Tenn., under contract with Avon Products, Inc. Note: If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn., or Washington, D.C.

No. MC 138817 filed June 1, 1973 Applicant: STEPHEN W. KETCHUM doing business as KETCHUM TRUCKING COMPANY, P.O. Box 464 Pontiac, Mich. 48056. Applicant's representative: William B. Elmer 21635 East Nine Mile Road St. Clair Shores, Mich. 48080, Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Motorcycles, snowmobiles, and all-terrain vehicles and parts and accessories*, for the foregoing, when moving with motorcycles, snowmobiles and all-terrain vehicles, from the International Ports of Entry located in Texas, Louisiana, Mississippi, Alabama, Florida, Georgia, South Carolina, North Carolina, Virginia, Maryland, New Jersey, Delaware, Pennsylvania, New York, Massachusetts, Ohio, Michigan, Indiana, Illinois and Wisconsin, to Pontiac, Mich., under contract with Anderson Sales & Service, Inc., restricted to traffic having a prior movement by water in foreign commerce. Note: If a hearing is deemed necessary, applicant requests it be held at Detroit or Lansing, Mich.

No. MC 138822 (CORRECTION) filed May 14, 1973, and published in the FR issue of July 12, 1973, and republished, as corrected, this issue. Applicant: ROY GERNER & SONS, INC. R. D. # 1 Cabot, Pa. 16023 Applicant's representative: Kenneth R. Davis 999 Union Street Taylor, Pa. 18517 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fresh and frozen meats*, from Denison, Cedar Rapids, Ottumwa, and Estherville, Iowa, points in Kentucky and points in the New York, New York Commercial Zone as defined in the fifth supplemental report in the *Commercial Zones and Terminal Areas*, 53 M.C.C. 451, within which local operations may be conducted under the exemptions provided as Section 203(b)(8) of the Act I (exempt zone), to the facilities of Kress-Dobkin Co., Inc., located at or near Pittsburgh, Pa., subject to the condition that the transportation of traffic originating in the New York, New York Commercial Zone shall be restricted to that having an immediately prior movement by water. RESTRICTION: Restricted to the transportation of traffic originating at the points set forth in the above-described authority and destined to the facilities of Kress-Dobkin Co., Inc., located at or near Pittsburgh, Pa. Note: Applicant states that the purpose of this application is to convert its Permit in MC 129970 into a Certificate of Public Convenience and Necessity. Further, the purpose of this republication is to clearly and correctly set forth the restriction that the transportation of the above-named commodities originating in the New York, New York Commercial Zone shall be restricted to that having an immediately prior movement by water, which was inadvertently omitted in the previous FR notice. If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa.

No. MC 138849 filed June 11, 1973 Applicant: WILLIAMS MACHINERY MOVERS INC. 248-47 Jamaica Avenue Bellerose (Queens), N.Y. 11426 Applicant's representative: Arthur J. Piken One Lefrak City Plaza Flushing, N.Y. 11368 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Printing, bindery and box making machinery, equipment and parts*, (1) between points in the New York, N.Y. Commercial Zone as defined in the fifth supplemental report in *Commercial Zones and Terminal Areas*, 53 M.C.C. 451 within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Interstate Commerce Act (the "exempt" zone) and points in Hudson and Essex Counties, N.J., on the one hand, and, on the other, points in New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, Connecticut, Massachusetts, Rhode Island, Ohio, and the District of Columbia, and (2) between points in New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, Connecticut, Massachusetts, Rhode Island, Ohio, and the District of Columbia, under a continuing contract with Heidelberg Eastern Inc. Note: Applicant has currently filed a Motion for Dismissal. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 138871 (Sub-No. 1) filed June 25, 1973 Applicant: PADELFORD TRUCKING CORP. 1370 County Road 8 Canandaigua, N.Y. 14424 Applicant's representative: S. Michael Richards 44 North Ave. Webster, N.Y. 14580 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except in bulk, in tank vehicle, and foodstuffs), between points in New York on the one hand, and, on the other hand, points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia under contract with Nero Equipment at Canandaigua, N.Y.; Cicero Sports Equipment, Inc. at Brewerton, N.Y.; Galens Mfg. Corp. at Clyde, N.Y.; O. G. Schwarz Corp., and Radiant Electric Inc. at Rochester, N.Y. Note: If a hearing is deemed necessary, applicant requests it be held at Syracuse, N.Y.

No. MC 138897 filed June 25, 1973 Applicant: JOSEPH D. BLACKBURN, doing business as BLACKBURN TRANSPORTATION P.O. Box 2250 Bowling Green, Ky. 42101 Applicant's representative: John M. Nader P.O. Box E Bowling Green, Ky. 42101 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building brick, and concrete block*, unloaded by mechanical devices furnished by the carrier, from Nashville and Franklin, Tenn., to points in Warren, Barren, Simpson, Logan, Butler, Edmonson, Allen, Hart, and Muhlenberg Counties, Ky. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn.

MOTOR CARRIER OF PASSENGERS

No. MC 3647 (Sub-No. 444) filed June 3, 1973 Applicant: TRANSPORT OF NEW JERSEY a Corporation 180 Boyden Avenue Maplewood, N.J. 07040 Applicant's representative: John F. Ward (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, in special operations, in round-trip sightseeing and pleasure tours, beginning and ending at points in Essex and Passaic Counties, N.J., Fort Lee, Englewood, Teaneck and Hackensack, N.J., and those in that part of Paramus, N.J. on and south of New Jersey Highway 4, and extending to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, Tennessee, Vermont and Virginia. Note: Applicant also holds a broker license in MC 12668. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Newark, N.J.

No. MC 138525 (Sub-No. 1) filed June 15, 1973 Applicant: PRINCETON MESSENGER SERVICE, INC. U.S. Route 1 Princeton, N.J. 08540 Applicant's representative: Harold G. Hernly, Jr. 118 North St. Asaph St. Alexandria, Va. 22314 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in special operations, between the site of the Mobil Technical Center located near Pennington (Mercer County), N.J., on the one hand, and, on the other, New York, N.Y., under a continuing contract or contracts with Mobil Research and Development Corporation (an affiliate of Mobil Oil Corporation). Note: Applicant also holds common carrier authority under MC 136446 (Sub-No. 1), therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

V 38-153 AUG 9 73 XUM

No. MC 138798 filed May 10, 1973 Applicant: KEN L. POLLOCK Route 11 Hunlock Creek, Pa. 18621 Applicant's representative: Edward Schmeltzer 1140 Connecticut Avenue, N.W. Suite 1100 Washington, D.C. 20036 Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers*, in buses, who also tender their automobiles to the applicant for transportation on separate auto transporters; but the transportation of any passenger will not be provided unless the passenger arrives at the applicant's terminal in an automobile which is tendered to the applicant for transportation to the passenger's destination: (1) From applicant's terminal located in the Metropolitan Washington, D.C. area to applicant's terminal located at St. Augustine, Fla., over Interstate Highway 95; and return over the same route; (2) From applicant's terminal located in the Boston Metropolitan area to applicant's terminal located at St. Augustine, Fla., commencing over Interstate Highway 95 to the entrance to the New Jersey Turnpike, thence over the New Jersey Turnpike to its Exit No. 1, located near Pennsville, N.J., thence over Interstate Highway 295 to its intersection with Interstate Highway 95 near Wilmington, Del., thence over Interstate Highway 95; and return over the same route; and (3) From applicant's terminal located in the Chicago Metropolitan area to applicant's terminal located at St. Augustine, Fla., commencing over Interstate Highway 80 to its intersection with Interstate Highway 65 in the vicinity of Gary, Ind. thence over Interstate Highway 65 to its intersection with Interstate Highway 24 located at or near Nashville, Tenn., thence over Interstate Highway 24 to its intersection with Interstate Highway 75 located at or near Chattanooga, Tenn., thence over Interstate Highway 75 to its intersection with Interstate Highway 10 in the vicinity of Lake City, Fla., thence over Interstate Highway 10 to its intersection with Interstate Highway 95 at Jacksonville, Fla., thence over Interstate Highway 95; and return over the same route. Note: If a hearing is deemed necessary, applicant requests it be held at Wilkes Barre or Harrisburg, Pa.

No. MC 138707 (Sub-No. 1) filed June 1, 1973 Applicant: W. L. WILLCOXON doing business as: YELLOW CAB CO. OF JUNCTION Box 2065 Grand Junction, Colo. 81501 Applicant's representative: Stockton and Lewis The 1650 Grant St. Bldg. Denver, Colo. 80203 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, between Grand Junction, Colo., on the one hand, and, on the other, points on the Colorado River in Grand County, Utah and Mesa County, Colo. West of Grand Junction, Colo. Note: If a hearing is deemed necessary, applicant requests it be held at Denver, Colo., or Salt Lake City, Utah.

No. MC 138829 filed June 4, 1973 Applicant: ALLAN J. McDONALD, LIMITED 1602 Jane Street Cornwall, Ontario, Canada Applicant's representative: Morton E. Kiel 5 World Trade Center, Suite 6193 New York, N.Y. 10048 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in charter operations, between points on the International Boundary line between the United States and Canada located at points in New York and Michigan, on the one hand, and, on the other, points in and east of Wisconsin, Illinois, Kentucky, Tennessee, and Mississippi, restricted to traffic originating at Cornwall, Ontario, Canada and its environs. Note: If a hearing is deemed necessary, applicant requests it be held at Plattsburgh or Syracuse, N.Y.

No. MC 138856 filed June 18, 1973 Applicant: CONTINENTAL FRONTIERS, INC. 1 Sherman Square New York, N.Y. 10023 Applicant's representative: John P. Tyan 65–12 69th Place Middle Village, N.Y. 11379 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in special or charter operations from points in the New York, N.Y. Commercial Zone and Barre, Vt., to points in the United States, including Alaska (but excluding Hawaii), and return. Note: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

[SEAL] ROBERT L. OSWALD, *Secretary.*

PART II

EXPORT-IMPORT BANK

■

STANDARDS OF CONDUCT

V 38-153 AUG 9 73 XUM

Title 12—Banks and Banking

CHAPTER IV—EXPORT-IMPORT BANK OF THE U.S.

PART 400—STANDARDS OF CONDUCT

Part 400 has been revised and updated in order to insure consistency with current Federal statutes and Civil Service Commission and other regulations. Part 400 as it appears below replaces the corresponding Part which appears in Chapter IV of Title 12 of the Code of Federal Regulations.

Sec.

400.735–1 General.

Subpart A—Regular Full-Time Bank Employees—Standards of Conduct

400.735–5 Gifts, gratuities, entertainment, and favors.
400.735–6 Outside employment and other activities.
400.735–7 Financial interest of Bank employee or connected person or entity.
400.735–8 Confidential information.
400.735–9 Former employees.
400.735–10 Preferential treatment.
400.735–11 Use of Government property.
400.735–12 Personal financial integrity.
400.735–13 Gambling, betting, and lotteries.
400.735–14 General conduct prejudicial to the Bank.
400.735–15 Courtesy.
400.735–16 Miscellaneous statutory provisions.

Subpart B—Implementation

400.735–20 Dissemination.
400.735–21 Ethics Committee.
400.735–22 Counselor on Ethics.
400.735–23 Deputy Counselor on Ethics.
400.735–24 Availability of counseling.
400.735–25 Complaints.
400.735–26 Disciplinary and other remedial action.

Subpart C—Special Categories of Bank Employees

400.735–30 Certain Bank employees who are required to submit statements of employment and financial interests.
400.735–31 Bank employees other than regular full-time.
400.735–32 Presidential appointees.

Subpart D—Procedures Applicable to Other Than Regular Full-Time Bank Employees and Certain Related Standards of Conduct

400.735–40 Procedures governing appointment and utilization.
400.735–41 Standards of conduct for persons appearing before the Bank other than as officers or employees of the Bank.
400.735–42 Standards of conduct applicable to special Government employees.

Subpart E—Procedures for Submission of Statements of Employment and Financial Interests

400.735–50 Applicability.
400.735–51 Time and place for submission.
400.735–52 Form of statements.
400.735–53 Confidentiality of employees' statements.
400.735–54 Effect of employees' statements on other requirements.
400.735–55 Review of statements and remedial action.

AUTHORITY: E.O. 11222 of May 8, 1965, 30 F.R. 6469, 3 CFR E.O. 11222; 5 CFR 735.104.

§ 400.735–1 General.

(a) Subparts A through C of this Part 400 are issued to direct attention of Bank employees to certain important provisions of statute, in particular Public Law 87–849 effective January 21, 1963, relating to bribery, graft, and conflicts of interest, and to Executive Order 11222, dated May 8, 1965—Prescribing Standards of Ethical Conduct for Government Officers and Employees, and to set forth additional rules which each Bank employee must observe. The references to statutes appearing in Subparts A through C are not intended to be complete and the comments are not intended to be exhaustive. Therefore, even though Bank employees shall be expected to conduct themselves in accordance with Subparts A through C, they shall not regard these requirements as the entire expression of the highest standards of conduct and integrity.

(b) Subpart D of this part prescribes procedures governing the appointment and utilization of other than regular full-time Bank employees, and standards of conduct for persons appearing before the Bank other than as officers or employees of the Bank and standards of conduct applicable to special Government employees.

(c) Subpart E of this part prescribes procedures for the submission of statements of employment and financial interests.

Subpart A—Regular Full-Time Bank Employees—Standards of Conduct

§ 400.735–5 Gifts, gratuities, entertainment, and favors.

(a) *Constitutional and Statutory.* (1) Criminal statutes prohibit a Bank employee from soliciting or receiving anything of value for himself or another in return for being influenced in the performance of an official act (18 U.S.C. 201).

(2) Criminal statutes prohibit a Bank employee from soliciting or receiving for himself anything of value for or because of any official act performed or to be performed by the Bank employee (18 U.S.C. 201).

(3) Criminal statutes forbid outside pay for Government work (18 U.S.C. 209).

(4) Statutes prohibit a Bank employee from soliciting contributions from another Bank employee for a gift to a Bank employee in a superior official position, prohibit a Bank employee from accepting a gift presented as a contribution from a Bank employee receiving less salary than himself, and prohibit a Bank employee from making a donation as a gift to a Bank employee in a superior official position (5 U.S.C. 7351). However, Civil Service Regulations provide that the foregoing does not prohibit a voluntary gift of nominal value or donation in a nominal amount made on a special occasion such as marriage, illness, or retirement.

(5) A Bank employee shall not request or otherwise encourage the tender of a gift or decoration from a foreign government, and a Bank employee shall not accept a gift, present, decoration, or other thing from a foreign government unless the employee has complied with appppropriate regulations issued by the Department of State (Article I, section 9, U.S. Constitution; 5 U.S.C. 7342; 22 CFR Part 3).

(b) *Rules and comment.* (1) Except as provided in paragraph (b) (2) of this section, a Bank employee shall not solicit or accept, directly or indirectly, any gift, gratuity, favor, entertainment, loan, or any other thing of monetary value, from a person who:

(i) Has, or is seeking to obtain, contractual or other business or financial relations with the Bank; or

(ii) Has interests that may be substantially affected by the performance or nonperformance of the Bank employee's official duty.

In those cases in which the tender of any such gift, gratuity, or other thing of monetary value occurs under circumstances making the return thereof to the donor either impractical or impossible, or where it is considered that the return thereof would occasion embarrassment to the Bank, the Bank employee shall promptly deliver the item involved to the Vice President-Administration of the Bank. All such items delivered to the Vice President-Administration shall be disposed of by him in accordance with instructions of the Ethics Committee (see Subpart B of this part).

(2) Notwithstanding the foregoing, a Bank employee may:

(i) Accept gifts, entertainment, or favors given as a result of obvious family or personal relationships (such as those between parents, children, or spouse of the Bank employee and the Bank employee) when the circumstances make it clear that it is those relationships rather than the business of the persons concerned which are the motivating factors;

(ii) Accept food and refreshments of nominal value on infrequent occasions in the ordinary course of a luncheon or dinner meeting or other meeting (including functions sponsored by a government or an embassy and ceremonial functions), or on an inspection tour where such Bank employee is authorized by the Bank to be in attendance;

(iii) Accept loans from banks or other financial institutions on customary terms to finance proper and usual activities of employees, such as home mortgage loans;

(iv) Accept unsolicited advertising or promotional material, such as pens, pencils, note pads, calendars, and other items of nominal intrinsic value; and

(v) Accept table favors, mementos, remembrances, or other tokens bestowed at official functions and other gifts of minimal value received as souvenirs or marks of courtesy from a foreign government, the burden of proof being upon the recipient to establish that the gift is of minimal value (5 U.S.C. 7342; 22 CFR Part 3).

§ 400.735–6 Outside employment and other activities.

(a) *Statutory.* With certain exceptions, criminal statutes forbid a Bank employee, except in discharge of official duty, from representing anyone else before a court or a Government agency in a matter in which the United States Government is a party or has a direct and substantial interest, (18 U.S.C. 203 and 205).

(b) *Rules and comment.* (1) A Bank employee shall not engage in outside employment or other outside activity not compatible with the full and proper discharge of the duties and responsibilities of his Bank employment. Incompatible activities include but are not limited to:

(i) Acceptance of a fee, compensation, gift, payment of expense, or any other thing of monetary value in circumstances in which acceptance may result in, or create the appearance of, conflicts of interest; or

(ii) Outside employment which tends to impair his mental or physical capacity to perform his Bank duties and responsibilities in an acceptable manner.

(2) Bank employees are encouraged to engage in teaching, lecturing, and writing that is not prohibited by law or regulations. However, a Bank employee shall not, either for or without compensation, engage in teaching, lecturing, or writing, including teaching, lecturing, or writing for the purpose of the special preparation of a person or class of persons for an examination of the Commission or Board of Examiners for the Foreign Service, that depends on information obtained as a result of his Bank employment, except when that information has been made available to the general public or will be made available on request, or when the President of the Bank gives written authorization for the use of nonpublic information on the basis that the use is in the public interest.

(3) To assure that no possible conflict with Bank duties and interest shall arise, a Bank employee shall disclose the nature of all outside employment to the Ethics Committee and not undertake such employment unless the Ethics Committee shall approve.

(4) This § 400.735–6 shall not preclude a Bank employee from:

(i) Participating in discussions and meetings of a professional nature held outside of Washington to which such Bank employee has been invited and from receiving from outside sources bona fide reimbursement for actual expenses of travel and subsistence incurred in connection with his participation if such Bank employee's participation is not a part of his official duties at the Bank.

(ii) Accepting (unless prohibited by law) the unsolicited provision by others of transportation, lodging, or meals or the unsolicited reimbursement by others for the cost thereof, provided acceptance by the Bank employee was made while the Bank employee was on official travel status and was engaged in Bank business, provided the transportation, lodging, or meals which were provided or subject to reimbursement by others were not excessive in value and provided the Bank employee does not accept reimbursement from the Bank for such transportation, lodging, or meals. However, this paragraph does not allow an employee to be reimbursed, or payment to be made on his behalf, for excessive personal living expenses, gifts, entertainment, or other personal benefits, nor does it allow an employee to be reimbursed by a person for travel on official business under agency orders when reimbursement is proscribed by Decision B–128527 of the Comptroller General dated March 7, 1967.

(iii) Participating in the affairs of or acceptance of an award for a meritorious public contribution or achievement given by a charitable, religious, professional, social, fraternal, non-profit educational and recreational, public service, or civic organization.

§ 400.735–7 Financial interest of Bank employee or connected person or entity.

(a) *Statutory.* Criminal statues prohibit a Bank employee from participating in any Bank matter in which, to his knowledge, he, his spouse, his minor child, his partner, or any organization in which he is employed or negotiating to be employed has a financial interest (18 U.S.C. 208).

(b) *Rules and comment.* (1) The law does not specify the minimum financial interest which gives rise to a conflict of interest. If a Bank employee has occasion to act upon a matter in which to his knowledge he (or a person or an organization with whom he is closely connected) has any financial interest (whether in the form of securities or otherwise) he shall disqualify himself from acting. However, the statute authorizes a waiver under certain circumstances. If a Bank employee believes that the circumstances warrant the issuance of a waiver, he shall, before proceeding to act, disclose fully such interest to the official responsible for his appointment. He shall then act upon the matter only after he has received a written determination by the appointing official that the financial interest is not so substantial as to be deemed likely to affect the integrity of the services which the Bank may expect from the Bank employee. The power of exemption shall be exercised by the appointing official after consultation with the Ethics Committee.

(2) A Bank employee shall not have a direct or indirect financial interest that conflicts substantially, or appears to conflict substantially, with his duties or responsibilities at the Bank.

§ 400.735–8 Confidential information.

(a) *Statutory.* Criminal statutes prohibit a Bank employee from disclosing, other than as provided by law, business information obtained through his employment, (18 U.S.C. 1905).

(b) *Rules and comment.* (1) A Bank employee shall not make available to anyone outside the Bank information or documents in the possession of the Bank and held by the Bank on a confidential basis.

(2) A Bank employee shall not engage in, directly or indirectly, financial transactions or further his personal interests, as a result of, or primarily relying upon, information obtained through his employment at the Bank.

(3) A Bank employee shall not make use or give the appearance of making use, or permit others to make use or give the appearance of making use, of official information not made available to the general public for the purpose of furthering a private interest.

(4) As a result of their official duties, Bank employees will frequently have access to business information of a confidential nature. Typically, this might involve expansion plans by companies seeking the Bank's financial assistance. Such information is disclosed for official use within the Bank and is made available for no other purpose than consideration of the loan application or other matters involved. Where such confidential business information might be compromised in responding to outside inquiries from apparently authorized or legitimate sources, such as other Government agencies, staff members should refer these inquiries to the Ethics Committee to determine whether the nature and circumstances of such inquiries justify disclosure of the particular information sought. Such information should be disclosed to part-time employees and consultants of the Bank only to the extent authorized by the officer responsible for the appointment of such part-time employee or consultant.

§ 400.735–9 Former employees.

(a) *Statutory.* Criminal statutes prohibit a former Bank employee from acting as agent or attorney, at any time, for anyone in connection with a particular matter in which the United States Government has an interest and in which he participated personally and substantially while at the Bank, or appearing personally as agent or attorney for anyone, within one year after leaving the Bank, in connection with a particular matter in which the United States Government has an interest and which was under his official responsibility during his last year at the Bank (18 U.S.C. 207).

(b) *Rules and comment.* When former Bank employees or former part-time or unpair officer or employees of the Bank are acting as representatives of firms or organizations dealing with the Bank, their representation must be disclosed to the Ethics Committee, and if the Ethics Committee determines that such representation would create a conflict of interest, it shall so notify the applicant.

§ 400.735–10 Preferential treatment.

A Bank employee shall not indicate to anyone with whom the Bank has dealings any preference among suppliers, attorneys, engineers, or consultants as regards goods, equipment, or services to be provided in connection with any Bank assistance. It is established Bank policy to avoid placing any person or firm in a preferential position with respect to obtaining orders or contracts for materials or services. It is recognized that borrowers, particularly foreign governments and firms, may in good faith seek the assistance of the Bank in selecting com-

V 38-153 AUG 9 73 XUM

petent firms or consultants in connection with such matters as engineering surveys which might later form the basis for a loan application. If the interests of the Bank justify some guidance by the Bank itself in these situations, a list of qualified firms may be furnished upon determination by the Ethics Committee.

§ 400.735–11 Use of Government property.

A Bank employee shall not, directly or indirectly, use, or allow the use of, Bank property of any kind, including property leased to the Bank, for other than officially approved activities. An employee has a positive duty to protect and conserve Bank property, including equipment, supplies, and other property entrusted or issued to him.

§ 400.735–12 Personal financial integrity.

A Bank employee shall pay each just financial obligation in a proper and timely manner, especially one imposed by law such as Federal, State, or local taxes. For the purpose of this section, a "just financial obligation" means one acknowledged by the Bank employee or reduced to judgment by a court, and "in a proper and timely manner" means in a manner which the Bank determines does not, under the circumstances, reflect adversely on the Bank as his employer.

§ 400.735–13 Gambling, betting, and lotteries.

A Bank employee shall not participate, while on Bank-owned or leased property, or while on duty for the Bank, in any gambling activity including the operation of a gambling device, in conducting a lottery or pool, in a game for money or property, or in selling or purchasing a numbers slip or ticket.

§ 400.735–14 General conduct prejudicial to the Bank.

A Bank employee shall not engage in criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct, or other conduct prejudicial to the Bank. A Bank employee shall avoid any action, whether or not specifically prohibited in this Subpart A, which might result in, or create the appearance of:

(a) Using public office for private gain;

(b) Giving preferential treatment to any person;

(c) Impeding Bank efficiency or economy;

(d) Losing complete independence or impartiality;

(e) Making a Bank decision outside official channels; or

(f) Affecting adversely the confidence of the public in the integrity of the Bank.

§ 400.735–15 Courtesy.

A Bank employee shall conduct himself in a manner that will assure effective accomplishment of his responsibilities and must observe the requirements of courtesy, consideration, and promptness in dealing with those seeking the Bank's assistance.

§ 400.735–16 Miscellaneous Statutory provisions.

Attention of each Bank employee is directed to the following statutory provisions:

(a) The prohibition against a Bank employee participating in any manner in the deliberation or determination of any matter affecting his personal interests or the interests of any corporation, partnership, or association in which he is directly or indirectly interested, (12 U.S.C. 635a(e)).

(b) House Concurrent Resolution 175, 85th Congress, 2d Session, 72 Stat. B 12, the "Code of Ethics for Government Service".

(c) Chapter 11 of title 18, United States Code, relating to bribery, graft, and conflicts of interest.

(d) The prohibition against lobbying with appropriated funds, (18 U.S.C. 1913).

(e) The prohibitions against disloyalty and striking, (5 U.S.C. 7311, 18 U.S.C. 1918).

(f) The prohibition against the employment of a member of a Communist organization, (50 U.S.C. 784).

(g) The prohibitions against the disclosure of classified information, (18 U.S.C. 798; 50 U.S.C. 783).

(h) The provision relating to the habitual use of intoxicants to excess, (5 U.S.C. 7352).

(i) The prohibition against the misuse of a Government vehicle, (31 U.S.C. 638a(c)).

(j) The prohibition against the misuse of the franking privilege, (18 U.S.C. 1719).

(k) The prohibition against the use of deceit in an examination or personnel action in connection with Government employment, (18 U.S.C. 1917).

(l) The prohibition against fraud or false statements in a Government matter, (18 U.S.C. 1001).

(m) The prohibition against mutilating or destroying a public record, (18 U.S.C. 2071).

(n) The prohibition against counterfeiting and forging transportation requests, (18 U.S.C. 508).

(o) The prohibitions against:

(1) Embezzlement of Government money or property, (18 U.S.C. 641);

(2) Failing to account for public money, (18 U.S.C. 643); and

(3) Embezzlement of the money or property of another person in the possession of an employee by reason of his employment, (18 U.S.C. 654).

(p) The prohibition against unauthorized use of documents relating to claims from or by the Government, (18 U.S.C. 285).

(q) The prohibitions against political activities in subchapter III of chapter 73 of title 5, United States Code and 18 U.S.C. 602, 603, and 607.

(r) The prohibition against an employee acting as the agent of a foreign principal registered under the Foreign Agents Registration Act, (18 U.S.C. 219).

Subpart B—Implementation

§ 400.735–20 Dissemination.

The Vice President-Administration will cause all Bank employees to read Subparts A through C of this part at the time of their employment and at least annually thereafter. All Bank employees shall have read Subparts A through C not later than 60 days after the effective date of issuance.

§ 400.735–21 Ethics Committee.

A committee on ethics (the Ethics Committee) is hereby established. It shall consist of the First Vice President, as Chairman, the General Counsel, the Deputy General Counsel, and the Vice President-Administration of the Bank. All notices to the Ethics Committee shall be given to its Chairman, and only its Chairman or a person designated by him shall speak for the Ethics Committee. The Ethics Committee is authorized and directed to take the actions referred to in §§ 400.735–5(b)(1), 400.735–6(b)(3), 400.735–7(b)(1), 400.735–8(b)(4), 400.735–10, and 400.735–30(c). The Ethics Committee shall have the duty to assure that no appointment of a regular Bank employee is made if such appointment would create a conflict under § 400.735–6(b)(1) or § 400.735–7(b)(2).

§ 400.735–22 Counselor on Ethics.

The Chairman of the Ethics Committee shall serve as Counselor to the Bank and as the Bank's designee to the Civil Service Commission on matters covered by Subparts A through C of this part.

§ 400.735–23 Deputy Counselor on Ethics.

The General Counsel shall be Deputy Counselor on Ethics and shall be available to give authoritative advice and guidance to each Bank employee on matters covered by Subparts A through C of this part, including any matter arising under § 400.735–7(b)(2).

§ 400.735–24 Availability of counseling.

Each Bank employee may consult the General Counsel at any time during normal Bank hours for counseling on problems raised by Subparts A through C of this part.

§ 400.735–25 Complaints.

Complaints from any source concerning the subject matter of Subparts A through C of this part, whether emanating from within or outside the Bank, are to be submitted to the Chairman of the Ethics Committee.

§ 400.735–26 Disciplinary and other remedial action.

If a Bank employee violates any of the provisions of Subparts A through C of this part he shall be subject to the penalties provided by law, and to such additional disciplinary and other remedial action, including, among others, dismissal, suspension, or reduction in rank, as is appropriate. Disciplinary and other remedial action shall be effected in accordance with any applicable laws, Executive orders, and regulations.

Subpart C—Special Categories

§ 400.735–30 Bank employees who are required to submit statements of employment and financial interests.

(a) Statements of employment and financial interests shall be submitted by the following Bank employees:

(1) Every Bank employee paid at a level of the Executive Schedule in subchapter II of chapter 53 of title 5, United States Code, but not including the Bank employees who are subject to section 401(a) of Executive Order 11222, May 8, 1965;

(2) Those Bank employees in grades GS–13 and above under section 5332 of title 5, United States Code, who occupy positions the basic duties and responsibilities of which require the incumbent to be responsible for making a Bank decision or taking Bank action where the decision or action has an economic impact on the interest of any non-Federal enterprise;

(3) Those Bank employees in grades GS–13 and above under section 5332 of title 5, United States Code, who occupy positions which the Bank has determined have duties and responsibilities which require the incumbent to report employment and financial interests in order to avoid involvement in a possible conflicts-of-interest situation and carry out the purpose of law, Executive Order 11222 of May 8, 1965, 5 CFR Part 735 and this part; and

(4) Those Bank employees classified below GS–13 under section 5332 of title 5, United States Code, who are in positions which otherwise meet the criteria in paragraph (a)(2) or (3) of this section, on the basis that the inclusion has been specifically justified in writing to the Civil Service Commission as an exception that is essential to protect the integrity of the Government and avoid employee involvement in a possible conflicts-of-interest situation.

(b) The time and manner of submission of statements, and the procedures with respect thereto, are specified in Subpart E of this part.

(c) Any Bank employee who considers that his position has been improperly included among those requiring the submission of statements of employment and financial interests may submit the matter for review by the Ethics Committee created pursuant to § 400.735–21 of Subpart B of this part, or in accordance with the Bank's established procedures governing grievances and complaints as prescribed in Staff Memorandum No. 12, as revised, dated May 4, 1971.

(d) Employees in positions that meet the criteria in paragraph (a)(2) of this section may be excluded from the reporting requirements of this section when the Bank determines that:

(1) The duties of a position are such that the likelihood of the incumbent's involvement in a conflicts-of-interest situation is remote; or

(2) The duties of a position are at such a level of responsibility that the submission of a statement of employment and financial interests is not necessary because of the degree of supervision and review over the incumbent or the inconsequential effect on the integrity of the Government.

§ 400.735–31 Bank employees other than regular full-time.

Most of the statutes on employees' conduct are applicable to all directors, officers, and employees of the Bank, whether full-time or part-time, whether employed or retained in a consulting capacity, and whether compensated or not. However, there are special provisions applicable to part-time officers and employees of the Bank with regard to their activities before Government agencies, and the prohibition against outside compensation does not apply to officers and employees who serve without pay or to certain officers and employees who serve part time. Administrative actions and rules applicable to other than full-time officers or employees of the Bank are covered by Subpart D of this part.

§ 400.735–32 Presidential appointees.

The rules set forth in Subpart A of this part are applicable to all Bank employees who were appointed to their positions by the President of the United States, except that for purposes of the determination by the official responsible for the Bank employee's appointment referred to in § 400.735–7(b)(1), members of the Board of Directors other than the President of the Bank shall have such determination made by the President of the Bank. In addition, such Bank employees are subject to the provisions of Part IV of Executive Order 11222 of May 8, 1965, relating to submission of statements by Presidential appointees and to the requirement that they not receive compensation or anything of monetary value for any consultation, lecture, discussion, writing, or appearance, the subject matter of which is devoted substantially to the responsibilities, programs, or operations of the Bank, or which draws substantially on official data or ideas which have not become part of the body of public information.

Subpart D—Procedures Applicable to Other Than Regular Full-Time Bank Employees and Certain Related Standards of Conduct

§ 400.735–40 Procedures governing appointment and utilization.

Pursuant to Executive Order 11222, dated May 8, 1965, and Part 735 of Civil Service Commission regulations (5 CFR Part 735), this section sets forth the procedures which shall be observed in appointing and utilizing advisors, consultants and part-time employees.

(a) No private person shall be requested to appear before the Bank to give advice, comment, or service to the Bank except upon initiative of the Bank.

(b) Whenever a private person is requested to appear before the Bank to give advice, comment, or service to the Bank, it shall be determined whether he will appear on his own behalf or in a representative capacity for some party outside the U.S. Government or whether his appearance is under circumstances making him an officer or employee of the Bank.

(c) If he is to appear other than as an officer or employee of the Bank, he shall be caused to read the "Standards of conduct for persons appearing before the Bank other than as officers or employees of the Bank" (§ 400.735–41).

(d) If he is to appear under circumstances making him an officer or employee of the Bank, he shall, prior to appointment, make disclosure, to the extent and in accordance with procedures specified by the Chairman of the Ethics Committee, of his private employment and financial interests. Such disclosure shall show, at least, all other employment (including the names of all corporations, companies, firms, State or local government organizations, research organizations, and educational or other institutions in which the prospective officer or employee is serving as employee, officer, member, owner, director, trustee, advisor, or consultant) and all financial interests which relate either directly or indirectly to the duties and responsibilities of the prospective officer or employee. The Chairman of the Ethics Committee shall inquire as to the duties of the prospective officer or employee and as to confidential information which in the execution of his duties must necessarily be made available to the prospective officer or employee. The Chairman of the Ethics Committee shall determine whether or not the proposed appointment is free from probable conflicts of interest, taking into consideration the likelihood that the appointee may have to act in his official capacity on a matter in which he or someone connected with him has a financial interest, the likelihood that he may have to act in his private capacity with respect to a matter on which he will act in his official capacity or which may be pending before the Bank during the term of his appointment, and the likelihood that the appointee in his official capacity will acquire information which would be significant to him and not otherwise available to him in his private capacity. The Chairman of the Ethics Committee shall consult with the other members of the Ethics Committee on any of the foregoing matters to the extent he deems appropriate.

(e) If the proposed appointment is free from probable conflicts of interest, the candidate shall be given an appointment in writing. This appointment shall not extend for more than 365 days. It shall be determined at the time he is appointed to serve whether or not the appointee is a "special Government employee" for purposes of Public Law 87–849. This determination shall be made upon consideration of these factors:

(1) Whether or not he held at any time during the 365 days preceding appointment another appointment for temporary duties as an officer or employee

V 38-153 AUG 9 73 XUM

of the U.S. Government (including in that term the executive and legislative branches of the U.S. Government, any independent agency of the United States, and the District of Columbia). The Chairman of the Ethics Committee shall coordinate with the respective agency or agencies of the U.S. Government the classification of persons who hold or have held such other appointment or appointments.

(2) If he has held no other appointment, an estimate shall be made of the number of days on which he is expected to work for the Bank during the next 365 days. For this computation, parts of days on which duty is performed shall be counted as full working days and Saturdays, Sundays and holidays on which duty is performed shall be included.

(3) If he has held one or more other appointments: (i) An estimate shall be made for each 365-day period following the date of his other appointment or appointments of the number of days which the appointee is expected to work for the Bank during the remaining days of each such period; (ii) an estimate shall be obtained from each other agency where he has an appointment as to the number of days the appointee is expected to work for such other agency during the remaining days of the 365-day period following the date of his appointment at such agency; and (iii) the number of days shall be obtained which the appointee has actually worked for each other agency subsequent to his appointment at such agency.

(4) If he has held no other appointment and he is estimated to work for the Bank more than 130 days during the next 365, he shall be designated on the Bank's records as "part-time employee (other than special Government employee)." If he is estimated to work for the Bank 130 days or less during the next 365, he shall be designated on the Bank's records as a special Government employee.

(5) If he has held one or more other appointments and if the sum of the number of days worked or estimated to be worked on all such appointments and the Bank's appointment during any of the 365-day periods after any of these appointments is more than 130 days, he shall be designated on the Bank's records as "part-time employee (other than special Government employee)." If such sum is less than 130 days, he shall be designated on the Bank's records as a special Government employee.

(f) If he is designated as "part-time employee (other than special Government employee)," he shall be informed to that effect, shall be caused to read subparts A through C of this part, with the instruction that the statements therein (except, if he is serving without compensation, § 400.735-5(a)(3)) applicable to regular full-time Bank employees are equally applicable to him.

(g) If he is a special Government employee, he shall be informed to that effect and shall be caused to read the "Standards of conduct applicable to special Government employees," (§ 400.735-42).

(h) Each person who is retained or employed by the Bank and who is a special Government employee shall be advised of his obligation to keep the Bank informed of any additional appointments which he accepts to perform temporary duties as an officer or employee of the U.S. Government, and promptly after each such advice it shall be determined, pursuant to the procedures of paragraph (e) of this section, whether or not such person continues as a special Government employee. Each person who is retained or employed by the Bank and who is a special Government employee shall also be advised of his obligation to keep his statement of employment and financial interests current throughout his employment by the Bank by the submission of supplementary statements.

(i) Immediately after appointment of a person as an officer or employee of the Bank other than as a regular, full-time officer or employee of the Bank or after designation of a person who is to act as consultant to the Bank or who is to give advice, opinion, or service to the Bank in a capacity other than as a regular full-time director, officer, or employee, the appointing officer, in the case of an appointment, or the Chairman of the Ethics Committee, in the case of any such designation, shall advise all directors, officers, or employees of the Bank with whom the appointee or designee will deal as to the extent of confidential information to be made available to him with a view to avoiding as much as possible the disclosure of confidential information not needed for his functions or not available to his competitors in his private capacity or concerning the financial interest of himself or with which he is charged in his private capacity. The appointing officer shall instruct the appointee that information made available to him at the Bank must remain confidential in his hands and the Chairman of the Ethics Committee shall cause similar direction to be given to those utilizing the designee.

(j) Unless expressly provided otherwise, the determination required under the foregoing paragraphs shall be made by the officer who appoints or designates the individual in question upon consultation with the Chairman of the Ethics Committee.

(k) The Chairman of the Ethics Committee shall monitor the obligations of all advisors and consultants who do not hold appointments as officers or employees of the Bank. He shall advise those authorizing the services of such advisors and consultants of the requirements of this Subpart D with respect to such persons. Each appointing officer shall observe the requirements of this Subpart D in issuing each appointment as officer or employee of the Bank other than regular full-time employees of the Bank. After each such appointment the appointing officer shall be responsible for giving necessary advice and directions to permit fulfillment of the requirements of this Subpart D with respect to such appointment.

(l) If any officer or employee of the Bank, whether part-time or full-time, violates any of the rules set forth in this Subpart D, or in Subparts A through C of this part, to the extent such rules are applicable to such officer or employee, he shall be subject to the penalties provided by law and to such additional disciplinary action and other remedial action, including, among others, dismissal, suspension, or reduction in rank, as is appropriate. Disciplinary action and other remedial action shall be effected in accordance with any applicable laws, Executive orders, and regulations.

§ 400.735–41 Standards of conduct for persons appearing before the Bank other than as officers or employees of the Bank.

The following is intended for the guidance of persons who are requested to appear before the Export-Import Bank of the United States to give advice, comment, or service to the Bank but who are not appearing in the status of an officer or employee of the Bank:

(a) *Inside information.* (1) The first principle of ethical behavior for the temporary or intermittent consultant or advisor is that he must refrain from any use of his public office which is motivated by, or gives the appearance of being motivated by, the desire for private gain for himself or other persons, including particularly those with whom he has family, business, or financial ties. The fact that the desired gain, if it materializes, will not take place at the expense of the Bank makes this action no less improper.

(2) An advisor or consultant must conduct himself in a manner devoid of the slightest suggestion that he is exploiting his Bank connection for private advantage. Thus, a consultant or advisor must not, on the basis of any inside information, enter into speculation, or recommend speculation to members of his family or business associates, in commodities, land, or the securities of any private company. He must obey this injunction even though his duties have no connection whatever with the Bank programs or activities which may affect the value of such commodities, land, or securities. And, he should be careful in his personal financial activities to avoid any appearance of acting on the basis of information obtained in the course of his activities with the Bank.

(3) It is important for consultants and advisors to have access to Bank data pertinent to their duties and to maintain familiarity with the Bank's plans and programs and the requirements thereof, within the area of their competence. Since it is frequently in the Bank's interest that information of this nature be made generally available to an affected industry, there is generally no impropriety in a consultant's or advisor's utilizing such information in the course of his non-Bank activities after it has become so available. However, a consultant or advisor may, in addition, acquire information which is not generally available to those outside the Bank. In that event, he may not use such information for the special benefit of a business or other entity by which he is employed or retained or in which he has a financial interest.

(4) Consultants and advisors are encouraged to confer with appropriate persons at the Bank to assist them in the identification of information not generally available and in the resolution of any actual or potential conflict between duties to the Bank and to private employers or clients.

(5) Occasionally an individual who becomes a consultant or advisor to the Bank is, subsequent to his designation as such, requested by a private enterprise to act in a similar capacity. In some cases the request may give the appearance of being motivated by the desire of the private employer to secure inside information. Where the consultant or advisor has reason to believe that the request for his services is so motivated, he should make a choice between acceptance of the tendered private employment and continuation of his Bank consultancy. In such circumstances he may not engage in both.

(b) *Abuse of position.* An advisor or consultant shall not use his position in any way to coerce, or give the appearance of coercing, another person to provide any financial benefit to him or persons with whom he has family, business, or financial ties.

(c) *Gifts.* An advisor or consultant shall not receive or solicit anything of value as a gift, gratuity, or favor for himself or persons with whom he has family, business, or financial ties, if the acceptance thereof would result in his loss of complete independence or impartiality in serving the Bank.

§ 400.735–42 Standards of conduct applicable to special Government employees.

The following is intended for the guidance of special Government employees who are working for the Bank:

(a) *Use of Government employment.* A special Government employee shall not use his Government employment for a purpose that is, or gives the appearance of being, motivated by the desire for private gain for himself or another person, particularly one with whom he has family, business, or financial ties.

(b) *Use of inside information.* (1) A special Government employee shall not use inside information obtained as a result of his Government employment for private gain for himself or another person either by direct action on his part or by counsel, recommendation, or suggestion to another person, particularly one with whom he has family, business, or financial ties. For the purpose of this paragraph, "inside information" means information obtained under Government authority which has not become part of the body of public information.

(2) A special Government employee is encouraged to engage in teaching, lecturing, and writing that is not prohibited by law or regulations. However, a special Government employee shall not, either for or without compensation, engage in teaching, lecturing, or writing, including teaching, lecturing, or writing for the purpose of the special preparation of a person or class of persons for an examination of the Civil Service Commission or the Board of Examiners for the Foreign Service, that is dependent on information obtained as a result of his Bank employment, except when that information has been made available to the general public or will be available on request, or when the President of the Bank gives written authorization for the use of nonpublic information on the basis that the use is in the public interest.

(c) *Coercion.* A special Government employee shall not use his Government employment to coerce, or give the appearance of coercing, a person to provide financial benefit to himself or another person, particularly one with whom he has family, business, or financial ties.

(d) *Gifts, entertainment, and favors.* (1) Except as provided in paragraph (d)(2) of this section, a special Government employee shall not solicit or accept, directly or indirectly, any gift, gratuity, favor, entertainment, loan, or any other think of monetary value, from a person who:

(i) Has, or is seeking to obtain, contractual or other business or financial relations with the Bank; or

(ii) Has interests that may be substantially affected by the performance or nonperformance of the special Government employee's official duty.

In those cases in which the tender of any such gift, gratuity, or other thing of monetary value occurs under circumstances making the return thereof to the donor either impractical or impossible, or where it is considered that the return thereof would occasion embarrassment to the Bank, the special Government employee shall promptly deliver the item involved to the Vice President-Administration of the Bank. All such items delivered to the Vice President-Administration shall be disposed of by him in accordance with instructions of the Ethics Committee.

(2) Notwithstanding the foregoing, a special Government employee may:

(i) Accept gifts, entertainments, or favors given as a result of obvious family or personal relationships (such as those between parents, children, or spouse of the special Government employee and the special Government employee) when the circumstances make it clear that it is those relationships rather than the business of the persons concerned which are the motivating factors;

(ii) Accept food and refreshments of nominal value on infrequent occasions in the ordinary course of a luncheon or dinner meeting or other meeting (including functions sponsored by a government or an embassy and ceremonial functions), or on an inspection tour where such special Government employee is authorized by the Bank to be in attendance;

(iii) Accept loans from banks or other financial institutions on customary terms to finance proper and normal activities of employees, such as home mortgage loans; and

(iv) Accept unsolicited advertising or promotional material, such as pens, pencils, note pads, calendars, and other items of nominal intrinsic value.

(e) *Further disclosure.* If a special Government employee submitted to the Bank information as to his private employment and financial interests, he shall advise the Bank of any major change in such information promptly after such change has occurred. A special Government employee shall promptly advise the Bank of any additional employment with other Government agencies which he may have accepted after his appointment by the Bank.

(f) *Representation on certain matters.* No person, while carried on the Bank's records as a special Government employee, shall be permitted to act as agent or attorney for anyone in connection with a particular matter involving a specific party or parties.

(1) In which the United States is a party or has a direct and substantial interest and in which he has at any time participated personally and substantially as a Government employee or a special Government employee, or

(2) Which is pending before the Bank unless he has worked for the Bank, as of the day he acts, less than 61 days of the preceding 365 days (such exception not being applicable if such person has been disqualified with respect to the same matter at any previous time). For this computation, parts of days on which duty is performed shall be counted as full working days and Saturdays, Sundays, and holidays on which duty is performed shall be included.

(g) *Representation on matter worked on.* No person who is or once was carried on the Bank's records as a special Government employee shall be permitted to act as agent or attorney for anyone in connection with any matter which relates to the subject on which he is or was working at the Bank unless his thus acting as agent or attorney occurs with the knowledge and express written approval of the appointing officer responsible for his appointment.

(h) *Statements of employment and financial interest.* The President of the Bank may waive the requirement in § 400.735-40(d) for the submission of a statement of employment and financial interests in the case of a special Government employee who is not a consultant or an expert when the Bank finds that the duties of the position held by that special Government employee are of a nature and at such a level of responsibility that the submission of the statement by the incumbent is not necessary to protect the integrity of the Government. For the purpose of paragraph (h) of this sections, "consultant" and "expert" have the meanings given those terms by Chapter 304 of the Federal Personnel Manual, but do not include:

(1) A physician, dentist, or allied medical specialist whose services are pro-

V 38 1153 AUG 9 73 XUM

cured to provide care and service to patients;

(2) A veterinarian whose services are procured to provide care and service to animals; or

(3) A specialist appointed for intermittent confidential intelligence consultation of brief duration.

The rules set forth in §§ 400.735–52, 400.735–53, 400.735–54, and 400.735–55 shall apply in connection with the submission of statements of employment and financial interests by special Government employees.

(i) *Statutory provisions.* Attention is directed to the following statutory provisions:

(1) The prohibition against a Bank employee participating, in any manner, in the deliberation or determination of any matter affecting his personal interest or the interests of any corporation, partnership, or association in which he is directly or indirectly interested, (12 U.S.C. 635a(e)).

(2) The prohibition against bribes and related offenses, (18 U.S.C. 201).

(3) The prohibition against gifts among Government employees who are in the position of superior-subordinate to each other, (5 U.S.C. 7351).

(4) The prohibition against gifts and so forth from a foreign government unless authorized by State Department regulations, (Article I, section 9, U.S. Constitution; 5 U.S.C. 7342; 22 CFR Part 3).

(5) The prohibitions relating to conflicts of interests and related offenses, (18 U.S.C. 203, 205, 207, and 208).

(6) The prohibition against lobbying with appropriated funds, (18 U.S.C. 1913).

(7) The prohibitions against disloyalty and striking, (5 U.S.C. 7311, 18 U.S.C. 1918).

(8) The prohibition against the employment of a member of a Communist organization, (50 U.S.C. 784).

(9) The prohibitions against: (i) The disclosure of classified information, (18 U.S.C. 798, 50 U.S.C. 783); and (ii) the disclosure of confidential information, (18 U.S.C. 1905).

(10) The prohibition against the misuse of a Government vehicle, (31 U.S.C. 638a(c)).

(11) The prohibition against the misuse of the franking privilege, (18 U.S.C. 1719).

(12) The prohibition against fraud or false statements in a Government matter, (18 U.S.C. 1001).

(13) The prohibition against mutilating or destroying a public record, (18 U.S.C. 2071).

(14) The prohibition against counterfeiting and forging transportation requests, (18 U.S.C. 508).

(15) The prohibition against: (i) Embezzlement of Government money or property, (18 U.S.C. 641); (ii) failing to account for public money, (18 U.S.C. 643); and (iii) embezzlement of the money or property of another person in the possession of an employee by reason of his employment, (18 U.S.C. 654).

(16) The prohibition against unauthorized use of documents relating to claims from or by the Government, (18 U.S.C. 285).

(17) The prohibitions against political activities in subchapter III of chapter 73 of title 5, United States Code, and 18 U.S.C. 602, 603, and 607.

(18) The prohibition against an employee acting as the agent of a foreign principal registered under the Foreign Agents Registration Act, (18 U.S.C. 219).

Subpart E—Procedures for Submission of Statements of Employment and Financial Interests

§ 400.735–50 Applicability.

Pursuant to Executive Order 11222 dated May 8, 1965, and Part 735 of Civil Service Commission regulations (5 CFR Part 735), this Subpart E sets forth the rules which shall apply in connection with the submission of statements of employment and financial interests.

§ 400.735–51 Time and place for submission.

Statements referred to shall be submitted by all employees of the Bank (whether full-time or part-time) who are required to submit such statements on June 30 of each year. Employees who, after June 30, 1973, are appointed to a position requiring submission of such statements, shall submit such statements within 30 days after appointment. All statements shall be submitted to the Chairman of the Ethics Committee. Each employee who previously submitted any such statement shall submit a supplementary statement each June 30, regardless of whether or not there were occurrences which would require changes in, or additions to, information previously submitted, and shall at all times avoid acquiring a financial interest that could result, or taking an action that would result, in a violation of the conflicts-of-interest provisions of section 208 of title 18, United States Code, or of this part.

§ 400.735–52 Form of statements.

Statements of employment and financial interests shall be submitted on standard forms provided by the Civil Service Commission, copies of which are available in the Personnel Office of the Bank. The following rules shall be observed in preparing the statements:

(a) The interest of a spouse, minor child, or other member of the employee's immediate household is considered to be an interest of the employee. For the purpose of paragraph (a) of this section, "member of an employee's immediate household" means those blood relations who are residents of the employee's household.

(b) If any information required to be included on a statement of employment and financial interests or supplementary statement, including holdings placed in trust, is not known to the employee but is known to another person, the employee shall request that other person to submit information in his behalf.

(c) An employee is not required to submit on a statement of employment and financial interests or supplementary statement any information relating to the employee's connection with, or interest in, a professional society of a charitable, religious, social, fraternal, recreational, public service, civic, or political organization or a similar organization not conducted as a business enterprise. For the purpose of paragraph (c) of this section, educational and other institutions doing research and development or related work involving grants of money from or contracts with the Government are deemed "business enterprises" and are required to be included in an employee's statement of employment and financial interests.

§ 400.735–53 Confidentiality of employees' statements.

The Bank shall hold each statement of employment and financial interests, and each supplementary statement, in confidence. To insure this confidentiality, the Chairman of the Ethics Committee is designated to review and retain the statements, and shall be responsible for the maintenance of the statements in confidence, and he shall not allow access to, or allow information to be disclosed from, a statement except to carry out the purpose of this part. The Bank may not disclose information from a statement except as the Civil Service Commission or the President of the Bank may determine for good cause shown.

§ 400.735–54 Effect of employees' statements on other requirements.

The statements of employment and financial interests and supplementary statements required of employees are in addition to, and not in substitution for, or in derogation of, any similiar requirement imposed by law, order, or regulation. The submission of a statement or supplementary statement by an employee does not permit him or any other person to participate in a matter in which his or the other person's participation is prohibited by law, order, or regulation.

§ 400.735–55 Review of statements and remedial action.

All statements submitted to the Chairman of the Ethics Committee shall be reviewed by him in consultation with the other members of the Ethics Committee as he deems appropriate. If any statement or information from other sources discloses a conflict of interest, or an apparent conflict of interest, between the interests of an employee and the performance of such employee's duties at the Bank, the Chairman of the Ethics Committee shall give such employee an opportunity to explain such conflict, or apparent conflict, and if such explanation is not satisfactory, the Chairman of the Ethics Committee shall take such action as he deems appropriate to resolve such conflict, or apparent conflict. If the Chairman of the Ethics Committee is unable to resolve such conflict, or apparent conflict, he shall report the matter to the President of the Bank who shall then take appropriate remedial action to end such conflict, or apparent conflict. Remedial action may include, but is not limited to:

(a) Changes in assigned duties;

(b) Divestment by the employee of his conflicting interest;

(c) Disciplinary action; or

(d) Disqualification for a particular assignment.

Remedial action, whether disciplinary or otherwise, shall be effected in accordance with any applicable laws, Executive orders, and regulations.

These regulations (Part 400) were approved by the U.S. Civil Service Commission on July 30, 1973, and are effective August 9, 1973.

HENRY KEARNS,
President and Chairman.

V 38 - 153 AUG 9 73 XUM

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS

Copper Scrap

Subpart D of the Cost of Living Council freeze regulations is amended by adding a new § 147.37 to exempt the price of copper scrap and copper based alloys scrap. The exempted items include: copper scrap, No. 1 wire; heavy yellow brass scrap; No. 1 composition (red brass) scrap; and all other grades of copper scrap. The Cost of Living Council has determined that this exemption is necessary to permit a continued supply of raw material to firms using the scrap for refining, smelting, casting, and extruding copper and its alloy.

Copper scrap and copper based alloy scrap is a raw material for a large number of firms. The scrap is essential to the production of these firms and, in many instances, the only suitable raw material.

The world price for copper, which follows the world price for gold and silver, has recently increased thereby causing an increase in the price of copper scrap and copper based alloy scrap as well. The one product which is an adequate substitute for copper scrap, refined copper, is currently in short supply because of disruptions in producing countries.

Export restrictions in other nations have, moreover, left the U.S. as the sole free market source of copper scrap and copper based alloy scrap. Due to the freeze and world market conditions an increased volume of exports of these scraps from U.S. sources has been generated, reducing the amount of raw material available to domestic users of the product.

The Cost of Living Council has therefore determined that the exemption of copper scrap and copper based alloy scrap is necessary to prevent further plant closures and curtailment of production by U.S. firms using the scrap in their production processes.

Because the purpose of these regulations is to provide immediate guidance as to a Cost of Living Council decision, I find that publication in accordance with normal rulemaking procedure is impracticable and that good cause exists for making these regulations effective in less than 30 days. Interested persons may submit communications regarding these regulations. Communications should be addressed to the Office of General Counsel, Cost of Living Council, Washington, D.C. 20508.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11695, 38 FR 1473; E.O. 11730, 38 FR 19345; Cost of Living Council Order No. 14, 38 FR 1489; Cost of Living Council Order No. 30, 38 FR 16267)

In consideration of the foregoing, Chapter I of Title 6 of the Code of Federal Regulations is amended as follows, effective immediately.

Section 140.37 is added to 6 CFR Part 140 to read as follows:

§ 140.37 Copper scrap.

Prices for copper scrap and copper based alloy scrap are exempt.

Issued in Washington, D.C., on August 6, 1973.

JAMES W. MCLANE,
Director,
Special Freeze Group.

PART 150—COST OF LIVING COUNCIL PHASE IV PRICE REGULATIONS

Final Phase IV Regulations

The purpose of this amendment to Part 150 of the Cost of Living Council Regulations is to add Subparts A through K, and P.

On July 19, 1973, the Cost of Living Council established Part 150 and issued Subpart N in final form, 38 FR 19462 (July 20, 1973). On the same day the Council issued a notice of proposed rulemaking, 38 FR 19464 (July 20, 1973) setting out proposed Phase IV regulations, and inviting interested persons to submit written data, views or arguments.

The Council stated in the notice of proposed rulemaking that all comments received before July 31, 1973, would be considered by the Council before taking action on the proposed regulations. Six hundred and seventy-one comments were received before July 31, 1973.

Copies of each comment went to the attorney and the operations specialist or economic analyst who was responsible for the subpart with which the comment dealt. Many comments dealt with several subparts and thus were divided among Council personnel with responsibility for the different subparts. In addition, numerous consultations were held with affected groups of businessmen, consumers, attorneys, accountants, and others in Washington, D.C., Atlanta, New York City, San Francisco, Detroit and Chicago. Staff officials of the Council conducted an intensive reexamination of the regulations, independently as well as in light of the comments, in order to assure the maximum degree of clarity and consistency of the policy decisions that were made and of the regulations written to reflect these decisions. As a result of these efforts the final regulations contained numerous changes from the proposals that were published in proposed form on July 19, 1973.

Subpart A—General. Subpart A provides the scope and general rules of Part 150. It specifies which of the prior regulations are superseded and which temporarily remain in effect.

Subpart A provides that reports due under the Phase III regulations continue to be required for any reporting period ending before August 13, 1973, even though Phase III has ended for most firms.

Subpart A also reiterates the Phase III rule that contract renegotiation provisions which depend for their operation upon the modification or termination of the Economic Stabilization Program are rendered inoperative as inconsistent with the goals of that program.

Subpart A differs from the proposed version primarily in that it now contains general rules formerly set out in Subpart E. This change in location is designed to provide a clearer and more logical grouping of Phase IV provisions. The general price rule is added to subpart A and clarified by the addition of the concept of an "adjusted freeze price" which is defined in §§ 150.72, and 150.302.

A new section on profit margin limitation is added which explains that a single profit margin is used for all manufacturing, service, retailing and wholesaling activities of a firm except where particular regulations under this part (such as Subpart N—Construction) require separate computation of a profit margin. The profit margin rules which were formerly located in subparts E (for manufacturing and service activities) and K (for retailing and wholesaling activities) are continued in general but modified in several important respects. A firm which does not charge a price in excess of an adjusted freeze price is not subject to a profit margin limitation with respect to the first fiscal year ending after August 12, 1973. Also, charging a price pursuant to a contract entered into before the freeze does not subject a firm to a profit margin limitation. Finally, charging a price for a custom product or service will not subject that firm to a profit margin test if the revenues derived from the sale of the custom product or service amount to less than $10 million or less than 1 percent of its annual sales or revenues for the fiscal year, whichever is greater.

A new exclusion is provided which relieves from the profit margin test for a firm which, during its most recent fiscal year, derived both (1) 90 percent or more of its annual sales or revenues from the sales of exempt items or from exempt sales, and (2) less than $50 million of its annual sales or revenues from the sales of nonexempt items. Also, a profit margin overage will be excused by the Council to the extent that it can be demonstrated as being attributable to the sale of exempt items.

Subpart A adds two other new sections. The first permits a firm which has been authorized to adjust its base period profit margin pursuant to an exception granted before Phase IV to continue to calculate its base period profit margin pursuant to that exception. The second section explicitly retains the right of the Council to challenge Phase III price increases and to impose sanctions under the freeze regulations.

Finally, subpart A is changed by the addition of three sections, providing for criminal fines, civil penalties and injunctions. These sections continue the same general sanctions which were in force during the Phase III freeze.

Subpart B—Definitions. Subpart B contains the definitions of general applicability to this part. Definitions which are applicable only to one subpart are placed at the beginning of that subpart.

Subpart B differs from the proposed version primarily in that it includes definitions of "Base period profit margin", "Parent", "Price adjustment", and "Unconsolidated entity"; deletes definitions of "Controlled group", "Mass transportation system" (which is defined in Subpart P), "Pooling of interests", "Regulatory agency", "Spin-off", and "Split-off"; and makes substantial changes in the definitions of "Base period", "Firm", "Product line", "Profit margin", "Service line", and "Transactions".

The definition of "Base period" has been amended to separate the computation of base period profit margin from the definition of base period. A definition of "Base period profit margin" has been added. The base period profit margin must be computed in accordance with the firm's financial statement for the years used, but adjustments to those financial statements may be required to reflect changes in the firm's activities in accordance with the provisions of Subpart I. In addition, if in computing its base period profit margin, a firm uses a year ending during Phase II, in which the firm exceeded the applicable Phase II profit margin restrictions, the firm must reduce the operating income used in the computation to a level that would have been permitted had it been in compliance with the Phase II profit margin limitation. Consistent with Form CLC-22, a firm must deduct interest expenses on long and short-term debt in computing its operating income. Also, the phrase "cost of sales" has been changed to "cost of goods sold".

The definition of "profit margin" has been changed to reflect the changes in the definition of base period profit margin. Both definitions explicitly provide that for purposes of computing base period profit margin, a firm excludes revenues and costs attributable to items exempt under §§ 150.52, 150.53(b), 150.54(d)(3), 150.54(d)(4), and 150.56, and revenues and costs of insurance transactions subject to Subpart M.

The definition of "Firm" has been changed, and is designed to achieve the same results reached in Phase II. The language is also changed to reflect the fact that the Council uses different aggregations for purposes of applying the term "firm" in differing contexts in the forms and regulations. For example, for profit margin purposes, a "firm" is a parent and consolidated entities, while for determining price categories, the Council uses "firm" to mean parent and consolidated and unconsolidated entities.

"Item" has been changed to include not only sale but lease, and not only something offered for sale but something sold. The term "Manufacturer" has been changed to "Manufacturing" with no change in the definition, to be consistent with the change in usage from Phase III. Similar changes in terminology occur with "service activities," "retailing" and "wholesaling."

The definitions of "Pooling of interests," "Spin-off" and "Split-off" have been deleted since these terms are no longer used in the new provisions of subpart I relating to comparability of financial data.

Because of the change in the definition of firm, there are now definitions of "Parent," "Parent and consolidated entities" and "Unconsolidated entities."

Definitions of "Product line" and "Service line" are added which are consistent with the CLC-22, definition of product line.

"Retail firm" was deleted and incorporated into the subpart D exemption for small retail firms.

"Transaction" was changed to mean date of shipment in the case of products and date of performance in the case of service. This is consistent with the freeze rules.

This change reflects the fact that for purposes of calculating actual prices as of January 11, 1973, for the first CLC-2 required under Phase III rules, firms generally made their calculations on the basis of shipment prices as reflected on invoices. The change enables firms to use these calculations for determining base prices in Phase IV, and relieves them of the burden of performing new calculations. In addition, prices specified in contracts entered into prior to the freeze are declared allowable under § 150.76 of the final regulations.

Subpart C—Classifications. Subpart C classifies all firms as price category I, II or III, based upon the firm's annual sales or revenues. Specifically, a price category I firm is a firm with annual sales or revenues of $100 million or more. A price category II firm is one with annual sales or revenues of at least $50 million but less than $100 million. All others are price category III firms.

Subpart C has been changed to specify that, for determining price category, a firm includes a parent and the consolidated and unconsolidated entities which are directly or indirectly controlled by the firm.

Subpart D—Exemptions. Subpart D sets forth a list of the items, transactions, and firms which are exempt from various provisions of the Economic Stabilization Program. Certain clarifying and substantive changes have been made in the proposed regulations as follows:

In § 150.52(a), raw peanuts, shelled or unshelled, have been added to the list of those agricultural products the sale of which is exempt until processing occurs. The Council during the course of the Economic Stabilization Program has treated raw peanuts as subject to the general rule of § 150.52(a) since virtually all peanut products in the United States are processed in some form before being consumed. The omission of raw peanuts from the list of exempt products contained in the proposed regulation was inadvertent.

In § 150.52(a) milled lumber has been deleted from the listing of nonexempt items to remove any confusion which might arise as to the scope of the exemption for lumber under § 150.54(o). Millwork has been added as an example of a nonexempt lumber item.

Section 150.54(m) concerning long-term coal contracts has been broadened to apply to any contract to provide coal over a period of at least five years to a public utility. The proposed provision required that a coal contract be entered into after August 1, 1973, have a term of at least eight years, and be for the provision of coal to a public utility under the jurisdiction of a regulatory agency.

Section 150.54(o) concerning lumber has been amended to include tempered or untempered hardboard.

A new § 150.54(p) has been added to continue the exemption for prices charged for copper scrap and copper based alloy scrap which became effective during the latter part of the Phase III freeze.

With regard to the small business exemption in § 150.60, it should be noted that as a consequence of the shift forward in the time period for determining applicability, a firm which qualified for the exemption in Phases II and III may not qualify for the exemption as now formulated as a result of a change in its circumstances, such as growth in employment or sales.

Certain technical changes, e.g., to correct erroneous cross references, have also been made.

Subpart E—Manufacturing and service activities. Subpart E has been modified in several respects. Since the rules of general applicability have been removed to subpart A, subpart E now applies only to manufacturing and service activities. A "Scope" section has been added that makes clear that subpart E does not apply to those activities governed by particular regulations under this part (such as Subpart M—Insurance. However, a firm which is subject to Subpart E and which is also engaged in wholesaling and retailing activities governed by subpart K may treat those activities as manufacturing and service activities, if the firm's revenues from wholesaling and retailing amounted to both (1) less than $50 million, and (2) less than 10 percent of that part the firm's total revenues which were subject to subpart E in its most recently ended fiscal year.

A definition of "adjusted freeze price" has been included specifying those Phase III prices which may be charged in Phase IV without application of the Phase IV rules. This is a modification of the notion embodied in § 150.76(d) of the proposed regulations. The "adjusted freeze price" is, essentially, the maximum price permitted under the freeze regulations, modified to exclude from the freeze price temporary special sales, deals, and allowances which were required to be included under the freeze regulations. The "adjusted freeze price" takes into account exceptions granted during the freeze and the special freeze rules which allowed for seasonal pricing and higher prices on imported items. The general rule for price increases under subpart E, as now stated, is that any price may be charged for an item which does not exceed the adjusted

V 38-153 AUG 9 73 XUM

freeze price of that item or the base price of that item, whichever is higher.

Where the base price is higher than the adjusted freeze price, a price above the base price may be charged only to recover on a dollar-for-dollar basis those net increases in allowable costs that have been incurred with respect to the product line or service line concerned since the base cost period and which the firm concerned continues to incur, subject to the productivity offset, the price reduction rule, and the profit margin limitation.

Where the adjusted freeze price is in excess of the base price, a price increase may be placed in effect only if the full extent of all price increases above the base price is cost-justified and is otherwise permissible under the Phase IV rules. This rule permits firms both to increase prices up to the adjusted freeze price level and to continue to charge prices at the adjusted freeze price level without application of the Phase IV rules.

A price category 1 firm which prenotifies its intent to apply a percentage price increase to a product line or service line, and any other firm which qualifies, by virtue of cost justification, to charge a percentage price increase to a product line or service line, must apply the percentage price increase on a weighted average basis so that, for any fiscal quarter, the weighted average of all price increases and price decreases in that product line or service line does not exceed the percentage price increase prenotified or otherwise permissible.

A new rule has been formulated for limiting the maximum price increase for any one item in applying the percentage price increase to the product line or service line on a weighted average basis. The item maximum is 110 percent of the adjusted freeze price or 110 percent of the base price of the item, whichever is greater, plus the percentage of cost justification times the adjusted freeze price or the base price, whichever is greater.

The price reduction rule, which requires price reductions when and to the extent that Phase IV price increases are no longer supported by increased costs (i.e., when costs decrease), remains essentially unchanged.

The rule in the proposed regulations concerning contracts entered into during the freeze has been altered with respect to the periods of time applied under that rule and has been moved to subpart H (Prenotification and Reporting) since that rule provided a temporary waiver of the prenotification requirement. The new contracts rule in subpart E applies to the price specified in a contract for the sale of an item entered into before 9:00 p.m., e.s.t., June 13, 1973, with respect to delivery or performance occurring after the beginning of Phase IV and before January 1, 1974. The new rule states that that contract price is allowable without regard to the Phase IV rules and without regard to profit margin limitation.

Subpart E concludes with the rule requiring that increases in allowable costs be reduced to reflect productivity gains. This rule remains essentially unchanged from Phase II.

The profit margin rule, previously set forth in subpart E, has been expanded and restated in subpart A.

Subpart F—Base price. Subpart F provides the rules for calculating base prices, including base prices for new items and custom products and custom services. These rules remain essentially unchanged. In general, the base price with respect to an item is the average price at which the item was lawfully priced in transactions with the class of purchaser concerned during the base price period. The average price is determined by dividing the net sales of that item by the quantity of the item sold or leased to the class of purchaser concerned during the base price period. The base price period is the last fiscal quarter which ended before January 11, 1973, in which transactions occurred with respect to the item and class of purchaser concerned. A provision has been added for using an accepted sampling method for calculating the base price of an item in certain circumstances.

Temporary special deals or temporary special allowances may now be excluded in computing the base price of an item. Along with this change, "temporary" has been defined to mean in effect for 31 days or less.

With respect to determining a base price for a new item, the rule as applied to firms engaged in wholesaling and retailing has been modified to provide that the product shall be priced within the merchandise or customer category into which the new product falls in accordance with subpart K.

The prenotification requirement provided in the proposed Phase IV rules with respect to new items has been eliminated. Subpart F now provides for quarterly reporting of new items when projected sales for all new items in the current fiscal year amount to $10 million or more. The requirement applies with respect to each new item with projected annual sales of $1 million or more. This regulation is designed to permit the Council to review whether items qualify as "new items" and whether the base price of new items has been determined in accordance with Subpart F.

Subpart G—Base cost and current cost. Subpart G establishes the rules for determining base costs and current costs.

Previously, the base cost of direct material and labor was the rate at which these costs were incurred on the last full day of business in the base cost period. The base cost period remains unchanged (the last fiscal quarter which ended before January 11, 1973, in which costs were incurred with respect to the product line or service line concerned). However, the base cost of labor is now the rate at which those costs were incurred on the first full day of business in the base cost period. With respect to all costs (including cost of direct labor) other than labor costs, the base cost now is also the rate at which those costs were incurred on the first full day of business in the base cost period. Unchanged is the rule that if base cost for all costs other than labor costs cannot reasonably be determined as stated above, the base cost is the average cost incurred throughout the base cost period.

Under the Phase IV rules as proposed, the current cost period was the fiscal quarter for which a quarterly report is required. For prenotification purposes, the current cost period was any representative period in which normal, recurring costs were incurred prior to the date of the prenotification document.

The current cost period for quarterly reporting purposes is now the last accounting month in the current fiscal quarter for which a quarterly report is required. The current cost period for price category III firms is the last accounting month in the current fiscal quarter for which compliance is being measured. The current cost period for prenotification firms is the last accounting month preceding the date of signature of the prenotification document except that with respect to labor and other costs which may be calculated as of a date certain, the rate at which these costs are incurred on the day which is the date of signature of the prenotification document may be considered as the rate on the last full day of the current cost period.

Except as indicated above, the rules for current costs for labor and all other costs continue unchanged. The rate on the last full day of business in the current cost period is used, except that, with respect to all costs other than labor costs, the average cost incurred throughout the current cost period may be used if current costs cannot reasonably be determined by the method prescribed.

Subpart H—Prenotification and reporting. The general prenotification rule, found in § 150.51(a), has been modified to require that a price category I firm may not increase the price for any item above the adjusted freeze price for that item or above its base price for that item, whichever is higher, until it has filed a notice of the proposed price increase with the Council and 30 days have elapsed since the filing of that notice. The section, as proposed, made reference only to increases above base price and a waiver of prenotification was provided for prices established pursuant to § 150.76(d) of the proposed regulations. The change is designed to eliminate ambiguity. It recognizes that for many firms, the adjusted freeze price will be higher than the base price and it is intended to make clear that the prenotification requirement applies only to increases above the higher of those two prices. In addition, § 150.151(a) has been amended to make clear that a notice of proposed price increase may be filed not only with respect to an item as to which a price increase is sought but also with respect to a product line which includes that item. This provision had been inadvertently omitted from the proposed regulations.

Section 150.151(b) has been modified in three major respects. First, § 150.151

(b)(2)(ii) as published in the notice of proposed rulemaking has been deleted. The purpose of that section has been accomplished in the first change of § 150.151(a) referred to above. A new section has been substituted which provides for waiver of prenotification with respect to prices specified in contracts which were entered into before the freeze began and which call for delivery or performance after the beginning of Phase IV and before January 1, 1974. Section 150.76 establishes the validity of these contract prices, and amended § 150.151(b)(2)(ii) makes clear that they are not subject to prenotification.

Second, a new § 150.151(b)(2)(iii) has been inserted which is similar in its basic purpose to § 150.92 of the proposed regulations but which has been modified in several respects. This provision is designed to waive prenotification with respect to the charging of a price specified in a contract entered into after the freeze began and before publication of these final regulations. Prices charged under these contracts must comply with Phase IV rules, but this provision waives the requirement of prenotification with respect to price increases charged for delivery or performance occurring after August 12 and prior to October 12, 1973. This establishes a 60 day period in which performance under these contracts may take place without prenotification.

Third, a new § 150.151(b)(2)(iv) has been added which is virtually identical to the PC–5 procedure or the so-called "multi-industry firm waiver" which was available during Phase II. The provision waives prenotification requirement for any price category I firm which had annual sales or revenues of less than $100 million within any industrial group in its most recently completed fiscal year, when the Council grants approval for such a procedure. The provision defines industrial groups as two-digit standard industrial classification (SIC) codes and specifies that a firm whose prenotification requirements are modified by operation of this provision remains subject to all the other rules of this part. To qualify, the firm must also show that each activity for which waiver is sought does not account for more than 5% of the market covered by the 4-digit SIC code applicable to that activity. Subsection 150.151(b)(2)(iv)(B) provides that, for a period of 60 days or until October 12, 1973, a firm which had received approval from the Price Commission under the predecessor rule and which has reason to believe it still qualifies for such treatment may avail itself of this procedure. Thereafter it may use the provision only if it has received authorization from the Council to do so.

Section 150.152 has been modified to make clear that a notice of price increase is considered to be filed with the Cost of Living Council when it is stamped and dated by the Council. Use of the term "accepted" in the proposed regulation caused concern among many persons commenting on the proposal that the Council would delay the start of the 30 day waiting period until it had reviewed the filing and determined that it was acceptable in a substantive sense. The amendment is intended to make it clear that this is not the case and that the ministerial act of date-stamping starts the running of the 30 day period.

Section 150.156 dealing with volatility is modified to provide in subsection (d), that preexisting volatility authorizations will be valid for a period of 60 days until October 12, 1973 rather than the 30 day period that was provided for in the notice of proposed rulemaking.

Section 150.161 has been changed in two respects. First, §150.161(a) has been modified to make reference to the forms and instructions issued by the Council which will set out more detail as to those matters which will be required to be filed in connection with the quarterly report. Second, a new §150.161(b)(4) has been added to provide that a firm which has not charged a price for any item above the base price of that item or above the adjusted freeze price for that item whichever is higher, may file a "certificate of no price increase" in lieu of a quarterly report.

Section 150.162 of the proposed regulations requiring an annual report to be filed by each price category III firm has been deleted. The Council concluded that the burden of compliance posed by such a requirement would significantly outweigh the benefits to be achieved. Moreover, price category III firms continue to be subject to all the rules of the Economic Stabilization Program and are required to maintain such records as may be necessary to demonstrate to a representative of the Economic Stabilization Program that they are in compliance with these rules.

Subpart I—Accounting and financial reporting requirements. Subpart I provides information on accounting and financial reporting requirements. It has been wholly changed from the proposed version. On the basis of comments received and its own experience, the council concluded that a restriction on a firm's profit margin that is tied to its profit margin in an earlier period, gives rise to distortions and unintended results when the firm's present operations are not comparable to its past operations because of intervening acquisitions, divestitures, liquidations or new operations.

The Council determined that if profit margin computations are to provide a meaningful comparison between the current period and the base period, it is necessary to restate the financial data on which the computations are based, whenever there is a pooling of interests, or other acquisition, divestiture, or discontinuation of operation. To reflect these decisions, subpart I now provides, in essence, that a firm must adjust its financial data to reflect acquisitions of divestitures of separate accounting entities whenever these changes require restatement of disclosure in a filing with the SEC. Adjustments must also be made when the changes would require restatement or disclosure in a filing with the SEC were it not for the fact that the firm does not file reports with the SEC, or that there is a lack of materiality.

Subpart I also provides that when a firm's operations have substantially changed in nature, in ways other than acquisitions or divestitures, the firm may request an exception to allow it to adjust its profit margins.

Finally, the requirement in proposed § 150.172 that certain firms must obtain the services of an independent public accountant to perform certain procedures set out in Part 105, has been deleted as unnecessary.

Subpart J—Special rules. The former provision governing loss and low profit relief has been divided into two sections. Section 150.201 deals with exemptions from the requirements of prenotification and cost justification, while § 150.202 provides relief from firms with a loss, or a low base period profit margin.

Section 150.201 sets forth a special pricing rule for any firm which, in its current fiscal year, projects that its profit margin will be less than a minimum profit margin. This represents a change from the proposed regulations which allowed only those firms which had 90% or more of their revenues derived from manufacturing, retail or wholesale activities or 90% derived from service activities to qualify for the low profit rule.

The minimum profit margin allowed is similar to that set forth in the proposed regulations. A firm with at least 90% service activity has a minimum profit margin allowed of 1%. All other firms, including any firm with less than 90% in service activities have a minimum profit margin allowed which is between 3 percent and .2 percent depending upon the firm's capital turnover ratio.

To qualify for this section, a Price Category I or Price Category II firm must submit to the Council sufficient financial data to support its position as a loss-low profit firm. Thirty days after the Council has received such data, the firm may price pursuant to this section. During the 30-day time period, the Council may suspend, modify or disapprove a firm's submission for such reasons as insufficient or inaccurate financial data. A Price Category III firm must prepare sufficient financial data to support its position as a loss and low profit firm and must maintain the data at its principal place of business. However, a Price Category III firm need not submit this information to the Council nor wait the 30 days prior to pricing under this section. This waiver of the 30-day time period for Price Category III firms reflects a change from the proposed regulations.

A firm which qualifies for this rule may price without respect to the cost justification requirements in subparts E and K and without respect to the prenotification requirements of subpart H. However, if the firm increases the wages or salaries of any of its officers or employees or owners or relatives of an owner in excess of general wage and salary standard as computed in accordance with economic stabilization regulations, authority to use this section terminates.

V 38-153 AUG 9 73 XUM

Authority to price pursuant to this section ends at the close of the fiscal year or sooner, if the firm has achieved its maximum profit margin allowed or approaches it within .01% at an annual rate.

Section 150.202 provides relief to firms with a loss or low base period profit margin. It allows a firm to calculate and use as its base period profit margin a minimum profit margin. Calculations of the minimum profit margin allowed is similar to the calculations made for the loss and low profit rule. However, the firm must use financial data from its two best base period years in making these calculations. The adjustment to base period profit margin that is provided in this section was included in the proposed low profit rules. It has been placed in a separate section for purposes of clarification.

Section 150.203 is amended to make clear that a person may price pursuant to the seasonality rule without prenotifying price increases pursuant to the provisions of subpart H. The special rules for marketing cooperatives and purchasing cooperatives have not been changed from the proposed rules.

Subpart K—Retailers and wholesalers. Subpart K sets forth rules applicable to retailing and wholesaling activities. These regulations contain several changes, some of them substantive and others merely editorial in nature, from the proposed regulations published by the Cost of Living Council on July 18, 1973.

Section 150.301 has been amended by deleting as surplusage the reference to subpart L and by deleting proposed paragraph (b) to avoid any suggestion that no other provisions in Part 150 applies to retailers or wholesalers.

Proposed § 150.302 has been deleted. Regulations pertaining to the retailing or wholesaling of meat and other food products will be issued by the Council at a later date.

The definitions section has been renumbered as § 150.302 and contains a new term, "adjusted freeze price" which is defined in § 140.2. In addition for an item sold in a catalogue, the adjusted freeze price is the price specified in a catalogue printed prior to July 18, 1973. The definitions of "customer category" and "merchandise category" have been merged into the one term "category". The definition of "pricing entity" has been amended to clarify the intent of the Council that the appropriate pricing entity is the lowest level of organization at which the initial pricing decisions are made, regardless of whether these decisions may later be modified at a lower organizational level with the firm.

The major substantive change in this subpart is the inclusion of customary initial percentage markups (CIPMs) as a means of control. The Council received numerous comments suggesting that the CIPM method be allowed, in addition to the gross margin method, because so many firms traditionally use the former system. Accordingly, this subpart has been amended, where appropriate, to pertain to CIPMs as well as gross margins.

The new § 150.303 sets out the methods to be used in computing CIPMs and gross margins. The formulae are self-explanatory.

The general rule of § 150.304 has been amended in several respects. First, it has been changed to provide that no price may be increased above the adjusted freeze price (rather than above the base price, as provided in the proposed rules) until, in the case of a Tier I or Tier II firm, the retailer or wholesaler has submitted the merchandise pricing plan or, in the case of a Tier III firm, it has completed its merchandise pricing plan.

The second change contained in this section, as discussed above, is the inclusion of CIPMs as an acceptable control mechanism under this subpart. Whether a retailer or wholesaler chooses to be controlled by either the CIPM system or the gross margin system, he must still exercise control on a category basis.

However, the provisions of this subpart do not require a retailer or wholesaler who has traditionally priced his goods on an item-by-item basis to change that practice. He may continue to price in that manner, but his compliance with this subpart will be controlled on the basis of categories in accordance with the rules set forth herein.

In sum, the general rule now provides that a retailer or wholesaler must control his prices so that for any fiscal quarter his CIPM or gross margin for each category does not exceed the higher of (1) his CIPM or gross margin for each category during the same quarter of the base period or (2) his base period CIPM or gross margin. Further, his CIPM or gross margin for any fiscal year may not exceed his base period CIPM or gross margin. Also, the firm may not exceed, both food products and non-food prod- during any year, its base period profit margin.

A new provision has been added to the general rule stating that if a retailer or wholesaler does not increase the price for any item within a category above the adjusted freeze price, the CIPM or gross margin limitations for that category do not apply.

Finally, a new provision has been added to the general rule which makes clear that the retailer or wholesaler of both food products and non-food products remains subject to the requirements of subpart M of Part 130 or subpart I of Part 140, with respect to the sale of the food products.

The rules for the establishment of categories are now contained in § 150.305. This section is very similar to the corresponding section in the proposed rules. A change has been made in paragraph (b) to clarify the Council's intent that if, because of a retailer's or wholesaler's normal accounting and management practices, it could not group its items into the categories listed in Appendix A, it may form merchandise categories of all related items sold within the same general description and include those categories in its merchandise pricing plan. A sentence has been added to paragraph (d) of this section setting forth the rule for computing CIPM's or gross margins for manufacturing or service activities. In the case of manufacturing activities, CIPM's or gross margins shall be computed on the basis of direct material costs, and in the case of service activities they shall be computed on the basis of direct material and labor costs.

Section 150.306 specifies what must be put into a merchandise pricing plan for price category I and price category II firms. This section, too, is very similar to the corresponding section in the proposed rules, with the added recognition of CIPM's as an allowable basis for control. Paragraph (a) (4) has been amended to make clear that a retailer or wholesaler selling many different products need not include a list of all of those products in its merchandise pricing plan, but rather may list them by product line.

A new § 150.307 has been added pertaining to the merchandise pricing plans of firms selling both food and non-food products. As stated above, this subpart does not apply to the retailing or wholesaling of food products subject to subpart M of part 130 or subpart I of part 140. Therefore, to the extent possible a retailer's or wholesaler's categories should not include meat or other food products, but rather should be limited to nonfood items. If, however, because of the firm's customary pricing practices, it is impossible to separate the food and non-food items, the food products may be included in the firm's merchandise pricing plan. However, notwithstanding their inclusion in a merchandise pricing plan, food products remain subject to the pricing rules of subpart M of part 130 and subpart I of part 140.

Section 150.308 pertaining to incomplete and nonconforming plans has been modified in two ways. The corresponding proposed regulations implied that immediately upon receipt of notification by the Council that a firm's merchandising pricing plan is not acceptable a firm could no longer increase any prices. This provision has been clarified to state that the Council shall determine on a case-by-case basis whether a retailer or wholesaler shall be prohibited from making price increases pending the submission of an acceptable merchandise plan, and shall notify the firm of its determination.

Paragraph (b) of this section allows the Council, in certain situations, to order a reduction of prices to adjusted freeze prices (rather than to base prices as stated in the proposed regulations).

Proposed regulation 150.308 has been renumbered 150.309 and retitled. As proposed, this section provided that once a firm's merchandise pricing plan has been approved by the Council, the firm must use the specified CIPMs or gross margins in controlling its prices and in filing the reports required by the Council. As restated, this section provides that the firm must begin controlling its prices according to the plan as soon as it is submitted.

Proposed regulation 150.309 has been renumbered 150.310. This section is substantively the same as the proposed section, with the appropriate amendment to reflect the use of CIPMs.

§ 150.311 contains the reporting requirements and is different from the proposed regulation. Under this section, quarterly reports for price category I and price category II firms must be filed within 45 days after the end of each fiscal quarter and the year-end report must be filed within 90 days after the end of each fiscal year. The annual reporting requirement for price category III firms has been deleted.

§ 150.312 is a new provision. This section addresses three problems that may be experienced by retailers and wholesalers in complying with the provisions of this subpart. The first problem is one which may arise if a firm is unable to exclude exempt items from its merchandise categories. In such a case, if a retailer or wholesaler exceeds his allowable CIPMs or gross margins for a category, the Council shall excuse the overage to the extent that the firm can demonstrate that the overage is attributable to the sale of exempt items. The second problem involves prices specified in contracts entered into prior to 9:00 p.m., e.s.t., June 13, 1973, under which performance occurs after August 12, 1973 and before January 1, 1973. This section provides that to the extent that a retailer or wholesaler can demonstrate that an overage in his allowable CIPMs or gross margins is attributable to the charging of such prices, the Council will excuse that overage. The third problem is one created by temporary unforeseen changes in product mix. In this case, the Council may take into account such temporary unforeseen changes in product mix in determining whether a retailer or wholesaler is in violation of the limitations prescribed in § 150.304(c) (1) or (2).

Finally, § 150.313 provides for the repurification of quarterly violations. A new paragraph has been added providing for the repurification of fiscal year and fourth quarter violations. This section has also been modified to reflect CIPMs in addition to gross margins.

Subpart P—Mass transportation systems. Subpart P has not been changed from the version found in the Notice of Proposed Rulemaking except for minor technical changes.

In consideration of the foregoing, Part 150 of Title 6 of the Code of Federal Regulations is amended by adding the subparts which are set forth below, effective August 13, 1973.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11695, 38 FR 1473, E.O. 11730, 38 FR 19345, Cost of Living Council Order No. 14, 38 FR 1489)

Issued in Washington, D.C. on August 6, 1973.

JOHN T. DUNLOP,
Director, Cost of Living Council.

PART 150—COST OF LIVING COUNCIL PHASE IV PRICE REGULATIONS

Subpart A—General

Sec.
150.1 Scope.
150.2 Procedures and remedies applicable to certain Phase II and Phase III matters.
150.3 Adjusted base period profit margins.
150.10 General rules.
150.11 Profit margin limitation.
150.15 Phase III price levels.
150.20 Violations.
150.21 Sanctions.
150.22 Injunctions and other relief.

Subpart B—Definitions

150.31 Definitions.

Subpart C—Classifications

150.41 Price category I firms.
150.42 Price category II firms.
150.43 Price category III firms.
150.44 Applicability.

Subpart D—Exemptions

150.51 General.
150.52 Agricultural products, seafood products, and raw sugar price adjustments.
150.53 Real estate and insurance premiums.
150.54 Certain price adjustments.
150.55 Miscellaneous.
150.56 Public utilities.
150.60 Small businesses: Exemption of firms with 60 or fewer employees.

Subpart E—Manufacturing and Service Activities

150.71 Scope.
150.72 Definitions.
150.73 Price increases.
150.74 Application of price increases.
150.75 Price reductions.
150.76 Certain contracts.
150.77 Productivity gains.
Appendix Average annual rate of productivity gain by Standard Industrial Classification.

Subpart F—Base Price

150.101 Scope.
150.102 Sales and leases of products and services.
150.103 Sales and leases of new property and new services.
150.104 Custom products and custom services.

Subpart G—Base Cost and Current Cost

150.131 Scope.
150.132 Base cost.
150.133 Current cost.

Subpart H—Prenotification and Reporting

150.151 Prenotification.
150.152 Manner of prenotification.
150.153 Measure of the prenotification period.
150.154 Council action.
150.155 Implementation of price increases.
150.156 Volatility.
150.161 Quarterly reports.
150.162 Additional reports and information.
150.163 Effect of failure to file or maintain reports or other documents required by or under certain sections of this part.
150.164 Records.

Subpart I—Accounting and Financial Reporting Requirements

150.171 Comparability for financial data.

Subpart J—Special Rules

150.201 Loss and low profit firms.
150.202 Loss and low base period profit margins.
150.203 Seasonal patterns.
150.204 Marketing cooperatives and market risk-sharing transactions.
150.205 Purchasing cooperatives.
150.220 Stabilization of particular industries and sectors.

Subpart K—Retailers and Wholesalers

150.301 Applicability.
150.302 Definitions.
150.303 Computing customary initial percentage markups and gross margins.
150.304 General price control rules.
150.305 Establishment of categories.
150.306 Merchandise pricing plans; Firms with annual revenues of $50 million or more.
150.307 Merchandise pricing plans; Firms selling both food and non-food products.
150.308 Incomplete and nonconforming plans.
150.309 Merchandise pricing plans; use and modification.
150.310 Merchandise pricing plans; Firms with annual revenues of less than $50 million.
150.311 Reporting.
150.312 Relief from certain category overages.
150.313 Repurification of a quarterly category violation.
Appendix Merchandise categories applicable to retailers and wholesalers.

SUBPARTS L-O—[RESERVED]

Subpart P—Mass Transportation Systems

150.551 Purpose and scope.
150.552 Definition.
150.553 General rule.

AUTHORITY: Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11695, 38 FR 1473; E.O. 11730, 38 FR 19345; Cost of Living Council Order No. 14, 38 FR 1489.

Subpart A—General

§ 150.1 Scope.

(a) Except as provided in paragraph (b) of this section and in § 150.2, this part supersedes the price rules in Parts 130 and 140 of this chapter, effective 11:59 p.m., e.s.t., August 12, 1973.

(b) The price rules of Part 130 of this chapter remain effective until 11:59 p.m. e.s.t. September 12, 1973, with respect to sales of food subject to Subpart F of that part and with respect to sales of meat subject to Subpart M of that part. Part 140 of this chapter also remains effective with respect to sales of food and meat subject to Subpart I of that part until 11:59 p.m., e.s.t., September 12, 1973.

(c) Any report required to be filed with the Council under Part 130 or any rule, order or regulation of the Council in effect on August 12, 1973 for any reporting period which ended on or before that date and which was not filed by that date, shall be filed with the Council in the form and within the time in which it would have been filed pursuant to Part 130 of this chapter. Forms required to be completed and placed among the records of a firm on a quarterly basis pursuant to Part 130 for any quarter which ended prior to August 13, 1973, shall be completed and filed among the firm's records in the form and within the time in which

V 38-153 AUG 9 73 XUM

it would have been required to be so filed pursuant to Part 130 of this chapter.

(d) Price renegotiation provisions in price or rent contracts which depend for their operation upon the modification or termination of the Economic Stabilization Program, were previously declared to be inoperative as unreasonably inconsistent with the goals of the Economic Stabilization Program. Such renegotiation provisions continue to be inoperative on the same ground. This part shall not operate to permit:

(1) A retroactive increase in prices or rents for goods or services sold or leased while those prices or rents were subject to past or present provisions of this title, or

(2) A prospective increase in prices or rents under the terms of a contract subject to a decision and order issued at any time pursuant to this title, except to the extent consistent with such decision and order.

(e) This part does not apply to economic transactions which are not prices within the meaning of the Act. Examples of transactions not within the meaning of the Act are:

(1) State or local income, sales and real estate taxes;

(2) Workmen's compensation payments;

(3) Welfare payments;

(4) Child support payments; and

(5) Alimony payments.

(f) The Council may permit any exceptions, exemptions or reclassification that it considers appropriate with respect to the requirements prescribed in this part. Requests for exceptions or exemptions from the requirements of this part shall be submitted in accordance with the provisions of Part 105 of this chapter.

(g) This part applies to:

(1) Economic units and transactions in the several States and the District of Columbia; and

(2) Sales of goods and services by firms in the several States and the District of Columbia to firms in the Commonwealth of Puerto Rico.

§ 150.2 Procedures and remedies applicable to certain Phase II and Phase III matters.

(a) Paragraphs (a) and (b) of § 130.7 of this chapter remain effective with respect to Phase II matters.

(b) The procedures and remedies under Part 130 of this chapter remain in effect with respect to all matters which were subject to that part before August 13, 1973, and with respect to all matters referred to in § 150.1(c).

(c) The procedures and remedies specified in Subparts E through H of Part 140 of this chapter remain in effect with respect to all matters which were subject to that part before August 13, 1973.

§ 150.3 Adjusted base period profit margins.

Any firm which has been authorized to adjust its base period profit margin pursuant to an exception granted under the authority of the Economic Stabilization Program prior to August 13, 1973 may continue to calculate its base period profit margin pursuant to that exception notwithstanding any other provision of this part.

§ 150.10 General rules.

(a) No firm (including an individual) may charge a price with respect to any sale or lease of an item after August 12, 1973, which exceeds the base price, adjusted freeze price or other price authorized under this part for that item.

(b) No firm (including an individual) may knowingly pay a price with respect to any sale or lease of an item which exceeds the base price, adjusted freeze price or other price authorized under this part for that item. However this paragraph does not apply to the sale or lease of an item to any firm (including an individual) under circumstances of economic or other coercion in which the buyer or lessee, because of his need for that property or service, had no reasonable alternative but to pay the illegal price, and he reports the sale or lease to the International Revenue Service for investigation promptly.

(c) No firm (including an individual) may take retaliatory action against any other firm (including an individual) that files or manifests an intent to file a complaint of alleged violation of, or that otherwise exercises any rights conferred by, the Economic Stabilization Act of 1970, as amended, any provision of this part, or any order issued under this Act. For the purposes of this paragraph, "retaliatory action" means any action contrary to the purpose or intent of the Economic Stabilization Program and may include a refusal to continue to sell or lease, any reduction in quality, any reduction in quantity of services or products customarily available for sale or lease, any violation of privacy, any form of harassment, or any inducement of others to retaliate.

§ 150.11 Profit margin limitation.

(a) *Scope.* A firm shall compute a single profit margin for all of its manufacturing, service, retailing and wholesaling activities except where particular regulations under this part (such as Subpart N, Construction) require separate computation of a profit margin. For the purposes of this section, a firm is either (1) a parent and its consolidated entities or (2) an unconsolidated entity.

(b) *Applicability.* This section applies to all activities of a firm, including manufacturing, service, retailing and wholesaling, except those activities subject to particular regulations under this part (such as Subpart N, Construction) which require computation of a separate profit margin.

(c) *General rule.* Except as otherwise provided by this section, a firm which, with respect to its manufacturing or service activities, charges a price for any item in excess of the base price for that item in any fiscal year, or with respect to its retailing or wholesaling activities, charges a price for any item in excess of the adjusted freeze price for that item in any fiscal year, may not for the fiscal year in which the price increase is charged, exceed its base period profit margin.

(d) *Special rules.* (1) A firm which does not charge a price for any item in excess of the adjusted freeze price for that item is not subject to a profit margin limitation with respect to the first fiscal year ending after August 12, 1973.

(2) The charging of an allowable price or prices pursuant to § 150.76 and § 150.312(b) does not subject the firm which charges that price or those prices to a profit margin limitation.

(3) The charging of a price for a custom product or custom service pursuant to § 150.104 of this part does not subject the firm which charges that price to a profit margin limitation with respect to the first fiscal year ending after August 12, 1973, if its sales or revenues derived from the sale or lease of custom products and custom services amount to less than $10 million or less than 1 percent of its annual sales or revenues for that fiscal year, whichever is greater.

(e) *Exclusion.* A firm which during its most recent fiscal year derived both (1) 90 percent or more of its annual sales or revenues from the sales of exempt items or from exempt sales and (2) less than $50 million of its annual sales and revenues from the sale or lease of nonexempt items, is not subject to a profit margin limitation for the next ensuing fiscal year.

(f) *Relief from profit margin averages.* If a firm's activities subject to the profit margin limitations of this section include both items exempt under Subpart D and nonexempt items and the firm exceeds the profit margin limitations of this section, the Cost of Living Council shall for purposes of determining compliance with this section, excuse the overage to the extent the firm can demonstrate that the overage is attributable to the sale of exempt items.

§ 150.15 Phase III price levels.

Nothing in this part shall be construed as waiving or foreclosing the right of the Council pursuant to Subpart J of Part 130 of this Chapter to challenge Phase III price increases, whether charged or contracted for; or the right to seek or impose sanctions, remedial orders, or other relief pursuant to Subparts E, F, or G of Part 140 of this Chapter with respect to Phase III freeze matters.

§ 150.20 Violations.

Any practice which constitutes a means to obtain a price higher than is permitted by the regulations in this part is a violation of the regulations in this part. Such practices include, but are not limited to, devices making use of inducements, commissions, kickbacks, retroactive increases, transportation arrangements, premiums, discounts, special privileges, tie-in agreements, trade understandings, falsification of records, substitution of inferior commodities or failure to provide the same services and equipment previously sold.

§ 150.21 Sanctions.

(a) Whoever willfully violates any order or regulation under this part shall be subject to a fine of not more than $5,000 for each violation.

(b) Whoever violates any order or regulation under this part shall be subject to a civil penalty of not more than $2,500 for each violation.

§ 150.22 Injunctions and other relief.

Whenever it appears to the Council that any person has engaged, is engaged, or is about to engage in any acts or practices which constitute particularly flagrant violations of any order or regulation issued under this part, the Council may immediately request the Attorney General to bring an action in the appropriate district court of the United States to enjoin such acts or practices. The relief sought may include a mandatory injunction commanding any person to comply with any such order or regulation and restitution of moneys received in violation of any such order or regulation.

Subpart B—Definitions

§ 150.31 Definitions.

"Act" means the Economic Stabilization Act of 1970, as amended.

"Adjusted freeze price" means with respect to manufacturing and service activities the adjusted freeze price as defined in § 150.72 and with respect to wholesaling and retailing activities the adjusted freeze price as defined in § 150.302.

"Allowable cost" means any cost direct or indirect, unless disallowed by the Cost of Living Council.

"Annual sales or revenues" means the total gross receipts of a firm during its most recently completed fiscal year, from whatever source derived, except that it does not include gross receipts of or from a foreign branch or division of such a firm, or the gross receipts of or from a wholly or partially owned foreign entity such as a corporation, partnership, joint venture, association, trust, or subsidiary, if the gross receipts of such foreign entity, branch, or division are derived primarily from transactions with other foreign firms. A foreign entity, branch, or division is one located outside the several States and the District of Columbia. However, gross receipts of domestic entities from U.S. export sales and from sales to firms in the Commonwealth of Puerto Rico are included in the determination of annual sales or revenue.

"Base cost" means the base cost as determined pursuant to Subpart G.

"Base cost period" means the base cost period as determined pursuant to Subpart G.

"Base period" means any two, at the option of the firm concerned, of that firm's fiscal years ending after August 15, 1968 except a fiscal year for which compliance is being measured.

"Base period profit margin" means the ratio that the base period operating income (net sales less cost of goods sold and less normal and generally recurring costs of business operations including interest expense on long and short term debt determined before nonoperating items, extraordinary items, and income taxes) bears to the base period net sales as those net sales were reported on the firm's financial statement, or its financial statement as restated pursuant to Subpart I prepared in accordance with generally accepted accounting principles consistently applied. For purposes of computing a base period profit margin, revenues and costs of items and sales exempt pursuant to §§ 150.52, 150.53 (b), 150.54(d)(3) and (4) and 150.56 and revenues and costs attributable to insurance transactions subject to Subpart M shall be excluded. If a firm uses for its base period, a fiscal year ending after August 15, 1971 and prior to January 11, 1973, for which the firm exceeded a profit margin limitation imposed pursuant to the provisions of Part 300 of this title, in effect on January 10, 1973, it shall reduce its operating income for that fiscal year to the level of operating income it would have obtained for that fiscal year had it been in compliance with that Part 300 profit margin restraints.

"Base price" means the base price as determined pursuant to Subpart F.

"Base price period" means the base price period as determined pursuant to Subpart F.

"Class of purchasers" means purchasers or lessees to whom a person has charged a comparable price for comparable property or service during the base price period pursuant to customary price differentials between those purchasers or lessees and other purchasers or lessees.

"Council" means the Chairman of the Cost of Living Council established by Executive Order 11615 (3 CFR, 1971 Comp., P. 199) and continued under the provisions of Executive Order 11695, or his delegate.

"Current cost" means the current cost as determined pursuant to Subpart G.

"Current cost period" means the current cost period determined pursuant to Subpart G.

"Customary price differential" includes a price distinction based on a discount, allowance, add-on, premium, and an extra based on a difference in volume, grade, quality, or location or type of purchaser, or a term or condition of sale or delivery.

"Firm" means any association, company, corporation, estate, individual, joint-venture, partnership, or sole proprietorship or any other entity however organized including charitable, educational, or other eleemosynary institutions, and the Federal government including corporations, departments, Federal agencies, and other instrumentalities, and State and local governments. The Council may, in regulations and forms issued in this part, treat as a firm: (1) A parent and the consolidated and unconsolidated entities (if any) which it directly or indirectly controls, (2) a parent and its consolidated entities, (3) an unconsolidated entity, or (4) any part of a firm.

"Fiscal quarter" means the fiscal quarter of the firm to which a regulation containing the term applies.

"Fiscal year" means the fiscal year of the firm to which a regulation containing the term applies. It is a consecutive 12-month period constituting an accounting year.

"Item" means a product or service unit sold, leased or offered for sale or lease to a class of purchaser.

"Lease" means a contract whereby a person having a legal estate in any personal property conveys a part of his interest to another person in consideration of rent or other compensation, but does not include a license.

"Manufacturing" means the trade or business of making, fabricating, or assembling a product or commodity by manual labor or machinery for sale and also includes the mining of natural deposits, the production or refining of oil from wells, and the refining of ores.

"Nonprofit organization" or one which is "not operated for profit" is a firm which is defined as a nonprofit organization in section 501(c) and is exempt under section 501(a) of the Internal Revenue Code of 1954, as amended.

"Parent" means a firm which is not directly or indirectly controlled by another firm.

"Parent and its consolidated entities" means a parent and those firms, if any, directly or indirectly controlled by the parent which are consolidated with the parent for purposes of financial statements prepared in accordance with generally accepted accounting principles. An individual shall be deemed to control a firm which is directly or indirectly controlled by him or by his father, mother, spouse, children or grandchildren.

"Prenotification" means notice submitted to the Cost of Living Council pursuant to the provisions of Subpart H.

"Price" means any consideration for the sale or lease of any property or services and includes rent, commissions, dues, fees, margins, rates, charges, tariffs, fares, or premiums, regardless of form.

"Price adjustment" means the weighted average of all price increases and price decreases within a product line or service line.

"Price increase" means an increase in the unit price of an item or a decrease in the quality of substantially the same item.

"Product" means a unit of personal property offered for sale to another person.

"Product line" means (a) a product or (b) an aggregation of products categorized by a four-digit Standard Industrial

V 38-153 AUG 9 73 XUM

Classification (SIC) code if that is the customary pricing unit (e.g., cost or profit center) with respect to that aggregation of products. An aggregation of products which includes more than one four-digit SIC code or an aggregation of products of less than one four-digit SIC code may be used provided the level of aggregation reflects the entity's customary pricing unit (e.g., cost or profit center) with respect to that level of aggregation chosen.

"Profit margin" means the ratio that operating income (net sales less cost of goods sold and less normal and generally recurring costs of business operations, interest expense on long and short term debt determined before non-operating items, extraordinary items, and income taxes) bears to net sales as reported on the firm's financial statement or its financial statement as restated pursuant to Subpart I prepared in accordance with generally accepted accounting principles consistently applied. For purposes of computing a profit margin, revenues and costs of items and sales exempt pursuant to §§ 150.52, 150.53(b), 150.54(d)(3) and (4) and 150.56 and revenues and costs attributable to insurance transactions subject to the provisions of Subpart M, shall be excluded.

"Public utility" means a firm or that part of a firm which regularly furnishes the public or a recognized segment of the public with a commodity or service which is of public consequence and need whether or not that firm is under the jurisdiction of a regulatory agency, including gas, electric, telephone, telegraph, public transportation by vehicle or pipeline, water, and sewage disposal services.

"Real estate with improvements" means land upon which there is a structure, dwelling, or other building. It does not mean land on which roads, water, sewer, or drainage facilities have been constructed.

"Rent" means any price for the use of personal property of any description, including any charge no matter how identified in a lease or other agreement, for the use of any property or for any service in connection with the use of leased property.

"Retailing" means the trade or business of purchasing property and, without substantially changing the form of that property, reselling it to ultimate consumers.

"Sale" includes exchange, transfer, or other disposition in return for valuable consideration.

"Security" means any note, stock, treasury stock, bond, debenture, evidence of indebtedness, certificate of interest or participation in any profit-sharing agreement, collateral-trust certificate, preorganization certificate or subscription, transferable share, investment contract, voting-trust certificate, certificate of deposit for a security, fractional undivided interest in oil, gas, or other mineral rights or any financial or net leases as defined in § 163(d)(4)(A) of the Internal Revenue Code of 1954, as amended, or, in general, any interest or instrument commonly known as a "security", or any certificate of interest or participation in temporary or interim certificate for, receipt for, guarantee of, or warrant or right to subscribe to or purchase, any of the foregoing.

"Service" includes any work or activities performed by a firm for a person, other than in an employment relationship, and also includes professional work or activities of any kind and work or activities performed by membership organizations for which dues are charged, and the leasing or licensing of property to another person.

"Service line" means (a) a service, or (b) an aggregation of services categorized by a four-digit Standard Industrial Classification (SIC) code if that is the customary pricing unit (e.g., cost or profit center) with respect to that aggregation of services. An aggregation of services which includes more than one four-digit SIC code or an aggregation of services of less than one four-digit SIC code may be used provided the level of aggregation reflects the entity's customary pricing unit (e.g., cost or profit center) with respect to that level of aggregation chosen.

"Service activities" means the trade or business of selling or making available services, including professional service organizations, nonprofit organizations, governments, and government agencies or instrumentalities which carry on those activities.

"State and local governments" means the several States and the District of Columbia, a municipality or other political subdivision, authority, commission, board, district, public corporation or other agency or instrumentality of the several States and the District of Columbia and any board, commission, agency, or other instrumentality of a local government.

"Transaction" means an arms-length sale or lease between unrelated persons and is considered to occur at the time of shipment in the case of products and the time of performance in the case of services.

"Unconsolidated entity" means a firm directly or indirectly controlled by a parent but not consolidated with the parent for purposes of financial statements prepared in accordance with generally accepted accounting principles. An unconsolidated entity includes any firm consolidated with the unconsolidated entity for purposes of financial statements prepared in accordance with generally accepted accounting principles. An individual shall be deemed to control a firm which is directly or indirectly controlled by him or by his father, mother, spouse, children or grandchildren.

"United States" means the several States and the District of Columbia.

"Unrelated person" means a person other than a person described in section 267(b) of the Internal Revenue Code of 1954, as amended.

"Wholesaling" means the trade or business of purchasing property and, without substantially changing the form of that property, reselling it to retailers for resale or to industrial, commercial, institutional, or professional business users.

Subpart C—Classifications

§ 150.41 Price category I firms.

A price category I firm is a firm with annual sales or revenues of $100 million or more.

§ 150.42 Price category II firms.

A price category II firm is a firm with annual sales or revenues of at least $50 million but less than $100 million.

§ 150.43 Price category III firms.

A price category III firm is a firm with annual sales or revenues of less than $50 million.

§ 150.44 Applicability.

For purposes of this subpart, a firm includes a parent and the consolidated and unconsolidated entities which it directly or indirectly controls.

Subpart D—Exemptions

§ 150.51 General.

(a) Price adjustments with regard to the items and sales described in this subpart are exempt from the price adjustment requirements prescribed in this part. However, revenues received from the sale of exempt items or from exempt sales are included in a firm's annual sales or revenues, as defined in § 150.31, for all purposes including determinations of price category classification and except as provided in Subpart B for purposes of computing profit margin.

(b) Small business firms which meet the qualifications prescribed in § 150.60 are exempt from and not included in the coverage of this part.

§ 150.52 Agricultural products, seafood products, and raw sugar price adjustments.

(a) *General.* Subject to paragraph (b) of this section, the sale of agricultural products which retain their original physical form and have not been processed is exempt. Processed agricultural products are products which have been canned, frozen, slaughtered, milled, or otherwise changed in their physical form. Packaging is not considered a processing activity. Examples:

Exempt	*Nonexempt*
Live cattle, calves, hogs, sheep, and lambs.	Carcasses and meat cuts.
Live poultry.	
Sheared or pulled wool.	Wool products.
	Processed and blended honeybutter product.
Mohair.	
Hay: Bulk, pelleted, cubed, or baled.	Dehydrated alfalfa meal or alfalfa meal pellets.
Wheat.	Flour.
Sugar beets and sugar cane.	Refined sugar.
Maple sap.	
All seeds for planting.	Seeds processed for other uses.
Raw coffee bean.	Roasted coffee bean.
	Canned and frozen vegetables.
	Dill pickles.
	Packaged slaw.
	Popped popcorn.
Feed grains including:	
Corn.	Mixed feed.
Sorghum.	Cracked corn.
Barley.	Rolled barley.
Oats.	Rolled oats.
Raw milk.	Pasteurized milk and processed products, such as butter, cheese, ice cream.
	Frozen, dried, or liquid eggs.
Soybean.	Soybean meal and oil.
Leaf tobacco.	Cigarettes and cigars.
Baled cotton, cotton seed, cotton lint.	Cotton yarn, cottonseed oil, cottonseed meal.
	Frozen french fries, dehydrated potatoes.
Unmilled rice.	Milled rice.
Raw peanuts: shelled and unshelled.	Roasted, salted, or otherwise processed peanuts.
	Canned or freeze dried mushrooms.
Fresh hops.	
Stumpage or trees cut from the stump.	Millwork.
	Canned fruit or juices.
	Glazed citrus peel.
	Canned grapes, wine.
	Applesauce.
	Canned prunes and prune juice.
	Canned olives.
Garden plants.	Floral wreaths.

(b) *Exempt first sales.* (1) Only the first sale by the producer or grower of those agricultural products which are of a type sold for ultimate consumption in their original physical form is exempt. Examples of these products are:

Shell eggs, packaged or loose.
Raw honeycomb honey.
Fresh potatoes, packaged or not.
All raw nuts—shelled and unshelled.
Fresh mushrooms.
Fresh mint.
Dried beans, peas, and lentils.
Unpopped popcorn.
All fresh vegetables and mellons including:
Tomatoes.
Lettuce.
Sweet corn.
Onions.
Green beans.
Cantaloupe.
Cucumbers.
Cabbage.
Carrots.
Watermelons.
Green peas.
Asparagus.
Pepper.
Broccoli.
Cauliflower.
Spinach.
Green lima beans.
Honeydews.
Escarole.
Garlic.
Artichokes.
Eggplant.
Brussels sprouts.
Beets.
All fresh or naturally dried fruits, packaged or not, including:
Fresh oranges.
Grapes and raisins.
Apples.
Peaches.
Strawberries.
Grapefruit.
Pears.
Lemons.
Plums and prunes.
Cherries.
Cranberries.
Avocados.
Blueberries.
Apricots.
Tangerines.
Olives, uncured.
Nectarines.
Raspberries.
Blackberries.
Figs.
Tangelos.
Limes.
Dates.
Papayas.
Bananas.
Pomegranates.
Currants.
Persimmons.
Cut flowers.

(2) The first sale by (i) a producer of broilers or turkeys or (ii) a producer or fisherman of raw seafood or fresh water products including those which have been shelled, shucked, iced, skinned, scaled, eviscerated, or decapitated is exempt.

(3) The first sale of the following items are exempt:

(i) mint oil,

(ii) maple syrup or sugar,

(iii) dehydrated fruits.

(c) *Raw sugar prices.* Raw sugar price adjustments which are controlled under the Sugar Act of 1948, as amended, are exempt.

§ 150.53 Real estate and insurance premiums.

(a) *Real estate.*—(1) *Sales.* The sales price of the following sales of real estate are exempt.

(i) Unimproved real estate.

(ii) Real estate with improvements completed prior to August 15, 1971.

(iii) Real estate with improvements completed on or after August 15, 1971, if—

(A) The sales price is determined after the completion of construction; or

(B) The sales price is determined before the completion of construction and the wage rates estimated by the builder at the time the price is determined are not subsequently reduced by any action under the Economic Stabilization Program.

(2) *Rentals.* All rent charged for the rental of real property, except for rent charged by a gasoline manufacturer for the rental of a retail gasoline station to a retailer of gasoline, are exempt.

(b) *Insurance premiums.* (1) Premiums charged for the following lines of insurance purchased or renewed after November 13, 1971, are exempt.

(i) Reinsurance of all kinds.

(ii) Ocean marine insurance.

(iii) Inland marine insurance on a bid basis applicable to facilities of transportation and communication.

(iv) Life insurance, annuities, and endowments (including individual and group contracts of: Ordinary and term life insurance, fixed and variable annuities, and endowments of all kinds); but excluding credit life insurance of any kind.

(v) Individually negotiated and rated insurance contracts written in excess of a self-insured retention of at least $100,000.

(2) Premiums charged for the following sublines of aviation insurance purchased or renewed after September 1, 1972, are exempt.

(i) Hull insurance.

(ii) Liability insurance for bodily injury (excluding passenger hazard) caused by an aircraft.

(iii) Liability insurance for property damage caused by an aircraft.

§ 150.54 Certain price adjustments.

(a) *Federal and State and local governments.* (1) Prices charged for any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration, or similar thing of value or utility, (other than postal rates) performed, furnished, provided, granted, prepared, issued, or transferred by any Federal department, agency, or other instrumentality including any wholly owned Government corporations as defined in the Government Corporation Control Act of 1945, as amended, but not including the U.S. Postal Service and the Postal Rate Commission are exempt.

(2) Prices and fees charged by State and local governments for any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration, facilities, materials, or similar thing of value or utility, performed, furnished, provided, granted, prepared, issued, or transferred including tuition and other charges for schools, colleges, and universities owned or operated by a State and local government, are exempt, except, however, that fees or charges for health services (but not health service fees levied on all students as a condition of enrollment) are not exempt under the provisions of this section.

(b) *Tuition fees of private nonprofit educational organizations.* Tuition fees and other charges by private schools, colleges, and universities not operated for profit, are exempt, except that: (1) Fees and charges resulting in income which is subject to tax under Part III of Subchapter F of the Internal Revenue Code of 1954, as amended, as unrelated business taxable income and (2) medical fees and charges, other than a health

V 38-153 AUG 9 73 XUM

service fee levied on all students as a condition of enrollment, are not exempt under the provisions of this section.

(c) *Custom products and services.* (1) The prices charged for the following products when custom made to individual order are exempt.

(i) Leather goods.
(ii) Wigs and toupees.
(iii) Fur apparel.
(iv) Jewelry.

(2) The prices charged for the following custom services when provided to individual order are exempt.

(i) Tailoring of clothing.
(ii) Framing of pictures and mirrors.
(iii) Taxidermy.

(d) *Exports, imports, ocean shipping rates, and foreign air transportation.* (1) The prices charged for export sales including the sale of products to a domestic purchaser who certifies that the product is for export are exempt.

(2) The prices charged for imports, but only the first sale into U.S. commerce are exempt.

(3) The rates charged for international ocean shipping are exempt.

(4) All rates, fares, and charges for foreign air transportation (as defined by the Federal Aviation Act, 49 USC 1301 (21)) which are set forth in tariffs filed with the Civil Aeronautics Board or which are established or approved by the Civil Aeronautics Board are exempt.

(e) *Damaged or used products.* The prices charged for damaged or used products other than products which have been rebuilt, repackaged, baled, reassembled, or otherwise processed are exempt.

(f) *Government property.* (1) The prices charged for abandoned or confiscated property sold by any Federal agency or State and local government pursuant to authorization of a court are exempt.

(2) Prices charged for property sold by the United States, including leasesales are exempt.

(g) *Transactions in gold.* Prices charged for transactions in gold on the domestic market under license from the Secretary of the Treasury pursuant to the Gold Reserve Act of 1934 as amended, and regulations issued pursuant thereto are exempt.

(h) *Securities and financial instruments.* (1) Securities as defined in § 150.31 are exempt.

(2) Commercial paper is exempt.

(3) Commodity futures sold on an organized commodities exchange but not including the commodity (unless otherwise exempt) are exempt.

(i) *Brokerage fees.* Brokerage fees, charged for the purchase or sale of securities or commodity futures are exempt.

(j) *Fees and charges imposed by Indian Tribal Councils.* Prices charged for any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration, commodity, or similar thing of value or utility, performed, furnished, sold, leased, provided, granted, prepared, issued, or transferred by any Indian Tribal Council which is formally recognized by a State or the Federal Government are exempt whether or not all or part of a particular transaction takes place on or off Indian Tribal lands.

(k) *U.S. tanker rates.* Rates for transportation by tank vessels in the coastwise trade are exempt.

(l) *Small retailing or restaurant activities.* Price adjustments of firms with annual sales or revenues of less than $100,000 which are primarily engaged in retailing or restaurant activities are exempt.

(m) *Silver.* Prices charged for (1) commercial grade silver in refining shapes, (2) silver content in ores and dore, (3) silver coins, and (4) other forms of silver sold for manufacturing or professional uses are exempt.

(n) *Long-term coal contracts.* Prices charged for coal under any contract to provide coal over a period of at least five years to a public utility are exempt.

(o) *Lumber.* Prices charged for lumber or wood products described in the Standard Industrial Classification Manual, 1972 edition, under Industry Code 2411, 2421, 2426, 2429, 2435, 2436, 2439 or 2492 and hardboard tempered or untempered are exempt.

(p) *Copper scrap.* Prices charged for copper scrap and copper based alloy scrap are exempt.

§ 150.55 Miscellaneous.

(a) Royalties and other payments from the sale of copyrights, manuscripts, and like materials prepared for publication are exempt.

(b) Dues paid to a nonprofit organization are exempt.

(c) The prices charged for the following items are exempt:

(1) Antiques and art objects including paintings, etchings, and sculptures.
(2) Collectors coins and stamps.
(3) Rocks and stone specimens including precious stones and mountings into which precious stones are set.
(4) Handicraft objects.

(d) Price adjustments made by producers or distributors of motion pictures and television productions for motion pictures and television productions are exempt.

§ 150.56 Public utilities.

Rate increases for commodities or services provided by a public utility are exempt.

§ 150.60 Small Businesses: Exemption of firms with 60 or fewer employees.

(a) *Applicability to firms existing on or before March 31, 1973.* (1) *General.* Subject to the provisions of paragraphs (a) (2) and (3) of this section, any firm, existing on or before March 31, 1973, including a local government, with an average of 60 or fewer employees (determined as provided in paragraph (a) (3) of this section) is exempt from and not included in the coverage of this part.

(2) *Exemption not applicable.* The exemption provided for in paragraph (a) (1) of this section shall not be applicable to:

(i) A firm which in its fiscal year ending prior to August 13, 1973, had annual sales or revenues of $50 million or more;

(ii) A firm which on August 12, 1973, was an institutional or noninstitutional provider of health services as defined in Subpart O;

(iii) A firm which on August 12, 1973, was engaged in construction operations as defined in Subpart N;

(iv) A firm, if the pay adjustments immediately preceding August 13, 1973, applicable to or affecting 50 percent or more of its employees, were set by a master employment or other employment contract which was negotiated on a joint or association basis or on an industry, area, group, or other similar basis and which covered more than 60 employees;

(v) A firm which is engaged in the business of selling "covered products" as defined in Subpart L.

(3) *Determination of average number of employees.* The average number of employees for firms in existence on or before March 31, 1973, shall be computed by dividing the sum of the number of employees employed in the pay periods which included September 30, and December 31, 1972, and March 31, and June 30, 1973, by the number of such pay periods for which any such firm was in existence.

(b) *Applicability to firms coming into existence on or after April 1, 1973.*—(1) *General.* Subject to the provisions of paragraphs (b) (2) and (3) of this section, price adjustments of any firm coming into existence on or after April 1, 1973, including a local government, with an average of 60 or fewer employees (determined as provided in paragraph (b) (3) of this section) are exempt from and not included in the coverage of this title.

(2) *Exemption not applicable.* The exemption provided for in paragraph (b) (1) of this section shall not be applicable to:

(i) A firm which at any time during its first four calendar quarters after June 30, 1973, had annual sales or revenues of $50 million or more;

(ii) A firm which at any time during its first four calendar quarters after June 30, 1973, was an institutional or noninstitutional provider of health services as defined in Subpart O;

(iii) A firm which at any time during its first four calendar quarters after June 30, 1973, was engaged in construction operations as defined in Subpart N;

(iv) A firm, if the pay adjustment at any time during its first four calendar quarters after June 30, 1973, applicable to or affecting 50 percent or more of its employees, were set by a master employment or other employment contract which was negotiated on a joint or association basis or on an industry, area, group or other similar basis and which covered more than 60 employees;

(v) A firm which is deemed to have an average of more than 60 employees in any calendar quarter in its first four calendar quarters, including its fourth calendar quarter, after June 30, 1973;

(vi) A firm which is engaged in the business of selling "covered products" as defined in Subpart L.

(3) *Determination of average number of employees.* The average number of employees for firms coming into existence on or after April 1, 1973, shall be computed as follows:

(i) For its first calendar quarter after June 30, 1973, the average number of employees shall be deemed to be 60 or fewer until such time as the number of employees in that first calendar quarter after June 30, 1973, exceeds 60;

(ii) If the firm was deemed to have an average of 60 or fewer employees in the pay period which included the last day of its first calendar quarter after June 30, 1973, it shall be deemed to have 60 or fewer employees during its second calendar quarter after June 30, 1973;

(iii) A firm shall compute its average number of employees for its third calendar quarter after June 30, 1973, by dividing by two the sum of the number of employees employed in the pay period which included the last day of its first two calendar quarters after June 30, 1973;

(iv) A firm shall compute its average number of employees for its fourth calendar quarter after June 30, 1973, by dividing by three the sum of the number of employees employed in the pay period which included the last day of its first three calendar quarters after June 30, 1973; and

(v) If the firm's average number of employees was deemed to be 60 or fewer for its first four calendar quarters after June 30, 1973, its average number of employees shall be permanently established for the purpose of this paragraph by dividing by four the sum of the number of employees employed in the pay period which included the last day of its first four calendar year quarters after June 30, 1973.

(c) *Definitions.* As used in this section—

"Employee" means any person residing in and employed in the several States or the District of Columbia for whom an employer is required to pay taxes imposed pursuant to the Federal Insurance Contributions Act, 1939, as amended, 26 USC 3101 (FICA), and any person otherwise excluded from FICA coverage, who (1) performs services for any firm as an agent-driver, or commission-driver engaged in the distribution of milk for his principals; or (2) is defined as an "employee" in 26 USC 3121(d).

"Local government" includes any town, village, city, or similar entity which was incorporated by authority of the State and which has and exercises local legislative powers, and any county, town, township, or similar entity which is a subdivision of the State or county and which possesses and exercises some powers of local self-government; any school district which is an independent governmental unit and any special district classified as an independent governmental unit created for the sole purpose of performing one or more municipal functions. An "independent governmental unit" is one which meets the criteria for classifying governmental units used by the Department of Commerce, U.S. Bureau of the Census, in the 1967 Census of Governments, "Governmental Organizations," beginning at p. 13.

Subpart E—Manufacturing and Service Activities

§ 150.71 Scope.

(a) Except as otherwise provided in this part, this subpart applies to all firms engaged in manufacturing or service activities, or both.

(b) A firm which is subject to this subpart and which is also engaged in wholesaling or retailing, or both, is subject to the requirements of Subpart K of this part with respect to its wholesaling and retailing operations. However, if the sales or revenues derived from wholesaling and retailing activities amounted to both less than $50 million and less than 10 percent of the firm's total manufacturing or service revenues subject to this section in the most recently ended fiscal year, the firm may, at its option, treat its wholesale and retail operations for pricing and reporting purposes as manufacturing or service activities.

§ 150.72 Definitions.

For purposes of this subpart, "Adjusted Freeze Price" of an item means—

(a) the freeze price of that item as defined in § 140.2 of this chapter, except that temporary special sales, deals and allowances in effect during the freeze base period may be excluded in computing the freeze price;

(b) in the case of a seasonal item priced in accordance with § 140.13(d)(2) of this chapter, the highest price lawfully charged for that item before August 13, 1973, except that when that price is reduced to the nonseasonal price as required by § 140.13(e) of this chapter that reduced price becomes the adjusted freeze price for that item;

(c) in the case of an imported item priced in accordance with § 140.14 of this chapter, the highest price lawfully charged for that item before August 13, 1973; and

(d) in the case of an item priced pursuant to an exception granted pursuant to Subpart H of Part 140 of this chapter, the highest price lawfully charged for that item before August 13, 1973.

§ 150.73 Price increases.

(a) Any price may be charged for an item which does not exceed the adjusted freeze price of that item or the base price of that item, whichever is higher.

(b) In cases where the adjusted freeze price is in excess of the base price, a price in excess of the adjusted freeze price of an item may be charged only if the full extent of the price charged above the base price, including all incremental price increases charged after the last day of the base price period, is cost-justified in accordance with paragraph (c) of this section and the requirements of §§ 150.74, 150.75, 150.77 and 150.11 have been met.

(c) In cases where the base price is in excess of the adjusted freeze price, a price in excess of the base price of an item in a product line or service line may be charged only to recover on a dollar-for-dollar basis those net increases in allowable costs that have been incurred with respect to that product line or service since the base cost period and which the firm concerned continues to incur, subject to §§ 150.74, 150.75, 150.77 and 150.11.

(d) For the purpose of determining whether net allowable costs have been incurred which permit the charging of a price in excess of the base price, base costs shall be compared with current costs. Current costs which exceed base costs may be used to justify a price in excess of the base price.

§ 150.74 Application of price increases.

(a) A price category I firm which is subject to the prenotification requirements of Subpart H of this part may not increase prices pursuant to this subpart until it complies with those requirements.

(b) A firm which is authorized to charge a prenotified percentage price increase pursuant to Subpart H of this part, and any other firm which qualifies to charge a percentage price increase with respect to a product line or service line by virtue of cost justification determined in accordance with this part, shall apply that percentage price increase on a weighted average basis (in accordance with instructions which accompany forms issued pursuant to Subpart H of this part) so that, for any fiscal quarter, the weighted average of all price increases and price decreases in that line does not exceed that percentage price increase. However, the maximum price which may be charged for any one item in that line may not exceed 110 percent of the base price or 110 percent of the adjusted freeze price of that item (whichever is greater) plus the amount which results from multiplying the base price or the adjusted freeze price of that item (whichever is greater) by the percentage of cost justification determined in accordance with this part with respect to that product line or service line.

§ 150.75 Price reductions.

A price charged in excess of the highest price authorized by § 150.73(a) may continue to be charged only as long as the net increases in allowable costs which support that price in excess of the highest price authorized by § 150.73(a) continue to be incurred. Price reductions shall be made whenever and to the extent necessary to assure that, for any fiscal quarter, the weighted average of all price increases and price decreases in a product line or service line does not exceed the percentage of cost justification for that line.

§ 150.76 Certain contracts.

The price or prices specified in a contract for the sale of an item entered into before 9 p.m., e.s.t., June 13, 1973, with respect to any delivery or performance

V 38 - 153 AUG 9 73 XUM

occurring after August 12, 1973, and before January 1, 1974, shall be allowable notwithstanding § 150.73.

§ 150.77 Productivity gains.

(a) *Calculation of productivity gains: Manufacturing activities*—(1) *General.* Increases in allowable costs shall be reduced to reflect productivity gains. For the purposes of determining whether a price may be increased under any provision of this part with respect to manufacturing activities, productivity gains shall be calculated on the basis of the average percentage gain in the applicable industrial category, as set forth in the table in Appendix A to this subpart. To the extent provided in the table in Appendix A, productivity gains shall be taken into account in the calculation of all price increases during any fiscal year but only until the full productivity offset, derived from Appendix A and calculated under paragraph (a)(2) of this section, has been used within that fiscal year.

(2) *Calculation.* (i) For the purposes of determining the extent to which a price increase is justified, each firm engaged in manufacturing shall calculate the sum of all of its labor costs (of the type required to be included as costs in reporting and prenotification forms issued pursuant to Subpart H of this part, whether or not such forms are required to be filed) as a percentage of sales for the product line concerned, and shall multiply that percentage by the average annual rate of productivity gain for the applicable industrial category, as set forth in the table in Appendix A to this subpart. The result is the productivity gain, stated as a percentage, by which the total cost increase must be reduced in order to be an allowable cost for the purposes of a price increase under this part.

(ii) If the product line concerned extends to more than one industrial category, the average percentage gain in productivity in each category must be weighted in proportion to the ratio which its estimated sales in each industrial category for the most recently completed fiscal quarter bears to the total sales of that product line for that quarter.

(3) *Subsidiaries, etc., not included.* This paragraph does not apply to a wholesale, retail or service subsidiary, division, affiliate, or similar entity that is a part of, or is directly or indirectly controlled by, a firm engaged in manufacturing.

(b) *Calculation of productivity gains: service activities.* For the purpose of determining the extent to which a price increase is justified, each firm engaged in service activities shall reduce increases in costs to reflect productivity gains in accordance with instructions which accompany forms issued pursuant to Subpart H of this part.

APPENDIX TO SUBPART E

AVERAGE ANNUAL RATE OF PRODUCTIVITY GAIN BY STANDARD INDUSTRIAL CLASSIFICATION (SIC)

	SIC (1967*)	Rate (%)**
Iron ores	101	3.9

FOOTNOTES

*The Standard Industrial Classification Codes (SIC) shown in this Appendix were taken from the Standard Industrial Classification Manual, 1967, which now is out of print. Copies of the 1972 manual are available from the U.S. Government Printing Office, Washington, D.C. 20402 (at a cost of $6.75 per copy). Appendix C of the 1972 manual contains the tables to convert 1972 SIC Codes to 1967 SIC Codes.

**Least-linear trend calculation of annual rate of productivity change over twelve years, 1958-1969.

NOTE: NEC means "Not Elsewhere Classified."

Subpart F—Base Price

§ 150.101 Scope.

This subpart sets forth the general rules which apply for determining base prices except as otherwise provided by this part.

§ 150.102 Sales and leases of products and services.

(a) *General rule.* The base price with respect to the sale or lease of an item is the average price at which the item was lawfully priced in transactions with the class of purchaser concerned during the base price period. The base price shall be determined in accordance with this subpart notwithstanding the fact that the base price so determined may be lower than the price prevailing on May 25, 1970.

(b) *Average price.* The average price is determined by dividing the net sales of that item to that class of purchaser by the quantity of the item sold or leased to that class of purchaser during the base price period. If the base price for an item cannot reasonably be calculated because of substantial price differentials with respect to that item, any accepted sampling method, consistently applied, may be used to calculate the base price of that item as long as the firm can demonstrate that the sampling method chosen does not result in a base price which is significantly higher than the base price determined in accordance with the preceding sentence.

(c) *Base price period.* The base price period is the last fiscal quarter which

V 38-153 AUG 9 73 XUM

ended before January 11, 1973. If no transaction occurred during that quarter with respect to the item and class of purchaser concerned, the base price period is the next preceding fiscal quarter in which a transaction occurred with respect to that item and class of purchaser.

(d) *Temporary specials.* Prices charged pursuant to temporary special deals or temporary special allowances may be excluded in computing the base price of an item. For the purposes of this paragraph, "temporary" means in effect for a period of 31 days or less; "temporary special deal" includes an offer of free goods, a combination sale, increased quantities, an introductory offer, and a "cents-off" or "price-pack" offer; and "temporary special allowance" includes early shipping, advertising, display buying, and promotional or other similar arrangements.

(e) *Class of purchasers for vending machine sales.* For the purpose of determining the base price with respect to a sale of an item through a vending machine, the term "class of purchaser" with respect to a firm using vending machines includes those purchasers within a marketing pricing area customarily utilized by that firm.

§ 150.103 Sales and leases of new property and new services.

(a) *General—New item.* (1) An item is a new item if: (i) The firm concerned did not sell or lease it in the same or substantially similar form at any time during the 1-year period immediately preceding the first date on which the firm offers it for sale or lease. (A change in appearance, arrangement, or combination does not create a new item. Ordinarily, a change in fashion, style, form or packaging does not create a new item. In the case of a product for lease, a permanent improvement or betterment made to the products, as a part thereof, to increase value or to restore it makes it a new property for purposes of a lease if the cost of the improvement or betterment is greater than $100 and at least as much as three month's rent for the property); and

(ii) It is substantially different in purpose, function, quality, or technology, or its use or service effects a substantially different result from any other item which the firm concerned currently sells or leases or sold or leased at any time during the 1-year period immediately preceding the first date on which the firm offers it for sale or lease.

(2) *New market.* An item which the firm concerned has previously sold or leased is a new item with respect to its offer or sale to any market to which he did not sell or lease it at any time during the 1-year period immediately preceding the first date on which he offers it for sale or lease. For the purposes of this section, a "market" is one or more members of any one of the following groups: wholesalers; retailers; consumers; manufacturers; or service organizations.

(b) *Base price determination.* A firm offering a new item shall determine its base price as follows:

(1) *Firms engaged in manufacturing and service activities.*—(i) *Net operating profit markup.* A firm engaged in manufacturing or service activities, or both, shall apply the average net operating profit markup it lawfully received on the most nearly similar item it sold or leased to the same market during the base price period to the total allowable unit costs of the new item. For the purposes of this subparagraph, "net operating profit markup" means the ratio which the selling price bears to the total allowable unit costs of the item.

(ii) *Average price of comparable property or services.* If the firm concerned did not offer a similar item for sale or lease to a particular market during the base price period, the base price for sales or leases to that market shall be the average price received in a substantial number of current transactions in that market by other firms selling or leasing comparable items in the same marketing area.

(iii) *Customary pricing practice.* If the firm concerned did not offer a similar item for sale or lease to a particular market during the base price period, and if the new item is not comparable to any items being sold or leased by any firm in current transactions in the same market, the firm may determine the base price by using any customary pricing practice it used during the base period, or, if it did not sell or lease any property or service during that time, it may use any other pricing practice commonly used by other firms engaging in comparable business with the same market.

(2) *Firms engaged in wholesaling and retailing.*—(i) *Gross margin markup.* A firm engaged in wholesaling or retailing, or both, shall price the product within the category into which the new product falls, in accordance with Subpart K.

(c) *Base prices upon acquisition.* If a legal entity or a component of a legal entity determines a base price pursuant to this subpart for an item which it sells or leases to a particular market and the entity or component is subsequently acquired by another firm, that item does not become a new item with respect to the same market. The base price of the item with respect to that market remains the base price determined for it by the acquired entity or component unless the acquiring firm sells or leases the same item to the same market. If the acquiring firm sells or leases the same item to the same market, the acquiring firm's base price with respect to the sale or lease of that item to that market shall be the base price.

(d) *Quarterly reporting of new items.* A firm subject to the quarterly reporting requirements of Subpart H of this part and which has projected sales and revenues for its current fiscal year of $10 million or more derived from the sale or lease of new items shall, in accordance with instructions which accompany forms issued pursuant to Subpart H of this part, provide information which demonstrates that, with respect to each new item with projected annual sales of $1 million or more which is offered for sale or lease for the first time during the quarter concerned, the item qualifies as a new item as defined in this section and the base price of that item has been determined in accordance with this section.

§ 150.104 Custom products and custom services.

(a) *Definitions.* The following definitions apply in this section:

"Custom product" means a product (other than one specified in § 150.54(c)(1)) specifically produced by a manufacturer to the buyer's or buyers' specifications and not reasonably comparable to any product manufactured at any previous time by the same manufacturer or its predecessors in interest, including any buyer-specified changes or additions to a non-custom product to the extent that they are not reasonably comparable to any charges or additions manufactured, with respect to that non-custom product, at any previous time by the same manufacturer or its predecessors in interest.

"Custom service" means a service (other than one specified in § 150.54(c)(2)) specifically produced by a service organization to the buyer's or buyers' specifications and not reasonably comparable to any service provided at any previous time by the same service organization or its predecessors in interest, including any buyer-specified changes or additions to a non-custom service, at any previous time by the same service organization or its predecessors in interest.

(b) *Base price.* A firm engaged in manufacturing or service activities, or both, may charge a base price for a custom product or service in conformity with its customary pricing practices, if any, which reflect only costs incurred or to be incurred in the manufacture of the product or the furnishing of the service which are allowable as determined under the regulations or decisions issued pursuant to the Economic Stabilization Program. However, a firm which charges a base price for a custom product or custom service may not, for the fiscal year in which that base price is charged, exceed its base period profit margin except as provided in § 150.11(d)(iii).

Example. Labor costs to be incurred in the making of a custom product were estimated to be $2,000,000. However, $200,000 of this estimated cost was found to be nonallowable under regulations or decisions issued pursuant to the Economic Stabilization Program. Therefore, the highest amount of allowable costs for labor that may be included in determining the base price chargeable for the product is $1,800,000.

Subpart G—Base Cost and Current Cost

§ 150.131 Scope.

This subpart sets forth the general rules for determining base cost and current cost except as otherwise provided in this part.

§ 150.132 Base cost.

(a) *Base costs.* Base costs are the net allowable costs incurred during the base

cost period with respect to the product line or service line concerned.

(b) *Labor costs.* The base cost with respect to costs of labor is the rate at which those costs were being incurred on the first full day of business in the base cost period.

(c) *All other costs.* The base cost with respect to all costs other than labor costs is the rate at which those costs were being incurred on the first full day of businesss in the base cost period. However, if the base cost with respect to all costs other than labor costs cannot reasonably be determined by the method prescribed in the preceding sentence, that base cost is the average cost incurred throughout the base cost period with respect to those costs as calculated in accordance with instructions which accompany forms issued pursuant to Subpart H of this part.

(d) *Base cost period.* The base cost period is the last fiscal quarter which ended before January 11, 1973, in which costs were incurred with respect to the product line or service line concerned. The base cost period for each new item, as defined in accordance with § 150.103, is the fiscal quarter in which the new item concerned was first sold or leased in arms-length trading between unrelated persons.

§ 150.133 Current cost.

(a) *Current costs.* Current costs are the net allowable costs incurred during the current cost period with respect to the product line or service line concerned.

(b) *Labor costs.* The current cost with respect to costs of labor is the rate at which those costs were being incurred on the last full day of business in the current cost period.

(c) *All other costs.* The current cost with respect to all costs other than labor costs is the rate at which those costs were being incurred on the last full day of business in the current cost period.

(c) *All other costs.* The current cost with respect to all costs other than labor costs is the rate at which those costs were being incurred on the last full day of business in the current cost period. However, if the current cost with respect to all costs other than labor costs cannot reasonably be determined by the method prescribed in the preceding sentence, that current cost is the average cost incurred throughout the current cost period with respect to those costs as calculated in accordance with instructions which accompany forms issued pursuant to Subpart H of this part.

(d) *Current cost period.* For quarterly reporting purposes, the current cost period is the last accounting month in the current fiscal quarter for which a quarterly report is required to be filed pursuant to Subpart H of this part. The current cost period for price category III firms is the last accounting month in the current fiscal quarter for which compliance is being measured. For prenotification purposes, the current cost period is the last accounting month preceding the date of signature of the prenotification document submitted in accordance with Subpart H of this part except that with respect to labor and other costs which may be calculated as of a date certain, the rate at which these costs are incurred on the day which is the date of signature of the prenotification document may be considered the rate of the last full day of the current cost period.

Subpart H—Prenotification and Reporting

§ 150.151 Prenotification.

(a) *General Rule.* Except as provided in paragraph (b) of this section, a price category I firm may not charge a price for any item above the base price or the adjusted freeze price, which ever is higher, with respect to an item it sells as a manufacturer or service organization until the firm has filed, pursuant to this subpart, a notice of proposed price increase with respect to that item or a product line which includes that item with the Council and 30 days have elapsed since the filing of the notice.

(b) *Waiver of prenotification.* (1) The following price increases by a price category I firm need not be prenotified—

(i) Any price increases for items which are exempt under Subpart D or otherwise excluded from coverage of this title.

(ii) Any price increases by a nonprofit organization with less than $100 million in annual sales or revenues derived from transactions in items which are not exempt under Subpart D of this part or otherwise excluded from coverage of this title.

(iii) Any price increase for an item to the extent it reflects solely an increase in excise taxes (including sales and use taxes) or in duties on imports.

(2) The following prices charged by a price category I firm need not be prenotified:

(i) A price in a contract for the purchase of a product or service by an agency of the Federal government, and a price stated in a subcontract under a contract for the purchase of a product of service by an agency of the Federal government.

(ii) A price specified in a contract subject to the provisions of § 150.76.

(iii) A price specified in a contract for the sale of an item entered into after 9:00 p.m. e.s.t., June 13, 1973 and before August 6, 1973, with respect to any delivery or performance occurring after August 12, 1973, and prior to October 12, 1973.

(iv) (A) A price charged by a price category I firm with annual sales or revenues of less than $100 million within any industrial group in its most recently completed fiscal year which has applied for and received from the Council a modification of prenotification requirements with respect to price increases relating to sales within the industrial group. For the purposes of this paragraph, industrial groups are identified by a two-digit Standard Industrial Classification (SIC) Code as published by the Office of Management and Budget in the 1972 Standard Industrial Classification Manual, except as otherwise provided in the instructions for preparation of Form CLC–55, "Request for Modification of Prenotification Requirements". Each application under this paragraph shall be made on a properly completed Form CLC–55 and shall contain the information required by that form and its instructions. If the Council does not act upon a request submitted under this paragraph within 30 days after receiving a Form CLC–55, the firm may take the action requested. A firm whose prenotification requirements are modified in accordance with this paragraph remains subject to the reporting requirements of this subpart and to all other requirements of this part including the profit margin limitation. The following are the criteria to be applied in considering application under this paragraph (b):

(*1*) The firm's annual sales or revenues within the industrial group for which modification of prenotification requirements is requested must be under $100 million.

(2) Annual sales or revenues of the entity for which modification of prenotification requirements is requested must be under $100 million.

(3) Annual sales or revenues within a four-digit Standard Industrial Classification Code which is included within the industrial group for which modification of prenotification requirements is requested may not be more than 5 percent of the market covered by that four-digit classification.

(B) Until October 12, 1973, a firm which pursuant to the provisions of 6 CFR 300.51(c) in effect on January 10, 1973, applied for and received from the Price Commission a modification of the prenotification requirements with respect to price increases relating to sales within a particular two-digit SIC code and which has reason to believe that it continues to qualify under this paragraph, shall be deemed to have received authority from the Cost of Living Council to put price increases into effect in accordance with the provisions of paragraph (b)(2)(iv)(A) of this section. Effective October 12, 1973, a firm may adjust a price pursuant to paragraph (b)(2)(iv)(A) of this section only if it has received authorization issued by the Council pursuant to the provisions of paragraph (b)(2)(iv)(A) of this section.

§ 150.152 Manner of prenotification.

The notice of the proposed price increase must be filed in the form and manner prescribed by the Cost of Living Council, and will be considered to be filed on the date when it is stamped and dated by the Council. The Council will notify the firm, in writing, of the date of filing. If the information submitted is incomplete or inadequate, the Council will not accept the filing, and will so notify the firm.

§ 150.153 Measure of the prenotification period.

The 30-day prenotification period will commence on the date of filing of the notice of the proposed price increase with

V 38 - 153 AUG 9 73 XUM

the Council. In any case in which the 30-day period would otherwise end on a Saturday, Sunday or Federal holiday, it will end at the close of the next succeeding workday.

§ 150.154 Council action.

During the 30-day prenotification period, the Council may issue an order disapproving, modifying, suspending or deferring a proposed price increase in whole or in part.

(a) The Council may issue an order disapproving or modifying a proposed price increase in whole or in part, if it finds that the proposed price increase does not conform to the rules of this part.

(b) The Council may issue an order temporarily suspending the running of the 30-day prenotification period of a proposed price increase if it finds additional information is necessary or that the form was improperly filed. The order will remain in effect until the Council notifies the firm in writing that the additional information has been received and accepted.

(c) The Council may issue an order deferring a price increase, in whole or in part, if it finds that the proposed price increase is of such magnitude and would have such an impact upon the economy as to be unreasonably inconsistent with the goals of the Economic Stabilization Program.

§ 150.155 Implementation of price increases.

If the Council does not act upon the proposed price increase within the 30-day prenotification period, pursuant to § 150.154, the proposed price increase may be charged immediately upon expiration of the 30-day prenotification period. Failure of the Council to act upon the proposed price increase within the 30-day period does not constitute approval of the price increase and nothing in this part shall be construed to limit the authority of the Council to modify, suspend, disapprove, or defer any such price increase in whole or in part placed into effect after the expiration of the 30-day period if the Council finds that:

(a) The price increase does not conform to the rules of this part; or

(b) The price increase is of such magnitude and would have such an impact upon the economy as to be unreasonably inconsistent with the goals of the Economic Stabilization Program.

§ 150.156 Volatility.

(a) Subject to paragraphs (b) through (d) of this section, a firm that has customarily priced an item in a manner immediately responsive to frequent and customary market price fluctuations of the raw materials or partially processed products which it uses in that item may, when and to the extent authorized by the Cost of Living Council increase the price of that item to the extent of any significant market price increase of those raw materials or partially processed products, without regard to the prenotification requirements of this subpart. However, in the case of a price increase based on an increase in the price of a partially processed product, only that part of the increased cost of the partially processed product that is due to an increase in the market price of the raw materials in that product may be used in computing any allowable increase under this paragraph. For the purposes of this paragraph and paragraph (c) of this section "raw materials" include raw agricultural products, raw seafood, and other raw materials used by the firm in preparing an item for which an authorization is sought under this section.

(b) *Limitation.* A firm which increases a price pursuant to an authorization granted under this section shall reduce that price to the extent of any later decrease in cost in accordance with the general rules of this part.

(c) *Notice on invoice.* A firm which increases a price on any partially processed product pursuant to authorization under this section shall indicate on each invoice to its manufacturing and processing customers that part of any cost increase that is due to an iincrease in the cost of the raw materials used in making the partially processed product.

(d) Until October 12, 1973, a firm which received a volatile pricing authorization from the Price Commission which was in effect on January 10, 1973, with respect to an item shall be deemed to have received authority from the Council to put price adjustments for that item into effect in accordance with the provisions of this section. Effective October 12, 1973, a firm may adjust the price of an item pursuant to this section only if it has received a volatile pricing authorization issued by the Council pursuant to paragraph (a) of this section.

§ 150.161 Quarterly reports.

(a) *General.* Except as provided in paragraph (b), each price category I and II firm shall submit quarterly reports to the Cost of Living Council on prices, costs and profits in accordance with forms and instructions issued by the Council.

(b) *Waiver of quarterly reports.* Quarterly reports need not be submitted to the Council by the following firms:

(1) A firm whose total annual sales or revenues are derived from transactions involving goods and services which are exempt under Subpart D, or otherwise excluded from coverage of this title

(2) A firm which is a nonprofit organization with less than $50 million derived from transactions in property or services which are not exempt under Subpart D of this part, or otherwise excluded from coverage of this part.

(3) State and local governments.

(4) A firm which has not charged a price for any item above the base price or above the adjusted freeze price, whichever is higher, provided the firm files, for the fiscal quarter, a "Certificate of no price increase" in accordance with the forms and instruction issued by the Cost of Living Council.

(c) *Manner of reporting.* Each quarterly report required under paragraph (a) of this section shall be made in accordance with forms and instructions issued by the Cost of Living Council.

§ 150.162 Additional reports and information.

Whenever the Cost of Living Council considers it necessary for the effective administration of the Economic Stabilization Program, it may order any firm to file special or separate reports, setting forth information relating to the Economic Stabilization Program, in addition to any other reports required by this part.

§ 150.163 Effect of failure to file or maintain reports or other documents required by or under certain sections of this part.

(a) If a firm which is required to file a report or other document with the Cost of Living Council pursuant to the provisions of this part or an order issued by the Council does not, within the time limits prescribed, file the report or other document—

(1) The firm may not implement any further price increases including price increases which could otherwise be implemented pursuant to § 150.155 until it has complied with that reporting requirement and has obtained the special approval of the Council;

(2) Except to the extent specifically authorized otherwise by the Council in any case, based upon a written request of the firm concerned citing hardship or inequity, action is suspended on all requests for exception filed by that firm until it has complied with the reporting requirement; and

(3) The Council may, whenever it considers it appropriate under the circumstances, order the firm to reduce any of its prices.

(b) Each day that a firm fails to comply with a reporting requirement pursuant to this part pertaining to reports, or with an order under this part, is considered to constitute a separate violation of this part or that order.

§ 150.164 Records.

(a) *General.* Each firm subject to this part shall maintain such records as are sufficient to demonstrate that the prices charged by the firm are in compliance with the rules in this part.

(b) *Inspection.* Records required to be maintained under paragraph (a) of this section shall be made available for inspection at any time upon the request of an officer or employee of the Internal Revenue Service or the Council.

(c) *Justification.* Upon the request of an officer or employee of the Internal Revenue Service or the Council any firm which has filed a notice of a proposed price increase or increases a price pursuant to this part, shall:

(1) Specify the records that comply with paragraph (a) of this section; and

(2) Justify that proposed price increase or increased price.

(d) *Period for maintaining records.* Each firm required to maintain a record under this section shall preserve that record for at least 4 years after the last day of the calendar year in which the transactions or other events recorded in that record occurred or the property was acquired by that firm whichever is later.

Subpart I—Accounting and Financial Reporting Requirements

§ 150.171 Comparabiliy of financial data.

(a) *General.* When filing a report or other document under this part, financial data shall be restated in accordance with the provisions of this section in order that profit margins reflect comparable units.

(b) *Acquisitions.* An acquisition including the purchase of a separate accounting entity, such as a company or division, requires adjustments to financial data for purposes of this part if such an acquisition would require restatement or disclosure in a filing with the SEC, or if the acquisition is of a similar type but such restatement or disclosure is not required because the firm does not file reports with the SEC.

(c) *Divestments and discontinuations.* A divestment of a separate accounting entity such as a company or division or a discontinued operation requires adjustment to financial data for purposes of this part if such a divestment or discontinued operation would require restatement or disclosure in a filing with the SEC, or if the divestment or discontinued operation is of a similar type but such restatement or disclosure is not required because the firm does not file reports with the SEC.

(d) *Other changes.* If the nature of operations of a firm has changed so that the business being conducted currently is of a significantly different nature than the business previously conducted for a reason other than those discussed above, the firm may request an exception to adjust profit margins appropriately for all pertinent periods.

Subpart J—Special Rules

§ 150.201 Loss and low profit firms.

(a) *Applicability.* This section applies to any firm which—

(1) Has estimated and has prepared supporting documentation in accordance with the provisions of paragraph (g) of this section that for its current fiscal year it will have a profit margin less than the minimum profit margin allowed as computed in accordance with paragraph (c) of this section; and

(2) For each control year (as determined pursuant to § 201.52 of this title) included in whole or in part in the current fiscal year has not increased the wages or salaries of any of its officers or employees who are owners or relatives of an owner in excess of the general wage and salary standard as computed in accordance with Economic Stabilization Regulations, unless the Council or its delegate has by order permitted greater increases to be paid with respect to the appropriate employee unit including such employees, in which case the firm may grant increases to the extent allowed by such order without losing its loss or low profit firm qualification.

(b) *Definitions.* For purposes of this paragraph—

"Minimum profit margin allowed" means the profit margin calculated pursuant to the provisions of paragraph (c).

"Owner" means an officer or employee who owns (or is considered to own within the meaning of 26 U.S.C. 318(a)(1)) on any day of the fiscal year concerned, more than 5 percent of the outstanding stock of the firm.

"Relatives of an owner" shall include only those members of the family specified in 26 U.S.C. § 318(a)(1).

(c) *Calculation of minimum profit margin allowed.*—(1) *Service activities.* For any firm which during its most recently completed fiscal year, derived at least 90 percent of its annual sales or revenues from the furnishing of services, the minimum profit margin allowed is 1 percent.

(2) *Other activities.* For any other firm, the minimum profit margin allowed is that corresponding to the firm's capital turnover ratio and is set forth in Column B of Table I. The capital turnover ratio is computed by dividing the net sales for the most recently completed fiscal year or the alternative fiscal period by average total capital (long-term debt plus owner's equity, less investments, the income from which is included in nonoperating income) for that fiscal year or alternative fiscal period. Calculations made pursuant to this section must be consistent with instructions to the CLC–22 except that in computing the profit margin, the firm may not include interest expense on long term debt. The average total capital for a fiscal year or alternative fiscal period is computed by adding the outstanding total capital at the beginning of the fiscal year or alternative fiscal period to the outstanding total capital at the end of that fiscal year or alternative fiscal period, and dividing the sum by two:

TABLE I

Column A Capital Turnover Ratio	Column B Minimum Profit Margin Allowed (percent)
Less than 3.4	3.0
3.4 or more, but less than 3.6	2.9
3.6 or more, but less than 3.7	2.8
3.7 or more, but less than 3.8	2.7
3.8 or more, but less than 4.0	2.6
4.0 or more, but less than 4.2	2.5
4.2 or more, but less than 4.3	2.4
4.3 or more, but less than 4.5	2.3
4.5 or more, but less than 4.8	2.2
4.8 or more, but less than 5.0	2.1
5.0 or more, but less than 5.3	2.0
5.3 or more, but less than 5.6	1.9
5.6 or more, but less than 5.9	1.8
5.9 or more, but less than 6.3	1.7
6.3 or more, but less than 6.7	1.6
6.7 or more, but less than 7.1	1.5
7.1 or more, but less than 7.7	1.4
7.7 or more, but less than 8.3	1.3
8.3 or more, but less than 9.1	1.2
9.1 or more, but less than 10.0	1.1
10.0 or more, but less than 11.1	1.0
11.1 or more, but less than 12.5	0.0
12.5 or more, but less than 14.3	0.8
14.3 or more, but less than 16.7	0.7
16.7 or more, but less than 20.0	0.6
20.0 or more, but less than 25.0	0.5
25.0 or more, but less than 33.3	0.4
33.3 or more, but less than 50.0	0.3
50.0 or more	0.2

(d) *Alternative fiscal period.* The alternative fiscal period is the best two of the firm's base period years. For purposes of computing the alternative fiscal period capital turnover ratio of paragraph (c)(2) of this section, the firm shall add the net sales and average total capital, for the firm's two best base period years and divide the sum by two.

(e) *Pricing.* Notwithstanding Subparts A, E or K, or the prenotification requirements of Subpart H of this part, but subject to paragraphs (f) through (h) of this section, a loss or low profit firm may after August 12, 1973 increase any of its prices by an amount reasonably calculated to result by the end of its third fiscal quarter in a profit margin that does not exceed the minimum profit margin allowed under this section.

(f) *Wage and salary limitations.* If a firm which prices pursuant to this section increases during any control year included in whole or in part in the current fiscal year the wages and salaries of any of its officers or employees who are owners or relatives of an owner in excess of the general wage and salary standard as computed in accordance with Economic Stabilization Regulations or in excess of any greater increase permitted to be paid by order of the Council, authority to price pursuant to this section terminates.

(g) *Reporting.* (1) Each price category I or price category II firm, before utilizing this section for any fiscal year or part thereof, in addition to complying with the reporting requirements of Subpart H, and before charging any price under this section, shall furnish to the Council sufficient financial data to support its loss or low profit position. The data submitted must include a Schedule R to Form CLC–22 completed in Parts I through V for the current fiscal year on a projected basis and for the alternative fiscal period and Form PB–3 or PB–3A (if appropriate) for each appropriate employee unit which includes employees referred to in paragraph (f) of this section, for each control year covered in whole or in part by any fiscal year used to calculate the minimum profit margin allowed and for the current fiscal year in which prices are to be increased under this section. Such a firm may increase prices under this section after 30 days following the date of the receipt of that financial data by the Council unless, during that 30-day period, the Council suspends, modifies or disapproves that action. The Council may disapprove such action for a firm whose profit margin is at or above the average profit margin of other firms engaged in the same industry.

(2) Each price category III firm, before charging any price under this section in any fiscal year shall prepare and maintain at its principal place of business sufficient financial data to support its loss or low profit position for that fiscal year. The data prepared must include a Schedule R to Form CLC–22 completed for the current fiscal year on a projected basis and for the alternative fiscal period and Form PB–3 or PB–3A (if appro-

V 38-153 AUG 9 73 XUM

priate) for each appropriate employee unit which includes employees referred to in paragraph (f) of this section, for each control year covered in whole or in part by any fiscal year used to calculate the minimum profit margin allowed and for the current fiscal year in which prices are to be increased under this section.

(h) *Termination of use of low profit rule.* At the end of the current fiscal year, or within 45 days after the end of a fiscal quarter in the current fiscal year in which a loss or low profit firm which has increased prices pursuant to this section achieves its minimum profit margin allowed or approaches it within .01 percent at an annual rate, authority to use this section terminates. Thereafter, the firm must conform to the price rules of this part which would be applicable to it if it had not been a loss or low profit firm. However, for purposes of this part, the base period profit margin of the firm is the profit margin allowed as calculated pursuant to the provisions of this section.

§ 150.202 Loss or low base period profit margins.

(a) *General.* Notwithstanding the provisions of subpart A and the definition of base period profit margin in subpart B, a firm may calculate and use as its base period profit margin the minimum profit margin allowed as calculated pursuant to this section.

(b) *Calculation of profit margin allowed.*—(1) *Service activities.* For any firm which in its most recently completed fiscal year, derived at least 90% of its annual sales or revenues from the furnishing of services, the minimum profit margin allowed is 1 percent.

(2) *Other activities.* For any other firm, the profit margin allowed is that corresponding to the firm's capital turnover ratio and is set forth in Column B of Table II. The capital turnover ratio is computed by dividing the sum of the net sales for the firm's two best base period years by the average total capital (long-term debt plus owner's equity, less investments, the income of which is included in nonoperating income of those two years). Calculations made pursuant to this section must be consistent with instructions on Form CLC–22 except that in computing the profit margin, the firm may not include interest expense on long term debt. The average total capital for a fiscal year is computed by adding the outstanding total capital at the beginning of the fiscal year to the outstanding total capital at the end of that fiscal year, and dividing the sum by two:

TABLE II

Column A Capital Turnover Ratio	Column B Minimum Profit Margin Allowed (percent)
Less than 3.4	3.0
3.4 or more, but less than 3.6	2.9
3.6 or more, but less than 3.7	2.8
3.7 or more, but less than 3.8	2.7
3.8 or more, but less than 4.0	2.6
4.0 or more, but less than 4.2	2.5
4.2 or more, but less than 4.3	2.4
4.3 or more, but less than 4.5	2.3
4.5 or more, but less than 4.8	2.2
4.8 or more, but less than 5.0	2.1
5.0 or more, but less than 5.3	2.0
5.3 or more, but less than 5.6	1.9
5.6 or more, but less than 5.9	1.8
5.9 or more, but less than 6.3	1.7
6.3 or more, but less than 6.7	1.6
6.7 or more, but less than 7.1	1.5
7.1 or more, but less than 7.7	1.4
7.7 or more, but less than 8.3	1.3
8.3 or more, but less than 9.1	1.2
9.1 or more, but less than 10.0	1.1
10.0 or more, but less than 11.1	1.0
11.1 or more, but less than 12.5	0.9
12.5 or more, but less than 14.3	0.8
14.3 or more, but less than 16.7	0.7
16.7 or more, but less than 20.0	0.6
20.0 or more, but less than 25.0	0.5
25.0 or more, but less than 33.3	0.4
33.3 or more, but less than 50.0	0.3
50.0 or more	0.2

(c) *Reports.* A firm which calculates and uses a minimum profit margin allowed in lieu of its base period profit margin as calculated pursuant to subpart B, shall prepare and submit in accordance with the forms and instructions issued by the Council, the financial data used to compute the minimum profit margin allowed.

§ 150.203 Seasonal patterns.

(a) *General.* Notwithstanding any other provisions of this part including the prenotification requirements of Subpart H, prices which normally fluctuate in distinct seasonal patterns may be adjusted as prescribed in this section.

(b) *Distinct fluctuation.* Prices must show a large or otherwise distinct fluctuation at a specific, identifiable point in time. The distinct fluctuation must be an established practice that has taken place in each of the 3 years before the date of the contemplated change. New firms may determine their qualifications from those generally prevailing with respect to firms similarly situated, selling or leasing in the same marketing area. If there are not similar firms in the immediate area, qualification may be established by reference to the nearest similar marketing area.

(c) *Time of price fluctuation.* The price fluctuation referred to in paragraph (b) of this section may not take place at a time other than the time at which that fluctuation took place in the preceding year unless the date of the price fluctuation is tied to a specific event such as a previously planned introduction of new models.

(d) *Allowable price.* Subject to paragraph (e) of this section, if the requirements of paragraphs (b) and (c) of this section are met, the maximum price which may be charged by the person concerned is the greater of the following:

(1) The base price determined under Subpart F of this part;

(2) The price authorized pursuant to the provisions of Subpart E or K; or

(3) The price charged by that firm during the first 30 days of the period following the current seasonal price adjustment, or if the season was less than 30 days, during the period of that season.

For purposes of paragraph (a) of this section, the price charged during that 30-day period, or the period of the season if less than 30 days, is the weighted average of the prices charged on all transactions during that period.

(e) *Limitation.* Notwithstanding paragraph (d) of this section, a firm which charges a price pursuant to this section, may not exceed its base period profit margin.

(f) *Return to nonseasonal prices.* Each firm that increases a price under this section shall decrease that price at the same date or identifiable point in time as the price was decreased in the previous season. The price shall be decreased to the allowable price for the applicable season, pursuant to paragraph (d) of this section.

§ 150.204 Marketing cooperatives and market risk-sharing transactions.

(a) *Applicability.* This section applies to—

(1) Sales of products or services by a marketing cooperative, as defined in paragraph (b) of this section, for its members and for other persons; and

(2) transactions for the sale of products or services by a seller to a buyer in which the price is set in whole or in substantial part by reference to the buyer's proceeds from the later resale of the product or service, or the sale by that buyer of another product or service into which the initial product or service is processed or made.

(b) *Definitions.* For the purposes of this section "marketing co-operative" means a firm that is organized or operated on a cooperative basis for the purpose of marketing the products or services of its members and other persons, and turning back to them the proceeds of sales, less expenses, on the basis of either the quantity or the value of the products or services furnished by them, or that does not make a profit on the sales for its members, either.

(1) Because the market price obtained is only enough to cover costs and expenses and payment for their products or services, or

(2) Because a later additional payment adjusts the payment for this purpose may be cash or other item of value which qualifies as a "patronage dividend" under Section 1388 of the Internal Revenue Code of 1954, as amended. A firm is not disqualified from being a marketing co-operative by conducting a portion of its transactions with nonmembers. Each transaction of the kind described in paragraph (a)(2) of this section is a "market risk-sharing transaction" and is considered to bind the buyer and seller of that transaction to a "market risk-sharing agreement". The price which is charged in a market risk-sharing transaction is a "market risk-sharing price". The total proceeds which a firm receives from a marketing co-operative for a product or service which the co-operative markets for that firm is also a "market risk-sharing price".

(c) *General.* A market risk-sharing price, as defined in paragraph (b) of this section, may not exceed the price authorized to be charged under any other provision of this part if the kind of product or service and the kind of transaction concerned are not exempt from the Economic Stabilization Program under Subpart D. If a market risk-sharing price is exempt thereunder, and if that price is one of the costs of another product or service which is not exempt thereunder, the manufacturer, service organization, wholesaler, or retailer for whom such a market risk-sharing price is a cost may charge a price in excess of the base price, adjusted freeze price or other authorized price for that other product or service under the same conditions and subject to the same restrictions as would otherwise apply to that person under this part, except that—

(1) If that firm is also a marketing co-operative and charges a price pursuant to this section, the ratio of its operating income to its net sales in the current fiscal year may not exceed the ratio which prevailed during the base period (in computing this ratio the firm may elect to reduce operating income by patronage dividends in both the base period and the current period); and

(2) The costs which are determined by the market risk-sharing plan shall, for the purposes of this part, be considered to be imputed allowable costs.

(d) *Imputed allowable costs.* The imputed allowable cost shall be:

(1) Any price that is published or otherwise documented as prevailing in the trade and which the firm has customarily used in establishing a payment at the time of delivery of the product or service, or in determining pool interest in deliveries of the product or service; or if none,

(2) The average documented price paid by competitors for the same product or service in transactions that are not by the marketing co-operative or are not market risk-sharing transactions in the same marketing area, or, if no significant number of those transactions are occurring in the same marketing area, in the closest substantially similar marketing area; or if none,

(3) The published price of the same product or service under Federal Government support programs, State or Federal marketing orders, commodity market quotations, or Department of Agricultural Market News Service Reports, whichever is most commonly used in the trade as an indicator of current commercial market prices; or if none,

(4) The published price or average documented price paid by competitors for a related product or service that has a similar price pattern in the same marketing area, or in the closest substantially similar marketing area.

§ 150.205 Purchasing co-operatives.

(a) *Applicability.* This section applies to sales of products or services by a purchasing co-operative, as defined in paragraph (b) of this section, to its members and to other persons.

(b) *Definitions.* For the purposes of this section "purchasing cooperative" means a firm that is organized or operated on a co-operative basis for the purpose of purchasing or manufacturing products or services for its members and other persons at cost, plus expenses, or that does not make a profit on sales to its members, either because the initial price charged is only enough to cover costs and expenses or because a later refund reduces the net price to such an amount. A refund for this purpose may be cash or other item of value which qualifies as a "patronage dividend" under Section 1388 of the Internal Revenue Code of 1954, as amended. A firm is not disqualified from being a purchasing co-operative by conducting a portion of its transactions with nonmembers.

(c) *General.* A purchasing co-operative may charge any price for a product or service it sells to its members or other persons, except that a firm which prices pursuant to this section, the ratio of its operating income to its net sales in the current fiscal year, may not exceed the ratio that prevailed during the base period (in computing this ratio the firm may elect to reduce operating income by patronage dividend in both the base period and the current period).

(d) *Exceptions.* A purchasing co-operative that sells a product to its members or other persons primarily for their resale and not for their use or consumption shall charge a price in accordance with its allowable costs or gross margins for the item's merchandise category. In computing its ratio or operating income to net sales a purchasing co-operative may not use the election authorized in paragraph (c) of this section for patronage dividends. The provisions of this paragraph do not apply to a sale made by a purchasing co-operative operating under the Agricultural Marketing Act of 1929, as amended (12 USC 1141(j)), to a member or other person of that co-operative who is also a co-operative and only resells to its members or other persons for their use or consumption.

§ 150.220 Stabilization of particular industries and sectors.

(a) Whenever the Council finds it necessary to achieve the goals of the Economic Stabilization Program, it may issue regulations providing for the stabilization of prices in a particular industry, sector of the economy or part thereof.

(b) The Council may order public hearings with respect to the regulations issued or to be issued pursuant to paragraph (a) of this section if the Council determines that public hearings would aid in achieving the goals of the Economic Stabilization Program.

Subpart K—Retailers and Wholesalers

§ 150.301 Applicability.

Except as otherwise provided in this part, this subpart applies to all firms engaged in retailing or wholesaling or both.

§ 150.302 Definitions.

As used in this subpart:

"Adjusted freeze price" means (a) adjusted freeze price as defined in § 150.72, and (b) with respect to an item sold in a catalogue, any price specified for that item in a catalogue printed by a firm engaged in retailing or wholesaling prior to July 18, 1973, and which was in conformance with § 130.13 of this chapter.

"Category" means (a) a group of related customers distinguished from other customers because of customary price differentials between those customers and other customers, which is treated as a single pricing unit irrespective of the products they purchase, for the purposes of this subpart, or (b) a group of related products which is treated as a single pricing unit for the purposes of this subpart.

"Pricing base period" means, at the option of the firm, either the last fiscal year ending prior to February 5, 1973 or the most recent four fiscal quarters ending prior to February 5, 1973.

"Pricing entity" means the lowest level of organization within a firm at which the initial pricing decisions are made, irrespective of whether these decisions may be modified at a lower level.

§ 150.303 Computing customary initial percentage markups and gross margins.

For the purposes of this subpart—

(a) Customary initial percentage

$$\text{markup} = \frac{\text{Initial price} - \text{Cost}}{\text{Cost}} \times 100$$

Where:

Initial price = Total sales prices of all merchandise within a category when first offered for sale; and

Cost = Total invoice costs of all merchandise within a category plus transportation allocated to that merchandise.

(b) Gross margin $= \frac{\text{Revenues} - \text{Cost}}{\text{Cost}} \times 100$

Where:

Revenues = Total revenues realized from the sales of merchandise within a category less returns and credits; and

Cost = Total invoice costs of all merchandise within a category plus transportation allocated to that merchandise.

§ 150.304 General price control rules.

(a) A price category I or price category II firm may not increase the price of any item above the adjusted freeze price for that item, until it submits the merchandise pricing plan required by § 150.306(a). Thereafter it may increase prices in accordance with the provisions of this subpart. A price category III firm may not increase the price of any item above the adjusted freeze price for that item until it completes the merchandise pricing plan required by § 150.310. Thereafter it may increase prices in accordance with the provision of this subpart.

(b) A firm engaged in retailing or wholesaling must elect to be controlled under this subpart on the basis of either

V 38-153 AUG 9 73 XUM

(1) customary initial percentage markups applied to categories or (2) gross margins realized for categories. A firm which elects to be controlled on the customary initial percentage markups and which customarily prices on an item-by-item basis may continue to price on that basis; however, for purposes of this subpart the firm must comply with the customary initial percentage markup rules applied on a category basis.

(e) Except as provided in paragraph (e) of this section, a firm which increases the price for any item above the adjusted freeze price for that item must control the prices it charges for the category in which the item falls so that—

(1) For any fiscal quarter the customary initial percentage markup or the gross margin for that category does not exceed the higher of—

(i) The customary initial percentage markup applied to that category or the gross margin realized for that category during the corresponding fiscal quarter of the pricing base period; or

(ii) The customary initial percentage markup applied to that category or the gross margin realized for that category during the pricing base period;

(2) For any fiscal year the customary initial percentage markup applied to that category or the gross margin for that category does not exceed the customary initial percentage markup or the gross margin realized for that category during the pricing base period; and

(3) The firm's profit margin for any fiscal year in which the increased price is charged does not exceed its base period profit margin except as provided in § 150.11.

(d) So long as a firm engaging in retailing or wholesaling does not increase the price of any item within a particular category in excess of the adjusted freeze price for that item, the limitations prescribed in paragraph (c) (1) and (2) of this section do not apply to that category.

(e) In the case of a firm which engages in retailing or wholesaling of both food products and non-food products, the requirements of Subpart M of Part 130 and Subpart I of Part 140 of this title remain applicable to the sale of food products.

§ 150.305 Establishment of categories.

(a) Except as otherwise provided in this section, a firm engaging in retailing or wholesaling shall use the merchandise categories set forth in the Appendix to this subpart.

(b) If the firm sells items which do not fall within any of the categories listed in Appendix A or which because of the nature of its business could not, in accordance with its normal accounting and management practices, be so grouped, it may form merchandise categories of all related items falling within the same general description and include those categories in its merchandise pricing plan. For all such categories included in a plan required to be submitted to the Cost of Living Council pursuant to § 150.307, the firm shall submit with the plan a statement demonstrating that those categories are consistent with the requirements of this subpart.

(c) If the firm's customary business relies on customer categories rather than merchandise categories, it may substitute customer categories in its merchandise pricing plan. When such a substitution is made in a plan required to be submitted to the Cost of Living Council pursuant to § 150.306, the firm shall also submit a statement demonstrating that the categories are consistent with the requirements of this subpart.

(d) A firm which is subject to this subpart and which also engages in manufacturing or service activities, or both, is subject to the requirements of subpart E of this part with respect to its manufacturing and service activities. However, if the sales or revenues derived from manufacturing and service activities were less than $50 million and less than 10 percent of the firm's total retailing or wholesaling revenues for the most recently completed fiscal year, the firm may include its manufacturing and service activities in its merchandising pricing plan. When manufacturing or service activities are so included, customary initial percentage markups and gross margins shall be computed, in the case of manufacturing activities, on the basis of direct material costs and, in the case of service activities, on the basis of direct material and labor costs.

§ 150.306 Merchandise pricing plans; firms with annual revenues of $50 million or more.

(a) Each price category I firm and each price category II firm to which this subpart applies, shall prepare and submit to the Cost of Living Council a merchandise pricing plan. The plan must include—

(1) A description of the internal organization as it relates to pricing in the firm's retailing or wholesaling activities;

(2) A list of the firm's retailing or wholesaling pricing entities;

(3) A completed form as specified by the Council on each pricing entity stating its selection of either the customary initial percentage markup or gross margin basis for control and its selection of pricing base period and setting forth its categories, the pricing base period customary initial percentage markup applied to or the gross margin realized for each category, and the customary initial percentage markup applied to or the gross margin realized for each category during each fiscal quarter of the pricing base period;

(4) A list of products or product lines carried by the firm and

(5) A description of the manner in which the firm makes its pricing decisions.

(b) Within 60 days after it receives a firm's merchandise pricing plan, the Council will review the plan and (1) approve it or (2) take the action provided for in § 150.308.

§ 150.307 Merchandise pricing plans; firms selling both food and non-food products.

In the case of a merchandise pricing plan for a firm which engages in retailing or wholesaling both meat or other food products which are subject to Subpart M of Part 130 or Subpart I of Part 140 of this title and non-food products, the firm shall, to the extent consistent with its customary pricing practices exclude all meat and other food items from the categories submitted. Insofar as meat and other food products are not so excluded they may be included in the firm's merchandise pricing plan. However, as provided in § 150.304(e), pricing of those food products remains subject to the requirements of Subpart M of Part 130 and Subpart I of Part 140 of this title.

§ 150.308 Incomplete and noncomforming plans.

(a) If after reviewing a merchandise pricing plan submitted pursuant to § 150.306, the Cost of Living Council determines that the information submitted is incomplete or inaccurate or that the plan does not conform to the requirements of this subpart, it will notify the submitting firm of its determination and the basis for that determination and whether or not the firm may implement any further price increases. The firm shall, within the time prescribed by the Council, submit to the Council such additional data or information as the Council may require or such modifications to its plan as may be necessary to bring it into conformance with the requirements of this subpart. Effective upon receipt of the notice, if so provided, the firm may not implement any further price increases until the Council approves the plan or otherwise advises the firm.

(b) In addition, if the firm fails to submit the required additional data, information, or modifications, within the time prescribed by the Council or, if after submission thereof, the Council determines that the merchandise pricing plan still does not conform to the requirements of this subpart, it may order the firm to reduce its prices to adjusted freeze prices or such other level above adjusted freeze prices as the Council may determine to be appropriate and to submit a new plan.

§ 150.309 Merchandise pricing plans: use and modification.

(a) Effective upon a firm's submission of its merchandise pricing plan to the Cost of Living Council and subject to any modifications that may result from the Council's review, the firm will be controlled on the basis of the categories and the pricing base period customary initial percentage markups or gross margins specified in the plan as submitted or as modified, as the case may be.

(b) Once a firm has submitted its merchandise pricing plan it may not modify the plan unless (1) required to do so as a result of the Council's review or (2) the modification is first approved by the Council.

§ 150.310 Merchandise pricing plans; firms with annual revenues of less than $50 million.

Each price category III firm to which this subpart applies, shall prepare and maintain at its principal place of business, a merchandise pricing plan. The firm may group all of its retail or wholesale products into a single merchandise category, in which case its merchandise pricing plan need only consist of a completed form prescribed by the Council stating its selection of either the customary initial percentage markup or gross margin basis and its selection of pricing base period and setting forth the base period customary initial percentage markup or gross margin information for that single category. However, if the firm elects to use more than one category, its plan must include to the extent applicable, each of its items specified in § 150.307(a) for plans required to be submitted to the Cost of Living Council.

§ 150.311 Reporting.

Each price category I firm and each price category II firm to which this subpart applies shall prepare and submit pricing and profit margin reports to the Cost of Living Council within 45 days after the end of each fiscal quarter or within 90 days after the end of each fiscal year on forms prescribed by the Council.

§ 150.312 Relief from certain category overages.

(a) If a firm's customary initial percentage markup or gross margin for a category containing both items exempt pursuant to Subpart D of this part and nonexempt items, exceeds the limitations prescribed in § 150.304(c)(1) or (2), the Cost of Living Council shall for purposes of determining compliance with this subpart, excuse the overage to the extent the firm can demonstrate that the overage is attributable to the sale of exempt items.

(b) If a firm's customary initial percentage markup or gross margin for a category exceeds the limitations prescribed in § 150.304(c)(1) or (2), the Cost of Living Council shall for purposes of determining compliance with this subpart, excuse the overage to the extent the firm can demonstrate that the overage is attributable to prices specified in contracts entered into before 9:00 p.m. e.s.t., June 13, 1973, under which delivery or performance occurs after August 12, 1973, and before January 1, 1974.

(c) In determining whether a retailer or wholesaler is in violation of the limitations prescribed in § 150.304(c)(1) or (2), the Council may take into account temporary unforeseen changes in product mix.

§ 150.313 Reqnrification of a quarterly category violation.

(a) If a firm's customary initial percentage markup or gross margin for a particular category for any fiscal quarter other than the fourth fiscal quarter, exceeds the limitations prescribed in § 150.304(c)(1), the Cost of Living Council will excuse the violation to the extent that the firm offsets the overage in the succeeding fiscal quarter.

(b) If a firm's customary initial percentage markup or gross margin for a particular category has not exceeded the limitations prescribed in § 150.304(c)(1) during any of the first three fiscal quarters but exceeds those limits for the fourth fiscal quarter, the Cost of Living Council will excuse the violation if the customary initial percentage markup or the gross margin for the category for the fiscal year is within the limitation prescribed in § 150.304(c)(2).

(c) If a firm's customary initial percentage markup or gross margin for a particular category has not exceeded the limitations prescribed in § 150.304(c)(1) during any of the first three fiscal quarters but exceeds those limits for the fourth fiscal quarter and for the fiscal year, the Cost of Living Council will reduce any sanctions it may impose for the violations to the extent that the firm offsets the lesser of those two overages in the succeeding fiscal quarter.

(d) A firm is entitled to the quarterly customary initial percentage markup or gross margin overage relief provided by this section only once per category within any fiscal year.

Subparts L-O—[Reserved]

Subpart P—Mass Transportation Systems

§ 150.551 Purpose and scope.

This subpart applies to all firms which operate or control a mass transportation system, the fares of which are not otherwise regulated.

§ 150.552 Definition.

As used in this Subpart—

"Mass transportation system" means a public benefit corporation, with annual sales or revenues in excess of $10 million, which is charged by law or contract with the responsibility of operating a mass transportation facility or facilities which:

(a) Serves a Standard Metropolitan Statistical Area (SMSA); and

(b) Constitutes the sole or a principal means of public transportation for that area.

A facility or facilities includes a rapid rail transit, subway, elevated, bus system but does not include school buses or other conveyances used for sight-seeing or chartered for private use.

§ 150.553 General rule.

A public benefit corporation (within the meaning of § 215 of the Economic Stabilization Act Amendments of 1971 (Public Law 92-210)), charged by law or contract with the responsibility to operate a mass transportation facility or facilities, the fares of which are not otherwise regulated, may not charge a price above base price until the proposed price increase has been prenotified to the Cost of Living Council using the prenotification procedure specified in Subpart H for price category I firms.

Guide to Record Retention Requirements

[Revised as of January 1, 1973]

This useful reference tool is designed to keep businessmen and the general public informed concerning the many published requirements in Federal laws and regulations relating to record retention.

The 90-page "Guide" contains over 1,000 digests which tell the user (1) what type records must be kept, (2) who must keep them, and (3) how long they must be kept. Each digest carries a reference to the full text of the basic law or regulation providing for such retention.

The booklet's index, numbering over 2,200 items, lists for ready reference the categories of persons, companies, and products affected by Federal record retention requirements.

Price: $1.50

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Miscellaneous Revocations

Subpart C of Part 213 is amended to show that under the provisions of § 213.3301b 242 positions are no longer excepted under Schedule C.

Effective on August 8, 1973, Subpart C of Part 213 is amended as set out below.

§ 213.3303 Executive Office of the President.

(a) *Office of Management and Budget.* * * *

(5) [Revoked]

* * * * *

(9) [Revoked]

* * * * *

(i) *Office of Telecommunications Policy.* (1) [Revoked]

(2) [Revoked]

* * * * *

(5) [Revoked]

(6) [Revoked]

* * * * *

§ 213.3305 Treasury Department.

(a) *Office of the Secretary.* * * *

(21) [Revoked]

* * * * *

(27) [Revoked]

* * * * *

(c) *Bureau of Customs.* * * *

(3) [Revoked]

* * * * *

(f) *Bureau of the Mint.* * * *

(2) [Revoked]

* * * * *

§ 213.3306 Department of Defense.

(a) *Office of the Secretary.* * * *

(46) [Revoked]

* * * * *

(48) [Revoked]

* * * * *

(52) [Revoked]

(53) [Revoked]

* * * * *

(c) *Interdepartmental Programs.* * * *

(2) Two Private Secretaries engaged in the interdepartmental activities of the office of the Secretary of Defense.

* * * * *

(e) *Defense Civil Preparedness Agency.* * * *

(2) [Revoked]

* * * * *

§ 213.3308 Department of the Navy.

(a) *Office of the Secretary.* (1) [Revoked]

* * * * *

(3) thru (7) [Revoked]

* * * * *

(11) [Revoked]

* * * * *

§ 213.3309 Department of the Air Force.

(a) *Office of the Secretary.* * * *

(5) [Revoked]

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.73-16524 Filed 8-9-73;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 82—EXOTIC NEWCASTLE DISEASE; AND PSITTACOSIS OR ORNITHOSIS IN POULTRY

Area Released From Quarantine

This amendment exclues a portion of Riverside County in California from the areas quarantined because of exotic Newcastle disease. Therefore, the restrictions pertaining to the interstate movement of poultry, mynah and psittacine birds, and birds of all other species under any form of confinement, and their carcasses and parts thereof, and certain other articles from quarantined areas, as contained in 9 CFR Part 82, as amended, will not apply to the excluded area.

Pursuant to the provisions of sections 1, 2, 3, and 4 of the Act of March 3, 1905, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, sections 4, 5, 6, and 7 of the Act of May 29, 1884, as amended, and sections 3 and 11 of the Act of July 2, 1962 (21 U.S.C. 111, 112, 113, 115, 117, 120, 123, 124, 125, 126, 134b, 134f), Part 82, Title 9, Code of Federal Regulations is hereby amended in the following respects:

In § 82.3, in subparagraph (a) (1) relating to the State of California, subdivision (iii) relating to San Bernardino and Riverside Counties is amended to read:

(a) • • •
(1) *California.*

(iii) That portion of San Bernardino County bounded by a line beginning at the junction of the eastern edge of U.S. Highway 395 and the northern border of Interstate Highway 10; thence, following the northern border of Interstate Highway 10 in an easterly direction to the western edge of Alabama Street; thence, following the western edge of Alabama Street in a northerly direction to the northern edge of California State Highway 30; thence, following the northern edge of California State Highway 30 in an easterly direction to the San Bernardino National Forest boundary line;

V 38-154 AUG 10 73 XUM

thence, following the San Bernardino National Forest boundary line in an easterly, then southerly direction to the San Bernardino meridian in San Bernardino County; thence, following the San Bernardino meridian in a southerly direction to the Riverside-San Bernardino County line; thence, following the Riverside San Bernardino County line in a generally westerly direction to the eastern edge of U.S. Highway 395; thence, following the eastern edge of U.S. Highway 395 in a northerly direction to its junction with the northern border of Interstate Highway 10.

* * * * *

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 115, 117, 120, 123–126, 134b, 134f; 37 FR 28464, 28477.)

Effective date. The foregoing amendment shall become effective August 6, 1973.

The amendment relieves certain restrictions presently imposed but no longer deemed necessary to prevent the spread of exotic Newcastle disease, and must be made effective immediately to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 6th day of August 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-16512 Filed 8-9-73;8:45 am]

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 73-1083]

PART 545—OPERATIONS

Maximum Term Regarding Unsecured Loans

AUGUST 2, 1973.

The Federal Home Loan Bank Board considers it desirable to amend § 545.8 of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.8), and a related explanatory statement, for the purpose of changing from 10 years and 32 days to 15 years and 32 days the maximum term authorized for certain loans which Federal savings and loan associations may make without the requirement of security. Accordingly, the Federal Home Loan Bank Board hereby amends said § 545.8 by revising subdivision (v) of subparagraph (1) of paragraph (a) thereof and also amends the first paragraph of the Explanatory Statement previously published in conjunction with said § 545.8 (37 FR 17024), to read as set forth below, effective September 10, 1973.

Since the above amendments relieve restriction, the Board hereby finds that notice and public procedure with respect to said amendments are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b).

§ 545.8 Loans without requirement of security.

(a) Without regard to any other provision of this part except the first two sentences of § 545.6–10, any Federal association that has amended Charter K by the addition thereto of section 14.1 and any Federal association that has a charter in the form of Charter K (rev.) or Charter N may, upon adoption of such a loan plan by its board of directors, invest in loans of the following types, but no investment shall be made under this section if immediately after such investment the outstanding aggregate of all investments of the association made under this section would exceed 20 percent of the association's assets:

(1) Any loan, with or without security, for property alteration, repair, or improvement, or for the equipping of any residential real property, if the following requirements are met:

* * * * *

(v) The loan is repayable in equal weekly, bi-weekly, monthly, bi-monthly, or quarterly installments with the first installment due no later than 120 days from the date the loan is made and the final installment due no later than 15 years and 32 days from such date. However, the loan contract may provide for a first or final installment, or both, in an amount other than that of the regular installment but, in such instances, such installment shall not be less than one-half of, nor more than one and one-half times, the amount of the regular installment; and

* * * * *

EXPLANATORY STATEMENT WITH RESPECT TO REGULATORY PROVISION RELATING TO LOANS FOR HOME EQUIPPING AND MODERNIZATION

Subparagraph (1) of paragraph (a) of § 545.8 of the Rules and Regulations for the Federal Savings and Loan System is designed in part to implement the authority granted to the Board by the Housing and Urban Development Act of 1968 (Public Law 90–448, approved August 1, 1968), to authorize, in addition to property repair, alteration, and improvement loans previously provided for in the Regulation, Federal savings and loan associations to make loans for home equipping, whether or not such loans are secured by a lien on such equipment or such home. This subparagraph provides, in part, as follows: The total amount of outstanding equipping loans on the same real property may not exceed $5,000, and separate loans of up to $5,000 each may be outstanding for different repairs, alterations, or improvements on such property; loans made pursuant to this provision shall be repayable in regular installments within a period of 15 years and 32 days; the home to be equipped must be within the lender's regular lending area; and the aggregate amount of an association's investments in all such equipping loans shall not exceed 5 percent of the lending association's assets and shall be included in the loans subject to the overall 20-percent-of-assets limitation for all loans made under § 545.8.

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464, Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] HENRY A. CARRINGTON,
Secretary.

[FR Doc.73-16623 Filed 8-9-73;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 73-CE-11-AD; Amdt. 39-1701]

PART 39—AIRWORTHINESS DIRECTIVES

Cessna Airplanes

There have been reports of power loss due to fuel starvation on certain models of Cessna aircraft equipped with the Javelin 18 gallon auxiliary fuel tank resulting from improper auxiliary fuel transfer procedures. Specifically, if the pilot fails to turn off the auxiliary fuel transfer pump after transferring auxiliary fuel and selects the right or both tanks, the fuel pump discharges air into the aircraft's fuel system and fuel starvation results. The manufacturer has issued a service letter which recommends installation of a new placard which provides clarifying instructions for fuel transfer procedures on affected aircraft. Service history has established that installation of and compliance with this placard is necessary to assure safe operation of the airplane. Accordingly, since the condition described herein can exist or develop in other aircraft of the same type design an Airworthiness Directive is being issued applicable to Cessna Models 170, 172, 175, 180 and 182 airplanes having the Javelin 18 gallon auxiliary fuel tank, making installation of the placard mandatory.

Since a situation exists which requires expeditious adoption of the amendment, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator 14 CFR 11.89 (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new AD:

CESSNA. Applies to all series of Cessna Models 170, 172, 175, 180 and 182 airplanes equipped with the 18 gallon auxiliary fuel tank manufactured by the Javelin Aircraft Company, Wichita, Kansas.

Compliance: Required within 100 hours time in service after the effective date of this AD, unless already accomplished.

To advise the pilot concerning proper fuel transfer pump operation, install Javelin Placard 782–14 or an equivalent FAA-approved placard, adjacent to the fuel transfer pump switch which reads as follows:

"AUXILIARY FUEL TRANSFER PUMP. PULL ON; PUSH OFF. PLACE PUMP OFF BEFORE CHANGING FROM LEFT TANK."

NOTE: Failure to turn off fuel boost pump allows air to enter engine fuel system and may cause engine power failure when fuel selector valve is changed from left tank position.

Cessna Service Letter No. SE69–24 dated November 21, 1969, or subsequent FAA-approved revisions cover this subject matter.

This amendment becomes effective August 16, 1973.

This amendment is made under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354 (a), 1421 and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Missouri, on August 2, 1973.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc.73-16502 Filed 8-9-73;8:45 am]

[Docket No. 13113; Amdt. 39-1702]

PART 39—AIRWORTHINESS DIRECTIVES

Slingsby Dart Gliders

Pursuant to the authority delegated to me by the Administrator, an airworthiness directive (AD) was adopted on June 27, 1973, and made effective immediately upon receipt of the airmail letter AD as to all known U.S. operators of Slingsby Model T.51 Dart gliders because of a determination by the FAA that the wing spars of those gliders could be corroded to such a degree that a loss of wing structural integrity could result. The AD requires an inspection for metal corrosion, measurement of the depth of such corrosion, and if beyond the stated limits, repair or replacement of the affected parts.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately as to all known U.S. operators of Slingsby Model T.51 Dart gliders by airmail letters dated June 27, 1973. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

This amendment is made under the authority of secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354 (a), 1421, and 1423), and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

SLINGSBY. Applies to all Model T.51 Dart Gliders which have metal reinforced wing spars.

Compliance is required as indicated.

To prevent possible loss of wing structural integrity due to corrosion of the wing spars, accomplish the following:

Before July 14, 1973, unless already accomplished within the last year, and thereafter at intervals not to exceed one year since the last inspection—

(a) Cut seven inspection holes in the lower surface skin of each wing in accordance with Slingsby Technical Instruction No. 58, Issue 1, dated May, 1973, or an FAA-approved equivalent;

(b) Visually inspect the metal portion of the spars for corrosion;

NOTE: During the inspection required by paragraph (b), particular attention should be directed to the bolted joints and rib attachment areas.

(c) If corroded areas are found during an inspection required by paragraph (b), measure the depth of the corrosion in the affected areas;

(d) If corrosion is found which exceeds a depth of 0.007 of an inch, before further flight, repair the corroded areas, or replace the corroded parts with serviceable identical parts or FAA-approved equivalents; and

(e) Close the inspection holes cut in accordance with paragraph (a).

(f) Notification in writing must be sent to the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Region, American Embassy, APO New York, N.Y. 09667, stating the results, positive or negative, of each inspection required by this AD, within 10 days after such inspections. (Reporting approved by the Bureau of the Budget under BOB No. 04–R0174).

This amendment is effective on August 17, 1973, as to all persons except those persons to whom it was made immediately effective upon receipt of the airmail letter dated June 27, 1973, which contained this amendment.

Issued in Washington, D.C., on August 2, 1973.

C. R. MELUGIN, Jr.,
Acting Director,
Flight Standards Service.

[FR Doc. 73-16503 Filed 8-9-73;8:45 am]

[Airspace Docket No. 73-SO-42]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Savannah, Ga., Transition Area

On June 27, 1973, FR Document No. 73–12847 was published in the FEDERAL REGISTER (38 FR 16843), amending Part 71 of the Federal Aviation regulations by altering the Savannah, Ga., control zone and transition area.

In the amendment, an extension to the transition area was predicated on the Savannah VORTAC 052° radial in lieu of the 061° radial. It is necessary to amend the FR Document to reflect the correct radial. Since this amendment is minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, effective immediately, FR Document No. 73–16843 is amended as follows:

In line 5 of the Savannah, Ga., transition area description "* * * 052° * * *" is deleted and "* * * 061° * * *" is substituted therefor.

This amendment is made under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on July 26, 1973.

DUANE W. FREER,
Acting Director, Southern Region.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket C-2425]

PART 13—PROHIBITED TRADE PRACTICES

Boise Tire Co. and Richard E. Larson

Subpart—Advertising falsely or misleadingly: § 13.175 *Quality of product or service:* § 13.205 *Scientific or other relevant facts:* § 13.210 *Scientific tests.* Subpart—Misrepresenting oneself and goods—Goods: § 13.1710 *Qualities or properties:* § 13.1740 *Scientific or other relevant facts.* Subpart—Offering unfair, improper and deceptive inducements to purchase or deal: § 13.2063 *Scientific or other relevant facts.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Boise Tire Company, et al., Boise, Idaho, Docket C-2425, July 16, 1973]

In the Matter of Boise Tire Company, a corporation, and Richard E. Larson, individually and as an officer of said corporation.

Consent order requiring a Boise, Idaho, seller and distributor of automotive tires and other automotive accessories, principally Uniroyal products, among other things to cease misrepresenting the quality, design, or service of its products; and misrepresenting scientific tests and their results.

The order to cease and desist; including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Boise Tire Company, a corporation, its successors and assigns, and its officers, and Richard E. Larson, individually and as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale, or distribution of tires or any other automotive accessories, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing in writing, orally, visually or in any other manner, directly or by implication:

A. That Zeta Tires have been rated "#1" as to quality, design or service;

B. That any tires or other automotive accessories have been rated or compared

V 38-154 AUG 10 73 XUM

as to quality, grade, line, level, design, performance or other characteristics (except in conformance with a government approved or industrywide standard, if and when such is developed) unless:

1. The representation is fully substantiated by controlled scientific tests, the results and methodology of which are available for public inspection; and

2. The representation is accompanied by a clear and conspicious statement that there are no industrywide or other accepted standards of quality or grading, that the representation relates only to the private standard of the seller or manufacturer, and that the test results and methodology on which the representation is based are available for public inspection.

It is further ordered, That respondents cause the publication in the sports section of the Idaho Statesman, in large bold face type, of a retractive advertisement one quarter page in size. It shall be devoted exclusively to a clear and conspicuous statement that, contrary to previous advertisements of Boise Tire Company, neither Uniroyal Zeta Steel Radial Tires nor those of any other manufacturer have been rated by any government or accepted industrywide system, and that in fact no such system for rating or grading tires exists. This advertisement shall also include the following sentence, in 14-point block capital letters:

THIS ADVERTISEMENT IS PUBLISHED PURSUANT TO ORDER OF THE FEDERAL TRADE COMMISSION.

Said advertisement shall be published within sixty (60) days after service upon them of this order.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment, and of his affiliation with a new business or employment, in the event of such discontinuance or affiliation. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

Issued: July 16, 1973.

By the Commission.

[SEAL] CHARLES A. TOBIN, *Secretary.*

[Docket C-2423]

PART 13—PROHIBITED TRADE PRACTICES

Hoosier Piano and Organ Co., Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.155 *Prices;* 13.155–40 Exaggerated as regular and customary; 13.155–78 Repossession balances; 13.155–95 Terms and conditions; 13.155–100 Usual as reduced, special, etc.; § 13.160 *Promotional sales plans.* Subpart—Misrepresenting oneself and goods—Prices: § 13.1805 *Exaggerated as regular and customary:* § 13.1830 *Retail as cost, etc., or special;* § 13.1823 *Terms and conditions;* § 13.1825 *Usual as reduced or to be increased—PROMOTIONAL SALES PLANS:* § 13.1830 *Promotional sales plans.* Subpart—Offering unfair, improper and deceptive inducements to purchase or deal: § 13.2013 *Offers deceptively made and evaded.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Hoosier Piano and Organ Co., Inc., et al., Shelbyville, Indiana, Docket C-2423, July 12, 1973]

In the Matter of Hoosier Piano and Organ Co., Inc., a corporation, and William A. Donica, individually and as an officer of said corporation.

Consent order requiring a Shelbyville, Indiana, piano retailer, among other things to cease misrepresenting the manner in which merchandise has been reacquired from former purchasers or the terms and conditions under which such merchandise is being offered for sale for the unpaid balance of the original purchase price; making sale offers which are not bona fide offers; representing retail prices as usual and customary unless such is the case; misrepresenting prices as reduced from respondent's former price; and using false, misleading or deceptive sales plans or programs.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Hoosier Piano and Organ Co., Inc., a corporation, its successors and assigns, and William A. Donica, individually, and as an officer of said corporation (hereinafter sometimes referred to as "respondents"), and respondents' officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale, or distribution of pianos or other merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing, orally, visually, in writing, or in any other manner, directly or indirectly that:

1. Pianos or other merchandise have been repossessed or in any manner reacquired from a former purchaser, or are being offered for sale for the unpaid balance, or any portion thereof, of the original purchase price, or for the amount or any portion of the amount owed by a former purchaser; however, it shall be a defense hereunder for respondents to show that said advertised products actually are of the character stated and are offered for sale and sold on the terms and conditions represented.

2. Any pianos or other merchandise are being offered for sale when such offer is not a bona fide offer to sell the advertised merchandise on the terms and conditions stated.

3. Any amount is respondents' usual and customary retail price for merchandise unless such amount is the price at which the merchandise has been usually and customarily sold at retail by respondents in the recent regular course of business.

4. Any price is reduced from respondents' former price if respondents' business records fail to establish and show that such price constitutes a significant reduction from the price at which such merchandise has been sold in substantial quantities or offered for sale in good faith for a reasonably substantial period of time, by respondents in the recent, regular course of their business.

5. Any saving is affored in the purchase of merchandise from the respondents' retail price unless the price at which the mercandise is offered constitutes a reduction from the price at which said merchandise is usually and customarily sold at retail by the respondents in the recent regular course of business.

6. Persons responding to advertisements will be dealing with credit department personnel, or will be dealing with any other person than sales personnel.

It is further ordered, That respondents shall cease and desist from using any sales plan or procedure involving the use of false, misleading, or deceptive statements to induce the sale of pianos or other merchandise offered by respondents or to obtain leads or prospects for the sale of pianos or other merchandise.

It is further ordered, That respondents, for a period of one year from the effective date of this order, shall furnish each newspaper or other advertising medium which is utilized by the respondents to obtain leads for the sale of pianos or other merchandise, or to advertise, promote, or sell pianos or other merchandise, with a copy of the Commission's News Release setting forth the terms of this order.

It is further ordered, That respondents serve a copy of this order upon each present and every future agent, representative, salesman, and employee engaged in the sale of pianos or other merchandise; that respondents obtain from each such person so served a written acknowledgement of the receipt thereof and an agreement in writing to abide by the terms of this order; and that respondents discharge any such person so served for failure to abide by the terms of this order.

It is further ordered, That respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions and employees.

It is further ordered, That the respondents shall notify the Commission, at least thirty (30) days prior to any proposed change in their business organization such as dissolution, assignment, incorporation, or sale resulting in the emergence of a successor firm, partnership, or corporation, or any other change which may affect compliance obligations arising out of this order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

Issued: July 12, 1973.

By the Commission.

[SEAL] CHARLES A. TOBIN, *Secretary.*

[Docket C-2424]

PART 13—PROHIBITED TRADE PRACTICES

RJR Foods, Inc., and William Esty Company, Inc.

Subpart—Advertising falsely or misleadingly: § 13.45 *Content:* § 13.135 *Nature of product or service:* § 13.175 *Quality of product or service.* Subpart—Misrepresenting oneself and goods—Goods: § 13.1605 *Content:* § 13.1685 *Nature:* § 13.1710 *Qualities or properties.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1850 *Content:* § 13.1870 *Nature:* § 13.1885 *Qualities or properties.* Subpart—Using deceptive techniques in advertising: § 13.2275 *Using deceptive techniques in advertising;* 13.2275–65 *Labeling depictions.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45, 52) [Cease and desist order, RJR Foods, Inc., et al., New York City, New York, Docket C-2424, July 13, 1973]

In the Matter of RJR Foods, Inc., a corporation, and William Esty Company, Inc., a corporation.

Consent order requiring a New York City manufacturer, seller and distributor of beverages designated "Hawaiian Punch," and its New York City advertising agency, among other things to cease misrepresenting the natural fruit juice content of fruit-flavored beverages, and depicting fruit or juice in labeling. In addition, the firm must make certain affirmative disclosures for a period of one (1) year and thereafter until a consumer survey is taken which gauges the need for continuing the disclosures.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

I. *It is ordered,* That respondent, RJR Foods, Inc., a corporation, and William Esty Company, Inc., a corporation, their successors and assigns, and their officers, agents, representatives and employees, directly, or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale or distribution of any fruit-flavored, noncarbonated beverage under the "Hawaiian Punch" trademark, as a frozen concentrate, liquid, liquid concentrate, powder, or in any other physical state, whether or not containing natural fruit juice, forthwith cease and desist for a period of one year after service of the order upon RJR Foods, Inc. and William Esty Company, Inc., and thereafter until respondents submit to the Commission the results of a survey conforming in protocol, procedure and results to Appendix A to this order, from:

1. Disseminating or causing the dissemination of, any advertisement by means of the United States mails or by any other means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which depicts fruit or juice unless (a) the total percentage of single strength fruit juice contained in a concentration at which the product is intended to be served is clearly and conspicuously disclosed; or (b) the said product contains 100 percent single-strength fruit juice in a concentration at which the product is intended to be served.

It is provided, however, that the use of the word "fruit" or the use of the name of a fruit(s) to describe the taste or flavor of said product shall not, solely on the basis of such use, be deemed a violation of this order.

It is further provided, That for purposes of compliance with this order, the disclosure required above will be deemed clear and conspicuous in television advertising if (a) it appears at least once in each television commercial; (b) it is presented simultaneously in both the video and audio portions of the commercial; (c) the video portion (i) is of a sufficient size so that it can be easily read on all commercially available tube sizes, and (ii) it appears on the screen for a sufficient period to permit it to be read by the viewer, but not for less time than the audio portion; and (d) any other video or audio material accompanying the disclosure is not inconsistent with normal artistic and technical standards.

2. Disseminating, or causing the dissemination of, any advertisement by any means, for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase of any such product, in commerce, as "commerce" is defined in the Federal Trade Commission Act, which contains any of the representations, acts or practices prohibited in subparagraph 1 above.

For the purposes of compliance with this order, respondent William Esty Company, Inc., may rely in good faith upon information concerning the composition of any such product supplied by the manufacturer or processor of said product, provided that respondent neither knows nor has reason to know that any claim covered by this part is false or deceptive.

II. *It is further ordered,* That respondent, RJR Foods, Inc., a corporation, and William Esty Company, Inc., a corporation, their successors and assigns, and their officers, agents, representatives and employees, directly, or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale, sale or distribution of any fruit-flavored beverage, as a frozen concentrate, liquid concentrate, powder or in any other physical state, whether or not containing natural fruit juice, forthwith cease and desist from:

1. Disseminating, or causing the dissemination of, any advertisement by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which represents, through the manner of the use of words or depictions, photographs, or other representations of fruit, that the natural fruit content of any product is greater than its actual fruit juice content.

2. Disseminating, or causing the dissemination of, any advertisement by any means, for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase of any such product, in commerce, as "commerce" is defined in the Federal Trade Commission Act, which contains the representations prohibited in subparagraph 1 above.

It is provided, however, That the use of the word "fruit" or the use of the name of a fruit(s) to describe the taste or flavor of said product shall not, solely on the basis of such use, be deemed a violation of this order.

It is further provided, That respondents shall not be deemed in violation of Part II of this order with respect to any such fruit-flavored beverage so long as (a) they are in compliance with Part I above as to such fruit-flavored beverage, or (b) they have available a survey conforming in protocol, procedure (other than the independence of the survey supervisor) and results to Appendix A to this order as to such fruit-flavored beverage.

V 38 154 AUG 10 73 XUM

For the purposes of compliance with this order, respondent William Esty Company, Inc., may rely in good faith upon information concerning the composition of any such product supplied by the manufacturer or processor of said product: *Provided*, That respondent neither knows nor has reason to know that any claim covered by this part is false or deceptive.

III. *It is further ordered*, That respondent, RJR Foods, Inc., its successors and assigns, and its officers, agents, representatives and employees directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale, sale, distribution or labeling of the products described in Part I above in commerce, as "commerce" is defined in the Federal Trade Commission Act, forthwith cease and desist for a period of one year, and thereafter until respondents submit to the Commission the results of a survey conforming in protocol, procedure and results to Appendix A to this order, from depicting fruit or juice in labeling, as "labeling" is defined in the Federal Food, Drug, and Cosmetic Act, unless (a) the total percentage of single strength fruit juice contained in a concentration at which the product is intended to be served is clearly and conspicuously disclosed in any labeling containing such use; or (b) the said product contain 100 percent single-strength fruit juice in a concentration at which the product is intended to be served.

It is provided, however, That conformity to any affirmative regulation or standard issued under the Federal Food, Drug, and Cosmetic Act providing for the disclosure of fruit juice content on the label or labeling of said product will be deemed compliance with the requirements of this Paragraph III; and that the use of the word "fruit" or the use of the name of a fruit(s) to describe the taste or flavor of said product shall not, solely on the basis of such use, be deemed a violation of this order.

For purposes of compliance with this order, the disclosure required above shall be deemed clear and conspicuous in labeling if (a) it appears on any appropriate information panel as that term is used in 21 CFR 1.10(h); (b) it appears in numbers of a color or shade that readily contrast with the background; (c) it appears in a type face of not less than 6 point on a 46-fluid ounce container, 4 point on a 12-fluid ounce container, and in proportional type sizes for other container sizes; and (d) it appears as part of any tabular, charted or graphic presentation if the label bears a compositional comparison between said product and any other product.

It is further ordered, That respondents shall forthwith distribute a copy of this order to each of their operating divisions engaged in the advertising, offering for sale, sale, distribution or labeling of any aforementioned product.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondents such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporations which may affect compliance obligations arising out of the order, including but not limited to the sale or acquisition of the business of advertising, offering for sale, sale, distribution, or labeling of fruit flavored beverages by affiliated corporations of respondent, RJR Foods, Inc.

It is further ordered, That respondents shall, within sixty (60) days after service of the order upon them, each file with the Commission a report in writing, signed by such respondents, setting forth in detail the manner and form of their compliance with the order to cease and desist.

It is provided, however, That RJR Foods, Inc., will be deemed in compliance with Part III of this order if the required disclosure appears on labels placed into production within sixty (60) days after service of the order upon RJR Foods, Inc., or September 1, 1972, whichever is later.

Isssued: July 13, 1973.

By the Commission.

[SEAL] CHARLES A. TOBIN, *Secretary.*

APPENDIX A

A. *Survey results.* If a survey conducted in accordance with section B shows that (a) 67 percent of current purchasers of fruit-flavored beverages (see Para. B.2.a. below); or (b) 80 percent of current or prospective purchasers of Hawaiian Punch products (see Para. B.2.b.); or (c) 95 percent of current purchasers of Hawaiian Punch products (see Para. B.2.C.) think that Hawaiian Punch products contain no more than 20 percent natural fruit juice, then the disclosure described in sections I and III of the order will no longer be required after one year from the date of serving of this order upon RJR Foods, Inc. and William Esty Company, Inc.

B. *Survey protocol & procedure.* 1. This survey, including the processes of sampling, data, generation analysis, and interpretation of results, shall be conducted by independent experienced interviewers and supervisors.

2. Using telephone directories representing the entire United States, a national probability sample will be drawn; within the limitations of this method of sample selection, the sample will be projectable to the total population. Interviewers will call the numbers to locate 500 individuals who have (a) purchased fruit-flavored noncarbonated beverages in the last month; or (b) purchased Hawaiian Punch brand fruit-flavored beverages in the last month, or express an intent to do so within the succeeding month or so; or (c) purchased Hawaiian Punch brand fruit-flavored beverages in the last month. If there is no answer when a selected telephone number is called, the number will be tried again, up to two additional times, at different times of day and on different days of the week. Approximately 20 percent of each interviewer's work will be validated by telephone.

3. Only the following questions will be asked in these interviews:

A. "Hello, my name is ----------, and I am calling for a national research company that is conducting a survey about beverages. Do you ever buy fruit drinks?"

B. If answer to "A" is "no," or if the respondent is a child, ask, "May I please speak to the main food purchaser in your home?" Then start again at question "A" with the main food purchaser.

C. "In the past month, have you bought any canned fruit drinks?"

D. "What brand or brands do you usually buy?"

E. How likely would you say that you are to buy one or more cans of (name of brands named in "D") in the next month or so? Would you say you are * * *

1. "Sure that you won't," ------
2. "Not likely," ------
3. "Fairly likely," ------

or

4. "Quite likely" to buy (name of brand) ------

In the event that a respondent has not named Hawaiian Punch in response to "D", insert this brand as follows: If one, two, or three other brands are mentioned, insert Hawaiian Punch as the second brand; if four or more brands are mentioned, insert Hawaiian Punch as the *third* from last brand.

Responses 1 and 2 to question "E" will not be counted in population option B.2.b.; responses 3 and 4 will be counted in that option.

F. In the case of population options B.2.b. and B.2.c., ask only respondents who name Hawaiian Punch in "D" or "E", and in the case of population option B.2.a., ask *all* respondents: "Now I would like to ask you to rate the fruit *juice* content of some canned fruit drinks. If you think the brand is composed entirely of fruit juice, rate it 100 percent. If you think it has no fruit juice, rate it as 0 percent. Please pick a figure from 0 to 100 that expresses the brand's fruit juice content. How would you evaluate (brand name)?"

Repeat last sentence for each brand mentioned in response to "D" and "E", in order used by respondent. In the event that a respondent in population option B.2.a. has not mentioned Hawaiian Punch, insert this brand as follows: If one, two, or three other brands are mentioned, insert Hawaiian Punch as the second brand, if four or more brands are mentioned, insert Hawaiian Punch as the *third* from last brand.

G. "Thank you very much for your help."

4. The completed questionnaires will be edited and coded, with the punching verified for approximately 20 percent of the punched columns.

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Approval of Alaska Plan

1. *Background.* Part 1902 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) whereby the several States may submit for approval, under the requirements of that section, plans to assume responsibility for the development and enforcement of State occupational safety and health standards.

The State of Alaska submitted a plan pursuant to Part 1902, requesting approval of the plan by the Assistant Secretary for Occupational Safety and Health

to the Regional Administrator, December 11, 1972. On February 5, 1973, the plan was formally submitted to the Assistant Secretary and on February 20, 1973, a notice was published in the FEDERAL REGISTER (38 FR 4695) concerning the submission of the plan and the fact that the question of its approval was in issue before the Assistant Secretary. The plan includes provisions for making changes in the State's current occupational safety and health program that appear necessary to bring it into full conformity with the requirements of section 18(c) of the Act and 29 CFR Part 1902.

The Department of Labor is the State agency designated by the Governor to administer the plan throughout the State. The plan defines the covered occupational safety and health issues as defined by the Secretary of Labor in 29 CFR 1902.2(c)(1) under four major codes for general safety, industrial housing, electrical hazards, and occupational health and environmental controls. The plan also includes vertical special industry codes for construction, wood products, petroleum, and fishing.

During the review of the Alaska plan, the State legislature passed enabling legislation amending Chapter 18 of the Alaska statutes. The legislation has been signed by the Governor and its effective date is July 24, 1973.

Under the legislation, the Department of Labor has full authority to enforce and administer laws respecting safety and health of employees in all workplaces of the State, including coverage of public employees, with the exceptions of maritime workers in the area of exclusive Federal jurisdiction; employees of the United States; employees protected by State agencies under the Atomic Energy Act of 1954, (42 U.S.C. 2021); and employees whose working conditions are regulated by Federal agencies other than the U.S. Department of Labor under the provisions of section 4(b)(1) of the Occupational Safety and Health Act of 1970 (84 Stat. 1592, 29 U.S.C. 653 (b)(1)).

The legislation contains procedures for inspections including inspections in response to complaints; protection from discharge or discrimination through complaints to the Commissioner of Labor; promulgation of standards prescribing requirements "at least as effective" as requirements in Federal standards; emergency temporary standard-setting authority and rulemaking authority under the State Administrative Procedure Act; sanctions; imminent danger abatement by administrative order and court injunction; and review of citations and penalties by an independent Occupational Safety and Health Review Board.

The major provisions of the plan and the proposed schedule for its development are summarized in a new Subpart R of 29 CFR Part 1952. Included in the plan is a statement of legal opinion that the legislation is consistent with the Constitution and laws of Alaska. The plan sets out goals and provides a timetable for bringing it into full conformity with Part 1902 at the end of three years after commencement of operations under the plan.

2. *Issues.* Interested persons were afforded thirty days from the date of publication to submit written comments concerning the plan. Further, interested persons were afforded an opportunity to request an informal hearing with respect to the plan or any part thereof by setting out particularized substantial objections to the contents of the plan. No comments were received and there were no requests for a hearing. Department review raised several significant issues which were clarified by Alaska in supplementary letters dated May 25, 1973, June 15, 1973, and July 10, 1973, and incorporated as part of the plan.

(a) *Occupational Health.* As initially submitted the state program did not provide sufficient information on staffing and interagency coordination in the occupational health area. The State has submitted a new staffing program including hiring one industrial hygienist immediately after plan approval and three more hygienists by the end of the three year developmental period. Enforcement authority over occupational health will remain in the Department of Labor. The Department will contract with the Division of Public Health for radiation inspection services and these inspections will be conducted in accordance with the requirements of the safety and health law in Alaska. Results of other health inspections made by the Division of Public Health will be reported to the Department of Labor for any necessary enforcement action. The two agencies have entered into an agreement to this effect and it is incorporated as part of the plan.

(b) *Standard comparison.* As part of its plan, Alaska submitted a standard comparison of State and Federal standards for a determination as to whether the State standards are "at least as effective" as the Federal standards. Based on an analysis of Alaska's standards comparison Subparts D, G, H, I, N, O, and P of Part 1910 have been determined to be at least as effective. Subparts E, F, J, K, L, M, Q, and S have been withdrawn by Alaska and in accordance with § 1902.20(b)(1)(ii), these subparts will be submitted by Alaska as developmental codes.

(c) *Emergency temporary standards.* Alaska's Administrative Procedure Act (APA) has a general provision dealing with emergency rulemaking proceedings that differs from the procedure under the Occupational Safety and Health Act in several respects. Because it is applicable to all emergency rulemaking procedures in the State the APA does not contain the specific criteria in section 6(c)(1) of the Act. Rather, these criteria would be incorporated under the general language of the Alaska statute which refers to the "immediate preservation of public peace, health, safety or general welfare." Occupational safety and health would be included within the meaning of public safety and health under the Alaska statute.

In addition the time limit for the effectiveness of an emergency temporary standard in Alaska is 120 days after which the standard expires unless a permanent standard has been adopted. When a Federal emergency standard is adopted, the 120 day limit, which is shorter than the 6 month limit in the Federal Act, presents some coordination problems for the State in adopting an "at least as effective as" standard. Alaska realizes that its permanent standard may differ from the Federal permanent standard, and if it is found to be not "at least as effective", another standard-setting procedure may be required in the State.

Since it is not apparent that Alaska's emergency temporary standard procedure will diminish the effectiveness of the program in such a manner as to warrant amendment of the enacted safety and health law and because of the Statewide policy enunciated in the APA limiting the time period for effectiveness of emergency standards, the Alaska procedure is considered at least as effective subject to containing evaluation of the operation of the standard-setting procedure.

(d) *General duty requirement.* Alaska's legislation does not have a general duty clause directing employers to provide a place of employment free from recognized hazards. The State's legislation requires the employer to "do everything necessary to protect the life, health and safety of employees". Under the requirements in 29 CFR Part 1902, a State is not required to have a general duty clause. Therefore when a State chooses to provide such a clause, it does not have to demonstrate that the clause itself is "at least effective as" the Federal provision, unless an evaluation would show that the implementation of the State general duty clause limits the overall effectiveness of the enforcement program which must remain "at least as effective as" the Federal program.

(e) *Statute of limitations.* Citations under the Federal Act may not be issued after the expiration of six months following the occurrence of a violation. Alaska's legislation has a statute of limitations on issuing a citation of 180 days following the "discovery of the violation by the department or correction of the violation." The State Attorney General in an opinion letter to the Commissioner of the Department of Labor states that the proper reading of the section is that "if an employer discovers and corrects a safety violation on his own initiative, the Department of Labor can cite the employer only if it learns of the violation and acts appropriately within 180 days of the corrective action". Use of the date of correction is an appropriate criteria for a statute of limitations on issuing citations since there no longer is a violation after the employer has taken corrective action. In addition, Alaska's statute of limitations reinforces the legislative provisions for first instance sanc-

V 38-154 AUG 10 73 XUM

tions by specifically authorizing citations for violations previously corrected if the Department of Labor is notified of the violation within 180 days of correction.

3. *Decision.* After careful consideration of the Alaska plan, the plan is hereby approved under section 18 of the Act and Part 1902.

This decision incorporates requirements of the Act and implementing regulations applicable to State plans generally. It also incorporates our intentions as to continued Federal enforcement of Federal standards in areas covered by the plan and the State's developmental schedule as set out below.

Pursuant to § 1902.20(b)(1)(iii) of Title 29, Code of Federal Regulations, the present level of Federal enforcement in Alaska will not be diminished at this time because of the developmental nature of Alaska's standard-setting and enforcement program under its enacted legislation. Among other things the U.S. Department of Labor will continue to inspect catastrophes and fatalities, investigate valid complaints under section 8(f), continue its Target Safety and Target Health programs, and inspect a cross-section of all industries on a random basis. Following the commencement of operations under the State plan periodic evaluations of the plan will be made to assess the appropriate level of Federal enforcement activity. Federal enforcement activity will continue to be exercised to the degree necessary to assure occupational safety and health protection to employees in the State of Alaska. Part 1952 is hereby amended by adding thereto a new Subpart R reading as follows:

Subpart R—Alaska

Secs.
1952.240 Description of the plan.
1952.241 Where the plan may be inspected.
1952.242 Level of Federal enforcement.
1952.243 Developmental schedule.

AUTHORITY: Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667).

Subpart R—Alaska

§ 1952.240 Description of the plan.

(a) The Department of Labor is the State agency designated by the Governor to administer the plan throughout the State. The plan defines the covered occupational safety and health issues as defined by the Secretary of Labor in § 1902.2(c)(1) of this chapter under four major codes for general safety, industrial housing, electrical hazards, and occupational health and environmental controls. The plan also includes vertical special industry codes for construction, wood products, petroleum, and fishing. Appendix G of the plan contains a timetable for adoption of the standards beginning with the effective date of the grant approved under section 23(g) of the Act. The timetable requires from 6 to 36 months for completion of the standard-setting process with most of the standards to be adopted within 6 months of the effective date of the grant.

(b)(1) The plan included draft legislation which has been passed by the State legislature and signed by the Governor amending Chapter 18 of the Alaska Statutes. Under the legislation, effective July 24, 1973, the Department of Labor has full authority to enforce and administer laws respecting safety and health of employees in all workplaces of the State, including coverage of public employees, with the exceptions of maritime workers in the area of exclusive Federal jurisdiction; employees of the United States; employees protected by State agencies under the Atomic Energy Act of 1954, (42 U.S.C. 2021); and employees whose working conditions are regulated by Federal agencies other than the U.S. Department of Labor under the provisions of section 4(b)(1) of the Occupational Safety and Health Act of 1970. (84 Stat. 1592, 29 U.S.C. 653(b)(1)).

(2) The legislation brings the plan into conformity with the requirements of Part 1902 of this chapter in areas such as procedures for granting or denying permanent and temporary variances to standards by the Commissioner; protection of employees from hazards; promulgation of standards by the Commissioner prescribing requirements "at least as effective" as the requirements for Federal standards including medical examinations and monitoring and measuring of hazards; imminent danger abatement by administrative order and court injunction; protection of employees against discharge or discrimination in terms or conditions of employment by filing complaints with the Commissioner who will seek court action through the State Attorney General; and adequate safeguards to protect trade secrets.

(3) The legislation provides for inspections, including inspections in response to complaints; gives employers and employee representatives an opportunity to accompany inspectors in order to aid inspections and provides for payment to employees for time spent in aiding an inspection; notification of employees or their representatives when no compliance action is taken as a result of an alleged violation, including informal review; notification of employees of their protections and obligations through legislative requirements on posting; provision for prompt notice to employers and employees of alleged violations of standards, and abatement requirements, through the issuance and posting of citations; a system of sanctions against employers for violations of standards; employer right of review to the Occupational Safety and Health Review Board; and employee participation in the review procedure with compensation for time spent by the employee.

(c) Included in the plan is a statement of legal opinion that the law, which was supported by the Governor in accordance with the requirements of Part 1902 of this Chapter, is consistent with the Constitution and laws of Alaska. The plan sets out goals and provides a timetable for bringing it into full conformity with Part 1902 of this chapter at the end of three years after commencement of operations under the plan. Personnel will be employed under the existing State merit system and the voluntary compliance program for on-site consultation meets the conditions set forth in the Washington decision (38 FR 2421). The plan also includes the State Administrative Procedure Act which authorizes the Commissioner to promulgate emergency temporary standards and issue rules and regulations necessary for the implementation of the safety and health law.

(d) The plan includes the following documents as of the date of approval:

(1) The plan document and appendices A through V.

(2) Alaska legislation as enacted amending Chapter 18 of the Alaska Statutes.

(3) Letters from the Commissioner of Labor dated May 25, 1973, June 15, 1973, and July 10, 1973.

§ 1952.241 Where the plan may be inspected.

A copy of the complete plan may be inspected and copied during normal business hours at the following locations: Department of Labor, 338 Denall, 710 McKay Building, Anchorage, Alaska 99501; Assistant Regional Director, Department of Labor, Room 1813, Smith Tower Building, 506 Second Avenue, Seattle, Washington 98104; Office of Federal and State Operations, Occupational Safety and Health Administration, Room 305, Railway Labor Building, 400 First Street NW., Washington, D.C. 20210.

§ 1952.242 Level of Federal enforcement.

Pursuant to § 1902.20(b)(1)(iii) of this chapter, the present level of Federal enforcement in Alaska will not be diminished because of the developmental nature of the standard-setting and enforcement areas of the State plan. Among other things the U.S. Department of Labor will continue to inspect catastrophes and fatalities, investigate valid complaints under section 8(f), continue its Target Safety and Target Health programs, and inspect a cross-section of all industries on a random basis.

§ 1952.243 Developmental schedule.

(a) Completion of a compliance manual within 6 months of plan approval;

(b) Promulgate within 6 months of the effective date of the grant under section 23(g), standards for general safety, industrial housing, environmental and health controls, construction, petroleum, and logging;

(c) Implement a Management Information System within one year of plan approval;

(d) Adopt regulations within one year of plan approval on exceptions to the prohibition on advance notice; record-keeping; providing information to employees on hazards including medical examinations and observation and access to monitoring results; definition of imminent danger; and employee participation as parties in review proceedings;

(e) Promulgate standards for sawmills and pulpmills within one year of grant approval;

(f) Adopt standards 18 months after grant approval for fishing and maritime;

(g) Operation of a permanent training program to replace the existing program within three years of plan approval;

(h) Promulgate within three years of grant approval standards on textiles, bakery equipment, laundry machinery and agriculture;

(i) Implementation of an occupational health program within three years of grant approval.

Signed at Washington, D.C. this 31st day of July 1973.

JOHN STENDER,
Assistant Secretary of Labor.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 73-168]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Patcong Creek, N.J.

This amendment revokes the regulations for the Atlantic County swing bridge at mile 0.5, Patcong Creek, Somers Point, New Jersey because this bridge has been removed.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by revoking subparagraph (9) of paragraph (f) of § 117.225.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Effective date. This revocation shall become effective on August 10, 1973.

Dated: August 3, 1973.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.73-16513 Filed 8-9-73;8:45 am]

[CGD 73-167R]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Orange River, Fla.

The FEDERAL REGISTER of April 24, 1973 at 38 FR 10085 revoked the regulations contained in 33 CFR 117.245(i)(2). The Seaboard Coast Line bridge had been removed; however, the Florida State Road Department bridge at mile 0.9 still is in use and the regulations governing the operation of this bridge should not have been changed. Therefore, this document reinstates those regulations. Minor editorial changes reflecting the present title of the National Weather Service are included.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by adding subparagraph (2) to paragraph (i) of § 117.245 to read as follows:

§ 117.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.

• • • • • •

(i) • • •

(2) Orange River, Florida; Florida State Road Department bridge, mile 0.9. The draw shall open on signal if at least 24 hours notice is given. However, during a hurricane alert for the Caloosahatchee and Orange Rivers area issued by the National Weather Service a draw tender shall be constantly on duty and the draw shall open at any time for the passage of vessels giving the signals set forth in § 117.240.

• • • • • •

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Effective date. This revision shall become effective on August 10, 1973.

Dated: August 2, 1973.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.73-16514 Filed 8-9-73;8:45 am]

[CGD 73-51R]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Whitcomb Bayou, Fla.

This amendment changes the regulations for the North Spring Boulevard (Beckett) drawbridge across Whitcomb Bayou in Tarpon Springs to require that the draw open on signal from 9 a.m. to 6 p.m. on Saturdays and Sundays and if at least 2 hours notice is given at all other times. This amendment was circulated as a public notice dated March 16, 1973 by the Commander, Seventh Coast Guard District and was published in the FEDERAL REGISTER as a notice of proposed rulemaking (CGD 73-51P) on March 14, 1973 (38 FR 6901). The city of Tarpon Springs objected to the 4 hour notice proposal but stated that the 2 hour notice as agreed to by the bridge owner is adequate.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by adding a new subparagraph (5-a) immediately after subparagraph (5) of paragraph (i) of § 117.245 to read as follow:

§ 117.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.

• • • • • •

(i) • • •

(5-a) Whitcomb Bayou, Fla. The draw shall open on signal from 9 a.m. to 6 p.m. on Saturdays and Sundays. At all other times the draw shall open on signal if at least 2 hours notice is given.

• • • • • •

(Sec. 5, Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.05-1(c)(4))

Effective date. This revision shall become effective on September 8, 1973.

Dated: August 3, 1973.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.73-16515 Filed 8-9-73;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 4—DEPARTMENT OF AGRICULTURE

PART 4-4—SPECIAL TYPES AND METHODS OF PROCUREMENT

Subpart 4-4.50—General

These amendments involve matters relating to agency management and contracts and while not subject by law to the notice and public procedure requirements for rule making under 5 U.S.C. 553 are subject to the Secretary's Statement of Policy (36 FR 13804). The amendments embody already existing Department policy and matters relating strictly to agency management. No useful purpose would be served by public participation, and it is found upon good cause, in accordance with the Secretary's Policy Statement, that notice and other public procedure with respect to the amendments is impracticable and unnecessary.

1. In the Table of Contents of Part 4-4 § 4-4.5018a is redesignated as § 4-4.5018-1 and the Table of Contents should read as follows:

Sec.

• • • • • •

§ 4-4.5010 Automatic data processing equipment and services.

• • • • • •

§ 4-4.5018-1 Consultant/Management services.

• • • • • •

2. Paragraph (a) of § 4-4.5005 is revised to read as follows:

§ 4-4.5005 Aircraft purchase, maintenance and operation.

(a) *Authority.* Under the provisions of 31 U.S.C. 638a(b), no appropriated funds may be expended for the purchase, maintenance, or operation of airplanes unless there is specific authority in the appropriation for such purchase, maintenance or operation.

• • • • • •

3. Paragraph (a)(1) of § 4-4.5006 is revised and (a)(4) of this section is deleted as follows:

V 38-154 AUG 10 73 XUM

§ 4–4.5006 Alcohol and distilled spirits.

(a) • • •

(1) *Method of Acquisition.* Any procurement office in the Department may place orders upon the proprietors of the bonded warehouses, denaturing plants, or bonded dealers' storerooms, and each order should bear reference to the permit number. A copy of each order should be forwarded to the Government officer in charge of and located at the bonded warehouse, denaturing plant or bonded dealer's storeroom, from which the alcohol or distilled spirits is to be procured. This will enable the officer to determine that the shipment is proper and that the alcohol or distilled spirits may be released without the payment of taxes.

• • • • •

(4) [Deleted]

• • • • •

5. Section 4–4.5010 is revised to read as follows:

§ 4–4.5010 Automatic data processing equipment and services.

Office of Management and Budget Bulletin 60–6 sets forth guidelines for studies to precede the utilization of ADP equipment. In letters numbered B–115369 dated September 18, 1957 and January 14, 1959, the Comptroller General provides for GAO review of agency utilization studies. Chapter 8 of Title 5 of the Administrative Regulations sets forth policies, responsibilities and procedures for use and management of ADP within the Department. § 4–1.453 of this chapter provides for the delegation of procurement authority for ADP equipment, services, and related supplies. See § 101–26.405 of this title for further guidance in the procurement of ADP equipment, software, maintenance services and supplies.

6. Paragraph (a) of § 4–4.5016 is revised to read as follows:

§ 4–4.5016 Commissary operations.

(a) Pursuant to statutory provisions (7 U.S.C. 2230) agencies of the Department are authorized to furnish supplies and equipment for their employees in Alaska. It is the policy, however, to restrict the use of this authority to locations where commercial purchasing facilities are inadequate or lacking.

• • • • •

7. Section 4–4.5017 is revised to read as follows:

§ 4–4.5017 Concessions.

§ 104–19.112 of this title outlines the policy and procedure established for the granting of concessions for the furnishing of commodities and services to employees while on duty, which are essential for their health, comfort, or efficiency, and which cannot be obtained conveniently from nearby existing facilities.

8. Section 4–4.5018a is redesignated § 4–4.5018–1 and is revised to read as follows:

§ 4–4.5018–1 Consultant/Management services.

(a) The use of consultant services or the services and facilities of others, in the functional areas assigned to the Office of Information Systems (see 5 AR 3f and 7 CFR 2.76) which exceeds $10,000 in value must be reviewed and approved by the Director, Office of Information Systems. This includes all contracts (or other agreements) which include, in part or in whole, the following activities:

(1) All consulting services—to include any studies, reviews, or proposal developments concerning any aspect of the organization and/or its activities;

(2) Management service activities where the service provided or the product to be supplied is to be used by management as a tool to assist them in managing the organization, e.g., information collection efforts, management information systems, design of forms or reports, development of training programs, development of standards and procedures. This does not include contracting for supplies, equipment, or operational services.

9. Section 4–4.5021 is revised to read as follows:

§ 4–4.5021 Office-type copying machines.

Proposed acquisitions of office-type copying machines and related equipment to be located in the downtown Washington, D.C., complex shall be submitted to the Office of Plant and Operations for approval. Proposals shall state in addition to make, model, and cost, the type, variety, and maximum size of documents to be copied, the approximate total copies to be made annually, and the basis for determining such quantity, the number and make of copying machines on hand, if any, and the use or disposition to be made of them, and efforts to share copying facilities of own and other agency offices. Proposed acquisitions for other locations shall be approved by an agency property management officer as provided in § 104–25.302 (see § 101–25.504 and § 104–25.504 of this title).

10. Paragraph (c) of § 4–4.5026 is revised to read as follows:

§ 4–4.5026 Duplicating equipment.

• • • • • •

(c) *Restrictions.* Duplicating machines using the offset or stencil process and related equipment shall not be acquired for use in Washington, D.C., except upon the prior approval of the Director of Plant and Operations. (see § 104–55.604 of this title).

11. Section 4–4.5066 is revised to read as follows:

§ 4–4.5066 Personal articles.

(a) Expenditures from appropriations available for the procurement of supplies and materials or equipment may be made for the purchase and maintenance, in accordance with agency policies and procedures, of special clothing and equipment for the protection of personnel in the performance of their assigned tasks. "Protection," as used in this Section, means protection from physical injury or occupational disease.

(b) Articles of personal equipment other than for the protection of personnel shall not be purchased from an appropriation of the Department (1) without specific statutory authority, or (2) unless the object for which the appropriation was made cannot be accomplished as expeditiously and satisfactorily from the Government standpoint without such equipment, and the equipment is such that the employee could not reasonably be required to furnish it as a part of the personal equipment necessary to enable him to perform the regular duties of the position to which he was appointed or for which his service was engaged. Care should be exercised to avoid the purchase of special clothing or equipment to be fitted to an employee when it is known that the employee may soon be separated from the service or permanently assigned to other duties. (5 USC 7903).

12. Section 4–4.5077–1 is revised to read as follows:

§ 4–4.5077–1 Radiofrequency electromagnetic waves transmitting devices.

(a) Any device transmitting electromagnetic waves through free space, such as radio, radar, telemetry, microwave, lasers, or radio type instruments for research, requires an operating license before procurement or operation of such equipment. Agencies of the Department will ensure that no funds are obligated for communication-electronics equipment until availability of spectrum support is assured. Any planned systems using electronic transmitters must be submitted to the Agriculture representative on the Interdepartment Radio Advisory Committee (IRAC) for review prior to expenditure of funds for such systems.

(b) Frequencies for Federal use are assigned by the Director of Telecommunications Policy (OTP) through the IRAC. Department of Agriculture responsibilities for frequency licensing and representation on the IRAC are delegated to the Forest Service. (7 CFR 2.60 (a) (14))

(c) Requests for new system review and for assignment of frequencies should be submitted to the Forest Service, Chief, Communications and Electronics, Division of Administrative Management, Electronics Center, ARC, Beltsville, Maryland 20705.

Effective Date. August 10, 1973.

Done at Washington, D.C., this 2d day of August 1973.

T. M. BALDAUF,
Director of Plant and Operations, Department of Agriculture.

[FR Doc.73–16507 Filed 8–9–73;8:45 am]

CHAPTER 60—OFFICE OF FEDERAL CONTRACT COMPLIANCE, EQUAL EMPLOYMENT OPPORTUNITY, DEPARTMENT OF LABOR

PART 60–10—CAMDEN PLAN

Pursuant to a notice of hearing appearing in the FEDERAL REGISTER on October 9, 1971, representatives of the Department of Labor conducted public hearings in Trenton, New Jersey, on October 27 through 29, 1971, for the purpose of determining what action should be taken to ensure equal employment opportunity in the construction industry in Trenton and Camden, New Jersey. As a result of the findings made during those hearings, the Camden Plan is hereby issued and published in the FEDERAL REGISTER. A copy of the findings made as a result of the above noted hearings has been submitted with these regulations, and is on file.

Therefore, and pursuant to Executive Order 11246 (30 FR 12319; 3 CFR 1964–65 Comp., p. 406) and §§ 60–1.1 and 60–1.40 of Title 41 of the Code of Federal Regulations, Chapter 60 of these regulations is hereby amended by adding a new Part 60–10 to read as set forth below.

Subpart A—Purpose; Applicability; Background

Sec.
60–10.1 Purpose.
60–10.2 Applicability.
60–10.3 Background.

Subpart B—General Findings; Minority Participation in Specific Trades; Availability; Need for Training; Impact Upon Existing Labor Force

60–10.10 General findings.
60–10.11 Minority participation in the specified trades.
60–10.12 Availability of minority group persons for employment.
60–10.13 Need for training.
60–10.14 The impact of the plan upon the existing labor force.
60–10.15 Conclusion of findings.

Subpart C—Nondiscriminatory Purpose of the Plan; Requirements; Exemptions; Effective Date

60–10.20 Nondiscriminatory purpose of the plan.
60–10.21 Requirements.
60–10.22 Exemptions.

Subpart D—Appendix A

60–10.30 Appendix A.

AUTHORITY: Secs. 201, 202, 205, 211, 301, and 303 of Executive Order 11246 (30 FR 12319, 3 CFR 1964–65 Comp., p. 406) and §§ 60–1.1 and 60–1.40 of Title 41 of the Code of Federal Regulations.

Subpart A—Purpose; Applicability; Background

§ 60–10.1 Purpose.

The purpose of these regulations is to implement the provisions of Executive Order 11246, and the rules and regulations issued pursuant thereto requiring a program of equal employment opportunity by Federal contractors and subcontractors and federally assisted construction contractors and subcontractors in the Camden, N.J., area.

§ 60–10.2 Applicability.

While a contractor or subcontractor is performing on federally involved (Federal or federally assisted) construction contracts for projects, in the three-county Camden, N.J., area of Camden, Salem, and Gloucester Counties (hereinafter referred to as the Camden area), the estimated cost of which exceeds $500,000, all construction activities (including all activities on nonfederally involved work) of such a contractor or subcontractor within the Camden area shall be subject to the requirements of these regulations: *Provided, however,* That if an areawide agreement is developed for any trade covered by these regulations or any such trade is covered by a multitrade agreement, then the Office of Federal Contract Compliance (OFCC) may, in its complete discretion, accept such program in lieu of any or all of the requirements of these regulations, subject to such terms and conditions as OFCC may specify.

§ 60–10.3 Background.

Public hearings were conducted by representatives of the Department of Labor in Trenton, N.J., on October 27 through October 29, 1971, to determine what action should be taken to insure equal employment opportunity in the construction industry in the Camden and Trenton, N.J., areas. Testimony was heard and data received on the following:

(a) The current extent of minority group participation in the construction trades as journeymen, apprentices, trainees, and helpers;

(b) The effectiveness of present employee recruitment methods;

(c) The availability of qualified and qualifiable minority group persons for employment in each construction trade, including where they are now working, how they may be brought into the trades;

(d) The effectiveness of existing training programs in the area, including the number of minorities and others recruited into the programs, the number who complete training, the length and extent of training, employer experience with trainees, the need for additional or expanded training programs;

(e) The number of additional workers that could be absorbed into each trade without displacing present employees, including consideration of present employee shortages, projected growth of the trade, projected employee turnover;

(f) The availability and utilization of minority contractors on federally involved contracts;

(g) The desirability and extent, including the geographical scope, of possible Federal action to insure equal employment opportunity in the construction trades;

(h) Recommendations of governmental compliance agencies active in the Camden and Trenton, N.J., area.

Subpart B—General Findings; Minority Participation in Specific Trades; Availability; Need for Training; Impact Upon Existing Labor Force

§ 60–10.10 General findings.

As a result of the material presented at the public hearings in Trenton and other investigations conducted by representatives of the State of New Jersey and the U.S. Department of Labor, the Department has determined that the problems of minority underutilization in Camden and Trenton, New Jersey should be separately addressed in light of the hometown agreement reached in Trenton, and the inability of the contractors, unions, and minority community representatives in Camden to reach a similar accord. Continued analysis of data obtained by the Department of Labor relating to the progress in employment of minorities in the Camden area reveals that minority workers (Negroes, Spanish surnamed Americans, Orientals, and American Indians) continue to be denied full participation in certain construction trades, necessitating action on a broad scale. This underutilization of minorities is due in substantial measure to the unique nature of employment practices in the construction industry where contractors and subcontractors rely on construction craft unions as their prime or sole labor source. Collective bargaining agreements and/or established custom and usage between construction contractors and subcontractors and labor organizations frequently provide for, or result in, exclusive hiring halls. Even where the collective bargaining agreement contains no such hiring hall provisions or the custom is not rigid, as a practical matter, most people working in these classifications are referred to the jobs by such labor organizations. As a result, referral by the labor organization is a virtual necessity for obtaining meaningful employment in union construction projects. Minorities often have not gained admittance into membership of certain unions and into certain apprenticeship programs, and, consequently, for these and other reasons, have not been referred for employment.

§ 60–10.11 Minority participation in the specified trades.

The overall nonwhite minority population in the Camden area is approximately 22.0 percent, 101,000 of 456,000 persons. These figures are, however, conservative in that the census data upon which these figures are based tend to include Spanish-surnamed persons as white rather than minority without indicating the number of persons so classified. It is generally known that the Camden area contains a substantial Spanish-surnamed population.

(a) *Statistical data.* The most reliable data developed at the hearings reveal the following as the current minority representation as journeyman in unions in selected trades, for the Camden area:

	Percent
Bricklayers	9.0
Carpenters	4.0
Cement Masons	0.0
Electricians	2.3
Operating Engineers	0.0
Painters	0.8
Plumbers/Pipefitters/Steamfitters	0.0
Structural Metal Workers	3.3

It is apparent from the foregoing that the skilled trades evidence a significant underutilization of minority employees.

V 38-154 AUG 10 73 XUM

§ 60–10.12 Availability of minority group persons for employment.

(a) *Population.* (1) The 1970 population estimate for the three county Camden-Gloucester-Salem area, as found by the U.S. Census Bureau, was 925,104, and includes a minority constituency of 106,172 persons, or approximately 11.5 percent.

(2) The total labor force in the Camden area is approximately 310,000. However, minorities represent over 4,500 or 13.1 percent of the unemployed in Camden County, and 400, or 11.4 percent of the unemployed in Salem County.

(b) *Training programs—showing of interest.* (1) Although the hearing panel found that minorities have been and continue to be seriously underrepresented in certain construction trades and trade unions, this is not due to any lack of available qualifiable Negro and other minority applicants in the Camden area.

(2) Rather, the panel's analysis of all available data reveals that existing contractor and union recruitment efforts fall far short of the type of affirmative action which would bring substantial numbers of available minorities into the construction trades.

(3) Potentially available minorities registered with local employment offices for employment in 14 of the construction trades totaled 176 according to recent data. This figure included 106 skilled workers and 70 laborers and helpers. The specific figures for some selected trades were:

Sheetmetal workers	9
Electricians	5
Plumbers and plumber helpers	20
Roofers and roofer helpers	30
Carpenters and carpenter helpers	32
Cement masons and cement mason helpers	24

There were, in recent reports, 150 minorities registered with the Apprenticeship Information Center for training in the construction trades. There were, additionally, 12 minorities enrolled with Opportunities Industrialization Center (OIC), 325 with the Apprenticeship Outreach Program, 10 with the Manpower Development and Training Act (MDTA), in Camden, and three with the MDTA Program in Salem County. Thus, the total minority registration and/or participation in currently operational training programs, not including vocational school programs, was approximately 500 persons.

(c) *Community involvement.* Testimony presented at the hearings revealed, and it has consistently been the Department's experience, that the effectiveness of efforts to recruit minority trainees and workers depends in large measure upon the active involvement of minority organizations in the community. Various representatives of minority organizations indicated that they would have little, if any, difficulty in recruiting minority workers for training and jobs in sufficient numbers to meet the manpower needs of the Camden area construction industry.

(d) *Minority subcontractors.* Information gained at the hearing indicated, and it is found, that a number of minority subcontractors are operating effectively within the Camden area. Utilization of these subcontractors, particularly by nonminority contractors, could significantly expand the participation of minority craftsmen on projects of federally involved construction contractors.

§ 60–10.13 Need for training.

(a) *Existing programs.* A readily available source of minority manpower, most of whom could be utilized in the skilled trades with skills refinement training only, may be found in the number of minority laborers currently in labor unions having jurisdiction in the Camden area. This figure is currently placed at 375.

§ 60–10.14 The impact of the plan upon the existing labor force.

(a) *Contractors' commitments.* It has been found and determined, that a contractor covered by these regulations, could commit himself to minority hiring at least up to the annual rate of job vacancies in his respective trade, without adversely affecting the existing labor force or displacing any incumbents. Data presented at the 1971 hearings revealed that the total additional manpower requirements of the primary construction trades for the period 1972–76 were conservatively estimated at approximately 3,136 new jobs, and replacement job opportunities for a yearly average in excess of 626. The annual number of new job openings per craft for selected trades is as follows:

Trade	Annual Number of Job Openings
Electricians	61
Sheetmetal workers	27
Structural metal workers	48
Carpenters	103
Plumbers/Pipefitters/Steamfitters	74
Bricklayers/Plasterers	37
Cement masons	14
Painters/Decorators/Paperhangers	54

These projections are not inconsistent with conservative national statistics which reveal that approximately 7.5 percent of construction trade workers are replaced each year due to death, retirement, disability, and outmigration.

(b) *Timetable.* In an effort to provide an affirmative action program and practical ranges for the utilization of minority manpower which can be met by employers in hiring productive, qualified, and qualifiable minority craftsmen, these ranges should be developed to cover an extended period of time. Testimony at the hearing indicated that a 4-year duration for the plan is proper as the greatest need for additional manpower in the industry will take place during the first part of the decade. Therefore, it is found and determined that in order for these regulations to effect equal employment to the fullest extent, the standards of minority utilization should be determined for the next 4 years.

§ 60–10.15 Conclusion of findings.

(a) *Current minority participation.* It is found in the Camden area work force data submitted at the public hearings, that minority representation in the construction industry in general is almost exclusively in the least remunerative jobs while most of the highly skilled and most remunerative trades in the same area and industry have an insignificant number of minority representatives, e.g., electricians, 2.3 percent, sheetmetal workers, 3.3 percent, plumbers and pipefitters, 0.0 percent, etc. Thus, it appears that the most skilled and most remunerative trades have a level of minority representation far below that which should have resulted from meaningful past participation in the industry without regard to race, color, or national origin. Therefore, it is determined that these rules are necessary to provide for minority participation in the following trades:

Asbestos workers
Boilermakers
Bricklayers
Carpenters
Cement masons
Electricians
Elevator constructors
Glaziers
Lathers
Operating engineers
Painters/decorators/paperhangers
Plasterers
Plumbers/pipefitters/steamfitters
Roofers
Sheetmetal workers
Sprinkler fitters
Structural metal workers
Wharf and dock builders

(b) *Effect of plan.* A construction contractor working in the Camden area could increase the minority participation in his trade significantly by hiring only minorities to fill new job openings (attrition plus growth). However, to do so would inevitably result in the exclusion of qualified nonminorities from such job opportunities. Based upon the fact that the minority population in the Camden area is approximately 22 percent of the total population, upon the fact that the minority unemployment rate in the Camden area is substantially greater than that of nonminority unemployment, upon the fact that there exists substantial minority underemployment in the area and upon the further fact that significant and effective training programs now exist, it may be reasonably expected that in the filling of new and vacant jobs, effective affirmative action efforts should produce at least one minority applicant for each nonminority applicant for effective construction employment.

(c) *Increased minority participation.* If new and vacated position in only the trades covered by these rules totaling approximately 3,136 through 1976 were filled by one minority worker for each nonminority worker, the resultant increased minority participation in those trades alone through June 1976 would be approximately 1,568 workers. On the basis of the findings indicated above, it is estimated that in excess of 670 minority persons may presently be considered available to fill such jobs, many of whom possess some degree of training. Within the anticipated increase in those who should be available over the next 4 years, it appears that more than sufficient numbers of minority workers will be available to effectively fill new and vacated construction trade positions.

(d) *Purpose of ranges.* By establishing ranges which anticipate good faith efforts by construction contractors to fill new and vacated jobs on at least a 1-to-1 minority-to-nonminority basis through June 1976, contractors may recruit from available minority manpower without displacing any existing craftsmen and without discriminating against any nonminority applicant for employment.

(e) *Evaluation and advisory recommendations.* The Department recognizes that the contractors, unions, and minority community, who must operate on a day-to-day basis under the requirements of these regulations, are in the best positions to evaluate the effectiveness of these regulations. Therefore, the Department shall make every effort to encourage and develop a voluntary committee representing these three groups, which committee shall periodically review the effectiveness of these regulations and make advisory recommendations to the Department in this regard.

Subpart C—Nondiscriminatory Purpose of the Plan; Requirements; Exemptions; Effective Date

§ 60–10.20 Nondiscriminatory purpose of the plan.

The purpose of the contractor's commitment to specific goals is to meet the contractor's affirmative action obligations and is not intended and shall not be used to discriminate against any qualified applicant or employee.

§ 60–10.21 Requirements.

After full consideration and in view of the foregoing, it is determined that:

(a) No contracts or subcontracts shall be awarded for Federal and federally assisted construction in the Camden, N.J., area on projects whose estimated cost exceeds $500,000 unless the bidder completes and submits, prior to bid opening, the document identified as Appendix A, notice of requirement for submission of affirmative action plan to insure equal employment opportunity or a substantially similar document, which shall include specific goals of minority manpower utilization for each trade designated below which will be used by the contractor on all of his work (both Federal and non-Federal) within the Camden, N.J. area, during the term of his performance of the contract, such goals to be established by the contractor at least within the ranges established in Appendix A of this part. Such appendix is for all purposes a part of these regulations and shall be deemed a part of all contracts executed pursuant to these regulations. Minority manpower means, for the purposes of these rules, Negroes, Spanish surnamed Americans, Orientals, and American Indians and includes both men and women. The trades utilizing the following classifications of employees are covered by these rules:

Asbestos Workers
Boilermakers
Bricklayers
Carpenters
Cement Masons
Electricians
Elevator Constructors
Glaziers
Lathers
Operating Engineers
Painters/Decorators/Paperhangers
Plasterers
Plumbers/Pipefitters/Steamfitters
Roofers
Sheetmetal Workers
Sprinkler Fitters
Structural Metal Workers
Wharf and Dock Builders

(b) The requirements of paragraph (a) of this section shall not apply with respect to the trade of Operating Engineers as to bidders, contractors and subcontractors maintaining collective bargaining agreements with Local No. 825, Operating Engineers, providing for the referral of employees by that local union to such contractors regarding that trade, provided that this exemption shall remain in effect only so long as Local 825 fully complies with the terms and requirements of a Consent Decree between it and the United States.

(c) Each Federal agency shall include, or require the applicant to include, in the invitation for bids, or other solicitation used for a federally involved (Federal or federally assisted) construction contract, when the estimated total cost of the construction project exceeds $500,000, a notice stating that to be eligible for award, each bidder will be required to comply with Appendix A for the hereinbefore designated trades unless the applicant is exempted under paragraph (b) of this section to be used during the term of the performance of the contract—whether or not the work is subcontracted. The form of such notice shall be substantially similar to such Appendix A.

§ 60–10.22 Exemptions.

Requests for exemptions from these regulations must be in writing, with justification, to the Director, Office of Federal Contract Compliance, U.S. Department of Labor, Washington, D.C. 20210, and shall be forwarded through and with the endorsement of the agency head.

Effective date. The provisions of this part will be effective with respect to transactions for which the invitations for bids or other solicitations for bids, or additions or amendments thereto, are sent on or after the publication of these regulations.

Subpart D—Appendix A

§ 60–10.30 Appendix A.

For inclusion in the invitation or other solicitation for bids for a federally involved construction contract in the Camden, N.J., area, when the estimated total cost of the construction project exceeds $500,000.

NOTICE OF REQUIREMENT FOR SUBMISSION OF AFFIRMATIVE ACTION PLAN TO ENSURE EQUAL EMPLOYMENT OPPORTUNITY

NOTICE: TO BE ELIGIBLE FOR AWARD OF THE CONTRACT, EACH BIDDER MUST FULLY COMPLY WITH THE REQUIREMENTS, TERMS AND CONDITIONS OF THIS APPENDIX A

The following are hereby submitted by the undersigned bidder as its goals for minority manpower utilization ("minority" being Negro, Spanish surnamed American, Oriental and American Indian and includes both men and women) to be achieved on all work of the bidder within the Camden, N.J. area during the terms of his performance of this contract in the trades specified below in conformity with the requirements, terms and conditions of this Appendix A as hereinafter set forth:

Trade	*Total Number of Manhours to be worked by Minority Persons on All Bidder's Projects within the Camden Area Including on this Contract, Expressed in Terms of a Percentage of the Total Number of Manhours to be Worked Until June 30, 1974*
Asbestos Workers	
Boilermakers	
Bricklayers	
Carpenters	
Cement Masons	
Electricians	
Elevator Constructors	
Glaziers	
Lathers	
Operating Engineers	
Painters/Decorators/ Paperhangers	
Plasterers	
Plumbers/Pipefitters/ Steamfitters	
Roofers	
Sheetmetal Workers	
Sprinkler Fitters	
Structural Metal Workers	
Wharf and Dock Builders	

Trade	*Total Number of Manhours to be Worked by Minority Persons on All Bidder's Projects within the Camden Area Including on this Contract, Expressed in Terms of a Percentage of the Total Number of Manhours to be Worked from July 1, 1974 Until June 30, 1975*
Asbestos Workers	
Boilermakers	
Bricklayers	
Carpenters	
Cement Masons	
Electricians	
Elevator Constructors	
Glaziers	
Lathers	
Operating Engineers	
Painters/Decorators/ Paperhangers	
Plasterers	
Plumbers/Pipefitters/ Steamfitters	
Roofers	
Sheetmetal Workers	
Sprinkler Fitters	
Structural Metal Workers	
Wharf and Dock Builders	

V 38-154 AUG 10 73 XUM

Trade	Total Number of Manhours to be worked by Minority Persons on All Bidder's Projects within the Camden Area Including on this Contract, Expressed in Terms of a Percentage of the Total Number of Manhours to be Worked from July 1, 1975 Until June 30, 1976
Asbestos Workers	
Boilermakers	
Bricklayers	
Carpenters	
Cement Masons	
Electricians	
Elevator Constructors

Plumbers/Pipefitters/ Steamfitters	
Roofers	
Sheetmetal Workers	
Sprinkler Fitters	
Structural Metal Workers	
Wharf and Dock Builders	

Requirements, terms and conditions. 1. No contracts or subcontracts shall be awarded for Federal or federally assisted construction in the Camden, N.J., area on projects whose estimated cost exceeds $500,000 unless the bidder completes and submits, prior to bid opening, this document designated as Appendix A, or a substantially similar document, which shall include specific goals of minority manpower utilization for each trade designated below which will be used by the contractor on all his work (both Federal and non-Federal) within the Camden, N.J., area during the term of his performance of the contract, such goals to be established by the contractor at least within the ranges established by this appendix in section 2 thereof. Minority manpower means, for the purposes of this appendix, Negroes, Spanish surnamed Americans, Orientals and American Indians and includes both men and women. The trades utilizing the following classifications of employees are covered by this appendix:

Asbestos Workers
Boilermakers
Bricklayers
Carpenters
Cement Masons
Electricians
Elevator Constructors
Glaziers
Lathers
Operating Engineers
Painters/Decorators/Paperhangers
Plasters
Plumbers/Pipefitters/Steamfitters
Roofers
Sheetmetal Workers
Sprinkler Fitters
Structural Metal Workers
Wharf and Dock Building

A bidder who fails or refuses to complete or submit such goals shall not be deemed a responsive bidder and may not be deemed a responsive bidder and may not be awarded the contract or subcontract, but such goals need be submitted only for those trades which the contractor contemplates to be used in the performance of the federally involved contract. In no case shall there be any negotiations over the provisions of the specific goals submitted by the bidder after the opening of bids and prior to the award of the contract.

2. The following ranges, constituting acceptable minimums within which a prospective contractor or subcontractor must establish his goals are hereby established as the standards for minority manpower utilization for each of the designated trades in the Camden, N.J., area for the next 4 years:

Trade	Range of Minority Group Employment Until June 30, 1974 (Percent)
Asbestos Workers	2.9%– 5.8%
Boilermakers	2.7%– 5.4%
Bricklayers	11.2%–13.4%
Carpenters	6.8%– 7.6%
Cement Masons	3.0%– 6.0%
Electricians	5.2%– 8.1%
Elevator Constructors	2.7%– 5.4%
Glaziers	4.0%– 8.0%
Lathers	2.7%– 5.4%
Operating Engineers	2.5%– 5.0%
Painters/Decorators/ Paperhangers	2.8%– 4.8%
Plasters	11.0%–13.0%
Plumbers/Pipefitters/ Steamfitters	2.1%– 4.2%
Roofers	2.1%– 4.2%
Sheetmetal Workers	2.8%– 5.6%
Sprinkler Fitters	2.7%– 5.4%
Structural Metal Workers	5.7%– 8.1%
Wharf & Dock Builders	2.7%– 5.4%

Trade	Range of Minority Group Employment From July 1, 1974 Until June 30, 1975 (Percent)
Asbestos Workers	5.8%– 8.7%
Boilermakers	5.4%– 8.1%
Bricklayers	13.4%–15.6%
Carpenters	7.6%– 9.4%
Cement Masons	6.0%– 9.0%
Electricians	8.1%–12.0%
Elevator Constructors	5.4%– 8.1%
Glaziers	8.0%–12.0%
Lathers	5.4%– 8.1%
Operating Engineers	5.0%– 7.5%
Painters/Decorators/ Paperhangers	4.8%– 6.8%
Plasterers	13.0%–15.0%
Plumbers/Pipefitters/ Steamfitters	4.2%– 6.3%
Roofers	4.2%– 6.3%
Sheetmetal Workers	5.6%– 8.4%
Sprinkler Fitters	5.4%– 8.1%
Structural Metal Workers	8.1%–10.5%
Wharf & Dock Builders	5.4%– 8.1%

Trade	Range of Minority Group Employment From July 1, 1975 Until June 30, 1976 (Percent)
Asbestos Workers	8.7%–11.6%
Boilermakers	8.1%–10.8%
Bricklayers	15.6%–17.8%
Carpenters	9.4%–11.2%
Cement Masons	9.0%–12.0%
Electricians	12.0%–14.9%
Elevator Constructors	8.1%–10.0%
Glaziers	12.0%–16.0%
Lathers	8.1%–10.8%
Operating Engineers	7.5%–10.0%
Painters/Decorators/ Paperhangers	6.8%– 8.8%
Plasterers	15.0%–17.0%
Plumbers/Pipefitters/ Steamfitters	6.3%– 8.4%
Roofers	6.3%– 8.4%
Sheetmetal Workers	8.4%–11.2%
Sprinkler Fitters	8.1%–10.8%
Structural Metal Workers	10.5%–12.9%
Wharf & Dock Builders	8.1%–10.8%

Trade	Range of Minority Group Employment From July 1, 1976 Until June 30, 1977 (Percent)
Asbestos Workers	11.6%–14.5%
Boilermakers	10.8%–13.5%
Bricklayers	17.8%–20.0%
Carpenters	11.2%–13.0%
Cement Masons	12.0%–15.0%
Electricians	14.9%–17.8%
Elevator Constructors	10.8%–13.5%
Glaziers	16.0%–20.0%
Lathers	10.8%–13.5%
Operating Engineers	10.0%–12.5%
Painters/Decorators/ Paperhangers	8.8%–12.8%
Plasterers	17.0%–19.0%
Plumbers/Pipefitters/ Steamfitters	8.4%–10.5%
Roofers	8.4%–10.5%
Sheetmetal Workers	11.2%–14.0%
Sprinkler Fitters	10.8%–13.5%
Structural Metal Workers	12.9%–15.3%
Wharf & Dock Builders	10.8%–13.5%

After the first year of the program, the standards (trades and ranges) set forth herein shall be reviewed to determine whether the projections on which these standards are based adequately reflect the construction labor market situation at that time. Reductions or other significant fluctuations in federally involved construction shall be specifically reviewed from time to time as to their effect upon the practicality of the standards. In no event, however, shall the standards be increased or trades be added to the list of covered trades after bids have been received.

The contractor's or subcontractor's goals established within the above ranges shall express the contractor's or subcontractor's commitment to the percentage of minority personnel who will be working in each specified craft on each of his projects (whether federally involved or otherwise) within the Camden, N.J., area during the term of the covered contract.

The man-hours for minority workers must be substantially uniform throughout the entire length of the contract for each of the designated trades, to the effect that the percentage of minority workers in the designated trades must be working throughout the length of work on each project in each trade. The contractor or subcontractor shall be deemed to have met his commitment to specific goals for minority manpower utilization:

(a) If the minority manpower utilization rate of the contractor or subcontractor itself meets the goals of the total of all of the contractor's or subcontractor's facilities within the Camden area: *Provided, however,* That if the contractor has denied equal employment opportunity; he shall not be in compliance with this appendix, or

(b) If the contractor or subcontractor can establish that it is a member of a contractor's association or other employer organization or association which has as one of its purposes the expanded utilization of minority manpower and the total utilization rate of minority craftsmen by all member contractors and subcontractors of such an association or organization on all projects in which they are involved within the Camden area meets the contractor's or subcontractor's commitments: *Provided, however,* That if the contractor has denied equal employment opportunity, he shall not be in compliance with this appendix, or

(c) If the contractor or subcontractor can establish that it has a collective bargaining agreement with a labor organization, that it utilizes such organization as its source for over 80 percent of its manpower needs and (i) that the percentage total of minority membership of such organization and the total percentage of minorities referred for employment on all projects within the Camden area meets the contractor's or subcontractor's commitments or (ii) that such labor organization has made good faith efforts as described in 5 below in the referral of minorities for employment and the admission of minorities to membership: *Provided, however,* That if the contractor has denied equal employment opportunity, he shall not be in compliance with this appendix.

3. Whenever a contractor or subcontractor uses trades covered by this appendix which were not contemplated at the time of his bid and he therefore does not submit goals for such trades, he shall be deemed to be committed to the minority group employment goal of the minimum percentage range for that trade for the appropriate year.

In the event that under a contract subject to this appendix any work by a trade covered by this appendix is performed after June 30, 1976, the determined ranges of minority group employment for the year ending June 30, 1976, shall be applicable to such work.

4. The contractor's and subcontractor's commitment to specific goals is to meet affirmative action obligations and is not intended and shall not be used to discriminate against any qualified applicant or employee. Whenever it comes to the bidder's or contractor's attention that the goals are being used in a discriminatory manner, he shall immediately report that fact to the Office of Federal Contract Compliance of the U.S. Department of Labor in order that appropriate proceedings may be instituted.

5. The contractor's or subcontractor's (collectively hereinafter referred to as "contractor") commitment to specific goals for minority manpower utilization as required by this Appendix A shall constitute a commitment that it or the labor organization described in 2(c) above, will make every good faith effort to meet such goals. If the contractor has failed to meet his goals, a determination of "good faith" will be based upon his efforts or those of such labor union to broaden its recruitment base which efforts shall include but not be limited to the following as applicable:

(a) Notification to the community organizations that the contractor or union has employment opportunities available and maintenance of records regarding the organizations' response.

(b) Maintenance of a file of the names and addresses of each minority worker referred by the union or to the contractor and what action was taken with respect to each such referred worker. If such worker was not sent to the union hiring hall for referral or if such worker was not referred by the union or not employed by the contractor, the file should document this and the reasons therefor.

(c) The contractor shall promptly notify the OFCC area coordinator when the union or unions with whom the contractor has a collective bargaining agreement has not referred to the contractor a minority worker sent by the contractor or the contractor has other information that the union referral process has impeded him in his efforts to meet his goal.

(d) Participation in training programs in the area, especially those funded by the Department of Labor.

(e) Dissemination of the contractor's or union's EEO policy within the respective organizations as applicable, by including it in any policy manual; by publicizing it in company or union newspapers, annual report, etc.; by conducting meetings to explain and discuss the policy; by posting of the policy; and by specific review of the policy with minority employees or members.

(f) Dissemination of its EEO policy externally by informing and discussing it with all recruitment sources; by advertising in news media, specifically including minority news media; and by notifying and discussing it with all contractors and subcontractors.

(g) Specific and constant personal (both written and oral) recruitment efforts directed at all minority organizations, schools with minority students, minority recruitment organizations, and minority training organizations, within the contractor's or union's recruitment area.

(h) Specific efforts to encourage present minority employees or members to recruit their friends and relatives.

(i) Validation of all man specifications, selection requirements, tests, etc.

(j) Making every effort to provide after-school, summer and vacation employment to minority youths.

(k) Where reasonable, the development of on-the-job training opportunities and participation and assistance in any association or group training programs relevant to the contractor's or union's needs.

(l) Continuing inventory and evaluation of all minority personnel or members for promotion opportunities and encouragement of minority employees or members to seek such opportunities.

(m) Assuring that seniority practices, job classifications, etc., do not have a discriminatory effect.

(n) Assuring that all facilities and activities are nonsegregated.

(o) Continual monitoring of all personnel activities to insure that its EEO policy is being carried out.

(p) The contractor shall solicit bids for subcontracts from available minority subcontractors with the trades covered by this appendix, to the maximum extent practicable including circulation of minority contractor associations.

6. Each agency shall review contractors' and subcontractors' employment practices during the performance of the contract. If the contractor or subcontractor meets its goals or if the contractor or subcontractor can demonstrate that it has made every good faith effort to meet those goals, and is not otherwise violating any existing equal employment opportunity laws or regulations, the contractor shall be presumed to be in compliance with Executive Order 11246, the implementing regulations and its obligations under this appendix and no formal sanctions or proceedings leading toward sanctions shall be instituted unless the agency otherwise determines that the contractor or subcontractor is not providing equal employment opportunities. Where the agency finds that the contractor or subcontractor has failed to comply with the requirements of Executive Order 11246, the implementing regulations and its obligations under its appendix, the agency shall take such action and impose such sanctions as may be appropriate under the Executive Order and the regulations. When the agency proceeds with such formal action it has the burden of proving that the contractor has not met the requirements of this appendix, but the contractor's failure to meet his goals shall shift to him the requirement to come forward with evidence to show that either he or his union, described in 2(c) above, has made every "good faith" effort (as described in 5 above) to meet such goals. Such noncompliance by the contractor or subcontractor shall be taken into consideration by Federal agencies in determining whether such contractor or subcontractor can comply with the requirements of Executive Order 11246 and is therefore a "responsible prospective contractor" within the meaning of the Federal procurement regulations.

7. Except as provided herein, it shall be no excuse that the union with which the contractor has a collective bargaining agreement providing for exclusive referral failed to refer minority employees. Discrimination in referral for employment, even if pursuant to provisions of a collective bargaining agreement, is prohibited by the National Labor Relations Act, as amended, and title VII of the Civil Rights Act of 1964. It is the longstanding uniform policy of OFCC that contractors and subcontractors have a responsibility to provide equal employment opportunity if they want to participate in federally involved contracts. To the extent they have delegated the responsibility for some of their employment practices to a labor organization which does not meet the criteria prescribed in 5 above and they are, thus, prevented from meeting the obligations pursuant to Executive Order 11246 (as amended), such contractors cannot be con-

V38-154 AUG 10 73 XUM

sidered to be in compliance with Executive Order 11246 (as amended), or the implementing rules, regulations, and orders.

8. All prime contractors and subcontractors shall include in all bid invitations or other prebid communications, written or otherwise, with respect to their prospective subcontractors, the goals, as applicable, which are required under this appendix. Whenever a prime contractor or subcontractor subcontracts a portion of the work in any trade designated herein, he shall include in such subcontract his commitment made under this appendix, and reference to the provisions of paragraph 3, of this appendix, as applicable, which shall be adopted by his subcontractor, who shall be bound thereby and by this appendix to the full extent as if he were the prime contractor. The prime contractor shall not be accountable for the failure of his subcontractor to fulfill his requirements. However, the prime contractor or subcontraator shall give notice to the Area Coordinator of the Office of Federal Contract Compliance of the Department of Labor and the contracting agency of any refusal or failure of any subcontractor to fulfill his obligations under this appendix. Failure of compliance by any subcontractor will be treated in the same manner as such failure by the prime contractor.

9. Contractors and subcontractors must keep such records and file such reports relating to the provisions of this appendix as shall be required by the contracting or administering agency.

10. Nothing in this appendix shall be interpreted to diminish the responsibilities of the contracting and administering agencies nor the obligations of contractors or subcontractors pursuant to Executive Order 11246 for those trades and those contracts not covered by this appendix.

11. The procedures set forth in this appendix shall not apply to any contract when the head of the contracting or administering agency determines that such contract is essential to the national security and that its award without following such such procedures is necessary to the national security. Upon making such a determination, the agency head will notify, in writing, the Director of the Office of Federal Contract Compliance within 30 days.

12. Nothing in this appendix shall be interpreted to diminish the present contract compliance review and complaint programs.

13. Requests for exemptions from this appendix must be made in writing, with justification, to the Director, Office of Federal Contract Compliance, U.S. Department of Labor, Washington, D.C. 20210, and shall be forwarded through and with the endorsement of the agency head.

14. This appendix shall be signed in the space provided below.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1111, Amdt. 10]

PART 1033—CAR SERVICE

Delaware and Hudson Railway Co.

Delaware and Hudson Railway Company authorized to operate over tracks of Erie Lackawanna Railway Company Thomas F. Patton and Ralph S. Tyler, Jr., trustees.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 25th day of July 1973.

Upon further consideration of Service Order No. 1111 (37 FR 19617, 22872, 25237; 38 FR 878, 3332, 5637, 8446, 10942, 14755, and 18025), and good cause appearing therefor:

It is ordered, That: § 1033.1111 *Service Order No. 1111* (Delaware and Hudson Railway Company authorized to operate over tracks of Erie Lackawanna Railway Company Thomas F. Patton and Ralph S. Tyler, Jr., trustees) Service Order No. 1111 be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., August 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., July 31, 1973.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies Secs. 1(10–17), 15 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroad, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.73-16599 Filed 8-9-73;8:45 am]

[S.O. 1147]

PART 1033—CAR SERVICE

Norfolk and Western Railway Co.

Norfolk and Western Railway Company authorized to operate over joint tracks of Chicago, Milwaukee, St. Paul and Pacific Railroad Company and Chicago, Rock Island and Pacific Railroad Company and over tracks of the Kansas City Southern Railway Company.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 6th day of August 1973.

It appearing, that there are trainload movements of automobiles and automobile parts and of returning empty cars, passing through terminals at Kansas City, Missouri, between the Norfolk and Western Railway Company (N&W) on the east, and the Chicago, Rock Island and Pacific Railroad Company (RI), or the Missouri Pacific Railroad Company (MP) on the west; that presently established interchange routes through this terminal require circuitous movements and repeated handling in intermediate classification yards, thus congesting these facilities; that the carriers involved have agreed with the Chicago, Milwaukee, St. Paul and Pacific Railroad Company (Milw) and The Kansas City Southern Railway Company (KCS) for use of certain of their tracks in Kansas City by the N&W; that such use of Milw and KCS tracks by the N&W will enable the N&W to make direct interchange of trains with the MP and the RI; that such direct interchanges will result in significant reductions in congestion in the Kansas City terminals of the N&W, MP, and RI and will improve car utilization; that operation by the N&W over certain tracks of the Milw and of the KCS at Kansas City is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1147 Service Order No. 1147.

(a) *Norfolk and Western Railway Company authorized to operate over joint tracks of Chicago, Milwaukee, St. Paul and Pacific Railroad Company and Chicago, Rock Island and Pacific Railroad Company and over tracks of the Kansas City Southern Railway Company.* The Norfolk and Western Railroad Company (N&W) be, and it is hereby authorized to operate over tracks of the Chicago, Milwaukee, St. Paul and Pacific Railroad Company (Milw) between Birmingham, Missouri, station 25041+27.9 and Air Line Junction, Missouri, station 25272+78.9, a distance of approximately 4.38 miles, and over tracks of The Kansas City Southern Railway Company (KCS) between Air Line Junction, Missouri, station 25272+78.9 and station 25302+35.7, a distance of approximately 0.56 miles, and over joint Milw-KCS tracks between station 25302+35.7 and a connection with the Kansas City Terminal Railway Company, station 25308+69.3, a distance of approximately 0.12 miles, the total distance of all of the aforesaid trackage being approximately 5.06 miles, and all located within the Kansas City, Missouri, terminal area.

(b) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(c) *Rates applicable.* Inasmuch as this operation by the N&W over tracks of the Milw and KCS is deemed to be due to carrier's disability, the rates applicable to traffic moved by the N&W over these tracks of the Milw and KCS shall be the rates which were applicable on the shipments at the time of shipment as originally routed.

(d) *Effective date.* This order shall become effective at 12:01 a.m., August 7, 1973.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., February 15, 1974, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies Secs. 1(10–17), 15 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2).)

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

Title 7—Agriculture Department

CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

PART 26—GRAIN STANDARDS

Official Grain Standards of the United States for Wheat

Pursuant to the administrative procedure provisions of 5 U.S.C. 553, a notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 12814) on May 16, 1973, regarding a proposed amendment to clarify § 26.314 of the Official Grain Standards of the United States for Wheat (7 CFR 26.301 et seq.) promulgated under the authority of the United States Grain Standards Act (7 U.S.C. 71 et seq.).

Statement of considerations. The United States Grain Standards Act provides for official U.S. standards to designate the levels of quality of grain for voluntary use by producers, merchandisers, and consumers in the domestic marketing of grain and for mandatory use in the export marketing of grain. Official grading service is provided under the Act upon request of the applicant and payment of a fee to cover the cost of the service.

Section 26.314 of the Official Standards for Wheat formerly read:

Section 26.314 *Basis of determination.* Each determination of dockage, moisture, temperature, odor, garlic, live weevils or other insects injurious to stored grain, and distinctly low quality shall be upon the basis of the grain as a whole. All other determinations shall be upon the basis of the grain when free from dockage.

In administration of this section, determinations of the presence of crotalaria seeds, large stones, castor beans, broken glass, animal filth, unknown foreign substances, and commonly recognized harmful or toxic substances have been and are being made, with trade concurrence, on the basis of the wheat as a whole (i.e., before the dockage has been removed) in view of the fact that the presence of such materials is analogous to the conditions which result in wheat being considered to be "otherwise of distinctly low quality" within the requirements of the wheat standards. For this reason, a proposal was made to clarify the section by specifying that the determination of each of these conditions be made on the basis of the wheat as a whole.

Interested persons were given 60 days in which to submit written or oral comments, suggestions, or objections regarding the proposed amendment. No objections have been received and the amended § 26.314 is set forth below:

§ 26.314 **Basis of determination.**

Each determination of dockage, moisture, temperature, odor, garlic, live weevils or other insects injurious to stored grain, crotalaria seeds, large stones, castor beans, broken glass, animal filth, an unknown foreign substance, a commonly recognized harmful or toxic substance, and otherwise distinctly low quality shall be upon the basis of the grain as a whole. All other determinations shall be upon the basis of the grain when free from dockage.

The amendment clarifies the standards to reflect approved inspection practices. No benefit to the public would accrue by not making the amendment effective immediately. Accordingly, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that further notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making it effective on August 10, 1973.

Done at Washington, D.C., on August 3, 1973.

JOHN C. BLUM,
Acting Administrator.

[FR Doc.73-16400 Filed 8-9-73;8:45 am]

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Imported Fire Ant

ADDITIONS TO REGULATED AREAS

This document amends the supplemental regulation which lists regulated areas for purposes of the Federal Imported Fire Ant Quarantine by adding to the regulated areas all or parts of the following previously nonregulated counties: Chicot in Arkansas; Dixie, Gilchrist, Glades, and Levy in Florida; Echols in Georgia; Tishomingo in Mississippi; Pamlico and Robeson in North Carolina; Barnwell in South Carolina; Fayette, Houston, and Washington in Texas. It also extends the regulated areas in the following previously regulated counties: Ashley in Arkansas; Alachua, Brevard, Charlotte, Columbia, Flagler, Highlands, Lafayette, Lake, Lee, Leon, Madison, Marion, Osceola, Putnam, St. Johns, Suwannee, Taylor, and Volusia in Florida; Bacon, Carroll, Clinch, Columbia, Coweta, Fayette, Heard, Jasper, Johnson, Lanier, McIntosh, Putnam, Tattnall, Toombs, Treutlen, Ware, and Washington in Georgia; Carroll, Humphreys, Prentiss, Union, and Yalobusha in Mississippi; Brunswick and Columbus in North Carolina; Georgetown, Hampton, Kershaw, and Sumter in South Carolina; and Collin in Texas. Various minor changes are also made.

Under sections 8 and 9 of the Plant Quarantine Act, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), and § 301.81–2 of the Imported Fire Ant Quarantine regulations, 7 CFR 301.81–2, as amended, a supplemental regulation designating regulated areas, 7 CFR 301.81–2a, is hereby amended as set forth below:

§ 301.81–2a **Regulated Areas; suppressive and generally infested areas.**

* * * * * *

1. In § 301.81–2a relating to the State of Arkansas, under generally infested area, the entire description is changed as set forth below:

ARKANSAS

(1) *Generally infested area.*

Ashley County. That portion of the county lying south of the south line of T. 16 S.; Secs. 35 and 36, T. 16 S., R. 8 W.

Bradley County. That portion of the county lying south of the south line of T. 15 S.

Chicot County. That portion of the county lying south of the south line of T. 16 S., including all of Pickett Island.

Lafayette County. Secs. 4, 5, 8, and 9, T. 20 S., R. 23 W.; secs. 2, 3, 10, and 11, T. 20 S., R. 25 W.

Union County. The entire county.

2. In § 301.81–2a relating to the State of Florida, under generally infested area, the entire description is changed as set forth below:

FLORIDA

(1) *Generally infested area.*

Alachua County. The entire county.
Baker County. The entire county.
Bay County. The entire county.
Bradford County. The entire county.
Brevard County. The entire county.
Calhoun County. The entire county.
Charlotte County. The entire county.
Citrus County. The entire county.
Clay County. The entire county.
Collier County. Sec. 12, T. 49 S., R. 25 E.
Columbia County. The entire county.
De Soto County. The entire county.
Dixie County. The entire county.
Dural County. The entire county.
Escambia County. The entire county.

V 38-154 AUG 10 73 XUM

Walton County. The entire county.
Washington County. The entire county.

3. In § 301.81–2a relating to the State of Georgia, under generally infested area, the following counties are redescribed or added in alphabetical order as set forth below:

GEORGIA

(1) *Generally infested area.*

. . . . . .

Bacon County. The entire county.

. . . . . .

Carroll County. That portion of the county lying within Georgia Militia Districts 1163, 1541, 682, 713, 1533, and 1310.

. . . . . .

Clinch County. The entire county.

. . . . . .

Columbia County. That portion of the county lying within Georgia Militia Districts 129 and 125.

. . . . . .

Coweta County. The entire county.

. . . . . .

Echols County. The entire county.

. . . . . .

Fayette County. The entire county.

. . . . . .

Heard County. The entire county.

. . . . . .

Jasper County. That portion of the county lying within George Militia District 296, and that portion of county lying south of State Highway 16, including the city of Monticello.

. . . . . .

Jackson County. The entire county.

. . . . . .

Lanier County. The entire county.

. . . . . .

McIntosh County. The entire county.

. . . . . .

Putnam County. That portion of the county lying within Georgia Militia Districts 311, 312, 314, and 369.

. . . . . .

Tattnall County. The entire county.

. . . . . .

Toombs County. The entire county.
Treutlen County. The entire county.

. . . . . .

Ware County. The entire county.
Washington County. The entire county.

. . . . . .

4. In § 301.81–2a relating to the State of Mississippi, under generally infested area, the following counties are redescribed or added in alphabetical order as set forth below:

MISSISSIPPI

(1) *Generally infested area.*

. . . . . .

Carroll County. That portion of the county lying east of the west line of R. 4 E.

. . . . . .

Humphreys County. S.W.¼ T. 13 N.; R. 3 W., S.½ T. 13 N., R. 4 W.; T. 16 N., R. 3 W.; and that portion of T. 17 N., R. 3 W.

. . . . . .

Prentiss County. All R. 9 E.; and portions of T. 7 S., R. 7 E. and T. 7 S., R. 8 E.

. . . . . .

Tishomingo County. That portion of the county lying south of the north line of T. 6 S.

Union County. The entire county.

. . . . . .

Yalobusha County. All of Tps. 10, 11, and 12 S., Rs. 3 and 4 W.; all of Tps. 23 and 24 N., Rs. 5, 6, and 7 E.; and T. 25 N., Rs. 6 and 7 E.

. . . . . .

5. In § 301.81–2a relating to the State of North Carolina, under generally infested area, the following counties are redescribed or added in alphabetical order as set forth below:

NORTH CAROLINA

(1) *Generally infested area.*
Brunswick County. The entire county.

. . . . . .

Columbus County. That area bounded by a line beginning at a point where North Carolina Highway 130 junctions with State Secondary Road 1170, thence southeast along said road to the Waccamaw River, thence southwest along said river to the North Carolina-South Carolina State line, thence northwest along said state line to its junction with the Tabor City boundary line, thence north and east along said boundary line to its intersection with the Seaboard Coast Line Railroad, thence northeast and north along said railroad to its intersection with State Secondary Road 1004, thence northeast along said road to its junction with U.S. Highway 701, thence north along said highway to its junction with State Secondary Road 1170, thence east along said road to point of beginning, including all of the town of Brunswick.

. . . . . .

Pamlico County. That portion of the county bounded by a line beginning at a point where Goose Creek intersects North Carolina Highway 55, thence east and southeast along said highway to its junction with State Secondary Road 1322, thence east along said road to its junction with State Secondary Road 1321, thence northeast along said road to its junction with Broad Creek, thence east along said creek to its junction with Pamlico Sound, thence southwest along said sound to its junction with the Neuse River, thence southwest and northwest along said river to its junction with Goose Creek, thence northwest along said creek to the point of beginning, excluding the corporate limits of Alliance, Bayboro, and Stonewall.

Robeson County. That area bounded by a line beginning at a point where the Lumber River intercepts Interstate Highway 95, thence east and south along said river to the Columbus-Robeson County line, thence southwest along said county line and Lumber River to their intersection with the North Carolina-South Carolina State line, thence northwest along said state line to the Seaboard Coast Line Railroad, thence northeast along said railroad to its intersection with the Lumber River, thence southeast and east along said river to the point of beginning.

6. In § 301.81–2a relating to the State of South Carolina, under generally infested area, the following counties are redescribed or added in alphabetical order as set forth below:

SOUTH CAROLINA

(1) *Generally infested area.*

. . . . . .

Barnwell County. That portion of the county bounded by a line beginning at a point where State Primary Highway 3 intersects the Barnwell-Allendale County line, thence northerly along said highway to its junction with State Primary Highway 70, thence northeasterly along said highway to its intersection with the Barnwell-Bamberg County line, thence in a southerly direction along said line to its junction with the Allendale County line, thence in a westerly direction along said line to the point of beginning.

. . . . . .

Georgetown County. The entire county.
Hampton County. That portion of the county bounded by a line beginning at a point where the Savannah River junctions with the Hampton-Allendale County line, thence extending east and northeast along said county line to its junction with State Secondary Highway 39, thence south and east along said highway to its junction with State Primary Highway 631, thence east along said highway to its junction with State Secondary Highway 50, thence northeast along said highway to its junction with State Secondary Highway 55, thence east along said highway to its junction with U.S. Highway 278, thence southeast along said highway to its junction with State Secondary Highway 27, thence northeast along said highway to its junction with State Primary Highway 68, thence southeast along said highway to its intersection with the Seaboard Coast Line Railroad, thence southwest along said railroad to its intersection with the Tullifinny River, thence northwest along said river to its junction with the Coosawhatchie River, thence northwest along said river to its junction with the Hampton-Jasper County line, thence southwest along said county line to its junction with the Savannah River, thence northwest and north along said river to the point of beginning.

. . . . . .

Kershaw County. That portion of the county lying south of State Primary Highway 34.

. . . . . .

Sumter County. That portion of the county bounded by a line beginning at a point where State Primary Highway 261 intersects the Sumter-Kershaw County line, thence in a southerly direction along said highway to its junction with State Primary Highway 763, thence east along said highway to its intersection with the corporate limits of the city of Sumter; thence in a southerly and easterly direction along said city limits to its intersection with U.S. Highway 521, thence in a southeasterly direction along said highway to its intersection with the Sumter-Clarendon County line, thence in a southwesterly direction along said line to its junction with the Santee River, thence northwesterly along said river to its junction with the Wateree River, thence northerly along said river to its junction with the Sumter-Kershaw County line, thence northeasterly and easterly along said county line to the point of beginning.

. . . . . .

7. In § 301.81–2a relating to the State of Texas, under generally infested area, the following counties are redescribed or added in alphabetical order as set forth below:

TEXAS

(1) *Generally infested area.*

. . . . . .

Collin County. That portion of the county bounded by a line beginning at a point where Texas State Highway 24 intersects the Collin-Denton County line and extending east along said road to its intersection with Texas State Highway 5, thence southerly along said highway to its intersection with the Collin-Dallas County line, thence west along said county line to its junction with the Collin-Denton County line, thence north along said county line to the point of beginning, including the entire cities of McKinney, Plano, Renner, and Allen.

. . . . . .

Fayette County. That portion of the county bounded by a line beginning at a point where Texas Highway 159 intersects U.S. Highway 77 thence northeasterly along Texas Highway 159 to its intersection with Texas Highway 237, thence northeasterly along said highway to the Fayette-Washington County line, thence southeasterly along said county line to its junction with the Fayette-Austin County line, thence southeasterly along said county line to its junction with the Fayette-Colorado County line, thence southwesterly along said county line to its junction with the Fayette-Lavaca County line, thence west along said county line to its intersection with Highway 77, thence northerly along said highway to the point of beginning, including the entire cities of La Grange and Schulenburg.

. . . . . .

Houston County. The entire county.

. . . . . .

Washington County. That portion of the county lying east of State Highway 36, including the entire city of Brenham.

. . . . . .

(Secs. 8, 9, 37 Stat. 318, as amended, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 37 F.R. 28464, 28477; 38 F.R. 19140; 7 CFR 301.81–2)

This amendment shall become effective August 9, 1973.

The Deputy Administrator of the Plant Protection and Quarantine Programs has determined that the imported fire ant has been found or there is reason to believe it is present in the civil divisions and parts of civil divisions listed as regulated areas or that it is necessary to regulate such areas because of their proximity to imported fire ant infestation or their inseparability for quarantine enforcement purposes from imported fire ant infested localities. Further, he has also determined that the areas designated as suppressive and generally infested areas are eligible for such designation under § 301.81–1.

The Deputy Administrator has also determined that each of the quarantined States, wherein only portions of the State are designated as regulated areas, has adopted and is enforcing a quarantine or regulation which imposes restrictions on the intrastate movement of the regulated articles which are substantially the same as those which are imposed with respect to the interstate movement of such articles under the Quarantine and regulations in this subpart, and that the designation of less than the entire State as a regulated area will otherwise be adequate to prevent the interstate spread of the imported fire ant. Therefore, such civil divisions and parts of civil divisions listed above are designated as imported fire ant regulated areas.

This document imposes restrictions that are necessary in order to prevent the dissemination of the imported fire ant and should be made effective promptly to accomplish its purpose in the the public interest. Accordingly, it is found upon good cause, under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure with respect to the foregoing amendment are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 7th day of August 1973.

LEO G. K. IVERSON,
Deputy Administrator Plant Protection and Quarantine Programs.

[FR Doc.73–16573 Filed 8–9–73;8:45 am]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 598]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This section fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period August 12–18, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.898 Lemon Regulation 598.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons continues active, exceeding supplies on all sizes and grades. Average f.o.b. price was $6.11 per carton the week ended August 4, 1973, compared to $5.69 per carton the previous week. Track and rolling supplies at 145 cars were down 7 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are

V 38-154 AUG 10 73 XUM

identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 7, 1973.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period August 12, 1973, through August 18, 1973, is hereby fixed at 265,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 8, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Lime Reg. 8]

PART 911—LIMES GROWN IN FLORIDA

Limitation of Handling

This regulation fixes the quantity of Florida limes that may be shipped to fresh market during the weekly regulation period August 12–18, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 911. The quantity of limes so fixed was arrived at after consideration of the total available supply of Florida limes, the quantity currently available for market, lime prices, and the relationship of season average returns to the parity price for Florida limes.

§ 911.408 Lime Regulation 8.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911; 37 FR 10497), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Florida Lime Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of limes that may be marketed during the ensuing week stems from the production and marketing situation confronting the Florida lime industry.

(i) The committee has submitted its recommendation with respect to the quantity of limes which it deems advisable to be handled during the succeeding week. Such recommendation results from consideration of the factors enumerated in the order. The committee further reports the fresh market demand for limes continues to weaken, with f.o.b. prices last week ranging from $1.15 to $1.35 per 10 lb. pony, down about 10 cents from the previous week and 35 cents from two weeks ago. Fresh shipments for the weeks ended August 4, 1973, and July 28, 1973, were 26,416 bushels and 27,967 bushels, respectively.

(ii) Having considered the recommendation and information submitted by the committee, and other available information the Secretary finds that the quantity of limes which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Florida limes, and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submited to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such limes; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 7, 1973.

(b) *Order.* (1) The quantity of limes grown in Florida which may be handled during the period August 12, 1973 through August 18, 1973 is hereby fixed at 18,000 bushels.

(2) As used in this section, "handled" and "limes" have the same meaning as when used in said amended marketing agreement and order, and "bushel" means 55 pounds of limes.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 8, 1973.

PART 924—FRESH PRUNES GROWN IN DESIGNATED COUNTIES IN WASHINGTON AND IN UMATILLA COUNTY, OREGON

Expenses and Rate of Assessment

This document authorizes expenses of $14,558 of the Washington-Oregon Fresh Prune Marketing Committee, under Marketing Order No. 924, for the 1973–74 fiscal period and fixes a rate of assessment of $0.70 per ton of prunes.

On June 21, 1973, notice of proposed rule making was published in the FEDERAL REGISTER (38 FR 16234) regarding proposed expenses and the related rate of assessment for the period April 1, 1973, through March 31, 1974, pursuant to the marketing agreement, and Order No. 924 (7 CFR Part 924), regulating the handling of fresh prunes grown in designated counties in Washington and in Umatilla County, Oregon. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Washington-Oregon Fresh Prune Marketing Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 924.213 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Washington-Oregon Fresh Prune Marketing Committee during the period April 1, 1973, through March 31, 1974, will amount to $14,558.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each handler in accordance with § 924.41, is fixed at $0.70 per ton of fresh prunes.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of fresh prunes grown in the designated production area are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable prunes handled during the aforesaid period; and (3) such period began on April 1, 1973, and said rate of assessment will automatically apply to all such prunes beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 6, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division Agricultural Marketing Service.

[FR Doc.73–16509 Filed 8–9–73;8:45 am]

PART 925—FRESH PRUNES GROWN IN DESIGNATED COUNTIES IN IDAHO AND IN MALHEUR COUNTY, OREGON

Expenses and Rate of Assessment and Carryover of Unexpended Funds

This document authorizes expenses of $5,180 of the Idaho-Malheur County, Oregon, Fresh Prune Marketing Committee, under Marketing Order No. 925, for the 1973–74 fiscal period and fixes a rate of assessment of $0.005 per one-half bushel (30-pound) contained.

On July 13, 1973, notice of rule making was published in the FEDERAL REGISTER (38 FR 18670) regarding proposed expenses, the related rate of assessment for the fiscal period July 1, 1973, through June 30, 1974, and carryover of unexpended funds from the fiscal period ended June 30, 1973, pursuant to the marketing agreement and Order No. 925 (7 CFR Part 925) regulating the handling of fresh prunes grown in designated counties in Idaho and in Malheur County, Oregon. This notice allowed interested persons until July 23, 1973, to submit data, views, or arguments pertaining to these proposals. None were submitted. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Idaho-Malheur County, Oregon, Fresh Prune Marketing Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 925.213 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Idaho-Malheur County, Oregon, Fresh Prune Marketing Committee during the fiscal period July 1, 1973, through June 30, 1974, will amount to $5,180.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each handler in accordance with § 925.41, is fixed at $0.005 per one-half bushel (30-pound) containers or equivalent quantity of fresh prunes.

(c) *Reserve.* Unexpended assessment funds, in excess of expenses incurred during the fiscal period ended June 30, 1973, shall be carried over as a reserve in accordance with the applicable provisions of §§ 925.42 and 925.203.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of fresh prunes grown in the designated production area are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable prunes handled during the aforesaid period; and (3) such period began on July 1, 1973, and said rate of assessment will automatically apply to all such prunes beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 7, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Tokay Grape Reg. 9]

PART 926—TOKAY GRAPES GROWN IN SAN JOAQUIN COUNTY, CALIFORNIA

Grades and Sizes Requirements

This regulation prescribes the grade and container marking requirements for fresh Tokay grapes shipped from San Joaquin County, California, during the period August 11 through December 31, 1973.

On July 26, 1973, notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 19972) regarding a proposed regulation to be made effective pursuant to the marketing agreement, as amended, and Order No. 926, as amended (7 CFR Part 926), which regulate the handling of Tokay grapes grown in San Joaquin County, California. The proposed regulation was recommended by the Industry Committee established pursuant to said marketing agreement and order. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The notice allowed interested persons to submit, through August 3, 1973, written data, views, or arguments pertaining to the proposed regulation. None were submitted.

This regulation reflects the Department's appraisal of the Tokay grape crop and the current and prospective market conditions. Seasonal shipments of fresh Tokay grapes are expected to begin on or about August 11, 1973. The grade requirements hereinafter provided, including the minimum size provisions thereof, are designed to prevent the handling, on and after August 11, 1973, of any fresh Tokay grapes grown in the production area which are of lesser quality so as to provide consumers with good quality fruit consistent with the overall quality of the crop, while improving returns to producers and maintaining orderly marketing conditions pursuant to the declared policy of the act. The requirement for more even distribution of color (30 percent of the grapes in the lower quarter of each bunch showing characteristic color) is included also to assure the availability, to consumers, of Tokay grapes of satisfactory quality. It is believed, by the industry, that such quality requirements will be met by a quantity of grapes sufficient to fulfill the market demand. Compliance with the container marking requirement will verify inspection thus assuring compliance with the quality requirements specified herein.

After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice, the recommendation and information submitted by the Industry Committee, and upon other available information, it is hereby found that the limitation of handling of Tokay grapes grown in San Joaquin County, California, as hereinafter provided, will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of said Tokay grapes are expected to begin on or about the effective date hereof and this section should be applicable to all such shipments in order to effectuate the declared policy of the act; (2) notice of proposed rulemaking concerning this regulation, with an effective date as hereinafter specified, was published in the FEDERAL REGISTER (38 FR 19972), and no objection to this section or such effective date was received; and (3) compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

§ 926.310 Tokay Grape Regulation 9.

Order. (a) During the period August 11, 1973, through December 31, 1973, no handler shall ship:

(1) Any Tokay grapes, grown in the production area, which do not meet the grade and size specifications of U.S. No. 1 Table Grapes and the following additional requirement: Of the 25 percent, by count, of the berries of each bunch which are attached to the lower part of the main stem, including laterals, at least 30 percent, by count, shall show characteristic color; or

(2) Any container of Tokay grapes, grown in the production area, unless such container bears, in plain letters and figures on one outside end, a Federal-State Inspection Service lot stamp number showing that such grapes have been inspected in accordance with the established grade set forth in this section.

(b) As used herein, the terms "handler," "ship," and "production area" shall have the same meaning as when used in the amended marketing agreement and order; "U.S. No. 1 Table Grapes" and "characteristic color" shall have the same meaning as when used in the United States Standards for Table Grapes (§§51.880–51.912 of this title).

V 38-154 AUG 10 73 XUM

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

PART 947—IRISH POTATOES GROWN IN MODOC AND SISKIYOU COUNTIES, CALIFORNIA, AND IN ALL COUNTIES IN OREGON EXCEPT MALHEUR COUNTY

Expenses and Rate of Assessment

This document authorizes the Oregon-California Potato Committee to spend not more than 37,181 during the fiscal period ending June 30, 1974, and to collect these funds by assessing first handlers of potatoes one-half cent per hundredweight.

Notice of rule making regarding the proposed expenses, rate of assessment and late payment charges to be effective under Marketing Agreement No. 114 and Order No. 947, both as amended (7 CFR Part 947), regulating the handling of Irish potatoes grown in Modoc and Siskiyou Counties in California and in all counties in Oregon except Malheur County, was published in the July 13, 1973, FEDERAL REGISTER (38 FR 18672). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). The notice afforded interested persons an opportunity to file written data, views, or arguments pertaining there to not later than July 30, 1973. None was filed.

After consideration of all relevant matters, including the proposals set forth in the aforesaid notice which were recommended by the Oregon-California Potato Committee, established under the marketing agreement and order, it is hereby determined that:

§ 947.226 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending June 30, 1974, by the Oregon-California Potato Committee for its maintenance and functioning, and for such purposes as the Secretary determines to be appropriate, will amount to $37,181.

(b) The rate of assessment to be paid by each handler in accordance with the Marketing Agreement and this part shall be one-half of one cent ($0.005) per hundredweight of potatoes handled by him as the first handler thereof during said fiscal period, except seed potatoes and potatoes for canning, freezing and "other processing" as defined in the amendment to the act (P.L. 91–196) shall be exempt.

(c) In accordance with the provisions of § 947.41, late payment charges of $1.00 per month or one percent per month, whichever is greater, shall be charged on the unpaid balance for each past-due account. An account is past-due 60 days after the billing date.

(d) Unexpended income in excess of expenses for the fiscal period ending June 30, 1974, may be carried over as a reserve.

(e) Terms used in this section have the same meaning as when used in the marketing agreement and this part.

It is hereby found that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), in that (1) the relevant provisions of said marketing agreement and this part require that the rate of assessment fixed for a particular fiscal period shall be applicable to all assessable potatoes from the beginning of such period, and (2) the current fiscal period began July 1, 1973, and the rate of assessment herein fixed will automatically apply to all assessable potatoes beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

Dated: August 6, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Regs., 1973 Crop Barley Supplement]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1973 Crop Barley Loan and Purchase Program

Correction

In FR Doc. 73–14905 appearing at page 19662 in the issue of Monday, July 23, 1973, make the following changes:

In § 1421.77(a):

1. The rate per bushel under Arkansas, reading "$0.83" should read "$0.88".

2. The rate per bushel under Maryland, reading "$0.98" should read "$0.88".

3. The rate per bushel under South Dakota, Aurora county, reading "$0.75" should read "$0.79".

4. The rate per bushel under Texas, Bell county, reading "$0.96" should read "$0.98"; Martin county reading "$0.88" should read "$0.86"; Reeves county, reading "$0.76" should read "$0.78"; Walker county reading "$1.00" should read "$1.03".

[CCC Grain Price Support Regulations, 1973 Crop Grain Sorghum Supplement]

PART 1421—GRAIN AND SIMILARLY HANDLED COMMODITIES

Subpart—1973 Crop Grain Sorghum Loan and Purchase Program

Correction

In FR Doc. 73–14906 appearing at page 19665 in the issue of Monday, July 23, 1973, make the following changes:

In § 1421.239(a):

1. The phrase "rate per bushel" used as a column heading should read "rate per cwt."

2. "All counties . . . . $1.80" under Arizona should be deleted.

3. Under "Nebraska", in the second column, the first six counties should read:

County	Rate per cwt.
Nuckolls	$1.63
Otoe	1.67
Pawnee	1.69
Pierce	1.62
Platte	1.62
Polk	1.62

4. Under Texas in the second column, El Paso and Ellis counties, with their respective rates per cwt., should be transposed.

Title 10—Atomic Energy

CHAPTER I—ATOMIC ENERGY COMMISSION

[Domestic Uranium Circular 8, Revised]

PART 60—DOMESTIC URANIUM PROGRAM

Uranium Leases on AEC Controlled Lands

Correction

In the FEDERAL REGISTER of Thursday, August 8, 1973, FR Doc. 73–16494 (38 FR 21521) was inadvertently published in the Notices section. It should have been published in the Rules and Regulations section as follows:

1. Notice is hereby given by the Atomic Energy Commission of its modification of Domestic Uranium Program Circular 8 setting forth the regulations concerning the leasing of certain lands controlled by the Commission. This Circular was originally published July 14, 1956 (21 FR 5259). The proposed modification of Circular 8 was published in the FEDERAL REGISTER on November 10, 1970 (35 FR 17271). As a result of comments received from the public on the proposed modified Circular, provision has been made to allow a small business set-aside (under authority of the Small Business Act) of some of the lands for bidding solely by qualified small business concerns.

2. The revised § 60.8 reads as set forth below:

§ 60.8 Uranium leases on lands controlled by commission.

(a) *What this section does.* This section sets forth regulations governing the issuance of leases to permit the exploration for and mining of deposits containing uranium in public lands withdrawn from entry and location under the general mining laws for use of the Commission, and in certain other lands under Commission control.

(b) *Statutory authority.* The Atomic Energy Act of 1954, as amended (68 Stat. 919, 42 USC 2011 et seq.) is the authority for this section.

(c) *Who may hold leases.* Only parties who are (1) citizens of the United States; (2) associations of such citizens; or (3) corporations organized under the laws of the Untied States or territories thereof, are eligible lessees under this section. Persons under 21 years of age or employees of the Commission are not eligible.

(d) *Issuance of leases through competitive bidding.* Except under special circumstances as provided in paragraph (u) of this section, each lease will be offered through competitive bidding and, except as otherwise provided in this paragraph (d), will be issued to the acceptable bidder offering the highest bid. The bid may be on a cash bonus, royalty bonus, or other basis as specified in the invitation to bid. Invitations to bid on some of the lands may be limited to small business concerns as defined by the Small Business Administration, and such invitations may limit the number of leases to be awarded to each bidder. In such cases the Commission will accept those bids which, in relation to other bids received pursuant to the invitation, are most advantageous to the Government. Before any lease is awarded, the Commission may require high bidders to submit a detailed statement of the facts as to such matters as their experience, organization, and financial resources. The Commission reserves the right to reject any and all bids.

(e) *Solicitation of bids.* Announcements of the availability of invitations to bid for a lease will be publicly posted and published. Copies of such announcements will also be mailed to parties who submit to the Commission's Grand Junction, Colorado Office subsequent to publication in the FEDERAL REGISTER of this Domestic Uranium Program Circular 8, Revised, written requests that their names be placed on a mailing list for receipt of such announcements. The invitations containing information for preparation and submission of bids, will be available at the Grand Junction Office, and will be mailed only on specific written request, following announcement of their availability. Invitations will specify the land to be leased, the basis on which bids are to be submitted, the amount of the monetary deposit which must be transmitted with the bid, the place and time the bids will be publicly opened, the term, royalty and other payments, performance requirements, and other conditions which will become a part of the lease. In addition, data which has been assembled pertaining to the lands to be leased will be available for public inspection at the Grand Junction Office; copies will also be available for purchase.

(f) *Bidding requirements; deposits.* All bids must be filed at the place and prior to the time set forth in the invitation. Each bid must be sealed and accompanied by a deposit, in the form of a certified check, cashier's check, or bank draft, in an amount as specified in the invitation to bid. Deposits of unsuccessful bidders will be returned. If the bidder is an individual, he must submit with his bid a statement of his citizenship and age. If the bidder is an association (including a partnership), the bid shall be accompanied by a certified copy of the articles of association together with a statement as to the citizenship and age of its members. If the bidder is a corporation, evidence that the officer signing the bid had authority to do so and a statement as to the State of incorporation shall also be submitted.

(g) *Awarding of lease.* Following public opening of the bids the Commission, subject to the right to reject any and all bids, will determine the successful bidder. In the event the highest acceptable bids are tie bids, a public drawing will be held by the Commission to determine the successful bidder. After notice of award and within the time period prescribed in the invitation, the successful bidder shall execute and return to the Commission three (3) copies of the lease and shall remit payments due as prescribed in the invitation. should the successful bidder fail to execute the lease, or make payments as required, in accordance with the terms of the invitation, or fail to otherwise comply with applicable regulations, he may be required to forfeit any payments previously made, and lose any further right or interest in the lease. In such event, the Commission may offer the lease to the next highest acceptable bidder, reoffer the lease for bidding, or take such other action as appropriate. If the awarded lease is executed by the bidder through an agent, evidence of authorization must be submitted.

(h) *Dating of lease.* A lease issued under this section will ordinarily be effective as of the date it is signed by the Commission.

(i) *Term of lease.* A lease shall be for the period specified in the invitation to bid. When deemed desirable by the Commission, the lease will provide that the lease term may be extended at the option of the lessee for a specified period and upon stipulated conditions.

(j) *Payments to AEC under lease.* Royalty payments shall be specified in the invitation to bid; base royalty, minimum royalty, advance royalty, land rental payments, or a combination thereof may be required.

(k) *Title to unshipped ore.* The Commission, unless it approves otherwise, reserves all right and title to property in and to all ores and other uranium- or vanadium-bearing material not removed from the leased premises within sixty days after expiration or other termination of the lease. Unless the Commission approves otherwise, all material mined from the leased premises and not marketed by the lessee shall remain on the leased premises.

(l) *Environmental controls.* Each lease will contain such provisions as may be deemed necessary by the Commission with respect to the lessee's use of the leased lands. The Commission may require periodic submission of plans for exploration and mining activities including provisions for control of environmental impact. The lessee will be required to conduct operations so as to minimize adverse environmental effects, to comply with all applicable State and Federal statutes and regulations and to the extent stipulated in the lease agreement, will be held responsible for maintenance or rehabilitation of affected areas in accordance with plans submitted to and approved by the Commission.

(m) *Performance requirements.* A lease shall require that exploration, development, and mining activities, as appropriate, be conducted on the leased premises with reasonable diligence, skill, and care as required to achieve and maintain production of uranium ore at rates consistent with good and safe mining practice, and with market conditions.

(n) *Health and safety requirements.* A lease (1) shall require that exploration, development, and mining activities, as appropriate, be conducted on the leased premises with due regard for the health and safety of those involved, and (2) shall include appropriate measures for the control of radiation exposure in the mines.

(o) *Lessee's records.* Leases shall provide that the lessee keep and make available to the Commission such records as the Commission deems necessary for the administration of the lease and its leasing program.

(p) *Rights of the Commission.* The Commission reserves the right to enter upon the leased property and into all parts of the mine for inspection and other purposes. The Commission also reserves the right to grant to other persons easements or rights of way upon, through, or in the leased premises. The Commission and the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of three years after termination or expiration of lease, have access to and the right to examine any directly pertinent books, papers, and records of the lessee involving transactions related to the lease.

(q) *Relinquishment of leases.* A lease may be surrendered by the lessee upon filing with and approval by the Commission of a written application for relinquishment. Approval of the application shall be contingent upon the delivery of the leased premises to the Commission in a condition determined to be satisfactory to the Commission. The lessee shall continue to be liable for the payment of all royalty and other debts due the Commission.

(r) *Assignment of leases.* Any transfer of a lease or any interest therein or claim thereunder, will not be recognized unless and until approved by the Commission in writing. Ordinarily, the Commission will not approve any transfer of a lease which involved overriding royalties or deferred payments of any kind to the transferor.

(s) *Cancellation.* Any lease may be cancelled by the Commission whenever the lessee fails to comply with the provisions of the lease. Failure of the Commission to exercise its right to cancel shall not be deemed a waiver thereof.

(t) *Form of lease.* Leases will be issued on forms prescribed by the Commission.

V 38 154 AUG 10 73 XUM

(u) *Noncompetitive leases.* Under special circumstances, where the Commission believes it to be in the best interest of the Government, the Commission at its discretion may award or extend leases on the basis of negotiation.

(v) *Commission decisions.* All matters connected with the issuance and administration of leases will be determined by the Commission whose decisions shall be final and conclusive.

(w) *Definitions.* "Commission" as used in this section means the United States Atomic Energy Commission or its duly authorized representative or representatives.

(x) *Multiple use of land.* Leases issued under this section shall provide that operations under them will be conducted so as not to interfere with the lawful operations of any third party having a lease, permit, easement, or other right or interest in the premises.

(y) *Compliance with State and Federal Regulations.* Every lease shall provide that the lessee is required to comply with all applicable State and Federal statutes and regulations.

(Atomic Energy Act of 1964, as amended, 68 Stat. 919, 42 U.S.C. 2011 et seq.)

Dated at Germantown, Md., this 3rd Day of August, 1973.

For the Atomic Energy Commission.

GORDON M. GRANT,
Acting Secretary of the Commission.

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 185—EMERGENCY SCHOOL AID

Waivers of Ineligibility

Notice of proposed rulemaking was published in the FEDERAL REGISTER on July 16, 1973 at 38 FR 18899, setting forth revisions to the regulations of the Emergency School Aid Act concerning waivers of ineligibility based upon discrimination in faculty assignment (§ 185.44 (d)(3)); and the reservation of funds appropriated under the Act (§ 185.95(b)). Comments were received with respect to the proposed revision concerning waivers from four commenters.

SUMMARY OF COMMENTS

1. One commenter requested a broadening of the revision to permit a particular school district to be considered for funding. Under the circumstances of that case such a broadening is not appropriate at this time.

2. One commenter felt that the determination of assignments pursuant to § 185.44(d)(3)(ii) is not consistent with sound educational principles. It should be understood that the requirement that assignments made after the date of application for waiver not contribute to or reinforce racial or ethnic identifiability of any school are to be viewed in the context of alternative assignment opportunities. Where alternatives do exist, as between an assignment which will contribute to or reinforce identifiability and one which will not, the latter alternative must be chosen. Where alternatives do not exist the provisions of § 185.44(d)(3)(ii) do not apply.

3. Two commenters felt that section 706(d)(3) of the Act requires all racially identifiable faculty assignments to be eliminated before a waiver application can be approved. It should be understood that § 185.43(b)(2) permits a finding of ineligibility based upon "discrimination in assignment" (section 706(d)(1)(B) of the Act) where the assignment of full-time classroom teachers has been made in such a manner as to identify a school as intended for students of a particular race, color, or national origin, and that section 706(d)(3) requires that the practice, policy, procedure, or other activity which resulted in ineligibility must cease to exist before a waiver can be granted. The Act does not require that racially identifiable faculties be completely eliminated prior to granting a waiver. Section 185.44(d)(3)(i) and (ii) require that an applicant for waiver adopt a policy of nondiscriminatory assignments, and that no new assignments of staff be made which contribute to or reinforce identifiability of schools. These requirements satisfy the relevant provision of section 706(d)(3).

4. Two commenters felt that the provision of § 185.44(d)(3)(iv) permitting districts to obtain waivers of ineligibility, if they commit themselves to eliminate completely racially identifiable faculties no later than the commencement of the 1975–76 academic year, does not meet constitutional standards as expressed in court decisions. These comments misconceive the nature of the Secretary's determination pursuant to § 185.43(b)(2) that a local educational agency is ineligible by reason of discrimination in the assignment of faculty. Such determination does not necessarily involve a finding of constitutional violation. Accordingly, the remedial measures which the school district must take under the regulation to eliminate the present effect of the past assignment practices need not meet the requirements laid down by the courts in Fourteenth Amendment cases for correcting racially segregated faculty assignments made under a dual system of schools based on race.

5. One commenter felt that the revision did not comply with section 703(a) of the Act in that the revision would bear differently on school districts which had maintained an officially dual system of schools based on race than on other districts. Even if this were the case, in our view this would not be unequal treatment in a legal sense. In any event, as has been already pointed out, the "racial identifiability" of faculties referred to in the regulation is not based solely on racial discrimination in the constitutional sense and, therefore, the dichotomy of treatment posed by the commenter assumes too much.

6. Other comments do not require discussion as they raised no significant issue.

After consideration of the above comments the revisions to part 185 of title 45 of the Code of Federal Regulations as proposed are hereby adopted without change and are set forth below.

Effective date. This regulation shall be effective August 16, 1973.

Dated: August 9, 1973.

CHARLES B. SAUNDERS, JR.,
Acting Assistant Secretary for Education.

Approved: August 9, 1973.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

§ 185.44 Waiver of ineligibility.

* * * * *

(d) Demotion or dismissal of minority group personnel:

* * * * *

(3) In the case of ineligibility resulting from discriminatory assignment of teachers as prohibited by § 185.43(b)(2), such applications for waiver shall contain evidence that such agency has adopted and implemented a nondiscriminatory assignment policy. In the case of a local educational agency implementing a plan described in § 185.11(a), such evidence shall indicate that such agency is complying with the requirements of such plan with respect to the assignment of faculty. In the case of local educational agencies not implementing such a plan, or implementing such a plan which contains no provision as to assignment of faculty, such evidence shall include at a minimum:

(i) Adoption by such agency of a policy of nondiscriminatory assignment of faculty and staff members;

(ii) Determination of all faculty and staff assignments made after the date of application for waiver in a manner which does not contribute to or reinforce the racial or ethnic identifiability of any school operated by such agency;

(iii) Adoption of a plan to eliminate all full-time teaching faculties composed exclusively of members of a single racial or ethnic group no later than the end of the period for which assistance is to be awarded; and

(iv) Adoption of a plan for assignment of faculty and staff members which will eliminate all racially or ethnically identifiable faculties at schools operated by

such agency within a reasonable period of time but in no event later than the commencement of the 1975–76 academic year. In the case of school districts in which the percentage of minority group members on the full-time teaching faculty is less than the percentage of minority group members in the student body, such plans shall include a plan of affirmative action to increase the percentage of minority group members on the full-time teaching faculty of such agency.

* * * * *

§ 185.95 Reservation of funds.

* * * * *

(b) The Assistant Secretary hereby reserves:

(1) An amount equal to 5 percent of the sums appropriated under the Act for any fiscal year for the purpose of special projects under Subpart J of this part;

* * * * *

(3) An amount equal to 3 percent of the sums so appropriated for the purposes of educational television projects under Subpart H of this part; and

* * * * *

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 946]

IRISH POTATOES GROWN IN WASHINGTON

Proposed Expenses and Rate of Assessment

Consideration is being given to the approval of a proposed $10,050 budget for the fiscal period ending June 30, 1974, and a one-tenth cent per hundredweight rate of assessment on first handlers for the State of Washington Potato Committee, established under Marketing Agreement No. 113 and Order No. 946, both as amended (7 CFR Part 946).

This marketing order program regulates the handling of Irish potatoes grown in Washington, and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit written data, views, or arguments in connection with these proposals may file the same, in quadruplicate, with the Hearing Clerk, Room 112-A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than August 19, 1973. All written submissions made pursuant to this notice will be available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposals are as follows:

§ 946.226 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending June 30, 1974, by the State of Washington Potato Committee for its maintenance and functioning and for such other purposes as the Secretary may determine to be appropriate will amount to $10,050.

(b) The rate of assessment to be paid by each handler in accordance with the said marketing agreement and this part shall be one-tenth cent ($0.001) per hundredweight, or equivalent quantity, of potatoes handled by him as the first handler thereof during said fiscal period, except potatoes for canning, freezing, and "other processing" as defined in the act shall be exempt.

(c) Unexpended income in excess of expenses for the fiscal period may be carried over as a reserve.

(d) Terms used in this section have the same meaning as when used in the said marketing agreement and this part.

Dated: August 6, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Animal and Plant Health Inspection Service

[9 CFR Part 317]

LABELING POLICY FOR CURED PRODUCTS

Proposed Changes in Interpretation

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553 that the Animal and Plant Health Inspection Service is considering amending Part 317 of the meat inspection regulations (9 CFR Part 317), pursuant to the authority in the Federal Meat Inspection Act, as amended (34 Stat. 1260, as amended; 21 U.S.C. 621).

Statement of Considerations. A number of meat processors have petitioned the Department requesting an exemption for certain classes of meat food products from the requirement that all curing ingredients be declared on the product label. The petitioners contend that products such as "Bean Soup with Bacon" or "Beans with Ham in Sauce" are not "Cured Meat Products" per se, and that cured meats such as "bacon" or "ham" are used only as part of the culinary function and always found in small quantities in such products. The petitioners also state that the cured meats used in their products are often purchased from several vendors, and in most cases each uses a different curing formula. They claim this will result in a difficult and costly labeling program if they are compelled to use a separate ingredients list to cover the formulations used by different vendors. Curing ingredients serve their functional purpose when the meat is being cured. A portion of the curing ingredients are degraded in the curing process, while a residual and nonfunctional quantity may remain in the finished cured meat product. When small quantities of cured meat are added to other meat food products (for condimental or culinary purposes), such as addition of bacon to bean soup, or ham to beans in sauce, there is no indication that any residual quantities of the curing ingredients remaining in the meat serve any functional purpose in the final or finished meat food product.

In view of the above points, the petitions and other comments received from the meat industry with respect to declaration of curing ingredient(s) used in cured meat products, the Department is publishing the proposed amendment set forth below to offer all interested parties an opportunity to comment thereon.

Section 317.17 of the meat inspection regulations (9 CFR 317.17) would be amended to read as follows:

§ 317.17 Interpretation and statement of labeling policy for cured products.

Under sections 1(n) (7), (9), and (12) of the Act and § 317.2 of this subchapter, labels of products fabricated from two or more ingredients must show the common or usual names of such ingredients in the manner provided for in § 317.2. This includes ingredients such as water, salt, sugar, sodium phosphate, sodium nitrate and sodium nitrite or other permitted substances in curing mixtures used in any ingredient of any product. However, specific formulations of meat food products will be exempted from the requirements of this section by the Administrator if he determines, upon application to him, that they contain curing substances only because they contain a small quantity of cured meat or other cured product, that was included in the formulations only for culinary or condimental purposes; such curing substances have no technical or functional effect in the meat food products; and the meat food products are not intended for use as dietary foods subject to § 312.2(j) of this subchapter or foods for children under 4 years of age.

Any person wishing to submit written data, views, or arguments concerning the proposed amendment may do so by filing them in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by October 5, 1973.

Any person desiring opportunity for oral presentation of views should address such requests to the Labels and Packaging Staff, Scientific and Technical Services, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, so that arrangements may be made for such views to be presented prior to the date specified in the preceding paragraph. A record will be made of all views orally presented.

All written submissions and records of oral views made pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk during regular hours of business, unless the person makes the submission to the staff identified in the preceding paragraph and requests that it be held confidential. A determination will be made whether a proper showing in support of the request has been made on grounds that its disclosure could adversely affect such person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., on: July 3, 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CGD 73-163P]

LECHMERE CANAL, MASS.

Proposed Drawbridge Operation Regulations

At the request of the Massachusetts Department of Public Works, the Coast Guard is considering revising the regulations for the drawbridge at Commercial Avenue across the Lechmere Canal, Cambridge to require the draw to open on signal if at least 24 hours notice is given. The draw is presently required to open on signal. This change is being considered because of limited passage of vessels.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan-1), First Coast Guard District, 150 Causeway Street, Boston, Mass. 02114. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, First Coast Guard District.

The Commander, First Coast Guard District, will forward any comments received before September 11, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communication received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by revising § 117.75(a) (5) and (h) (4) to read as follows:

§ 117.75 Boston Harbor, Mass. and adjacent waters, bridges.

(a) • • •

(5) Charles River and tributaries.

• • • • • •

(h) *Charles River and tributaries.*

• • •

(4) Lechmere Canal Bridge, Commercial Avenue. The draw shall open on signal if at least 24 hours notice is given.

• • • • • •

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g) (2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g) (2); 49 CFR 1.46(c) (5), 33 CFR 1.05-1(c) (4))

Dated: August 1, 1973.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.73-16519 Filed 8-9-73;8:45 am]

[33 CFR Part 117]

[CGD 73-166 P]

WESTCHESTER CREEK, N.Y.

Proposed Drawbridge Operation Regulations

The Coast Guard is considering revising the regulations for the city of New York drawbridge across Westchester Creek at Bruckner Boulevard to require that the draw open on signal at all times, including morning and evening rush hour. The draw may presently remain closed to vessels from 7 to 9 a.m. and 4 to 6 p.m. Monday through Friday. This change is being considered because of the completion of the Cross Bronk Expressway which makes Bruckner Boulevard a secondary road.

Interested persons may participate in the proposed rule making by submitting written data, views, or arguments to the Commander (oan), Third Coast Guard District, Governors Island, New York, N.Y. 10004. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Third Coast Guard District.

The Commander, Third Coast Guard District, will forward any comments received before September 11, 1973, with his recommendations to the Chief, Office of Marine Environment Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by revising the heading of § 117.156 to read as follows:

§ 117.156 Bronx River, N.Y., City of New York bridge at Bruckner Avenue.

• • • • • •

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g) (2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g) (2); 49 CFR 1.46(c) (5), 33 CFR 1.05-1(c) (4))

Dated: August 3, 1973.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.73-16516 Filed 8-9-73;8:45 am]

[33 CFR Part 117]

[CGD 73-164P]

BIG CARLOS PASS AND MATLACHA PASS, FLA.

Proposed Drawbridge Operation Regulations

At the request of the Florida Department of Transportation, the Coast Guard is considering amending the regulations for the State Road S-865 drawbridge across Big Carlos Pass and the State Road S-78 drawbridge across Matlacha Pass to require the draws of these bridges to open on signal from 8 a.m. to 7 p.m. They are presently required to open on signal from 7 a.m. to 7 p.m. This is being considered due to limited openings between 7 a.m. and 8 a.m. There was one opening of the Big Carlos Pass draw between 7 a.m. and 8 a.m. in 1972 and there were 6 openings of the Matlacha Pass draw during the same period.

Interested persons may participate in this proposed rulemaking by submitting written data, views, or arguments to the Commander, (oan), Seventh Coast Guard District, Room 1018 Federal Building, 51 SW 1st Avenue Miami, Florida 33130. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Seventh Coast Guard District.

The Commander, Seventh Coast Guard District, will forward any comments received before September 11, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may

V 38-154 AUG 10 73 XUM

be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by revising subparagraph (2–a) and (2–b) of paragraph (i) of § 117.245 to read as follows:

§ 117.245 **Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.**

. . . . . .

(i) • • •

(2–a) Big Carlos Pass, Florida; State Road S–865 drawbridge. The draw shall open on signal from 8 a.m. to 7 p.m. The draw need not open from 7 p.m. to 8 a.m.

(2–b) Matlacha Pass, Florida; State Road S–78 drawbridge. The draw shall open on signal from 8 a.m. to 7 p.m. The draw need not open from 7 p.m. to 8 a.m.

. . . . . .

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05–1(c)(4))

Dated: August 1, 1973.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.
